ORDER SETTING

STATUS CONFERENCE

CONTESTED CASE NAME: *In re Joel William Rubin*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: Telephonic status conference set for **March 19, 2021 at 1:30 p.m.**

NUMBER OF PAGES: 3

DATE OF FILING: March 10, 2021

On March 10, 2021, Salt River Project Agricultural Improvement and Power District and Salt River Valley Water Users' Association ("SRP") filed a Request for Status Conference ("Request").

1 The Watershed File Report in this case identified potential water rights for a domestic
2 use, irrigation, and a small reservoir. At prior status conferences, the parties have discussed
3 the basis for potential legal rights for *de minimis* water uses identified by Arizona Department
4 of Water Resources. Counsel for SRP stated that a 1921 State Water Commissioner survey
5 shows that the subject land was irrigated in whole or in part. Counsel for the San Carlos
6 Apache indicated that her files may have information relevant to Ms. Knox' claims.
7 Discussions have also focused on the location, as defined by legal coordinates, of the residences
8 on the land and the location of the well that serves as the source of water.
9

10 Counsel the Salt River Project stated in the Request that since the trial date was set in
11 this case, little if any discovery has occurred. He also reports that Ms. Knox has advised him
12 that she has been dealing with serious medical issues. Based on the foregoing,
