**Tabulations from an early September 2021 Survey  
About Governor Gavin Newsom and  
California's Upcoming Recall Election**

*by the*  
***Berkeley IGS Poll***  
**Institute of Governmental Studies**  
**University of California, Berkeley**

**August 30-September 6, 2021**

## Introduction

The statistical tabulations in this volume are based on a *Berkeley IGS Poll* completed online in English and Spanish August 30-September 6, 2021 among 9,809 California registered voters, of whom a weighted subset of 6,550 were considered most to vote in the state's upcoming recall election. The survey was conducted by the Institute of Governmental Studies (IGS) at the University of California, Berkeley. Funding for the poll was provided in part by the *Los Angeles Times*.

The survey distributed email invitations to stratified random samples of the state's registered voters. Each email invited voters to participate in a non-partisan survey conducted by the University and provided a link to the IGS website where the survey was housed. Reminder emails were distributed to non-responding voters and an opt out link was provided for voters not wishing to participate and not wanting to receive further email invitations.

Samples of registered voters with email addresses were provided to IGS by Political Data, Inc., a leading supplier of registered voter lists in California. The email addresses of voters were derived from information contained on the state's official voter registration rolls. Prior to the distribution of the emails, the overall sample was stratified by age and gender in an attempt to obtain a proper balance of survey respondents across all major segments of the registered voter population.

To protect the anonymity of survey respondents, voters' email addresses and all other personally identifiable information derived from the original voter listing were purged from the data file and replaced with a unique and anonymous identification number during data processing. Post-stratification weights were applied to align the overall sample of the registered voters to population characteristics of the state's registered voters.

Likely voters were identified through voter testimony about their interest in and likelihood of voting in this year's recall election and factoring in their history of voting in past statewide elections. Voters who reported having already voted were included among the sample's likely voters if their ballot could be verified as having been received by their local county registrar as of September 7, 2021.

The sampling error associated with the results from the survey are difficult to calculate precisely due to the effects of sample stratification and the post-stratification weighting. Nevertheless, it is likely that the results from the overall sample of likely voters in the recall election are subject to a sampling error of approximately +/- 2.0 percentage points at the 95% confidence level.

### **Regional definitions referenced in this report**

The results from the state's geographic regions referenced in this volume are comprised of the following counties:

Los Angeles County (Los Angeles County)

Orange County (Orange County)

San Diego County (San Diego County)

Inland Empire (Riverside and San Bernardino counties)

Central Coast (Ventura, Santa Barbara, San Luis Obispo, Monterey, Santa Cruz and San Benito counties)

SF Bay Area (Alameda, Contra Costa, San Francisco, Marin, Napa, Sonoma, Solano, San Mateo, Santa Clara).

North Coast/Sierras (Del Norte, Siskiyou, Modoc, Humboldt, Trinity, Lassen, Mendocino, Plumas, Sierra, Nevada, Lake, Alpine, Amador, Calaveras, Tuolumne, Mono, Mariposa, Inyo counties.)

Sacramento Valley (Shasta, Tehama, Glenn, Butte, Colusa, Yuba, Placer, Sutter, Yolo, El Dorado, and Sacramento counties)

San Joaquin Valley (San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern counties)

Central Valley (net) (includes all counties in the Sacramento Valley and San Joaquin Valley referenced above)

## **About the Institute of Governmental Studies**

The Institute of Governmental Studies (IGS) is an interdisciplinary organized research unit that pursues a vigorous program of research, education, publication and public service. A component of the University of California system's flagship Berkeley campus, IGS is the oldest organized research unit in the UC system and the oldest public policy research center in the state. IGS's co-directors are Professor Eric Schickler and Associate Professor G. Cristina Mora.

IGS conducts periodic surveys of public opinion in California on matters of politics and public policy through its *Berkeley IGS Poll*. The poll, which is disseminated widely, seeks to provide a broad measure of contemporary public opinion, and to generate data for subsequent scholarly analysis. The director of the *Berkeley IGS Poll* is Mark DiCamillo. For a complete listing of stories issued by the *Berkeley IGS Poll* go to <https://www.igs.berkeley.edu/research/berkeley-igs-poll>.

Table 28: Q6 (summary): (if haven't voted yet) 46 candidates are listed on the ballot to replace Governor Newsom. Suppose you were voting today, for whom would you vote as Newsom's replacement for governor? Select one. (if already voted) The recall election ballot included a second question asking voters whom they would choose to replace Newsom as governor should he be recalled from office. 46 candidates were listed on the ballot to replace Governor Newsom. For whom did you vote as Newsom's replacement as governor on this second question? Select one. (Likely Voters Intending to Vote/Already Voted for a Replacement Candidate)
