## ADVANCED TECHNICAL SERVICES AGREEMENT

In order to be compliant with the Colorado Department of Public Safety, Division of Fire Prevention and Control regulations under 8 CCR 1507-11, the local jurisdiction may request the services of The Division to perform the needed plan reviews and inspections for the fire protection systems to be installed., where the local jurisdiction (Fire or Building Department) is unable or unwilling to perform the reviews/inspections that will be needed on these types of systems within their district.

This agreement for the services must be formally requested by the local jurisdiction, not the fire protection system(s) installer.

Unless otherwise agreed to, by DFPC, The Division will enforce its adopted and applicable codes.

Service(s) being requested or to be provided by DFPC:

- Building Code plan review and inspections
- Fire Code plan review and inspections
- Fire Suppression plan review and inspections
- Fire Alarm plan review and inspections
- Other:
