CONTESTED CASE NO. W1-11-3441

ORDER FOR REPORT FROM ASLD AND
ANTHONY LUNT AND
ORDER SETTING STATUS CONFERENCE

CONTESTED CASE NAME: *In re Anthony Lunt – State Trust Land*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: A representative of Arizona State Land Department is ordered to meet with the landowner for the purposes of determining ownership of potential water rights. A status conference is set for July 17, 2019.

NUMBER OF PAGES: 14.

DATE OF FILING: April 30, 2019

1 This contested case involves claims asserted by the Arizona State Land Department and
2 claims assigned to Anthony Lunt for water rights for stock watering and stockponds and
3 objections filed to watershed file report 115-10-013 published in the Final San Pedro River
4 Watershed Hydrographic Survey Report (1991). A copy of the watershed file report is attached
5 as Appendix A.
6

7 **Procedural Background**

8 This contested case had been consolidated with contested case no. W1-11-2583, which was
9 consolidated with *In re Sands*, contested case no. W1-11-19. By Order dated April 26, 2019, this
10 case, along with two other cases, was separated from W1-11-2583 for the purpose of separately
11 considering each of the watershed file reports that investigated the claims for water rights with
12 respect to land that Anthony Lunt owns or leases from the State of Arizona through the Galiuro
13 Trust dated March 23, 2015.
14

15 On April 29, 2019, an order was issued in W1-11-3451 to adjudicate claims made by
16 Anthony Lunt for irrigation and domestic water uses. Under current law, a claimant who has
17 asserted claims for irrigation use and Small Water Use Claims shall have the Small Water Uses
18 Claims determined in conjunction with the claims for water for irrigation use. A.R.S. §45-
19 257(A)(1). The term “Small Water Use Claims” includes claims for stock watering and
20 stockponds with a capacity of not more than 15 acre feet. A.R.S. §45-251(9).
21

22 **Claims for Stock Watering and Stockponds**

23 Thirty statements of claimant were considered by Arizona Department of Water Resources
24 in watershed file report 115-10-013. It identified potential water rights for 12 stock watering uses
25 and 15 stockponds in section 12 T9S R20E and sections 6 and 7 in T9S R21E. According to public
26 records maintained by Arizona State Land Department those sections are owned by the State of
27 Arizona in trust and leased to the trustee of the Galiuro Trust.
28

1 Seven¹ of the Statements of Claimant were filed by Michael Isley who subsequently
2 assigned them to Anthony Lunt. There is no indication in the public records maintained by
3 ADWR that the seven Statements of Claimant assigned to Anthony Lunt have been assigned to the
4 Galiuro Trust. The remaining Statements of Claimant were filed by the Arizona State Land
5 Department. Of the seven Statements of Claimant assigned to Anthony Lunt, ADWR matched
6 four of those Statements of Claimant to potential water rights for three stockponds and one stock
7 watering use. It also matched a Statement of Claimant filed by the Arizona State Land
8 Department to each of the same potential water rights as follows:
9

Potential Water Right	Statement of Claimant Assigned to Anthony Lunt	Statement of Claimant filed by Arizona State Land Department
SP001	39-4207	39-7100
SP007	39-4211	39-7102
SP008	39-4213	39-7097; 39-13236
SW001	39-4210	39-7105

16
17 Given that the land in question, section 12 T9S R20E and sections 6 and 7 in T9S
18 R21E, is owned by the State of Arizona, the first step is a determination of the ownership of the
19 potential water rights. Accordingly,

20 **IT IS ORDERED** that the Arizona State Land Department and the trustee of the
21 Galiuro Trust shall meet to discuss the ownership of the water rights. They shall file a joint
22 report regarding ownership of the potential water rights listed in the table above by **July 10,**
23 **2019.**
24

25
26
27

¹ Statements of Claimant 39-4207 through 39-4213 were filed by Michael Isley.
