SURVEY OF GOVERNMENT MEASURES TO EXPAND DOMESTIC CONSUMPTION OF DAIRY PRODUCTS

Addendum

SWEDEN

(A) INFORMATION ON GOVERNMENT PROGRAMMES TO EXPAND CONSUMPTION:

Welfare and social programmes, etc

Consumption of butter and Bregott¹⁾ at public institutions such as schools, day nurseries, hospitals, etc is promoted through the granting of price rebates. At present the rebates amount to 3.35 and 1.68 SEK/kg respectively for butter and Bregott. All public institutions supplying free meals are entitled to these rebates.

From the 1982/83 budgetary year additional funds have been allocated to increase consumption of dairy products. These funds have so far been directed at cheese sales to public institutions. Under this scheme cheese prices have been reduced by 1.00 SEK/kg.

Total expenditures (Mill. SEK)

	1979/80	1980/81	1981/82	1982/83
Price rebates; butter e	tc 3.8	4.0	3.8	3.5 ²

¹⁾ A variety of edible fat with 80% fat content, composed of 80% butter.fat and 20% vegetable oil.

²⁾ Preliminary

II. Direct consumer subsidies for butter

None

III. Direct subsidies for use of skimmed milk powder and liquid skimmed milk for animal feed

None

IV. Sales and/or donations of government support stocks not included in Part A I, II and III

None

V. Direct subsidies to consumers for products other than butter and skimmed milk powder including cheese and milk for human consumption

Consumer subsidies were introduced in 1973 on a number of basic foods, f.ex. milk, cheese, beef and pigmeat. From this point price increases resulting from the agricultural price negotiations were partly covered by budgetary means. During the period 1973-1980 consumer subsidies were increased for a number of products. Certain reductions were effected during 1981-1982 due to budgetary restrictions. However, milk subsidies were not affected. From January 1983 consumer subsidies on milk and cheese have been further increased.

Level of subsidy/unit (SEK/kg or litre) 1979-1983 (VAT excluded)

	Fresh milk	Cheese 1)

- cheese	229	265	247	141	277	

- (B) GOVERNMENT PROGRAMMES PROPORTION OF TOTAL CONSUMPTION AND TOTAL EXPENDITURES
- The consumer subsidy programme covers the total marketed volumes of fresh milk and cheese (except mould cheese).

The volumes of butter sold at reduced prices to public institutions were 1,124, 1,185 and 1,147 tonnes respectively during the period 1979/80 - 1981/82.
