March 4, 2022

The Honorable Michael J. Dunleavy, Governor
Members of the Legislature
Citizens of the State of Alaska

In accordance with Alaska Statute (AS) 37.05.210, it is our pleasure to present the Annual Comprehensive Financial Report (ACFR) of the State of Alaska for the fiscal year ending June 30, 2021. This report has been prepared by the Department of Administration, Division of Finance. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the State. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State. Statistical and demographic information are included to enable the reader to gain an understanding of the State's financial activities.

INTRODUCTION

Internal Controls

The Department of Administration, Division of Finance, is primarily responsible for the overall operation of the State's central accounting system. The State's system of internal controls over the accounting system has been designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Some component units operate outside the State's central accounting system. Those component units are responsible for establishing and maintaining their own separate internal control structures.

Audits

The Division of Legislative Audit is the principal auditor of the State's reporting entity. The audit of the ACFR was conducted in accordance with generally accepted auditing standards (GAAS). The independent auditor's report is the first item in the financial section of the ACFR and precedes the Management Discussion and Analysis (MD&A) and basic financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2021, are free of material misstatement. The audit involved examining, on a test basis, evidence

supporting the amounts and disclosures in the ACFR, assessing the accounting principles used, and evaluating the overall financial statement presentation.

In addition to the annual audit of the State's ACFR, the State is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget's Uniform Grant Guidance 2 CFR Part 200. Information related to this single audit, including a schedule of expenditures of federal awards, the auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs will be published at a later date under separate cover by the Division of Legislative Audit.

Management's Discussion and Analysis

Governmental Accounting Standards Board Statement No. 34 requires that management provide a narrative introduction, overview, and analysis of the State's financial activities. This transmittal letter is intended to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE STATE OF ALASKA

The State of Alaska was the 49th state admitted into the Union in 1959. The Alaska Constitution was adopted by the Constitutional Convention February 5, 1956, ratified by the people of Alaska April 24, 1956, and became operative with the formal proclamation of statehood January 3, 1959.

There are three branches of government: legislative, executive, and judicial. The legislative power of the State is vested in a legislature consisting of a Senate with a membership of 20 and a House of Representatives with a membership of 40. The executive power of the State is vested in the governor. The judicial power of the State is vested in a supreme court, a superior court, and the courts established by the legislature. The jurisdiction of courts and judicial districts are prescribed by law. The courts constitute a unified judicial system for operation and administration.

The State of Alaska reporting entity reflected in this ACFR, which is described more fully in Note 1 to the basic financial statements, conforms with the requirements of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. These criteria include financial accountability, fiscal dependency, and legal standing. The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents. The financial statements should allow users to distinguish between the primary government (the State) and its component units, with the emphasis being on the primary government. Consequently, this transmittal letter, the MD&A, and the financial statements focus on the State and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

The State provides a range of services including education, health and human services, transportation, law enforcement, judicial, public safety, community and economic development, public improvements, and general administrative services.

Budgetary Control

The State maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the budget appropriated annually by the legislature. Annual operating budgets are adopted for governmental funds (General, Permanent, and Special Revenue) through passage of

appropriation bills (session laws) by the legislature with approval by the governor. These laws also identify the source of funding for the budgeted amounts. Control is maintained at the departmental level by recording budgeted amounts, funding sources, expenditures, and encumbrances within the appropriation structure in the State’s central accounting system. Open encumbrances are reported as committed fund balance at the end of the fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Economy

The well-being of the State of Alaska is best reflected in the operations of the General Fund. The General Fund is the State’s primary operating fund and accounts for all financial resources except those required to be accounted for in another fund. The State maintains many accounts and subfunds (created by law) that are accounted for and reported within the General Fund. Four of the most notable are the Constitutional Budget Reserve Fund (CBRF), the Statutory Budget Reserve Fund (SBRF), the Permanent Fund Dividend Fund, and the Public Education Fund. Because of materiality and public interest in these funds, individual fund data for each is provided in the combining statements for the General Fund included in this report.

The following table shows General Fund revenues by category for the current and previous fiscal year. The largest source of revenues is federal at \$4.9 billion, which makes up 68.1 percent of revenues. Revenue related to taxes decreased from 16.7 percent to 13.4 percent and rents and royalties decreased from 11.9 percent to 10.5 percent of all General Fund Revenues. Interest and investment income was \$124.8 million or 1.7 percent of all General Fund revenues. Overall General Fund revenues increased \$1,122.8 million or 18.5 percent from FY 2020 to FY 2021.

Not all revenues that flow into the General Fund are available to pay for unrestricted government activities. The most notable are federal revenues, which are provided for specific purposes.

Revenue Source	FY 2021	Percent	FY 2020	Percent
Taxes	\$ 963.3	13.4 %	\$ 1,010.0	16.7 %
Rent and Royalties	751.9	10.5	721.7	11.9
Interest and Investment Income/(Loss)	124.8	1.7	274.0	4.5
Federal	4,893.6	68.1	3,615.9	59.6
Miscellaneous	453.2	6.3	442.3	7.3
Total Revenue	<u>\$ 7,186.8</u>	<u>100.0 %</u>	<u>\$ 6,063.9</u>	<u>100.0 %</u>

The total expenditures charged against General Fund appropriations during FY 2021 amounted to \$11.48 billion, an increase of \$1.65 billion from FY 2020. Overall, the increase is attributable to an increase in funds received related to COVID-19, as well as the reversal of the FY 2020 Power Cost Equalization Fund Sweep. Expenditures by department are compared with the prior year in the following table:

Department Expenditures (stated in millions)	FY 2021	Percent	FY 2020	Percent
Office of the Governor	29.5	0.3 %	\$ 65.1	0.7 %
Administration	1,457.5	12.7	378.3	3.8
Law	58.1	0.5	63.7	0.6
Revenue	745.3	6.5	1,144.3	11.6
Education and Early Development	1,669.2	14.4	1,666.6	17.0
Health and Social Services	3,641.1	31.7	3,025.2	30.8
Labor and Workforce Development	191.8	1.7	122.2	1.2
Commerce, Community, and Economic Development	1,003.2	8.7	614.2	6.2
Military and Veterans' Affairs	112.1	1.0	85.2	0.9
Natural Resources	150.9	1.3	267.0	2.7
Fish and Game	145.0	1.3	137.2	1.4
Public Safety	201.2	1.8	176.5	1.8
Environmental Conservation	100.0	0.9	88.6	0.9
Corrections	342.1	3.0	348.9	3.5
Transportation and Public Facilities	1,133.4	9.9	1,107.8	11.3
Legislature	62.7	0.5	63.9	0.7
Debt Service	39.2	0.3	50.6	0.6
Alaska Court System	109.6	1.0	110.7	1.1
University	287.3	2.5	312.9	3.2
Total Expenditures	<u>\$ 11,479.2</u>	<u>100.0 %</u>	<u>\$ 9,828.9</u>	<u>100.0 %</u>

Major Industry

Alaska North Slope oil prices averaged approximately \$54 per barrel during FY 2021. The Alaska Department of Revenue's most recent forecast was \$61 per barrel for FY 2022 and \$62 per barrel for FY 2023. Forecasting oil prices is inherently difficult and very uncertain.

Oil prices were relatively stable, generally between \$40 and \$50 per barrel, during the first half of FY 2021 following a temporary price crash and pandemic driven demand destruction in Spring 2020. The second half of FY 2021 saw prices steadily rising to over \$70 as demand increased and the economy recovered. Uncertainty remains about future prices.

In terms of oil production, output has stabilized over the past several years, averaging slightly below 500,000 barrels per day. Although the State uses conservative estimates of future production for planning purposes, potential future developments hold promise that production may continue at current levels or even increase in coming years. One example is Oil Search's Pikka unit which could potentially deliver over 100,000 barrels of oil per day and would be a significant event for the future of North Slope oil production. Other new developments include ConocoPhillips' Willow project, continued development in the National Petroleum Reserve – Alaska (NPR-A), and opportunities for new drilling within existing fields. These new developments still have uncertainty and face hurdles prior to receiving final investment decision approvals. For example, in August 2021 a federal court reversed a key environmental approval

for Willow, and also in August 2021 an acquisition was announced of Oil Search, the Pikka unit developer.

Efforts to monetize the world-class natural gas resources on Alaska's North Slope continue. The Alaska Gasline Development Corporation (AGDC) is an independent, public corporation of the State of Alaska, with a legal existence separate and distinct from the State of Alaska. AGDC currently has the overall responsibility of developing a project to monetize Alaska's vast North Slope natural gas. AGDC is leading the development of the Alaska LNG Project and has received all 36 major federal and state permits required to construct the project and export 20 million tons per annum of LNG from Alaska. The project consists of three subprojects designed to export North Slope gas from the Prudhoe Bay and Point Thomson Units through a Gas Treatment Plant, a Mainline Pipeline, and a Liquefaction Facility in Nikiski, Alaska. AGDC is working towards a model where the private sector will lead the Alaska LNG Project and is currently working with strategic parties who have a combined market capitalization exceeding \$1.25 trillion. These private sector entities include buyers of LNG, parties interested in investing the project, and parties interested in building, owning, and operating portions of the project.

Long-term Financial Planning

As of June 30, 2021, the State's General Obligation debt ratings were AA-/A+/Aa3 from S&P Global Ratings (S&P), Fitch Ratings (Fitch), and Moody's Investors Service, Inc. (Moody's), respectively. The outlook on S&P and Moody's ratings is stable, and the outlook on the Fitch rating is negative. On April 22, 2021, Moody's revised the State of Alaska's outlook to stable from negative. On May 4, 2021, S&P revised the State of Alaska's outlook to stable from negative.

Net position at June 30, 2021 of the two largest pension funds, the Public Employees' (PERS) and Teachers' (TRS) Retirement Systems' funds, were \$24.6 billion and \$11.5 billion, respectively. The funding status for PERS and TRS pensions and postemployment healthcare as of the June 30, 2020 actuarial valuations indicated the actuarial accrued liabilities were 63.6 percent pensions and 113.5 percent postemployment funded for PERS, and 75.0 percent pension and 121.4 percent postemployment funded for TRS. Further information on these and other pension funds, including the Supplemental Benefits System and Deferred Compensation plans, can be found in Notes 7, 8, and 9 to the basic financial statements.

In the years since 2014, when State revenues reached their peak, Alaska has spent \$14.0 billion from the two primary savings accounts, the Statutory Budget Reserve Fund (SBRF) and the Constitutional Budget Reserve Fund (CBRF).

Alaska's fiscal challenges are primarily a result of the decline in traditional revenue sources, continued deficit spending, and cost pressures from statutory formula programs. Although revenue trends are improving, through an increase in the price of oil and market conditions, fiscal restructure is needed to avoid savings balances declining below the amount necessary to manage cashflow.

Relevant Financial Policies

Spending Limitation

Since July 1, 1981, the Alaska Constitution Article IX, Section 16, establishes the annual appropriation spending limit of \$2.5 billion plus a formula which factors in changes in population and inflation. This is further discussed in Note 2.

Investments

As discussed more fully in Note 4 to the basic financial statements, the State's cash is managed by the Treasury Division in the Department of Revenue or by other administrative bodies as determined by law. All cash deposited in the State Treasury is managed to achieve a particular target rate of return as determined by the investment objectives set for a given fund. Cash in excess of the amount needed to meet current expenditures is invested pursuant to AS 37.10.070-071, which requires that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

Treasury has established an array of investment pools with varying investment horizons and risk profiles. Investments are managed in a pooled environment unless required by statute or bond resolution to be held separately. Commingled investment pools maximize earnings potential, provide economies-of-scale, and allow smaller funds to participate in investment opportunities that would otherwise be unavailable to them. Rather than each participant (fund) buying identical individual securities, larger quantities of securities can be purchased at one time, reducing the operating costs and number of transactions. A fund's equity ownership in a pool is based on the number of shares held by the fund.

Cash Flow and Revenue Shortfalls

After oil began flowing through the Trans-Alaska Pipeline in the late 1970s, the State enjoyed the enviable position of having sizeable sums of cash flowing into the State Treasury. This cash funded a steadily growing state operating budget, large and small annual capital budgets, and the State's permanent fund.

In more recent years, the reality of declining oil production and the corresponding decrease in available cash became more apparent. The volatility of oil prices has a profound effect on the annual budgeting process. Also associated with this volatility, though less widely understood, is a cash flow situation that could lead to a cash deficiency for the State.

Prior to 1985, most unrestricted revenues flowed directly into the State's General Fund where they were available to pay day-to-day costs of operating State government. This is no longer the case. Over time, the legislature has established many subfunds of the General Fund to segregate cash for budgeting purposes. In 1990 the legislature appropriated the entire General Fund balance available for appropriation at the end of FY 1991 to the SBRF. By a vote of the people in 1990, the Alaska Constitution was amended to establish the CBRF, into which oil tax settlement revenues are deposited. The effect of these actions diverted cash historically destined for the General Fund to other cash pools that were not available to pay day-to-day operating costs.

Also contributing to the potential for a cash deficiency is the fact that the inflow of unrestricted revenues does not mirror the outflow of cash expenditures. Revenues and expenditures are cyclic with high and low periods, which do not necessarily coincide. The first quarter expenditures of each fiscal year are generally higher than revenues for the same period. Clearly, if the General Fund (excluding the subfunds) does not have a large cash balance at the beginning of the fiscal year or if other sources of funds are not available, the State faces the possibility of a cash deficiency before the end of the first quarter. A memorandum of understanding outlines the steps to be taken in various scenarios involving a cash deficiency.

Borrowing from the budget reserve funds has been the solution for both cash flow shortages and revenue shortfalls. Between FY 1993 and FY 2005, the legislature addressed the possibility of a revenue shortfall

by including language in the appropriation act permitting the executive branch to borrow cash from the SBRF and the CBRF in the event expenditures exceeded revenues; which did occur in several years. All borrowings from the CBRF were repaid by FY 2010. In FY 2021 borrowing from the CBRF for both cash flow shortages and the insufficiency of the unrestricted fund balance of the General Fund to cover General Fund appropriations occurred. The Alaska Constitution requires these amounts be repaid to the CBRF. For FY 2021 the amount to be repaid is \$1.79 billion.

Initiatives

Governor Mike Dunleavy continues to advocate for an Alaska focused agenda that he promised when seeking office: a concentration on outcomes that Alaskans deserve; the individual being put first instead of the bureaucracy; and pursuing government efficiencies. Protecting and supporting the people of Alaska has been the forefront of the Governor's mission since the COVID-19 pandemic hit Alaska. With the significant influx of Federal funds, his Administration has worked tirelessly to deploy resources to businesses, communities, and families across the state. The Governor has introduced initiatives to continue to capitalize on responsible resource development and Alaska's strategic location, prepare Alaska's children for success, attain innovative sources of revenues, and address the State's fiscal future.

Closing the budget gap is a top priority and doing so will allow the State to shift its focus to the things that matter most to Alaskans; economic development, K-12 support and outcomes, and public safety. The Governor's proposed constitutional amendments encourages Alaskan's engagement in our State's fiscal future and path to sustainability by requiring a vote on proposed changes to the Permanent Fund Dividend, any new broad-based taxes, and a State spending cap to curb future spending growth.

Under the direction of Governor Dunleavy, this Administration continues to pursue agency performance measures finding efficiencies across all departments. This information is available on the Office of Management and Budget web site at <http://www.omb.alaska.gov>.

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each State agency, each component unit, and the dedicated staff within the Division of Finance.

Sincerely,

STATE OF ALASKA ORGANIZATION CHART

As of June 30, 2021

- - - Elected by popular vote (includes Lieutenant Governor, elected on same ticket as Governor).
- Justices and Judges of the Courts nominated by Judicial Council, selected by Governor and thereafter subject to voter approval.
- Department heads appointed by Governor and confirmed by the Legislature.

FUNCTIONS OF STATE DEPARTMENTS

OFFICE OF THE GOVERNOR

The Governor is the Chief Executive of the State. The Office of the Governor has the overall responsibility for coordinating the activities of state agencies to ensure that all programs are consistent with the Governor's policy and objectives.

ADMINISTRATION

The Department of Administration centralizes services to provide more efficient, cost-effective support to state agencies and Alaskans. Services to state agencies include: Labor Relations and Personnel, Finance (payroll accounting, and disbursements), Risk Management, Office of Information Technology (telecommunications and computer services), Retirement and Benefits (public employers, public employees, and retirees), and Shared Services (purchasing, surplus property, mail, managing public buildings, managing leases, accounts payable, debt collections, travel reimbursements, and credit card reconciliations).

The department also provides services to the public through the: Division of Motor Vehicles, Division of Retirement and Benefits, Office of Public Advocacy, Public Defender Agency, Alaska Public Offices Commission, Alaska Public Broadcasting Commission, and Office of Administrative Hearings.

COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT

The Department of Commerce, Community, and Economic Development promotes a healthy economy, strong communities, and protects consumers in Alaska.

The department consists of core agencies including: Division of Administrative Services, Division of Banking and Securities, Division of Corporations, Business, and Professional Licensing, Division of Community and Regional Affairs, Division of Insurance, and the Division of Economic Development. Various corporate agencies are also part of the department, including: Alaska Industrial Development and Export Authority, Alaska Energy Authority, Alaska Railroad Corporation, Alaska Gasline Development Corporation, Alaska Seafood Marketing Institute, Regulatory Commission of Alaska, and Alcohol and Marijuana Control Office, and the Alaska Oil and Gas Conservation Commission.

The department accomplishes its mission through programs that support business and industry growth, enforcing consumer protection, regulation and licensing laws, and by providing technical and financial assistance to Alaskans and Alaskan communities.

CORRECTIONS

The Department of Corrections is responsible for public safety through the incarceration and supervision of offenders. The department operates 12 correctional facilities and jails that provide secure confinement and appropriate rehabilitation programs for felons and misdemeanants; community residential centers; assessment and supervision of pretrial offenders in the community; supervision and case management of probationers

and parolees in the community; and oversight of 15 small community jails. Also included in the department is the Alaska Board of Parole, a quasi-judicial board that makes all parole related decisions.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for Alaska's system of public education. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the commissioner through department divisions. Programs administered include: public school funding, teacher certification, and student assessment. The department also operates Mt. Edgecumbe High School, the state's secondary boarding school program. The department administers the state libraries, archives, museum services, and provides administrative support to the Alaska State Council on the Arts who distributes grants to the arts community. Other state entities associated with the department for administrative purposes are the Alaska Commission on Post-secondary Education and the Alaska Student Loan Corporation.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state's regulatory agency responsible for protection of the environment and protection of citizens from unsafe sanitary practices.

To accomplish these results, the department develops and enforces standards for protection of the environment and the abatement of pollution to air, land, and water; and controls sanitary practices related to food, drinking water, and solid waste. Services to communities include financial and technical assistance for upgrading water, sewage, and solid waste; assistance meeting health-based standards for air quality; and positioning oil spill response equipment for preparedness and cleanup of oil and hazardous substance releases.

Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards to the environment and human health.

FISH AND GAME

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

The Boards of Fisheries and Game are responsible for adopting regulations to conserve and develop the state's fish and wildlife

resources. The Commercial Fisheries Entry Commission is a quasi-judicial agency that promotes resource conservation and sustained yield management by regulating entry into Alaska's commercial fisheries. The department also includes the Exxon Valdez Oil Spill Trustee Council, which oversees restoration of the injured ecosystem through the use of the \$900 million civil settlement.

HEALTH AND SOCIAL SERVICES

The Department of Health and Social Services' mission is to promote and protect the health and well-being of Alaskans. The department and its nine divisions focus on three priority areas: health and wellness across the lifespan; health care access, delivery, and value; and safe and responsible individuals, families, and communities. Within these three priority areas, the department's seven core services are to: protect and promote the health of Alaskans; provide quality of life in a safe living environment for Alaskans; manage health care coverage for Alaskans in need; facilitate access to affordable health care for Alaskans; strengthen Alaska families; protect vulnerable Alaskans; and promote personal responsibility and accountable decisions by Alaskans.

The department's primary services include: administering Medicaid services for low-income and disabled Alaskans through the Division of Health Care Services and Behavioral Health; operation of the Alaska Veterans and Pioneers Homes; support services for seniors, providing support to disabled Alaskans and vulnerable adults through the Division of Senior and Disabilities Services; providing child protection and family preservation programs through the Office of Children's Services; operating youth detention facilities, including helping offenders transition back into their communities, through the Division of Juvenile Justice; and offering basic financial assistance, with an emphasis on self-sufficiency, to Alaskans in need through the Division of Public Assistance.

The department is committed to prevention of illness, health promotion and protection, and emergency preparedness through the Division of Public Health; and the Division of Behavioral Health oversees community-based mental health and substance abuse services across the continuum of care (prevention, early intervention, treatment, and recovery programs). The department also provides acute, inpatient mental health services for anyone in Alaska requiring hospitalization for a psychiatric crisis through the operation of the Alaska Psychiatric Institute.

LABOR AND WORKFORCE DEVELOPMENT

The Department of Labor and Workforce Development is responsible for advancing opportunities for employment and ensuring that employers provide safe and legal working conditions. The department offers employment services, unemployment insurance, adult basic education, job training, workers' compensation adjudication and rehabilitation services, the Fishermen's and Second Injury Funds, and vocational rehabilitation for people with disabilities. In addition, the department enforces laws and regulations assuring occupational safety and health, performs mechanical inspections, and administers state wage and hour laws; serves as the labor relations agency for public employment in the state; and collects, analyzes, and releases labor market and population statistics.

Also, included in the department are the Alaska Workforce Investment Board, the Workers' Compensation Appeals Commission, and the Alaska Vocational Technical Center.

LAW

The Department of Law is responsible for ensuring safe communities in part through the prosecution and conviction of criminal offenders. The department files both misdemeanor and felony charges; serves as legal advisor to grand juries; and represents the state in all phases of criminal trial and appellate proceedings. It provides legal assistance to state and local law enforcement, the Department of Corrections, and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties, and defending the state against claims for personal injury and other damages.

MILITARY AND VETERANS AFFAIRS

The Department of Military and Veterans' Affairs provides forces to accomplish military missions in the state and around the world; provides homeland security and defense; emergency preparedness, response and recovery; veterans' services; youth military style training and education; and public safety emergency communications and telecommunications infrastructure services. The commissioner serves as the Adjutant General of the State of Alaska with command authority of approximately 4,000 Army and Air guardsmen of the Alaska National Guard, and oversees or supports additional entities to or aligned with the Department:

- Alaska Air Guard - Provides mission-ready forces to protect the public safety of the citizens of Alaska by supporting civil authorities and local communities in which we work and live. Additionally, provides combat capability in support of federal missions.
- Alaska Army Guard - Maintains ready units and soldiers that are available to support the Governor and fellow Alaskans for domestic operations while also ready to deploy worldwide in support of the National Military Strategy.
- Joint Force Headquarters - Coordinates domestic operations and provides specific capabilities to local, tribal, state and federal government agencies in response to incidents that exceed their capacity.
- Alaska State Defense Force - A volunteer organization who augments and supports the Alaska National Guard in various missions including communications, emergency management, medical, logistical support, chaplaincy, and shelter management.
- Alaska Naval Militia - Maintains relationships with the United States Navy Reserve to secure Naval Militia response capability in Alaska.
- Division of Homeland Security & Emergency Management - Leads the way in emergency management to foster a prepared, resilient Alaska capable of meeting the needs of its communities and citizens in response to all-hazards events.
- Office of Veterans' Affairs - Serves as the primary advocate for Alaska's veterans and strives to help veterans and their families improve their lives.
- Alaska Military Youth Academy - Helps intervene in and reclaim the lives of Alaska's at-risk youth and produce

graduates with the values, skills, education, and self-discipline to succeed as adults.

- Alaska Public Safety Communication Services - Assures public safety emergency communications services are reliable and available to Alaska's first responders and critical workforce and the public they serve. Assures telecommunications infrastructure services are available and reliable for all state and partner agencies.
- Administrative Services - Provides effective and efficient administrative, budget, financial management, human resources, and procurement products and services.
- Alaska Aerospace Corporation - Administratively aligned within department with separate and independent legal existence; provides integration, checkout, and launch facilities to Government and commercial customers from the Nation's only high latitude, full service spaceport. Other key services include Mobile Range Instrumentation and Meteorological Forecasting.

NATURAL RESOURCES

The Department of Natural Resources manages the majority of state-owned land, water and natural resources, except fish and game. These resources include approximately 100 million acres of uplands; 60 million acres of tidelands, shore lands, and submerged lands; and 40,000 miles of coastline. Strategic missions include: Responsibly develop Alaska's resources by making them available for maximum use and benefit consistent with the public interest; foster responsible commercial development and use of state land and natural resources consistent with the public interest, for long-term wealth and employment; mitigate threat to the public from natural hazards by providing comprehensive wildland fire protection services on state, private, and municipal lands, and through identifying significant geological hazards; provide access to state lands for public and private use, settlement, agricultural development, and recreation; ensure sufficient data acquisition and assessment of land and resources to foster responsible resource development; and promoting and developing an agriculture industry.

The department serves the state from offices located in 28 Alaskan communities, and encompasses the divisions of Agriculture; Forestry; Geological and Geophysical Surveys; Mining, Land and Water; Oil & Gas; Parks and Outdoor Recreation, and Support Services; the Office of Project Management and Permitting; the Mental Health Trust Land Office; the Seismic Hazards Safety Commission, and the Board of Agriculture & Conservation.

The department is responsible for managing the resources and revenues associated with the two largest oil and gas fields in North America and over 1,860 oil and gas leases encompassing 3.8 million acres; a park system that contains one-third of the nation's state park lands; 40% of the nation's fresh water; fire suppression management for over 134 million acres; forest resource management in three state forests totaling over 2 million acres; mineral management involving over 38,000 mining claims and leases encompassing approximately 3 million acres; agricultural programs that promote, develop, inspect, and provide technical assistance and lending services to over 950 farms; a comprehensive archive of indigenous plant materials; and a geologic sample archive representing more than 48 million feet of oil and gas exploration and production drilling, and 300,000 feet of mineral exploration core drilling throughout the state. The department also serves as the USDA representative for

phytosanitary inspection, provide harmonized good agricultural audits and retail surveillance.

PUBLIC SAFETY

The Department of Public Safety is responsible for the enforcement of state laws including criminal and fish and wildlife protection laws, fire and life safety, search and rescue, and highway safety laws; maintaining Alaska's central repository of criminal history record information and automated fingerprint identification system; providing forensic crime laboratory services to law enforcement statewide; certifying police proficiency; providing basic police academy and specialized training to municipal and state law enforcement agencies; certifying fire service personnel; oversight of the Village Public Safety Officer program; and assisting victims of domestic violence and sexual assault.

REVENUE

The Department of Revenue's responsibilities include; administration and enforcement of Alaska's tax laws; management of the treasury; administration of the Permanent Fund Dividend Program; collection and distribution of child support; and administrative support to the following independent boards and corporations: Alaska Permanent Fund Corporation; Alaska Housing Finance Corporation; Alaska Municipal Bond Bank Authority; Alaska Retirement Management Board; and the Alaska Mental Health Trust Authority.

TRANSPORTATION AND PUBLIC FACILITIES

The Department of Transportation and Public Facilities is responsible for the planning, research, design, construction, maintenance, operation, and protection of all state transportation systems and many public facilities. This includes state-owned airports and seaplane bases, center line miles of state roads, buildings ranging from maintenance shops to state office complexes, and harbor facilities. In addition, the department owns and operates the Alaska Marine Highway System, serving 33 Alaskan communities, Bellingham, WA, and Prince Rupert, BC with a fleet of ships. The department also owns and operates the State Equipment Fleet, which provides full maintenance support and replacement activities of light- and heavy-duty vehicles, and attachments for state departments, agencies, and offices.

Independent Auditor's Report

Citizens of the State of Alaska:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Alaska Permanent Fund, International Airports Fund, University of Alaska, Alaska Housing Finance Corporation, Alaska Industrial Development and Export Authority, Alaska Railroad Corporation, Alaska Energy Authority, Alaska Municipal Bond Bank Authority, Alaska Clean Water Fund, Alaska Drinking Water Fund, Retiree Health Fund, the Invested Assets Under the Investment Authority of the Commissioner of Revenue, and Pension and Other Employee Benefit Trust Funds except for the Alaska National Guard and Alaska Naval Militia Retirement Fund. As shown on the following page, those financial statements reflect assets and revenues of the indicated opinion units.

<u>Opinion Unit</u>	<u>Percent of Assets</u>	<u>Percent of Revenues</u>
Governmental Activities	90%	74%
Business-Type Activities	80%	36%
Aggregate Discretely Presented Component Units	90%	92%
Major Funds:		
General Fund	78%	2%
Alaska Permanent Fund	100%	100%
Alaska International Airports	100%	100%
Aggregate Remaining Fund Information	95%	94%

Those statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for those accounts, funds, retirement plans, and component units is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified and qualified audit opinions.

Basis for Qualified Opinion on the General Fund

State of Alaska's General Fund rents and royalties are not reported in accordance with generally accepted accounting principles and management declined to correct the misstatements. Misstatements include an unreported General Fund prior period adjustment of \$199.0 million for overstated General Fund royalty revenues of \$99.8 million in FY 18 and \$99.2 million in FY 19, and an understatement of \$199.0 million due to other funds. The misstatement was caused by the Department of Natural Resources' failure to transfer all statutorily dedicated revenues to the Alaska Permanent Fund. The statutory dedications of royalty revenues are required by law to be deposited in the Permanent Fund.

Further, fund balances of the State of Alaska’s General Fund were not reported in accordance with generally accepted accounting principles and management declined to correct the misstatements. The misstatements were the result of the Attorney General’s determination that FY 22 appropriations signed into law prior to July 1, 2021, but with a July 1 effective date, are validly assigned by the legislature and are not considered available for appropriation and, therefore, not subject to the constitutional requirement to repay the Constitutional Budget Reserve Fund. Evidence contradicts the Attorney General’s position and supports a determination that related fund balance is unassigned as of June 30, 2021. Misstatements include an understatement to General Fund unassigned fund balance of \$108.6 million and overstatements to assigned fund balance for education of \$23.7 million, assigned fund balance for health and human services of \$29.3 million, assigned fund balance for public protection of \$13.5 million, and assigned fund balance for development of \$42.1.

Note two relating to the State’s Constitutional Budget Reserve Fund, a subfund of the General Fund also referred to as the State’s rainy day fund or savings account, is materially misstated by \$1.5 billion and management declined to correct the misstatement. The overstatement is the result of not correcting for the \$199.0 million misstatement discussed above, the failure to repay the Constitutional Budget Reserve Fund \$108.6 million at year-end, and the Attorney General’s guidance to the Department of Revenue and the Department of Natural Resources that concludes taxes, royalties, and interest received as a result of decisions by the Federal Energy Regulatory Commission are not required to be deposited in the Constitutional Budget Reserve Fund. Historically the receipts have been deposited in the Constitutional Budget Reserve Fund. Additionally, taxes due as a result of Federal Energy Regulatory Commission decisions were permitted to be offset against tax credits owed to taxpayers, which further misstated the Constitutional Budget Reserve Fund balance. The Attorney General also asserted that similar monies received in prior years that were deposited in the Constitutional Budget Reserve Fund should be reclassified as General Fund monies, thereby reducing the amount that the General Fund must repay the Constitutional Budget Reserve Fund in the future. Legal analysis does not support the Attorney General’s position. The failure to properly deposit monies received during the fiscal years ended June 30, 2018, June 30, 2019, June 30, 2020, and June 30, 2021, and the reclassification of prior year monies, violates state law and provides misleading information to users of the financial statements.

Qualified Opinion

In our opinion, based on our audit and the report of other auditors, except for the effects of the matters described in the “Basis for Qualified Opinion on the General Fund” paragraphs, the financial statements referred to above present fairly, in all material respects, the financial position of the General Fund of the State of Alaska, as of June 30, 2021, the changes in financial position, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the aggregate discretely presented component

units, Alaska Permanent Fund, Alaska International Airports, the Unemployment Compensation Fund, and the aggregate remaining fund information of the State of Alaska, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison and the Corresponding Notes, and Pension and Other Postemployment Benefit Plans Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We, and the other auditors, have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the Required Supplementary Information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Alaska's basic financial statements. The combining and individual nonmajor fund financial statements, and the other information such as the introductory and statistical sections, index of funds, legend of acronyms, and section divider pages are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole, except for the effect of uncorrected misstatements in Statements 3.01 and 3.02 as described in the *Basis for Qualified Opinion on the General Fund* paragraphs above.

The introductory section, statistical section, index of funds, legend of acronyms, and section divider pages have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

STATE OF ALASKA Management's Discussion and Analysis

As management of the State of Alaska, we offer readers of the State's financial statements this narrative overview and analysis of the financial activities of the State for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the preceding pages of this report, and the financial statements that follow.

Financial Highlights

Government-wide

- The assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at the close of FY 2021 by \$91.8 billion (net position). Of this amount, \$8.7 billion represents net investment in capital assets, \$62.8 billion is restricted for various purposes, and unrestricted net position is \$20.3 billion. Unrestricted net position may be used to meet the State's ongoing obligations to citizens and creditors.

Fund level

- As of the close of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$85.7 billion, with \$23.8 billion unrestricted (includes committed, assigned, and unassigned), \$61.7 billion nonspendable, and \$234.7 million restricted to specific purposes such as development, debt, and education. The nonspendable fund balance includes \$60.7 billion of the Alaska Permanent Fund principal with the remaining related to nonspendable assets such as inventory, advances and prepaid items, and the principal of other nonmajor permanent funds.
- At the end of the current fiscal year, unrestricted fund balance for the General Fund was a surplus of \$2.4 billion. This is a decrease of \$903.0 million from FY 2020. The decrease is mainly due to an unassigned fund balance decrease of \$944.7 million.

Long-term debt

- As a result of this year's activity, the State's total long-term debt decreased by \$234 million (2.85 percent). Long-term debt decreased primarily due to a decrease in unearned revenue due to expending and recognizing the Coronavirus Relief Funds and an increase in the net pension liability which was partially offset by a decrease in the other postemployment benefits (OPEB) liability. Additional information regarding long-term debt can be found in Note 6.

Overview of the Financial Statements

This Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the State's basic financial statements. The State's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements (reporting on the State as a whole)

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances, in a manner similar to a private-sector business. It includes all of the State's funds and component units except for fiduciary funds. However, the primary focus of the statements is clearly on the State and the presentation allows the user to address the relative relationship with the discretely presented component units.

The statement of net position presents information on all of the State's assets, liabilities and deferred outflows and inflows of resources. Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Over time, increases or decreases in net position should serve as a useful indicator of whether the financial position of the State is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless

of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

- **Governmental Activities** - Most of the State's basic services are reported in this category. Governmental activities are principally supported by interest and investment income, taxes, rents and royalties, and intergovernmental revenues. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- **Business-type Activities** - The State charges fees to customers to help it cover all or most of the cost of certain services it provides. The State's International Airports Fund, the various loan funds, and the Unemployment Compensation fund are examples of business-type activities.
- **Discretely Presented Component Units** - Component units are legally separate organizations for which the State is financially accountable. The State has one university and ten corporations and authorities that are reported as discretely presented component units of the State.

The government-wide financial statements are statement numbers 1.01 and 1.02.

This report includes two statements (statement numbers 1.12 and 1.14) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) on the appropriate government-wide statements. The following summarizes the impact of transitioning from modified accrual to accrual accounting.

- Capital assets (land, buildings, equipment, infrastructure, intangibles, and construction in progress) used in governmental activities are not reported in governmental fund statements.
- Pension and OPEB assets, and claims and judgments are not current available resources and are not reported in the governmental fund statements.
- Deferred outflows and deferred inflows are not reported in the governmental fund statements.
- Internal service funds are reported as governmental activities in the government-wide financial statements, but are reported as proprietary funds in the fund financial statements.
- Certain revenues, unavailable to pay for current period expenditures, are not reported in the governmental fund statements.
- Unless due and payable in the current period, certain long-term liabilities such as net pension liability, net OPEB liability, capital lease obligations, compensated absences, litigation, notes and bonds payable, and others only appear as liabilities in the government-wide statements.
- Capital outlay spending results in capital assets in the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond and other debt proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.
- Capital lease arrangements are considered a source of financing in the governmental funds but are reported as a liability in the Statement of Net Position.
- Certain expenditures are reported in the funds but either increase or decrease long-term liabilities or deferred outflows on the Statement of Net Position and have been eliminated from the Statement of Activities.

Fund Financial Statements (reporting on the State's major funds)

The fund financial statements are statement numbers 1.11 through 1.42 and provide detailed information about the major individual funds. The State has four major funds, the General Fund, the Alaska Permanent Fund, which are included in the governmental fund statements, and the International Airports Fund and Unemployment Compensation Fund which are included in the proprietary fund statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State of Alaska, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the State can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. We have also included the discretely presented component units in the fund financial statements and include detailed information on the four major component units, the University of Alaska, Alaska Housing Finance Corporation, Alaska Energy Authority and Alaska Industrial Development and Export Authority.

Governmental funds - Most of the State's basic services are reported in the governmental funds. Governmental funds include the General Fund, special revenue funds, capital projects funds, debt service funds, and permanent funds. Governmental fund financial statement focus is on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund financial statements are statement numbers 1.11 through 1.14.

As mentioned earlier, the State has only two major governmental funds, the Alaska Permanent Fund and the General Fund. Together these two funds represent 96.8 percent of total government-wide cash and investments and 92.2 percent of total government-wide net position (excluding component units). The governmental funds financial statements present detail on each of these funds, with summarized information on all other governmental funds. In addition, detail for each of the nonmajor governmental funds is available in combining statements elsewhere in this report.

The State's main operating fund is the General Fund. However, the State maintains many accounts and subfunds within the General Fund, including the Constitutional Budget Reserve Fund, the Statutory Budget Reserve Fund, the Permanent Fund Dividend Fund, and the Public Education Fund. Because of materiality and public interest in these funds, individual fund data for each of these subfunds is provided in the combining statement for the General Fund elsewhere in this report.

Proprietary funds - When the State charges customers for the services it provides, whether to outside customers or to other State agencies, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting, the same method used by private-sector businesses. Enterprise funds are used to report activities that provide supplies and services to the general public. The State uses enterprise funds to account for activities such as international airports operations, various loan funds, and the unemployment compensation fund. These activities are reported within business-type activities on the government-wide financial statements.

Internal service funds account for activities that provide supplies and services for other State programs. These include, among others, the State's equipment fleet and data processing/telecommunications. Because these services primarily benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund financial statements are statement numbers 1.21 through 1.23. The International Airports Fund and Unemployment Compensation Fund are major enterprise funds of the State of Alaska. The International Airports Fund is 2.7 percent of total government-wide liabilities (excluding component units). The Unemployment Compensation Fund is 0.1 percent of total government-wide liabilities (excluding component units). The proprietary funds financial statements present detail for these two funds with summarized information on all other proprietary funds. In addition, detail for each of the nonmajor proprietary funds is provided in the combining statements elsewhere in this report.

Fiduciary funds - The State acts as a trustee or fiduciary for its employee pension plans. In addition, it is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. These funds, which include pension (and other employee benefits), investment trust funds, and custodial funds, are reported using accrual accounting. Since fiduciary assets are restricted in purpose and are not available to support the State's own programs, these fiduciary assets are not presented as part of the government-wide financial statements.

The fiduciary fund financial statements are statement numbers 1.31 and 1.32.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the component unit statement of activities (statement number 1.42).

Additional Required Supplementary Information (RSI)

In addition to the basic financial statements and accompanying notes, this report includes additional required supplementary information. Included in the RSI is a budgetary comparison schedule for the General Fund reconciling the statutory and

generally accepted accounting principles (GAAP) fund balances at fiscal year-end (statement number 2.01). Also included are schedules displaying the proportionate share of the net pension and OPEB liability/asset, employer contribution amounts, the sources of changes in the net pension and OPEB liability/asset, components of the net pension and OPEB liability/asset and related ratios, and the net pension and OPEB liability/asset as a percentage of covered-employee payroll.

Other Supplementary Information

Other supplementary information includes combining financial statements for nonmajor governmental, proprietary, and fiduciary funds, as well as nonmajor discretely presented component units. These nonmajor funds are added together by fund type and presented in single columns in the basic financial statements, but are not reported individually on the fund financial statements. Only the major funds: the General Fund, the Alaska Permanent Fund, the International Airports Fund, and Unemployment Compensation Fund are presented individually on the primary government fund financial statements. Schedules of revenues, expenditures, and changes in fund balances - budget and actual are also presented for all governmental funds with annually adopted budgets.

Government-wide Financial Analysis

As noted earlier, net position should serve over time as a useful indicator of a government's financial position. State assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$91.8 billion at the close of FY 2021 (see table below). By far the largest portion of the State's net position (89.1 percent) reflects its investments held in the Alaska Permanent Fund. However, the majority of these assets are not available for future spending since the principal of the fund (\$60.7 billion) may not be spent.

The remainder of the State's net position (10.9 percent) represents net investment in capital assets (\$8.7 billion), resources that are subject to external restrictions of how they may be used (\$2.02 billion), and the remaining is unrestricted net position.

Net Position (Stated in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2021	FY 2020	FY 2021	FY 2020	FY 2021	FY 2020
Current and Other Noncurrent Assets	\$ 96,004	\$ 77,740	\$ 2,354	\$ 2,246	\$ 98,358	\$ 79,986
Capital Assets	8,334	7,934	1,141	1,185	9,475	9,119
Total Assets	104,338	85,674	3,495	3,431	107,833	89,105
Deferred Outflows of Resources	1,017	911	11	11	1,028	922
Long-term Liabilities	7,511	7,720	474	498	7,985	8,218
Other Liabilities	8,691	5,832	50	79	8,741	5,911
Total Liabilities	16,202	13,552	524	577	16,726	14,129
Deferred Inflows of Resources	363	283	5	5	368	288
Net Position:						
Net Investment in Capital Assets	7,835	7,425	833	863	8,668	8,288
Restricted	61,776	53,237	994	1,009	62,770	54,246
Unrestricted	19,179	12,088	1,150	988	20,329	13,076
Total Net Position	\$ 88,790	\$ 72,750	\$ 2,977	\$ 2,860	\$ 91,767	\$ 75,610

The net position of governmental activities increased \$16,040 million and business-type activities increased \$117 million. Governmental activities net position increased due to a large increase in interest and investment income associated with the Permanent Fund. The increase in business type activities is a result of this year's operations.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net position changed during FY 2021.

Financial Analysis of the State's Funds

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the State's financing requirements. In particular, unassigned, assigned, and committed fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$85.7 billion, a increase of \$15.6 billion in comparison with the prior year.

The General Fund unassigned and committed fund balances, which are available for spending at the government's discretion, had balances of \$1.0 billion, and \$1.5 billion, respectively. The Alaska Permanent Fund (earnings reserve account) had an unrestricted fund balance of \$21.1 billion of which \$14.1 billion is assigned and \$7.0 billion is committed. The remaining nonmajor governmental funds had committed fund balances of \$59.6 million. The remainder of fund balance is restricted or nonspendable to indicate that it is not available for new spending such as the principal of the Alaska Permanent Fund (\$60.7 billion), and other items that are nonspendable, such as inventory, advances and prepaid items, and principal (\$0.96 billion), and amounts restricted for a variety of other purposes (\$235 million).

The General Fund is the chief operating fund of the State. At the end of the current fiscal year, unrestricted fund balance (includes committed, assigned, and unassigned) of the General Fund was \$2.4 billion, while total fund balance reached \$2.7 billion. As a measure of the General Fund's liquidity, it may be useful to compare both unrestricted fund balance and total fund balance to total fund expenditures. Unrestricted fund balance represents 22.0 percent of total General Fund expenditures, while total fund balance represents 23.2 percent of that same amount.

The fund balance of the State's General Fund decreased by \$1.3 billion during the current fiscal year. For FY 2021, the most significant source of revenue was federal revenues (68.1 percent) followed by taxes (13.4 percent). For FY 2021, the increase in revenues is attributable to a large increase in federal funds received related to COVID-19. There also was a large increase in expenditures related to COVID-19 funding as well as the reversal of the \$1.0 billion FY 2020 Power Cost Equalization Fund transfer.

General Fund revenues for FY 2021 were \$7.19 billion, an increase of \$1.12 billion compared to revenues of \$6.06 billion for FY 2020. Revenues by source for FY 2021 are compared to FY 2020 in the following schedule (in millions):

Revenue Source	FY 2021	Percent	FY 2020	Percent
Taxes	\$ 963.3	13.4 %	\$ 1,010.0	16.7 %
Rents and Royalties	751.9	10.5	721.7	11.9
Interest and Investment Income/(Loss)	124.8	1.7	274.0	4.5
Federal	4,893.6	68.1	3,615.9	59.6
Miscellaneous	453.2	6.3	442.3	7.3
Total Revenue	\$ 7,186.7	100.0 %	\$ 6,063.9	100.0 %

The primary components of the \$1,122.8 million increase in General Fund revenue are \$30.2 million in rents and royalties, \$11.0 million in miscellaneous revenue including payments in from component units and a \$1,277.7 million increase in federal revenue during FY 2021. The increases were partially offset by a \$46.7 million decrease in taxes, and a \$149.2 million decrease in interest and investment income.

Alaska Permanent Fund

The Alaska Permanent Fund (fund) is an asset of the State of Alaska that is managed by the Alaska Permanent Fund Corporation, an instrumentality of the State of Alaska.

In 1976 the Alaska Constitution was amended to provide that: *At least twenty-five percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in a permanent fund, the principal of which shall be used only for those income-producing investments specifically designated by law as eligible for permanent fund investments. All income from the permanent fund shall be deposited in the General Fund unless otherwise provided by law.*

The fund is made up of three parts.

- **Nonspendable Fund Balances:** The nonspendable fund balances, or principal, include all historical contributions and appropriations, which are the main body of the fund. On June 30, 2021, this amounted to \$46.9 billion. The sources of contributions and appropriations of the fund, since inception, were as follows: \$17.9 billion in dedicated mineral revenues; \$18 billion of fund realized earnings transferred to principal for inflation proofing; \$10.9 billion in additional deposits approved by special legislative appropriation, and \$153 million in settlement earnings (State v. Amerada Hess, et al.).

A portion of accumulated unrealized appreciation on invested assets is also part of the nonspendable fund balances. The unrealized amounts allocated to contributions and appropriations are nonspendable, unless and until they become realized, at which point they will be transferred to the assigned fund balance. The portion of the unrealized appreciation at the end of the fiscal year allocated to principal amounted to \$13.8 billion.

- **Committed Fund Balances:** The committed fund balances are realized earnings of the Fund which have been designated by appropriation for a specific purpose and meet other criteria as defined by Generally Accepted Accounting Principles. During FY 2019, legislation was passed which provides for a transfer from the Earning Reserve Account to the General Fund for the payment of unrestricted General Fund expenditures, including the dividend. The amount of the transfer is based upon a percentage of the average market value of the Fund at the end of the first five of the preceding six fiscal years. The legislation took effect on July 1, 2019. The FY 2021 balance sheet reflects a commitment of fund balance of \$3.1 billion for transfer during FY 2022.

During FY21, legislation was passed to transfer \$4.0 billion from the Earnings Reserve Account to the corpus in FY22. This transfer will take place in FY22 and the amount is reflected as committed fund balance on the June 30, 2021 balance sheet.

- **Assigned Fund Balances:** The assigned fund balances, which are available for legislative appropriation per AS 37.13.145, consist of \$9.3 billion in realized earnings of the fund and \$4.8 billion in accumulated unrealized appreciation.

General Fund Budgetary Highlights

The difference between the original expenditure budget and the final amended budget was a net increase of \$43 million in appropriations (or 0.2 percent). The net effect of increases and decrease in appropriations can be briefly summarized as follows:

- \$586 million decrease allocated to transportation
- \$276 million increase allocated to public protection
- \$539 million increase allocated to development
- \$381 million decrease allocated to health and human services
- \$126 million increase allocated to education
- The balance is allocated across several expenditure functions

The overall increase in appropriated expenditures was funded out of additional federal receipts in the amount of \$503 million. Interagency receipts (purchases between departments) of \$435.0 million make up the majority of other additional revenues.

The difference between the final amended budget and actual expenditures was \$9.5 billion (or 44.0 percent). The difference was primarily due to multiyear appropriations exceeding expenditures within FY 2021 by \$5.5 billion in transportation and a \$1.3 billion in health and human services.

The difference between the final amended budget and actual revenues was \$8.6 billion (or 53.2% percent). The difference was primarily due to multiyear appropriations exceeding revenues within FY 2021 by \$8.3 billion in Federal Grants in Aid. The biggest variances are due to capital projects that span several fiscal years.

Capital Assets and Debt Administration

Capital Assets

The State's net investment in capital assets for its governmental and business-type activities as of June 30, 2021, amounts to \$8.7 billion. The table below displays total capital assets, net of accumulated depreciation. Depreciation charges for FY 2021 totaled \$621 million for governmental activities and \$77 million for business-type activities.

Capital Assets

(Stated in Millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2021	FY 2020	FY 2021	FY 2020	FY 2021	FY 2020
Land	\$ 1,081	\$ 1,068	\$ 31	\$ 31	\$ 1,112	\$ 1,099
Buildings	1,487	1,535	571	600	2,058	2,135
Equipment	624	510	37	32	661	542
Infrastructure	3,650	3,242	479	507	4,129	3,749
Construction in Progress	1,492	1,580	23	14	1,515	1,594
Total Capital Assets	\$ 8,334	\$ 7,935	\$ 1,141	\$ 1,184	\$ 9,475	\$ 9,119

In FY 2021, increases were in infrastructure and equipment with an increase of \$380 million and \$119 million, respectively. These increases were offset with decreases in buildings and construction in progress in the amount of \$77 million and \$79 million, respectively. Additional information on the State's capital assets can be found in Note 5 in the notes to the basic financial statements.

Long-term Debt

At the end of the current fiscal year, the State had total bonded debt outstanding of \$1,375 million. Of this amount, \$725 million was general obligation bonds, and \$650 million of revenue bonds payable comprised of \$311 million issued by the Northern Tobacco Securitization Corporation (NTSC), and \$339 million issued by the International Airport Fund. The general obligation bonds are secured by the full faith, credit, and resources of the State, whereas the NTSC bonds are secured by and payable solely from Tobacco Settlement Revenues (TSRs). Neither the State of Alaska, nor the Alaska Housing Finance Corporation (of which NTSC is a subsidiary) is liable for any debt issued by NTSC. The remaining \$339 million are International Airports revenue bonds secured solely by specified revenue sources. The general obligation and NTSC bonds are reported as governmental activities debt, and the International Airports bonds are reported as business-type activities debt.

	Long-term Debt (Stated in millions)					
	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2021	FY 2020	FY 2021	FY 2020	FY 2021	FY 2020
Revenue Bonds Payable	\$ 311	\$ 313	\$ 339	\$ 355	\$ 650	\$ 668
General Obligation Debt	725	672	—	—	725	672
Notes Payable	4	7	—	—	4	7
Capital Leases Payable	211	230	—	—	211	230
Unearned Revenue	627	1,220	25	36	653	1,256
Certificates of Participation	22	24	—	—	22	24
Compensated Absences	198	181	5	5	204	186
Claims and Judgments	217	225	—	—	217	225
Pollution Remediation	131	125	6	6	137	131
Other Noncurrent Liabilities	35	3	35	34	70	37
Net OPEB Liability	3	105	—	2	3	107
Net Pension Liability	5,027	4,616	63	60	5,090	4,676
Total	\$ 7,511	\$ 7,721	\$ 473	\$ 498	\$ 7,985	\$ 8,218

The State's total long-term debt decreased by \$234 million (2.85 percent) during FY 2021. The decrease in debt is primarily due to a decrease in unearned revenue due to Coronavirus Relief Funds and an increase in the net pension liability which was partially offset by an decrease in the OPEB liability.

With the implementation of GASB Statement 68 and 75, the State of Alaska reported net pension liabilities and net OPEB liabilities/assets in relation to a special funding situation in the amount of \$2,158.2 million net pension liability, and \$293.3 million net OPEB asset. The State of Alaska, Department of Law issued a legal opinion that the State of Alaska is not legally responsible for this portion of the net pension liability. Regardless, the financial statements must be reported under generally accepted accounting principles.

As of June 30, 2021, the State's General Obligation debt ratings were AA-/A+/Aa3 from S&P Global Ratings (S&P), Fitch Ratings (Fitch), and Moody's Investors Service, Inc. (Moody's), respectively. The outlook on S&P and Moody's ratings is stable, and the outlook on the Fitch rating is negative. On April 22, 2021, Moody's revised the State of Alaska's outlook to stable from negative. On May 4, 2021, S&P revised the State of Alaska's outlook to stable from negative.

Additional information regarding the State's long-term debt can be found in Note 6, in the notes to the basic financial statements.

Significant Facts

The Public Employee's Retirement System's (PERS) net investment income increased \$5.0 billion to \$5.8 billion during FY 2021. The Teacher's Retirement System's (TRS) net investment income increased \$2.3 billion to \$2.7 billion during FY 2021.

In 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, Fiduciary Activities which was implemented in FY 2021. This statement establishes criteria for identifying and classifying fiduciary activities of state and local governments. It describes four fiduciary funds that should be reported, if applicable: 1) pension (and other employee benefit) trust funds, 2) investment trust funds, 3) private-purpose trust funds, and 4) custodial funds, which generally should report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds, or private-purpose trust funds. Several fund changes are reflected in the financial statements due to the implementation of GASB 84, see Note 14 for additional details.

The Permanent Fund ended the fiscal year at 29.73 percent total return. The components of this increase were \$1.5 billion in stock dividends, bond interest, and cash flow income from other investments, \$320 million in dedicated mineral deposits, and an increase in the fair value of investments of \$18.1 billion offset by operating expenses and other appropriations of \$175

million and the General Fund transfer of \$3.1 billion. These results were significantly stronger than the 2.01 percent of FY 2020 and were well above the average over the Fund's history. FY 2021's results significantly outperformed any market returns since 1985 which have ranged from -17.96 percent to 25.58 percent. Please see Note 1 for further information regarding this blended component unit and how to obtain the separately issued financial statements.

Economic Factors and Next Year's Budgets and Rates

- The State's average unemployment rate for FY 2021 was 7.0 percent, up slightly from the seasonally adjusted average unemployment rate for FY 2020. Alaska's five year average (2017 to 2021) was 6.5 percent. The United States unemployment rate for FY 2021 was 6.4 percent.
- Total General Fund revenue for FY 2021 was \$7.2 billion. Three sources of revenue accounted for 92.0 percent of total state revenue; federal, taxes, and rents and royalties. Federal accounted for 68.1 percent, taxes accounted for 13.4 percent, and rents and royalties accounted for 10.5 percent of general fund revenue. The State's budget is primarily structured around petroleum and federal revenue. Federal funds are generally restricted for use for federal programs and therefore cannot be used to balance the State budget. Petroleum revenues continue to be of concern with fluctuating oil prices and lawmakers continuing to use State reserves to close budget gaps.
- FY 2021 crude oil and natural gas liquids production in the State of Alaska for the North Slope averaged 485 thousand barrels per day. This is 15 thousand barrels per day more than in the prior year. In Cook Inlet, production averaged approximately 11 thousand barrels per day; a decrease of about three thousand barrels per day compared to the prior year.
- The State of Alaska FY 2021 budgeted expenditures include certain items that are unique to Alaska, such as the Alaska Permanent Fund Dividend and State-operated Pioneer Homes. The Alaska Permanent Fund Dividend (\$992/resident) was paid to each qualifying Alaskan for a total of \$632 million.

Requests for Information

This financial report is designed to provide a general overview of the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Alaska, Division of Finance, P.O. Box 110204, Juneau, AK 99811-0204.

Governmental Funds Financial Statements

MAJOR FUNDS

- **General Fund** - This fund is the State's operating fund. It accounts for the financial resources and transactions not accounted for in other funds. A description of the General Fund accounts and sub-funds are presented in the Combining Fund Statements.
- **Alaska Permanent Fund** - Alaska Constitution, Article IX, Section 15 - Administered by the Alaska Permanent Fund Corporation. The Alaska Constitution provides that at least 25 percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in the Alaska Permanent Fund.

NONMAJOR FUNDS

Other non-major governmental funds are presented by fund type in the Combining Fund Statements.

Reconciliation of the Balance Sheet to the Statement of Net Position

Governmental Funds

June 30, 2021

(Stated in Thousands)

Total Fund Balances - Governmental Funds	\$	85,680,272
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds (Note 5). These assets consist of:		
Equipment, net of depreciation	459,339	
Buildings, net of depreciation	1,364,405	
Infrastructure, net of depreciation	3,649,578	
Land / right-of-way	1,081,704	
Construction in progress	<u>1,456,015</u>	8,011,041
Some of the state's assets are not current available resources and are not reported in the funds.		
Claims and judgments, net of federal reimbursement	2,592	
Net pension asset (Note 7)	20,031	
Other post employment benefits asset (Note 7)	<u>538,559</u>	561,182
Deferred outflows of resources that are not reported in the funds.		
Losses on bond refunding	4,271	
Related to pensions	794,254	
Related to OPEB	<u>207,932</u>	1,006,457
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position (See Statement 1.21).		
		428,852
Certain revenues are not available to pay for the current period's expenditures and therefore are not reported in the funds.		
		256,714
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds (Note 6).		
Claims and judgments, net of federal reimbursement	(216,841)	
Compensated absences	(192,183)	
Pollution remediation	(130,533)	
Capital lease obligations	(211,165)	
Net pension liability	(4,969,526)	
Net OPEB liability	<u>(3,204)</u>	(5,723,452)
Long-term bonded debt is not due and payable in the current period and therefore is not reported in the funds (Note 6).		
Notes and bonds payable	(1,057,867)	
Accrued interest payable	<u>(15,176)</u>	(1,073,043)
Deferred inflows of resources related to pensions that are not reported in the funds.		
		(358,360)
Net Position of Governmental Activities	\$	<u><u>88,789,663</u></u>

The notes to the financial statements are an integral part of this statement.

Reconciliation of the Change in Fund Balances to the Statement of Activities

Governmental Funds

For the Fiscal Year Ended June 30, 2021

(Stated in Thousands)

Net Change in Fund Balances - Total Governmental Funds	\$ 15,535,816
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Primarily this is the amount by which capital outlays exceeded depreciation in the current period (Note 5).	
Capital outlay	984,464
Depreciation expense	<u>(591,084)</u>
	393,380
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported in governmental activities in the Statement of Revenues, Expenses, and Changes in Fund Net Position (Statement 1.22).	
Net current year revenue	10,473
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the fund.	
	(2,025)
Bond and other debt proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position (See Statement 1.02).	
Bonds issued	(84,560)
Bonds issued premium	(26,204)
Accrued interest	(2,085)
Repayment of bond principal	62,313
Amortization of bond cost	<u>—</u>
	(50,536)
Some capital additions were financed through capital leases. In the governmental funds, a capital lease arrangement is considered a source of financing, but in the Statement of Net Position (See Statement 1.01), the lease obligation is reported as a liability.	
	(3,561)
Certain expenditures are reported in the funds. However, they either increase or decrease long-term liabilities or deferred outflows reported on the Statement of Net Position (See Statement 1.01) and have been eliminated from the Statement of Activities (See Statement 1.02).	
Claims and judgments	7,904
Compensated absences	(16,534)
Pollution remediation	(5,306)
Capital lease payments	22,126
Pension	(239,869)
Other post employment benefits	<u>381,926</u>
	150,247
Change in Net Position of Governmental Activities	<u>\$ 16,033,794</u>

The notes to the financial statements are an integral part of this statement.

This page intentionally left blank.

Proprietary Funds

Financial Statements

Proprietary funds are used to account for the State's business-type activities. The two fund types classified as proprietary funds are enterprise funds and internal service funds.

MAJOR ENTERPRISE FUNDS

Enterprise funds account for business-like state activities that provide goods and/or services to the public and are financed primarily through user charges. The following are the State's major enterprise funds.

- **International Airports Fund (Fund 3123)** - AS 37.15.420, AS 37.15.430 - Administered by the Department of Transportation and Public Facilities. This fund consists of all revenues, fees, charges, and rentals derived by the State from the ownership, lease, use, and operation of the international airports.
- **Unemployment Compensation Fund (Fund 3284)** - AS 23.20.130 - Administered by the Department of Labor and Workforce Development. This federal trust fund is established and maintained in the United States Treasury. It is used to account for unemployment contributions from employers and unemployment benefits paid to eligible claimants.

NONMAJOR FUNDS

Non-major proprietary funds are presented by fund type in the Combining Fund Statements.

Component Units

Financial Statements

Component units are legally separate entities for which the primary government is financially accountable or such that their exclusion would cause the State's financial statements to be misleading or incomplete.

MAJOR COMPONENT UNITS

- **University of Alaska** - AS 14.40.040 - is established as a corporation and is an instrumentality of the State. The university is created and acts for the benefit of the State and the public in providing education in accordance with an express mandate of the constitution.
- **Alaska Housing Finance Corporation (AHFC)** - AS 18.56.020 - is a public corporation and government instrumentality within the Department of Revenue, but having a legal existence independent of and separate from the State. The purpose of AHFC is to assist in providing decent, safe, and sanitary housing by financing mortgage loans.
- **Alaska Industrial Development and Export Authority (AIDEA)** - AS 44.88.020 - is a public corporation of the State and a political subdivision within the Department of Commerce, Community, and Economic Development (DCCED). The purpose of AIDEA is to promote, develop, and advance the general prosperity and economic welfare of the people of Alaska; to relieve problems of unemployment; to create additional employment by providing various means of financing; and to facilitate the financing of industrial, manufacturing, export, and business enterprises within the State.
- **Alaska Energy Authority (AEA)** - AS 44.83.020 - is a public corporation of the State within the DCCED, but with a separate and independent legal existence. The purpose of AEA is to promote, develop, and advance the general prosperity and economic welfare of the people of the State by providing a means of constructing, acquiring, financing, and operating power projects and facilities that recover and use waste energy.

NONMAJOR COMPONENT UNITS

Non-major component units are presented in the Combining Fund Statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Alaska have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles, which are primarily set forth in GASB's Codification of Governmental Accounting and Financial Reporting Standards. Preparation of financial statements in conformity with GAAP requires the use of estimates, as disclosed in the applicable notes.

A. THE FINANCIAL REPORTING ENTITY

The State of Alaska (State) was admitted to the Union in 1959 and is governed by an elected governor and a 60 member elected legislature. As required by GAAP, these financial statements present all the fund types of the State which includes all agencies, boards, commissions, authorities, courts, and colleges and universities that are legally part of the State (primary government) and its component units discussed below. Component units are legally separate entities for which the primary government is financially accountable or such that their exclusion would cause the State's financial statements to be misleading or incomplete.

The following component units are included in the accompanying financial statements. Blended component units, although legally separate entities, are, in substance, part of the State's operations and provide services entirely or almost entirely to the State. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the State. The determination that a discretely presented component unit is "major" is based on the nature and significance of its relationship to the primary government. Fiduciary component units are reported in the fiduciary section of the fund financial statements and are not included in the government-wide financial statements. Individual component unit financial reports may also be obtained from these organizations as indicated.

BLENDED COMPONENT UNITS

The **Alaska Housing Capital Corporation** (AHCC) is a public corporation and government instrumentality of, but having a legal existence independent and separate from, the State. AHCC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation (AHFC). The commissioners of the departments of Revenue; Commerce, Community and Economic Development; Health and Social Services; and four independent public members appointed by the Governor comprise the AHCC board of directors. The Legislature appropriates the budget for AHCC for the purpose of funding future capital projects for the State. The corporation has the power to borrow money and issue bonds on its own behalf. AHCC is reported within the governmental funds as a special revenue fund. AHCC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Permanent Fund Corporation** (APFC) is a public corporation and government instrumentality in the Department of Revenue, Alaska Statute (AS) 37.13.040. A governor-appointed six-member board manages APFC. The Legislature approves APFC's budget. The purpose of APFC is to manage and invest the assets of the Alaska Permanent Fund (Fund) and other funds designated by law. The Fund is a savings device, restricted as to usage, which belongs to all the people of Alaska. It was created in 1976 when the voters approved an amendment to the State Constitution. The beneficiaries of the Fund are all present and future generations of Alaskans. The Fund represents 92 percent of the total cash and investments and 89 percent of total government-wide net position excluding discretely presented component units. The Fund is reported as a permanent fund (a governmental fund type), and APFC operations are included in the fund statements. Separately issued financial statements may be obtained from the Alaska Permanent Fund Corporation, P.O. Box 115500, Juneau, AK 99811-5500, or from their web site at www.apfc.org.

The **Northern Tobacco Securitization Corporation** (NTSC) is a public corporation and government instrumentality of, but having a legal existence independent and separate from, the State. NTSC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation (AHFC). The commissioners of the departments of Revenue; Health and Social Services; and Commerce, Community and Economic Development; and two independent public members appointed by the Governor comprise the NTSC board of directors.

The purpose of NTSC is to purchase future rights, title, and interest in Tobacco Settlement Revenues (TSRs) from the State under the Master Settlement Agreement and Final Judgment (MSA). The MSA resolved cigarette smoking-related litigation between the settling states and the participating manufacturers, released the manufacturers from past and present smoking-related claims, and provides for a continuing release of future smoking-related claims, in exchange for certain payments to be made to the settling states, as well as certain tobacco advertising and marketing restrictions among other things.

NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose. When NTSC's obligations with the bonds have been fulfilled, the TSRs revert back to the State under the residual certificate. Consideration paid by NTSC through AHFC to the State for TSRs consisted of a cash amount sent to the State's custodial trust accounts and a residual certificate assigned to the State.

The bonds of NTSC are asset-backed instruments secured solely by the TSRs and NTSC's right to receive TSRs is expected to produce funding for its obligations. The TSR payments are dependent on a variety of factors, some of which are: the financial capability of the participating manufacturers to pay TSRs; future cigarette consumption that impacts the TSR payment; and future legal and legislative challenges against the tobacco manufacturers and the MSA providing for the TSRs. Pursuant to bond indentures, these adjustments could affect the amount of funds available to pay scheduled debt service payments.

NTSC is reported in the governmental fund types as special revenue and debt service funds. The revenue bond debt is reported in the government-wide statement of net position in the governmental fund activities column. NTSC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska State Council on the Arts (ASCA)** is a public corporation and an instrumentality of the State within the Department of Education and Early Development, but with a legal existence independent of and separate from the State (AS 44.27.040). The Governor appoints members of the ASCA board of directors. The Legislature approves ASCA's budget. ASCA was created for the purpose of stimulating and encouraging throughout the State the study and presentation of the performing, visual, literary, and fine arts and public interest, participation, and investment in the arts. ASCA financial statements are included in the Combining Fund section of this ACFR with the Nonmajor Special Revenue Funds as supplementary information. There are no separately issued financial statements for ASCA.

DISCRETELY PRESENTED COMPONENT UNITS

The **Alaska Aerospace Corporation (AAC)** is a public corporation of the State located for administrative purposes within the Department of Military and Veterans Affairs (AS 26.27.010). The Governor appoints the voting members of the AAC board of directors, and the Legislature approves AAC's budget. AAC is also affiliated with the University of Alaska but with a separate and independent legal existence. The purpose of AAC is to allow the State to take a lead role in the exploration and development of space, to enhance human and economic development, to provide a unified direction for space-related economic growth, education and research development, and tourism related activities. AAC is also to promote the continued utilization of the Poker Flat Research Range as a launch site for launch vehicles and for scientific research. Additionally, AAC is to promote and encourage the continued utilization of Poker Flat Research Range for the University of Alaska's polar research efforts. AAC financial statements may be obtained from the Alaska Aerospace Corporation, 4300 B Street, Suite 101, Anchorage, AK 99503.

The **Alaska Energy Authority (AEA)** is a public corporation of the State in the Department of Commerce, Community and Economic Development but with a separate and independent legal existence (AS 44.83.020) and is a major component unit. The purpose of AEA was to promote, develop, and advance the general prosperity and economic welfare of the people of the State by providing a means of constructing, acquiring, financing, and operating power projects and facilities that recover and use waste energy.

However, Chapters 18 and 19, Session Laws of Alaska (SLA) 1993, which became effective August 11, 1993, eliminated the ability of AEA to construct, own, and acquire energy projects, and the programs operated by AEA were transferred to the Department of Community and Regional Affairs. The corporate structure of AEA was retained but the board of directors of the Alaska Industrial Development and Export Authority (AIDEA) is now the board of directors of AEA. It is the intent of the legislation that ongoing operation of the operating assets be assumed by the electric utility companies that use or purchase power from AEA with oversight responsibility retained by AEA. The Governor appoints all members of the AEA board of directors, and the Legislature approves AEA's budget.

Pursuant to legislation effective July 1, 1999, rural energy programs previously administered by the former Department of Community and Regional Affairs were transferred to AEA for administration as part of a larger reorganization of State agencies. Rural energy programs were originally part of AEA prior to the reorganization that occurred in 1993. AEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Gasline Development Corporation** (AGDC) is a public corporation and governmental instrumentality within the Department of Commerce, Community, and Economic Development, but having a legal existence independent and separate from the State (AS 31.25.010). Currently, the commissioners of the departments of Commerce, Community and Economic Development; and Labor and Workforce Development, and five independent public members appointed by the Governor and confirmed by the Legislature comprise the AGDC board of directors. The Legislature appropriates the budget for AGDC for the purpose of planning, constructing, and financing in-state natural gas pipeline projects. The corporation has the power to borrow money and issue bonds on its own behalf. AGDC financial statements may be obtained from the Alaska Gasline Development Corporation, 3201 C Street, Suite 201, Anchorage, AK 99503.

The **Alaska Housing Finance Corporation** (AHFC) is a public corporation, a government instrumentality within the Department of Revenue, but having a legal existence independent of and separate from the State (AS 18.56.020), and is a major component unit. The Governor appoints the board of directors of AHFC. The Legislature approves AHFC's budget. AHFC assists in providing decent, safe, and sanitary housing by financing mortgage loans. AHFC acts as the principal source of residential financing in the State and functions as a secondary mortgage market. AHFC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Industrial Development and Export Authority** (AIDEA) is a public corporation of the State, a political subdivision within the Department of Commerce, Community and Economic Development (AS 44.88.020), and is a major component unit. The Governor appoints all members of the AIDEA board of directors and the Legislature approves AIDEA's budget. The purpose of AIDEA is to promote, develop, and advance the general prosperity and economic welfare of the people of Alaska; to relieve problems of unemployment; to create additional employment by providing various means of financing; and to facilitate the financing of industrial, manufacturing, export, and business enterprises within the State. AIDEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Mental Health Trust Authority** (AMHTA) is established as a public corporation of the State within the Department of Revenue (AS 47.30.011). The Governor appoints the AMHTA board of trustees. The Legislature approves AMHTA's budget. The purpose of AMHTA is to ensure an integrated comprehensive mental health program. As provided in AS 37.14.009, AMHTA is to administer the trust established under the Alaska Mental Health Enabling Act of 1956. AMHTA financial statements may be obtained from the Alaska Mental Health Trust Authority, 3745 Community Park Loop, Suite 200, Anchorage, AK 99508.

The **Alaska Municipal Bond Bank Authority** (AMBBA) is a public corporation and an instrumentality of the State within the Department of Revenue, but with a legal existence independent of and separate from the State (AS 44.85.020). The Governor appoints members of the AMBBA board of directors. The Legislature approves AMBBA's budget. AMBBA was created for the purpose of making available to municipalities within the state, monies to finance their capital projects or for other authorized purposes by means of issuance of bonds by AMBBA and use of proceeds from such bonds to purchase from the municipalities their general obligation and revenue bonds. AMBBA commenced operations in August 1975. AMBBA financial statements may be obtained from the Alaska Municipal Bond Bank Authority, P.O. Box 110405, Juneau, AK 99801.

The **Alaska Railroad Corporation** (ARRC) is a public corporation and instrumentality of the State within the Department of Commerce, Community and Economic Development (AS 42.40.010). ARRC has a legal existence independent of and separate from the State. The powers of ARRC are vested in the board of directors. All members of the board of directors of ARRC are appointed by and serve at the pleasure of the Governor. ARRC was created by the State Legislature to own and operate the railroad and manage its rail, industrial, port, and other properties. The ARRC commenced operations on January 6, 1985. ARRC financial statements may be obtained from the Alaska Railroad Corporation, P.O. Box 107500, Anchorage, AK 99510-7500.

The **Alaska Student Loan Corporation** (ASLC) is a public corporation and government instrumentality within the Department of Education and Early Development but having a legal existence independent of and separate from the State (AS 14.42.100). ASLC is governed by a board of directors appointed by the Governor. The Legislature approves ASLC's budget. The purpose of ASLC is to improve higher educational opportunities for residents of the State. ASLC financial statements may be obtained from the Alaska Commission on Postsecondary Education, P.O. Box 110505, Juneau, AK 99811-0505.

The **University of Alaska** is established as a corporation and is an instrumentality of the State (AS 14.40.040) and is a major component unit. A board of regents appointed by the Governor and confirmed by the Legislature governs the university. The Legislature approves the university's budget. The university is created and acts for the benefit of the State and the public in

providing education in accordance with an express mandate of the constitution. The financial statements of the university include the assets, liabilities, and related activity of the University of Alaska Foundation, a legally separate nonprofit component unit. The university is not accountable for, nor has ownership of, the foundation's resources. The university's financial statements may be obtained from the University of Alaska, Statewide Fund Accounting, 2025 Yukon Drive, suite 209B P.O. Box 756540, Fairbanks, AK 99775-6540.

The **Alaska Seafood Marketing Institute** (ASMI) is a public corporation of the State (AS 16.51.010). It is an instrumentality of the State with a legal existence independent of and separate from the State. ASMI is governed by a board of directors appointed by the Governor, and its budget is approved by the Legislature. The purpose of ASMI is to promote all species of seafood and their by-products harvested in Alaska for sale, and to develop market-oriented quality specifications. Exercise of the powers conferred by statute to ASMI is an essential governmental function. ASMI financial statements are included in the Combining Fund section of this ACFR with the Nonmajor Component Units. The Alaska Seafood Marketing Institute financial statements may be obtained from Alaska Seafood Marketing Institute, 311 N. Franklin Street, Suite 200, Juneau, AK 99801.

FIDUCIARY COMPONENT UNITS

The **Public Employees' Retirement System** (PERS) was established by AS 39.35.095 (defined benefit) and AS 39.35.700 (defined contribution). The Commissioner of the Department of Administration or the commissioner's designee is the administrator of PERS. The administrator is responsible for the administration of PERS in accordance with state statutes. The Commissioner of the Department of Administration adopts regulations to govern the operation of the PERS. Hearings and rulings on the appeal of the decision of the administrator are in the jurisdiction of the Office of Administrative Hearings (OAH). The Alaska Retirement Management Board (ARMB) approves employers' rates. PERS costs, based upon actuarial valuations, are funded by the State, participating governmental employers, and participants. PERS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of PERS and consists of nine trustees: the Commissioners of the Department of Administration and Revenue; two members of the general public; one member who is employed as a finance officer for a political subdivision participating in either the PERS or Teachers' Retirement System (TRS); two members of PERS; and two members of TRS. All members of ARMB are appointed by and serve at the pleasure of the Governor.

The **Teachers' Retirement System** was established by AS 14.25.009 (defined benefit) and AS 14.25.310 (defined contribution). The Commissioner of the Department of Administration or the commissioner's designee is the administrator of the system. The administrator is responsible for the administration of TRS in accordance with State statutes. The Commissioner of the Department of Administration adopts regulations to govern the operation of the TRS. Hearings and rulings on the appeal of the decision of the administrator are in the jurisdiction of the OAH. ARMB approves employers' rates. TRS costs, based upon actuarial valuations, are funded by the State, participating governmental employers, and participants. TRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of TRS.

The **Judicial Retirement System** (JRS) was established by AS 22.25.048. The Commissioner of the Department of Administration is responsible for the administration of JRS. JRS costs, based upon actuarial valuations, are funded by the State and participants. JRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of JRS.

The **Alaska National Guard and Alaska Naval Militia Retirement System** (NGNMRS) was established by AS 26.05.222. The Commissioner of the Department of Administration is responsible for the administration of NGNMRS. NGNMRS costs, based upon actuarial valuations, are funded by the State. NGNMRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The ARMB is the fiduciary of NGNMRS.

The **Supplemental Benefits System** (SBS) was established by AS 39.30.150. The Commissioner of the Department of Administration is responsible for the administration of SBS. SBS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of SBS.

The **Deferred Compensation Plan** (DCP) was established by AS 39.45.010. The Commissioner of the Department of Administration is responsible for the administration of DCP. DCP is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of DCP. Copies of the audited financial statements for the retirement systems (excluding NGNMRS), and for SBS and DCP, may be obtained from the Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/dr/b/>.

B. BASIC FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements (as well as these notes to the financial statements). The previous financial reporting model emphasized fund types (the total of all funds of a particular type), while the current financial reporting model focus is on either the State as a whole (government-wide statements), or on major individual funds (fund financial statements). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information of all nonfiduciary activities of the State and its component units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from the component units for which the primary government is financially accountable.

The Statement of Net Position presents the reporting entity's nonfiduciary assets and deferred outflows of resources, less liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

- **Net Investment in Capital Assets** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other borrowing that are attributed to the acquisition, construction, or improvement of those assets.
- **Restricted Net Position** results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** consists of net position that does not meet the definition of the two preceding categories. The unrestricted net position often is designated to indicate management does not consider them available for general operations (see note 1.F.). The unrestricted net position often has constraints on resources that are imposed by management but can be modified or removed.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide statements. The fund financial statements focus on major funds, of which the State has four: the General Fund and the Alaska Permanent Fund, both of which are governmental funds; and the International Airports Fund and the Unemployment Compensation Fund, both of which are enterprise funds. All nonmajor funds are summarized into a single column on the respective fund statements: governmental; proprietary, which includes enterprise and internal service fund types; and fiduciary, which includes pension (and other employee benefit) trust funds, investment trust funds, and custodial funds.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to finance operations during the current year or to liquidate liabilities existing at the end of the year (collectible within 60 days of fiscal year end). When an asset is recorded in governmental fund financial statements, but the revenue is not available, the government reports a deferred inflow of resources until such time as the revenue becomes

available. Major revenues that are determined to be susceptible to accrual include federal, charges for services, investment income, and petroleum related taxes and royalties.

Expenditures are recognized when a liability is incurred. However, expenditures related to debt service, compensated absences, and claims and judgments are recorded only when payment is due and payable.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are reported as nonoperating.

When both restricted and unrestricted resources are available for use, it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

D. FINANCIAL STATEMENT PRESENTATION

The State reports four major funds: the General Fund, and the Alaska Permanent Fund, both of which are governmental funds, and the International Airports Fund and the Unemployment Compensation Fund, both of which are proprietary enterprise funds. The General Fund is the State's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The Alaska Permanent Fund was created in 1976 to save a portion of the State's one-time oil wealth to produce income to benefit current and future generations. The International Airports Fund was created in 1961 to equip, finance, maintain, and operate two international airports located in Anchorage and Fairbanks. The Unemployment Compensation Fund is administered by the Department of Labor and Workforce Development and is used to account for unemployment contributions from employers and unemployment benefits paid to claimants. In addition, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

Special revenue funds are used to account for the proceeds of specific revenue sources that are generally legally restricted to expenditure for specified purposes.

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital project funds account for the acquisition or construction of major capital facilities financed by bond proceeds.

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry. In addition to the Alaska Permanent Fund (major fund), the State has two other permanent funds, the Public School Trust Fund and the Alaska Mental Health Trust Authority (a discretely presented component unit).

PROPRIETARY FUND TYPES

Enterprise funds are used to report any activity for which a fee is charged to external users for goods and services.

Internal service funds are used to report any activity that provides goods or services primarily to other funds or agencies of the State, rather than to the general public. Internal service fund activities of the State include facilities management of State-owned buildings, self-insurance health care for State employees, vehicle and equipment maintenance and supplies, and computing and telecommunication services.

FIDUCIARY FUND TYPES

Pension (and other employee benefits) trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, and other postemployment benefit plans. These funds account for the Alaska National Guard and Alaska Naval Militia Retirement System, Deferred Compensation, Judicial Retirement System, Public Employees' Retirement System, Supplemental Benefits System, and Teachers' Retirement System.

Investment trust funds are used to report resources invested on a commingled basis by the State on behalf of other governmental entities. These funds include damage recoveries arising out of the Exxon Valdez oil spill.

Custodial funds are used to report resources for which the State acts solely in a custodial capacity. These funds include resources from unclaimed property, wage and hour, offender trust accounts, and advocacy/guardianship trusts.

E. FISCAL YEAR ENDS

All funds and discretely presented component units of the State are reported using fiscal years which end on June 30, except the Alaska Railroad Corporation whose fiscal year ends on December 31.

F. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION / FUND BALANCE

CASH AND INVESTMENTS, CASH AND CASH EQUIVALENTS

The amounts shown on the statements of net position and the balance sheets as Cash and Investments represent cash on deposit in banks, petty cash, cash invested in various short-term instruments, and other investments of the State and its component units. Investments are stated at fair value, which approximates market value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Investment purchases and sales are recorded on a trade-date basis.

Marketable debt securities are valued each business day using prices obtained from a pricing service when such prices are available; otherwise, such securities are valued at the most current sale price or based on a valuation provided by investment managers. The noninterest bearing deposits are reported at cost, which approximates fair value.

Equity securities are valued each business day using prices obtained from a pricing service or prices quoted by one or more independent brokers.

Private equity investments are valued quarterly by the general partners and investment sponsors. Underlying assets comprise venture capital, buyout, restructuring and special situation investments through limited partnership agreements. Each manager independently determines the limited partnerships to invest in.

The energy related investments consist primarily of loans and preferred stock that are valued at fair value.

Real estate, farmland, private infrastructure, and timber investments are valued quarterly by investment managers and are appraised annually by independent appraisers or valued by valuation specialists.

Other alternative investments within the fixed income and opportunistic asset classes are valued monthly by the general partners. Underlying assets comprise hedge fund investments through limited partnership agreements. Each manager independently determines the limited partnerships to invest in.

Securities expressed in terms of foreign currencies are translated into U.S. dollars at the prevailing exchange rates. Forward currency contracts are valued at the mid-point of representative quoted bid and asked prices.

The Statement of Cash Flows for the enterprise funds shows changes in cash and cash equivalents. For the purpose of the Statement of Cash Flows, all highly liquid debt instruments with original maturities of three months or less are considered cash and cash equivalents. This includes all participants in the Short-Term Fixed Income Pool and the Short-term Treasury Fixed Income Pool.

RECEIVABLES

Receivables have been established and offset with proper provisions for estimated uncollectible accounts where applicable. The amount of noncurrent receivables does not constitute expendable available financial resources and therefore are not available for appropriation.

Practically all accounts receivable of Governmental Funds are due from oil companies and governmental entities, primarily the federal government, and are considered collectible. Accounts receivable in other funds have arisen in the ordinary course of business.

INTER/INTRAFUND TRANSACTIONS

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

INVENTORIES AND PREPAID ITEMS

Inventories reported for the internal service funds and the General Fund consist mainly of consumable materials and supplies. Inventories are carried at cost (average cost for Highway Equipment Working Capital; first in first out (FIFO) for the General Fund) and are accounted for on the consumption method. However, the majority of materials and supplies for State agencies are accounted for as expenditures at the time of purchase. Inventory of the University of Alaska is carried at the lower of cost or market. The Alaska Railroad Corporation carries their inventories at the lower of weighted average cost or market.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as other assets in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

CAPITAL ASSETS

Capital assets are reported in the Statement of Net Position at cost or estimated historical cost. Donated capital assets are recorded at acquisition value at the time of donation including Statehood entitlement land that is carried at an estimated value of \$1 per acre.

Capital assets are depreciated on the straight-line method over the estimated useful lives of the related assets.

All public domain infrastructure acquired by the State, such as highways, bridges, harbors, and rural airports is capitalized.

The State possesses certain capital assets that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. These assets include the State’s art, library reserve, museum, and historical collections. These assets are held for public exhibition, education, or research rather than financial gain; protected, kept unencumbered, cared for, and preserved; and proceeds from the sale of collection items are used to acquire other items for collections.

Additional disclosures related to capital assets are provided in Note 5.

COMPENSATED ABSENCES

Regulations governing annual/personal leave (vacation pay) provide that State employees will receive time off, or pay, for hours accumulated. Consequently, a liability exists with respect to accumulated annual/personal leave at any given time. This liability is recognized and reported in the government-wide and proprietary fund financial statements. As of June 30, 2021, the State’s estimated liability for compensated absences, as reported in the government-wide Statement of Net Position, is \$198.3 million. There is no liability in the accompanying financial statements for unpaid accumulated sick leave. Accumulated sick leave may be used only for actual illness. When an employee separates from service, any sick leave balance to their credit is reduced to zero without additional compensation to the employee. See Note 12 for disclosure of the amount of the sick leave contingency.

The cost of compensated absences (annual/personal leave and sick leave) for State employees is charged against agency appropriations when leave is used rather than when leave is earned, except for the payment of the accumulated annual/personal leave balance for an employee terminating from state service. That amount is charged to a terminal leave liability account rather than the individual agency appropriation. This liability account is funded by a charge to each agency’s operating budget.

DEFERRED OUTFLOW/INFLOW OF RESOURCES

A deferred outflow of resources represents a consumption of net position applicable to a future reporting period and therefore is not recognized as a current year expense. A deferred inflow of resources is an acquisition of net position applicable to a future reporting period and therefore is not recognized as current year revenue.

NET POSITION / FUND BALANCE

Fund assets and deferred outflows less liabilities and deferred inflows is “net position” on the government-wide, proprietary, and fiduciary fund statements, and is “fund balance” on the governmental fund statements.

FUND BALANCE COMPONENTS

The fund balance amounts for governmental funds are reported as nonspendable, restricted, committed, assigned, or unassigned.

- Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.
- Restricted fund balance has constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Alaska Legislature, the State’s highest level of decision-making authority. This formal action is the passage of law by the legislature, creating, modifying, or rescinding an appropriation.
- Assigned fund balance includes amounts that are constrained by the State’s intent to be used for a specific purpose but are neither restricted nor committed. The Alaska Legislature is the body authorized by the Alaska State Constitution to assign amounts to a specific purpose. Alaska Statute 37.13.020 authorizes the Legislature to assign the funds in the Earnings Reserve Account, a component of the Alaska Permanent Fund.
- Unassigned fund balance is the residual amount of the General Fund not included in the four categories described above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

Each fund has been analyzed to classify the fund balance in accordance with GASB Statement No. 54. Funds are created by the Legislature and money is authorized to be transferred to the fund for a particular purpose. At this point, balances in these funds are at least committed, and may be further restricted depending on whether there is an external party, constitutional provision, or enabling legislation constraint involved.

The appropriated balance in the General Fund (fund 1004) is committed, and the remaining balance is unassigned. All other governmental funds, including subfunds of the General Fund are presented as restricted or committed, with the exception of the three subfunds of the General Fund and a Capital Project fund as unassigned. The spendable portion of the Alaska Permanent Fund is classified as assigned.

The State of Alaska Constitution, Article 9, Section 13, states that “No money shall be withdrawn from the treasury except in accordance with appropriations made by law. No obligation for the payment of money shall be incurred except as authorized by law. Unobligated appropriations outstanding at the end of the period of time specified by law shall be void.”

Appropriations formally approved by the Legislature are then forwarded to the Governor for action which either become law or are vetoed.

Appropriations specify the funding source, and therefore the order in which restricted, committed, assigned, or unassigned fund balance gets spent.

Article 9, Section 17(d) of the Alaska Constitution, requires annual repayment from the General Fund and the subfunds of the General Fund for amounts borrowed from the Constitutional Budget Reserve Fund. To implement this provision, unassigned balances are used first, then committed balances. There are no assigned balances within the General Fund or subfunds.

The following shows the composition of the fund balance of the governmental funds for the fiscal year ended June 30, 2021 (in thousands):

	General	Permanent	Special Revenue	Debt Service	Capital Projects
Nonspendable:

NET POSITION RESTRICTED BY ENABLING LEGISLATION

The government-wide statement of net position reports \$62.8 billion of restricted net position for the primary government, of which \$40.0 million is restricted by enabling legislation.

G. GUARANTY DEPOSITS

The state is the custodian of guaranty deposits held to protect consumers, to secure the State's deposits in financial institutions, and to ensure payment of taxes and fulfillment of obligations to the State. Guaranty deposits of securities and other properties are not shown on the financial statements.

NOTE 2 – BUDGETING, BUDGETARY CONTROL, AND LEGAL COMPLIANCE

Once money received is deposited in the state treasury, it may not be withdrawn from the treasury except in accordance with an appropriation made by law. Those amounts received by component units are disbursed in accordance with their particular statutory authority.

The budgetary process is used to establish a balancing of estimated revenues coming into a fund with requested appropriations for that fund. Except for capital project funds, which prepare only project-length budgets, annual operating (and project-length) budgets are prepared for practically every fund and are submitted to the legislature for the enactment of appropriations. An appropriation is an authorization to spend money and to incur obligations. Each appropriation is limited as to purpose, time, and amount, and each of these limitations is legally binding. The legal level of budgetary control is maintained at the appropriation level as specified in the enabling legislation, which is generally at the program level within a department.

Appropriations, as enacted by the legislature and signed by the governor, are entered into the accounting records. The balance of an appropriation is reduced when funds are expended or encumbered. Appropriations are encumbered for anticipated expenditures in the form of purchase orders, contracts, and other obligations. Encumbrances outstanding at year-end are reported within restricted, committed or assigned fund balance based upon the resources that eventually will fund those grants or contracts, and do not constitute expenditures or liabilities. See Note 12 for additional information on encumbrances within the governmental funds. Unencumbered balances of annual appropriations lapse at the end of the fiscal year.

Expenditures of funds are made only upon properly approved requests for payment. The total of expenditures and encumbrances (obligations) may not exceed the appropriations to which they pertain. Generally, transfers between appropriations are not authorized. Agencies faced with potential over expenditure of appropriations must (1) reduce the rate of expenditures, (2) seek relief through supplemental appropriations, or (3) request necessary approvals to receive and expend additional funds. In order to provide sufficient funding for several programs during FY 2021, supplemental appropriations within the operating and capital budgets were enacted. The total supplemental appropriations for the FY 2021 operating budget was \$1.3 billion, of which \$45.5 million was from the General Fund, \$124.2 million was from other funds, and \$1.1 billion was from federal funds. In addition, total supplemental appropriations for the FY 2021 capital budget was \$364.4 million, of which \$36.0 million was appropriated from the General Fund, \$4.1 million was from other funds, and \$324.3 million was from federal funds.

Governmental funds with annually approved budgets include the General Fund, Special Revenue Funds (with the exception of the Alaska Housing Capital Corporation, Northern Tobacco Securitization Corporation, and Reclamation Bonding Pool), and all Permanent Funds.

SPENDING LIMITS

In 1982, the voters of Alaska approved an amendment to the Alaska Constitution to control state spending. Article IX, section 16, establishes an annual appropriation limit of \$2.5 billion plus adjustments for changes in population and inflation since July 1, 1981. Appropriations for permanent fund dividends, revenue bond proceeds, general obligation bond debt, and money received from non-state entities held in trust for a specific purpose are excluded from the limit. For FY 2021, the Office of Management and Budget estimated the appropriation limit to be approximately \$10.3 billion. The FY 2021 budget, not counting the excluded appropriations, was \$5.4 billion, or \$4.9 billion less than the constitutional limit.

CONSTITUTIONAL BUDGET RESERVE FUND

In 1990, the voters of Alaska approved an amendment to the Alaska Constitution to establish a budget reserve fund (CBRF). Article IX, section 17, states, in part, “Except for money deposited into the permanent fund under Section 15 of this article, all money received by the State after July 1, 1990, as a result of the termination, through settlement or otherwise, of an administrative proceeding or of litigation in a state or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property, shall be deposited in the budget reserve fund.”

The fund was established to enhance budget stability by depositing certain monies into the CBRF (where they could not be easily spent) rather than into the General Fund (where they would be readily available for appropriation for expenditure). Money may be appropriated from the fund in accordance with the provisions of section 17(b) and (c).

The constitution further provides that all money appropriated from the fund must be repaid to the fund. Section 17(d) states “If an appropriation is made from the budget reserve fund, until the amount appropriated is repaid, the amount of money in the General Fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund. The legislature shall implement this subsection by law.” All borrowing from the CBRF was completely repaid in FY 2010 and no borrowing activity from the CBRF occurred during FY 2011 through FY 2014.

The following is a schedule of amounts appropriated from the CBRF, the amounts transferred back to the CBRF from the General Fund as provided in section 17(d) (in thousands). The paragraphs following the schedule provide an explanation of the entries.

Chapter 18, SLA 2014, Section 48	\$ 3,000,000
Subtotal FY 15	<u>3,000,000</u>
Chapter 1, SSLA 2015, Section 12(b)	3,617,867
Article IX, Section 17(d) Alaska Constitution (FY 2016)	<u>(522,510)</u>
Subtotal FY 2016	<u>3,095,357</u>
Chapter 3, 4SSLA 2016, Section 35(a)	522,510
Chapter 3, 4SSLA 2016, Section 35(b)	3,033,935
Article IX, Section 17(d) Alaska Constitution (FY 2017)	<u>(479,729)</u>
Subtotal FY 2017	<u>3,076,716</u>
Chapter 1, SSSLA 2017, Section 45(a)	479,729
Chapter 1, SSSLA 2017, Section 45(b) and (c)	1,866,095
Correction of Prior Year Error	(1,170,209)
Article IX, Section 17(d) Alaska Constitution (FY 2018)	<u>(431,688)</u>
Subtotal FY 2018	<u>743,927</u>
Chapter 17, SLA 2018, Section 29(a)	431,688
Chapter 17, SLA 2018, Section 29(b) and (c)	504,530
Article IX, Section 17(d) Alaska Constitution (FY 2019)	<u>(1,728,029)</u>
Subtotal FY 2019	<u>(791,811)</u>
Chapter 1, SSSLA 2019, Section 17(a)	1,728,029
Chapter 1, SSSLA 2019, Section 1	37,499
Chapter 1, SSSLA 2019, Section 4	12
Chapter 1, SSSLA 2019, Section 7	256
Chapter 8, SLA 2020, Section 38(y)	5,000
Chapter 1, SSSLA 2019, Section 17(b) and (c)	1,178,728
Article IX, Section 17(d) Alaska Constitution (FY 2020)	<u>(1,509,566)</u>
Subtotal FY 2020	<u>1,439,958</u>
Chapter 8, SLA 2020, Section 45(a)	1,509,566
Chapter 1, SSSLA 2019, Section 1	2,406
Chapter 1, SSSLA 2019, Section 4	2,534
Chapter 1, SSSLA 2019, Section 7	2,901
Chapter 8, SLA 2020, Section 8	19,142
Chapter 8, SLA 2020, Section 23(d)	320,000
Chapter 8, SLA 2020, Section 41(a) and (b)	84,640
Chapter 8, SLA 2020, Section 45(b) and (c)	711,319
Article IX, Section 17(d) Alaska Constitution (FY 2021)	<u>(437,916)</u>
Subtotal FY 2021	<u>2,214,592</u>
Total appropriated from the CBRF	<u><u>\$ 12,778,739</u></u>

The schedule above shows the effect of Article IX, Section 17(d), of the Alaska Constitution, which provides that the amount of money in the general fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund until the amount appropriated is repaid. The amount was fully repaid at the end of FY 2010, so this schedule shows the repayment activity that has occurred since then.

SLA 2014, Chapter 18, Section 48 (a) appropriated the sum of \$1 billion to the defined benefit plan account in the Public Employees Retirement and (b) appropriated \$2 billion to the defined benefit plan account in the Teachers' Retirement System from the CBRF as additional state contributions for FY 2015, which results in a liability of the General Fund.

SSLA 2015, Chapter 1, Section 12(b) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for FY 2016.

SSLA 2016, Chapter 3, Section 35(b) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for FY 2017.

SSSLA 2017, Chapter 1, Section 45(b) and (c) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for FY 2018.

SLA 2018, Chapter 17, Section 29(b) and (c) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for FY 2019.

SSSLA 2019, Chapter 1, Section 17 (b) and (c) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for FY 2020.

SSSLA 2019, Chapter 1, Section 1, Section 4 and Section 7 appropriated amounts from CBRF to fund miscellaneous capital projects and grants.

SLA 2020, Chapter 8, Section 28(b), appropriated amounts from CBRF for responding to the COVID-19 public health disaster emergency. Chapter 8, SLA 2020, Section 38(y), appropriated funds to the disaster relief fund. SLA 2020, Chapter 8, Section 18(a) and (b) changed CBRF as a funding source for some appropriations made in SSSLA 2019, Chapter 1, Section 1. SLA 2020, Chapter 8, Section 23(d) appropriated a transfer to the permanent dividend division fund. SLA 2020, Chapter 8, Section 8, appropriated amounts from CBRF to fund miscellaneous capital projects and grants. SLA 2020, Chapter 8, Section 41(a) and (b) appropriated a transfer to the PERS and TRS.

During prior tax years 1997 through 2017, amounts paid to the State of Alaska as a result of Federal Regulatory Commission (FERC) disputes were erroneously deposited into the CBRF. As determined by the Alaska Attorney General, a FERC case is not an administrative proceeding or litigation involving production tax or royalty for the purposes of the CBRF fund amendment. The amount due to be repaid to the CBRF from the General Fund has been reduced by these amounts.

The CBRF fund balance as of June 30, 2021, was \$13,681 million.

STATUTORY BUDGET RESERVE FUND

The Statutory Budget Reserve Fund (SBRF) was created through Alaska Statute 37.05.540. Once the full debt of CBRF was repaid in FY 2010, the legislature began to make appropriated transfers from the General Fund into the SBRF in addition to directing any year-end available fund balance of the General Fund to be transferred to the SBRF. As the balance of this fund continued to increase so did the political and public interest; therefore, the presentation of SBRF was added to the Combining Balance Sheet for the General Fund for Statements 3.01 and 3.02.

A legislative transfer from the General Fund to SBRF totaling \$250 million was made at the beginning of FY 2013 in accordance with SLA 2012, Chapter 15, Section 32(b). Section 32(c) states that if the unrestricted amount available for appropriation in the fiscal year ending June 30, 2013, is insufficient to cover General Fund appropriations, the amount necessary to balance revenue and General Fund appropriations or to prevent a cash deficiency in the General Fund is appropriated from the SBRF to the General Fund. For FY 2013, this resulted in a year-end transfer from the SBRF to the General Fund for \$776 million, for a net impact to the SBRF of \$526 million.

SLA 2013, Chapter 14, Section 34, outlines the appropriation to the General Fund giving authority to take from the SBRF if the unrestricted state revenue available for appropriation in the fiscal year ending June 30, 2014, is insufficient to cover General Fund appropriations made for the fiscal year ending June 30, 2014, the amount necessary to balance revenue and General Fund appropriations or to prevent a cash deficiency in the General Fund. For FY 2014, this resulted in a year-end transfer from the SBRF to the General Fund for \$1,920 million.

SLA 2014, Chapter 16, Section 34, states that if the unrestricted state revenue available for appropriation in the fiscal year ending June 30, 2015, is insufficient to cover General Fund appropriations made for the fiscal year ending June 30, 2015, the amount necessary to balance revenue and general fund appropriations or to prevent a cash deficiency in the General Fund is

appropriated from the budget reserve fund (AS 37.05.540(a)) to the General Fund. For FY 2015, this resulted in a year-end transfer from the SBRF to the General Fund for \$2,503 million.

SSSLA 2021, Chapter 1, Section 77(a), states that the unencumbered balance of any unrestricted general fund appropriation that is determined to be available for lapse at the end of the fiscal year ending June 30, 2021, after the appropriations made in sec. 24, ch. 8, SLA 2020, and sec. 15(a) of this Act, is appropriated to the budget reserve fund. For FY2021, this resulted in a year-end transfer from the General Fund to the SBRF for \$156 million. SSSLA 2021, Chapter 1, Section 77(b) states that for FY 2021, funds were appropriated from the General Fund to the SBRF. This resulted in a year-end transfer from the General Fund to the SBRF for \$325 million.

Article IX, Section 17(d), of the Alaska Constitution, which provides that the amount of money in the general fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund until the amount appropriated is repaid.

Recent superior court litigation — *Alaska Federation of Natives v. Dunleavy* — has prompted new interpretation and created uncertainty concerning the statutory budget reserve fund status as subject to the sweep. New interpretation of the statutory budget reserve funds sweep status is based primarily on two facts. First, the description of the statutory budget reserve fund in AS 37.05.540 is described as a separate fund in the state treasury. Second, the superior court decision in *Alaska Federal of Natives v. Dunleavy* distinguished between the general fund and the power cost equalization fund. Given these facts, the Department of Law concluded that it was reasonable for the legislature to pass and the governor to sign into law FY 2022 appropriations from the Statutory Budget Reserve to pay the dividend. Division of Finance did not sweep the fund as historically was the case and the funds were used to make the required appropriations.

NOTE 3 – DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

In the fund financial statements, governmental funds reported deferred inflows of resources of \$256,714 thousand as this amount represents revenues that are earned and measurable, but not available within two months of the end of the reporting period.

Deferred Outflows and Inflows of Resources reported in the government-wide Statement of Net Position as of June 30, 2021 consisted of the following (in thousands):

Deferred Outflows and Inflows of Resources

	Primary Government		Discrete Component Units
	Governmental Activities	Business-Type Activities	
Deferred Outflows:			
Change in Fair Value-Interest Rate Swaps	\$ —	\$ —	\$ 167,094
Deferred Charge on Bond Refundings	4,271	—	42,187
Deferred Lease Obligation	—	—	1,985
Deferred Outflows Related to Postretirement Benefits	211,328	3,775	24,241
Deferred Outflows Related to Pensions	801,028	7,534	38,697
Total Deferred Outflows	<u>\$ 1,016,627</u>	<u>\$ 11,309</u>	<u>\$ 274,204</u>
Deferred Inflows:			
Unearned Grant Revenue	\$ —	\$ —	\$ 552,047
Deferred Inflows Related to Bond Refundings	—	—	713
Deferred Inflows Related to Postretirement Benefits	327,742	4,229	28,260
Deferred Inflows Related to Pensions	34,828	452	18,194
Total Deferred Inflows	<u>\$ 362,570</u>	<u>\$ 4,681</u>	<u>\$ 599,214</u>

Internal service funds predominantly serve the governmental funds. Accordingly, deferred outflows and deferred inflows for internal service funds are included as part of the above totals for governmental activities. Note 6 provides additional information on these deferred outflows/inflows.

The deferred outflows for the internal service funds is made up of the following (in thousands):

	<u>Related to Postretirement Benefits</u>	<u>Related to Pensions</u>
Highways Equipment Working Capital Fund	1,002	1,999
Information Services Fund	2,368	4,724
Alaska Public Building Fund	26	51

The deferred inflows for the internal service funds is made up of the following (in thousands):

	<u>Related to Postretirement</u>	<u>Related to Pensions</u>
Highways Equipment Working Capital Fund	1,122	120
Information Services Fund	2,653	283
Alaska Public Building Fund	29	3

The deferred outflows for the business-type activities is made up of the following (in thousands):

	<u>Related to Postretirement</u>	<u>Related to Pensions</u>
International Airports Fund	3,556	7,094
Agricultural Revolving Loan Fund	18	36
Commercial Fishing Revolving Loan Fund	173	346
Fisheries Enhancement Revolving Loan Fund	25	49
Commercial Charter Fisheries Revolving Loan Fund	—	2
Mariculture Revolving Loan Fund	1	2
Alaska Microloan Revolving Loan Fund	—	1
Bulk Fuel Loan Fund	2	4

The deferred inflows for the business-type activities is made up of the following (in thousands):

	<u>Related to Postretirement</u>	<u>Related to Pensions</u>
International Airports Fund	3,983	426
Agricultural Revolving Loan Fund	20	2
Commercial Fishing Revolving Loan Fund	194	21
Fisheries Enhancement Revolving Loan Fund	27	3
Commercial Charter Fisheries Revolving Loan Fund	1	—
Mariculture Revolving Loan Fund	1	—
Bulk Fuel Loan Fund	3	—

Note 6 provides additional information on the business-type activities deferred outflows/inflows.

The deferred outflows for the component units is made up of the following (in thousands):

	Change in Fair Value-Interest Rate Swaps	Deferred Charge on Bond Refundings	Deferred Lease Obligation	Deferred Outflows Related to Postretirement Benefits	Deferred Outflows Related to Pensions
Alaska Railroad Corporation	—	—	—	2,597	9,495
Alaska Housing Finance Corporation	167,094	35,692	—	3,558	3,911
Alaska Aerospace Corporation	—	—	—	25	50
Alaska Gasline Development Corporation	—	—	—	198	309
Alaska Industrial Development Export Authority	—	—	1,985	354	1,236
Alaska Seafood and Marketing Institute	—	—	—	116	232
University of Alaska	—	6,495	—	16,892	22,465
Alaska Mental Health Trust Authority	—	—	—	501	999

The deferred inflows for the component units is made up of the following (in thousands):

	Deferred Inflows Related to Bond Refundings	Unearned Grant Revenue	Deferred Inflows Related to Postretirement Benefits	Deferred Inflows Related to Pensions
Alaska Railroad Corporation	—	552,047	7,870	15,558
Alaska Housing Finance Corporation	713	—	2,436	363
Alaska Aerospace Corporation	—	—	28	3
Alaska Gasline Development Corporation	—	—	291	434
Alaska Industrial Development Export Authority	—	—	694	74
Alaska Seafood and Marketing Institute	—	—	130	14
University of Alaska	—	—	16,250	1,688
Alaska Mental Health Trust Authority	—	—	561	60

Note 6 provides additional information on the component units activity for deferred outflows/inflows related to postretirement benefits and pensions.

NOTE 4 – DEPOSIT AND INVESTMENT RISK

Deposits and investments may be exposed to various types of risks. These risks are interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Custodial credit risk is the risk that deposits may not be returned in the event of a bank failure. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment.

A. DEPOSITS AND INVESTMENTS UNDER THE FIDUCIARY RESPONSIBILITY OF THE COMMISSIONER OF REVENUE

By law, all deposits and investments are under the fiduciary responsibility of the Commissioner of the Department of Revenue (Commissioner) except where the legislature has delegated that responsibility to other entities or boards responsible for separate subdivisions of component units of the State. Those agencies and component units that manage their own cash and investments are: Alaska Permanent Fund Corporation, Alaska Energy Authority, Alaska Housing Finance Corporation, Alaska Industrial

Development and Export Authority, Alaska Municipal Bond Bank Authority, Alaska Railroad Corporation, Alaska Retirement Management Board, Alaska Student Loan Corporation, University of Alaska, Alaska Mental Health Trust Authority, and the Exxon Valdez Oil Spill Trustee Council.

Invested assets under the fiduciary responsibility of the Commissioner are comprised of the General Fund and Other Non-Segregated Investments (GeFONSI), Constitutional Budget Reserve Fund, International Airports Fund, Retiree Health Insurance Fund, Power Cost Equalization Endowment Fund, General Obligation Bond Fund, Mine Reclamation Trust Fund, as well as the Public School and Investment Loss trust funds (all collectively, Funds).

As the fiduciary, the Commissioner has the statutory authority (AS 37.10.070-37.10.071) to invest the assets under the Prudent Investor Rule which requires that investments shall be made with the judgment and care, under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

The Department of Revenue, Treasury Division (Treasury) has created a pooled environment by which it manages the investments for which the Commissioner has fiduciary responsibility. Actual investing is performed by investment officers in Treasury or by contracted external investment managers. Specifically, the Tobacco Revenue Fixed Income, Domestic Equity, and the International Equity Pools are managed externally. Treasury manages the Short-term Fixed Income Pool, Short-term Treasury Fixed Income Pool, Non-interest Bearing Deposits, Intermediate-term Fixed Income Pool, and Broad Market Fixed Income Pool in addition to acting as oversight manager for all externally managed investments.

Additional information related to the various pools and investments is disclosed in the financial schedules issued by the Department of Revenue, Treasury Division. These financial schedules are available through the Department of Revenue, Treasury Division, P.O. Box 110405, Juneau, AK 99811-0405 or at <http://treasury.dor.alaska.gov/>.

Combined schedule of invested assets as of June 30, 2021 is as follows:

Investment Type	Fair Value (in thousands)						
	Short-term Fixed Income Pool	Non-interest Bearing Deposits	Broad Market Fixed Income Pool	Domestic Equity Pool	International Equity Pool	Tobacco Revenue Fixed Income	Income Receivable (Payable)
General Fund and GeFONSI	\$ 2,831,305	\$ 41,926	\$ 737,242	\$ 216,952	\$ 143,678	\$ 10,427	\$ (68)
Constitutional Budget Reserve Fund	1,076,103	—	—	—	—	—	(36)
Public School Trust Fund	7,304	—	244,912	359,697	232,833	—	—
Investment Loss Trust Fund	3,749	—	—	—	—	—	—
General Obligation Bond Fund	86,518	—	—	—	—	—	(3)
International Airports Construction Fund	31,531	—	—	—	—	—	(1)
International Airports Fund	152,991	—	42,479	—	—	—	(5)
Power Cost Equalization Endowment Fund	9,852	—	689,141	280,130	170,043	—	—
Retiree Health Insurance Fund							
Major Medical	18,963	—	—	—	—	—	(1)
Long-Term Care	6,198	—	408,228	207,376	134,256	—	—
Mine Reclamation Fund	13	—	427	627	406	—	—
Total Invested Assets	\$ 4,224,527	\$ 41,926	\$ 2,122,429	\$ 1,064,782	\$ 681,216	\$ 10,427	\$ (114)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. At June 30, 2021 all fixed income securities met the Treasury's compliance metrics related to effective duration.

Short-term Fixed Income Pool

As a means of limiting its exposure to fair value losses arising from increasing interest rates, Treasury's investment policy limits individual fixed rate securities to 14 months to maturity or 14 months expected average life upon purchase. Floating rate securities are limited to three years to maturity or three years expected average life upon purchase. These constraints apply to trade date, except for securities bought at new issue, for which settlement date applies.

Intermediate and Broad Market Fixed Income Pools

Duration is a measure of interest rate risk. It measures a security's sensitivity to a 100-basis point change in interest rates. The duration of a pool is the average fair value weighted duration of each security in the pool taking into account all related cash flows. Treasury uses industry-standard analytical software developed by The Yield Book, Inc. to calculate effective duration.

The software considers various possible future interest rates, historical and estimated prepayment rates, call options, and other variable cash flows for purposes of the effective duration calculation.

Through its investment policy, Treasury manages its exposure to fair value losses arising from increasing interest rates by limiting the effective duration of its other fixed income pool portfolios to the following:

Intermediate-term Fixed Income Pool - \pm 20% of the Barclays 1-3 Year Government Bond Index.

Broad Market Fixed Income Pool - \pm 20% of the Barclays Capital U.S. Aggregate Bond Index.

At June 30, 2021, the effective duration by investment type was as follows:

	<u>Effective Duration (in years)</u>
Certificate of Deposit	0.17
Corporate Bonds	6.19
Mortgage-backed	3.24
Municipal Bonds	13.67
Other Asset-backed	0.46
U.S. Government Agency	5.02
U.S. Treasury Bills, Notes, and Bonds	1.51
Yankee Corporate Bonds	2.42
Yankee Government Bonds	3.18
Portfolio Effective Duration	2.11

Credit Risk

Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations.

Short-term Fixed Income Pool investments are limited to instruments with a long-term credit rating of at least A3 or equivalent and instruments with a short-term credit rating of at least P-1 or equivalent. Commercial paper must be rated at least P-1 by Moody's and A-1 by Standard and Poor's. Asset-backed and non-agency mortgage securities must be rated A3 or equivalent. The A3 rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA.

Intermediate-term and Broad Market Fixed Income Pool investments are limited to securities with a long-term credit rating of at least Baa3 or equivalent and securities with a short-term credit rating of at least P-1 or equivalent. The Broad Market Fixed Income Pool can hold within its portfolio up to 5% high-yield bonds. Asset-backed and non-agency mortgage securities must be rated investment grade. The investment grade rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA.

The bond indentures governing the investment of tobacco revenue related bond proceeds limit the investment in commercial paper to only those securities rated A-1 or equivalent. Tobacco Revenue Fixed Income Securities consisted of commercial paper rated A-1.

At June 30, 2021 the State's internally managed Pools consisted of investments with credit quality ratings issued by nationally recognized statistical rating organizations as follows (using Standard and Poor's Corporation rating scale, in thousands):

	Short-term Fixed Income Pool	Broad Market Fixed Income Pool
AAA	\$ 1,653,230	\$ 201,569
AA	32,225	87,438
A	193,089	374,502
A-1	60,101	—
BBB	7,063	346,127
BB	—	6,521
U.S. Government Agency	—	158,358
U.S. Treasury Bills, Notes, and Bonds	2,559,528	469,294
Not Rated	389,053	578,344
No Credit Risk	(321,436)	21,085
Other Fiduciary	(348,326)	(120,810)
	<u>\$ 4,224,527</u>	<u>\$ 2,122,428</u>

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that deposits may not be returned in the event of a bank failure. Treasury's investment policy requires the State's depository banks to collateralize State deposits to the extent they exceed insurance coverage provided by the Federal Deposit Insurance Corporation (the FDIC provides \$250 thousand of coverage). In accordance with Treasury policy, they are required to retain collateral equal to 100 percent of uninsured deposits.

The bond indentures governing the investment of tobacco revenue related bond proceeds do not establish policy with regard to custodial credit risk.

At June 30, 2021 the State had no uncollateralized and uninsured deposits.

Concentration of Credit Risk

Treasury's policy with regard to concentration of credit risk is to prohibit the purchase of more than five percent of a pool's holdings in corporate bonds backed by any one company or affiliated group. At June 30, 2021, no pool had exposure to any one issuer greater than 5 percent of total invested assets.

Foreign Currency Risk

The Commissioner of Revenue formally adopts asset allocation policies for each fund at the beginning of each fiscal year, which places policy limitations on the amount of international securities each fund is allowed to hold. The following policies were in place during FY 2021 and invested assets included the following holdings at June 30, 2021, for the funds invested in the International Equity Pool:

	Policy	Actual
Education Endowment Fund	28% +/- 5%	27.56 %
GeFONSI II	3% - 3% /+ 5%	3.02 %
Higher Education Fund	28% +/- 5%	27.57 %
Illinois Creek Mine Reclamation Fund	28% +/- 5%	27.57 %
Power Cost Equalization Endowment Fund	15% +/- 5%	14.80 %
Public School Trust Fund	28% +/- 5%	27.56 %
Retiree Health Insurance Fund, Long Term Care	18% +/- 5%	17.76 %

At June 30, 2021, the funds invested in the International Equity Pool had no exposure to foreign currency risk.

Fair Value Measurements

Various inputs are used in valuing the investments held by the Commissioner. Generally Accepted Accounting Principles establishes a hierarchy of inputs used to value investment emphasizing observable inputs and minimizing unobservable inputs. These inputs are summarized as follows:

Level 1 - Quoted prices for identical assets in an active market.

Level 2 - Inputs, other than quoted prices, that are observable for the asset, either directly or indirectly or quoted in less active markets.

Level 3 - Unobservable inputs. Unobservable inputs should only be used to the extent that observable inputs are not available for a particular asset.

The Commissioner categorizes fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Commissioner has the following recurring fair value measurements as of June 30, 2021 (in thousands):

Investment by Fair Value Level	Total	Level 1	Level 2	Level 3
Cash Equivalents				
Certificates of Deposits	\$ 23,012	\$ —	\$ 23,012	\$ —
Deposits	64,704	64,704	—	—
Money Market	10,429	—	10,429	—
Repurchase Agreement	412,400	—	412,400	—
Total Cash Equivalents	510,545	64,704	445,841	—
Debt Securities				
Corporate Bonds	954,892	—	954,892	—
Mortgage Backed	534,225	—	534,225	—
Municipal Bonds	17,820	—	17,820	—
Other Asset Backed	1,598,127	—	1,598,127	—
U.S. Government Agency	158,358	—	158,358	—
U.S. Treasury Bills, Notes, and Bonds	3,028,821	—	3,028,821	—
Yankee Corporate Bonds	311,069	—	311,069	—
Yankee Government Bonds	77,718	—	77,718	—
Total Debt Securities	6,681,030	—	6,681,030	—
Equity Securities				
Commingled Equity Funds	1,887,221	1,887,221	—	—
Total Equity Securities	1,887,221	1,887,221	—	—
Total Investments by Fair Value Level		\$ 1,951,925	\$ 7,126,871	\$ —
Total Investments Measured at Fair Value	\$ 9,078,796			
Other Fiduciary Responsibility	(610,487)			
Net Receivables/(Payables) from Investment Activity	(323,002)			
Total Commissioner Invested Assets	\$ 8,145,307			

Securities classified as level 1 are valued using prices quoted in active markets for those securities. Securities classified as level 2 are valued using matrix pricing. Pricing is obtained from various sources.

Foreign Exchange, Foreign Exchange Contracts, Off-Balance Sheet Risk and Derivative Exposure

The Commissioner is exposed to credit risk on investment derivative instruments that are in asset positions. The Commissioner has no policy of requiring collateral or other security to support derivative instruments subject to credit risk. Additionally, the Commissioner has no policy regarding entering into netting arrangements when it enters into derivative instrument transactions with a counterparty, nor does the Commissioner have a policy or contingencies. There was no income from derivative investments as of June 30, 2021.

The International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future. The counterparties to the foreign currency forward contracts consist of a diversified group of financial institutions. Credit risk exposure exists to the extent of nonperformance by these counterparties; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date. At June 30, 2021, the International Equity Pools had no outstanding contracts.

B. DEPOSITS AND INVESTMENTS UNDER CONTROL OF THE ALASKA RETIREMENT MANAGEMENT BOARD

The Alaska Retirement Management Board (ARMB) is the investment oversight authority for the State of Alaska's Retirement and Benefits Plans (Plans). These Plans are made up of six systems: the Public Employees' Retirement System (PERS), Teachers Retirement System (TRS), Judicial Retirement System (JRS), National Guard and Naval Militia Retirement Systems (NGNMRS), Supplemental Benefits System (SBS), and Deferred Compensation Plan (DCP). The systems comprise a mix of individual Defined Benefit and Defined Contribution Retirement Plans. Fiduciary responsibility for the ARMB's invested assets is pursuant to Alaska Statutes 37.10.210-390.

Alaska Statute 37.10.071 provides that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion and intelligence exercises in managing large investment portfolios.

Additional information related to the various pools and investments is disclosed in the financial schedules issued by the ARMB. These schedules of invested assets and of investment income and changes in invested assets are those of the six systems' invested assets and not the systems as a whole and are available through the Department of Revenue, Treasury Division, P.O. Box 110405, Juneau, AK 99811-0405 or at <http://treasury.dor.alaska.gov/armb/>.

Investments and Related Policies

Securities are valued each business day using prices obtained from a pricing service when such prices are available; otherwise, such securities are valued at the most current sale price or based on a valuation provided by investment managers. Fair values of investments that have no readily determinable fair value are generally reported by using the net asset value per share (or its equivalent) of the investment. Pooled participant directed accounts and the collective investment funds are valued based on a unit value determined by the managers or trustees multiplied by the total units held by the Plan. The unit value is determined by the respective managers or trustees based on the fair value of the underlying assets. The Plan's Investments in fully benefit-responsive Synthetic Investment Contracts (SICs) are stated at contract value. Investment purchases and sales are recorded on a trade-date basis. Investment income includes realized and unrealized gains and losses and interest income on investments and income from securities lending.

Fair Value Measurements

Various inputs are used in valuing the investments held by the ARMB. U.S. generally accepted accounting principles (GAAP) establishes a hierarchy of inputs used to value investment emphasizing observable inputs and minimizing unobservable inputs. These inputs are summarized as follows:

Level 1 - Quoted prices for identical assets in an active market

Level 2 - Inputs, other than quoted prices, that are observable for the asset, either directly or indirectly

Level 3 - Unobservable inputs. Unobservable inputs should only be used to the extent that observable inputs are not available for a particular asset.

The ARMB categorizes fair value measurements with the fair value hierarchy established by GAAP. The ARMB has the following fair value measurements at June 30, 2021 (in thousands):

	Totals	Level 1	Level 2	Level 3
Investment by Fair Value Level				
Cash Equivalents				
Certificates of Deposit	\$ 1,746	\$ —	\$ 1,746	\$ —
Deposits	26,990	26,990	—	—

Securities classified as level 1 are valued using prices quoted in active markets for those securities. Securities classified as level 2 are valued using matrix pricing. Each balanced and target date options classified as level 2 are priced daily by the investment managers based on the prevailing market values of the underlying security portfolios. Pricing is sourced from various sources. Securities classified as level 3 are valued using the last traded price or a price determined by the investment manager's valuation committee.

Investments in alternative beta, alternative fixed income, energy, farmland, infrastructure, private equity, real estate, and timber are measured at net asset value (NAV) per share of the investments (or its equivalent) of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. These investments undergo annual independent financial statement audits. Additional information about these investments is listed in the following table (in thousands):

	Fair Value	Redemption Frequency (if currently available)	Redemption Notice Period
Alternative Beta	\$ 311,149	N/A	N/A
Alternative Fixed Income	827,673	Quarterly	2-90 days
Energy	62,212	No redemptions	No redemptions
Farmland	900,100	N/A	N/A

Private Equity	5,026,490	No redemptions	No redemptions
Real Estate	1,521,574	Varied	Varied
Timber	366,936	N/A	N/A
Total Investments Measured at NAV	<u>\$ 9,758,258</u>		

Alternative Beta and Alternative Fixed Income: Investment strategies include pooled investment vehicles and securities in a variety of markets.

Energy: This type includes investments in three energy funds which invest in the debt and equity of energy-related companies. These investments can never be redeemed. The nature of these investments is such that distributions are received through the liquidation of underlying assets of the funds. These investments are expected to be funded through the fiscal year 2022.

Farmland: This type includes investments of a wholly owned agriculture fund. This fund is for the purpose of owning and managing real estate property devoted to agricultural use. Investment properties include row crops, permanent crops and vegetable crops. This investment is a fund of one, therefore can be liquidated at any time.

Infrastructure (Private): This type includes investments in two open-ended infrastructure funds. Investments include electricity generation, transmission, toll roads, pipelines, bridges, and other infrastructure-related assets. Funds can be redeemed on a quarterly basis with proper notice.

Private Equity: This type includes investments in 34 private equity funds including two gatekeeper managers who invest on behalf of the ARMB. These funds are diversified in various sectors including but not limited to venture capital, acquisitions, debt, and special situations. These investments can never be redeemed. The nature of these investments is such that distributions are received through the liquidation of underlying assets of the funds. These investments are expected to be funded through the fiscal year 2029.

Real Estate: This type includes investments in 15 real estate funds that invest primarily in U.S. commercial real estate including value-added, opportunistic and core investments. Three of these funds are funds of one, and therefore can be liquidated at any time. For the remaining 18 funds, investments can never be redeemed. The nature of these investments is such that distributions are received through the liquidation of underlying assets of the funds. These investments are expected to be funded through fiscal year 2032.

Timber: This type includes an investment in one wholly owned timber fund that invests, acquires, manages, and disposes of timberland property and associated timber. This investment is a fund of one, and therefore can be liquidated at any time.

Synthetic Investment Contracts (SICs): The ARMB's investment manager entered into investment contracts, on behalf of the ARMB, with five financial institutions. These institutions provide wrap contracts that cover separately managed SIC portfolios. The accounts are credited with earnings and investment deposits, less administrative expenses charged by the financial institutions and investment withdrawals. The contracts are included in the ARMB's statements at contract value. They are fully benefit-responsive. There are no reserves against contract value for the credit risk of the contract issuer or otherwise. The crediting interest rate is based on the approximate rate of interest that will amortize differences between contract and market value over the portfolio's average duration. Accounts and terms of SICs in effect at June 30, 2021 are as follows (in thousands):

	Contract Provider	Alaska Retirement Management Board
Contract Value of Investment Contract	Prudential Insurance Company of America	\$ 165,577
Market Value of Portfolio	Prudential Insurance Company of America	170,394
Average Crediting Rate	Prudential Insurance Company of America	1.94 %
Contract Value of Investment Contract	New York Life Insurance Co.	165,307
Market Value of Portfolio	New York Life Insurance Co.	169,863
Average Crediting Rate	New York Life Insurance Co.	1.89 %
Contract Value of Investment Contract	Pacific Life Insurance Co.	165,711
Market Value of Portfolio	Pacific Life Insurance Co.	170,745
Average Crediting Rate	Pacific Life Insurance Co.	1.99 %
Contract Value of Investment Contract	State Street Bank & Trust Co.	165,746
Market Value of Portfolio	State Street Bank & Trust Co.	170,490
Average Crediting Rate	State Street Bank & Trust Co.	1.98 %
Contract Value of Investment Contract	Massachusetts Mutual Life Insurance Co.	165,376
Market Value of Portfolio	Massachusetts Mutual Life Insurance Co.	169,823
Average Crediting Rate	Massachusetts Mutual Life Insurance Co.	1.89 %

Interest Rate Risk

The ARMB invests its cash in the State of Alaska, Treasury Division's (Treasury) Short-Term Fixed Income Pool. As a means of limiting its exposure to fair value losses arising from increasing interest rates, Treasury's investment policy limits individual fixed rate securities to 14 months to maturity or 14 months expected average life upon purchase. Floating rate securities are limited to three years to maturity or three years expected average life upon purchase. At June 30, 2021, all securities within the Short-term Fixed Income Pool met these compliance metrics.

Duration is a measure of interest rate risk. It measures a security's sensitivity to a 100-basis point change in interest rates. The duration is the average fair value weighted duration of each security considering all related cash flows. At June 30, 2021, the effective duration of the ARMB's fixed income by investment type, was as follows:

	Effective Duration (in years)
Corporate Bonds	9.06
Mortgage-backed	3.17
Other Asset Backed	1.22
U.S. Government Agency	3.63
U.S. Treasury Bills, Notes, and Bonds	7.70
Yankee Corporate Bonds	5.76
Yankee Government Bonds	7.38
Total Portfolio	6.17

Synthetic Investment Contracts

The ARMB contracts with an external investment manager who is given the authority to invest in SICs and a reserve. This external manager also manages the securities underlying the SICs. In the case of the ARMB's constant duration SICs, duration is the fair value weighted average term to maturity of all fixed income securities underlying the contracts and their related cash flows. Duration of the Plan's structured payout SICs is the weighted average maturity of the contract payments. Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration on SICs as follows:

Constant duration SICs duration cannot exceed the longer of six years or the duration of the Bloomberg Barclays Aggregate Bond Index plus one-half year. The weighted average duration of the constant duration SICs was 4.16 years at June 30, 2021. The duration of the Bloomberg Barclays Aggregate Bond Index was 6.48 years at June 30, 2021. The account's weighted average effective duration will generally not exceed the effective duration of the Bloomberg Barclays U.S. Intermediate Aggregate Bond Index plus 10%. The weighted average duration of the account was 4.01 years at June 30, 2021. The duration of the Bloomberg Barclays U.S. Intermediate Aggregate Bond Index was 4.08 years at June 30, 2021. The balance of the reserve is invested in the custodian's Institutional Treasury Money Market Fund and the external manager's Cash Reserves Trust Fund. The account did not hold any buy-and-hold SICs or structured payout SICs investments at June 30, 2021.

Credit Risk

At June 30, 2021, ARMB's invested assets consisted of fixed income securities with credit quality ratings issued by nationally recognized statistical rating organizations. Securities lending collateral was invested in a registered 2(a)-7 money market fund that was not rated. Using Standard & Poor's Corporation rating scale, the values for each rating are as follows (in thousands):

Rating	U.S. Dollar	Foreign
A	\$ 788,384	\$ —
A-1	4,559	—
AA	206,764	—
AAA	587,134	—
B	12,890	—
BB	21,390	—
BBB	786,597	—
Not Rated	3,499,629	256
U.S. Government Agency	142,445	—
U.S. Treasury Bills, Notes, and Bonds	1,451,252	—
	\$ 7,501,044	\$ 256

Synthetic Investment Contracts

The ARMB's investment policy has the following credit risk limitations for SICs, investments underlying the synthetic investment contracts and the reserve:

Synthetic investment contract issuers must have an investment grade rating. Supranational Agency and Foreign Government entity investments must have a minimum rate of A- or equivalent. Corporate debt securities must have a minimum rating of BBB- or equivalent. Asset-backed securities must have a minimum rating of AAA or equivalent. The ratings assigned to issuers of money market instruments must have the highest rating of any nationally recognized statistical rating organization. This limitation does not apply to the investment funds maintained by the custodian.

Custodial Credit Risk - Deposits

The ARMB does not have a policy in relation to custodial credit risk for deposits. At June 30, 2021, the ARMB's invested assets had uncollateralized and uninsured foreign currency deposits of \$15,015 thousand.

Foreign Currency Risk

The ARMB's Stable Value Fund policy requires that all investments underlying a synthetic investment contract be denominated in U.S. dollars. For all other funds, through its asset allocation, the ARMB limits risk by limiting total investments in foreign currencies to the following:

Pension System	Opportunistic	Global Equity Ex- U.S.	Private Equity Pool	Real Assets Pool
Public Employees' Retirement System	10 %	23 %	18 %	20 %
Teachers' Retirement System	10	23	18	20
Judicial Retirement System	10	23	18	20
Alaska National Guard and Naval Militia Retirement System	10	17	12	11

At June 30, 2021, the ARMB had exposure to foreign currency risk with the following deposits and investments (in thousands):

Currency	Convertible Bonds	Deposits	Equity	Private Equity	Rights & Warrants
Australian Dollar	\$ —	\$ 114	\$ 74,665	\$ 793	\$ —

	<u>\$ 256</u>	<u>\$ 15,015</u>	<u>\$ 3,107,705</u>	<u>\$ 420,631</u>	<u>\$ 44</u>

Concentration of Credit Risk

At June 30, 2021, the ARMB's Invested Assets did not have exposure to any one issuer greater than 5% of total invested assets.

Synthetic Investment Contracts

The ARMB's policy with regard to concentration of credit risk, underlying investments, and reserve is as follows:

No investment will be made if, at the time of purchase, total investment in any single issuer of investment contracts would exceed thirty-five percent of the synthetic investments contracts' total value.

No investment will be made if, at the time of the purchase, the investment could cause any single issuer, or all issuers of the securities held as supporting investments under synthetic investment contracts to exceed thresholds in the table below. The maximum exposure to securities rated BBB- and BBB+ is limited to twenty percent of the total value underlying synthetic investment contracts.

Investment Type	Issuer	All Issuers
U.S. Treasury and Agencies	100 %	100 %
U.S. Agency Securities	100	100
Agency Mortgage-Backed Securities	50	50
Non-Agency Mortgage-Backed Securities	5	50
Asset-Backed Securities	5	50
Domestic and Foreign Corporate Debt Securities	5	50
Supranational Agency and Foreign Government Entity Securities	5	50
Money Market Instruments - Nongovernmental/Agency	5	100
Custodian Short-term Investment Fund	100	100

For the reserve, the total investment of any single issuer of money market instruments may not exceed 5 percent of the total value underlying synthetic investment contracts. This limitation does not apply to the investment funds maintained by the custodian.

Derivatives, Foreign Exchange, and Counterparty Credit Risk

The ARMB is exposed to credit risk on investment derivative instruments that are in asset positions. The ARMB has no policy of requiring collateral or other security to support derivative instruments subject to credit risk. Additionally, the ARMB has no policy regarding entering into netting arrangements when it enters into derivative instrument transactions with a counterparty, nor does the ARMB have a policy for contingencies. On June 30, 2021, the ARMB had the following derivative instruments outstanding (in thousands):

	Change in Fair Value		Fair Value		
	Classification	Amount	Classification	Amount	Notional
Commodity Futures Long	Investment Revenue	\$ (2,899)	Futures	\$ —	\$ —
Fixed Income Futures Long	Investment Revenue	(655)	Futures	—	19,800
Fixed Income Futures Short	Investment Revenue	—	Futures	—	—
FX Forwards	Investment Revenue	2,702	Long Term Instruments	1,052	149,252
Index Futures Long	Investment Revenue	21,834	Futures	—	17
Index Futures Short	Investment Revenue	(2,876)	Futures	—	—
Rights	Investment Revenue	320	Common Stock	32	232
Warrants	Investment Revenue	7,320	Common Stock	18,678	1,368

The International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future dates for the purpose of hedging existing security positions. The counterparties to the foreign currency forward contracts consist of a diversified group of financial institutions. Credit risk exposure exists to the extent of non-performance by these counterparties; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date. At June 30, 2021, the ARMB had the following foreign currency risk related to derivatives (in thousands):

Currency Name	Right & Warrant Options	Net Receivable	Net Payables	Total Exposure
Australian Dollar	\$ —	\$ (251)	\$ —	\$ (251)
Brazilian Real	2	—	—	2
Canadian Dollar	—	(337)	(2)	(339)
Swiss Franc	11	—	60	71
Danish Krone	—	—	23	23
Euro Currency	30	—	899	929
Pound Sterling	—	—	492	492
Japanese Yen	—	(193)	21	(172)
South Korean Won	—	—	35	35
Mexican Peso	—	(3)	—	(3)
Norwegian Krone	—	—	7	7
Swedish Krona	—	—	301	301
Singapore Dollar	—	—	—	—
Thailand Baht	1	—	—	1
	<u>\$ 44</u>	<u>\$ (784)</u>	<u>\$ 1,836</u>	<u>\$ 1,096</u>

At June 30, 2021 the ARMB had no counterparty credit and counterparty concentration risk associated with its investment derivative positions.

Securities Lending

Alaska Statute 37.10.071 authorizes the ARMB to lend assets, under an agreement and for a fee, against deposited collateral of equivalent fair value. The ARMB lends marketable debt and equity securities through a contract with State Street Bank and Trust (the Bank). International equity security loans were collateralized at not less than 105 percent of their fair value. All other security loans were collateralized at not less than 102 percent of their fair value. Loaned securities and collateral were marked to market daily and collateral was received or delivered the following day, as necessary, to maintain collateral levels. The ARMB cannot pledge or sell collateral received until and unless a borrower defaults. At June 30, 2021, the ARMB has no credit risk exposure to the borrowers because the amounts the ARMB owes to the borrowers exceeded the amounts the borrowers owe the ARMB.

The fair value of securities on loan at June 30, 2021, was approximately \$83.6 million. At June 30, 2021, cash collateral received totaling \$85.8 million is reported as a securities lending payable and the fair value of the re-invested cash collateral totaling \$85.8 million is reported as security lending collateral invested in the Schedule of Invested Assets.

Cash collateral was invested in a registered 2(a)-7 money market fund. Maturities of investments in the money market fund generally did not match the maturities of the loaned securities because the lending agreements were terminable at will. Securities under loan, cash collateral and cash collateral payable are recorded on the financial schedules at fair value. The Bank and the ARMB received a fee from earnings on invested collateral. The Bank and the ARMB shared the fee paid by the borrower.

There was limited credit risk associated with the lending transactions since the ARMB was indemnified by the Bank against any loss resulting from counterparty failure or default on a loaned security or its related income distributions. The Bank further indemnified the ARMB against loss due to borrower rebates in excess of earnings on cash collateral. Indemnifications were subject to limitation relating to a force majeure event as outlined in the contract.

For the year ended June 30, 2021 there were no losses incurred as a result of securities lending transactions and there were no significant violations of legal or contractual provisions nor failures by any borrowers to return loaned securities.

DEFERRED COMPENSATION PLAN

The State's Internal Revenue Code Section 457 Deferred Compensation Plan (DCP) holds investments in several collective investment funds, Pooled Investments Funds, and Stable Value Fund. At June 30, 2021, Deferred Compensation Plan investments totaled \$1.220 billion.

Each participant designates how their contribution is to be allocated among the investment options. Each participant's account is credited with the participant's contributions, adjusted for the appreciation or depreciation in unit value for the investment funds, and reduced for administrative fees.

The carrying values of participant-directed investments at June 30, 2021 are as follows (in thousands):

	<u>FY 2021</u>
S&P 500 Stock Index Fund	\$ 270,931

Additional investment information is disclosed in the financial statements issued by the Department of Administration, Division of Retirement and Benefits. These financial statements are available through the Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or at <http://doa.alaska.gov/drb/>.

Risk and Uncertainty

DCP invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of fiduciary net position.

DCP may invest in pooled separate accounts that include securities with contractual cash flows, which may include asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

SUPPLEMENTAL BENEFITS SYSTEM

The State's Supplemental Benefits System (SBS) holds investments in several collective investment funds, a Stable Value Fund and the Pooled Investment Funds. At June 30, 2021, SBS investments totaled \$5.064 billion.

Each participant designates how their contribution is to be allocated among the investment options. Each participant's account is credited with the participant's contributions, adjusted for the appreciation or depreciation in unit value for the investment funds, and reduced for administrative fees.

The carrying values of participant-directed investments at June 30, 2021 are as follows (in thousands):

Risk and Uncertainty

SBS invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of fiduciary net position. SBS may invest in pooled separate accounts that include securities with contractual cash flows, which may include asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

C. DEPOSITS AND INVESTMENTS MAINTAINED BY COMPONENT UNITS WHOSE ACCOUNTS ARE OUTSIDE OF THE STATE TREASURY

There are many component units of the State that maintain their accounts outside of the State treasury. However, the overwhelming majority of the activity is within the Alaska Permanent Fund Corporation (APFC). Information on deposits and investments maintained by the other component units are available within their separately issued audit reports.

ALASKA PERMANENT FUND CORPORATION

APFC is managed by a six member board of trustees (the "Trustees" or "Board") consisting of the Department of Revenue Commissioner, one other head of a principal State department, and four governor-appointed public members with recognized competence and experience in finance, investments, or other business management-related fields. The Alaska Permanent Fund (the "Fund") assets are diversified across a wide variety of investments, in accordance with statutes, regulations, and APFC investment policies.

Investments and Related Policies

Carrying value of investments

The Fund considers all of its ownership interests in securities and other assets to be investments because they are held for the purpose of income or profit and have a present service capacity based solely on their ability to generate cash or be sold to generate cash. Investments are reported at fair value in the financial statements. Investments without a readily determinable fair value are generally reported by using the NAV per share (or its equivalent) of the investment. Securities transactions are recorded on the trade date that securities are purchased or sold. Unrealized gains and losses are reported as components of net change in fund balance.

State investment regulations

In accordance with Alaska Statute 37.13.120(a), the Trustees have adopted regulations designating the types of eligible investments for Fund assets. The regulations follow the prudent investor rule, requiring the exercise of judgment and care under the circumstances then prevailing that an institutional investor of ordinary prudence, discretion, and intelligence exercises in the designation and management of large investments entrusted to it, not in regard to speculation, but in regard to the permanent disposition of funds, considering preservation of the purchasing power of the Fund over time while maximizing the expected total return from both income and the appreciation of capital.

Investment policy - Asset allocation

The Trustees have established a long-term goal of achieving a five percent real rate of return over time on the Fund's investment portfolio. To help achieve this goal, the Trustees allocate the Fund's investments among various asset classes.

At June 30, 2021, the APFC's strategic asset allocation targets were as follows:

Asset Class	Asset Class Target
Public Equities	39%
Fixed Income	21%
Private Equity and Special Opportunities	15%
Real Estate	7%
Infrastructure and Private Income	9%
Absolute Return	6%
Risky Parity	1%
Cash	2%

To allow for market fluctuations and to minimize transaction costs, the Trustees have adopted ranges that permit percentage deviations from the strategic asset allocation targets in accordance with specified reporting requirements and other procedures. Generally, for each asset class, the APFC's Chief Investment Officer has discretionary authority to permit target deviations within one specified range (referred to as the "green zone" in the investment policy), the APFC's Executive Director can approve target deviations for up to 90 days within a broader range (the "yellow zone"), and the Board can approve operating for longer than 30 days within a third range (the "red zone"). For example, the target dollar allocation for the public equities class is 39 percent, with the green zone range set at plus or minus five percent, the yellow zone range set at zero to five percent beyond the green zone, and red zone range set at greater than five percent beyond the green zone. In a similar manner, the APFC investment policy also requires the APFC to monitor relative risk (the expected investment portfolio's risk and return relative to the risk benchmark using standard industry risk measures), active budget risk (risk due to active management decisions made by managers), and limits on private investments and future commitments.

Interest Rate Risk

The APFC manages the Fund's exposure to interest rate risk in part through tracking error guidelines set forth in the APFC's investment policy. Duration is an indicator of a portfolio's market sensitivity to changes in interest rates. In general, the major factors affecting duration are, in order of importance: maturity, prepayment frequency, level of market interest rates, size of coupon, and frequency of coupon payments. Rising interest rates generally translate into the value of fixed income investments declining, while falling interest rates are generally associated with increasing value. Effective duration attempts to account for the price sensitivity of a bond to changes in prevailing interest rates, including the effect of embedded options. As an example, for a bond portfolio with a duration of 5 years, a one percentage point parallel decline in interest rates would result in an approximate price increase on that bond portfolio of five percent.

At June 30, 2021, the Fund held fixed income investments with floating, variable, and step interest rates, valued at \$758,105 thousand. These fixed income investments were both domestic and non-domestic, and had current annual interest rates ranging from zero to 15.5 percent.

Credit Risk

The APFC requires that its investment grade fixed income managers, both internal and external, invest in domestic and non-domestic bonds that have an explicit or implied investment grade rating. Should the required ratings on an existing fixed income security fall below the minimum standards, the security must be sold within seven months. Certain high yield investment managers are allowed to invest a specified amount of funds in bonds rated below investment grade.

Custodial Credit Risk

The APFC generally requires that all investment securities at custodian banks be held in the name of the Fund or the APFC (on behalf of the Fund). For the Fund's non-domestic securities held by most sub-custodians, the APFC's primary custodian provides contractual indemnities against sub-custodial credit risk. Excess cash in custodial accounts is swept daily to a money market fund. Late deposits of cash which miss the money market sweep deadline are deposited to an interest bearing account at the custodian.

Concentration of Credit Risk

The APFC manages the Fund's concentration of credit risk by following its strategic asset allocation policy, diversifying investments among managers with varying investment styles and mandates, and monitoring tracking error. Tracking error is a measure of how closely a portfolio follows the index to which it is benchmarked. The APFC's policy for mitigating this risk of loss for fixed income and equity investments is to ensure compliance with APFC investment policy and investment manager contracts. There is no single-issuer exposure within the APFC portfolio that comprises five percent or more of the overall portfolio. Therefore, no concentration of credit risk is reported in the notes to the financial statements.

Foreign Currency Risk

Foreign currency risk is managed through foreign currency forward contracts, and by diversifying assets into various countries and currencies.

Forward Exchange Contracts

Fund managers enter into a variety of forward currency contracts in their trading activities and management of foreign currency exchange rate risk exposure. These contracts are typically intended to neutralize the effect of foreign currency fluctuations, and the contract amounts do not appear on the balance sheet. Realized gains and losses are included in the net increase/decrease in the fair value of investments at the time the contract is settled and determined based on the difference between the contract rate and the market rate at the time of maturity or closing. Unrealized gains and losses are also included in the net increase/decrease in the fair value of investments, and are calculated based on the difference between the contract rate and a forward market rate determined as of the balance sheet date.

A portion of the investment in forward exchange contracts is intended to manage, rather than neutralize, foreign currency fluctuations. Certain managers seek to control the effect of fluctuations in foreign exchange rates within their overall portfolio strategy rather than on a security by security basis. They attempt to optimize their foreign currency exposure in a market rather than accept the natural geographical exposure to the market's currency.

Futures

Certain equity and fixed income managers for the Fund are permitted to buy and sell equity and interest rate index futures. The gross contract and fair value of futures do not appear in the balance sheets. The net unrealized gain or loss on open futures trades is included in investments on the balance sheets, based on the difference between the future's purchase price and the current value of such index futures. Realized gains and losses on futures are included in the net increase in the fair value of investments at the time the futures contract expires. The net change in unrealized gains and losses is included in the net increase in the fair value of investments.

Cash and Temporary Investments

The amounts shown on the balance sheets as cash and temporary investments include cash on deposit at the custodian bank, cash swept to overnight investment funds, cash collateral held at derivatives brokers, U.S. Treasury bills, commercial paper, and the net fair value of foreign exchange forward contracts. The APFC's asset allocation includes approximately two percent in cash. APFC's investment policy specifies that funds dedicated to this portion of the asset allocation will be invested in money market funds or fixed income securities with weighted-average maturities of no greater than 24 months.

Cash and temporary investments, which include the market values of foreign currency (FX) and FX forward exchange contracts, are summarized as follows at June 30, 2021 (in thousands):

Cash	\$	202,593
Pooled Funds		1,322,111
Commercial Paper		563,191
U.S. Treasury Bills		3,715,823
FX Forward Exchange Contracts		24,695
Total Cash and Temporary Investments	\$	<u>5,828,413</u>

Uninvested cash was held at the custodian, sub-custodian, or derivatives broker banks, primarily in interest-bearing accounts. All pooled funds were invested in a money market fund. U.S. Treasury bills are explicitly guaranteed by the U.S. government.

Marketable Debt Securities

Marketable debt securities at June 30, 2021, are summarized as follows (in thousands), categorized by debt instrument type and by country of registration:

	Cost	Fair Value	Unrealized Gains/(Losses)
U.S. Treasury and Government Notes/Bonds	\$ 2,389,975	\$ 2,396,855	\$ 6,880
Mortgage-backed Securities	2,535,497	2,543,881	8,384
U.S. Corporate Bonds	6,259,931	6,700,979	441,048
Commercial Mortgage/Asset-backed Securities	674,984	681,384	6,400
Non-U.S. Treasury and Government Bonds	2,358,445	2,333,976	(24,469)
Non-U.S. Corporate Bonds	998,114	1,073,502	75,388
Commingled and exchange traded funds	712,403	707,792	(4,611)
Total Marketable Debt Securities	<u>\$ 15,929,349</u>	<u>\$ 16,438,369</u>	<u>\$ 509,020</u>

Marketable Debt Credit Ratings

To manage credit risk for marketable debt securities, the APFC monitors fair values of all securities daily and routinely reviews its investment holdings' credit ratings. For accounts with an investment grade mandate, issues falling below the minimum standards are required to be sold within seven months of the downgrade date. Minimum standards are a Standard & Poor's Corporation rating BBB or better, or Moody's Investors Service, Inc. rating of Baa or better, or a comparable rating by another Nationally Recognized Statistical Rating Organizations (NRSRO) or by a recognized rating service in the jurisdiction of the issuer. Managers with high yield mandates are allowed to hold positions in assets with below investment grade ratings (high yield bonds) based on the terms of their contracts. For purposes of this note, if credit ratings differ among the NRSROs used, the rating with the highest degree of risk (the lowest rating) is reported.

At June 30, 2021, the Fund's credit ratings for its marketable debt securities are as follows (in thousands):

NRSRO Quality Rating	Domestic	Non-Domestic	Total Fair Value	Percent of Holdings
AAA	\$ 466,392	\$ 276,968	\$ 743,360	4.52 %
AA	510,927	354,475	865,402	5.26
A	1,405,528	565,066	1,970,594	11.99
BBB	3,260,232	974,917	4,235,149	25.76
BB	940,040	360,982	1,301,022	7.91
B	612,114	245,705	857,819	5.22
CCC	132,794	78,399	211,193	1.28
CC	464	—	464	0.00
C	—	—	—	0.00
D	108	40,766	40,874	0.25
Total Fair Value of Rated Debt Securities	7,328,599	2,897,278	10,225,877	62.21

Not Rated	63,345	531,765	595,110	3.62
U.S. Government Explicitly Backed by the U.S. Government (AA)	2,952,208	—	2,952,208	17.96
U.S. Government Implicitly Backed by the U.S. Government (AA)	1,957,381	—	1,957,381	11.91
Total Fair Value Debt Securities	<u>\$ 13,009,325</u>	<u>\$ 3,429,044</u>	<u>\$ 16,438,369</u>	<u>100.00 %</u>

Marketable Debt Duration

To manage its interest rate risk on marketable debt securities, the APFC monitors fair values daily and routinely reviews portfolio effective duration in comparison to established benchmarks. At June 30, 2021, the effective duration by investment type, based on fair value, is as follows:

	Percent of bond holdings	Duration (Years)
Domestic Bonds		
Treasury and Government Notes/Bonds	18.43 %	7.21
Mortgage-backed Securities	19.55	4.58
Corporate Bonds	51.51	8.54
Commercial Mortgage and Asset-backed Securities	5.07	3.90
Commingled and Exchange Traded Funds	5.44	—
Total Domestic Bonds	<u>100.00 %</u>	<u>6.82</u>
Non-domestic Bonds		
Treasury and Government Bonds	68.06 %	7.88
Corporate Bonds	31.31	7.10
Commercial Mortgage and Asset-backed Securities	0.63	9.12
Commingled and Exchange Traded Funds	—	4.68
Total Non-domestic Bonds	<u>100.00 %</u>	<u>7.64</u>

Preferred and Common Stock

Direct investments in preferred and common stock are held by the APFC's custodian bank on behalf of the Fund. The Fund also invests in commingled stock funds, which are held by the custodian bank of the fund manager on behalf of fund investors, and equity index futures, which are held at the prime broker.

Preferred and common stocks and commingled stock funds at June 30, 2021 are summarized as follows (in thousands) which include the net fair value of equity index futures of \$9.1 million:

	Cost	Fair Value	Unrealized Holding Gains/(Losses)
Direct Investments			
Domestic Stock	\$ 11,706,300	\$ 16,522,154	\$ 4,815,854
Non-domestic Stock	10,561,737	13,379,045	2,817,308
Commingled Funds	459,173	570,594	111,421
Total Preferred and Common Stock	<u>\$ 22,727,210</u>	<u>\$ 30,471,793</u>	<u>\$ 7,744,583</u>

Foreign Currency Exposure

Foreign currency risk is managed by the international investment managers in part through their decisions to enter into foreign currency forward contracts. Foreign currency risk is also managed through the diversification of assets into various countries and currencies.

At June 30, 2021, the Fund's cash holdings, foreign currency forward contracts, non-domestic public and private equity, and debt securities had exposure to foreign currency risk as follows (shown in U.S. dollar equivalent at fair value and based on the currency in which the securities are held and traded) (in thousands):

Foreign Currency	Cash and Equivalents	Foreign Exchange Forward Contracts	Equity, Private Debt, Real Estate, Infrastructure	Marketable Debt	Total Foreign Currency Exposure
Australian Dollar	\$ 4,348	\$ 36,263	\$ 404,656	\$ 51,645	\$ 496,912

Cash amounts in the schedule include receivables, payables, and cash balances in each related currency. If payables exceed receivables and cash balances in a currency, then the total cash balance for that currency will appear as a negative value. The remaining Fund investments are denominated in U.S. dollars and are not included in the schedule above.

Real Estate

The Fund holds a variety of real estate interests, including directly owned real estate, real estate investment trusts, multi-family and industrial real estate operating companies, private real estate funds, and other entities in which the assets consist primarily of real property. The Fund's directly owned real estate is through ownership of interests in corporations, limited liability companies, and partnerships that hold title to the real estate. External institutional real estate management firms administer the Fund's directly owned real estate investments. An internal real estate management program was initiated during FY 2021 and two existing direct holdings were moved into this program. The Fund also holds a portfolio of real estate loans collateralized by income-producing, institutional real estate in the United States; these are administered by an external institutional real estate management firm.

The APFC periodically reviews real estate investments for other than temporary impairment. During FY 2021, it was determined that one direct real estate holding was impaired because it was more likely than not that the Fund would not recover the carrying cost over the remaining estimated holding period of the asset. In order to reflect the impairment in statutory net income and fund balance classifications, \$3.8 million of unrealized losses were realized through a write-down of cost to fair value.

Real estate investments at June 30, 2021 are summarized as follows (in thousands):

	Cost	Fair Value	Unrealized Holding Gains (Losses)
Real Estate Investment Trusts	\$ 682,890	\$ 944,695	\$ 261,805
Real Estate Funds and Notes	987,201	1,043,254	56,053
American Homes 4 Rent II	115,866	145,832	29,966
Directly Owned Real Estate			
Retail	794,974	1,347,873	552,899
Office	1,073,478	1,274,920	201,442
Hotel	59,422	65,947	6,525
Industrial	242,284	477,168	234,884
Multifamily	176,475	291,093	114,618
Development	71,926	71,945	19
Total Real Estate	<u>\$ 4,204,516</u>	<u>\$ 5,662,727</u>	<u>\$ 1,458,211</u>

Alternative Investments

Alternative investments include the Fund's investments in absolute return and risk parity strategies, private equity, infrastructure, and private credit. The APFC periodically reviews alternative investments for other than temporary impairment.

Absolute return strategies are investments in specialized funds that seek to deliver returns that are largely uncorrelated with traditional market driven asset classes. The Fund invested in two absolute return limited partnerships in which the Fund was the only limited partner ("fund-of-one"); both are currently in liquidation. The Fund also holds direct hedge fund investments, in which the Fund is one of many limited partners. Risk parity strategies also seek to deliver returns that are largely uncorrelated with global public markets, however they do so through allocation of risk rather than allocation of capital. External investment management services for both strategies are provided by institutional investment managers who have acknowledged their status as fiduciaries to the Fund. Because of the off-exchange and private nature of many absolute return strategies, investments may have no readily determinable fair value, and the estimated fair values could differ significantly from values that would be obtained in a market transaction for the assets. Risk parity strategy investments are generally more liquid but may also not have readily determinable fair value depending on the underlying investments of a given fund. For both strategies, each manager provides the Fund with fair value estimates of partnership interests and undergoes an annual independent audit.

The Fund holds private equity through investments in limited liability companies and limited partnerships that typically invest in unlisted, illiquid common and preferred stock and, to a lesser degree, subordinated and senior debt of companies that are in most instances privately held. The APFC has hired external advisors to assist in the selection of private equity holdings diversified by geography and strategy. Private equity is funded slowly over time as opportunities are identified by APFC staff, the external advisors and the underlying fund managers. The underlying private equity funds provide the Fund with fair value estimates of the investments utilizing the most current information available. In addition, the external advisors review the fair value estimates and the underlying private equity funds undergo annual independent audits. Private equity investments by their nature generally have no readily determinable fair value, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets. During FY 2021, it was determined that twelve private equity funds were impaired because it was more likely than not that the Fund would not recover their carrying cost over the remaining estimated holding period of the assets. In order to reflect the impairment in statutory net income and fund balance classifications, \$49.8 million of unrealized losses were realized through a write-down of cost to fair value. These impairments have no impact on the carrying value of investments or on the net increase in the fair value of private equity investments.

Infrastructure investments involve ownership or operating agreements in essential long-term service assets with high barriers to entry. Examples of infrastructure assets include: toll roads; airports; deep water ports; communication towers; and energy generation, storage and transmission facilities. Investments in this asset class are expected to have inflation protection attributes and exhibit low correlations with other major asset classes in the Fund's investment strategy. The Fund holds infrastructure investments through commingled funds organized as limited partnerships whose investment managers provide periodic fair value estimates, as well as through securities listed on public exchanges. The limited partnerships undergo annual independent audits. Infrastructure investments by their nature generally have no readily determinable fair value, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets. During FY 2021 it was determined that no infrastructure funds were impaired.

The Fund invests in private credit through limited partnerships that invest either directly in distressed or mezzanine debt, or in commingled limited liability funds with a distressed debt or credit opportunity focus. These investments are funded over time, as opportunities arise. The limited partnerships and funds undergo annual independent audits. Private credit investments by their nature generally have no readily determinable fair value, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets.

During FY 2021, it was determined that three private credit funds were impaired because it was more likely than not that the Fund would not recover the carrying cost over the remaining estimated holding period of the assets. In order to reflect the impairment in statutory net income and fund balance classifications, \$11.1 million of unrealized losses were realized through a write-down of cost to fair value.

Alternative investments at June 30, 2021 are summarized as follows (in thousands):

	Cost	Fair Value	Unrealized Holding Gains
Absolute Return	\$ 4,180,792	\$ 5,170,653	\$ 989,861
Private Equity	8,381,923	15,294,438	6,912,515
Infrastructure	2,004,046	2,636,769	632,723
Private Credit	1,914,808	2,257,082	342,274
Total Alternative Investments	<u>\$ 16,481,569</u>	<u>\$ 25,358,942</u>	<u>\$ 8,877,373</u>

Securities Lending

State regulations at 15 AAC 137.510 and APFC investment policy authorize the APFC to enter into securities lending transactions on behalf of the Fund. Through a contract with the Bank of New York Mellon (the Bank), the Fund lends marketable debt and equity securities to borrowers who are banks and broker-dealers. The loans are collateralized with cash or certain marketable securities. Under APFC's contract with the Bank, the Bank must mark the loaned securities and collateral to the market daily, and the loan agreements require the borrowers to maintain the collateral at not less than 102 percent of the fair value of the loaned securities for domestic securities (and non-domestic loaned securities denominated in U.S. dollars) and not less than 105 percent of the fair value for other non-domestic loaned securities. The APFC can sell securities that are on loan. If a borrower fails to return the loaned securities (borrower default), the Bank can use cash collateral (and the proceeds on the sale of any non-cash collateral) to purchase replacement securities. Generally, the APFC is protected from credit risk associated

with the lending transactions through indemnification by the Bank against losses resulting from counterparty failure, the reinvestment of cash collateral, default on collateral investments, or a borrower's failure to return loaned securities.

Cash collateral received for loaned securities is reported on the Fund's balance sheets and invested by the Bank on behalf of the Fund. As of June 30, 2021, such investments were in overnight repurchase agreements that had a weighted-average-maturity of one day. The average term of the loans was also one day. At June 30, 2021 the value of securities on loan is as follows (in thousands):

Fair Value of Securities on Loan, Secured by Cash Collateral	\$	4,249,447
Cash Collateral		4,348,802
Fair Value of Securities on Loan, Secured by Non-cash Collateral		7,445,378
Non-cash Collateral		8,230,657

The Fund receives 80 percent of earnings derived from securities lending transactions, and the Bank retains 20 percent. During the year ended June 30, 2021, the Fund incurred no losses from securities lending transactions. The Fund received income of \$23.7 million from securities lending for the year ended June 30, 2021, which is recorded in real estate and other income on the statements of revenues, expenditures and changes in fund balances.

Fair Value Measurement

Various inputs are used in valuing the investments held by the Fund. GAAP establishes a hierarchy of inputs used to value investments emphasizing observable inputs and minimizing unobservable inputs. These input levels are summarized as follows:

Level 1 - Quoted prices for identical assets in an active market.

Level 2 - Inputs, other than quoted prices, that are observable for the asset, either directly or indirectly.

Level 3 - Unobservable inputs. Unobservable inputs should only be used to the extent that observable inputs are not available for a particular asset.

Investments measured using NAV per share as a practical expedient to fair value are not categorized into input levels. The input levels used to measure the Fund's investments and derivative instruments at June 30, 2021 are summarized as follows (in thousands):

	Measured Using Input Levels			Measured Using	
	Level 1	Level 2	Level 3	NAV	Total
Marketable Debt Securities	\$ 3,023,565	\$ 13,331,791	\$ 83,013	\$ —	\$ 16,438,369

Infrastructure	227,887	—	—	2,408,882	2,636,769
Total Investments	<u>\$ 34,547,760</u>	<u>\$ 13,331,818</u>	<u>\$ 83,053</u>	<u>\$ 29,969,200</u>	<u>\$ 77,931,831</u>

Marketable debt securities and preferred and common stock classified as level 1 are valued using prices quoted in active markets for those securities. Debt securities classified as level 2 are valued using matrix pricing. Pricing is sourced from various sources. Marketable debt securities valued at level 3 are term loans.

Publicly traded real estate investment trusts are valued using prices quoted in active markets and are reported as level 1. Directly owned real estate through ownership of interests in corporations, limited liability companies and partnerships that hold title to real estate are reported at the NAV of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. The underlying directly owned real estate investments are subject to annual appraisals and audits. American Homes 4 Rent II is reported at the NAV of the capital account balance nearest to the balance

sheet date, adjusted for subsequent contributions and distributions, and does not allow redemptions until the company is wound-up and dissolved.

Absolute return investments are reported at NAV of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. Absolute return investments undergo annual independent financial statement audits. The redemption notice period is from 1-91 days and the frequency of redemption is daily to quarterly.

Private equity investments are reported at NAV of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. Private equity investments undergo annual independent financial statement audits. Redemptions are not allowed and the usual life of these investments is 10-12 years.

Publicly traded infrastructure investments are classified as level 1 and are valued using prices quoted in active markets for those securities. The majority of infrastructure investments are reported at the NAV of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. Infrastructure investments undergo annual independent financial statement audits. Redemptions are not allowed and the usual life of these investments is 5-7 years.

Private credit investments are reported at NAV of the capital account balance nearest to the balance sheet date, adjusted for subsequent contributions and distributions. Private credit investments undergo annual independent financial statement audits. Redemptions are not allowed and the usual life of these investments in 5-7 years.

Investment Income by Source

Investment income during the year ended June 30, 2021, is summarized as follows (in thousands):

Interest	
Marketable Debt Securities	\$ 432,314
Short-term and Other	4,167
Total Interest	<u>\$ 436,481</u>
Dividends	<u>\$ 558,073</u>
Real Estate and Other Income	
Directly Owned Real Estate Net Rental Income	\$ 75,271
Real Estate Investment Trust Dividends	22,613
Real Estate Fund and Notes, Net of Fees	8,110
Private Credit Interest Income, Net of Fees	80,094
Infrastructure Interest and Dividend Income, Net of Fees	16,021
Private Equity Dividend Income, Net of Fees	302,533
Class Action Litigation Income	1,160
Loaned Securities, Commission Recapture, and Other Income	24,375
Total Real Estate and Other Income	<u>\$ 530,177</u>

Foreign Exchange Contracts, Futures and Off-Balance Sheet Risk

Certain APFC external investment managers enter into foreign currency forward exchange contracts (FX forward contracts) to buy and sell specified amounts of foreign currencies for the Fund at specified rates and future dates for the purpose of managing or optimizing foreign currency exposure. The maturity periods for outstanding contracts at June 30, 2021 ranged between one and 127 days.

The counterparties to the FX forward contracts consisted of a diversified group of financial institutions. The Fund is exposed to credit risk to the extent of non-performance by these counterparties. The Fund's market risk as of June 30, 2021 is limited to the difference between contractual rates and forward market rates determined at the end of the fiscal year.

Activity and balances related to FX forward contracts for FY 2021 are summarized as follows (in thousands):

Balances at June 30, 2021:

Face Value of FX Forward Contracts	\$ 5,895,569
Net Unrealized Holding Gains (losses) on FX Forward Contracts	24,695
Fair Value of FX Forward Contracts	<u>\$ 5,920,264</u>
Activity for Fiscal Year Ending June 30, 2021	
Change in Unrealized Holding Gains	\$ 19,018
Realized Gains (losses)	(87,693)
Net Increase (decrease) in Fair Value of FX Forward Contracts	<u>\$ (68,675)</u>

Certain APFC equity investment managers are permitted to trade in equity index futures for the Fund's account, and the internal fixed income management team trades U.S. Treasury index futures. Equity index futures are traded in both domestic and non-domestic markets based on an underlying stock exchange value. Equity and fixed income index futures are settled with cash for the net difference between the trade price and the settle price.

Activity and balances related to futures in equity accounts for FY 2021 are summarized as follows (in thousands):

Balances at June 30, 2021:

Face Value of Equity Index Futures	\$ 94,252
Net Unrealized Holding Gains on Futures	9,131
Fair Value of Equity Index Futures	<u>\$ 103,383</u>
Activity for Fiscal Year Ending June 30, 2021	
Change in Unrealized Holding Gains	\$ 6,553
Realized Gains	41,577
Net Increase in Fair Value of Equity Index Futures	<u>\$ 48,130</u>

Activity and balances related to futures in fixed income accounts for FY 2021 is summarized as follows (in thousands):

Balances at June 30, 2021:

Face Value of U.S. Treasury Index Futures	\$ 106,178
Net Unrealized Holding Losses on Futures	(5,717)
Fair Value of U.S. Treasury Index Futures	<u>\$ 100,461</u>
Activity for Fiscal Year Ending June 30, 2021	
Change in Unrealized Holding Losses	\$ (5,015)
Realized Gains	14,405
Net Increase in Fair Value of U.S. Treasury Index Futures	<u>\$ 9,390</u>

The face value of FX forward contracts and futures shown in these schedules is not required to be included in the Fund's balance sheets. All other activity amounts shown above are included in the Fund's financial statements in the Foreign currency forward exchange contracts and futures line on the Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTE 5 – CAPITAL ASSETS

PRIMARY GOVERNMENT

Capital assets, which include property, plant, equipment, and infrastructure items (highways, bridges, and similar items) are reported in the applicable governmental and business-type activity columns of the government-wide financial statements. Intangibles are reported separately in the notes to the financial statements; however, on the face of the financial statements, intangibles are grouped with the asset class they most resemble. Easements and right of way are grouped with land, and software is grouped with equipment.

Capitalization policy and useful lives for capital assets are as follows:

Capital Asset	Governmental Activities		Business-Type Activities	
	Capitalize at Value	Useful Life	Capitalize At Value	Useful Life
Land	All	Indefinite	All	Indefinite
Infrastructure	\$ 1,000,000	15-75	\$ 100,000	5-40
Buildings	1,000,000	50	100,000	10-40
Intangible Assets and Computer Software	500,000	3-7		
Building Improvements	100,000	15	All	5-40
Machinery/Equipment	100,000	3-60	5,000	5-10
Construction in Progress				

When a proprietary or fiduciary fund has its own capitalization policy, capital assets will be capitalized under that policy rather than in accordance with the above table.

State of Alaska art, library reserve, and museum collections that are considered inexhaustible, in that their value does not diminish over time, are not capitalized. These assets are held for public exhibition, education, or research rather than financial gain, and are protected, kept unencumbered, cared for, and preserved. Proceeds from the sale of collection items are used to acquire other items for collections.

Capital asset activities for the fiscal year ended June 30, 2021, are as follows (in millions):

Governmental Activities	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated:				
Intangible - Easements and Right-of-Way	\$ 688	\$ 10	\$ —	\$ 698
Land	380	3	—	383
Construction in progress	1,580	758	(846)	1,492
Total capital assets not being depreciated	2,648	771	(846)	2,573

Infrastructure	(598)	(37)	—	(635)
Total accumulated depreciation	(1,241)	(77)	—	(1,318)
Total capital assets being depreciated, net	1,139	(51)	(1)	1,087
Capital assets, net	\$ 1,184	\$ (17)	\$ (26)	\$ 1,141

The following relates to the land owned by the State:

The total state entitlement amounts to approximately 105.8 million acres, 102.6 million of which was received through the Statehood Act. In accordance with the Alaska Statehood Act section 6(g), Alaska Native Claims Settlement Act, and the Alaska National Interest Lands Conservation Act, section 906(c), 100.6 million acres have been patented or “tentatively approved.”

The State disposes of various land parcels through several programs. However, the State generally retains the subsurface rights of the land upon disposal.

Depreciation expense was charged to the functions of the primary government as follows (in millions):

Governmental Activities:	Amount
General Government	\$ 37
Education	17
Health and Human Services	25
Law and Justice	6
Natural Resources	4
Development	1
Public Protection	15
Transportation	486
Depreciation on capital assets held by the state's internal service funds is charged to the various functions based on their use of the assets.	30
Total Depreciation Expense - Governmental Activities	\$ 621
Business-type Activities:	
Enterprise	\$ 77

DISCRETELY PRESENTED COMPONENT UNITS

The estimated useful lives of capital assets range from 4 to 50 years. Intangibles are reported separately in the notes to the financial statements; however, on the face of the financial statements, all intangibles are grouped with the asset class they most resemble. Software and Right of Use are grouped with infrastructure. Easements and Right-of-Way are grouped with Construction in Progress. The following table summarizes net capital assets reported by the discretely presented component units at June 30, 2021 (in millions):

	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated:				
Intangible - Easements and Right-of-Way	\$ 19	\$ 14	\$ —	\$ 33
Land	119	2	—	121
Museum Collections	7	—	—	7

University of Alaska art and museum collections, which are capitalized but not depreciated, are held for public exhibition, education, or research rather than financial gain, and are protected, kept unencumbered, cared for, and preserved. Proceeds from the sale of collection items are used to acquire other items for collections.

NOTE 6 – SHORT-TERM DEBT, BONDS PAYABLE AND OTHER LONG-TERM OBLIGATIONS**A. SUMMARY OF CHANGES**Short-Term Debt

Two enterprise funds, the Alaska Clean Water Fund and the Alaska Drinking Water Fund issued bond anticipation notes during FY 2021 totaling \$1,901 thousand and \$2,200 thousand respectively. The proceeds were used to fund the State share of loan distributions and administration costs. In accordance with the Environmental Protection Agency regulations, interest and investment earnings were used to retire the bond anticipation notes.

Long-Term Liabilities

The following table summarizes changes in long-term liabilities for Governmental Activities for the fiscal year ended June 30, 2021 (in thousands):

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue bonds payable	\$ 312,960	\$ 1,819	\$ 4,106	\$ 310,673	\$ —
General obligation debt	672,105	110,763	57,771	725,097	41,210
Notes from direct borrowings and direct placements	6,563	74	2,778	3,859	2,770
Capital leases payable	229,730	3,561	22,126	211,165	21,748
Unearned revenue	1,219,849	1,767,559	2,359,954	627,454	374,294
Certificates of participation	24,341	—	2,244	22,097	2,227
Compensated absences	180,772	162,787	145,233	198,326	150,308
Claims and judgments	224,745	17,975	25,879	216,841	42,982
Pollution remediation	125,227	8,739	3,433	130,533	12,753
Other noncurrent liabilities	3,435	71,321	39,366	35,390	397
Net pension liability	4,615,517	440,512	29,464	5,026,565	—
Net OPEB liability	104,548	—	101,249	3,299	—
Total	\$ 7,719,792	\$ 2,585,110	\$ 2,793,603	\$ 7,511,299	\$ 648,689

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for internal service funds are included as part of the above totals for governmental activities.

The General Fund and special revenue funds in which the leases are recorded typically liquidate the capital lease obligations. The compensated absence obligations are typically liquidated by the funds incurring the related salaries and wages. Claims and judgments attributable to governmental activities will generally be liquidated by the General Fund, except for the payments by Capital Project Funds for the rebate of arbitrage. Certain claims and judgment liquidations will receive proportional federal reimbursement. Other non-current liabilities due within one year will be liquidated by the General Fund and those due after one year will be liquidated by the Reclamation Bonding Pool, a special revenue fund.

The Internal Revenue Code and arbitrage regulations issued by the Internal Revenue Service require rebate to the federal government of excess investment earnings on bond proceeds if the yield on those earnings exceeds the effective yield on the related tax-exempt bonds issued. Arbitrage rebates payable are reported under claims and judgments.

The following table summarizes changes in long-term liabilities for Business-type Activities for the fiscal year ended June 30, 2021 (in thousands):

Business-type Activities	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue bonds payable	\$ 355,082	\$ —	\$ 16,023	\$ 339,059	\$ 14,640
Unearned revenue	36,093	8,162	18,988	25,267	25,267
Compensated absences	5,076	4,404	4,226	5,254	3,974
Pollution remediation	5,856	885	555	6,186	618
Other Noncurrent Liabilities	33,684	17,733	16,842	34,575	—
Net pension liability	60,221	3,288	80	63,429	—
Net OPEB liability	1,989	1	1,884	106	—
Total	\$ 498,001	\$ 34,473	\$ 58,598	\$ 473,876	\$ 44,499

B. NET PENSION LIABILITY

Net Pension Liability is recorded in the schedule of long-term liabilities above. The PERS and TRS total pension liability for the June 30, 2020 measurement date was determined by actuarial valuations as of June 30, 2019, which were rolled forward to June 30, 2020. The JRS and NGNMRS total pension liability for the June 30, 2020 measurement date was determined by actuarial valuations as of June 30, 2020. The actuarial valuations used the following actuarial assumptions, applied to all periods included in the measurement:

System	Investment Rate of Return	Inflation Rate	Salary Scale Increases
PERS	7.38%, net of pension plan investment expenses. This is based on an average inflation of 2.50% and a real return of 4.88%	2.5%	Graded by service, from 7.75% to 2.75% for Peace Officer/Firefighter Graded by service from 6.75% to 2.75% for all others
TRS	7.38%, net of pension plan investment expenses. This is based on an average inflation rate of 2.50% and a real return of 4.88%	2.5%	Graded by service, from 6.75% to 2.75%
JRS	7.38%, net of pension plan investment expenses. This is based on an average inflation rate of 2.50% and a real rate of return 4.88%	2.5%	0% for FY 2021 through FY 2024, 3.62% per year thereafter
NGNMRS	7%, net of pension plan investment expenses. This is based on an average inflation rate of 2.50% and a real rate of return of 4.88%	2.5%	None

PERS pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rates were based on 100 percent of the RP-2014 employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 91 percent of male and 96 percent of female rates of the RP-2014 health annuitant table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Disabilities are assumed to be occupational 75 percent of the time for Peace Officer/Firefighters, 40 percent of the time for others. Post-disability mortality in accordance with the RP-2014 disabled table with MP-2017 generational improvement. The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2019 actuarial valuation are the same as those used in the June 30, 2018 valuation, except the amount included in the Normal Cost for the administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from DB Pension Plan assets.

TRS pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rates were based on 100 percent of the RP-2014 white-collar employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based

on 93 percent of male and 90 percent of female rates of the RP-2014 white-collar healthy annuitant table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Deaths are assumed to result from occupational causes 15 percent of the time. Post-disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2019 actuarial valuation are the same as those used in the June 30, 2018 valuation, except the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from DB Pension Plan assets.

JRS pre-commencement mortality rates were based on 100 percent of the RP-2014 white-collar employee table, benefit weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 93 percent of male and 90 percent of female rates of the RP-2014 white-collar healthy annuitant table, benefit weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumption used in the June 30, 2020 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2020 valuation are the same as those used in the June 30, 2019 valuation, except (i) the salary increase assumption and the pensioner benefit increase assumption were modified to be 0 percent per year for FY 2021 through FY 2024, and 3.62 percent per year thereafter based on information provided by the Board, and (ii) the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from pension plan assets.

NGNMRS pre-commencement mortality rates were based on 100 percent of the RP-2014 employee table, benefit weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 91 percent of male and 96 percent of female rates of the RP-2014 healthy annuitant table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumption used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017. The actuarial assumptions used in the June 30, 2020 valuation are the same as those used in the June 30, 2019 actuarial valuation, except the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from pension plan assets.

For PERS, TRS, JRS, and NGNMRS, the long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 are summarized in the next table (note that the rates shown exclude the inflation component):

System	Asset Class	Long-term Expected Real Rate of Return	Allocation	Range
PERS/TRS	Broad Domestic Equity	6.24%	26.00%	+/- 6%
	Global Equity (non-U.S.)	6.67	18.00	+/- 4
	Fixed Income	—	24.00	+/- 10
	Aggregate Bonds	(0.16)	—	—
	Opportunistic	3.01	8.00	+/- 4
	Real Assets	3.82	13.00	+/- 7
	Private Equity	10.00	11.00	+/- 6
	Cash Equivalents	(1.09)	—	—
JRS	Domestic Equity	6.24	26.00	+/- 6
	Global Equity (non-U.S.)	6.67	18.00	+/- 4
	Aggregate Bonds	(0.16)	—	—
	Fixed Income	—	24.00	+/- 10
	Opportunistic	3.01	8.00	+/- 4
	Real Assets	3.82	13.00	+/- 7
	Private Equity	10.00	11.00	+/- 6
	Cash Equivalents	(1.09)	—	—
NGNMRS	Domestic Equity	6.20	26.00	+/- 6
	Global Equity (non-U.S.)	6.66	21.00	+/- 4
	Fixed Income	(0.16)	45.00	+/- 10
	Opportunistic	3.01	8.00	+/- 5
	Cash Equivalents	(1.09)	—	+ 3

The discount rate used to measure the total pension liability was 7.38 percent for PERS, TRS and JRS which is no change from the June 30, 2019 measurement. The discount rate used to measure the total pension liability was 7 percent for NGNMRS which is no change from the June 30, 2019 measurement. The projection of cash flows used to determine the discount rate assumed that employer and the nonemployer State contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the System Pension Plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. In the event benefit payments are not covered by the plan's fiduciary net position, a municipal bond rate would be used to discount the benefit payments not covered by the System Pension Plans' fiduciary net position. The S&P Municipal Bond 20-Year High Grade Index rate was 2.66 percent as of June 30, 2020.

The following presents the net pension liability/(asset) for each plan as of June 30, 2020, calculated using the discount rate, as well as what the respective plans' net pension liability/(asset) would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate (in thousands):

	1% Decrease 6.38%	Discount Rate 7.38%	1% Increase 8.38%
Primary Government's proportionate share of the PERS net pension (asset) liability	\$ 3,766,226	\$ 2,896,625	\$ 2,167,274
Discrete Component Units' proportionate share of the PERS net pension (asset) liability	367,624	282,741	211,549
Primary Government's proportionate share of the TRS net pension (asset) liability	18,630	13,276	8,773
Discrete Component Units' proportionate share of the TRS net pension (asset) liability	40,416	28,801	19,032
Primary Government's JRS net pension (asset) liability	45,212	21,898	2,242
	1% Decrease 6%	Discount Rate 7%	1% Increase 8%
Primary Government's NGNMRS net pension (asset) liability	\$ (18,016)	\$ (20,031)	\$ (21,768)

The State's proportion of the net pension liability for the defined benefits multiple employer plans were based on projections of the present value of the State's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers from July 1, 2020 to a projected fully funded year of 2039. At June 30, 2020 the proportionate share of the net pension liability attributed to the State was 53.88 percent (49.09 percent for the primary government and 4.79 percent for the discrete component units) for the Public Employee's Retirement System (PERS) and 2.07 percent (0.65 for the primary government and 1.42 for the discrete component units) for the Teacher's Retirement System (TRS). This was a decrease of 0.75 percent (0.63 percent decrease for the primary government and 0.12 percent decrease for the discrete component units) for PERS and a decrease of 0.20 percent (0.02 percent decrease for the primary government and 0.18 percent decrease for the discrete component units) for TRS from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the State recognized pension expense of \$377,249 thousand (\$347,284 thousand for the primary government and \$29,965 thousand for the discrete component units) broken out by plan as follows (in thousands):

<u>Systems</u>	<u>Pension Expense</u>
Public Employees' Retirement System - Primary Government	\$ 351,119
Public Employees' Retirement System - Discrete Component Units	28,519
Teachers' Retirement System - Primary Government	1,018
Teachers' Retirement System - Discrete Component Units	1,446
Judicial Retirement System - Primary Government	58
Alaska National Guard and Alaska Naval Militia Retirement System - Primary Government	(4,911)

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to pension plans from the following sources by plan (in thousands):

		Deferred Outflows of Resources	Deferred Inflows of Resources
PERS			
Primary Government	Difference Between Expected and Actual Experience	\$ 9,189	\$ —

2026	—	—	—	—	—	—
Thereafter	—	—	—	—	—	—

SPECIAL FUNDING SITUATION

Under Governmental Accounting Standards Board Statement No. 68, a special funding situation exists when a nonemployer entity is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity or entities and either (1) the amount of contributions for which the nonemployer entity legally is responsible is not dependent upon one or more events unrelated to pensions or (2) the nonemployer is the only entity with a legal obligation to make contributions directly to a pension plan.

In an opinion dated August 3, 2015, the Department of Law advised that AS 39.35.280 and AS 14.25.085 did not create “legal responsibility” in the State to make contributions for non-State PERS and TRS participating employers, and that a “special funding situation” did not exist for purposes of GASB 68. The Department of Law further advised that the State should only report on its balance sheet those net pension liabilities attributable to the State as a participating employer. That opinion is incorporated by reference to this note.

On November 25, 2015, however, GASB staff advised the Department of Administration and the Department of Law that the term “legally responsible” for purposes of GASB 68 should not be construed in a legally enforceable sense, and that the reporting of net pension liability attributable to special funding situations on the State’s balance sheet does not mean that the State is legally obligated for such underlying net pension liabilities. Rather, the reporting of such amounts merely reflects an “economic reality” that the State is making state assistance payments on behalf of participating employers pursuant to AS 39.35.280 and AS 14.25.085. Nevertheless, GASB staff advised that the existence of such statutes, irrespective of their constitutional validity, required the State to report these amounts as liabilities on its balance sheet. Moreover, in a memo dated December 16, 2015, the Division of Legislative Audit stated that the constitutional prohibition against dedicated revenue and limitations on one legislature binding the appropriation power of a subsequent legislature are not permissible exceptions to this accounting rule.

Accordingly, the State is reporting such amounts on its balance sheet, but the State affirmatively disclaims any and all legal responsibility or obligation, in a legally enforceable sense, for the non-State employer GASB 68 net pension liabilities reported as liabilities on the basic financial statements herein. The State acknowledges that municipalities and school districts have taken the position that they are not claiming responsibility for liabilities beyond the obligations they report in their financial statements.

The assumptions for the portion of the net pension liability attributed to the special funding situation for both the PERS and TRS plans are the same as those previously listed. The proportionate share of the net pension liability attributed to the special funding situation was based on a projection of the present value of the State’s long-term share of contributions to the pension plans relative to the projected contributions of all participating employers from July 1, 2021 to a projected fully funded year of 2039.

The following presents the State's proportionate share of the net pension liability calculated using the discount rate, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate for the special funding situation portion (in thousands):

	1% Decrease 6.38%	Discount Rate 7.38%	1% Increase 8.38%
PERS net pension liability	\$ 1,140,053	\$ 876,821	\$ 656,043
TRS net pension liability	1,798,166	1,281,372	846,749

At June 30, 2020 the proportionate share of the net pension liability attributed to the State for the special funding situation was 14.86 percent for the Public Employee's Retirement System (PERS) and 63.02 percent for the Teacher's Retirement System (TRS), which was an increase of 0.58 percent and 3.69 percent from its proportion measured as of June 30, 2019 for PERS and TRS respectively.

For the year ended June 30, 2021, the State recognized expenses of \$397,951 thousand in relation to the special funding situation broken out by plan as follows (in thousands):

<u>Systems</u>	<u>Pension Expense</u>
Public Employees' Retirement System	\$ 201,875
Teachers' Retirement System	196,076

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to pension plans for the special funding situation amounts from the following sources by plan (in thousands):

		Deferred Outflows of Resources	Deferred Inflows of Resources
PERS	Difference Between Expected and Actual Experience	\$ 2,781	\$ —
	Difference Between Projected and Actual Investment Earnings	35,687	—
	Changes in Proportion and Difference Between Employer Contributions and Proportionate Share of Contributions	10,999	—
	Changes in Assumptions	—	—
	Changes in Benefits	—	—
	Contributions Subsequent to the Measurement Date	101,383	—
TRS	Difference Between Expected and Actual Experience	1,459	—
	Difference Between Projected and Actual Investment Earnings	88,297	—
	Changes in Proportion and Difference Between Employer Contributions and Proportionate Share of Contributions	28,568	—
	Changes in Assumptions	—	—
	Contributions Subsequent to the Measurement Date	134,070	—

\$235,453 thousand reported as deferred outflows of resources related to the special funding situation resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in fiscal year 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the special funding situation will be recognized as expenses for each plan as follows (in thousands):

Year Ending June 30	PERS		TRS	
2022	\$	14,411	\$	31,022
2023		12,550		31,190

2025		9,241		22,922
2026		—		—
Thereafter		—		—

STATE ADMINISTERED SINGLE EMPLOYER PLANS

The schedules of changes in plan net pension liability/(asset) for the JRS and NGNMRS defined benefit pension plan as of the measurement date, June 30, 2020 are below (in thousands):

JRS	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances at June 30, 2019	\$ 235,935	\$ 184,626	\$ 51,309
Changes for the year:			
Service Cost	6,580	—	6,580
Interest	17,340	—	17,340
Differences between expected and actual experience	4,075	—	4,075
Changes in assumptions	(38,010)	—	(38,010)
Contributions - employer	—	11,127	(11,127)
Contributions - employee	—	839	(839)
Net investment income	—	7,537	(7,537)
Benefit payments, including refunds of employee contributions	(14,178)	(14,178)	—
Administrative expense	—	(107)	107
Net Changes	(24,193)	5,218	(29,411)
Balances at June 30, 2020	\$ 211,742	\$ 189,844	\$ 21,898
NGNMRS			
	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Asset (a)-(b)
Balances at June 30, 2019	\$ 22,253	\$ 40,965	\$ (18,712)
Changes for the year:			
Service Cost	508	—	508
Interest	1,532	—	1,532
Differences between expected and actual experience	(587)	—	(587)
Contributions - employer	—	861	(861)
Net investment income	—	2,142	(2,142)
Benefit payments, including refunds of employee contributions	(1,641)	(1,641)	—
Administrative expense	—	(231)	231
Net Changes	(188)	1,131	(1,319)
Balances at June 30, 2020	\$ 22,065	\$ 42,096	\$ (20,031)

NON-STATE ADMINISTERED SINGLE EMPLOYER PLANS

The Alaska Railroad Corporation (ARRC) is a component unit of the State of Alaska. The ARRC has a single-employer defined benefit pension plan administered by the Tax Deferred Savings and Pension Committee covering all regular represented and nonrepresented employees who are not covered by the Civil Service Retirement System. The net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2020. The actuarial valuation used the following actuarial assumptions:

<u>Actuarial Assumption</u>	<u>December 31, 2020</u>
Inflation	2.8%
Salary increases	2.8% CPI plus merit based rates
Long term rate of return	7.25%
Cost of living allowance	1.4%
Retirement, disablement, and termination	Based on 2010-2014 experience study
Administrative expenses	0.52% of payroll, based on current year actual expense

Mortality rates were based on the Society of Actuaries RP-2014 healthy annuitant mortality table adjusted 91 percent for males and 96 percent for females and the Scale MP-2019 generational mortality improvement in longevity that management expects to occur in the future.

The long-term expected rate of return on pension plan investments of 7.25 percent was determined by management using a building-block method which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the intermediate-term and long-term expected rates of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target allocation</u>	<u>Intermediate-term expected real rate of return</u>	<u>Long-term expected real rate of return</u>
Cash	—%	—%	—%
U.S. Treasury Inflation-Protected Securities (TIPS)	5.00	2.80	1.94
Total Return Bond	13.00	2.70	2.43
Global Bond	5.00	3.05	2.43
High Yield Bond	7.00	4.72	3.88
Domestic Large Cap	20.00	4.87	6.80
Domestic Mid Cap	12.00	5.60	7.77
Domestic Small Cap	8.00	5.85	8.74
International Equity	13.00	5.36	7.04
Commodities	2.00	4.62	1.46
Real Estate	15.00	5.11	4.61
Total	<u>100.00%</u>		

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and the ARRC contributions will be made based on the actuarially determined contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net pension liability calculated using the discount rate of 7.25 percent as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or higher than the current rate (in thousands):

	<u>1% Decrease (6.25%)</u>	<u>Current discount rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
Net pension liability	\$ 54,807	\$ 17,939	\$ (12,289)

For the year ended December 31, 2020, the ARRC recognized pension expense of \$4.2 million and the following deferred outflows and deferred inflows (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 13	\$ 2,435
Changes in assumptions	9,482	3,090
Net difference between actual and projected earnings on investments	—	10,033

Deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

	<u>Amount</u>
Year ending December 31,	
2021	\$ (1,087)
2022	1,023
2023	(3,929)
2024	(2,070)

Net Changes	<u>9,218</u>	<u>21,469</u>	<u>(12,251)</u>
Balances at December 31, 2020	<u>\$ 251,248</u>	<u>\$ 233,309</u>	<u>\$ 17,939</u>

C. NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY/ASSET

Net other post-employment benefits (OPEB) liability is recorded in the schedule of long-term liabilities above. The total OPEB liability for the June 30, 2020 measurement date for all plans except JRS was determined by actuarial valuations as of June 30, 2019, which were rolled forward to June 30, 2020. The total OPEB liability for JRS was determined by actuarial valuations as of June 30, 2020. Projections are based on an established pattern of practice. The actuarial valuations used the following actuarial assumptions, applied to all periods included in the measurement:

System	Investment Rate of Return	Inflation Rate	Salary Scale Increases	Healthcare Cost Trend Rates
PERS*	7.38%, net of postretirement healthcare plan investment expenses. This is based on an average inflation of 2.50% and a real rate of return of 4.88%	2.5%	Graded by service, from 7.75% to 2.75% for Peace Officer/Firefighter. Graded by service from 6.75% to 2.75% for all others	Pre-65 medical; 7.0% grading down to 4.5% Post-65 medical; 5.4% grading down to 4.5% Prescription drugs/EGWP; 8.0% grading down to 4.5%
TRS*	7.38%, net of postretirement healthcare plan investment expenses. This is based on an average inflation rate of 2.50% and a real rate of return of 4.88%	2.5%	Graded by service, from 6.75% to 2.75%	Pre-65 medical; 7.0% grading down to 4.5% Post-65 medical; 5.4% grading down to 4.5% Prescription drugs/EGWP; 8.0% grading down to 4.5%
JRS	7.38%, net of postemployment healthcare plan investment expenses. This is based on an average inflation rate of 2.50% and a real rate of return of 4.88%	2.5%	0% for FY 2021 through FY 2024, 3.62% per year thereafter	Pre-65 Medical; 6.5 % grading down to 4.5% Post-65 medical; 5.4% grading down to 4.5% Prescription drugs/EGWP; 7.5% grading down to 4.5%

* Healthcare Cost Trend Rates applicable to Alaska Retiree Healthcare Trust and Retiree Medical Plans within PERS and TRS systems.

PERS pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Post-commencement mortality rates were based on 91 percent of the male rates and 96 percent of the female rates of the RP-2014 healthy annuitant table benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The rates for pre-commencement mortality were 100 percent of the RP-2014 employee, benefit-weighted, rolled back to 2006, and projected table with MP-2017 generational improvement. Deaths are assumed to be occupational 75 percent of the time for peace officers/firefighters, 40 percent of the time for all others. Disability mortality in accordance with the RP-2014 Disabled Table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumption used in the June 30, 2019 actuarial valuations were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2019 actuarial valuation are the same as those used in the June 30, 2018 valuation with the following exceptions: Per capita claims were updated to reflect current experience, retired member contribution trend rates were updated, the Cadillac Tax was repealed, and the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from postretirement healthcare plan assets.

TRS pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rates were based on 100 percent of the RP-2014 white-collar employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 93 percent of male and 90 percent of female rates of the RP-2014 white-collar healthy annuitant table benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Deaths are assumed to be occupational 15 percent of the time. Disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumption used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2019 actuarial valuation are the same as those used in the June 30, 2018 valuation with the following exceptions: Per capita claims cost were updated to reflect recent experience, retired member contribution trend rates were updated, the Cadillac Tax was repealed, administrative expenses were updated.

JRS pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. JRS pre-commencement mortality rates were based on 100 percent of the RP-2014 white-collar employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 93 percent of male and 90 percent of female rates of the RP-2014 white-collar healthy annuitant table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. The actuarial assumptions used in the June 30, 2020 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017. The assumptions used in the June 30, 2020 valuation are the same as those in the June 30, 2019 valuation, except (i) the salary increase assumption and the pensioner benefit increase assumption were modified to be 0 percent per year for FY 2021 through FY 2024, and 3.62 percent per year thereafter based on information provided by the Board, (ii) the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from postretirement healthcare plan assets, (iii) the repeal of the Cadillac Tax reduced the plan's liabilities as of June 30, 2020 by approximately \$0.2 million, and (iv) healthcare claim costs are updated annually.

The long-term expected rate of return on plan investments for each plan was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of postretirement healthcare plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the postretirement healthcare plans' target asset allocation are summarized in the following table as of June 30, 2020 (note that the rates shown below exclude the inflation component):

System	Asset Class	Long-term Expected Real Rate of Return	Allocation	Range
PERS/TRS	Broad Domestic Equity	6.24%	26.00%	+/- 6%
	Global Equity ex-U.S.	6.67	18.00	+/- 4
	Fixed Income	—	24.00	+/-10
	Aggregate Bonds	(0.16)	—	—
	Opportunistic	3.01	8.00	+/- 4
	Real Assets	3.82	13.00	+/- 7
	Private Equity	10.00	11.00	+/- 6
	Cash Equivalents	(1.09)	—	—
JRS	Domestic Equity	6.24	26.00	+/- 6%
	Global Equity ex-U.S.	6.67	18.00	+/- 4
	Aggregate Bonds	(0.16)	—	—
	Fixed Income	—	24.00	+/-10
	Opportunistic	3.01	8.00	+/- 4
	Real Assets	3.82	13.00	+/- 7
	Private Equity	10.00	11.00	+/- 6
	Cash Equivalents	(1.09)	—	—

The discount rate used to measure the total OPEB liability/asset for each plan was 7.38 percent which is no change from the June 30, 2019 measurement. The projection of cash flows used to determine the discount rate assumed that employer and state contributions will continue to follow the current funding policy, which meets state statutes. Based on those assumptions, the fiduciary net position for each plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability/asset. In the event benefit payments are not covered by the plan's fiduciary net position, a municipal bond rate would be used to discount the benefit payments not covered by the System Pension Plan's fiduciary net position. The S&P Municipal Bond 20-Year High Grade Index rate was 2.66 percent as of June 30, 2020. The following presents the net OPEB liability/(asset) for each plan as of June 30, 2020, calculated using the discount rate, as well as what the respective plans' net OPEB liability/(asset) would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate (in thousands):

	1% Decrease 6.38%	Discount Rate 7.38%	1% Increase 8.38%
Primary Government's proportionate share of the PERS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	\$ 232,029	\$ (222,361)	\$ (598,731)
Discrete Component Units' proportionate share of the PERS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	22,633	(21,690)	(58,402)
Primary Government's proportionate share of the PERS Occupational Death and Disability net OPEB liability (asset)	(12,492)	(13,294)	(13,935)
Discrete Component Units' proportionate share of the PERS Occupational Death and Disability net OPEB liability (asset)	(1,090)	(1,160)	(1,215)
Primary Government's proportionate share of the PERS Retiree Medical Plan net OPEB liability (asset)	21,089	3,404	(9,983)
Discrete Component Units' proportionate share of the PERS Retiree Medical Plan net OPEB liability (asset)	2,237	361	(1,059)
Primary Government's proportionate share of the TRS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	(129)	(2,335)	(4,155)
Discrete Component Units' proportionate share of the TRS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	(279)	(5,054)	(8,993)
Primary Government's proportionate share of the TRS Occupational Death and Disability net OPEB liability (asset)	(20)	(20)	(20)
Discrete Component Units' proportionate share of the TRS Occupational Death and Disability net OPEB liability (asset)	(99)	(99)	(99)
Primary Government's proportionate share of the TRS Retiree Medical Plan net OPEB liability (asset)	2	(45)	(80)
Discrete Component Units' proportionate share of the TRS Retiree Medical Plan net OPEB liability (asset)	12	(227)	(406)
Primary Government's JRS net OPEB (asset) liability	(15,246)	(17,273)	(18,957)

The following presents the net OPEB liability/(asset) for each applicable plan as of June 30, 2020, calculated using the healthcare cost trend rates as summarized in the actuarial valuation reports, as well as what the respective plans' net OPEB liability would be if it were calculated using trend rates that are one-percentage-point lower or one-percentage-point higher than the current healthcare cost trend rate (in thousands):

	1% Decrease	Current Trend Rate	1% Increase
Primary Government's proportionate share of the PERS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	\$ (642,860)	\$ (222,361)	\$ 286,838
Discrete Component Units' proportionate share of the PERS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	(62,706)	(21,690)	27,979
Primary Government's proportionate share of the PERS Retiree Medical Plan net OPEB liability (asset)	(11,945)	3,404	24,282
Discrete Component Units' proportionate share of the PERS Retiree Medical Plan net OPEB liability (asset)	(1,267)	361	2,575
Primary Government's proportionate share of the TRS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	(4,358)	(2,335)	125
Discrete Component Units' proportionate share of the TRS Alaska Retiree Healthcare Trust Plan net OPEB liability (asset)	(9,431)	(5,054)	270
Primary Government's proportionate share of the TRS Retiree Medical Plan net OPEB liability (asset)	(85)	(45)	11
Discrete Component Units' proportionate share of the TRS Retiree Medical Plan net OPEB liability (asset)	(430)	(227)	53
Primary Government's JRS net OPEB (asset) liability	(19,093)	(17,273)	(15,075)

The State's proportion of the net OPEB liability for the Alaska Retiree Healthcare Trust plans were based on projections of the present value of the State's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers from July 1, 2021 to a projected fully funded year of 2039. The State's proportion of net OPEB liability/asset for the Occupational Death and Disability and the Retiree Medical plans were based on employer retiree medical contributions made during the measurement year. The following represents the proportionate share of the multiple employer net OPEB liability/asset attributed to the state at June 30, 2020 and the associated change from its proportion measured as of June 30, 2019:

	2020	2021	Increase/ (Decrease)
PERS Alaska Retiree Healthcare Trust Plan	54.64 %	53.89 %	(0.75)%
Primary Government	49.73	49.10	(0.63)
Discrete Component Units	4.91	4.79	(0.12)
PERS Occupational Death and Disability Plan	53.45	53.02	(0.43)
Primary Government	49.15	48.77	(0.38)
Discrete Component Units	4.30	4.25	(0.05)
PERS Retiree Medical Plan	53.47	53.08	(0.39)
Primary Government	48.30	47.99	(0.31)
Discrete Component Units	5.17	5.09	(0.08)
TRS Alaska Retiree Healthcare Trust Plan	2.27	2.06	(0.21)
Primary Government	0.67	0.65	(0.02)
Discrete Component Units	1.60	1.41	(0.19)
TRS Occupational Death and Disability Plan	2.92	2.75	(0.17)
Primary Government	0.45	0.46	0.01
Discrete Component Units	2.47	2.29	(0.18)
TRS Retiree Medical Plan	2.91	2.76	(0.15)
Primary Government	0.45	0.46	0.01
Discrete Component Units	2.46	2.30	(0.16)

For the year ended June 30, 2021 the State recognized OPEB expense of (\$150,028) thousand (\$138,150 thousand for the primary government and \$11,878 thousand for the discrete component units) broken out by plan as follows (in thousands):

<u>Systems</u>	<u>OPEB Expense</u>

SPECIAL FUNDING SITUATION

Under Governmental Accounting Standards Board Statement No. 75, a special funding situation exists when a nonemployer entity is legally responsible for providing certain forms of financial support for OPEB of the employees of another entity. Such support is a special funding situation if either (1) the amount of contributions or benefits, as applicable, for which the nonemployer entity legally is responsible is not dependent upon one or more events unrelated to OPEB or (2) the nonemployer is the only entity with a legal obligation to make contributions directly to an OPEB plan or to make benefit payments as OPEB comes due, as applicable.

As with net pension liability, the State is reporting such amounts on its balance sheet, but the State affirmatively disclaims any and all legal responsibility or obligation, in a legally enforceable sense, for the non-State employer GASB 75 net OPEB liabilities reported as liabilities on the basic financial statements herein. The State acknowledges that municipalities and school districts have taken the position that they are not claiming responsibility for liabilities beyond the obligations they report in their financial statements.

The assumptions for the portion of the net OPEB liability attributed to the special funding situation for both the PERS and TRS plans are the same as those previously listed. The proportionate share of the net OPEB liability attributed to the special funding situation was based on a present value of the State's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers from July 1, 2021 to a projected fully funded year of 2039.

The following presents the State's proportionate share of the net OPEB liability/asset associated with the special funding situation calculated using the discount rate, as well as what the State's proportionate share of the net OPEB liability/asset would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate for the special funding situation portion (in thousands):

	1% Decrease 6.38%	Discount Rate 7.38%	1% Increase 8.38%
PERS Alaska Retiree Healthcare Trust Plan	\$ 70,362	\$ (67,431)	\$ (181,564)
TRS Alaska Retiree Healthcare Trust Plan	(12,449)	(225,823)	(401,809)

The following presents the net OPEB liability/asset associated with the special funding situation for each applicable plan as of June 30, 2020, calculated using the healthcare cost trend rates as summarized in the actuarial valuation reports, as well as what the respective plans' net OPEB liability/asset would be if it were calculated using trend rates that are one-percentage-point lower or one-percentage-point higher than the current healthcare cost trend rate (in thousands):

	1% Decrease	Current Trend Rate	1% Increase
PERS Alaska Retiree Healthcare Trust Plan	\$ (194,946)	\$ (67,431)	\$ 86,983
TRS Alaska Retiree Healthcare Trust Plan	(421,394)	(225,823)	12,057

At June 30, 2020 the proportionate share of the net OPEB liability/asset attributed to the State for the special funding situation was 14.89 percent for the Public Employee's Retirement System (PERS) and 63.12 percent for the Teacher's Retirement System (TRS), which was an increase of 0.59 percent and an increase of 3.71 percent from its proportion measured as of June 30, 2019 for PERS and TRS respectively.

For the year ended June 30, 2021, the State recognized expenses of \$(204,964) thousand in relation to the special funding situation broken out by plan as follows (in thousands):

<u>Systems</u>	<u>OPEB Expense</u>
Public Employees' Retirement System	\$ (50,836)
Teachers' Retirement System	(154,128)

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to pension plans for the special funding situation amounts from the following sources by plan (in thousands):

		Deferred Outflows of Resources	Deferred Inflows of Resources
PERS	Difference Between Expected and Actual Experience	\$ —	\$ 5,409
	Difference Between Projected and Actual Investment Earnings	27,055	—
	Changes in Proportion and Difference Between Employer Contributions and Proportionate Share of Contributions	—	6,292
	Changes in Assumptions	—	47,003
TRS	Difference Between Expected and Actual Experience	—	6,056
	Difference Between Projected and Actual Investment Earnings	43,648	—
	Changes in Proportion and Difference Between Employer Contributions and Proportionate Share of Contributions	—	5,953
	Changes in Assumptions	—	71,042

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the special funding situation will be recognized as expenses for each plan as follows (in thousands):

Year Ending June 30	PERS	TRS
2021	\$ (58,922)	\$ (83,159)
2022	9,630	15,491
2023	10,340	16,571
2024	7,372	11,694
2025	—	—
Thereafter	—	—

STATE ADMINISTERED SINGLE EMPLOYER PLANS

The schedules of changes in plan net OPEB asset for the JRS defined benefit OPEB plan as of the measurement date, June 30, 2020 are below (in thousands):

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB asset (a)-(b)
Balances at June 30, 2019	\$ 17,962	\$ 33,092	\$ (15,130)
Changes for the year:

Net investment income	—	1,378	(1,378)
Benefit payments, including refunds of employee contributions	(1,268)	(1,425)	157
Administrative expense	—	(29)	29
Net Changes	<u>(1,198)</u>	<u>944</u>	<u>(2,142)</u>
Balances at June 30, 2020	<u>\$ 16,764</u>	<u>\$ 34,036</u>	<u>\$ (17,272)</u>

NON-STATE ADMINISTERED SINGLE EMPLOYER PLANS

The Alaska Railroad Corporation (ARRC) is a component unit of the State of Alaska. The ARRC has a single-employer defined benefit retiree health care plan administered by the Nonrepresented Tax Deferred Savings, 457 and Health Care Trust Plan Committee covering nonrepresented and Alaska Railroad Workers represented employees, who became employed prior to November 4, 2014. The plan also covers regular represented employees covered under the American Train Dispatchers Association or other represented employees hired before March 4, 2016 for United Transportation Union; April 2, 2015 for Carmen's Division of Transportation Communication International Union; and April 26, 2016 for International Brotherhood of Teamsters 959, and June 28, 2019 for American Train Dispatchers Association as specified in the labor agreements.

The net OPEB asset was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of January 1, 2020. The actuarial valuation used the following actuarial assumptions:

Actuarial Assumption	December 31, 2020
Discount Rate	6.75% Based on crossover test
Inflation	2.8%
Salary increases	2.8% CPI plus merit based rates
Retirement, disablement, and termination	Based on 2010-2014 experience study
Administrative expenses	0.15% of payroll, based on current year actual expenses
Participation Rates	Varies from 35% to 85%
Medical Trend	Non Medicare 7.25%, decreasing to an ultimate rate of 4.0% in 2076. Medicare 6.3%, decreasing to an ultimate rate of 4.0% in 2076.

Mortality rates were based on the Society of Actuaries RP-2014 healthy annuitant mortality table adjusted 91 percent for males and 96 percent for females and the Scale MP-2019 generational mortality improvement in longevity that management expects to occur in the future.

The long-term expected rate of return on OPEB plan investments of 6.75 percent was determined by management using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the intermediate-term and long-term expected rates of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target allocation	Long-term expected real rate of return	Long-term expected real rate of return
Cash	—%	—%	—%
U.S. Treasury Inflation-Protected Securities (TIPS)	5.00	2.80	1.94
Total Return Bond	30.00	2.70	2.43
Global Bond	5.00	3.05	2.43
High Yield Bond	10.00	4.72	3.88
Domestic Large Cap	15.00	4.87	6.80
Domestic Mid Cap	5.00	5.60	7.77
Domestic Small Cap	4.00	5.85	8.74
U.S. Healthcare (Equity)	5.00	5.26	7.28
International Equity	6.00	5.36	7.04
Real Estate	15.00	5.11	4.61
Total	<u>100.00%</u>		

The discount rate used to measure the total OPEB liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate, and contributions from employers will be made based on the actuarially determined contribution rate. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected payments to determine the total OPEB liability.

The following presents the net OPEB liability/asset calculated as of December 31, 2020 using the discount rate of 6.75 percent, as well as what the net OPEB liability/asset would be if it were calculated using a discount rate that is 1-percentage-point lower or higher than the current rate (in thousands):

	1% decrease 5.75%	Current discount rate 6.75%	1% Increase 7.75%
Net OPEB liability (asset)	\$ (36,750)	\$ (39,152)	\$ (41,088)

The following presents the net OPEB liability/asset calculated using the medical cost trend rate of 7.25 percent (Non-Medicare) and 6.3 percent (Medicare) beginning in 2021, decreasing to an ultimate rate of 4.0 percent in 2076+ as of December 31, 2020 as well as what the net OPEB liability/asset would be if it were calculated using a trend rate that is 1-percentage-point lower or higher than the current rate (in thousands):

	1% Decrease	Medical Cost Trend Rate	1% Increase
Net OPEB liability (asset)	\$ (41,534)	\$ (39,152)	\$ (36,111)

For the year ended December 31, 2020, the ARRC recognized net OPEB income of \$2.7 million and the following deferred outflows and deferred inflows (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ —	\$ 6,676
Changes in assumptions	2,597	315
Net difference between actual and projected earnings on investments	—	879

Deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense or income as follows (in thousands):

	<u>Amount</u>
Year ending December 31,	
2021	\$ (813)
2022	(528)
2023	(1,346)
2024	(735)

D. GENERAL OBLIGATION BONDS AND REVENUE BONDS AND OTHER LONG-TERM DEBT

GENERAL OBLIGATION BONDS

Under Article IX, Section 8 of the State Constitution and AS 37.15, the State Bonding Act, General Obligation Bonds must be authorized by law and ratified by voters and generally must be issued for capital improvements. There is no statutory limit on the amount of State General Obligation Bonds that may be authorized.

The full faith, credit, and resources of the State are pledged to secure payment of General Obligation Bonds. As of June 30, 2021, the following were the General Obligation Bond debt outstanding (in millions):

Year Ending June 30,	Principal	Interest	Total
2022	\$ 41.1	\$ 32.6	\$ 73.7
2023	42.9	30.6	73.5
2024	44.8	28.6	73.4
2025	41.9	26.5	68.4
2026	43.7	24.3	68.0
2027-2031	230.7	86.0	316.7
2032-2036	178.9	29.5	208.4
2037-2041	39.0	4.2	43.2
2042-2046	—	—	—
Total debt service requirements	663.0	\$ 262.3	\$ 925.3
Unamortized bond premium	62.1		
Total principal outstanding	\$ 725.1		

The General Obligation Bond Series 2009A Bonds were issued for the purpose of paying \$165 million of the costs of State transportation projects. The Series 2010 A and B Bonds were issued for the purpose of paying \$164.57 million of the costs of State education projects. The Series 2012A Bonds were issued for the purpose of refunding \$191.41 million on the 2003A Series Bonds resulting in an economic gain of \$27.1 million and an aggregate difference in debt service of \$33.0 million. The Series 2013 A and B Bonds were issued for the purpose of paying \$162.48 million of the costs of State education projects. The

Series 2015B Bonds were issued for the purpose of refunding \$100.62 million on the 2009A Series Bonds resulting in an economic gain of \$7.5 million and an aggregate difference in debt service of \$8.8 million. The Series 2016A bonds were issued for the purpose of long-term financing, over short-term financing, of \$155.2 million of the costs of State transportation projects. The Series 2016B bonds were issued for the purpose of paying \$128.3 million of the costs of State transportation projects. The Series 2020A bonds were issued for the purpose of paying \$84.56 million of the costs of State transportation projects.

Federal subsidies related to the interest payments made during the year on the bonds were \$4.9 million.

At June 30, 2021, the amount of General Obligation Bonds authorized was \$1,015.7 million with \$1,015.7 million issued.

REVENUE BONDS AND OTHER LONG-TERM DEBT

As of June 30, 2021, the following were the revenue bonds and other long-term debt outstanding (in millions):

Year Ending June 30	Governmental Activities				Business-Type Activities	
	Bonds		Notes from Direct Borrowings and Direct Placements		Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2022	\$ —	\$ 14.2	\$ 2.8	\$ —	\$ 14.6	13.8
2023	2.9	14.2	1.0	—	17.4	12.9
2024	5.9	14.1	—	—	16.2	12.0
2025	6.5	13.8	—	—	16.9	11.2
2026	6.6	13.5	—	—	17.7	10.4
2027-2031	41.2	62.0	—	—	106.0	39.8
2032-2036	54.2	50.4	—	—	130.6	17.8

2042-2046	108.8	15.1	—	—	—	—
2047-2051	—	—	—	—	—	—
Total debt service requirements	297.3	\$ 232.6	\$ 3.8	\$ —	319.4	\$ 117.9
Unamortized bond (discounts)/ premiums	(4.6)				19.6	
Plus accreted value	17.9				—	
Total principal outstanding	\$ 310.6				\$ 339.0	

Northern Tobacco Securitization Corporation Revenue Bonds

The governmental activities revenue bonds include bond issuances by the Northern Tobacco Securitization Corporation (NTSC). The NTSC bonds were issued to purchase the right to a share of Tobacco Settlement Revenues (TSRs) received by the State of Alaska. These revenue bonds are secured by and payable solely from the TSRs and investment earnings pledged under the respective bond indentures and amounts established and held in accordance with those bond indentures. Neither Alaska Housing Finance Corporation nor the State of Alaska is liable for any debt issued by NTSC. NTSC revenue bond total at June 30, 2021 includes \$297.3 million in principal, \$232.6 million in interest, \$(4.6) million in unamortized discount, and \$17.9 million in accreted value on the Series 2006B and Series 2006C Bonds. This debt is reported in the Governmental Activities column of the Government-wide Statement of Net Position.

Alaska Sport Fishing Revenue Bonds

The State of Alaska Sport Fishing Revenue Bonds Series 2006 were issued under Article 5A of Chapter 15 of Title 37 of the Alaska Statutes. The bonds were issued to provide a portion of the funds necessary to finance the construction and renovation of fisheries rehabilitation, enhancement and development projects that benefit sport fishing. These revenue bonds are special, limited obligations of the State secured by and payable from the sport fishing facilities surcharge imposed under AS 16.05.340 and from funds received from the federal government which by their terms are not restricted in use and legally available for the

payment for debt service on Parity Bonds. The bonds are not general obligations of the State, and the State does not pledge its full faith and credit to the payment of the bonds. On July 10, 2020, the State of Alaska used \$1.8 million to optionally redeem and pay accrued interest on 2011 Sport Fishing Revenue Bonds. This optional redemption resulted in the redemption of all outstanding 2011 Sport Fishing Revenue Bonds.

Internal Service Fund Direct Borrowing

The Public Building Fund and the Information Service Fund both had direct borrowing activity. Both agreements state that if there is an event of default, notwithstanding any return of the subject property, the agency shall pay upon demand all remaining amounts due and anticipated to be due during the current fiscal year.

International Airports Revenue Bonds

The business activities revenue bonds include bond issuances by the International Airports Fund. Gross revenues derived from the operation of the international airports at Anchorage and Fairbanks are pledged to secure the payment of principal and interest on International Airports Revenue Bonds. This debt is reported in the Business-type Activities column of the Government-wide Statement of Net Position. There are \$23.2 million of bonds authorized by the Alaska Legislature that have not been issued. During FY 2021 International Airports paid \$13.9 million of bonds that had matured. At June 30, 2021 there was no bond interest arbitrage rebate liability. Federal subsidies related to the interest payments made during the year on Build American Bonds were \$404.8 thousand. International Airports Revenue Bond total at year end includes \$319.4 million in principal, \$117.9 million in interest and \$19.6 million in unamortized premiums/discounts and deferred gains/losses.

E. CAPITAL AND OPERATING LEASES

A summary of noncancellable operating and capital lease commitments to maturity are (in millions):

Governmental Activities Year Ending June 30	Operating Leases	Capital Leases		
		Principal	Interest	Total
2022	\$ 33.5	\$ 21.7	\$ 9.9	\$ 31.6
2023	24.2	18.2	8.9	27.1
2024	21.5	16.9	8.1	25.0
2025	15.5	16.0	7.3	23.3
2026	12.8	16.4	6.5	22.9
2027-2031	38.0	87.6	18.8	106.4
2032-2036	7.4	34.4	1.8	36.2
2037-2041	1.7	—	—	—
2042-2046	0.3	—	—	—
2047-2051	0.3	—	—	—
2052-2056	0.3	—	—	—
2057-2061	0.3	—	—	—
2062-2066	0.3	—	—	—
2067-2071	1.6	—	—	—
Total	\$ 157.7	\$ 211.2	\$ 61.3	\$ 272.5

Leases at June 30, 2021 are reported by the State of Alaska within Governmental Activities and Business-Type Activities, as applicable.

The State leases office facilities, office and computer equipment, and other assets under a variety of agreements. Although lease terms vary, most leases are subject to appropriation from the state Legislature to continue the obligation. If the possibility of receiving no funding from the Legislature is remote, leases are considered noncancelable for financial reporting purposes. Leases that represent acquisitions are classified as capital leases, and the related assets and liabilities are recorded in the financial records at the inception of the lease. Amortization of assets acquired under capital lease is included with depreciation expense. Other leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the

life of the lease. Certain operating leases are renewable for specified periods. In most cases, management expects that the leases will be renewed or replaced by other leases.

Buildings and equipment under capital leases as of June 30, 2021 include the following (in thousands):

	Governmental Activities	Business-Type Activities
Buildings	\$ 461,227	\$ —
Equipment	15,893	—
Less: Accumulated Depreciation	(161,422)	—
	<u>\$ 315,698</u>	<u>\$ —</u>

F. CERTIFICATES OF PARTICIPATION

The State has lease purchase agreements funded through certificates of participation (COPs). These leases are for the purchase or construction of buildings. Third-party leasing companies assigned their interest in the lease to underwriters, which issued certificates for the funding of these obligations. The COPs represent an ownership interest of the certificate holder in a lease purchase agreement. While the State is liable for lease payments to the underwriters, the State is not liable for payments to holders of the certificates.

The following schedule presents future minimum payments as of June 30, 2021 (in millions):

<u>Governmental Activities</u> Year Ending June 30	<u>Certificates of Participation</u>		
	Principal	Interest	Total
2022	\$ 2.2	\$ 1.0	\$ 3.2
2023	2.5	0.8	3.3
2024	2.6	0.7	3.3
2025	2.7	0.6	3.3
2026	2.9	0.5	3.4
2027-2031	9.2	0.8	10.0
2032-2036	—	—	—
Total	<u>\$ 22.1</u>	<u>\$ 4.4</u>	<u>\$ 26.5</u>

G. DISCRETELY PRESENTED COMPONENT UNITS

Debt service requirements are (in millions):

Year Ending June 30	Bonds		Notes from Direct Borrowings and Direct Placements	
	Principal	Interest	Principal	Interest
2022	\$ 210.0	\$ 122.6	\$ 3.0	\$ 0.8
2023	191.5	114.2	3.1	0.7
2024	196.8	118.7	2.1	0.6
2025	173.2	102.6	1.9	0.5
2026	160.1	95.9	1.9	0.5
2027-2031	1,025.1	374.3	9.6	1.4
2032-2036	781.4	190.9	2.9	0.1
2037-2041	458.0	89.3	—	—
2042-2046	353.4	25.2	—	—
2047-2051	183.5	2.1	—	—
2052-2056	—	—	—	—
Total debt service requirements	3,733.0	\$ 1,235.8	\$ 24.5	\$ 4.6
Unamortized (discounts)/premiums	114.8			
Unamortized swap termination penalty	(4.1)			
Total principal outstanding	\$ 3,843.7			

The preceding table does not include \$390 thousand of Alaska Energy Authority bond arbitrage interest payable.

The preceding schedule excluded conduit debt of the Alaska Municipal Bond Bank Authority. Under the Coastal Energy Loan Program, the Authority issued \$5 million 1986 Series A Coastal Energy Bonds payable to the National Oceanic and Atmospheric Administration (NOAA). The proceeds of the bonds were used to purchase port revenue bonds from the City of Nome. The City of Nome entered into a tripartite agreement with NOAA and the Authority effective August 2, 1994 to defer payment of the principal and accrual of interest for ten years. Effective January 29, 2009 a second amendment to the tripartite agreement was executed. The amendment authorized the issuance of 2009A Bonds for the purpose of refunding by exchange the outstanding City of Nome, Alaska, Port Revenue Bond 1986 Series A. As of June 30, 2021 the aggregate amount outstanding for conduit debt obligations was \$3.6 million.

The Alaska Municipal Bond Bank Authority issued \$6.6 million 1987 Series A Coastal Energy Bonds payable to NOAA. The proceeds of these bonds were used to purchase port revenue bonds from the City of St. Paul. The City of St. Paul entered into a tripartite agreement with NOAA and the Authority effective December 14, 2000 to modify and defer payment. As of June 30, 2021 the aggregate amount outstanding for the City of St. Paul conduit debt obligations was \$6.0 million.

The preceding schedule excluded conduit debt of the Alaska Industrial Development and Export Authority. AIDEA has a standalone revenue bond program wherein AIDEA acts as a conduit to facilitate a market financing transaction for facilities owned by and paid for by third parties. At June 30, 2021 AIDEA had issued conduit revenue bonds for 321 projects (not including bonds issued to refund other bonds). At June 30, 2021, the outstanding principal amount of conduit revenue bonds issued after July 1, 1995 was \$471.4 million. AIDEA is unable to determine the aggregate amount outstanding for the remaining conduit revenue bonds, issued prior to July 1, 1995, but their original issue amounts totaled \$616 million for a total of \$1.68 billion issued through June 30, 2021 (not including bonds issued to refund other bonds).

The preceding schedule excluded conduit debt of the Alaska Housing Finance Corporation. AHFC has issued debt to assist private sector entities in the acquisition or construction of facilities that help the Corporation fulfill its mission of making housing affordable for all Alaskans. The bonds are secured by the properties financed and are payable from rents, payments received on the underlying mortgage loans, as well as tax credits, grants and other subsidy funding. Neither the Corporation nor the State is obligated in any manner for repayment of the bonds. Accordingly, the bonds and any related assets are not reported as assets or liabilities in the accompanying financial statements.

A summary of the all AHFC conduit debt as of June 30, 2021 follows (in thousands):

	Maximum Issue Amount	Balance as of June 30, 2021	Remaining Authority as of June 30, 2021
Revenue bonds, 2021 (Spenard East Phase I Project)	\$ 7,500	\$ 50	\$ 7,450
Revenue bonds, 2021 (Jewel Lake Apt Project)	19,000	19,000	—
Revenue bonds, 2020 (Old Mat Phase I Project)	3,800	50	3,750
Revenue bonds, 2020 (West 32nd Ave Project)	3,500	2,866	634
Revenue bonds, 2020 (Spruce View Apt Project)	9,500	6,837	2,663
Total	\$ 43,300	\$ 28,803	\$ 14,497

H. ALASKA HOUSING FINANCE CORPORATION DERIVATIVES

The Alaska Housing Finance Corporations (AHFC) entered into derivatives to reduce the overall cost of borrowing long-term capital and protect against the risk of rising interest rates. AHFC's derivatives consist of interest rate swap agreements entered into in connection with its long-term variable rate bonds. The interest rate swaps are pay-fixed, receive-variable agreements, and were entered into at a cost less than what AHFC would have paid to issue conventional fixed-rate debt.

The swaps are recorded and disclosed as either hedging derivatives or investment derivatives. The synthetic instrument method was used to determine whether or not the derivatives constitute effective hedges. The fair values of the hedgeable derivatives and investment derivatives are presented in the Statement of Net Position, either as a derivative liability (negative fair value amount) or as a derivative asset (positive fair value amount). If a swap changes from a hedgeable derivative to an investment derivative, the hedge is considered terminated and the accumulated change in fair value is no longer deferred but recognized as a revenue item.

AHFC categorizes its fair value measurements within the fair value hierarchy established by Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The fair value amounts, obtained from mark to market statements from the respective counterparties and reconciled to present value calculations done by AHFC, represent mid-market valuations that approximate the current economic value using market averages, reference rates, and/or mathematical models. These measurements are Level 2 inputs. Actual trade prices may vary significantly from these estimates as a result of various factors, which may include (but are not limited to) portfolio composition, current trading intentions, prevailing credit spreads, market liquidity, hedging costs and risks, position size, transaction and financing costs, and the use of capital profit. The fair value represents the current price to settle swap assets or liabilities in the marketplace if a swap were to be terminated.

AHFC's interest rate swaps require that if the ratings on the associated bonds fall to "BBB+/Baa1", AHFC would have to post collateral of up to 100 percent of the swap's fair value. As of June 30, 2021, AHFC had not posted any collateral and was not required to post any collateral.

HEDGING DERIVATIVES

The significant terms and credit ratings of AHFC's hedging derivatives as of June 30, 2021, are shown below:

Related Bond Issue	Effective Date	Fixed Rate Paid	Variable Rate Received	Swap Termination Date	Counterparty Credit Rating ⁷

2032-2036	125,585	320	40,987	166,892
2037-2041	146,970	124	16,007	163,101
2042-2046	8,240	2	149	8,391
	<u>\$ 705,995</u>	<u>\$ 8,714</u>	<u>\$ 249,694</u>	<u>\$ 964,403</u>

Interest Rate Risk

AHFC is exposed to interest rate risk on all of its interest rate swaps. As the London Interbank Offered Rate (LIBOR) or the Securities Industry and Financial Markets Association (SIFMA) index decreases, AHFC's net payment on the swaps increases.

Credit Risk

As of June 30, 2021, AHFC is not exposed to credit risk on any of the swaps because the swaps all have negative fair values. If interest rates rise and the fair value of the swaps becomes positive, AHFC would be exposed to credit risk in the amount of the swaps' fair value. The swap agreements contain varying collateral agreements with the counterparties and require full collateralization of the fair value amount of the swap should the counterparty's rating fall to BBB+/Baa1. AHFC currently has swap agreements with six separate counterparties. Approximately 32.5 percent of the total notional amount of the swaps is held with one counterparty rated AA-/Aa2. Another 26.8 percent of the total notional amount of the swaps is held with another counterparty rated A+/Aa1 and 19.8% of the total notional amount of swaps is held with another counterparty rated AA-/Aa2. Of the remaining swaps, the counterparties are rated A+/Aa1, AA/Aa3, and BBB+/A3, approximating 9.9 percent, 6.0 percent, and 4.9 percent respectively, of the total notional amount of the swaps.

Basis Risk

All of AHFC's variable-rate bond interest payments related to interest rate swaps are based on the tax exempt SIFMA index. Therefore, AHFC is exposed to basis risk on swaps where the variable payment received on the swaps is based on a taxable LIBOR index and does not fully offset the variable rate paid on the bonds. The SC02C swap is based on the SIFMA index and thus is not exposed to any basis risk. As of June 30, 2021, SIFMA was 0.03 percent and 1 month LIBOR was 0.10 percent, resulting in a SIFMA/LIBOR ratio of 29.85 percent. The 3 month LIBOR was 0.15 percent resulting in a SIFMA/LIBOR ratio of 20.58 percent. The SIFMA/LIBOR ratios have fluctuated since the agreements became effective but the anticipated cost savings from the swaps increases as the ratios decrease.

Termination Risk

Termination risk is the risk of an unscheduled termination of a swap prior to its planned maturity. If any of the swaps are terminated, the associated floating rate bonds would no longer carry synthetic fixed interest rates and AHFC would be exposed to interest rate risk on the bond. This risk is mitigated by the fact that the termination payment could be used to enter into an identical swap at the termination date of the existing swap. Further, if any of the swaps have a negative fair value at termination, AHFC would be liable to the counterparty for payments equal to the swaps' fair value. AHFC or the counterparty may terminate any of the swaps if the other party fails to perform under the terms of the agreement, including downgrades and events of default.

Rollover Risk

Rollover risk occurs when there is a mismatch in the amortization of the swap versus the amortization of the floating rate bonds. AHFC has structured the swaps to amortize at the same rate as scheduled or anticipated reductions in the associated floating rate bonds outstanding. The Home Mortgage Revenue Bonds, 2002 Series A swaps were set up in several tranches of various sizes that can be cancelled to parallel the redemption of debt from mortgage prepayments.

INVESTMENT DERIVATIVE

The State Capital Project Bonds, 2002 Series B, were fully redeemed in fiscal year 2009, so the associated interest rate swap was no longer a hedging derivative and is accounted for as an investment derivative.

The significant terms and credit ratings of AHFC's investment derivatives as of June 30, 2021, are shown below:

Related Bond Issue	Effective Dates	Fixed Rate Paid	Variable Rate Received	SWAP Termination Date	Counterparty Credit Rating
SC02B	12/5/2002	3.77%	70% of 1M LIBOR	7/1/2024	A+/Aa1

The change in fair value of the investment derivatives as of June 30, 2021, is shown below (in thousands) and is presented on the net change of hedge termination line in the Statement of Revenues, Expenses, and Changes in Net Position.

Related Bond Issue	Notional Amounts	Present Values	Fair Values June 30, 2021	Fair Values June 30, 2020	Changes in Fair Value
SC02B	\$ 14,555	\$ 15,711	\$ (1,156)	\$ (1,735)	\$ 579

Credit Risk

As of June 30, 2021, AHFC was not exposed to credit risk on this outstanding swap because the swap had a negative fair value. If interest rates rise and the fair value of the swap becomes positive, AHFC would be exposed to credit risk in the amount of the swaps' fair value. The swap agreement requires the counterparty to fully collateralize the fair value amount of the swap should the counterparty's rating fall to BBB+/Baa1. The counterparty on this swap is rated A+/Aa1.

NOTE 7 – DEFINED BENEFIT PENSION PLANS

DESCRIPTION OF PLANS

The Public Employees' Retirement System - Defined Benefit (PERS-DB)

PERS-DB is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established and administered by the State to provide pension and postemployment healthcare benefits for eligible State and local government public employees and public organizations. Benefit and contribution provisions are established by Chapter 35 of Alaska Statute Title 39, and may be amended only by the state legislature. The 24th Alaska State Legislature enacted into law Senate Bill 141, which closed the PERS-DB to new members effective July 1, 2006, and created a Public Employees' Retirement System Defined Contribution Retirement Plan (PERS-DCR). Information regarding PERS-DCR is disclosed in Note 8.

Prior to July 1, 2008, PERS was a defined benefit, agent, multiple-employer public employee retirement plan. The Alaska Legislature passed Senate Bill 125, which was signed by the Governor on April 2, 2008. This law converted the PERS to a cost-sharing plan under which the unfunded liability will be shared among all employers. This legislation also established a uniform contribution rate of 22 percent of participating employees' covered payroll.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), another agency enterprise fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, the Teacher's Retirement System - Defined Benefit (TRS-DB), and the Judicial Retirement System (JRS) plans. Due to the establishment of the Alaska Retiree Healthcare Trust (ARHCT) effective July 1, 2007, the RHF now provides major medical coverage to those retirees and their dependents not eligible to participate in the ARHCT, along with optional dental, vision, audio, and voluntary long-term care insurance coverage to all retirees and their dependents in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The PERS-DB Plan is a plan within the Public Employees' Retirement System (PERS). PERS is a component unit of the State of Alaska financial reporting entity. PERS includes the PERS-DB and ARHCT. Senate Bill 123 was passed during the 2007 legislative session and created the ARHCT. ARHCT is self-funded and provides major medical coverage to retirees of PERS. PERS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

The PERS component unit is comprised of the PERS-DB, PERS-DCR Plans, and the ARHCT. PERS issues a separate stand-alone financial report that includes financial statements and required supplementary information. PERS is also reported as a pension (and other employee benefit) trust fund by the State. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and reports listing "Information Required Under Governmental Accounting Standards Board Statement Nos. 68 and 75 as of June 30, 2021", may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/drb/>.

For purposes of measuring the net pension liability, net other post employment benefit liability (OPEB), deferred outflows of resources and deferred inflows of resources related to pensions and OPEB liability, and pension and OPEB expense, information about the fiduciary net position of the PERS defined benefits plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. Contributions are due to the Plans when employee services have been performed and paid. Contributions are recognized as revenues when due pursuant to statutory requirements. Benefits and refunds are recognized when due and payable and expenses are recorded when the corresponding liabilities are incurred, regardless of when contributions are received, or payment is made. The Plans own shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Division of Treasury (Treasury). The Plans' investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals. Additional information about the Plans' fiduciary net position can be found in the Plans' audited financial statements.

As of June 30, 2021, the number of PERS participating employers were:

State of Alaska	1
Municipalities	72
School Districts	52
Other	25
Total Employers	<u>150</u>

Members hired prior to July 1, 1986, with five or more paid-up years of credited service, are entitled to monthly pension benefits beginning at normal retirement age, 55, or early retirement age, 50. For members hired after June 30, 1986, the normal and early retirement ages are 60 and 55, respectively. Members with 30 or more years of credited service (20 years for peace officers and firefighters) may retire at any age and receive a normal benefit.

The normal monthly pension benefit is based on years of service and average monthly compensation. For members hired prior to July 1, 1996, and all peace officers and firefighters, the average monthly compensation is based upon the member's three highest, consecutive years' salaries. For all other members hired after June 30, 1996, average monthly compensation is based upon the members' five highest consecutive years' salaries.

The benefit related to all years of service prior to July 1, 1986, and for years of service through a total of 10 years for general members is equal to 2 percent of the member's average monthly compensation for each year of service. The benefit for each year over 10 years of service subsequent to June 30, 1986, is equal to 2.25 percent of the member's average monthly compensation for the second 10 years and 2.5 percent for all remaining years of service. For peace officers and firefighters, the benefit for years of service through a total of 10 years is equal to 2 percent of the member's average monthly compensation and 2.5 percent for all remaining years of service.

PERS-DB has two types of postretirement pension adjustment (PRPA). The automatic PRPA is issued annually to all eligible benefit recipients when the cost of living increases in the previous calendar year. The automatic PRPA increase is paid beginning July 1 of each year. The discretionary PRPA may be granted to eligible recipients by the PERS-DB Plan's Administrator if the funding ratio of the PERS-DB Plan meets or exceeds 105 percent. If both an automatic and discretionary PRPA are granted, and a retiree is eligible for both adjustments, the one that provides the retiree the greater increase will be paid.

PERS-DB employee contribution rates are 6.75 percent of compensation (7.5 percent for peace officers and firefighters and 9.6 percent for some school district employees). Employee contributions are deducted before federal income tax is withheld.

The PERS-DB funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are sufficient to accumulate assets to pay both pension and postemployment healthcare benefits when due. Employer contributions are accumulated in both the pension and the healthcare funds based on the approved contribution rate for the fiscal year. The employer rate for the State of Alaska for the year ended June 30, 2021, was capped at 22 percent of compensation.

The State's employer contributions to PERS-DB for the fiscal years ended June 30, 2021, 2020, and 2019 were \$215.8, \$213.9, and \$221.8 million respectively for the year. For the FY 2021 contributions, \$175.3 million (\$155.0 million for the primary government and \$20.3 million for the discretely presented component units) was for pensions and \$40.5 million (\$34.5 million for the primary government and \$5.9 million for the discretely presented component units) was for postemployment benefits. The contributions were equal to the required contributions in FY 2021.

Alaska Statute 39.35.280 requires that additional state contributions are to be paid each July 1 or as soon after July 1 as funds become available for the ensuing fiscal year that when combined with the total employer contributions is sufficient to pay the PERS-DB past service liability at the contribution rate adopted by the Alaska Retirement Management Board (ARMB) for that fiscal year. Additionally, there is a Defined Benefit Unfunded Liability (DBUL) amount levied against the Defined Contribution Retirement Pension Plan payroll. The DBUL amount is computed as the difference between:

- A. The amount calculated for the statutory employer effective contribution rate of 22 percent on eligible salary less
- B. The total of the employer contributions for:
 - a. The defined contribution employer matching amount;
 - b. Major medical;

- c. Occupational death and disability; and
- d. Health reimbursement arrangement.

The difference is deposited based on an actuarial allocation into the DB Plan’s pension and healthcare funds. For FY 2021, the DBUL is allocated 100 percent to the DB Pension Plan and 0 percent to the DB ARHCT Plan.

The 31st Alaska State Legislature, HB205 2020 Section 41(a) appropriated \$203.6 million from the General Fund to PERS-DB as an additional state contribution for FY 2021. The portion of this payment attributable to State of Alaska employers is \$114.2 million (\$102.2 million for the primary government as an employer contribution and \$12.0 million for the discretely presented component units as nonemployer contributions) for pensions.

Postemployment healthcare benefits are provided to retirees and their surviving spouses without premium cost for all employees first hired before July 1, 1986, and employees who are disabled, regardless of initial hire dates. Employees first hired on or after July 1, 1986, and their surviving spouses with five years of credited service (or 10 years of credited service for those first hired after July 1, 1996) must pay the full monthly premium if they are under age 60, and receive benefits at no premium cost if they are over age 60. Members hired on or after June 30, 1996 with between 5 and 10 years of credited service must pay the full monthly premium regardless of their age. Members hired after June 30, 1986 with less than five years of credited service are not eligible for postemployment healthcare benefits. Members hired after June 30, 1986, but before June 30, 1996, who are receiving a conditional benefit, and are age eligible, are eligible for postemployment healthcare benefits. Peace officers and their surviving spouses with 25 years of membership and all other employees and their surviving spouses with 30 years of membership service also receive benefits at no premium cost, regardless of their age or date of hire. Peace officers who are disabled between 20 and 25 years must pay the full monthly premium.

The components of the net pension liability/(asset) of the participating employers at June 30, 2021, were as follows (in thousands):

Total Pension Liability	\$15,580,808
Plan Fiduciary Net Position	<u>(11,912,309)</u>
Employers’ Net Pension Liability (Asset)	<u>\$ 3,668,499</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	76.46 %

The components of the net OPEB liability/(asset) of the participating employers at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 7,218,787
Plan Fiduciary Net Position	<u>(9,784,141)</u>
Employers’ Net OPEB Liability (Asset)	<u>\$ (2,565,354)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	135.54 %

The Teachers’ Retirement System - Defined Benefit (TRS-DB)

TRS-DB is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established and administered by the State to provide pension and postemployment healthcare benefits for teachers and other eligible participants. Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 14 and may be amended only by the state legislature. TRS-DB provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits. The 24th Alaska State Legislature enacted into law Senate Bill 141, which closed the TRS-DB to new members effective July 1, 2006, and created a Teachers’ Retirement System Defined Contribution Retirement Plan (TRS-DCR). Information regarding TRS-DCR is disclosed in Note 8.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the RHF, an other agency enterprise fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, TRS-DB, and JRS plans. Due to the establishment of the ARHCT, effective July 1, 2007, the RHF now provides major medical

coverage to those retirees and their dependents not eligible to participate in the ARHCT, along with optional dental, vision, audio, and voluntary long-term care insurance coverage to all retirees and their dependents in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The TRS-DB Plan is a plan within the Teachers' Retirement System (TRS). TRS is a component unit of the State of Alaska financial reporting entity. TRS includes the TRS-DB and the ARHCT Fund. Senate Bill 123 was passed during the 2007 legislative session and created the ARHCT. ARHCT is self-funded and provides major medical coverage to retirees of TRS. TRS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

The TRS component unit is comprised of the TRS-DB, TRS-DCR plans, and ARHCT. TRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. TRS is also reported as a pension (and other employee benefit) trust fund by the State. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and reports listing "Information Required Under Governmental Accounting Standards Board Statement Nos. 68 and 75 as of June 30, 2021", may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/drb/>.

For purposes of measuring the net pension liability, net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB liability, and pension and OPEB expense, information about the fiduciary net position of the TRS defined benefits plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. Contributions are due to the Plans when employee services have been performed and paid. Contributions are recognized as revenues when due pursuant to statutory requirements. Benefits and refunds are recognized when due and payable and expenses are recorded when the corresponding liabilities are incurred, regardless of when contributions are received, or payment is made. The Plans own shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Treasury. The Plans' investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals. Additional information about the Plans' fiduciary net position can be found in the Plans' audited financial statements.

As of June 30, 2021, the number of participating employers were:

State of Alaska	1
School Districts	53
Other	<u>3</u>
Total Employers	<u><u>57</u></u>

Vested members hired prior to July 1, 1990, are entitled to pension benefits beginning at normal retirement age, 55, or early retirement age, 50. For members hired after June 30, 1990, the normal and early retirement ages are 60 and 55, respectively. Members may also retire at any age and receive a normal benefit when they accumulate the required credited service.

The normal annual pension benefit is based on years of service and average base salary. The average base salary is based upon the member's three highest contract years' salaries.

The benefit related to all years of credited service prior to July 1, 1990, and for years of service through a total of 20 years equal to 2 percent of the employee's average base salary. The benefit for each year over 20 years of service subsequent to June 30, 1990, is equal to 2.5 percent of the employee's base salary.

TRS-DB has two types of postretirement pension adjustment (PRPA). The automatic PRPA is issued annually to all eligible benefit recipients, when the cost of living increases in the previous calendar year. The automatic PRPA increase is paid beginning July 1 of each year. The discretionary PRPA may be granted to eligible recipients by the TRS-DB Plan's administrator if the funding ratio of the TRS-DB Plan meets or exceeds 105 percent. If both an automatic and discretionary PRPA are granted, and a retiree is eligible for both adjustments, the one that provides the retiree the greater increase will be paid.

TRS-DB Plan members contribute 8.65 percent of their base salary, as required by statute. The employee contributions are deducted before federal income tax is withheld.

The TRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, as an amount that, when combined, is expected to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The employer rate for the State of Alaska for the year ended June 30, 2021, was 12.56 percent of compensation. Employer contributions are accumulated in both the pension and healthcare funds based on the approved contribution rate for the fiscal year. Additionally, there is a Defined Benefit Unfunded Liability amount levied against the Defined Contributions Retirement Pension Plan payroll.

The State's employer contributions to TRS-DB for the fiscal years ended June 30, 2021, 2020, and 2019 were \$2.7, \$2.8, and \$3.1 million respectively, equal to the required contributions for each year. For the FY 2021 contributions, \$1.4 million (\$0.2 million for the primary government and \$1.2 million for the discretely presented component units) was for pensions and \$1.3 million was for postemployment benefits (\$0.2 million for the primary government and \$1.1 million for the discretely presented component units). The contributions were equal to the required contributions in FY 2021.

Alaska Statute 14.25.085 requires that additional state contributions are to be paid each July 1 or as soon after July 1 as funds become available for the ensuing fiscal year that when combined with the total employer contributions is sufficient to pay the TRS-DB past service liability at the contribution rate adopted by the ARMB for that fiscal year.

The 31st Alaska State Legislature, HB205 2020 Section 41(b) appropriated \$135.0 million from the General Fund to the TRS-DB as an additional state contribution for FY 2021. The portion of this payment attributable to State of Alaska employers is \$5.4 million (\$0.9 million for the primary government as an employer contribution and \$4.5 million for the discretely presented component units as nonemployer contributions) for pensions.

Postemployment healthcare benefits are provided when pension benefits begin, without cost to all employees first hired before July 1, 1990, employees hired after July 1, 1990, with 25 years of membership service, and employees who are disabled or age 60 or older, regardless of initial hire dates. Employees first hired after June 30, 1990, may receive postemployment healthcare benefits prior to age 60 by paying premiums.

The components of the net pension liability/(asset) of the participating employers at June 30, 2021, were as follows (in thousands):

Total Pension Liability	\$ 7,527,454
Plan Fiduciary Net Position	<u>(6,731,481)</u>
Employers' Net Pension Liability (Asset)	<u>\$ 795,973</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	89.43 %

The component of the net OPEB liability/(asset) of the participating employers at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 2,560,350
Plan Fiduciary Net Position	<u>(3,723,031)</u>
Employers' Net OPEB Liability (Asset)	<u>\$ (1,162,681)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	145.41 %

The Judicial Retirement System (JRS)

JRS is a defined benefit, single-employer retirement plan established and administered by the State to provide pension and postemployment healthcare benefits for eligible state judges and justices.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the RHF, an other agency enterprise fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, TRS-DB, and JRS Plans. Due to the establishment of the ARHCT, effective July 1, 2007, the RHF now provides major medical coverage to those retirees and their dependents not eligible to participate in the ARHCT, along with optional dental, vision, audio, and voluntary long-term care insurance coverage to all retirees and their dependents in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Senate Bill 123 was passed during the 2007 legislative session and which created the ARHCT beginning July 1, 2007. The ARHCT is self-funded and provides major medical coverage to retirees of the JRS. JRS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

JRS is considered a component unit of the State of Alaska financial reporting entity. JRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. JRS is also reported as a pension (and other employee benefit) trust fund by the State. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/drb/>.

For purposes of measuring the net pension liability, net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB liability, and pension and OPEB expense, information about the fiduciary net position of the JRS defined benefits plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. Contributions are due to the Plan when employee services have been performed and paid. Contributions are recognized as revenue when due pursuant to statutory requirements. Benefits are recognized when due and payable and expenses are recorded when corresponding liabilities are incurred, regardless of when contributions are received, or payment is made. The Plans own shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Treasury. The Plans' investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals. Additional information about the Plans' fiduciary net position can be found in the Plans' audited financial statements.

Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 22 and may be amended only by the state legislature. JRS provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits.

Members with five or more paid-up years of credited service are entitled to annual pension benefits beginning at normal retirement at age 60 or early retirement at age 55. Members who are under age 60 and have 20 or more years of credited service may retire at any age and receive an actuarially reduced benefit.

The normal monthly pension benefit is based on the member's years of service and the current authorized salary for the position from which they retired. The pension benefit is equal to 5 percent for each year of service up to a maximum of 75 percent of the current base salary for an active judge in the month the benefit is paid. In the event of salary increases for active judges, the monthly pension benefit for retired judges also increases.

Upon the death of a member who has served for at least two years, the surviving spouse is entitled to receive monthly benefits equal to one-half of the monthly retirement pay the member would have been entitled to receive if retired at the time of death. If the member was not eligible to retire or would have been entitled to less than 60 percent of the monthly authorized salary, the spouse is entitled to monthly benefits not less than 30 percent of the authorized salary. The benefits continue until the surviving spouse dies.

If there is no eligible surviving spouse, the member's surviving dependent child(ren) are entitled to receive a benefit equal to 50 percent of the above survivor's benefit. Each child will receive an equal share of the benefit while they are dependent. If there is no surviving spouse or dependent child(ren), the member's beneficiary(ies) shall receive the difference between contributions made and interest accrued in the Plan less benefits paid by the Plan.

Members who are involuntarily retired for incapacity and have a minimum of five years of service at the time of retirement for incapacity are eligible for pension benefits.

Members contribute seven percent of their compensation to JRS, as required by statute. The contributions are deducted before federal income tax is withheld. Contributions are not required after members have made contributions for 15 years, or from members first appointed before July 1, 1978.

The JRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, an amount that, when combined, is expected to finance the costs of both pension and postemployment healthcare benefits earned by plan members during the year. The employer rate for the State of Alaska for the year ended June 30, 2021, was 83.94 percent of compensation. Total employer contributions for FY 2021 were \$7.0 million for pensions, and \$0.7 million for postemployment benefits. Included in the total employer contribution amounts is \$5.1 million appropriated in the 31st Alaska State Legislature, HB205 2020 Section 41(c) from the General Fund to JRS as an additional state contribution for the purpose of funding the retirement system.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The components of the net pension liability/(asset) at June 30, 2021, were as follows (in thousands):

Total Pension Liability	\$ 218,717
Plan Fiduciary Net Position	<u>(245,048)</u>
Employers' Net Pension Liability (Asset)	<u><u>\$ (26,331)</u></u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	112.04 %

The components of the net OPEB liability/(asset) at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 17,920
Plan Fiduciary Net Position	<u>(43,173)</u>
Employers' Net OPEB Liability (Asset)	<u><u>\$ (25,253)</u></u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	240.91 %

The Alaska National Guard and Alaska Naval Militia Retirement System (NGNMRS)

NGNMRS is a defined benefit, single-employer retirement plan established and administered by the State to provide pension benefits for eligible members of the Alaska National Guard and Alaska Naval Militia.

NGNMRS is considered a component unit of the State of Alaska financial reporting entity. NGNMRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. The plan is also reported as a pension (and other employee benefit) trust fund by the State. Additional information on the NGNMRS plan may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to the pension asset and pension expense, information about the fiduciary net position of the NGNMRS defined benefits plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. Contributions are recognized as revenue when due pursuant to statutory requirements. Benefits and refunds are recognized when due and payable and expenses are recorded when the corresponding liabilities are incurred, regardless of when contributions are received or when payment is made. The Plan owns shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Treasury. The Plan's investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals.

Benefit and contribution provisions are established by Chapter 5 of Alaska Statute Title 26 and may be amended only by the state legislature. NGNMRS provides for normal pension benefits and death benefits. Postemployment healthcare benefits are not provided.

Members who voluntarily retire from the Alaska National Guard or Alaska Naval Militia after at least five years of Alaska Guard service and a total of at least 20 years of U.S. military service or members who involuntarily leave the Alaska Guard service due to federal standards imposed on the Alaska Guard, regardless of length of service, are eligible for a retirement pension. The retirement pension is \$100 per month for each month of Alaska Guard service and may be paid to the member monthly or in a one-time lump sum.

Upon the death of an eligible member, as previously described, the member's designated beneficiary is entitled to a lump-sum benefit equal to the original pension amount less any payments already paid to the member.

No contributions are required from plan members. NGNMRS's funding policy provides for periodic contributions by Alaska Department of Military and Veterans' Affairs at actuarially determined amounts that are sufficient to accumulate assets to pay benefits when due. State contributions are determined using the entry age normal actuarial cost method.

The 31st Alaska State Legislature, did not appropriate funds to the NGNMRS for FY 2021.

The components of the net pension liability/(asset) at June 30, 2021, were as follows (in thousands):

Total Pension Liability	\$ 22,655
Plan Fiduciary Net Position	(49,813)
Employers' Net Pension Liability (Asset)	<u>\$ (27,158)</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	219.88 %

ASSET VALUATION

See Note 4 for information on pension funds' deposits and investments risk categories. The table below discloses the fair value of each pension plan's cash and investments. All amounts are in thousands.

<u>Systems</u>	<u>Fair Value</u>
Public Employees' Retirement System	\$ 21,772,904
Teachers' Retirement System	10,488,147
Judicial Retirement System	286,774
Alaska National Guard and Alaska Naval Militia Retirement System	50,045

PERS and TRS valuation of assets: The actuarial asset value was reinitialized to equal fair value of assets as of June 30, 2014. Beginning in FY 2015, the asset value method recognizes 20 percent of the gain or loss each year, for a period of five years. All assets are fair value. Assets are accounted for on an accrued basis and are taken from financial statements.

JRS and NGNMRS valuation of assets: The actuarial asset value was reinitialized to equal fair value of assets as of June 30, 2006. Beginning in FY 2007, the asset value method recognizes 20 percent of the gain or loss each year, for a period of five years. All assets are valued at fair value. Assets are accounted for on an accrued basis and are taken directly from financial statements. Valuation assets are constrained to a range of 80 percent to 120 percent of the fair value of assets.

PLAN MEMBERSHIPS

The table below includes the plan membership counts from the separately issued financial statements for the various plans.

	<u>PERS</u>	<u>TRS</u>	<u>JRS</u>	<u>NGNMRS</u>
Inactive plan members or beneficiaries				
currently receiving benefits	36,704	13,225	144	708
Inactive plan members entitled to but				
not yet receiving benefits	5,112	741	3	649
Inactive plan members not entitled to benefits	10,366	1,678	—	—
Active plan members	<u>10,066</u>	<u>3,492</u>	<u>72</u>	<u>3,934</u>
Total	<u>62,248</u>	<u>19,136</u>	<u>219</u>	<u>5,291</u>

ACTUARIAL METHODS AND ASSUMPTIONS

PERS, TRS and JRS use the Entry Age Normal actuarial cost method which amortizes funding surpluses or unfunded actuarial accrued liabilities (UAAL) over future years. The UAAL is the excess of the Actuarial Accrued Liability over the actuarial value of plan assets measured on the valuation date. Under this method, experience gains or losses, i.e., decreases or increases in accrued liabilities attributable to deviations in experience from the actuarial assumptions, adjust the UAAL.

Amortization occurs over a closed 25-year period as required by Alaska statutes. The closed 25-year period was originally established effective June 30, 2014. Effective June 30, 2018, the Alaska Retirement Management Board (ARMB) adopted a layered UAAL amortization method for PERS and TRS:

- Layer 1 equals the sum of the UAAL at June 30, 2018, based on the 2017 valuation plus the FY 2018 experience gain/loss. It is amortized over the remainder of the closed 25-year period that was established in 2014.

- Layer 2 equals the change in UAAL at June 30, 2018, due to the experience study and implementation of the Employer Group Waiver Plan. It is amortized over a separate closed 25-year period starting in 2018.
- Future layers will be created each year based on the difference between actual and expected UAAL occurring that year, and will be amortized over separate closed 25-year periods.

The UAAL amortization continues to be on a level percent of pay basis. The compensation used to determine required contributions is the total compensation of all active members, including those hired after July 1, 2006, who are members of the Defined benefits and Defined contribution retirement plans. The funding objective is to pay required contributions that remain level as a percent of total compensation. This objective is currently being met and is projected to continue to be met. Absent future gains/losses, actuarially determined contributions are expected to remain level as a percent of pay and the overall funded status is expected to increase to 100 percent in FY 2038 for PERS, FY 2035 for TRS, and after 25 years for JRS.

The following main assumptions were used in the actuarial valuation.

System	Investment Rate of Return	Actuarial Cost Method	Amortization Method	Equivalent Single Amortization Period	Salary Scale Increase	Valuation Date
PERS	7.38% (net of investment expenses), Inflation 2.50%, Real Return 4.88%	Entry age normal; level percentage of pay normal cost basis	Level percentage of pay; closed	layered periods of 25 years	For Peace Officer/Firefighter, increases range from 7.75% to 2.75% based on service. For all others, increases range from 6.75% to 2.75% based on service.	6/30/2020
TRS	7.38% (net of investment expenses), Inflation 2.50%, Real Return 4.88%	Entry age normal; level percentage of pay normal cost basis	Level percentage of pay; closed	layered periods of 25 years	Graded by service, from 6.75% to 2.75%	6/30/2020
JRS	7.38% (net of investment expenses), Inflation 2.50%, Real Return 4.88%	Entry age normal; level percent of pay	Level percentage of expected payroll, closed	25 years	0% per year for FY 2021 through FY 2024, thereafter 3.62%	6/30/2020
NGNMRS	7% (net of pension plan investment expenses) Inflation at 2.50%	Entry age normal	Level dollar, open	20 years less average military service of active members	None	6/30/2020

Effective January 1, 2019, an enhanced Employer Group Waiver Plan (EGWP) was implemented for all Medicare-eligible members receiving healthcare benefits. This arrangement replaced the Retiree Drug Subsidy (RDS) under Medicare Part D and resulted in larger projected subsidies to offset the cost of prescription drug coverage. The Plans received \$70.9 million from the Center of Medicare and Medicaid Services for fiscal year 2021.

		Health Care Cost Trend Rates		
		Medical Pre-65	Medical Post-65	Rx/EGWP
For PERS/TRS/JRS	FY 2021	6.5%	5.4%	7.5%
	FY 2022	6.3%	5.4%	7.1%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress in the Required Supplementary Information presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 8 – DEFINED CONTRIBUTION PENSION PLANS**STATE ADMINISTERED PLANS**DESCRIPTION OF PLANS**A. The Public Employees' Retirement System - Defined Contribution Retirement Plan (PERS-DCR)**

PERS-DCR is a defined contribution, multiple-employer public employee retirement plan established by the State to provide pension and postemployment healthcare benefits for eligible state and local government employees. Benefit and contribution provisions are established by state law and may be amended only by the State Legislature. The 24th Alaska Legislature enacted into law Senate Bill 141, which created PERS-DCR effective July 1, 2006. The PERS-DCR Plan savings are accumulated in an individual retirement account for exclusive benefit of the members or beneficiaries.

The PERS-DCR Plan is a plan within the Public Employees' Retirement System (PERS). PERS is a component unit of the State of Alaska financial reporting entity. The PERS component unit is comprised of the PERS-DB (see note 7), PERS-DCR Plans, and the PERS Retiree Medical Plan (RMP) and Healthcare Reimbursement Arrangement Plan (HRA), and Occupational Death and Disability (OD&D). PERS is reported as a pension (and other employee benefit) trust fund by the State. PERS separately issued financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and required supplementary information may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/dr/>.

As of June 30, 2021, there were 151 employers participating in PERS-DCR. There were 24,487 members, of which 22,129 are general employees and 2,358 are peace officers and firefighters.

A participating member is immediately and fully vested in that member's contributions and related earnings (losses). A member shall be fully vested in the employer contributions made on that member's behalf, and related earnings (losses), after five years of service. A member is partially vested in the employer contributions made on that member's behalf, and the related earnings, in the ratio of (a) 25 percent with two years of service; (b) 50 percent with three years of service; (c) 75 percent with four years of service; and (d) 100 percent with five years of service. Any forfeited employer contributions are used to reduce pension expense in the the fiscal year it is forfeited.

PERS-DCR pension contribution rates are eight percent for PERS-DCR members, as required by statute. The employer shall deduct the contribution from the member's compensation at the end of each payroll period, and the contribution shall be credited by the plan to the member's individual account. The contributions shall be deducted from the member's compensation before the computation of applicable federal taxes. An employer shall contribute to each member's individual pension account an amount equal to five percent of the member's compensation. Participant accounts under the PERS-DCR Plan are self-directed with respect to investment options.

The PERS-DCR pension contributions for the year ended June 30, 2021 by the State of Alaska employees were \$62,368 thousand and the State of Alaska employers were \$35,887 thousand. The State of Alaska PERS other postemployment contributions for the year ended June 30, 2021 were \$36,749 thousand (\$2,843 thousand for OD&D, \$23,990 thousand for HRA, and \$9,916 thousand for RMP).

See note 4 for information on pension funds' deposit and investment risk categories. The fair value of the PERS-DCR, RMP, HRA, and OD&D cash and investments as of June 30, 2021 is \$2,916,017 thousand. PERS-DCR investments in collective investment funds, held in trust, are stated at fair value based on the unit value as reported by the Trustees multiplied by the number of units held by PERS-DCR. The unit value is determined by the Trustees based on the fair value of the underlying assets. Purchases and sales of securities are recorded on a trade-date basis.

For the year ended June 30, 2021 the State of Alaska recognized \$39,198 thousand in pension expense for the PERS-DCR as an employer. Forfeitures of \$154 thousand are reflected in the pension expense amount.

On July 1, 2006, three other postemployment benefit trust funds were created within PERS; RMP, HRA, and OD&D. RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides death benefits for

beneficiaries of plan participants and long-term disability benefits to all active members within the system. PERS-DCR participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB liability, OPEB expense, information about the fiduciary net position of the PERS defined contribution OD&D, HRA, and RMP plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. Contributions are recognized in the period in which they are due. Benefits and refunds are recognized when due and payable. The Plans own shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Treasury. The Plans' investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals. Additional information about the Plans' fiduciary net position can be found in the Plans' audited financial statements.

The employer RMP contribution rate for FY 2021 for each member's compensation was 1.27 percent for medical coverage and 0.31 percent for death and disability (0.70 percent for peace officers and firefighters). HRA is \$179.92 per month for full time employees and \$1.38 per hour for part time employees.

Members in the HRA Plan consisted of the following at June 30, 2021:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	113
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	2,082
Inactive Plan Members Not Entitled to Benefits	16,249
Active Plan Members	24,481

The components of the net OPEB liability (asset) of the participating employers for the OD&D Plan at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 16,072
Plan Fiduciary Net Position	(60,146)
Employers' Net OPEB Liability/(Asset)	<u>\$ (44,074)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	374.23 %

Members in the OD&D Plan consisted of the following at June 30, 2021:

Active Plan Members	24,481
Participating Employers	151
Open Claims	14

The components of the net OPEB liability (asset) of the participating employers for the RMP at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 177,713
Plan Fiduciary Net Position	(204,555)
Employers' Net OPEB Liability (Asset)	<u>\$ (26,842)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	115.1 %

Members in the RMP consisted of the following at June 30, 2021:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	67
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	2,082
Inactive Plan Members Not Entitled to Benefits	16,249
Active Plan Members	24,481

The total OPEB liability for each plan was determined by actuarial valuations as of June 30, 2020, using the following actuarial assumptions, applied to all periods in the measurement, and rolled forward to the measurement date of June 30, 2021:

Inflation	2.5% per year
Salary Increases	Graded by service, from 7.75% to 2.75% for peace officer/firefighter. Graded by service, from 6.75% to 2.75% for all others
Investment Rate of Return	7.38% net of postretirement healthcare plan investment expenses. This is based on an average inflation rate of 2.50% and a real return of 4.88%
Healthcare Cost Trend Rates (RMP)	Pre-65 medical: 6.5% grading down to 4.5% Post-65 medical: 5.4% grading down to 4.5% RX: 7.5% grading down to 4.5% EGWP: 7.5% grading down to 4.5%
Mortality (ODD,RMP)	Pre-Commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rate were based on 100% of the RP-2014 employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were on 91% of male and 96% of female rates of the RP-2014 healthy annuitant table, benefit weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Deaths are assumed to be occupational 75% of the time for peace officer/firefighters, 40% of the time for all others.

B. The Teachers' Retirement System - Defined Contribution Retirement Plan (TRS-DCR)

TRS-DCR is a defined contribution, multiple-employer public employee retirement plan established by the State to provide pension and postemployment healthcare benefits for teachers and other eligible members. Benefit and contribution provisions are established by state law and may be amended only by the State Legislature. The 24th Alaska Legislature enacted into law Senate Bill 141, which created TRS-DCR effective July 1, 2006. TRS-DCR Plan savings are accumulated by an individual retirement account for exclusive benefit of the members or beneficiaries.

The TRS-DCR Plan is a plan within the Teachers' Retirement System (TRS). TRS is a component unit of the State of Alaska financial reporting entity. The TRS component unit is comprised of the TRS-DB (see note 7), TRS-DCR Plans, TRS Retiree Medical Plan (RMP) and Healthcare Reimbursement Arrangement Plan (HRA), and Occupational Death and Disability (OD&D). TRS is reported as a pension (and other employee benefit) trust fund by the State. TRS separately issued financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and required supplementary information may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/drb/>.

As of June 30, 2021, there were 57 employers participating in TRS-DCR. There were 6,009 active members.

A participating member is immediately and fully vested in that member's contributions and related earnings (losses). A member shall be fully vested in the employer contributions made on that member's behalf, and related earnings (losses), after five years of service. A member is partially vested in the employer contributions made on that member's behalf, and the related earnings, in the ratio of (a) 25 percent with two years of service; (b) 50 percent with three years of service; (c) 75 percent with four years of service; and (d) 100 percent with five years of service. Any forfeited employer contributions are used to reduce pension expense in the the fiscal year it is forfeited.

TRS-DCR pension contribution rates are eight percent for TRS-DCR members, as required by statute. The employer shall deduct the contribution from the member's compensation at the end of each payroll period, and the contribution shall be credited by the plan to the member's individual account. The contributions shall be deducted from the member's compensation before the computation of applicable federal taxes. An employer shall contribute to each member's individual pension account

an amount equal to seven percent of the member's compensation. Participant accounts under the TRS-DCR Plan are self-directed with respect to investment options.

The TRS-DCR pension contributions for the year ended June 30, 2021 by the employees were \$1,076 thousand and the State of Alaska employers were \$898 thousand. The State of Alaska TRS other postemployment contributions for the year ended June 30, 2021 were \$457 thousand (\$11 thousand for ODD, \$320 thousand for HRA and \$126 thousand for RMP).

See note 4 for information on pension funds' deposit and investment risk categories. The fair value of the TRS-DCR, RMP, HRA, and OD&D cash and investments as of June 30, 2021 is \$1,088,289 thousand. TRS-DCR investments in collective investment funds, held in trust, are stated at fair value based on the unit value as reported by the Trustees multiplied by the number of units held by TRS-DCR. The unit value is determined by the Trustees based on the fair value of the underlying assets. Purchases and sales of securities are recorded on a trade-date basis.

For the year ended June 30, 2021 the State of Alaska recognized \$943 thousand in pension expense for the TRS-DCR as an employer. No forfeitures are reflected in the pension expense amount.

On July 1, 2006, two other postemployment benefit trust funds were created in TRS, the RMP and HRA. The TRS OD&D other postemployment benefit trust fund was created on July 1, 2007. RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides death benefits for beneficiaries and long-term disability benefits to all active members within the system. TRS-DCR participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds. The employer RMP contribution rate for FY 2021 for each member's compensation was 0.93 percent for medical coverage and 0.08 percent for death and disability. HRA is \$179.92 per month for full-time employees while part-time employees are based on the contract percentage worked multiplied by the full-time employee rate.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB liability, OPEB expense, information about the fiduciary net position of the TRS defined contribution OD&D, HRA, and RMP plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. Contributions are recognized in the period in which they are due. Benefits and refunds are recognized when due and payable. The Plans own shares in various investment pools that are administered by the State of Alaska, Department of Revenue, Treasury. The Plans' investment in the pools, except for the Short-term Fixed Income Pool, is reported at fair value based on the net asset value reported by the Treasury. The Short-term Fixed Income Pool maintains a share price of \$1. Each participant owns shares in the pool, the number of which fluctuates daily with contributions and withdrawals. Additional information about the Plans' fiduciary net position can be found in the Plans' audited financial statements.

Members in the HRA Plan consisted of the following at June 30, 2021:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	29
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	832
Inactive Plan Members Not Entitled to Benefits	2,848
Active Plan Members	6,009

The components of the net OPEB liability (asset) of the participating employers for the OD&D Plan at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$	528
Plan Fiduciary Net Position		(6,623)
Employers' Net OPEB Liability (Asset)	\$	<u>(6,095)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability		1,254.36 %

Members in the OD&D Plan consisted of the following at June 30, 2021:

Active Plan Members	6,009
Participating Employers	57
Open Claims	1

The components of the net OPEB liability (asset) of the participating employers for the RMP at June 30, 2021, were as follows (in thousands):

Total OPEB Liability	\$ 47,198
Plan Fiduciary Net Position	(67,278)
Employers' Net OPEB Liability (Asset)	<u>\$ (20,080)</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	142.54 %

Members in the RMP consisted of the following at June 30, 2021:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	20
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	832
Inactive Plan Members Not Entitled to Benefits	2,848
Active Plan Members	6,009

The total OPEB liability for each plan was determined by actuarial valuations as of June 30, 2020, using the following actuarial assumptions, applied to all periods in the measurement, and rolled forward to the measurement date of June 30, 2021:

Inflation	2.5% per year
Salary Increases	Graded by service, from 6.75% to 2.75%
Investment Rate of Return	7.38% net of postretirement healthcare plan investment expenses. This is based on an average inflation rate of 2.50% and a real return of 4.88%
Healthcare Cost Trend Rates (RMP)	Pre-65 medical: 6.5% grading down to 4.5% Post-65 medical: 5.4% grading down to 4.5% RX: 7.5% grading down to 4.5% EGWP: 7.5% grading down to 4.5%
Mortality	Pre-Commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rates were based on 100% of the RP-2014 white collar employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 93% of male and 90% of female rates of the RP-2014 white-collar healthy annuitant table, benefit weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Deaths are assumed to result from occupational causes 15 % of the time.

C. Supplemental Benefits System

In addition to the pension plans (note 7) and deferred compensation plan (note 9), all state employees, as well as employees of political subdivisions which have elected to participate in the program, are covered under the Alaska Supplemental Benefits System (SBS). SBS is comprised of the Supplemental Annuity Plan and the Supplemental Benefits Cafeteria Plan. The Supplemental Annuity Plan is a defined contribution plan that was created under Alaska statutes effective January 1, 1980, to provide benefits in lieu of those provided by the federal Social Security System (Social Security). All State employees, who would have participated in Social Security if the State had not withdrawn, participate in SBS. Other employers whose employees participate in the State Public Employees' Retirement System and meet other requirements are eligible to have their employees participate in SBS as provided by Alaska Statute. As of June 30, 2021, there were 21 employers participating in SBS. There were 49,552 participants in the Plan.

The Division of Retirement and Benefits is responsible for administration and record keeping. Through September 30, 2005, the Alaska State Pension Investment Board (ASPIB) was responsible for the specific investment of monies in SBS. Effective October 1, 2005, ASPIB was disbanded and their duties were assumed by the Alaska Retirement Management Board.

SBS is considered a component unit of the State financial reporting entity. SBS issues a separate stand-alone financial report that includes financial statements and required supplementary information, and SBS is also reported as a pension (and other employee benefit) trust fund by the State. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or from their website at <http://doa.alaska.gov/drbl/>.

Mandatory contributions are made to the Supplemental Annuity Plan and voluntary contributions to the Supplemental Benefits Cafeteria Plan. Participating employees are vested at all times. Supplemental Annuity Plan contributions are made in lieu of contributions to Social Security. The State and other participating employers are required to contribute 12.26 percent of an employee's wages up to the taxable wage base in effect under Social Security regulations. Each employee is considered to have agreed to a wage reduction equal to one-half the contribution made on the employee's behalf. The State's mandatory contributions for the year ended June 30, 2021, were \$154,118 thousand of that amount contributed by employees were \$77,059 thousand. The State's covered payroll was \$1,257,079 thousand. For the year ended June 30, 2021 the State of Alaska recognized \$77,059 thousand in pension expense for the SBS as an employer.

Supplemental Benefits Cafeteria Plan contributions are voluntary based upon the optional benefits elected by each employee enrolled in SBS. Each employee agrees to a wage reduction based upon the benefit options selected. The benefit amounts are deducted from each employee's wages and remitted by the employer to SBS third party administrator (TPA) on the employee's behalf. Effective January 1, 2020 the administration of the voluntary supplemental benefits was transferred to a TPA. The State employee voluntary contributions for the year ended June 30, 2021, were 3,693 thousand.

Employees are eligible to withdraw from the Supplemental Annuity Plan 60 days after termination. Benefits are payable in the form of a lump sum or a periodic payment option, unless the participant elects to defer commencement of benefits. Various annuities can also be purchased from an insurance carrier, which are excluded from Plan assets. The SBS administrator issues lump-sum payments through its contracted record keeper. Employees may request a hardship withdrawal for an unforeseeable emergency, within the definition allowed by the Internal Revenue Code. Hardship withdrawals are disbursed as lump sums and must be approved by the plan administrator.

Benefits available under the Supplemental Benefits Cafeteria Plan include life, accidental death, disability, and critical illness insurance. Selection of these benefits is at the discretion of the employee, with certain restrictions, and may be amended and/or changed on an annual basis or in conjunction with an employee change in status.

Supplemental annuity contributions were deposited with investment managers under contract with SBS for the year ended June 30, 2021. Participant accounts under the Supplemental Annuity Plan are self-directed with respect to investment options. Each participant designates how their contribution is to be allocated among the investment options. Each participant's account is credited with the participants contributions, adjusted for the appreciation or depreciation in unit value for the investment funds, and reduced for administrative fees.

D. University of Alaska Optional Retirement Plan - Defined Contribution (ORP)

The ORP is an employer funded defined contribution plan which operates in conjunction with a companion mandatory tax-deferred annuity plan. The ORP is comprised of three layers of participants: the original ORP, or ORP Tier 1, which was created for participants hired prior to July 1, 2005; ORP Tier 2, which was created for participants hired between July 1, 2005 and June 30, 2006; and ORP Tier 3, which was created for participants hired on or after July 1, 2006. For ORP Tier 1 and ORP Tier 2, faculty classified as regular and certain administrators made a one-time election to participate in the ORP as an alternative to participation in the defined benefit plans, PERS-DB or TRS-DB. The ORP Tier 2 plan was available for new ORP benefit-eligible employees hired in fiscal year 2006. As of July 1, 2006, the ORP Tier 2 plan was no longer available to newly-hired ORP benefit-eligible employees. For ORP Tier 3, each new eligible employee was able to make a one-time election to participate in the University of Alaska Retirement Program (includes ORP Tier 3 and the University of Alaska Pension Plan) as an alternative to participation in the State of Alaska defined contribution plans, PERS-DC or TRS-DC. Beginning July 1, 2015 the ORP was closed to new hired regular staff, but is still available for faculty and certain administrators.

University contributions are remitted to the plan's authorized employee-selected annuity providers or investment managers. The contribution rates and amounts for fiscal year 2021 were as follows (in thousands):

	ORP Tier 1	ORP Tier 2	ORP Tier 3
Employee Contribution Rates	8.65%	8.65%	8.00%
University Contribution Rates	14.00%	12.00%	12.00%
Covered Payroll	\$28,312	\$2,328	\$102,524
University Contributions	\$3,964	\$279	\$12,303

At June 30, 2021, plan assets (participants' accounts attributable to employer contributions) for ORP Tier 1, Tier 2, and Tier 3 had a net value to \$477.9 million. ORP Tier 1 and ORP Tier 2 participants are 100 percent vested at all times. University contributions for ORP Tier 3 participants are 100 percent vested after three years of service.

University of Alaska Pension Plan

In addition to the other retirement plans, substantially all regular employees (hired before July 1, 2006) and certain faculty classified as temporary, participate in the Pension plan which was established January 1, 1982, when the University withdrew from the federal social security program. Eligible employees, hired on or after July 1, 2006, who elected to participate in the University of Alaska Retirement Program also participate in the Pension plan.

For fiscal year 2021, employer contributions for regular employees were 7.65 percent of covered wages up to \$42.0 thousand. For certain faculty classified as temporary, the employer contributions were 7.65 percent of covered wages up to \$142.8 thousand. The plan provides for employer contributions to be invested in accordance with participant-directed investment elections. Participants hired before July 1, 2006 are 100 percent vested at all times. University contributions for participants hired on or after July 1, 2006 are 100 percent vested after three years of service. Regular staff hired on or after July 1, 2015 are also 100 percent vested after three years of service of the employer contributions of the pension plan.

The University's total covered payroll for the Pension plan was \$146.2 million. The University's gross costs to fund and administer the plan totaled \$11.2 million for the year ended June 30, 2021. At June 30, 2021, plan assets (participants' accounts) had a net value of \$549.1 million.

NOTE 9 – DEFERRED COMPENSATION PLAN

The State of Alaska Deferred Compensation Plan was created by Alaska statutes issued May 31, 1974 and was most recently amended effective August 30, 2021. It is a deferred compensation plan under Section 457 of the Internal Revenue Code and is available to all permanent and long-term non-permanent employees and elected officials of the State and members of State boards and commissions. Participants authorize the State to reduce their current salary or compensation so that they can receive the amount deferred at a later date. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency, within the definition allowed by the applicable Internal Revenue Code. All amounts deferred are held in a trust for the exclusive benefit of employees and beneficiaries. Additionally, participants may also have their contributions directed as a ROTH contribution. Those amounts are post-tax contributions and earnings on ROTH contributions are not taxable when properly withdrawn from the plan. As of June 30, 2021 the Deferred Compensation Plan had 12,454 participants.

The Division of Retirement and Benefits is responsible for Deferred Compensation Plan administration and record-keeping. The Alaska Retirement Management Board is responsible for the specific investment of monies in the Deferred Compensation Plan.

Participant accounts are self-directed with respect to investment options. Each participant designates how their contributions are to be allocated among the investment options. Each participant's account is credited with the participant's contributions and the appreciation or depreciation in unit value for the investment funds and deductions for administrative fees.

Deferred Compensation Plan net position as of June 30, 2021 was \$1,223,745 thousand. The Deferred Compensation Plan is reported in the accompanying financial statements as a pension (and other employee benefit) trust fund.

NOTE 10 – INTERFUND TRANSACTIONS

The following schedules summarize individual interfund receivable and payable balances at June 30, 2021, and interfund transfers for the year then ended (in thousands):

INTERFUND RECEIVABLE / PAYABLE BALANCES

Due to Other Funds	Due from Other Funds									
	General Fund	Alaska Permanent Fund	Nonmajor Governmental Funds	International Airports	Unemployment Compensation	Nonmajor Enterprise Funds	Internal Service Funds	Fiduciary Funds	Other	Total
General Fund	\$ —	\$ 35,689	\$ 5,823	\$ 1,730	\$ 66,176	\$ 661	\$ 16,238	\$ 42,933	\$ 10,500	\$ 179,750
Alaska Permanent Fund	50,116	—	—	—	—	—	—	—	—	50,116
Nonmajor Governmental Funds	4,917	—	—	—	—	—	—	—	—	4,917
International Airports	2,591	—	—	—	—	—	—	—	—	2,591
Unemployment Compensation	37	—	—	—	—	—	—	—	—	37
Nonmajor Enterprise Funds	456	—	—	—	—	—	—	—	—	456
Internal Service Funds	1,807	—	—	—	—	—	—	—	—	1,807
Fiduciary Funds	36,100	—	—	—	—	—	—	—	—	36,100
Total	\$ 96,024	\$ 35,689	\$ 5,823	\$ 1,730	\$ 66,176	\$ 661	\$ 16,238	\$ 42,933	\$ 10,500	\$ 275,774

The \$10.5 million reported in the Other column consists of transfers from the General Fund to the Alaska Permanent Fund that were not included in the Alaska Permanent Fund outside audit. The amount is immaterial to the Alaska Permanent Fund's audited financial statements thus the audit was not restated.

INTERFUND TRANSFERS

Transfers From	Transfers to					Total
	General Fund	Nonmajor Governmental Funds	Unemployment Compensation	Nonmajor Enterprise Funds	Internal Service Funds	
General Fund	\$ —	\$ 77,844	\$ 66,745	\$ —	\$ 31,900	\$ 176,489
Alaska Permanent Fund	3,141,609	—	—	—	—	3,141,609
Nonmajor Governmental Funds	29,774	2,446	—	—	—	32,220
Nonmajor Enterprise Funds	1,075	—	—	—	—	1,075
Total	\$ 3,172,458	\$ 80,290	\$ 66,745	\$ —	\$ 31,900	\$ 3,351,393

The general purpose for transfers is to move monies from funds required by statute to collect them to the funds required by statute or budget to expend them, to move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund as debt service payments come due, and transfer accumulated surpluses from “Other” funds to the General Fund.

The transfer from the Alaska Permanent Fund to the General Fund includes a \$3.09 billion transfer for payment of the Permanent Fund dividends and for administrative and associated costs of the dividend program and a \$50.12 million transfer to the Alaska Capital Income Fund.

NOTE 11 – RELATED PARTY ACTIVITY

Based on understandings and board-approved agreements between the Alaska Industrial Development and Export Authority (AIDEA) and Alaska Energy Authority (AEA), AIDEA provides administrative, personnel, data processing, communications

and other services to AEA. AIDEA recognized revenue totaling \$5.3 million for providing these services during FY 2021. On June 30, 2021, AIDEA had \$5.07 million receivable from AEA for services and short-term borrowings.

In December 2020, AEA borrowed \$17 million from AIDEA to acquire an approximately 39.3-mile 115 kV electricity transmission line system between the Sterling Substation and Quartz Creek Substation ("SSQ Line") from Homer Electric Association and to incorporate it as part of the Bradley Lake Hydroelectric Project. The loan, bearing interest at 3.5%, requires semiannual interest and annual principal payments with a final maturity date of July 2040. The first principal payment is scheduled for July 2022.

On September 30, 2010, pursuant to legislation and an agreement, AIDEA purchased 37 loans from AEA with an outstanding balance of \$24.25 million, plus accrued interest, for \$20.63 million. Under the agreement, at AIDEA's request, AEA is required to repurchase any loan upon a payment default. The current loan outstanding balance at June 30, 2021 is \$8.93 million.

The Department of Transportation and Public Facilities (DOTPF) provides administrative and technical services benefiting all of Alaska's airports and aircraft bases. Related costs are allocated based upon budgetary estimates of the *pro rata* portion which should be borne by the various facilities as set forth in the annual appropriation and budget document of the State. Costs allocated to the International Airport Fund (IAF) as operating expenses totaled \$3.37 million for the year ended June 30, 2021. Capital project management services are performed by DOTPF personnel and are capitalized to IAF construction in progress. These costs totaled \$1.84 million during the year ended June 30, 2021.

NOTE 12 – COMMITMENTS, CONTINGENCIES, AND CONCENTRATIONS

A. SICK LEAVE

The cost of state employee sick leave is charged against agency appropriations when leave is used rather than when leave is earned. There is no recorded liability for sick leave in the financial records of the State. Accordingly, the statements in this report do not include an estimate of this obligation as either a liability or a reserve.

The estimated amount of unused accumulated sick leave as of June 30, 2021, is \$10.06 million. This amount was calculated using the base pay on file for each employee as of June 30, 2021. It does not include an estimate of the cost of fringe benefits (supplemental benefits, retirement, group insurance, etc.) which can vary depending on the status of the employee when leave is taken.

B. SCHOOL DEBT

Under a program enacted in 1970 (AS 14.11.100), the State may reimburse municipalities up to 60, 70, 80, 90, or 100 percent of debt service on bonds issued to finance school construction. The percentage depends on the year in which the costs are incurred. The 60 percent limitation, enacted in 2002, applies to fiscal years after June 30, 1999.

Although the statute provides that the State may reimburse school districts 60, 70, 80, 90, or 100 percent of construction costs, the actual funding for the program is dependent on annual legislative appropriations to the school construction account. When amounts in the account are insufficient, the available funds are allocated *pro rata* among the eligible school districts. There is no contractual commitment by the State to make these payments. The amount for FY 2021 expended for school debt was zero, due to the program not being funded. The total debt requirement, assuming the State makes full payment of its share of school debt service, would be approximately \$656.67 million. The State has in the past and did appropriate less than the full amount to which the municipalities are entitled under statute in FY 2021.

C. RISK MANAGEMENT AND SELF-INSURANCE

PRIMARY GOVERNMENT

The State maintains a risk management program that is administered by the Department of Administration, Division of Risk Management. The Division of Risk Management's objective is to protect the financial assets and operations of the State of Alaska from accidental loss through a comprehensive self-insurance program for normal and expected property and casualty claims of high frequency and low severity, combined with high-limit, broad-form excess insurance protection for catastrophic loss exposures.

Risk Management acts as the insurance carrier for each state agency, funding all sudden and accidental property and casualty claims. The annual premiums allocated by Risk Management are the maximum each agency is called upon to pay. This planning for known and catastrophic losses forestalls the need for the affected agency to request a supplemental appropriation or disrupt vital state services after a major property loss, adverse civil jury award, or significant workers' compensation claim.

By effectively managing the State's property and liability exposures through a comprehensive self-insurance program, Risk Management expends less public funds than would be paid to private insurance companies, while at the same time providing streamlined claims services utilizing professional adjusting firms located throughout Alaska.

Property insurance with all-risk (including earthquake and flood) coverage is provided on a replacement cost basis for all state-owned or leased property; buildings (including contents, museum fine arts, etc.), aircraft, and watercraft (Alaska Marine Highway System ferries and other agency vessels).

Casualty coverages protect each state agency and their personnel from third-party civil (tort) liability claims alleged to have arisen from combined liability - general (premises/operations), automobile, professional (errors and omissions), medical malpractice, aviation (aircraft and airport), or marine (passenger injuries).

Additional specialty coverage includes blanket public employee faithful performance and custom bonding, accidental death and disability (including medical expenses) for volunteers, computer fraud and foreign liability, etc. These insurance programs continually evolve, responding to new activities and special projects undertaken by each state agency. The State has not incurred a loss in excess of its insurance program.

In FY 2021, the State completely self-insured all statutory workers' compensation claims, general (premises and operations) and professional liability, automobile, property and aircraft liability. The State had Self-Insured Retention (SIR) levels of \$400 thousand for marine risks and \$250 thousand per incident for airport liability exposures. Limits of excess insurance vary by risk: \$1 billion per occurrence for marine, \$125 million for fine arts, and \$500 million for airport.

Both domestic and international insurance companies and various Lloyd's of London underwriting syndicates participate in the State of Alaska's excess insurance program. Independent brokers provide marketing. The State obtains an annual independent actuarial assessment of the state insurance program as required by AS 37.05.287(b) which calculates unfunded claims and allocated loss adjustment expenses (ALAE).

An unconstrained audit of the State of Alaska's overall property and casualty insurance program performed by an independent risk management consultant found the retention levels and excess insurance coverage purchased are appropriate.

Risk Management's budget is funded entirely through interagency receipts annually billed to each agency through a "Cost of Risk" premium allocation system. The Risk Management information system generates the annual cost of risk allocation to each agency, reflecting their proportionate share of the State's overall cost of risk. Designed to achieve equitable distribution of the self-insurance program costs, it factors exposure values subject to loss and considers the past five years actual claims experience incurred by each department.

For most cost of risk allocations, 80 percent of the premium billing is based on the average of the past five years actual claims experience. This provides a direct fiscal incentive to each agency to reduce or control their claim costs.

The program compiles a property inventory schedule of all owned or leased buildings used or occupied by state agencies, listing age and type of building construction, occupancy, fire protection services and sprinkler systems, and projected replacement cost value. Individual premiums are then determined and, in cases of multiple occupancy, allocated to each department on the basis of their square foot use.

The "Cost of Risk" premium is collected through two methods from individual state agency operating budgets. Reimbursable service agreements (RSAs) are used for all categories of insurance other than Workers' Compensation and Combined Liability (general, auto, and professional), which are assessed on a rate per \$100 payroll applied monthly to each agency's actual payroll until the allocated premium is paid.

The table below presents changes in policy claim liabilities for the fiscal years ending June 30, 2020, and June 30, 2021, (in thousands). The State records its related liability using discounted amounts provided by actuaries. The amount of unpaid

claim liabilities for Risk Management are presented at their present value using a 3.0 percent discount interest rate for FY 2020 and for FY 2021. Claims payment amounts include allocated loss adjustment expenses (legal and adjusting).

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claim Payments	Ending Balance
2020	\$ 150,723	\$ 32,591	\$ (35,635)	\$ 147,679
2021	147,679	17,975	(23,198)	142,456

The Group Health and Life Fund is an Internal Service Fund of the State of Alaska, the plan is self-insured for all benefits. The plan's funding policy provides for the collection of insurance premiums from employees, if applicable, and the State. Insurance premium amounts are actuarially determined on an annual basis and adjusted as necessary. The State retains the risk of loss of allowable claims.

The liability for claims incurred but not reported (IBNR) represents the estimated amounts necessary to settle all outstanding claims as of the balance sheet date. The plan's reserve estimate for IBNR are based primarily on historical development patterns adjusted for current trends that would modify past experience. Claims are re-evaluated periodically to consider the effect on inflation, claims settlement trends, and other economic factors. The process of establishing loss reserves is subject to uncertainties that are normal, recurring and inherent in the healthcare business.

Changes in the balances of claims liabilities during the years ended June 30, 2021 and 2020 were as follows (in thousands):

Fiscal Year	Beginning Balance	Health Care Benefits	Benefits Paid	Ending Balance
2020	\$ 13,261	\$ 128,071	\$ (126,267)	\$ 15,065
2021	15,065	138,181	(137,358)	15,888

UNIVERSITY OF ALASKA

The University is exposed to a wide variety of risks including property loss, bodily and personal injury, intellectual property, errors and omissions, cyber-attacks, aviation and marine. Exposures are handled with a combination of self-insurance and commercial insurance.

The University is self-insured up the maximum of \$2.0 million per occurrence for casualty claims and \$250 thousand for property claims. Commercial carriers provide coverage in excess of these amounts. Health care, workers' compensation and unemployment claims are fully self-insured. Liabilities have been established using actuarial analysis to cover estimates for specific reported losses, estimates for unreported losses based upon past experience modified for current trends, and estimates of expenses for investigating and settling claims. Settled claims have not exceeded the coverages for any of the past three years.

Changes in applicable self-insured liability amounts follow (in thousands):

	Balance July 1, 2020	Provision for Claims	Claims Payments	Balance June 30, 2021
Health	\$ 5,317	\$ 50,568	\$ (50,636)	\$ 5,249
General Liability	4,550	110	—	4,660
Workers' Compensation	3,873	975	(1,179)	3,669
Unemployment	54	914	(869)	99
	<u>\$ 13,794</u>	<u>\$ 52,567</u>	<u>\$ (52,684)</u>	<u>\$ 13,677</u>

D. LITIGATION AND ADMINISTRATIVE APPEALS

The State is involved in a number of legal actions. The Department of Law estimates the probable maximum liability for the cases associated with the governmental fund types to be approximately \$73.9 million, with an additional possible liability of \$195.37 million. The probable loss amount has been reported as long-term debt obligations.

The amount of revenue recognized by the Northern Tobacco Securitization Corporation could be adversely impacted by certain third party litigation involving tobacco companies and others.

The Division of Retirement and Benefits is a defendant in a class action lawsuit against the State alleging that the passage of Senate Bill (SB) 141 violated the Alaska Constitution by extinguishing a former member's ability to re-enter the PERS/TRS defined benefits plan. According to SB 141, a PERS/TRS defined benefit former member would have to re-employ into an eligible defined benefit position by June 30, 2010 or lose that former member's status (tier standing). If that former member re-entered the workforce in a valid PERS/TRS position but after June 30, 2010, that person would become a defined contribution retirement plan member, rather than reinstated into their prior defined benefit status (tier standing). The lawsuit challenged the effect of SB 141 as an unconstitutional diminishment of a promised defined benefit.

In April 2021, the Alaska Supreme Court found that a former member's ability to reinstate PERS/TRS status is an accrued benefit protected by Article XII, Section 7 of the Alaska Constitution. The Court held that not allowing former members to buy back into PERS/TRS defined benefit status resulted in an unconstitutional diminishment. The decision could lead to an increase in the number of employees previously believed to be ineligible for the defined benefit plan by operation of SB 141 for PERS/TRS. The case was returned to the Superior Court and the Department of Law filed a motion for final judgement. The class action group opposes the execution of final judgement and seeks to further litigate the specifics of the implementation of the Supreme Court's decision. The issue is currently under advisement by the Superior Court.

The Division is determining the impact of the Metcalfe decision on PERS and TRS. However, the Division has not implemented results from this decision as final judgement has not been entered. At this time, it is unclear exactly how many former members will seek to reinstate to the defined benefits plan or the precise impact the reintroduction of those former members to the defined benefits plan will cost.

The Department of Revenue Tax Division's Oil and Gas Production Tax Audit Group performs periodic audits of oil and gas companies that file Alaska's oil and gas production tax returns. The audits mostly result in additional tax assessments and associated interest. The companies sometimes choose to pay the additional assessment "under protest" to avoid accruing interest. Because these prepayments are deposited in the Constitutional Budget Reserve Fund (CBRF) but are still under dispute, the tax assessment revenues recognized in the CBRF could be adversely affected by a potential refund resulting from a decision issued by the Department of Revenue Tax Division's Appeals Group, by the Department of Administration's Office of Administrative Hearings, by an Alaska Superior Court ruling, or by an Alaska Supreme Court ruling. As of the end of fiscal year June 30, 2021, there are no pending prepayments or payments made "under protest". If there were, we would not be able to estimate the amount of potential refund.

The Department of Natural Resource's Division of Oil and Gas performs periodic audits of oil and gas companies that file Alaska's oil and gas Royalty and Net Profit Share (NPS) reports. The audits mostly result in additional royalty and NPS payments and associated interest. The companies sometimes pay the additional assessment "under protest" to avoid accruing interest. Per Alaska Statutes 37.14.150 and 37.13.010, royalty payments are split between the Constitutional Budget Reserve Fund, Public School Trust Fund, and the Alaska Permanent Fund. Since the royalty and NPS revenues are still under dispute the funds could be adversely affected by a potential refund resulting from a decision issued by the Department of Natural Resource's Commissioner, by an Alaska Superior Court ruling, or by an Alaska Supreme Court ruling. As of the end of fiscal year June 30, 2021, there were pending prepayments or payments made "under protest", however, we are not be able to estimate the amount of potential refund.

In August of 2018, the U.S. Department of Health & Human Services (USDHHS), Office of Inspector General (OIG) released audit report number A-04-17-08059, in which the OIG found that the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) over paid the State of Alaska an estimated \$8.9 million in bonus payments due to the State including individuals that did not qualify because of their basis-of-eligibility category. The State of Alaska disagrees with this finding and joined several other states by entering into the formal appeals process through the USDHHS Department of Appeals Board (DAB) based on the states following the statutory criteria for the CHIPRA bonus payments and preparing current enrollment numbers in accordance with Centers for Medicare & Medicaid Services (CMS) guidance.

During FY21, USDHHS DAB issued a preliminary decision that required additional action by both the State and CMS. According to USDHHS DAB, the previous methodology used for determining the bonus awards was invalid; therefore, CMS could not pursue collecting the estimated overpayments. However, the decision allowed CMS the opportunity to recalculate the baseline year (2007) for determining eligibility and pursue an overpayment collection in accordance with this new calculation. As of June 30, 2021, the amount potentially to be repaid is unknown.

E. FEDERAL GRANTS

The State has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, it is believed that any required reimbursements will not be material.

F. DISASTER RELIEF FUND

The State may be liable to reimburse communities for expenditures related to disasters in excess of the amount allocated by the State.

G. FUTURE LOAN COMMITMENTS

As of June 30, 2021, the Alaska Clean Water and the Alaska Drinking Water Funds are committed to funding loans for which they have entered into agreements for communities but funds have not yet been disbursed. The total amounts to be disbursed under these agreements are uncertain as not all of the loans are expected to be fully drawn and some loans may increase with changes in scope of the underlying projects; accordingly, they are not included in the financial statements for these funds. As of June 30, 2021, the Alaska Clean Water and the Alaska Drinking Water Funds have entered into binding commitments, as evidenced by signed loan agreements, for which funds remain to be disbursed totaling \$74.87 million and \$45.33 million respectively.

As of June 30, 2021, the Department of Commerce, Community and Economic Development identified outstanding loan commitments. Agreements have been entered into, but funds have not yet been disbursed. The open loan commitments include the Alaska Commercial Fishing Revolving Loan Fund for \$3.19 million and the Alaska Fisheries Enhancement Revolving Loan Fund for \$7.52 million.

As of June 30, 2021, the Alaska Energy Authority (AEA) had Power Project Fund loan commitments of \$5.15 million.

As of June 30, 2021, the Alaska Industrial Development and Export Authority (AIDEA) had extended loan participation purchase commitments to be funded by the Revolving Fund of \$1.2 million and pending applications of \$6.4 million, as well as loan guarantees of \$4.5 million.

AIDEA has also entered into funding agreements with Ambler Metals, LLC to support Ambler Access Project, developing an industrial road to the Ambler Mining District. The agreements entail Interim Funding Agreement and Full Funding Agreement and through each agreement, AIDEA will provide funds up to \$1 million and \$35 million, respectively.

AIDEA had also extended commitments to fund a loan to the Interior Gas Utility not to exceed \$139 million from the Sustainable Energy Transmission and Supply Development Fund for the Interior Energy Project. As of June 30, 2021, AIDEA had funded approximately \$137.5 million, resulting in a remaining commitment of approximately \$1.5 million.

H. POTENTIAL DEVELOPMENT PROJECTS

Exclusive of the Alaska LNG Project, and regarding the development of a proposed in-state natural gas pipeline from the North Slope to Cook Inlet (Bullet Line), the Alaska Gasline Development Corporation (AGDC) entered into a 2010 agreement where \$4.66 million would become due and payable when (a) the State awards permits, work product, and other results of a Bullet Line Preliminary Development Project to a qualified builder (other than a public corporation owned by the State); or (b) the State determines it will construct the Bullet Line itself, either through a public corporation owned by the State or otherwise, and (i) the Legislature of the State of Alaska appropriates some or all of the funding for the Bullet Line development and construction expenses, or (ii) bonds are issued by the State or a public corporation owned by the State intended to finance some or all of the Bullet Line development and construction expenses.

I. INVESTMENT COMMITMENTS

As of June 30, 2021, the APFC, on behalf of the Fund, had outstanding future funding commitments of: \$100 million for absolute return; \$5.1 billion for private equity; \$1.9 billion for infrastructure; and \$1.3 billion for private credit investments. Many alternative investments have liquidity constraints and may not be available for cash withdrawal until a specified period of time has elapsed.

As of June 30, 2021, the APFC, on behalf of the Fund, had outstanding future funding commitments of \$400 million for real estate fund investments.

The Alaska Retirement Management Board (ARMB) has entered into agreements with external investment managers to provide funding for future pension fund investments. As of June 30, 2021, ARMB's unfunded commitments were as follows (in thousands):

Investment Type	
Alternative Fixed Income	\$ 120,521
Energy	28,453
Private Equity	1,218,942
Real Estate	183,906
	<u>\$ 1,551,822</u>

J. POLLUTION REMEDIATION

Governmental Accounting Standards Board Statement (GASBS) 49 provides guidance for state and local governments in estimating and reporting the potential costs of pollution remediation. While GASBS 49 does not require the State to search for pollution, it does require the State to reasonably estimate and report a remediation liability when an obligating event occurs.

According to AS 46.03.010, it is the policy of the State to conserve, improve, and protect its natural resources and environment and control water, land, and air pollution, in order to enhance the health, safety, and welfare of the people of the State and their overall economic and social well-being. It is also the policy of the State to improve and coordinate the environmental plans, functions, powers, and programs of the State, in cooperation with the federal government, local governments, other public and private organizations, and concerned individuals, and to develop and manage the basic resources of water, land, and air to the end that the State may fulfill its responsibility as trustee of the environment for the present and future generations.

The State has the knowledge and expertise to estimate the remediation obligations presented in the statements based on prior experience in identifying and funding similar remediation activities. GASBS 49 requires the State to calculate pollution remediation liabilities using the expected cash flow technique. Where the State cannot reasonably estimate a pollution remediation obligation, it does not report a liability.

The remediation obligation estimates that appear in this report are subject to change over time. Cost may vary due to price fluctuations, changes in technology, changes in potential responsible parties, results of environmental studies, changes to statutes or regulations or other factors. Prospective recoveries from responsible parties may reduce the State's obligation.

At July 1, 2020, the General Fund had pollution remediation obligations of \$125,227 thousand. As of June 30, 2021, the State had an increase to the obligations of \$8,739 thousand and recognized a decrease of \$3,433 thousand, for an ending balance of \$130,533 thousand in pollution remediation obligation related activities. The State has an estimated potential recovery of \$8 thousand from other responsible parties.

Additionally, the International Airports Fund (IAF) reported pollution remediation liabilities for which IAF is in whole or in part a responsible party. The liabilities were valued using the estimated mean of the future cash flows of costs and recovery associated with identified sites, measured at current value. Amounts recorded as current and long-term portions of these estimated liabilities were respectively \$619 thousand and \$5,568 thousand in 2021 and \$1,477 thousand and \$4,379 thousand in 2020.

K. ENCUMBRANCES

The State of Alaska utilizes encumbrance accounting to identify fund obligations. The following shows encumbrances within the governmental funds for the fiscal year ended June 30, 2021:

	<u>Amount (in thousands)</u>	
General Fund	\$	462,167
Special Revenue Funds		42,565
Capital Project Funds		<u>3,543</u>
Total Encumbrances	<u>\$</u>	<u>508,275</u>

A review of the appropriations with encumbrance balances over \$5 million were identified and analyzed below:

The Department of Commerce, Community and Economic Development, Department of Administration, and Governor's Office all have projects related to the COVID-19 pandemic which total \$31.66 million. These projects are funded by general funds.

The Department of Education and Early Development had several school construction and renovation projects underway that total \$83 million. These projects are funded by general funds.

The Department of Commerce, Community and Economic Development administers a grant for the Exxon Valdez Oil Spill funded "EVOSTC" of the Prince William Sound Science Center and Technology Institute Facilities replacement for \$11.7 million. This is funded by the Exxon Valdez Settlement Trust Fund.

The Department of Commerce, Community and Economic Development administers a grant for the Alaska Impact Grant Program for \$10.29 million. This is funded by the National Petroleum Reserve Fund.

The Department of Commerce, Community and Economic Development administers the Alaska Reinsurance Program which was established under AS 21.55 to stabilize the health insurance market in Alaska. The program provides a reinsurance mechanism for insurers issuing policies that cover certain high-risk individuals through the Comprehensive Health Insurance Association. The program has \$53.5 million remaining obligated in the Alaska Comprehensive Health Insurance Fund from revenues collected under Title 21 of the Alaska Statutes.

The Department of Transportation and Public Facilities has several projects for road work in Kake and Petersburg for a total of \$16.62 million. These projects are funded by general funds. There was also \$8.84 million in Federal-Aid state match, which is in the Constitutional Budget Reserve (CBR) Fund.

The Department of Health and Social Services had several specialized contracts required for its Medical Assistance program, including some specific to information technology operation and maintenance. A total of \$18.90 million of these contracts are funded by general funds with additional funding from federal grant awards.

The Department of Corrections had a project for \$11.8 million to provide constitutionally and statutorily required essential medical services for the inmate population. This project is funded by general funds.

The Department of Military and Veteran Affairs had numerous Program Worksheets (Public Assistance) and Project Worksheets (Hazard Mitigation) totaling \$17.0 million for the November 2018 earthquake that are funded with 75 percent Federal and 25 percent State Disaster Relief funds.

The Department of Military and Veteran Affairs had a project for the Alaska Land Mobile Radio Site Refresh for a total of \$6.5 million, which is funded by general funds.

L. MEDICAID

The Department of Health and Social Services uses two Medicaid Management Information Systems, Alaska Health Enterprise (AHE) and Optum Behavioral Health System (OBHS) FACETS, to process Medicaid and Children's Health Insurance Program medical claims submitted by service providers. Some claims are suspended during normal processing for reasons including third party insurance verification, verification of medical necessity, and provider claim submission errors. Due to the complexity of claim processing, the cost of settling the suspended claims cannot be reasonably estimated.

M. OIL AND GAS TAX CREDITS

Producers or explorers of oil and gas can apply for a tax credit for certain qualifying losses and expenditures under AS 43.55.023 and AS 43.55.025. As of June 30, 2021, the Department of Revenue has received tax credit applications totaling \$772 thousand, which have not been accrued as a liability in the general fund financial statements. Due to the complexity of the approval process, the amount of the tax credit that will ultimately be issued or denied cannot be estimated.

N. CONCENTRATIONS

In FY 2021, the most significant sources of revenues were federal, taxes, and rents and royalties; which make up 92.0 percent of total revenues. With the majority of total revenues coming from federal sources (68.1 percent), a large decrease in federal funding could impact the stability of the State. Additionally, with the continued decline in petroleum related revenues, taxes, and rents and royalties continue to be a significant concern for the State of Alaska

O. COVID-19

During FY 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic continues to have significant effects on global markets, supply chains, governments, businesses, and communities. Specific to the State of Alaska, COVID-19 may impact various parts of its 2022 operations and financial results, including, but not limited to, declines in tax revenues, costs for increased use of technology, costs related to providing public health services and delivering of vaccines. Management believes the State of Alaska is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.

NOTE 13 – SUBSEQUENT EVENTS**A. ALASKA MUNICIPAL BOND BANK AUTHORITY**

On June 16, 2021, the Alaska Municipal Bond Bank Authority (AMBBA) priced \$5.73 million in general obligation refunding bonds through a forward delivery bond issue, the 2021 Series Three (AMT), with interest rate yields ranging between 1.75% and 1.98% and a coupon rate of 5%. The forward delivery bond issue closed in fiscal year 2022, on December 2, 2021. AMBBA utilized the forward delivery bond issue to refund the \$7.05 million in outstanding 2015-2B general obligation bonds with an interest rate yield of 3.81% and coupon rate of 5%. The forward delivery bond issue is anticipated to reduce total debt service payments over the next 12 year by approximately \$1.9 million. This is anticipated to produce an economic gain (difference between the present values of the debt service payments on the old and net debt) of approximately \$1.6 million.

B. ALASKA CLEAN WATER FUND

Pursuant to legislative authorization obtained during the 2021 session of the Alaska Legislature, Series A Revenue Bond Anticipation Notes for FY 2021 were issued on November 10, 2021 in the amount of \$1.90 million. The borrowing is secured by interest earnings of the Alaska Clean Water Fund.

C. ALASKA DRINKING WATER FUND

Pursuant to legislative authorization obtained during the 2021 session of the Alaska Legislature, Series A Revenue Bond Anticipation Notes for FY 2021 were issued on November 10, 2021 in the amount of \$2.20 million. The borrowing is secured by interest earnings of the Alaska Drinking Water Fund.

D. ALASKA INDUSTRIAL DEVELOPMENT AND EXPORT AUTHORITY

In August 2021, the AIDEA Board passed a resolution authorizing the AIDEA executive director to start the sale process for the Mustang project.

In January 2022, the AIDEA board passed Resolution G22-03 approving \$15.4 million to advance pre-development work for the 2022 field season for the Ambler Access Project to be matched by \$15.4 million from Ambler Metals under the terms of the Ambler Access Development Agreement.

E. ALASKA MENTAL HEALTH TRUST AUTHORITY

Since 2005, the Trust and the United States Forest Service (USFS) have been working on a transfer to the USFS of Trust land surrounding seven Southeast Alaska communities in exchange for federal land that could create revenue to the Trust in support of its mission. The exchange of land was not to be based on acres, rather be based on land of equal value. In FY 2021, appraisals of the land were completed. The majority of the land exchange was completed August 30, 2021 with the transfer of 17,980.19 acres of Trust land, valued at \$20.66 million for 18,491.96 acres of federal land, valued at \$20.69 million. The Trust Land Office paid \$35,408.81 to the USFS to equalize the values of land exchanged. Subsequent to August 30, 2021, all outstanding easements were exchanged between the Trust and the USFS totaling about 45 miles of permanent access on January 13, 2022, concluding the main items of the Land Exchange.

In August 2021, the Board of Trustees authorized an irrevocable transfer of \$26.3 million in spendable earnings to the Trust principal. The transfer was made in September 2021, to offset erosions of the purchasing power of the Trust's cash corpus attributed to inflation.

F. NORTHERN TOBACCO SECURITIZATION CORPORATION

On July 1, 2021, the Corporation issued \$282.48 million of its Tobacco Settlement Asset-Backed Bonds, 2021 Series A, B and C. Proceeds of the sale were used to fully refund the Corporation's outstanding Tobacco Settlement Asset-Backed Bonds, Series 2006. Pursuant to the terms of the 2021 Bond Indenture, proceeds from the sale in the amount of \$18.99 million will be used to fund additional capital projects as appropriated by the Alaska State Legislature.

G. AIRPORTS

In August 2021, AIAS issued \$85.5 million of Series 2021 refunding bonds, which in conjunction with the contribution of \$40.0 million of cash and prior debt service funds on hand, defeased/refunded \$154.4 million of par of then outstanding AIAS revenue bonds. The transaction resulted in a \$68.9 million reduction of outstanding bonds payable and an estimated \$81.8 million reduction in scheduled debt service payments between FY 2022 and FY 2036. The refunding portion of the transaction provided an estimated net present value savings of approximately \$24.9 million.

H. ALASKA HOUSING FINANCE CORPORATION

The Corporation delivered its \$122,795,000 General Mortgage Revenue Bonds II, 2022 Series A and B, on January 12, 2022. The 2022 Bonds are the first two series of Social Bonds designated under the Corporation's General Mortgage Revenue Bonds II indenture. The \$39,065,000 Series A Bonds are tax-exempt general obligations of the Corporation having a final maturity of June 1, 2051, and bearing interest at fixed rates ranging from 0.15% to 3.00%. The \$83,730,000 Series B Bonds are tax-exempt general obligations of the Corporation having a final maturity of June 1, 2036, and bearing interest at fixed rates ranging from 1.65% to 5.00%. Interest on the Series A and B Bonds is payable on June 1, 2022, and semiannually on each June 1 and December 1 thereafter until maturity or redemption. Proceeds of the Series A Bonds were used to purchase mortgage loans and to pay certain costs of issuance. Proceeds of the Series B Bonds were used to refund certain outstanding obligations of the Corporation.

I. STATE OF ALASKA

On December 1, 2021 the State of Alaska entered into a settlement agreement for prior year oil and gas royalty payments as a result of the administrative and judicial appeals process. The settlement resulted in a \$66.4 million liability to the State of Alaska. Per Alaska Statutes 37.14.150 and 37.13.010, royalty payments are split between the General Fund, Public School Trust Fund and the Alaska Permanent Fund. As a result, a settlement liability was booked in the General Fund for \$32.9 million and in the Public School Trust Fund for \$332 thousand. The Alaska Permanent Fund is managed by the Alaska Permanent Fund Corporation (APFC) which issues separate financial statements that are incorporated as a blended component unit of the State. The settlement was reached after the APFC financial statement audit opinion date therefore the \$33.2 million liability was not recorded by the Alaska Permanent Fund.

NOTE 14 – PRIOR PERIOD ADJUSTMENTS AND RESTATED BEGINNING NET POSITION

PRIOR PERIOD ADJUSTMENT

Alaska Industrial Development and Export Authority

AIDEA determined a reserve account and the corresponding liability of \$23.0 million should have been reported in the prior year which resulted in cash and liabilities to be understated as of June 30, 2020. Accordingly, the amount reported for the cash and liabilities have been restated as of June 30, 2020.

Office of Information Technology

During the process of collecting FY 2021 information for the Information Services Fund, it was identified that Alaska Land Mobile Radio had an appropriation that existed in another department for FY 2020 and had expenses totaling \$6.0 million that was not reported as contributed capital in the prior year. As a result, contributed capital and net position were understated by \$6.0 million as of June 30, 2020.

RESTATED BEGINNING NET POSITION

Alaska Energy Authority

Beginning net position/fund balance was restated for an increase of \$7.39 million to record revised amounts related to the sweep activity in the due to the State of Alaska. Beginning net position/fund balance was restated for an increase of \$2.24 million to record revised amounts related to the general activity in the due to funds managed by Treasury. The following table shows the changes to the beginning net position/fund balance as of July 1, 2020, for the following:

	Major Special Revenue Fund	Statement of Activities
Fund balance/net position at June 30, 2020, as previously reported	\$ 39,891	\$ 39,891
Correction of the due to State of Alaska-sweep activity	7,388	7,388
Correction of the due to funds managed by Treasury	2,239	2,239
Fund balance/net position at July 1, 2020, as restated	<u>\$ 49,518</u>	<u>\$ 49,518</u>

Governmental Accounting Standards Board Statement No. 84

In 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying and classifying fiduciary activities of state and local governments. It describes four fiduciary funds that should be reported, if applicable: 1) pension (and other employee benefit) trust funds, 2) investment trust funds, 3) private-purpose trust funds, and 4) custodial funds, which generally should report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds, or private-purpose trust funds. Several fund changes reflected below were necessary to present the funds within the state's reporting entity according to the requirements of GASB 84.

The State of Alaska and its component units adopted the provisions of Statement 84 during FY 2021. The effects of adopting Statement 84 are reported as a restated beginning net position due to a change in accounting principle. The following funds had an effect on the beginning net position due to this change as follows (in thousands):

Fund Statements - Fiduciary Funds	<u>Custodial</u>	<u>Investment Trust</u>	<u>Totals</u>
Net Positions June 30, 2020 as reported in the 2020 ACFR	—	—	—
Implementation of GASB 84	105,340	188,428	293,768
Net positions July 1, 2020 as restated	<u>105,340</u>	<u>188,428</u>	<u>293,768</u>

**Note to Required Supplementary Information - Budgetary Reporting
For the Fiscal Year Ended June 30, 2021**

The Budgetary Comparison Schedule - General Fund presents comparisons of the original and final adopted budget with actual data on a budgetary basis. The State issues a separate legal basis budgetary report, which demonstrates legal compliance with the budget. A copy of this report may be obtained by contacting the State of Alaska, Department of Administration, Division of Finance, P.O. Box 110204, Juneau, AK 99811-0204, or may be viewed online at <http://doa.alaska.gov/dof/reports/annualreport.html>.

The legislature's legal authorization (appropriations) to incur obligations is enacted on a basis inconsistent with Generally Accepted Accounting Principles (GAAP). The reconciliation of the budgetary basis to GAAP is shown directly on the Budgetary Comparison Schedule - General Fund. Both the annual operating budget and the net continuing total budget are included.

The types of differences are as follows:

- Encumbrances are included for total authorized expenditures, although for GAAP purposes they are excluded.
- There was financial activity related to reimbursable services agreements (RSA) and interfund transactions that were recorded in the general fund and in other funds. For budgetary purposes, that activity was left in the general fund, but for GAAP purposes it was eliminated from the general fund.
- Basis differences arise when the budgetary basis of accounting differs from the basis of accounting applicable to fund type when reporting on operations in accordance with GAAP. This difference is comprised of the following in the general fund (in thousands):

Petroleum Severance Taxes and Royalties	\$ 94,278
Medical Assistance Program	(36,311)
Tobacco Tax	372
Alcohol Tax	277
Tire Tax	9
Vehicle Rental Tax	1,558
Marijuana Tax	(592)
Working Reserve	(2,427)
Total General Fund Basis Difference	\$ 57,164

Notes to required schedule

Significant methods and assumptions used in calculating the actuarially determined contribution are presented in Note 6.

In FY 2015 the legislature appropriated \$1.0 billion to the Public Employee's Retirement System's retirement funds from the Constitutional Budget Reserve Fund to help with the net pension liability.

General Fund

The General Fund is the State's primary operating fund. All public monies and revenues coming into the state treasury not specifically authorized by statute to be placed in a special fund constitute the General Fund. Unlike other funds held in the name of the State, the General Fund has become a fundamental component of our fund structure without benefit of formal creation by the Constitution or the Alaska Statutes.

There are several accounts and funds that have been created by law which are considered a part of the General Fund. These are treated as subfunds of the General Fund and are accounted for as individual funds for accounting purposes but they are included in the General Fund for annual financial reporting purposes. The following lists those funds and accounts.

- **1 Cent Response Surcharge Fund (Fund 3388)** - AS 46.080.020, AS 43.55.201 - This fund is established to deposit the surcharge of \$.01 per barrel of oil produced from each lease or property in the state, less any oil the ownership or right to which is exempt from taxation.
- **4 Cent Prevention Surcharge Fund (Fund 3389)** - AS 46.08.020, AS 43.55.300 - This fund is established to deposit the surcharge of \$.04 per barrel of oil produced from each lease or property in the state, less any oil the ownership or right to which is exempt from taxation.
- **Abandoned Motor Vehicles Fund (Fund 3223)** - AS 28.11.110 - Administered by the Department of Administration (DOA). This fund consists of money appropriated to the fund by the legislature and proceeds from the sale of abandoned motor vehicles. This fund was created to reimburse payment of services associated with impounding, advertising, and selling abandoned vehicles.
- **Adak Airport Operations Fund (Fund 1190)** - PL 101-510 - The Alaska Department of Transportation and Public Facilities (DOT&PF) and the United States Department of Defense entered into a cooperative agreement under which the State will undertake operation and maintenance of a portion of the former Naval Air Facility known as the Adak Airport. In accordance with the agreement, the Navy paid the State \$10,000,000 to operate and maintain the airport.
- **Alaska Capital Income Fund (Fund 1197)** - AS 37.05.565 - Administered by the Department of Revenue (DOR). This fund consists of money deposited to the fund from income earned on money awarded in or received as a result of State v. Amerada Hess and of appropriations to the fund. Money may be appropriated from this fund for any public purpose, including covering annual debt service and reserves for debt service on bonds authorized by state law.
- **Alaska Comprehensive Health Insurance Fund (Fund 1248)** - AS 21.55.430 - Administered by the Department of Commerce, Community, and Economic Development (DCCED). The fund is established for the purpose of payment for claims under the reimbursement program.
- **Alaska Debt Retirement Fund (Fund 1044)** - AS 37.15.011 - The fund consists of all money appropriated to it. The fund was established to help meet the General Fund debt obligations of the State and its political subdivisions, to fund lease-purchases, and to finance capital projects with money remaining after debt obligations are paid.
- **Alaska Gasline Inducement Act Reimbursement (Fund 3218)** - AS 43.90.400 - Administered by the Office of the Governor. This fund consists of money appropriated to it by the legislature for reimbursing a percentage of qualified expenditures as authorized under AS 43.90.110. These state matching contributions serve as an inducement to aid in the construction of a natural gas pipeline.
- **Alaska Higher Education Investment Fund (Fund 1226)** - AS 37.14.750 - Administered by the Department of Education and Early Development (DEED). This fund consists of appropriations, income earned on investments of fund assets, donations and money redeposited under AS 14.43.915(c). This fund is used for making grants and scholarship payments.
- **Alaska Historical Commission Receipts Account (Fund 3205)** - AS 41.35.380 - Administered by the Department of Natural Resources (DNR). Consists of all monetary gifts, grants, bequests, royalties, and other income received by the Alaska Historical Commission and is used for commission projects.

- **Alaska Marine Highway System Fund (Fund 3106)** - AS 19.65.060 - Administered by the DOT&PF, Alaska Marine Highway System. Gross revenues of the Alaska Marine Highway System are deposited into the fund. The fund also consists of legislative appropriations of amounts necessary to provide stable services to the public, after consideration of gross revenue.
- **Alaska Marine Highway System Vessel Replacement Fund (Fund 1082)** - AS 37.05.550 - Managed by the DOR. The fund consists of money appropriated to it by the legislature. The legislature may appropriate money from the fund for refurbishment of existing state ferry vessels, acquisition of additional state ferry vessels, or replacement of retired or outmoded state ferry vessels.
- **Alaska Technical and Vocational Education Program Fund (Fund 1151)** - AS 23.15.830 - Administered by the Department of Labor and Workforce Development (DOLWD). The fund consists of amounts collected under AS 23.15.835. The legislature may appropriate the annual estimated balance in the fund to the Alaska Workforce Investment Board to implement AS 23.15.820 - 23.15.850. The legislature may appropriate the lapsing balance of the fund to the Unemployment Compensation Fund established in AS 23.20.130.
- **Alaska Transportation Infrastructure Bank (Fund 3107)** - Section 350 of the National Highway System Designation Act of 1995 Federal Law - Managed by the DOT&PF. This fund was established as a pilot program with the U.S. Department of Transportation to increase infrastructure investment in the private sector. The fund has the ability to make loans and provide other forms of credit assistance to public and private entities to carry out highway construction and transit capital projects.
- **Alaska Veterans' Memorial Endowment (Fund 1181)** - AS 37.14.700(a) - Administered by the Department of Military and Veterans' Affairs (DMVA). The fund is used to maintain and develop veteran or military memorials. The fund consists of appropriations to the fund, donations to the fund, and income earned on investments of fund assets.
- **Alcohol and Other Drug Abuse Treatment and Prevention Fund (Fund 1180)** - AS 43.60.050 - Administered by the DHSS. The fund is used to establish and maintain programs for the prevention and treatment of alcoholism, drug abuse, and misuse of hazardous volatile materials and substances by inhalant abusers under AS 47.37.030.
- **Anatomical Gift Awareness Fund (Fund 1202)** - AS 13.50.160(a) - Administered by the DOA. This fund was established to promote gifts under AS 13.50 the Health Care Decisions Act and to administer the donation program established under AS 13.50.130. The fund consists of donations and fees collected to support the Donor Registry Program.
- **Art in Public Places Fund (Fund 1145)** - AS 44.27.060 - Administered by the Alaska State Council on the Arts. This fund consists of one percent of the construction cost of buildings exempt from AS 35.27. The money is used to commission or purchase art for public state-owned or leased buildings or facilities.
- **Assistive Technology Loan Guarantee Fund (Fund 3213)** - AS 23.15.125 - Administered by the DOLWD, Division of Vocational Rehabilitation (DVR). The fund consists of money appropriated to it. DVR may solicit and accept available public and private money for distribution from the fund. Money in the fund may be used to guarantee 90 percent of the principal amount of a loan or to subsidize the interest rate of a loan guaranteed by DVR for appropriate assistive technology.
- **Aviation Fuel Tax Fund (Fund 1239)** - AS 43.40.010(e) - This fund is established to deposit the 40 percent of all proceeds of the motor fuel taxes on aviation fuel shall be paid into a special aviation fuel tax account in the state general fund.
- **Building Safety Account (Fund 1172)** - AS 44.31.025 - Administered by the DOLWD. The collection of fees associated with building inspection and the issuance of certificates of fitness will be deposited in the Building Safety Account. The legislature may appropriate money from the account for necessary costs incurred by the DOLWD in the administration of AS 18.60.180 - 18.60.395, 18.60.800 - 18.60.820 and AS 18.62 relating to building safety and certificates of fitness.
- **Civil Legal Services Fund (Fund 1221)** - AS 37.05.590 - The fund consists of appropriations made to it. Annually, the legislature may only appropriate to the fund amounts deposited into the general fund of the state under AS 09.17.020(j). The legislature may make appropriations from the fund to organizations that provide civil legal services to low-income individuals.
- **Commercial Passenger Vessel Environmental Compliance Fund (Fund 1166)** - AS 46.03.482 - Administered by the Department of Environmental Conservation (DEC). Sources of income for this fund include: (1) money received by the department in payment of fees under AS 46.03.480; (2) money received as a result of a violation; (3) money appropriated to the fund by the legislature; (4) earnings on the fund. The legislature may make appropriations from this fund to the department to pay for the department's operational costs necessary to prepare reports that assess the information received by the department for the cruise ship seasons of 2000, 2001, 2002, and 2003 and for the department's operational costs necessary to carry out activities under AS 46.03.460 - 46.03.490 relating to commercial passenger vessels.

- **Commercial Vessel Passenger Tax Account (Fund 1206)** - AS 43.35.220, AS 43.52.230(a) - Administered by the DOR. The fund consists of proceeds from the tax on travel on commercial passenger vessels providing overnight accommodations in the state's marine water, and proceeds on gambling activities on large passenger vessels in the state. Money appropriated from this fund can be used for state-owned harbor facilities, other services to properly provide for vessel or watercraft visits, to enhance the safety and efficiency of interstate and foreign commerce, and such other lawful purposes as determined by the legislature.
- **Community Assistance Fund (Fund 3220)** - AS 29.60.850 - Administered by the DCCED. The Fund provides community revenue sharing payments to municipalities, reserves, and communities for any public purpose. The fund consists of appropriations. Income earned on money in the fund may be appropriated to the fund. The legislature may appropriate 20 percent of the money received by the State during the previous calendar year under AS 43.55.011(g).
- **Constitutional Budget Reserve Fund (Fund 3100)** - Alaska Constitution, Article IX, Section 17; AS 37.13 - Administered by the DOR. All money received by the State as a result of the termination of administrative proceedings or litigation in a state or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property are deposited in the fund, except for the share of those proceeds that are deposited into the Alaska Permanent Fund.
- **Crime Victims Compensation Fund (Fund 1220)** - AS 18.67.162 - Administered by the Department of Public Safety (DPS), Crime Victims Compensation Board. This fund consists of all money appropriated to it, including donations, recoveries of or reimbursements of awards made from the fund and investment income. The purpose of the fund is to facilitate and permit the payment of compensation to innocent persons as a result of certain serious crimes.
- **Derelict Vessel Prevention Program Fund (Fund 3391)** - AS 30.30.096 - Administered by the Department of Transportation and Public Facilities. The fund consists of money appropriated through donations, vessel sales, civil penalties, income from the fund and other program receipts, and boat registration fees. The purpose of the fund is to allow for reimbursing state and local governments for expenses related to removing derelict vessels from state and municipality property and waters; and developing, implementing, and subsidizing incentive programs and projects intended for derelict vessel prevention.
- **Disaster Relief Fund (Fund 1116)** - AS 26.23.300 - Administered by the Office of the Governor and the DMVA. This fund provides resources to alleviate the effects of disasters wherever and whenever they may occur in the State.
- **Dividend Raffle Fund (Fund 1257)** - AS 43.23.230 - Administered by the Department of Revenue. This fund consists of annual donations of part or all of an applicant's permanent fund dividend for educational purposes and to participate in the permanent fund dividend raffle. Donations are appropriated as follows: 25 percent to the Education Endowment Fund; 25 percent to the Dividend Raffle Fund; and 50 percent to the Department of Education and Early Development for supplemental grant distribution to school districts.
- **Donated Commodity Fee Fund (Fund 1014)** - USC 7 CFR, Part 250 - Administered by the DEED. This fund consists of monies from federal agencies and recipients of goods. It is intended to cover the cost of the distribution of federal surplus food to schools, childcare institutions, nonprofit camps for children, charitable institutions for minors, nutrition programs for the elderly, and assistance to needy persons.
- **Education Endowment Fund (Fund 1256)** - AS 43.23.220 - Administered by the Department of Revenue. The fund consists of a percentage of the money donated through the Dividend Raffle Fund and other appropriated money. The purpose of the fund is to allow for supplemental grant distribution to school districts.
- **Educational Facilities Maintenance and Construction Fund (Fund 1083)** - AS 37.05.560 - Administered by the DEED. Money in the fund may be appropriated to finance the design, construction, and maintenance of public school facilities and for maintenance of the University of Alaska facilities.
- **Election Fund (Fund 1185)** - Federal H.R. 3295, "The Help America Vote Act" - Administered by the Office of the Lieutenant Governor, Division of Elections. Funds will be used for election administration improvements, for replacement of voting equipment, to improve accessibility for individuals with disabilities, and to provide alternative language accessibility.
- **Employment Assistance and Training Program Account (Fund 1054)** - AS 23.15.625 - Administered by the DOLWD. The account consists of amounts collected under the provision of AS 23.15.630. The annual estimated balance in the account may be appropriated by the legislature to the department to implement AS 23.15.620 - 23.15.660. The legislature may appropriate the lapsing balance of the account to the Unemployment Compensation Fund established in AS 23.20.130.

- **FHWA - Airspace Leases Fund (Fund 3207)** - Section 156 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 requires that the State shall charge fair market value for the sale, use, or lease rentals of right-of-way airspace and that the federal share of these net incomes be used by the State for highway projects. This fund accounts for those revenues. The revenues are available for appropriation by the legislature for highway projects.
- **FICA Administration Fund (Fund 1023)** - AS 39.30.050 - Administered by the DOA. The fund consists of the pro rata share of expenses incurred in the administration of AS 39.30.010 - 39.30.080 and collected from participating political subdivisions and from the State.
- **Fisheries Disaster Fund (Fund 3216)** - PL 108-7, Sec. 2, Division N, Title V - Fisheries Disasters, Sec. 501(a) - Administered by the Office of the Governor. \$35,000,000 shall be made available as a direct lump sum payment to the State of Alaska to make payments to persons or entities that have experienced significant economic hardship. Funds in Alaska shall be used to provide personal assistance; assistance for small businesses including fishermen, fish processors, and related business serving the fishing industry; assistance for local borough governments adversely affected by reductions in fish landing fees and other fishing-related revenue; and product development and marketing.
- **Fuel Emergency Fund (Fund 3206)** - AS 26.23.400 - Administered by the Office of the Governor. This fund is used when the governor determines that a shortage of fuel is sufficiently severe to justify state assistance to make grants to a city or borough, or to a village or unincorporated community to purchase emergency supplies of fuel.
- **Fund for the Improvement of School Performance (Fund 3210)** - AS 14.03.125 - Administered by the DEED. It is used to make grants to a district located in the State for the purpose of improving school performance.
- **Major Maintenance Grant Fund (Fund 1193)** - AS 14.11.007 - Administered by the DEED. The fund is used to make grants for the cost of school major maintenance.
- **Marijuana Education and Treatment Fund (Fund 1254)** - AS 43.61.010. Administered by the Department of Administration. The fund consists of 25 percent of money collected under the marijuana tax. The purpose of the fund is to provide money for comprehensive marijuana education and treatment programs.
- **Memorial Education Revolving Loan Fund (Fund 3226)** - AS 14.43.255 - Administered by the DEED. The fund was created to pay tribute to the memory of Alaskans who, by example of their lives, or by their distinguished contribution and service to the State, their community, or their profession, exemplified the best that is the challenge of "The Great Land." The funds shall be used to provide education loans to students selected under AS 14.43.250-325.
- **Municipal Capital Project Matching Grant Fund (Fund 1087)** - AS 37.06.010 - Administered by the DCCED. The money in the fund is held by the department in custody for each municipality. Each fiscal year the department allocates individual grants for each municipality.
- **Municipal Harbor Facility Grant Fund (Fund 3217)** - AS 29.60.800 - Administered by the DOT&PF. The money appropriated to the fund may be expended by the department for municipal harbor grants.
- **Oil and Gas Tax Credit Fund (Fund 3219)** - AS 43.55.028 - Administered by the DOR. The purpose of this fund is to purchase certain transferable tax credit certificates issued under AS 43.55.023 and certain production tax credit certificates issued under AS 43.55.025. The fund consists of money appropriated to it, including any appropriation of the percentage provided under (c) of this section of all revenue from taxes levied by AS 43.55.011 that is not required to be deposited in the constitutional budget reserve fund established in art. IX, sec. 17 (a), Constitution of the State of Alaska; and earnings on the fund.
- **Oil and Hazardous Substance Release Prevention and Response (Fund 1052 and 3208)** - AS 46.08.010 - Administered by the DEC. This fund is composed of two accounts: (1) the prevention account and (2) the response account. The fund consists of appropriations by the legislature of money from private donors, money recovered from parties responsible for cleanup of oil or a hazardous substance, and fines, penalties, or damages recovered under Chapter 46. This money is for the containment and cleanup of oil or a hazardous substance; monitoring, assessing, investigating, and evaluating the release or threatened release of oil or a hazardous substance; and recovery of the cost to the State of the containment and cleanup of oil or a hazardous substance.
- **Oil and Hazardous Substance Release Prevention Mitigation Account (Fund 3211)** - AS 46.08.020(b) - Administered by the DEC. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance; and fines, penalties, or damages recovered under AS 46.08.005-46.08.080. The legislature may appropriate the amount received in this account (during the preceding calendar year) to the prevention account in the Oil and Hazardous Substance Release Prevention and Response Fund.

- **Oil and Hazardous Substance Release Response Mitigation Account (Fund 3212)** - AS 46.08.025(b) - Administered by the DEC. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance at a specific site for which the State expended money from the former oil and hazardous substance release response fund before October 2, 1994, or for which the State expended money from the response account. The legislature may appropriate the amount received in this account (during the preceding calendar year) to the response account in the Oil and Hazardous Substance Release Prevention and Response Fund.
- **Originator Surety Fund (Fund 3221)** - AS 06.60.500 - Administered by the DCCED. This fund consists of payments made by originator licensees under AS 06.60.550, filing fees retained under AS 06.60.620, income earned on the investment of the money in the fund, and money deposited in the fund by the department under AS 06.60.740.
- **Peace Officer and Firefighter Survivor's Fund (Fund 3387)** - AS 39.60.010 - This fund is established within the DPS for the purpose of paying medical insurance premiums for an eligible surviving spouse or dependent child of a peace officer or a firefighter.
- **Permanent Fund Dividend Fund (Fund 1050)** - AS 43.23.045 - Administered by the DOR. This fund consists of 50 percent of the income earned by the Alaska Permanent Fund during the fiscal year ending on June 30 that is paid out to eligible Alaska residents.
- **Public Education Fund (Fund 3201)** - AS 14.17.300 - Administered by the DEED. This account may be expended only in aid of public schools and for centralized correspondence study programs under Chapter 17 - Financing of Public Schools, and for transportation of pupils under AS 14.09.010.
- **Railbelt Energy Fund (Fund 1012)** - AS 37.05.520 - Managed by the DOR. The legislature may appropriate money from the fund for programs, projects, and other expenditures to assist in meeting Railbelt energy needs, including projects for retrofitting state-owned buildings and facilities for energy conservation.
- **Randolph-Sheppard Small Business Fund (Fund 1117)** - AS 23.15.130, 20 USC 107-107(f) - Administered by the DOLWD. This fund consists of receipts from vending facilities on federal properties and is used to aid only blind licensees in operating vending machine facilities.
- **Real Estate Recovery Fund (Fund 1040)** - AS 08.88.450 - Administered by the DCCED. This fund is composed of payments made by real estate licensees under AS 08.88.455 and filing fees under AS 08.88.460, income earned on investment of the money in the fund, and money deposited in the fund under AS 08.88.450(c). Amounts in the fund may be appropriated for claims against the fund, for hearing and legal expenses directly related to fund operations and claims, and real estate educational purposes.
- **Recidivism Reduction Fund (Fund 1246)** - AS 43.61.010(c) - Administered by the Department of Administration. This fund is established to deposit 50 percent of the tax collected under the marijuana tax into this fund for recidivism reduction programs.
- **Regional Educational Attendance Area School Fund (Fund 1222)** - AS 14.11.030 - Administered by the DEED for the purpose of funding costs of school construction in regional educational attendance areas.
- **School Construction Grant Fund (Fund 1080)** - AS 14.11.005 - Administered by the DEED. The fund shall be used to make grants for the costs of school construction. Legislative appropriations for school construction shall be deposited in the fund and the proceeds from the sale of general obligation bonds for school construction may be deposited in the fund.
- **School Trust Land Sales (Fund 3215)** - Established per attorney general memo regarding Public School Trust Litigation. Used to separately account for income from former public school trust land, the status of which is in litigation.
- **State Insurance Catastrophe Reserve Account (Fund 3209)** - AS 37.05.289 - Administered by the DOA. Assets of the account may be used to obtain insurance, to establish reserves for the self-insurance program, and to satisfy claims or judgments arising under the program.
- **State Land Disposal Income Fund (Fund 1153)** - AS 38.04.022(a) - Administered by the DNR. The fund consists of revenue from the state land disposal program.
- **State Land Reforestation Fund (Fund 1019)** - AS 41.17.300 - Administered by the DNR. The money in the state land reforestation fund may be used only for the reforestation of state land, including site preparation; seed and seedling acquisition and cultivation; planting and other reforestation measures; timber stand improvement; and the development of materials and techniques for the reforestation of state land.

- **Statutory Budget Reserve Fund (Fund 3200)** - AS 37.05.540 - Administered by the DOR. This fund consists of appropriations to the fund. Money received by the State that is subject to the appropriation limit under AS 37.05.540(b) and that exceeds that limit may be appropriated to the budget reserve fund.
- **Surplus Property Revolving Fund (Fund 1033)** - AS 37.05.500(a)(2), AS 44.68.130 - Administered by the DOA. This fund is to account for revenues from the users or purchasers of excess federal property that the State has acquired and is used to pay the administrative expenses incurred in managing this property.
- **Tobacco Use Education and Cessation Fund (Fund 1168)** - AS 37.05.580 - Administered by the DHSS. This fund consists of 20 percent of the annual revenue derived from the settlement of State of Alaska v. Philip Morris, Incorporated, et al, No. 1JU-97-915 CI (Alaska Super. 1997). The purpose of this fund is to provide a source to finance the comprehensive smoking education, tobacco use prevention, and tobacco control program authorized by AS 44.29.020(a)(15).
- **Training and Building Fund (Fund 1049)** - AS 23.20.130(d) - Administered by the DOLWD. This fund consists of interest and penalties for failure to file timely reports and pay contributions to the Unemployment Compensation Fund. It may be used for the administration of the Employment Security Act when federal funds are not available and for the acquisition of land and buildings for the purpose of providing office space for the department.
- **Trauma Care Fund (Fund 3222)** - AS 18.08.085 - Administered by the DHSS. This fund consists of money appropriated to it by the legislature including donations, recoveries of or reimbursements for awards made from the fund and investment income. The purpose of this fund is to compensate certified trauma centers in the state that receive a special designation under AS 18.08.082(c) and that achieve or maintain the highest appropriate level of trauma care designation.
- **Unincorporated Community Capital Project Matching Grant Fund (Fund 1088)** - AS 37.06.020 - Administered by the DCCED. This fund was created for unincorporated communities to acquire or improve an asset with an anticipated life exceeding one year and includes land acquisition, construction, repair or structural improvement of a facility, engineering and design for a facility, and acquisition or repair of equipment.
- **Vaccine Assessment (Fund 1238)** - AS 18.09.230 - Administered by the DHSS. The fund is established for the purpose of monitoring, purchasing, and distributing included vaccines to providers approved by the department who agree to provide the vaccines to state residents under terms consistent with the program and state and federal law.
- **Vocational Rehabilitation Small Business Enterprise Revolving Fund (Fund 1237)** - AS 23.15.130 - Administered by the DOLWD, DVR. This fund consists of receipts from the net proceeds of vending facilities on public property. The annual estimated receipts of the fund may be used by the legislature to make appropriations to the department to aid licensees in operating vending machine facilities.
- **Workers' Compensation Benefits Guaranty Fund (Fund 1203)** - AS 23.30.082 - Administered by the DOLWD. This fund is composed of civil penalty payments made by employers under AS 23.30.080, income earned on investment of the money in the fund, money deposited in the fund, and appropriations to the fund. The fund may be appropriated for claims against the fund, for expenses directly related to fund operations and claims, and for legal expenses.
- **Workers' Safety and Compensation Administration Account (Fund 1157)** - AS 23.05.067 - Administered by the DOLWD. This fund is used to account for the annual service fees collected from employers for the administrative expenses of the State for workers' safety programs under AS 18.60 and the workers' compensation program under AS 23.30.

Permanent Funds

Permanent funds account for permanent endowments created when the principal amount of a contribution must be invested and preserved but earnings on amounts invested can be used for public purpose. Following are the State's permanent funds.

- **Alaska Mental Health Trust Authority (Fund 3146)** - AS 47.30.011 - This is a Discretely Presented Component Unit. The fund description is contained in the Notes to the Basic Financial Statements, Note 1A. Statements are included in the Nonmajor Component Units section.
- **Alaska Permanent Fund (Fund 3258)** - Alaska Constitution, Article IX, Section 15 - Administered by the Alaska Permanent Fund Corporation. The Alaska Constitution provides that at least 25 percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in the Alaska Permanent Fund. This is a major fund and included in Statements 1.11, 1.13, and 3.23.
- **Public School Trust Fund (Fund 3121)** - AS 37.14.110 - Administered by the Department of Revenue. The principal consists of the balance of the public school permanent fund on July 1, 1978, and one-half of one percent of the receipts derived from the management of state land (AS 34.14.150). The net income of the fund may be appropriated only for the support of the state public school program. This is a non-major fund and is included in Statements 3.11, 3.12, and 3.23.

Nonmajor Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Additionally, special revenue funds account for the General Fund of legally separate entities (component units) that are blended with the government. The following are the State's special revenue funds.

- **Alaska Housing Capital Corporation (AHCC) (Fund 1213)** - AS 18.56.086 - Subsidiary of Alaska Housing Finance Corporation (AHFC). The purpose of this fund is to fund capital projects, including financing expenses. AHCC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose.
- **Alaska State Council on the Arts (Fund 3392)** - AS 44.27.040 - The fund is established to accept gifts, contributions, and bequests of unrestricted funds from individuals, foundations, corporations, and other organizations or institutions for the purpose of furthering the strategic objectives of the council's programs. The council is the official agency of this state to receive and disburse funds made available by the National Endowment for the Arts.
- **Alyeska Settlement Trust Fund (Fund 3110)** - Consent Decree between the United States, the State of Alaska, and Alyeska Pipeline Service Company - Administered by the Department of Revenue (DOR). The fund was created for the purpose of receiving, holding, and disbursing settlement proceeds from Alyeska under the Consent Decree. The funds are to be used to clean up oil spills and for other projects specified in the Consent Decree.
- **Clean Air Protection Fund (Fund 1093)** - AS 46.14.260 and Federal Clean Air Act - Administered by the Department of Environmental Conservation (DEC). The fund was established to collect and account for permit fees under the Federal Clean Air Act. Monies collected may only be used to cover reasonable costs required to support the permit program.
- **Exxon Valdez Oil Spill Restoration Fund (Fund 3109)** - United States District Court judgment in the criminal case U.S. v. Exxon Shipping Company and Exxon Corporation resulted in \$50 million restitution being received by the State to be used exclusively for restoration projects related to the Exxon Valdez oil spill. Administered by the DOR.
- **Exxon Valdez Settlement Trust Fund (Fund 3114)** - AS 37.14.400 - Memorandum of Agreement and Consent Decree between the United States (U.S.) and the State of Alaska to maximize the funds available for restoration of natural resources and to resolve the governments' claims against one another relating to the Exxon Valdez Oil Spill, which occurred on the night of March 23-24, 1989, in Prince William Sound, Alaska. The funds are administered by the trustee council which consists of the Secretaries of the U.S. Departments of the Interior and Agriculture and the Administrator of the National Oceanic and Atmospheric Administration (the federal trustees) and the Commissioners of the Departments of Environmental Conservation and Fish and Game and the Attorney General of the State of Alaska (State trustees). The trustee council determines which projects shall be financed by monies from the trust. The Exxon Valdez Settlement Trust Fund established in the state accounting system accounts for those monies transferred to the State for projects approved by the trustee council. These projects are for the purpose of restoring, replacing, enhancing, rehabilitating, or acquiring the equivalent of natural resources injured, lost, or destroyed as a result of the oil spill.
- **Fish and Game Fund (Fund 3108)** - AS 16.05.100 - Administered by the Department of Fish and Game (DF&G). Statutory revenue in this fund can only be used for the purpose of protection, propagation, investigation, and restoration of sport fish and game resources and the expenses of administering the sport fish and wildlife divisions of the DF&G. These monies are received from the sale of state sport fishing and hunting licenses and special permits; sale of furs, skins, and specimens taken by predator hunters; money received in settlement of a claim or loss caused by damage to fish and game resources; and donations. In addition to the statutory revenues, federal revenues, crewmember license fees, and other sources are appropriated to the fund for purposes related to fish and wildlife.
- **Fishermen's Fund (Fund 1032)** - AS 23.35.060 - Administered by the Department of Labor and Workforce Development (DOLWD). This fund is composed of 39 percent of the money derived by the State from all commercial fishermen's licenses and money appropriated by the legislature to pay for emergency treatment, transportation, medical care, and hospitalization of injured or disabled commercial fishermen.

- **Mine Reclamation Trust Fund (Fund 3111)** - AS 37.14.800 - Administered by the Department of Natural Resources (DNR). The principal and earnings of the fund shall be held by the State for the purpose of protecting the public interest in reclaiming mine sites in the State. The fund is composed of the mine reclamation trust fund income account and the mine reclamation trust fund operating account. The fund's income account consists of payments and deposits made by miners to satisfy the miners' reclamation bonding or financial assurance obligation under AS 27.19.040 or AS 27.21.160 and earnings on the income account. The mine reclamation trust fund operating account consists of appropriations by the legislature of the annual balance of the mine reclamation trust fund income account and any earnings on those appropriations while in the operating account.
- **National Petroleum Reserve (NPR) Fund (Fund 1063)** - AS 37.05.530 - The commissioner of the DOR is responsible for the management of the NPR fund. The Department of Commerce, Community and Economic Development administers the NPR grant program within the fund. This fund consists of all money disbursed to the State by the federal government under 42 USC 6506a and former USC 6508 since December 12, 1980, less the amount deposited in the General Fund and expended by the State by General Fund appropriations before June 9, 1984. The monies are spent by municipalities to alleviate the impact from oil and gas development within the National Petroleum Reserve.
- **Northern Tobacco Securitization Corporation (NTSC) Fund (Fund 3242)** - AS 18.56.086 - Subsidiary of AHFC. The purpose of this fund is to purchase Tobacco Settlement Revenues from the State in order to provide financing of construction of public school facilities, facilities for the University of Alaska, public housing facilities of AHFC and facilities for ports and harbors. NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose.
- **Reclamation Bonding Pool Fund (Fund 3234)** - AS 27.19.040 - Administered by the DNR. The fund is a statewide bonding pool for mining operations as an alternative to individual financial assurance. A miner participating in the bonding pool contributes a nonrefundable annual fee and an initial deposit that is refunded upon satisfactory completion of the approved reclamation plan. If a miner violates the reclamation plan, the financial assurance is forfeited and deposited in the fund. Income and other earnings on the bonding pool are also added to the fund. The reclamation and administrative costs and forfeited financial assurances are used for reclamation of the mining sites subject to forfeiture.
- **School Fund (Fund 1030)** - AS 43.50.140 - Administered by the DOR and the Department of Education and Early Development. This fund receives the revenue from the payment of cigarette taxes, fees, and penalties. It can only be used to rehabilitate, construct, and repair the State's school facilities, and for costs of insurance on buildings comprising school facilities.
- **Second Injury Fund (Fund 1031)** - AS 23.30.040 - Administered by the DOLWD. The fund consists of contributions from employers collected under AS 23.30.040(b) and (c), and civil penalties collected under AS 23.30.155(c). Money in the fund may only be paid for the benefit of those persons entitled to payment of benefits from the second injury fund under AS 23.30.

Nonmajor Capital Projects Funds

The capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

The following are the State's capital projects funds.

- **2008 Transportation Project Fund (GO Bonds) (Fund 3243)** - Chapter 30, SLA 2008 - This fund consists of the proceeds from the sale of general obligation bonds, and is to be used for the purpose of paying the cost of state transportation projects.
- **2010 Education Project Fund (GO Bonds) (Fund 3116)** - Chapter 95, SLA 2010 - This fund consists of the proceeds from the sale of general obligation bonds, and is to be used for the purpose of paying the cost of state education projects.
- **2012 Transportation Project Fund (GO Bonds) (Fund 3154)** - Chapter 18, SLA 2012 - This fund consists of the proceeds from the sale of general obligation bonds, and is to be used for the purpose of paying the cost of state transportation projects.

Nonmajor Enterprise Funds

Enterprise funds account for business-like state activities that provide goods and/or services to the public and are financed primarily through user charges. The following are the State's non-major enterprise funds.

COMMERCIAL AND ENERGY ASSISTANCE ENTERPRISE FUNDS

- **Alaska Capstone Avionics Revolving Loan Fund (Fund 1209)** - AS 44.33.655 - Administered by the Department of Commerce, Community, and Economic Development (DCCED). The purpose of this fund is to provide low interest loans to qualified applicants for the purpose of purchasing and installing capstone avionics equipment, to increase the safety of air carrier, air taxi, and general aviation intrastate air transportation.
- **Alaska Microloan Revolving Loan Fund (Fund 1227)** - AS 44.33.950 - Administered by the DCCED. The purpose of this fund is to make loans to be used for working capital, equipment, construction or other commercial purposes by a business located in the state.
- **Alternative Energy Conservation Revolving Loan Fund (Fund 1071)** - AS 45.88.010 - Administered by the DCCED. This fund consists of monies appropriated by the legislature for the purpose of developing energy production utilizing one or more alternative energy systems and to purchase, construct, and install energy conservation improvements in commercial buildings.
- **Bulk Fuel Revolving Loan Fund (Fund 3385)** - AS 42.45.250 - Administered by the DCCED. The purpose of this fund is to assist communities, utilities providing power in communities, fuel retailers, and other persons in communities in purchasing bulk fuel to generate power or supply the public with fuel for use in communities.
- **Commercial Charter Fisheries Revolving Loan Fund (Fund 1223)** - AS 16.10.801 - Administered by the DCCED. The purpose of this fund is to make loans for the purchase of charter halibut permits and to refinance debt obligations for the purchase of halibut fishing vessels or gear.
- **Commercial Fishing Revolving Loan Fund (Fund 1036)** - AS 16.10.340 - Administered by the DCCED. The purpose of this fund is to promote the development and continued maintenance of commercial fishing gear and vessels by means of long-term, low interest loans.
- **Fisheries Enhancement Revolving Loan Fund (Fund 1070)** - AS 16.10.505 - Administered by the DCCED. The purpose of this fund is to promote the enhancement of the State's fisheries by means of long-term, low interest loans for hatchery planning, construction, and operation.
- **Mariculture Revolving Loan Fund (Fund 1224)** - AS 16.10.900 - Administered by the DCCED. The purpose of this fund is to make loans to eligible applicants for the planning, construction and operation of a mariculture business.
- **Mining Revolving Loan Fund (Fund 1067)** - AS 27.09.010 - Administered by the DCCED. This fund consists of money appropriated by the legislature for loans to underwrite advanced mineral exploration, development, or mining.

OTHER AGENCIES ENTERPRISE FUNDS

- **Agricultural Revolving Loan Fund (Fund 1021)** - AS 03.10.040 - Administered by the Department of Natural Resources. The purpose of this fund is to promote the development of agriculture as an industry throughout the State by means of long-term, low interest loans.
- **Alaska Clean Water Fund (Fund 1075)** - AS 46.03.032 - Administered by the Department of Environmental Conservation (DEC). The fund consists of money appropriated by the legislature to meet federal matching requirements for public water and sewage treatment facilities and to provide financial assistance for this purpose.
- **Alaska Drinking Water Fund (Fund 3129)** - AS 46.03.036 - Administered by the DEC. The fund consists of federal capitalization grants. The capitalization grants are divided between two purposes: (1) part of each capitalization grant is to be deposited into the fund for providing loans for drinking water infrastructure projects; (2) the other part is to be used or set aside for non-project activities.
- **Alcoholism and Drug Abuse Revolving Loan Fund (Fund 1013)** - AS 44.29.210 - Administered by the Department of Health and Social Services. This fund is required under 42 U.S.C. 300x-25 to qualify the State to receive block grant money from the United States Department of Health and Human Services under 42 U.S.C. 300x-21. Money in the fund may be used to make loans to private nonprofit organizations for the cost of establishing programs to help pay the living expenses of individuals recovering from alcohol or drug abuse who may reside in group homes.
- **Retiree Health (Fund 3133)** – AS 39.35.535, AS 14.25.168, AS 22.25.090 – Administered by the Department of Administration. The State has a self-insurance program to provide health care coverage for retirees covered by the retirement programs administered by the State. This fund consists of accumulated assets held for the purpose of paying health care claims for retirees and accounts for transactions pertaining to the self-insurance program.

Internal Service Funds

Internal service funds account for the operations of state agencies that render services to other state agencies, institutions, or other governmental units on a cost-reimbursement basis. The following are the State's internal service funds.

- **Alaska Public Building Fund (Fund 1147)** - AS 37.05.570 - Administered by the Department of Administration (DOA). Effective July 1, 2000, the DOA began to manage the maintenance and operations of ten state owned buildings and two parking facilities. The goals are to manage these buildings, in good order and a functional state, while providing cost effective and efficient space for state agencies and private tenants (until private tenant leases expire and space is converted to state agency use), to retain maximum value of these state assets, and to maximize revenue from non-general fund sources.
- **Group Health and Life Benefits Fund (Fund 1097)** - AS 39.30.095 - Administered by the DOA. Effective July 1, 1997, the State began a self-insurance program to provide health care coverage for state employees covered by the retirement programs administered by the State. This fund consists of accumulated assets held for the purpose of paying health care claims for employees and accounts for transactions pertaining to the self-insurance program.
- **Highways Equipment Working Capital Fund (Fund 1026)** - AS 44.68.210 - Administered by the Department of Transportation and Public Facilities. This fund is used for necessary expenses resulting from the centralization of equipment maintenance and for the operation of supply depots.
- **Information Services Fund (Fund 1081)** - AS 44.21.045 - During the 1990 Legislative Session, the Legislature established the Information Services Fund (ISF) in the DOA and classified it as an internal service fund. The ISF is used to account for the operation and financing of computing and telecommunication services for the State of Alaska. Included in these services is operation of the State's mainframe computer; the statewide consolidated data network; the telephone system in Juneau, Anchorage, and Fairbanks; and the microwave communications infrastructure.

Fiduciary Funds

Trust and custodial funds are fiduciary in nature and are maintained to account for assets held by the State acting in the capacity as a trustee or custodian. The following are the State's trust and custodial funds.

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

- **Alaska National Guard and Alaska Naval Militia Retirement System (Fund 1045)** - AS 26.05.222 - Administered by the Department of Administration (DOA). This fund consists of accumulated assets held for the purpose of paying benefits provided by the Alaska National Guard and Alaska Naval Militia Retirement System.
- **Deferred Compensation (Fund 3294)** - AS 39.45.010 - Administered by the DOA. This fund consists of compensation deferred by employees under the State's deferred compensation plan allowed under Section 457 of the Internal Revenue Code.
- **Judicial Retirement System (Fund 3134)** - AS 22.25.048 - Administered by the DOA. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Judicial Retirement System.
- **Public Employees' Retirement System (Fund 3135)** - AS 39.35.095-680, AS 39.35.700-990 - Administered by the DOA. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Public Employees' Retirement System.
- **Supplemental Benefits System (Fund 3141)** - AS 39.30.150 - Administered by the DOA. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Supplemental Benefits System.
- **Teachers' Retirement System (Fund 3138)** - AS 14.25.009-220, AS 14.25.310-590 - Administered by the DOA. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Teachers' Retirement System.

CUSTODIAL FUNDS

- **Deposits, Suspense, and Miscellaneous (Fund 3131)** - Administered by the DOA. This fund is used to account for refundable deposits and other receipts held in trust until the State has the right to transfer them to operating funds, or until there is a proper authorization to disburse them directly to others.
- **Impact Aid (Fund 3289)** - PL 103-382 - Administered by the Department of Education and Early Development. These monies are received from the federal government and are distributed to the local school districts. The funds provide financial assistance to local school districts where enrollment or availability of revenue is adversely affected by federal activities.
- **Public Advocacy Trust Fund (Fund 3288)** - AS 44.21.410 - Administered by the DOA. The Public Advocacy Trust Fund holds in trust funds for individuals under the guardianship of the Office of Public Advocacy.
- **Wage and Hour (Fund 3287)** - AS 23.05.220 - Administered by the Department of Labor and Workforce Development. This fund was established to account for receipts and disbursements for wage and hour violations.

INVESTMENT TRUST FUND

- **Exxon Valdez Oil Spill Investment Trust Fund (Fund 3132)** - PL 106-113 - Administered by the Exxon Valdez Oil Spill Trustee Council. Consists of assets of a joint federal/state trust fund established to receive, hold, disburse, and manage all natural resource damage recoveries obtained by the United States government and the State of Alaska under the Clean Water Act, arising out of the Exxon Valdez oil spill.

Nonmajor Component Units

The nonmajor component units listed are significant separate legal entities that are discretely presented in the State's financial statements. The inclusion of component units in the State's financial statements reflects the State's financial accountability for these entities.

- **Alaska Aerospace Corporation (AAC)** - AS 26.27.010 - is a public corporation of the State located for administrative purposes within the Department of Military and Veterans Affairs. The purpose of AAC is to allow the State to take a lead role in the exploration and development of space, to enhance human and economic development, and to provide a unified direction for space-related economic growth, education and research development, and tourism related activities.
- **Alaska Gasline Development Corporation (AGDC)** - AS 31.25.010 - is a public corporation and government instrumentality located for administrative purposes in the Department of Commerce, Community, and Economic Development (DCCED), but having a legal existence independent of and separate from the state. Sec. 31.25.005. The purpose of AGDC is to develop natural gas pipelines, an Alaska liquefied natural gas project, and other transportation mechanisms to deliver natural gas in-state for the maximum benefit of the people of the state; and to assist the state departments to maximize the value of the state's royalty natural gas, natural gas delivered to the state as payment of tax, and other natural gas received by the state.
- **Alaska Mental Health Trust Authority (AMHTA)** - AS 47.30.011 - is established as a public corporation of the State within the Department of Revenue (DOR). The purpose of AMHTA is to ensure an integrated comprehensive mental health program, by administering the trust established under the Alaska Mental Health Enabling Act of 1956.
- **Alaska Municipal Bond Bank Authority (AMBBA)** - AS 44.85.020 - is a public corporation and an instrumentality of the State within the DOR, but with a legal existence independent of and separate from the State. AMBBA was created for the purpose of making available to municipalities within the State, monies to finance their capital projects or for other authorized purposes by means of issuance of bonds by AMBBA and use of proceeds from such bonds to purchase from the municipalities their general obligation and revenue bonds.
- **Alaska Railroad Corporation (ARRC)** - AS 42.40.010 - is a public corporation and an instrumentality of the State within the DCCED, but with a legal existence independent of and separate from the State. ARRC was created to own and operate the railroad and manage its rail, industrial, port, and other properties.
- **Alaska Seafood Marketing Institute (ASMI)** - AS 16.51.010 - is a public corporation and an instrumentality of the State within the DCCED, but with a legal existence independent of and separate from the State. The purpose of ASMI is to promote all species of seafood and their by-products harvested in Alaska for sale, and develop market-oriented quality specifications.
- **Alaska Student Loan Corporation (ASLC)** - AS 14.42.100 - is a public corporation and government instrumentality within the Department of Education and Early Development, but having a legal existence independent of and separate from the State. The purpose of ASLC is to improve higher educational opportunities for residents of the State.

STATE OF ALASKA
ANNUAL COMPREHENSIVE FINANCIAL REPORT
For the Fiscal Year Ended June 30, 2021

STATISTICAL SECTION

This part of the State of Alaska's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the state's overall financial health.

	<u>Page</u>
Financial Trends (Schedules A-1 through A-5) These schedules contain trend information to help the reader understand how the state's financial performance and well-being have changed over time.	287
Revenue Capacity (Schedules B-1 through B-3) These schedules contain information to help the reader assess the state's most significant revenue sources: investment income, oil severance taxes, and oil royalties.	295
Debt Capacity (Schedules C-1 and C-2) These schedules present information to help the reader assess the affordability of the state's current levels of outstanding debt and the state's ability to issue additional debt in the future. The state has no statutory limit on the amount of general obligation debt that may be authorized.	300
Demographic and Economic Information (Schedules D-1 and D-2) These schedules offer demographic and economic indicators to help the reader understand the environment within which the state's financial activities take place.	302
Operating Information (Schedules E-1 through E-3) These schedules contain service and infrastructure data to help the reader understand how the information in the state's financial report relates to the services the state provides and the activities it performs.	305

SOURCES:

Unless otherwise noted, the information in these schedules is derived from the financial statements presented in the annual comprehensive financial reports for the relevant years.

SOURCE:

Alaska Permanent Fund Corporation

NOTES:

¹ The Alaska Permanent Fund is made up of two parts: non-expendable and assigned assets. The non-expendable portion of the fund is invested in perpetuity and cannot be spent without amending the state constitution through a majority vote of the people.

² Committed fund assets are realized earnings of the Fund which have been designated by appropriation for a specific purpose and meet other criteria as defined by Generally Accepted Accounting Principles. During FY 2018, legislation was passed which provides for a transfer from the Earnings Reserve Account to the General Fund for the payment of unrestricted General Fund expenditures, including the dividend. The transfer occurred in FY 2019 in the amount of \$2.7 billion.

³ Assigned fund assets are defined in Alaska statute as the accumulation of cash flow and net realized gains from investments and are subject to appropriation by the Legislature. Historically, the assigned fund assets have primarily been used to distribute portion of realized earnings to the citizens of Alaska and to protect the nonexpendable fund assets from inflation. The assigned fund assets are where all income available for appropriation is recorded, retained and reinvested until distributed in accordance with State of Alaska law. The assigned fund assets shown above have already been reduced by the annual dividend and inflation proofing transfer each year. The nonexpendable and assigned fund assets are commingled for investment purposes.

⁴ Returns are shown by major asset class only and are unaudited.

REVENUE BASE (Last Ten Fiscal Years)

Fiscal Year	Oil Severance Taxes	
	Well-Head Value*	Weighted Average Severance Tax Rate **
2012	\$104.28 per barrel	42.7%
2013	\$97.81 per barrel	38.6%
2014	\$97.15 per barrel	27.9%
2015	\$63.83 per barrel	35.0%
2016	\$33.30 per barrel	35.0%
2017	\$39.73 per barrel	35.0%
2018	\$54.09 per barrel	35.0%
2019	\$61.44 per barrel	35.0%
2020	\$43.96 per barrel	35.0%
2021***	\$45.02 per barrel	35.0%

* Well-head Value is calculated as a simple average of the North Slope monthly well-head price across the fiscal year.

**Production tax rate is applied to net production value.

***Fiscal year 21 information is preliminary and subject to change. For fiscal year 21, 35% was the statutory tax rate applied to net production tax value. However, due to the low price of oil, most companies paid an alternative gross minimum tax of 4%, even if they had a net operating loss.

REVENUE RATE: The method of calculating production tax revenue changed on January 1, 2014 with the implementation of the Senate Bill 21 (SB21) tax system.

Production tax revenue under SB21 is calculated as follows:

$$[(\text{Petroleum Value}^1 \text{ minus Costs}^2) \text{ times Tax Rate}^3] \text{ minus Credits}^4$$

¹ Petroleum Value = (Total number of barrels^a produced minus royalty barrels^b) multiplied by the well-head value ^c

^a The total number of barrels of oil equivalent produced

See the Royalty Revenue Capacity Schedule B-3 for number of barrels produced

^b Minus the number of royalty barrels

Barrels that are charged royalties are not taxed, therefore these barrels are subtracted from the total

^c Multiplied by the well-head value

Destination value minus allowable marine and transportation costs of each barrel

² Costs = Allowable lease expenditures, including qualified operating and capital expenses

³ Tax Rate = SB21: The production tax rate is 35% of the petroleum value minus costs.

⁴ Credits = SB21: Includes a per-taxable-barrel credit of \$0 to \$8 per barrel, depending on oil prices, and a small producer credit of up to \$12 million per year for qualified companies.

NOTE:

An alternative gross tax, generally 4% of Petroleum Value, applies.

REVENUE PAYERS (Current Reporting Period and Period Nine Years Prior)

	2021	2012
Alaska Statute 43.05.230 prohibits naming individual tax payers.	Five oil companies account for > 99.9% of severance tax revenue.	Five oil companies account for more than 99.9% of severance tax revenue.
Amount of Revenue Base	Five oil companies account for 179,997 thousand barrels of oil production.	Five oil companies account for 206,024 thousand barrels of oil production.
Percent of top payers to total oil production	99.6%	95.5%
Percent of top payers to total production tax revenue	> 99.9%	99.9%

2018	179,601,168	22,273,189	12.40%
2019	173,728,468	21,963,355	12.64%
2020	166,855,450	20,976,700	12.57%
2021*	170,736,009	21,506,252	12.60%

* Fiscal year 21 information is preliminary and subject to change. For fiscal year 21, 35% was the statutory tax rate applied to net production tax value.

- a. The royalty rate ranges from 5.00% to 33.33%, depending on lease terms. However, the majority of fields are charged at 12.50%. Per Article IX, Section 15 of the Alaska Constitution, "At least 25 percent of all mineral. . . royalties. . . received by the State shall be placed in a permanent fund. . ."
- b. At the time of publication each year "Gross Number of Barrels", "Number of Barrels for Which Royalties are Charged" and various percentages are not final. These figures have been updated for the prior year with "final" figures.

REVENUE PAYERS (Current Reporting Period and Period Nine Years Prior)

	2021	2012
Top Payers	Royalties from ConocoPhillips, ExxonMobil, Hilcorp Alaska, Hilcorp North Slope, and Tesoro/PetroStar corporations comprise almost 92% of oil royalty barrels this fiscal year.	Royalties from British Petroleum, ConocoPhillips and Flint Hill Resource corporations comprise more than 88% of oil royalty barrels this fiscal year.
Amount of Revenue Base	ConocoPhillips, ExxonMobil, Hilcorp Alaska, Hilcorp North Slope, and Tesoro/PetroStar corporations paid royalty on more than 19.7 million barrels of oil this fiscal year.	Flint Hill Resources, British Petroleum, and ConocoPhillips corporations paid royalty on about 24 million barrels of oil this fiscal year.
Percent of top payers to number of royalty barrels:	91.80%	88.65%
Percent of top payers to total royalty revenue:	88.60%	87.77%

NOTES:

Details regarding the state's outstanding debt can be found in the Notes to the Basic Financial Statements.

^a See Schedule D-1, Demographic and Economic Information - Statistics, for personal income and population data. These ratios are calculated using personal income and population for the prior calendar year.

^b General Obligation bonds do not have any external restrictions for the repayment of debt. Total and net bonded debt are the same.

NOTES:

Details regarding the state's outstanding debt can be found in the Notes to the Basic Financial Statements. Gross revenues include nonoperating interest and investment income. Operating expenses do not include interest, depreciation or amortization expenses. Additional details regarding revenues and expenses can be found in the combining fund statements of this ACFR.

^a The principal revenues of the International Airports are charges to customers for airfield operations, concession fees, rent, and user fees.

^b Tobacco Revenue Bonds are debt of the Northern Tobacco Securitization Corporation (NTSC), which was incorporated on September 29, 2000. NTSC revenues include Tobacco Settlement Revenues (TSRs) and investment earnings, both of which are pledged as security under the revenue bond indentures.

^c Sport Fishing Revenue Bonds were sold April 11, 2006. The coverage reflected is surcharge revenue only as required in the additional bonds test. Additional coverage is provided from the base license fee, king salmon stamp fee, and certain federal receipts which are also pledged to repayment of the bonds. On July 10, 2020, the State of Alaska used \$1.8 million to optionally redeem and pay accrued interest on 2011 Sport Fishing Revenue Bonds.
