

On Tuesday, Nov. 12, a short Transponder Working Group meeting will be held in the Room Fuji A (19:00 - 20:30) during the 18th International Workshop on Laser Ranging, essentially back to back with the MWG. This WG meeting addresses the current and future Transponder applications and is certainly open to anyone interested.

The current draft agenda contains:

LRO - Status and future Goals (Jan McGarry)

T2L2 - Current Status / Results (Jean-Marie Torre)

ELT - Station Requirements and Data Center (Anja Schlicht)

Transponder Calibration Campaigns (Ivan Prochazka)

Future Prospects: Juice / GALA (Sven Bauer)
