**Statement for the record from Congressman Aaron Schock
Commission on Government Forecasting and Accountability Public Hearing in Lincoln, Illinois
On the closure of the Logan Correctional Center**

Logan County, Illinois is located in the 18th Congressional District of Illinois, which I represent. It is home to the Logan Correctional Center, a facility that employs 357 people from the Lincoln and Logan County area. Governor Quinn has publicly state his intentions to close this facility.

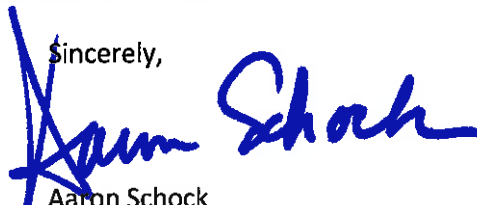

There are currently about 2,000 inmates in general population at Logan Correctional Center. I am concerned about the State's plan, or lack thereof, in regard to moving the population to another suitable prison facility. Further, I question the estimated savings projection if this key facility were to close. The average cost per inmate at Logan Correctional Center is \$17,000 while the State's average per inmate cost is \$22,000. Perhaps most importantly, according to the Institute of Government and Public Affairs at the University of Illinois, closing the Logan Correctional Center will cost \$73 million in economic activity. Additionally, it is worth noting that in 2002, the State closed the Lincoln Developmental Center in the same community; a 103 acre property that remains in State of Illinois ownership, at taxpayer expense, to this day. I cannot envision that a shuttered prison facility would result in anything different.

I encourage Governor Quinn to find other ways to handle budgetary shortfalls in the State of Illinois than disproportionately cutting essential services at such enormous expense to downstate Illinois communities who will have little chance to recover.

As of August, Logan County's unemployment rate was 8.3%. In addition to the 357 state employees on site, at minimum, an additional 104 jobs would be affected. Hemorrhaging 461 jobs could bring serious acceleration to the unraveling of the area's rural economy.

I ask that a full and fair review is conducted concerning the Governor's proposal for Logan Correctional Center. It is my expectation that this review will prove the Center's value and why it is essential to Logan County, the surrounding region, and the State of Illinois.

Sincerely,

Aaron Schock
Member of Congress

Written Testimony Presented to:

Commission on Government Forecasting
and Accountability
Attn: Facility Closure
703 Stratton Building
Springfield, IL 62706

RE: Proposed Closure of the
Logan Correctional Center
Lincoln, Illinois

Ladies/Gentlemen:

I would like to submit this written statement as testimony to be included in the record of the Facility Closure Meeting to be held on Wednesday, October 26, 2011, at 5:00 p.m. at the Chapel Auditorium, Lincoln Christian University, 100 Campus View Drive, Lincoln, Illinois 62656, which is being held to discuss the proposed closure of the Logan Correctional Center in Lincoln, Illinois.

I am a partner with the law firm of Woods & Bates in Lincoln, Illinois. My firm has been in existence since 1971, and the original partners were in private practice for many years prior to that date. I have personally been practicing law in Lincoln since May of 1979 and have lived in Lincoln, Illinois, with the exception of the years I was attending college and law school, my entire life.

The contemplated closure of Logan Correctional Center has to be one of the most unjust, unfounded, and unsupported recommendations ever made by those individuals governing the State of Illinois. Logan Correctional Center, together with Lincoln

Correctional Center, have been mainstays of our community for well over 25 years. Our community suffered the adverse economic consequences of the closure of Lincoln Developmental Center and is still, to this day, feeling the adverse economic impact of that closure. To now suggest to the citizens of our community that the Logan Correctional Facility should be closed is, in my humble opinion, unconscionable.

The adverse economic consequences to Lincoln and Logan County that would result from the closure of the Logan Correctional Center simply cannot be overstated. Above and beyond the loss of wages to those individuals employed at the facility, the consequences to their families, the community in which they reside, and our city and county at large are immeasurable.

I suspect the employees of Logan Correctional Center, in large part, live in Lincoln and Logan County, Illinois. The vast majority of those individuals are undoubtedly married, and their spouses no doubt live and work in Lincoln and Logan County, Illinois. I also suspect that the vast majority of the employees at Logan Correctional Center have children who attend public and private schools in Lincoln and Logan County, Illinois. The closure of the facility would eliminate a significant income to each and every household of the employees of the facility. The consequences of the elimination of this income from a household may very well result in those families having to leave Lincoln and Logan County, Illinois; but even if they do not leave, they will suffer serious economic hardship as a result of the closure.

The employees of the facility, and their families, if Logan Correctional Center is closed, would obviously not be able to spend the same amount of money in Lincoln and Logan County as they previously did, due to the lack of income. This would mean they would spend less on gas, food, household furnishings, houses, real estate taxes, discretionary spending, school clubs, social clubs, and fraternal organizations. Obviously the list goes on and on. We have received information that the overall economic impact to Lincoln as a result of the closure of Logan Correctional Center will be in the vicinity of \$73 million. We are a city of under 15,000 people and a county of

around 33,000 people. In these difficult economic times, the loss of economic impact of \$73 million is not sustainable by a community such as Lincoln and Logan County.

Many of the employees at the Logan Correctional Center have been long-time residents of the City of Lincoln or the County of Logan, many of whom I have known my entire life. They have devoted their working careers to the Department of Corrections under the belief that their employment was stable and they would have the ability to support themselves, their families, their churches, and their communities. The loss of employment for many of these individuals will prevent them from doing the very things that they anticipated they would be able to do through the stable employment with the Department of Corrections. This not only impacts the families, but it impacts the community at large. Less income to the family units of the employees means less income spent in Lincoln and Logan County and, in turn, is devastating to the many businesses that depend on the revenue stream from the employees of Logan Correctional Center. Not only will the employees and their families be seriously and adversely impacted by the closure, many businesses and civic organizations will be profoundly affected by the loss of revenue they will experience as a result of the closure.

The employees of Logan Correctional Center are an integral part of the City of Lincoln and the County of Logan. Many of them not only make their homes here, they support their community through civic organizations, fraternal organizations, and other civic groups. The loss of that support would be immeasurable to our communities.

In this day and age of political corruption and overspending, there has to be accountability by our governmental officials. To consider or contemplate the closure of Logan Correctional Facility is above and beyond the realm of reasonableness. There are so many other areas of government that could be cut without jeopardizing the economic survival of the employees and the citizens of the City of Lincoln and the County of Logan.

One must also take into consideration the safety of the

Commission on Government Forecasting
and Accountability

October 20, 2011

Page 4

citizens of not only Lincoln and Logan County, but the State of Illinois at large. We all realize there is serious overcrowding in the prison systems in Illinois, and to think about redistributing the current population of Logan Correctional Center to other facilities only compounds and exacerbates an already very difficult situation within the Department of Corrections.

I implore you to consider the adversity that will result to not only the employees, but their families and the communities situated in Logan County, Illinois, that would result with the closure of Logan Correctional Center. I hope and trust that after you review the facts and the circumstances of this community, you will realize that it would ill-advised to close Logan Correctional Center.

Respectfully submitted,

WOODS & BATES

Name: John Maki
Facility Being Closed: Logan
Your Position: Opponent
The Type of Testimony: Written Statement Filed
Email: jmaki@thejha.org

Members of Commission on Government Forecasting and Accountability:

I'm the executive director of the John Howard Association (JHA), Illinois' oldest prison reform organization and the only group that monitors the state's juvenile and adult prison systems. I had planned to present oral testimony regarding the closure of Logan Correctional Center, but at the last minute was unable to do so. I hope you will accept this brief statement in my place.

JHA strongly opposes the proposed closing of Logan for the simple reason that Illinois' prisons are already dangerously overcrowded, operating at more than 150 percent above the system's rated capacity. Given these overcrowded conditions, there is no way Illinois Department of Corrections can lose close to 2,000 beds without significantly jeopardizing the immediate safety of inmates, staff, and the general public. Furthermore, closing Logan will ultimately fail to save taxpayer dollars as it will almost certainly lead to expensive litigation like we recently saw when the Supreme Court of the United States ordered California to release more than 30,000 inmates to relieve its overcrowded prison system.

While JHA opposes the proposed closing of Logan, we believe that Governor Quinn and the General Assembly should look to criminal justice reform as a way of cutting the state budget. As states like Texas have shown, smart, cost-effective criminal justice reform that diverts low-level offenders, decreases overly harsh sentences, and improves parole practices can safely reduce bloated prison populations and save taxpayer money.

Sincerely,

John Maki

Oral testimony
October 26, 2011
COGFA Hearing – Lincoln, IL

Madame and Mr. Chairman, and members of COGFA:

As mayor and on behalf of the Lincoln City Council and the 14,500 people of Lincoln I want to welcome you to our community. As an Associate Vice President here at Lincoln Christian University, I want to welcome you to our campus.

We have been anticipating your visit. Many in this community, and not just on this campus, have been praying for you. We are grateful for your willingness to listen and consider.

Few of us here can grasp the enormity of your responsibilities and the multitude of decisions you are called upon to make. Thank you for your service to our state, to your constituents, and to us.

I come before you this evening on behalf of the 14,500 people of Lincoln to ask that you Save Logan.

I want to talk with you briefly about the impact this proposed closure would have on our community, our concerns with this on a statewide basis, and finish with a comment about the people of Lincoln.

As you can see from the economic impact study conducted by the University of Illinois, closing Logan would have a devastating impact on the City of Lincoln. It demonstrates how integral Logan is to our local economy and the lack of other available jobs with good salaries and benefits makes saving Logan all the more important.

I'm sure you've heard the word "devastating" at every hearing in every community you have visited. Let me point out a couple of areas where we feel we are unique.

At \$73.3 million, the total economic hit to our community is the largest of any of the seven communities. If you look at that on a per capita basis, the hit Lincoln would take if Logan were to close amounts to \$5,055 for every woman, man, and child in town. As you drive back to Springfield this evening, look around our

community. You will see that we are not wealthy in terms of money. (We are in terms of the things that really matter, but that's a discussion for another day).

As you drive by each house, do the math in your head. A widowed senior citizen on Social Security in a house, the hit is as if she spent \$5,000 less locally in a year. A family of six with two kids in college, the hit is as if they spent \$30,000 less locally. Do that for every house in town and I hope you see that "devastating" is not too strong of a term.

There's another way to look at that \$73.3 million impact. The Department of Corrections is estimating that closing Logan will save them \$9 million in the first year. If you take our local impact and divide it by the savings, you find that for every dollar the State wants to save by closing Logan, our local economy is going to lose \$8. The State saves a buck, it costs us \$8. That is a huge impact.

The City of Lincoln is as understanding and supportive as any community of the State of Illinois' need to get its financial house in order. I would argue, though, that that it is brutally unfair to ask us to shoulder the burden of giving up \$8 local dollars for the State to save one. It's particularly unfair given what happened to this community nine years ago.

In 2002 then-Governor Ryan closed our county's largest employer, the Lincoln Developmental Center. With it, we lost over 600 jobs and, quite frankly, a way of life. For over 100 years this community was proud to serve the special people who lived at LDC. They weren't residents to us, they were family. The closure of that facility was not just an economic hit from which we are still recovering, but a punch in the gut and an unfair characterization that the hard working, conscientious, and caring people of this community were no longer capable of serving the folks that we loved for over a century.

Since that closure our local economy was brought to its knees, our population has dropped, our school enrollments plummeted, businesses closed, and all of our governmental and social organizations have undergone cutbacks. The City of Lincoln, for example, lost 10% of its full-time workforce a direct result of the closure of LDC.

Now the State wants to close our 2nd largest employer in the county – that's both public and private employers. We were blessed for many years with State facilities to provided great jobs, good salaries, and solid benefits. Now we're being told by the State of Illinois that it wants to shutter two of our top three largest employers in less than a decade? Some communities can talk about those evil corporations who move jobs out and overseas. In our case, it's our own State government that's doing it to us. What was that old Illinois tourism slogan? "Illinois: You Put Me in a Happy State?" Not so much in Lincoln.

Beyond our community we have serious concerns about the impact of this closure on the safety of our entire state. Despite what governors have proposed doing to us, we are still residents of Illinois and we do care about our neighbors all across this state. Moving 1,500 inmates from Logan to gymnasiums is a recipe for disaster. I was on school boards for 13 years and I guess I think gyms would be OK for after-school detention, but for housing criminals? C'mon. Who does that put in the toughest spot? Not the inmate who now has hundreds of roommates, but the correctional officer who has to monitor that.

Just last month there was a prisoner who escaped from the correctional center in East Moline for several days. You don't think that stacking inmates like cordwood in a gym isn't going to make it easier for that to happen over and over again?

I'm not telling you anything you don't already know when I say that the Illinois Correctional System is a tinderbox ready to explode. Don't light a match with the closure of Logan.

Let me close with some comments directed partially to you as members of the General Assembly, but mainly to the Department of Corrections leadership and budget staff. As a group of us met with the Governor's staff yesterday, we were told that the closing of Logan Correctional Center was simply a "budgetary matter."

Every family and business in Lincoln understands the State's budgetary problems. They may not all understand spending authority or line item vetoes or transfer ability, but every household in this town gets what it means to have less money coming in; to have more wants and needs than funds available. They live that reality every day.

They get the need to make difficult choices, but they don't get how the first cut right out of the box are the people you're responsible for – the people on the front lines and those you depend on every day to get your job done.

They get the struggles that come with not having enough money to do all you want to do, but they don't get how that somehow gives you the right to break promises.

The people of this community get the need to make sacrifices, but they don't get why you think a fair sacrifice is for you to save a dollar and for it to cost them \$8.

The Logan Correctional Center guard with ailing and infirmed patients that she cares for gets how she may have the right to a job at another facility, but she doesn't get how forcing her to move away from those parents helps her or her family.

The Logan Correctional Center employee who is battling cancer and who barely musters the strength every day to come in and be at his post gets how he can move to a different slot, but he doesn't get how a 90-minute commute every day is going to somehow make him feel better or assist him in that fight.

The young Logan Correctional Center family who was set to close on a house but who cancelled the closing in the week after your announcement that you wanted to close Logan gets the importance of looking ahead, but they don't get how what they've planned for can get wiped out because the administration wants to make a point in a battle with the General Assembly.

The Lincoln business who gives and gives and gives to the community understands scrimping by, because that's all they've done for the past several years. They don't get how a budget problem in a \$1 billion agency is going to mean a 15% cut in their business that they may not survive.

Director Godinez and CFO Gleckler, these are all true stories and these are all real people. These are the faces of your "budget problem." You're going to hear from many of them this evening. And if you want a name to go with each face, I'll give them to you so you can talk to them yourselves.

It's not a "budgetary matter" to them -- it's their life. It's not the hypothetical loss of \$5,000 per person – it's the real loss of their livelihoods. It's not the first time this is being done to this community – it's the second.

Please find a better way, a more responsible way to resolve this dispute.

Members of COGFA, we need your help as members of this Commission and as members of the General Assembly. Please vote No on the recommendation to close Logan Correctional Center and please do all that is in your power to enable the Department of Corrections to live within its means without battering people's lives and destroying a community.

Please Save Logan.

Thank you.

Keith Snyder Mayor

October 25, 2011

Dear Illinois Commission on Government Forecasting and Accountability:

Many of the discussions regarding the proposed closing of Logan Correctional Center have centered on the economic impact that this would produce for Lincoln, Illinois and the employees affected through such action. This is an important discussion, as such a proposal introduced in the interest of cutting costs for the Illinois Department of Corrections must be considered in light of the economic consequences it will produce for this community and these employees. Closing this facility will have a negative impact on the economy in Lincoln and will increase the long-term economic and social costs for the State of Illinois.

The discussion of the proposed closing of Logan Correctional Center must also take into account the effects of the significant prison overcrowding that will result from this action. Prison overcrowding is widely understood among criminal justice professionals and researchers as contributing to highly problematic and potentially dangerous outcomes for the inmates, staff, and communities involved. The U.S. Supreme Court recently declared California's prison system's overcrowding unconstitutional and in violation of the Eight Amendment's ban on cruel and unusual punishment. The Supreme Court based their decision on the fact that prison overcrowding compromises inmates' basic health and sanitation needs. Justice Anthony Kennedy asserted in the majority opinion that "A prison that deprives prisoners of basic sustenance, including adequate medical care, is incompatible with the concept of human dignity and has no place in civilized society (p. 13)."¹ While California has been the focus of prison overcrowding issues for many years, its notoriety was based on such conditions as housing hundreds of inmates in gymnasiums with limited sanitation, programming, and treatment. Such treatment resulted in class-action lawsuits by inmates against the state of California. Despite the well-documented problems of prison overcrowding in California, the Illinois Department of Corrections openly states that "Given IDOC's current bedspace challenges, approximately 1,500 minimum security inmates will likely be required to be housed in gymnasiums" across other IDOC institutions.² Furthermore, IDOC states in its filing that the movement of inmates from Logan to other facilities "will create a variety of operational concerns, including the facilities' ability to adequately provide the necessary services to the additional inmate population" (p. 6).³ IDOC also admits it is opening itself to overcrowding-related lawsuits.²

Aside from the obvious legal consequences that the State of Illinois may face based on its decision to produce overcrowding across its institutions, the effects of prison overcrowding on inmates and institutions must also be understood. While ample research exists on this topic, one of the best summaries of this research on the effects of prison overcrowding was delivered by

Professor Craig Haney, from the University of California-Santa Cruz, during his public testimony to the Commission on Safety and Abuse in America's Prisons.⁴ Haney reports that prison overcrowding produces major negative effects for inmates and prison institutions. He cites literature showing that prison overcrowding decreases prisoner morale, increases prisoner medical issues, and leads to high levels of stress associated with physical and psychological injury. Haney argues that such negative conditions lead to increases in disciplinary violations among inmates. Haney also states that despite the increased likelihood of problems among inmates, overcrowded prison facilities are too overwhelmed to carefully screen, monitor, and manage their prisoners. Such failures further compound the risks to personal and institutional safety among prisoners and prison employees. Additionally, overcrowded prisons are unable to offer necessary health, educational, vocational, substance abuse, and other necessary rehabilitative treatment and programming to all of their prisoners. This means that inmates will spend most of their time participating in unproductive tasks which will then increase the likelihood of disciplinary infractions due to boredom or mental stress. The lack of relevant treatment and programming also hurts inmates' chances of success upon release from prison, thus contributing to increased recidivism.

Based on the criminal justice field's understanding of the negative effects of prison overcrowding, the closing of Logan Correctional Center does not make sense. While it would be a short-term cost-saving measure for IDOC, it is likely to produce significant long-term financial and social burdens on the State of Illinois.

If the State of Illinois truly wants to address the budget issues brought about by incarcerating tens of thousands of individuals, criminal justice policies should shift towards a community-based model of corrections. This would involve understanding the true causes of crime and reacting with informed laws, fair sentencing, and improved treatment and rehabilitation. This understanding can only result from collaboration of knowledge and practice among relevant agencies, communities, and partners at the state and national level. Without preventative and fair measures at the beginning of the criminal justice process, we will see no alleviation of the budget crises underlying this proposed closure. Thank you for your consideration of this information.

Sincerely,

Juanita Ortiz, Ph.D.
Assistant Professor of Criminal Justice
University of Illinois-Springfield

⁴ Expert Testimony on Prison Overcrowding by Craig Haney, Psychology Professor at University of California-Santa Cruz to Commission on Safety and Abuse in America's Prisons, 6/8/2006: http://www.prisoncommission.org/public_hearing_2.asp

Thank you for your time this evening.

Did any of you know that within Logan County lies the geographic center of Illinois? This little statistic is just one of many unique characteristics of Logan County. Our rich history and heritage is hard to quantify with statistic. But tonight you will hear countless testimonies filled with statistics on the impact that the closure of Logan will have on our community. You will hear from experts in areas of real-estate, ministry and counseling, several from the medical field, you will or have already received written testimony from Professor Juanita Ortiz from UIS, an expert in the field of criminal justice and the prison system. She speaks to the reality of the decision of closing Logan and the realistic repercussions of a decision with no real safe plan to back it up.

I am here tonight as one, representing hundreds in my short two minutes. I am speaking on behalf of small businesses in all of Logan County, the back bone of our community. You will hear from a few that are here tonight, but there are hundreds more that could not be here because they are “manning the shop”, taking kids to basketball practices, dance classes, karate, or other school programs.

I’m speaking for Dr. Phil Gillen a local veterinary, who after 25 years in business is afraid with the already struggling economy, that the closing of Logan will only compound the problem forcing families to choose to not give their family pets the care they need, which in turn creates fears that his business will no

longer exist or exist without the staffing levels he currently has. And in turn, forcing his employee's families to make tough decisions that include not taking their kids to dance or karate class.

So now I have the story of Audra Turley who owns Audra's Dance Studio. Audra impacts 300 youth with her studio one of these youth is Emma, who takes four dance classes. Emma's Dad works at Logan Correctional and mom works at another business in Lincoln. If Emma's Dad loses his job at Logan he cannot relocate to another facility and Emma will have to stop taking dance at Audra's studio. This will impact the many employees at Audra's Studio, who all shop at IGA at one time or another. Now I'm here speaking for Charlie Lee, Bill Campbell, their families and their staff at IGA. IGA has already seen a 15% decrease in sales since Governor Quinn made the announcement to close Logan Correctional Center. IGA is not just our locally owned downtown grocery store—they are a vital part of our community with their countless incidence of generosity for schools, charities, and benefits. The ripple effect from these three stories is beyond measure and statics. There are hundreds more personal stories with real lives and real consequences that will eventually continue to ripple out of Logan County.

I ask that you keep in mind these real stories of the real people along with all the faces that sit behind me tonight as you hear all of these statistics. Because these statistics have real impacts on these real people.

Testimony for the State of Illinois, Commission on Government Forecasting and Accountability, Lincoln, Illinois, October 26, 2011.

Dr. Robert Kidd, retired superintendent of the Lincoln Elementary School District 27 and current school board member of the same .

Thank you for the opportunity to present material relevant to the closing of the Logan Correctional Center.

Historically, it has been shown that educating students in poverty is more difficult than educating the middle class or affluent. Lincoln has witnessed a steady increase in the numbers of poverty level students over the past two decades. That increase accelerated following the closure of the Lincoln Developmental Center.

When I came to Lincoln in 1994, the free and reduced lunch percentage, a good measure of poverty level, was at 38%. The last two school years that LDC was in business, 2001 and 2002 saw that percentage inch up to 44% and 46%. Now that Lincoln has lost LDC, that percentage has reached 59.7% as of this September. During that time, our student population in district 27 has remained relatively steady. Closure of the Logan Correctional Center can only drive the numbers of students at the poverty level higher. How much would be only a guess.

The poverty level affects the materials that parents can provide, their ability to get children to and from the various activities in which they participate, as well as the ability to secure needed physicals and other medical services.

This community, and our elementary schools, can ill afford another shot. The notion that parents might have to commute up to 90 miles to retain employment, one of the things that I have heard, will make parent contact with the schools and teachers difficult. Ninety miles in good weather will take an hour and a half each way. That is three hours less each day to parent children.

The jobs at risk are not make work jobs. These are jobs that make all of us safer. Children are proud that their parents not only have jobs, but that those jobs contribute to the welfare of our community and state. Children whose parents have lost their jobs find it more difficult to get excited about school work when they see no jobs in their future.

Please look elsewhere to reduce the cost of government, not this one that may endanger society and cast a cloud over the future of the children of Lincoln.

October 26, 2011

My name is Robert Bagby and I am superintendent of Lincoln Community High School #404 in Lincoln.

Lincoln Community High School has four elementary feeder school districts. They are: Chester – East Lincoln, Lincoln Elementary, New Holland – Middletown, and West Lincoln – Broadwell. Two elementary parochial schools, Zion Lutheran and Carroll Catholic, are also part of the high school district.

The following statistics reflect school report card information generated by the Illinois State Board of Education prior to the closing of Lincoln Developmental Center and current statistics.

	<u>Enrollment</u>	<u>Poverty</u>	<u>Mobility</u>	<u>Teachers</u>	<u>Tax Rate</u>	<u>Sp Ed</u>
2000	1004	12%	10%	71	\$2.08	7%
2010	850	46%	21%	62	\$2.28	15%

Lincoln Community High School encompasses approximately 280 square miles and has existed as a school for more than a century. In the past five years, the high school campus has been remodeled to reflect current instructional methods, needs, and advancements in technology. The building's rated capacity is in excess of 1,300 students. In addition to their academic studies, students are encouraged to participate in a wide variety of extra-curricular activities, including sports, music, drama, and speech. LCHS is well known in the area for having an excellent basketball team and speech team. Like most towns, the high school is a source of great

community pride. Students compete in 19 athletic activities and there are 31 different clubs and organizations that students can make a part of their high school experience. Our students scored a 21.3 average on the ACT college readiness test last year vs. the State average of 20.9

Lincoln Community High School is also home to Lincolnland Technical Education Center or LTEC. Five area schools send 180 students daily to our campus for vocational education courses. Vocational offerings include: automotive, welding, certified nursing assistant or CNA, criminal justice, culinary arts, building trades (which has been building a home or structure in the community 46 years in a row), cooperative education, and computers.

The City of Lincoln, Lincoln Community High School and our feeder districts suffered greatly following the closure of the Lincoln Developmental Center. The aforementioned statistics demonstrate that analysis. Our community and school districts have just begun to recover. We cannot afford to lose 460 plus jobs and the resulting \$73 million dollar economic impact. I believe our region's unemployment rate will rise, the housing market will further suffer, and services that rely on income taxes generated by prison employees, including schools, roads, and health care will be affected. If Logan Correctional Center is closed, my Board of Education will be forced to cut additional teachers. We stand to lose additional students that we have worked very hard to keep in school, and lose educational opportunities for students.

As our school song states, "Lincoln, Lincoln we are proud of you." Please do the right thing and give us the opportunity to remain proud and give our students the same opportunities in life that were provided for us by our parents.

Yours in education,

A handwritten signature in black ink, appearing to read 'R. Bagby', written in a cursive style.

Robert B. Bagby, Superintendent

Department of Corrections (DOC)

Logan Correctional Center Closing – Fact Sheet

The FY 2012 budget for IDOC does not provide enough money in personnel and state operations budget lines to run all of the state's correctional centers for an entire year. The Illinois Department of Corrections currently operates 27 Adult Correctional Centers, 7 Workcamps/Bootcamps, and 7 Adult Transition Centers.

IDOC's budget was cut by \$110 million compared to the Governor's FY12 introduced budget. After internal savings measures by IDOC totaling approximately \$49 million, the remaining shortfall is \$61.3 million (\$34.1 million in operations and \$27.2 million in personnel).

The closing of Logan Correctional Center is a necessary step in managing the budget and the shortfall. However, these closures still do not fill the deficit in personnel and operations line items in the budget. After the closure of Logan Correctional Center IDOC will still have a shortfall of more than \$52 million for FY12.

The General Assembly passed a line item budget, which means that there is a set amount of money for each budget line, and the administration cannot move money from other areas of state government to make up the shortfall in operations and personnel. The appropriations passed by the General Assembly are inadequate to meet staffing, facility and payroll needs for the entire year while also maintaining other core services.

Logan CC was chosen for closure because it is one of the oldest medium level facilities in the state. It has general population offenders who are easier to place into other medium security facilities. In addition, this closure will impact the fewest number of employees, as most staff can be transitioned to eight other facilities within a 90-mile radius of Logan. DOC also weighed economic impact considerations, and the impact on the community (businesses and infrastructure) of Lincoln, IL will be lessened due to the remaining women's facility (Lincoln CC) staying open. IDOC is committed to achieving the required closure in a safe, secure and responsible process.

Logan Correctional Center

Current Population: 1980

Annual Avg. Cost per offender: 17,732.00

Total Staff: 356 (Security-270/Non-Security-86)

Annualized Operational Cost: \$31.7 million

Closure: 12/31/2011

The Logan Correctional Center was originally built as a mental health facility in 1930 and transitioned to a prison in 1978. An additional X-house was constructed in 1997. The capacity for offenders at Logan CC is 2,033.

DOC operates 8 facilities within a 90-mile radius of Logan CC: Lincoln CC, Decatur CC, Taylorville CC, Illinois River CC, Jacksonville CC, Hill CC, Pontiac CC, and Dwight CC.

FY 12 Budget Management – All Affected Agencies

Phase I (cancelling pay raises) - \$76 million (approx.)

Phase II (layoffs and closures) - \$54.8 million (approx.)

Remaining Gap (to be addressed in Phase III and beyond) - \$182.8 million (approx.)

Total Operations and Personnel Shortfall - \$313.5 million (approx.)

Remaining DOC shortfall - \$52.1 million

COGFA MEETING

I am retired Chaplain Henry M. Johnson. I appreciate this opportunity to speak on behalf of Logan Correctional Center. I served there for twenty eight years as an Illinois State Chaplain before retiring in 2006. When I first arrived, I walked over the grounds of the facility claiming it as Holy Ground for God the Father and the Lord Jesus Christ. Time does not permit me to tell you how God blessed Logan with professional staff, security and non security, to help inmates leave better than when they came to prison re-entering society as productive and responsible citizens. Many are sitting here in this auditorium. I have married staff and buried staff who are like family to me. As you would do no harm to your own families, please do no harm to ours!

Concerning inmates who I have ministered to over the years, many have said to me: “Chaplain, God sent me to Logan.”, and I would say to them: *“If you had to come to prison, I am glad that you came to Logan because there are programs and staff here that can help you make the right choices to go out a better person than when you came..”* Ministry at Logan has been my life’s work and continues to be. In my retirement, I am still going in to Logan to volunteer and teach college courses. There are inmates that I continue to help to go out better than when they came into prison. There are inmates who have left Logan Correctional Center and are leading productive lives, running businesses, ministering and taking care of their families. I wish that they were here so that they could speak for themselves. The decision to close Logan will affect the lives of “real people”, both staff and inmates! The closure of Logan Correctional Center will end the fine work of an institution dedicated to the process of rehabilitation.

I know that there are state budgetary issues. I pray that you can find another way to take care of those issues instead of closing Logan Correctional Center. I believe that Republicans and Democrats can work together for the good of the communities in Logan County. We have already lost one facility in our community. We can not afford to lose another. Thank you for this opportunity to speak.

Testimony from
David Schonauer
Operations Superintendant
Illinois American Water
1100 Keokuk Street
Lincoln, Illinois 62656

Opposing the Closing of
Logan Correctional Center, Lincoln, Illinois

Submitted to the Illinois Commission on Government Forecasting and Accountability
Lincoln Christian University, Chapel Auditorium, Lincoln, Illinois 62656
Wednesday, October 26, 2011

Hello my name is David Schonauer and I am the Lincoln District Operations Superintendant for Illinois American Water. On behalf of our officers, our employees, our shareholders -- and most importantly, our customers that Illinois American Water serves in the Lincoln area, I would, like to thank the Commission on Government Forecasting and Accountability for allowing us this opportunity to present testimony to the Commission. Illinois American Water strongly opposes the closing of the Logan Correctional Center.

Illinois American Water is the largest investor-owned water and wastewater utility in Illinois. It provides high-quality, reliable water and/or wastewater services to more than 890,000 people in our state. Our parent company, American Water, operates a state-of-the-art, Quality Control and Research Laboratory in Belleville as well as a state-of-art, Customer Call Center in Alton.

We have proudly served the Lincoln community since 2000 and the water utility has been owned and operated privately since the 1880's. We currently serve approximately 5,800 customers. In all, the Logan Correctional Center provides over \$265,740 in annual revenue for Illinois American Water. This constitutes about 7.13% of our total revenue in Lincoln. Like all the businesses in the Lincoln area, affected by the closing of this facility, a \$265,740 loss of revenue would be a significant loss for our company. Realistically, despite our never-ending attempts to make the delivery of high quality water to the residents of Lincoln more efficient, a 7.13% loss in revenue is substantial, and would have an impact on future water rates for the rest of our customer base as many of our costs are fixed. In addition to this, is the fact that the Lincoln district has its own tariff district. We are a private water utility regulated by the Illinois Commerce Commission. The Commission sets the size of each tariff district. It has deemed that Lincoln be a "stand alone" tariff district, not part of a larger tariff district. Because of this "stand alone" status, the loss of Logan CC, our largest customer, will have an even more dramatic adverse

impact on the water rates of our customers, both residential and commercial, in the Lincoln community.

The closure of the Logan Correctional Center would have deep and significant negative impacts on the local and regional economies. The consequences will extend far beyond the loss of employment, personnel compensation, and operating expenditures from the Logan CC. The industries anticipated to lose employment are also forecasted to experience declining sales and production. Down-sizing, reduction in services and relocation are among the likely responses by at-risk industries. Such action would result in lack of access to a range of health care providers and remaining residents.

According to the Illinois Department of Corrections (IDOC) report to the COGFA Commission its current inmate population is hovering around 49,105. This constitute an "an all-time high" for the department. This fact by itself should give one pause of "why are we doing this"? In the same report, IDOC's own analysis of the possible closing of Logan CC portrays a future where the inmate environment would be "challenging" at best. Specifically it cites:

"Ultimately, given IDOC's current bed space challenges, approximately 1,500 minimum security inmates will likely be required to be housed in gymnasiums at Hill Correctional Center, Lawrence Correctional Center, Pikneyville Correctional center, Western Illinois Correctional Center, Illinois River Correctional Center, Big Muddy Correctional Center, Shawnee Correctional Center, Danville Correctional Center, Jacksonville Correctional Center and Taylorville Correctional Center"

While the Logan CC is an older facility it still remains a safe and secure facility. While the facade of the facility remains older, the inside has received millions in dollars of upgrades. Again, it remains a safe and secure facility successfully carrying out its mission for the Illinois Department of Corrections and ultimately the State of Illinois.

Over the next several months this Commission will hear and see scores of studies, reports, facts and figures. It will hear and see cost analyses on almost every aspect of this issue. It is the hope of Illinois American Water, and most importantly, our customers and the entire Lincoln community that this Commission, and our Governor, comes to the only rationale conclusion, which is to keep the Logan Correctional Center open. As the facts presented in this investigation demonstrate, closing this Facility would have a devastating impact on the Lincoln economy. For these reasons, Illinois American Water, and I, respectfully urge you to keep this facility open.

Department of Corrections (DOC)

Logan Correctional Center Closing – Fact Sheet

The FY 2012 budget for IDOC does not provide enough money in personnel and state operations budget lines to run all of the state's correctional centers for an entire year. The Illinois Department of Corrections currently operates 27 Adult Correctional Centers, 7 Workcamps/Bootcamps, and 7 Adult Transition Centers.

IDOC's budget was cut by \$110 million compared to the Governor's FY12 introduced budget. After internal savings measures by IDOC totaling approximately \$49 million, the remaining shortfall is \$61.3 million (\$34.1 million in operations and \$27.2 million in personnel).

The closing of Logan Correctional Center is a necessary step in managing the budget and the shortfall. However, these closures still do not fill the deficit in personnel and operations line items in the budget. After the closure of Logan Correctional Center IDOC will still have a shortfall of more than \$52 million for FY12.

The General Assembly passed a line item budget, which means that there is a set amount of money for each budget line, and the administration cannot move money from other areas of state government to makeup the shortfall in operations and personnel. The appropriations passed by the General Assembly are inadequate to meet staffing, facility and payroll needs for the entire year while also maintaining other core services.

Logan CC was chosen for closure because it is one of the oldest medium level facilities in the state. It has general population offenders who are easier to place into other medium security facilities. In addition, this closure will impact the fewest number of employees, as most staff can be transitioned to eight other facilities within a 90-mile radius of Logan. DOC also weighed economic impact considerations, and the impact on the community (businesses and infrastructure) of Lincoln, IL will be lessened due to the remaining women's facility (Lincoln CC) staying open. IDOC is committed to achieving the required closure in a safe, secure and responsible process.

WRITTEN COMMENTS:

I am opposed to the closing of the Logan Correctional Facility for two reasons.

First, it is unjust and unfair to close this facility and place prisoners in other facilities which are already overcrowded. Such overcrowding is a safety issue for prisoners and guards.

Second, the economic impact on Lincoln and all of Logan County would be devastating. I have lived in Logan County 4 1/2 years and have deeply appreciated being close to Lincoln. This town and County already suffered a huge blow when LDC closed a few years ago.

WRITTEN COMMENTS:

Closing the LDC had a big enough impact on Logan County. Not only will closing the Logan Correctional Center affect the unemployment, but where are the inmates suppose to be relocated? Last I knew most facilities were already overpopulated. Not only were the inmates there put there for a reason, but the low budget does not give enough reasoning for prisoners sentences shortening and receiving slap on hand as put back on the streets, putting others at risk.

LDN was a young start up business when Gov Ryan closed LDC. While we did not have a history to compare how much that closure hurt our businesses and our community, we absolutely did see damages. Our businesses, government ^{tax} supported services impacted police, fire, streets department with shortages. Add the global economic impact of 2008, more home foreclosures, some neighborhoods have several ^{more} homes that have sat empty for years now. The Logan County property taxes reflect that. All revenues are down each year @ the county, revenues related to people no longer here or with dollars to spend. Ask the county about their budget that revenues continue to shrink while up rise. Lincoln & Logan County can not sustain the losses that would come with this closing.

My husband, Todd Kutz, has work for Logan Correctional Center for 10 years. He is the main provider in terms of finances + insurance for our family that includes our 2 year old daughter as I try to better myself by going back to school. If Logan closes we will be forced to sell our home and move to better opportunities if there are any. We are strongly against the prison closing + are hoping anything + everything can be done to save it, in order to keep our family + others in the area + so we can survive!

Sincerely,
Tamar Kutz

WRITTEN COMMENTS:

Closure of Logan CC will negatively affect the whole state of IL & in particular Logan County.

The security & program staff are exceptional - providing safety for our communities & for the incarcerated individuals. The education that the inmates have & are receiving has transformed thousands of lives over the course of Logan's history. With a reduction in recidivism & turning felons into taxpayers - this needs to continue. These opportunities will be reduced if Logan closes. There are hundreds of inmates on wait lists to get in school at Logan CC - send them elsewhere - the lists grow larger.

Logan is one of the most cost effective prisons to run in the state. New Health care & Dietaria - up graded Power Plant grass cut the plants for the state Fair & Governor's Mansion. Clears an amount - the lists go on & on & go must I - J Davison

Join Us In Opposing Cuts To Services That Are Vital
To The Well-Being of Our Community

We the undersigned call on Gov. Quinn to halt the closure of Logan County Correctional Center and the related cutbacks in vital programs that help to safeguard and sustain children and families, protect our natural environment, ensure public safety, assist those with severe disabilities, prevent the spread of disease and other public health hazards.

Comments: The closing of Logan C.C. would overtax an already overcrowded prison system causing health and safety issues to both inmates and correctional officers. This govt. needs to reinstate early release programs to reduce the number of inmates incarcerated if it needs to cut spending. Jamming more prisoners into gyms and day rooms is a recipe for disaster.

Comments: Closing Logan will only cause more over crowding problems because Quinn will not do anything about MGT. It will also increase unemployment which is too high already. If he needs cuts and the lawmakers are so concerned with the budget, why don't he start with the salaries in the House and Senate.

Flag

41

Name: Jeanette Ann Smallwood on Oct 5, 2011

Comments: This would cause dire circumstances for all inmates in Illinois they are already dealing with overcrowding. Doing this and putting way to many together will cause riots fights and depression among these men

Comments: Please dont allow this facility to be closed, it will only cause more problems in our already scary society...I want to be able to allow my little girl to be alittle safer while walking to her friends house, plus we have a large un-employment rate as it is, keep it open for MANY, MANY reasons

Flag

52

Name: Nicole Post on Oct 6, 2011

Comments: I say we keep this open, because too many ppl are gonna lose their jobs and inmates are gonna be put in awful situations that will be way to risky and bad for their health!! My husband is in East Moline, and they are full as well. We need to help get something going!!!! Over crowding is getting really bad, and as we sign this there is more people coming into the prison system!!!

Flag

53

Name: Cynthia Kurowski on Oct 6, 2011

Comments: Gov.Pat Quinn needs to visit all the prisons in state, perhaps spend a night. See and feel what his poor choices have done. Closing any of these facilities is wrong.

Flag

Comments: You're plans to close Logan CC, and other needed facilities, based on money saved for a scant budget is hilarious. This decision, once again, shows the short sightedness of politicians. A penny saved today will be many more spent tomorrow if you succeed in closing these facilities. Closing Logan will result in shoving inmates into every nook and cranny of the other already overcrowded prisons. That means more guards will have to be hired, and the risk of harm to officers and inmates skyrockets. Closing the mental health facilities will lead to an influx of ill people into the IDOC system. If they do not have appropriate care and monitoring, it is only a matter of time before crimes, some serious, are committed by those whose lifeline you destroyed. Now add in the damage to the communities that depend on Logan for their communities. In the present economy, any loss of jobs, and the revenue those jobs bring to a town, is debilitating. Small businesses shut their doors, resulting in even more people without jobs. All of that unemployment then goes back to the state of Illinois, in the form of writing checks and providing needed benefits each month. Can the budget of Illinois really take on the added expenses that closing Logan will ultimately bring?

Flag

58

Name: Katie on Oct 6, 2011

Comments: Illinois prisons are already severely overcrowded. Closing this facility will put hundreds of people out of work and increase overcrowding at other facilities past dangerous levels. How do we expect to provide adequate safety to both inmates and staff when staffing levels are down and prisons are already exceeding maximum capacity? The state will not save any money when staff are injured and forced to go out on medical disability or when inmates are injured or killed due to overcrowding and lawsuits are filed against the State for negligence based on their inability to provide adequate safety precautions in a known hostile environment.

Flag

59

Name: Pamala Prepura on Oct 6, 2011

Comments: Closing Logan will be detrimental to the citizens of Lincoln, the employees of Logan & the inmates not only at Logan, but at all the overcrowded IDOC facilities. It will make a difficult situation worse & dangerous for those involved.

Comments: Please do not close this facility. You will be creating a horrible environment for the inmates that we are supposed to rehabilitate, and the families of the employees there. The inmates are people too. Sure they've made mistakes in the past and are paying for them, but I think warehousing them will have a detrimental effect. You are creating a bunch of angry people putting them in a situation that is dangerous for guards and the inmates. Lawsuits will certainly be more expensive than what you think you will save by closing the facility.
