B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned Premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct, assumed and ceded business.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include writedowns for impairments considered to be other than temporary.

In addition, the Company utilizes the following accounting policies:

(1) Basis for Short-Term Investments

The Company has no Short Term Investments.

(2) Basis for Bonds and Amortization Schedule

Non loan-backed bonds with NAIC designations 1 or 2 are stated at amortized cost using the interest method. Non loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.

(3) Basis for Common Stocks

The Company has no common stock.

(4) Basis for Preferred Stocks

Preferred stocks are stated at cost.

(5) Basis for Mortgage Loans

The Company has no mortgage loans.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

U.S. government agency loan-backed and structured securities are valued at amortized value. Other loan-backed and structured securities are valued at either amortized value or fair value, depending on many factors including: type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either NAIC approved rating organization or NAIC Securities Valuation Office), and relationship of amortized value to par value and amortized value to fair value.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern (continued from preceding page)

- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities

The Company has no interest in subsidiaries.

- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

- (9) Accounting Policies for Derivatives

- (10) Anticipated Investment Income Used in Premium Deficiency Calculation

The Company does not anticipate investment income when evaluating the need for premium deficiency reserves.

- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses for A&H Contracts

Unpaid losses and loss adjustment expenses (including Asbestos and Environmental reserves) include amounts determined from individual case estimates and an amount for IBNR (incurred-but-not-reported) loss estimates. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period

The Company has not changed its capitalization policy from the prior period.

- (13) Method Used to Estimate Pharmaceutical Rebate Receivables

- (1) Description of Sources Used to Determined Prepayment Assumptions

Loan-backed bonds and structured securities are valued at amortized cost using the constant interest rate method, and using an effective yield based on current prepayment assumptions obtained from Bloomberg, rather than anticipated prepayments at the date of purchase. Prepayment assumptions are reviewed periodically and updated in response to changes in market interest rates.

- (2) Other-Than-Temporary Impairment (OTTI) Loss Recognized in the Aggregate

- (3) Recognized OTTI securities

NOTES TO FINANCIAL STATEMENTS**Note 5 – Investments (continued from preceding page)**

- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$	-
	2. 12 Months or Longer	\$	51,111
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$	-
	2. 12 Months or Longer	\$	4,947,150

- (5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than temporary.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- (1) Policy for Requiring Collateral or Other Security

Under a securities lending program with an agent, the Company has temporarily loaned certain debt securities. Borrowers of these securities must deposit an amount of cash and/or securities equal to 102% of the fair value of domestic securities or 105% of the fair value of foreign securities loaned as of the transaction date. The collateral level is monitored daily and additional cash calls are made by the agent if needed to retain the 102% or 105% collateral amount. The agent holds any securities pledged as collateral in trust for the borrower, and invests any cash collateral pledged as collateral in high quality short term securities. The cash collateral received under the securities lending agreement and invested in short term securities is included in the "Securities lending reinvested collateral assets" on Page 2 Line 10 and the offsetting liability in the "Payable for securities lending" on Page 3 Line 22.

C. Current and Deferred Income Taxes

The Tax Cuts and Jobs Act was enacted on December 22, 2017. The Act reduced the U.S. federal corporate tax rate from 35% to 21%, requiring companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously not recognized by the Company, and created new taxes on certain foreign source earnings. A net expense/(benefit) of \$(9,000) and \$243,000 has been recognized as a separate component of gains and losses in unassigned funds (surplus), for the years December 31, 2018 and 2017, respectively.

NOTES TO FINANCIAL STATEMENTS**Note 20 – Fair Value Measurements**

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date

The Company categorizes its invested assets that are measured at fair value into the three-level fair value hierarchy or designates certain invested assets as carried at net asset value (NAV). Item 4 provides a discussion of each of these categories.

Description for Each Type of Asset or Liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
Assets at Fair Value					
Bonds	\$ -	\$ 2,545,050	\$ -	\$ -	\$ 2,545,050
Money Market Mutual Funds	\$ -	\$ -	\$ -	\$ 41,327,204	\$ 41,327,204
Total	\$ -	\$ 2,545,050	\$ -	\$ 41,327,204	\$ 43,872,254
Liabilities at Fair Value					
	\$ -	\$ -	\$ -	\$ -	\$ -
Total	\$ -	\$ -	\$ -	\$ -	\$ -

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

The Company has no assets measured at fair value in the Level 3 category.

(3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. The Company has no assets measured at fair value in the Level 3 category.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

The valuation techniques required by the Fair Value Measurements guidance (SSAP 100) are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions.

These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable

Level 3 Significant inputs to the valuation model are unobservable

The Company elects to use NAV for all money market mutual funds in lieu of fair value as NAV is more readily available. These funds are backed by high quality, very liquid short-term instruments and the probability is remote that the funds would be sold for a value other than NAV.

The Company retains independent pricing vendors to assist in valuing invested assets when the prices are not available from the SVO.

When available, the Company uses quoted market prices to determine the fair value of investment securities, and they are included in Level 1.

When quoted market prices are unavailable, the Company uses quotes from independent pricing vendors based on recent trading activity and other relevant information, including market interest rate curves, referenced credit spreads and estimated prepayment rates, where applicable. These investments are included in Level 2 and are primarily comprised of fixed income securities which are NAIC rated 3 or below.

In infrequent circumstances, the pricing is not available from the pricing vendor and is based on significant unobservable inputs. In those circumstances, the investment security is classified in Level 3. There are no Level 3 investments at reporting date.

NOTES TO FINANCIAL STATEMENTS**Note 33 – Asbestos/Environmental Reserves**

- A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?

The Company has potential exposure involving asbestos, environmental impairment liability, and other types of tort-related claims, which applies only to the casualty and assumed reinsurance business now in runoff. Management has indicated that liabilities are recognized for known claims (including the cost of related litigation) when sufficient information has been developed to indicate the involvement of a specific insurance policy, and the Company's liabilities can be reasonably estimated. Additional reserves for such claims are established to cover further exposures on both known and unasserted claims based on facts currently known and the present state of the law and coverage litigation. The reserves for these types of claims are included in the foregoing loss and loss adjustment expense reserves and are subject to considerable uncertainty, due to the potential severity of the claims and the uncertain legal climate.
