MINUTE ENTRY

The Arizona Department of Water Resources ("ADWR" or the "Department") has requested to meet with the Court to discuss various issues relating to the resources available to provide technical assistance in Arizona's water adjudications. This request came at an opportune time because the Court intended to announce that it wished to confer with ADWR's director regarding the improved state of Arizona's economy and the need to seek additional funding to permit the Department to commence additional pending projects related to matters pending in the Gila River and Little Colorado River system proceedings. Accordingly, the Court gives notice to the parties that it will meet with representatives of ADWR on April 21, 2005, to consider the current and prospective levels of resources available for adjudication projects and other matters related to insuring that pending proceedings move forward as expeditiously as possible.
