GATT BACKGROUND PAPER LOOKS AT VALUE OF POSSIBLE ROUND RESULTS, ESPECIALLY TO DEVELOPING COUNTRIES

Corrigendum

On page 2/3 of NUR 078, dated 1 December 1993, the penultimate paragraph should read as follows:

One-half of developing economy participants have a substantial export interest in natural resource-based products (excluding petroleum). These products include 'wood, pulp, paper and furniture', 'fish and fishery products', and 'metals'. The percentage reductions in tariffs on these products are respectively **63, 22 and 67 per cent**, which will bring the average tariff on this group of products from the pre-Uruguay Round level of 4 per cent to 2.6 per cent.

(Changing the respective order of percentages.)
