

## Ohio Revised Code

### Section 125.29 Child care services.

Effective: July 1, 2014

Legislation: House Bill 497 - 130th General Assembly

---

Notwithstanding section 125.28 of the Revised Code, the department of administrative services may operate or contract for child care services in any facility owned or maintained by the department or any other state agency if the director of administrative services determines such space is available; such space shall be used to provide child care services to a group of individuals of whom at least fifty per cent are state of Ohio employees; and priority for such child care services will be given to state of Ohio employees even if it results in the displacement of non-state employees.

If the department allots space in a facility controlled by it for the provision of child care services, such space may be provided without charge for rent or services. For the purpose of this section, "services" includes the provision of lighting, heating, cooling, electricity, maintenance, security systems, or any other utility type services. The director shall adopt rules governing the operation of such child care services.
