CONTESTED CASE NAME: *In re Pomerene Water Users Association.*
HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.
DESCRIPTIVE SUMMARY: Status conference scheduled for September 6, 2018, rescheduled for
September 14, 2018 at 1:30 p.m.
NUMBER OF PAGES: 3
DATE OF FILING: April 11, 2018

1 The status conference currently scheduled for September 6, 2018, shall be rescheduled for
2 September 14, 2018, at 1:30 p.m. in Maricopa County Superior Court, Courtroom 301, Central
3 Court Building, 201 West Jefferson, Phoenix, Arizona 85003.

4 Instructions for telephonic participation in the status conference:

5 Dial: 602-506-9695 (local)

6 1-855-506-9695 (toll free long distance)

7 Dial Participant Pass Code 357264#

8 The purpose of the status conference is to determine the landowners who are asserting
9 claims to water diverted from the Pomerene Canal for irrigation uses. Landowners must file a
10 Statement of Claimant with the Arizona Department of Water Resources, obtain an assignment of
11 an existing Statement of Claimant, or have a Statement of Claimant filed on his or her behalf.
12 Currently, the attorney for the board of Pomerene Water Users Association is in the process of
13 identifying those landowners on whose behalf the Pomerene Water Users Association will file
14 claims for water rights.

15 In addition, as stated in this Court's Order filed January 24, 2018, consideration will be
16 given at the status conference to two watershed file reports, 112-17-BAA-208 and 112-17-BAA-
17 209, that identify claims for water use for which no current landowner has apparently filed a
18 statement of claimant, an assignment of an existing statement of claimant or indicated that their
19 interests would be represented by Pomerene Water Users Association. As to all other watershed
20 file reports included in this case, at least one landowner has either filed a statement of claimant or
21 Pomerene Water Users Association has indicated that it would be representing the interests of at
22 least one landowner who owns land included in the watershed file report. Based on county
23 records, the current landowners of the land included in watershed file reports 112-17-BAA-208 and
24 112-17-BAA-209 are:

Thus, to repeat the January 24, 2018 Order, a determination will be made at the status conference whether these nine landowners should be dismissed from this consolidated case and be adjudicated as having no interest in water diverted or distributed by the Pomerene Water Users Association if they do not file a statement of claimant with the Arizona Department of Water Resources by **August 31, 2018**, or the Pomerene Water Users Association does not file a statement of claimant on their behalf with the Arizona Department of Water Resources by **August 31, 2018**.
