AS 33.30.011

PURPOSE:

The purpose of this Interim Policy and Procedures Memorandum (IPPM) is to clarify the procedures for the collection of deoxyribonucleic acid (DNA) for the Division of Institutions (DOI) and Division of Pretrial, Probation and Parole (DP3).

APPLICATION:

This IPPM applies to all DOI and DP3 staff involved in the collection of DNA. DNA collection shall occur at booking or anytime a collection requirement has been identified during incarceration or while on supervision.

NEW POLICY:

The following IPPM introduces a new policy with a proposed DOC P&P 108.02.

NEW PROCEDURES:

- I. Case Identification and Collection:
 - As part of every new booking or supervision intake, and prior to release or discharge from custody or supervision, staff shall compare the current charge/conviction with the offenses listed on Attachment A, Quick Reference Guide. If the current charge/conviction is a qualifying offense, and DNA was not already collected for that specific qualifying offense during the current incarceration or supervision period, staff shall collect DNA according to the procedures listed below:
 - A. For every new DNA collection, an entry shall be made in the offender management system linking the collection event to the applicable Arrest Tracking Number (ATN).
 - B. DNA shall be collected utilizing the crime laboratory kits and contents of AKDNA100ENV-1.1. The instructions of the kit contained on the Adult DNA Buccal Collection Procedure Sheet (Attachment B) shall be followed.

Note: As an alternative to filling out the DNA Database Collection Card by hand, an Offender

DNA Card Report may be printed from the offender management system. If used, the Offender DNA Card Report shall be completed, signed, and sealed in the envelope in the same manner as the card. The staff member collecting DNA must ensure a valid facility or office phone number is entered on the DNA Database Collection Card or Offender DNA Card Report.

- C. Once DNA has been collected, the completed kit will be sent to the crime laboratory via certified mail. This may be done individually or in batch mailing and must occur no less frequently than once per week. When sending batches, a packing list must be included in the parcel.
- D. The date of collection, date of mailing, and certified mail tracking number must be entered and verified in the offender management system.
- E. DOC will comply with U.S. Marshals Service requests regarding the collection of DNA samples from federal inmates.

II. Refusals:

When a prisoner refuses to voluntarily submit to DNA collection, multiple attempts will be made to gain compliance. Attempts to gain voluntary compliance should be made by verbal request or directive and in the following order:

- A. Staff member assigned to collect DNA usually a Criminal Justice Technician (DNA CJT), Correctional Officer, or Probation Officer.
- B. The staff member's supervisor usually a Sergeant (COIII or COIV) or Probation Officer III.
- C. Correctional Supervisor, Probation Officer IV, or higher.

If all attempts to gain voluntary compliance fail, the Correctional Supervisor, Probation Officer IV, or designee will notify the Department of Law and request a court order to compel compliance.

III. Missed Collections:

Each day, the DNA CJT will run a DNA report and compare it to the previous day's count sheet. If an offender with a qualifying offense was released without DNA collection, the following shall occur:

- A. Contact DP3 if the offender was released to supervision.
 - 1. DP3 will collect DNA from the offender and bring the completed kit to the nearest DOC facility for processing and service to the crime laboratory.
- B. Contact AST and local law enforcement if the offender was not released to formal supervision.
 - 1. AST or local law enforcement will collect DNA from the offender and bring the completed kit to the nearest DOC facility for processing and service to the crime laboratory.

IV. Owed Collections:

When a facility or field office receives notification of "owed" DNA collection, a single sample will cover all past due collections for the applicable charge or conviction. This paragraph does not supersede the

Case Identification and Collection requirements in Section I above.

V. Training:

Staff collecting DNA samples must receive approved training on proper evidence collecting procedures. Approved trainings on DNA collection and the CODIS database are provided by the Alaska Police Standards Council (APSC) and the DOC Training Academy.

Crimes listed require collect of DNA upon arrest or conviction

(rows highlighted in yellow require careful attention to subsection - only the subsection listed requires collection. If subsection not listed do **NOT** collect.)
