Please sign the petition below to help keep the Jacksonville Developmental Center open!

Good afternoon!

I reside at Laborer's Home Development IV in Jacksonville, Illinois. I am writing you today because I am extremely concerned about the welfare of the citizens of Jacksonville. I have recently been informed that the Jacksonville Developmental Center may be closed by Governor Quinn due to budget cuts. This center is located across the street from my building and I am familiar with many citizens who are either employed themselves by the JDC or have family members or friends who will be adversely affected by it's closure. Closure will also have a drastic effect on our local economy. I am asking for your assistance. Please voice our concerns to Governor Quinn and help to keep the Jacksonville Developmental Center open. Thank-You!
