

ALPHATRUST® e-SIGN

FLEXIBLE E-SIGNATURE AND DOCUMENT PROCESS AUTOMATION

When conducting business in a digital world, you need a safe and flexible solution to not only deliver documents to clients electronically, but also have them signed quickly and securely. AlphaTrust e-Sign is an enterprise e-Signature solution that enables automation, ranging from simple send-a-document-for-signature to your most complex workflows.

AlphaTrust e-Sign is a fully-brandable, compliant eSignature and document-process automation solution that securely digitizes the creation of legally enforceable business records. Increase the efficiency of your daily workflow with AlphaTrust e-Sign through features like presenting disclosures, form filling, document approval, document and policy signature, and secure delivery.

KEEP YOUR BRAND IN THE SPOTLIGHT

iPipeline's white label e-Signature solution gives you full customization of your document delivery and e-Signature experience to continue promoting your brand through the entire sales process. AlphaTrust e-Sign allows you to easily modify the UX to perfectly match your application. Customize a signature block to use just the signature itself or add a variety of transaction details and customized branding – the entire user experience is in your hands!

COMPLIANCE IS KEY

Capturing an electronic signature on a document is simple, but to capture e-Signed documents that are legally enforceable, secure, and compliant is a complex feat. AlphaTrust e-Sign is fully compliant with North American, European and various Asia Pacific laws and regulations, making it the vendor of choice for businesses. This e-Signature solution provides compliance with specific industry standards and regulations, including those for insurance, financial services, banking and more.

OPTIMIZE STP (STRAIGHT THROUGH PROCESSING)

Not all e-Signature solutions are created equal. AlphaTrust e-Sign easily embeds into your existing applications to offer a seamless user experience – there's no need to jump out to another application to obtain signature when you're in the middle of the sales process; stay right where you are. And with seamless integration into iPipeline's iGO and DocFast, you can achieve total straight-through processing and an optimized selling experience.
