

# **Alaska Airport Needs Directory**

**Department Of Transportation  
&  
Public Facilities**

**As of: February 23, 2021**

**Region: All**

This report provides only a portion of the income and expense data related to rural airport operations for DOT&PF. It does not reflect funds received from FAA capital or maintenance grants, Air Carrier Compliance program, or M&O badge or ramp fees. It does not reflect expenses for FAA and State share for capital and maintenance project grants, managerial expenses by Commissioner, Deputy Commissioner, Statewide Aviation staff, or administrative costs incurred by Division of Administrative Services (Budget, Finance, IT, appeals functions), Statewide Aviation Leasing, ROW, Planning, Design and Engineering Services or Construction. It does not reflect expenses for the rural airport Facilities component building costs such as repairs, electricity and heating fuel, or other utilities for buildings. It does include Maintenance and Operations costs such as personnel, utilities and fuel for equipment, runway lights, and some buildings such as heated storage.

**Runways:** 05/23 - 7,790
