5. The question of the status of Spain and Portugal in the Agreement after their accession to the European Communities was discussed at the Committee's meetings of 13 December 1985 (VAL/M/15, paragraphs 27-30), 23 January 1986 (VAL/M/16, paragraphs 4-8) and 30 April 1986 (VAL/M/17, paragraphs 8-11). At the last of these meetings, the Legal Office of the secretariat gave an opinion on the matter, in response to a request from the Committee. On 12 June 1986, Portugal notified its withdrawal from the Agreement in its individual capacity, while reaffirming its desire to be linked to the Agreement as a member of the European Communities (VAL/24).
6. During the course of the year, three countries which had invoked the provisions of Article 21.1 for delayed implementation have started applying the provisions of the Agreement - Spain with effect from 1 January 1986 (VAL/20), the Republic of Korea with effect from 5 February 1986 (VAL/1/Add.19), and Brazil with effect from 23 July 1986 (VAL/22). In response to a request from India for an extension of its period of delay, under the provisions of paragraph 1:2 of the Protocol (VAL/17), which was considered at the Committee's meetings of 13 November 1985 (VAL/M/14, paragraphs 47-54), 13 December 1985 (VAL/M/15, paragraphs 3-26) and 23 January 1986 (VAL/M/16, paragraphs 9-13), the Committee took the decision contained in paragraph 9 of document VAL/M/16, extending the period of delay until 1 July 1987 and containing a number of other provisions.
7. At its meeting of 30 April 1986, the Committee considered proposals from Brazil for the retention on a limited and transitional basis of officially established minimum values (VAL/M/17, paragraphs 38-40; VAL/W/36). At its meeting of 13 June 1986, the Committee took a decision, under which Brazil may retain such values until 23 July 1988 and containing a number of other provisions (VAL/M/18, paragraph 3).
8. The Committee has continued its detailed examination of national implementing legislation. During the year it has examined the legislation of Brazil (VAL/1/Add.20), Canada (VAL/1/Add.17 and Supplements, VAL/2/Rev.1/Add.14, VAL/W/35), Czechoslovakia (VAL/1/Add.18, VAL/2/Rev.1/Add.15) and the Republic of Korea (VAL/1/Add.19 and Supplement, VAL/2/Rev.2/Add.1).
9. The Committee has reviewed the status of the application of the Decision on the Treatment of Interest Charges in the Customs Value of Imported Goods (VAL/6/Rev.1) and of paragraph 2 of the Decision on the Valuation of Carrier Media Bearing Software for Data Processing Equipment (VAL/8 and Add.1), on the basis of information made available by Parties and summarized in document VAL/W/34 and revisions.
10. Technical assistance aimed at providing information to assist countries in their consideration of joining the Agreement and at helping countries in their preparations for the application of the Agreement has continued to be a matter of high priority to Parties, the Committee on Customs Valuation and the Technical Committee. Technical assistance is being made available to both developing country Parties and other developing countries interested in the Agreement. Information documents, prepared by the CCC Secretariat for the Technical Committee, describing technical assistance activities relating to the Agreement have been circulated as Committee documents (VAL/W/29/Rev.1 and Addenda) to facilitate the greater transparency of technical assistance activities.

11. A detailed oral report on the work of the eleventh session of the Technical Committee, held 3-7 March 1986, was presented by the Chairman of that Committee to the 30 April meeting of the Committee on Customs Valuation (VAL/M/17, paragraphs 16-19). The Committee on Customs Valuation took note of this report and expressed its appreciation of the continued valuable work of the Technical Committee. At its meeting, the Technical Committee had adopted a set of examples to illustrate the advisory opinion on the meaning of the expression "sold for export to the country of importation" and a study on the treatment of rented or leased goods. At its twelfth session, held 6-10 October 1986, the Technical Committee adopted a case study on the treatment of leased goods, two additional examples to add to the advisory opinion on the meaning of the expression "sold for export to the country of importation", and an advisory opinion on the treatment of quantity discounts.

12. At its meeting of 30 April 1986, the Committee heard statements on the activities of private companies involved in the valuation of goods for customs purposes on behalf of governments (VAL/M/17, paragraphs 45-47). The Committee agreed to revert to this matter at its November 1986 meeting with a view to exchanging information on the implications for the operation of the Agreement and the accession of further countries. Parties having further information and experience in this connection were urged to make it available to the Committee.

13. As in previous years, Parties have indicated general satisfaction with their experience with the operation and implementation of the Agreement, which has continued to contribute towards the realization of its objectives and to creating improved conditions for the conduct of international trade. While some two-thirds of international trade is already subject to the provisions of the Agreement, this contribution would be enhanced by the adoption of the Agreement by more countries.
