## Owner Types Codes

Codes		
<b>AP</b>	Aggregate Property	This property represents a group of properties that have been aggregated together, usually because of small values.
<b>OT</b>	All Owners except Aggregate or Unknown	This property represents individual property records that are not reported as aggregate or unknown, and is used when an owner's name is known and included in the report.
<b>UN</b>	Unknown Owner (no name available)	This property represents individual property records in which the original owner's name is unknown.
