Alcoholic Beverage Shelf Stocking

The purpose of this document is to explain how South Dakota state law applies to Shelf Stocking. It is not intended to answer all questions that may arise. The information contained in this fact sheet is current as of the date of publication.

July 2020

Alcoholic Beverages

Shelf stocking by wholesalers is prohibited for all alcoholic beverages (distilled spirits, wine, malt beverages, etc.) according to ARSD [64:75:04:14](#). It may be convenient for wholesalers to fill retailers' shelves during delivery; however, this is a violation of the rules.

- Wholesalers may rotate spirits, wine or malt beverages which they sell as long as they do not alter or reposition products from other industry members.
- The setting or resetting of all or part of an alcoholic beverage retail display is allowed. Written notices to each wholesaler servicing the retailer must be given 48 hours prior to the set or reset.
- Bringing products currently on the shelf forward (facing), filling of displays, and rotation is only allowed at the point of order taking or invoicing.

It is ***your responsibility***, both as a wholesaler and a retailer, to know shelf stocking of alcoholic beverages is prohibited and must cease immediately if currently occurring.

Both the wholesaler's and retailer's license may be subject to suspension or revocation if found in violation.

Examples:

1. Retailer requests that wholesaler comes regularly to stock alcoholic beverages on their shelves.
 - This is specifically prohibited for all alcoholic beverages.
2. Wholesaler does pull ups and rotation of alcoholic beverages when taking orders and invoicing retailer.
 - This is permitted only at the point of order taking or invoicing.
