B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned Premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct, assumed and ceded business.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company utilizes the following accounting policies:

- Short-term debt securities are stated at amortized cost using the interest method. Short term money market mutual fund investments are categorized as "All Other Money Market Mutual Funds" on Schedule DA and are stated at fair value.
- Non loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the interest method. Non loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.
- The Company has no common stock.
- Preferred stocks are stated at cost.
- The Company has no mortgage loans.
- U.S. government agency loan-backed and structured securities are valued at amortized value. Other loan-backed and structured securities are valued at either amortized value or fair value, depending on many factors including: the type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either NAIC approved rating organization or NAIC Securities Valuation Office), and relationship of amortized value to par value and amortized value to fair value.
- The Company has no interest in subsidiaries.
- The Company has no investments in joint ventures, partnerships and limited liability corporations.
- The Company has no derivatives.
- The Company does not anticipate investment income when evaluating the need for premium deficiency reserves.

NOTES TO FINANCIAL STATEMENTS**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN (continued from preceding page)**

11. Unpaid losses and loss adjustment expenses (including Asbestos and Environmental reserves) include amounts determined from individual case estimates and an amount for IBNR (incurred-but-not-reported) loss estimates. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
12. The Company has not changed its capitalization policy from the prior period.
13. The Company has no "pharmaceutical rebate receivables".

D. Going Concern

Based upon its evaluation of relevant conditions and events, management has concluded that the Company will continue as a going concern.

NOTE 2 – ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS - NOT APPLICABLE**NOTE 3 – BUSINESS COMBINATIONS AND GOODWILL - NOT APPLICABLE****NOTE 4 – DISCONTINUED OPERATIONS - NOT APPLICABLE****NOTE 5 – INVESTMENTS**

- A. Mortgage Loans, including Mezzanine Real Estate Loans - Not applicable
- B. Debt Restructuring - Not applicable
- C. Reverse Mortgages - Not applicable
- D. Loan-Backed Securities

(1) Description of Sources Used to Determine Prepayment Assumptions

Loan-backed bonds and structured securities are valued at amortized cost using the constant interest rate method, and using an effective yield based on current prepayment assumptions obtained from Bloomberg, rather than anticipated prepayments at the date of purchase. Prepayment assumptions are reviewed periodically and updated in response to changes in market interest rates.

(2) Other-Than-Temporary-Impairment (OTTI) Loss Recognized in the Aggregate - Not applicable**(3) Recognized OTTI securities - Not applicable****(4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):**

a.	The aggregate amount of unrealized losses:	1.	Less than 12 Months	\$	-
		2.	12 Months or Longer	\$	88,067
b.	The aggregate related fair value of securities with unrealized losses:	1.	Less than 12 Months	\$	-
		2.	12 Months or Longer	\$	5,163,700

(5) OTTI Additional Information

All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary Impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than temporary.

E. Repurchase Agreements and/or Securities Lending Transactions**(1) Policies Requiring Collateral**

Under a securities lending program with an agent, the Company has temporarily loaned certain debt securities. Borrowers of these securities must deposit an amount of cash and/or securities equal to 102% of the fair value of domestic securities or 105% of the fair value of foreign securities loaned as of the transaction date. The collateral level is monitored daily and additional cash calls are made by the agent if needed to retain the 102% or 105% collateral amount. The agent holds any securities pledged as collateral in trust for the borrower, and invests any cash collateral pledged as collateral in high quality short term securities. The cash collateral received under the securities lending agreement and invested in short term securities is included in the "Securities lending reinvested collateral assets" on Page 2 Line 10 and the offsetting liability in the "Payable for securities lending" on Page 3 Line 22.

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

(1) Fair Value Measurements at Reporting Date

The Company categorizes its invested assets that are measured at fair value into the three-level fair value hierarchy. Item 4 provides a discussion of each of these three levels.

Assets at Fair Value	Level 1	Level 2	Level 3	Total
Short-term investments	\$ 80,324,907	\$ -	\$ -	\$ 80,324,907
Total	\$ 80,324,907	\$ -	\$ -	\$ 80,324,907

(2) Fair Value Measurements in (Level 3) of Fair Value Hierarchy

The Company has no assets measured at fair value in the Level 3 category.

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. The Company has no assets measured at fair value in the Level 3 category.

(4) Inputs and Techniques Used for Fair Value

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. These two types of inputs create the following fair value hierarchy:

NOTES TO FINANCIAL STATEMENTS**NOTE 20 – FAIR VALUE MEASUREMENTS (continued from preceding page)**

- Level 1 Quoted prices for identical instruments in active markets
- Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable
- Level 3 Significant inputs to the valuation model are unobservable

The Company retains independent pricing vendors to assist in valuing invested assets when the prices are not available from the SVO.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities which are NAIC rated 3 or below.

In infrequent circumstances, the pricing is not available from the pricing vendor and is based on significant unobservable inputs. In those circumstances, the investment security is classified in Level 3. There are no Level 3 investments at the reporting date.

NOTE 26 – INTERCOMPANY POOLING ARRANGEMENTS

Factory Mutual Insurance Company (lead insurer), NAIC #21482, Affiliated FM Insurance Company, NAIC #10014, and Appalachian Insurance Company, NAIC #10316, are members of the FM Global Group and have entered into a Tripartite Quota Share Pooling Agreement (the agreement). The agreement became effective January 1, 1982. The current pooling percentages, amended as of January 1, 2005, are 86% Factory Mutual Insurance Company, 12% Affiliated FM Insurance Company, and 2% Appalachian Insurance Company. The percentages represent the policyholder's surplus of each company compared to the combined policyholder's surplus for the three companies.

All business written by each of the pool participants is subject to pooling. Also, reinsurance may be ceded on a facultative and/or treaty basis by any pool participant prior to pooling. Uncollectible reinsurance has been furnished to insurance departments of those states where the company is licensed.

The parties agreed to pool net premiums earned, net losses and loss adjustment expenses incurred, and other underwriting expenses incurred. Each company agreed to cede and/or assume from the others that amount of net premium earned, reported in the NAIC Annual Statement, Page 4, Line 1, less that amount of dividends to policyholders reported on Page 4, Line 17, net losses and loss adjustment expenses incurred included in the NAIC Annual Statement, Page 4 Lines 2 and 3 and other underwriting expenses incurred reported in the NAIC Annual Statement, Page 4, Line 4, required to bring its share to the agreed upon percentage of the total. The pooling activity is recorded and settled as current accident and occurrence year transactions for Schedule P reporting purposes. The pooling results are considered as written and earned in the current accident year. The pooling results of losses and loss adjustment expenses paid and incurred are reflected in the current occurrence year.

The amount due to / from the lead entity and the pool participants as of December 31, 2016 are as follows:
