Independent Auditor's Report

The Division of Retirement and Benefits and Members of the Alaska Retirement Management Board State of Alaska Teachers' Retirement System

Opinions

We have audited the schedule of employer and nonemployer allocations of the State of Alaska Teachers' Retirement System Defined Benefit Pension Plan (the Plan) as of and for the year ended June 30, 2023, and the related notes. We have also audited the total for all participating entities of the columns titled net pension liability, total deferred outflows of resources, and total pension expense (benefit) (specified column totals) included in the accompanying schedule of pension amounts by employer and nonemployer of the Plan as of and for the year ended June 30, 2023, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer and nonemployer allocations and net pension liability, total deferred outflows of resources, and total pension expense (benefit) for the total of all participating entities for the Plan as of and for the year ended June 30, 2023, in accordance with U.S. generally accepted accounting principles.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule of employer and nonemployer
 allocations and specified column totals included in the schedule of pension amounts by employer and
 nonemployer, whether due to fraud or error, and design and perform audit procedures responsive to
 those risks. Such procedures include examining, on a test basis, evidence regarding the amounts in
 the schedule of employer and nonemployer allocations and specified column totals included in the
 schedule of pension amounts by employer and nonemployer and the related disclosures.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 schedule of employer and nonemployer allocations and specified column totals included in the
 schedule of pension amounts by employer and nonemployer.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

We have audited, in accordance with GAAS, the financial statements of the State of Alaska Teachers' Retirement System as of and for the year ended June 30, 2023, and our report thereon, dated October 12, 2023, expressed an unmodified opinion on those financial statements.

Other Information

The supplemental schedule of employer allocations of special funding amounts, supplemental schedule of special funding amounts by employer, and supplemental schedule of employer and nonemployer contributions have not been subject to the auditing procedures applied in the audit of the schedule of employer and nonemployer allocations and schedule of pension amounts by employer and nonemployer and accordingly, we do not express an opinion or provide any assurance on them.

Restriction on Use

Our report is intended solely for the information and use of the State of Alaska Teachers' Retirement System management, Alaska Management Retirement Board, State of Alaska Teachers' Retirement System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2023

(1) Plan Description

The State of Alaska Teachers' Retirement System (the System) Defined Benefit Pension Plan (the Plan) is a cost-sharing multiple-employer defined benefit pension plan that provides pension benefits for teachers and other eligible members.

The Plan is established under Alaska Statute 14.25, which defines the benefit and contribution provisions, and may be amended only by the State of Alaska (State) legislature. The 24th Alaska State Legislature enacted into law Senate Bill 141, which closed the Plan to new members effective July 1, 2006.

There are two tiers within the Plan:

- Employees hired between July 1, 1955 and June 30, 1990
- Employees hired between July 1, 1990 and June 30, 2006

Vested members hired prior to July 1, 1990 are entitled to pension benefits beginning at normal retirement age, 55, or early retirement age, 50. For members hired after June 30, 1990, the normal and early retirement ages are 60 and 55, respectively. Members may also retire at any age and receive a normal benefit when they accumulate the required credited service.

The normal annual pension benefit is based on years of service and average base salary. The average base salary is based upon the members' three highest contract years' salaries.

The benefit related to all years of credited service prior to July 1, 1990 and for years of service through a total of 20 years is equal to 2% of the employee's average base salary. The benefit for each year over 20 years of service subsequent to June 30, 1990 is equal to 2.5% of the employee's base salary.

Minimum benefits for members eligible for retirement are \$25 per month for each year of credited service.

Married members must receive their benefits in the form of a joint and survivor annuity unless their spouse consents to another form of benefit or benefits are payable under the 1% supplemental contributions provision.

The Plan has two types of postretirement pension adjustments (PRPA). The automatic PRPA is issued annually to all eligible benefit recipients when the cost of living increases in the previous calendar year. The automatic PRPA increase is paid beginning July 1 of each year. The discretionary PRPA may be granted to eligible recipients by the Plan's Administrator if the cost of living in the previous calendar year rises and the financial condition of the Plan's permits. If both an automatic and discretionary PRPA are granted, and a retiree is eligible for both adjustments, the one that provides the retiree the greater increase will be paid.

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2023

(2) Basis of Presentation

The schedule of employer and nonemployer allocations and the schedule of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of the Plan, its participating employers, or the State as a nonemployer entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the Plan, its participating employers, or the State. The amounts presented in the Schedules are prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the Plan to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

(3) Allocation Methodology

Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, requires participating employers in the Plan to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense (benefit). The employer and nonemployer allocation percentages presented in the schedule of employer and nonemployer allocations and applied to amounts presented in the schedule of pension amounts by employer and nonemployer are based on the ratio of the present value of projected future contributions for each employer to the total present value of projected future contributions for the Plan for the fiscal years 2024 to 2039. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of pension amounts by employer and nonemployer may result in immaterial differences.

(4) Contributions

Employer contributions are actuarially determined and adopted by the Alaska Retirement Management Board (the Board). Employer contributions were 12.56% of annual payroll for the fiscal year 2023.

Alaska Statute 14.25.085 requires the State, as a nonemployer contributing entity, to contribute each July 1, or as soon after July 1 for the ensuing fiscal year, an amount that when combined with the total employer contributions is sufficient to pay the Plan's past service liability at the actuarially determined contribution rate adopted by the Board for that fiscal year.

(5) Collective Net Pension Liability

(a) Components of Collective Net Pension Liability

The components of the collective net pension liability of the Plan as of June 30, 2023, are as follows:

 Total pension liability
 \$ 7,857,964,000

 Plan fiduciary net position
 (6,099,520,000)

 Net pension liability
 \$ 1,758,444,000

9

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2023

The collective total pension liability was determined by an actuarial valuation as of June 30, 2022, rolled forward to the measurement date of June 30, 2023. The actuarial valuation used the following actuarial assumptions:

Inflation 2.50% per year

the following exceptions:

Salary increases Range from 7.00% to 2.85% based on service.

Investment rate of return 7.25%, net of pension plan investment expenses. This is based on an

average inflation rate of 2.50% and a real rate of return of 4.75%.

Mortality Pre-commencement mortality rates were based on the Pub-2010

Teachers Employee table, amount-weighted, and projected with MP-2021 generational improvement. Deaths are assumed to result

from occupational causes 15% of the time.

Post-commencement mortality rates for healthy retirees were based on 97% of the Pub-2010 Teachers Retiree table, amount-weighted,

and projected with MP-2021 generational improvement.

Post-commencement mortality rates for disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree table, amount-weighted, and projected with MP-2021 generational improvement.

Post-commencement mortality rates for beneficiaries were based on 100% of male and 95% of female rates of the Pub-2010 Contingent Survivor table, amount-weighted, and projected with MP-2021 generational improvement. These rates are applied only after the death of the original member.

The actuarial assumptions used in the June 30, 2022 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2017 to June 30, 2021. The assumptions used in the June 30, 2022 actuarial valuation are the same as those used in the June 30, 2021 valuation with

1. The amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets.

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2023

(b) Long-Term Expected Rate of Return

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the plan's target asset allocation as of June 30, 2023 are summarized in the following table (note that the rates shown below exclude an inflation component of 2.50%):

Asset class	Target asset allocation	Long-term expected real rate of return
Broad domestic equity	27.00%	6.17%
Global equity (non-U.S.)	22.00	6.55
Aggregate bonds	23.00	1.63
Real assets	14.00	4.87
Private equity	14.00	11.57
Cash equivalents	_	0.49

(c) Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employer and nonemployer contributions will continue to follow the current funding policy which meets State statutes. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(d) Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the Plan as of June 30, 2023 calculated using the discount rate of 7.25%, as well as what the Plan's collective net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.25%) or one-percentage-point higher (8.25%) than the current rate:

	Current	
1% decrease (6.25%)	discount rate (7.25%)	1% increase (8.25%)
\$ 2,588,539,000	1,758,444,000	1,057,182,000

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer June 30, 2023

(6) Collective Deferred Outflows of Resources and Deferred Inflows of Resources

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) for the year ended June 30, 2023:

	Year of	Amortization		Beginning of year			End of year
	deferral	period		balance	Additions	Deductions	balance
Deferred outflows of resources: Change in assumptions	2022	1.1 years	\$_	14,008,909		14,008,909	
Difference between projected and actual earnings on							
pension plan investments	2019	5 years		16,292,600	_	16,292,600	_
	2020	5 years		72,740,000	_	36,370,000	36,370,000
	2021	5 years		(720,211,200)	_	(240,070,400)	(480,140,800)
	2022	5 years		704,780,800	_	176,195,200	528,585,600
	2023	5 years	_		(15,891,000)	(3,178,200)	(12,712,800)
			_	73,602,200	(15,891,000)	(14,390,800)	72,102,000
Total deferred outflows of resources			\$_	87,611,109	(15,891,000)	(381,891)	72,102,000
Deferred inflows of resources: Difference between expected							
and actual experience	2022	1.1 years	\$	5,424,273	_	5,424,273	_
	2023	1.0 years	_		(118,504,000)	(118,504,000)	
Total deferred inflows of resources			\$_	5,424,273	(118,504,000)	(113,079,727)	

The previous amounts do not include employer and nonemployer specific deferred outflows of resources and deferred inflows of resources related to changes in proportion. These amounts should be recognized (amortized) by each employer and nonemployer over the average of the expected remaining service lives of all plan members, which is 1.0 years and 1.1 years for the 2023 and 2022 amounts, respectively.

Amounts reported as deferred outflows of resources and deferred inflows of resources (excluding employer specific amounts) related to pensions will be recognized in pension expense as follows:

Year ending June 30:		
2024	\$	(30,683,400)
2025		(67,053,400)
2026		173,017,000
2027	_	(3,178,200)
Total	\$_	72,102,000

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer June 30, 2023

(7) Collective Pension Expense

The components of the collective pension expense (excluding employer specific amounts) for the year ending June 30, 2023 are as follows:

Service cost	\$ 44,003,000
Interest on total pension liability	540,174,000
Member contributions	(31,835,000)
Administrative expense	3,310,000
Other	(31,000)
Expected investment return net of investment expenses	(425,534,000)
Recognition (amortization) of deferred outflows/inflows of resources:	
Difference between expected and actual experience	113,079,727
Change in assumptions	14,008,909
Difference between projected and actual investment earnings on	
pension plan investments	(14,390,800)
Total pension expense	\$ 242,784,836
