Whereas, Article X, Section 9(c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher learning of the Commonwealth.

Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and*

*premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9(a)(3), 9(b), and 9(c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series . . .".*

*§ 5. Execution of bonds and BANs. Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues. Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized*

*rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B of this section.*

*§ 9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a*

*principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance that are held invalid shall not affect the validity of other provisions or applications of this act that can be given effect without the invalid provisions or applications.*

2. That an emergency exists and this act is in force from its passage.

Whereas, Article X, Section 9(c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher learning of the Commonwealth.

become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Article X, Section 9(c) of the Constitution of Virginia.

*including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs shall be used to pay such BANs, refunded bonds and refunded BANs.*

*§ 4. Details, sale of bonds and BANs. Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9(a)(3), 9(b), and 9(c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series . . . ".*

*§ 5. Execution of bonds and BANs. Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a*

*facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues. Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the*

*interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B of this section.*

*§ 9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such*

*effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance that are held invalid shall not affect the validity of other provisions or applications of this act that can be given effect without the invalid provisions or applications.*

2. That an emergency exists and this act is in force from its passage.

**§ 21. Taxation.**

*The exercise of the powers granted by this Act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience, and prosperity, and as the operation and maintenance of any project which the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this Act, and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation, or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services.*

**§ 22. Bonds as legal investments.**

*Bonds issued by the Authority under the provisions of this Act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political*

*subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.*

*§ 23. Appropriation by political subdivision.*

*Any participating political subdivision, or other political subdivision of the Commonwealth all or a part of which is located within 60 miles of an Authority facility, is authorized to provide services, to donate real or personal property, and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ [15.2-2600](#) et seq. of the Code of Virginia) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivision may enter into contracts obligating such bond proceeds to the Authority. The Authority may agree to assume, or reimburse a participating political subdivision for, any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority. With the consent of the governing body of the participating political subdivision, any such agreement may be made subordinate to the Authority's indebtedness to others.*

*§ 24. Fiscal year; Authority budget.*

*A. The fiscal year of the Authority budget shall begin on July 1 and end on June 30.*

*B. The Authority shall annually prepare its budget as agreed to by the participating jurisdictions.*

*§ 25. Contracts with political subdivisions.*

*The Authority is authorized to enter into contracts with any one or more political subdivisions, which contracts may restrict the powers of the Authority otherwise granted by this Act. Any participating political subdivision, or other political subdivision of the Commonwealth all or part of which is located within 60 miles of an Authority facility, is authorized to enter into contracts with the Authority, pursuant to which the Authority undertakes to provide the facilities and render the services specified therein. Any such contract or agreement may provide that the political subdivision will make payments to the Authority based on the services rendered by the Authority to the residents of such political subdivision, determined in such reasonable manner as the Authority and the political*

*subdivision may mutually agree. Each political subdivision entering into such a service contract with the Authority is authorized to do everything necessary or proper to carry out and perform such contract and to provide for the payment or discharge of any obligation thereunder by the same means and in the same manner as any other of its obligations.*

*§ 26. Withdrawal of participating jurisdiction.*

*Whenever it shall appear beneficial to the Authority a participating jurisdiction may request to withdraw from the Authority subject to approval of the remaining political jurisdictions by resolution of the governing bodies. In the event a jurisdiction withdraws from the Authority, that jurisdiction shall be responsible for any outstanding obligations previously agreed to and shall not be entitled to any benefit of the assets of the Authority.*

*§ 27. Dissolution of Authority.*

*Whenever it shall appear to the Authority, or a majority of participating political subdivisions, that the need for the Authority no longer exists, the Authority, or in the proper case, any such subdivision, may petition the Circuit Court of Campbell County for the dissolution of the Authority and provide a plan for distribution of assets to the participating jurisdictions. If the court shall determine that the need for the Authority as set forth in this Act no longer exists and that all debts and pecuniary obligations of the Authority have been fully paid or provided for, it may enter an order dissolving the Authority.*

*Upon dissolution, the court shall order any real property contributed to the Authority by a participating political subdivision, together with any improvements thereon, returned to such participating political subdivision as set forth in the dissolution plan or as determined by the court if no plan exists. In the event no plan exists the remaining assets of the Authority shall be distributed to the participating political subdivisions in proportion to their respective contributions theretofore made to the Authority.*

*Each participating political subdivision and all holders of the Authority's bonds shall be made parties to any such proceeding and shall be given notice as provided by law. Any party defendant may reply to such petition at any time within six months after the filing of the petition. From the final judgment of the court, an appeal shall lie to the Supreme Court of Virginia.*

*§ 28. Agreement with Commonwealth and participating political subdivisions.*

*The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such*

*bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds.*

*§ 29. Liberal construction.*

*Neither this Act nor anything herein contained is or shall be construed as a restriction or limitation upon any powers which the Authority might otherwise have under any laws of the Commonwealth, and this Act is cumulative to any such powers. This Act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds, notes, or other obligations. No proceedings, notice, or approval shall be required for the issuance of any bonds or any instrument as security therefor, except as is expressly provided in this Act. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this Act.*

*§ 30. Application of local ordinances, service charges, and taxes upon leaseholds.*

*Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia, or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom.*

*§ 31. Existing contracts, leases, franchises, etc., not impaired.*

*No provisions of this Act shall relieve, impair or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification.*

The Governor shall include in "The Budget Bill" pursuant to § [2.2-1509](#) recommended appropriations from the general fund or recommended amendments to general fund appropriations in the general appropriation act in effect at that time an amount for non-recurring expenditures *and an amount for deposit into the Transportation Trust Fund* equal to the ~~amount~~ amounts designated by the Comptroller for such ~~purpose~~ purposes pursuant to the provisions of subsection B ~~of this section~~. *Such deposit to the Transportation Trust Fund shall not preclude the appropriation of additional amounts from the general fund for transportation purposes.*

§ [10.1-1188](#). State agencies to submit environmental impact reports on major projects.

A. All state agencies, boards, authorities and commissions or any branch of the state government shall prepare and submit an environmental impact report to the Department on each major state project.

"Major state project" means the acquisition of an interest in land for any state facility construction, or the construction of any facility or expansion of an existing facility which is hereafter undertaken by any state agency, board, commission, authority or any branch of state government, including state-supported institutions of higher learning, which costs \$100,000 or more. For the purposes of this chapter, authority shall not include any industrial development authority created pursuant to the provisions of Chapter 49 (§ [15.2-4900](#) et seq.) of Title 15.2 or Chapter 643, as amended, of the 1964 Acts of Assembly. Nor shall authority include any housing development or redevelopment authority established pursuant to state law. For the purposes of this chapter, branch of state government shall ~~not include~~ *apply to any county, city or town of the Commonwealth only in connection with highway construction, reconstruction, or improvement projects affecting highways or roads undertaken by the county, city, or town.*

Such environmental impact report shall include, but not be limited to, the following:

1. The environmental impact of the major state project, including the impact on wildlife habitat;
2. Any adverse environmental effects which cannot be avoided if the major state project is undertaken;
3. Measures proposed to minimize the impact of the major state project;
4. Any alternatives to the proposed construction; and

5. Any irreversible environmental changes which would be involved in the major state project.

For the purposes of subdivision 4 of this subsection, the report shall contain all alternatives considered and the reasons why the alternatives were rejected. If a report does not set forth alternatives, it shall state why alternatives were not considered.

B. For purposes of this chapter, this subsection shall not *only* apply to the review of highway and road construction projects or any part thereof. The Secretaries of Transportation and Natural Resources shall jointly establish procedures for review and comment by state natural and historic resource agencies of highway and road construction projects. Such procedures shall provide for review and comment on appropriate projects and categories of projects to address the environmental impact of the project, any adverse environmental effects which cannot be avoided if the project is undertaken, the measures proposed to minimize the impact of the project, any alternatives to the proposed construction, and any irreversible environmental changes which would be involved in the project.

§ 15.2-2223.1. *Comprehensive plan to include urban development areas; new urbanism.*

A. *Every county, city, or town that has adopted zoning pursuant to Article 7 (§ 15.2-2280 et seq.) of Chapter 22 of Title 15.2 and that (i) has a population of at least 20,000 and population growth of at least 5% or (ii) has population growth of 15% or more, shall, and any county, city or town may, amend its comprehensive plan to incorporate one or more urban development areas. For purposes of this section, population growth shall be the difference in population from the next-to-latest to the latest decennial census year, based on population reported by the United States Bureau of the Census. For purposes of this section, an urban development area is an area designated by a locality that is appropriate for higher density development due to proximity to transportation facilities, the availability of a public or community water and sewer system, or proximity to a city, town, or other developed area. The comprehensive plan shall provide for commercial and residential densities within urban development areas that are appropriate for reasonably compact development at a density of at least four residential units per gross acre and a minimum floor area ratio of 0.4 per gross acre for commercial development. The comprehensive plan shall designate one or more urban development areas sufficient to meet projected residential and commercial growth in the locality for an ensuing period of at least 10 but not more than 20 years, which may include phasing of development within the urban development areas. Future growth shall be based on official estimates and projections of the Weldon Cooper Center for Public Service of the University of Virginia or other official government sources. The boundaries and size of each urban*

*development area shall be reexamined and, if necessary, revised every five years in conjunction with the update of the comprehensive plan and in accordance with the most recent available population growth estimates and projections. Such districts may be areas designated for redevelopment or infill development.*

*B. The comprehensive plan shall further incorporate principles of new urbanism and traditional neighborhood development, which may include but need not be limited to (i) pedestrian-friendly road design, (ii) interconnection of new local streets with existing local streets and roads, (iii) connectivity of road and pedestrian networks, (iv) preservation of natural areas, (v) satisfaction of requirements for stormwater management, (vi) mixed-use neighborhoods, including mixed housing types, (vii) reduction of front and side yard building setbacks, and (viii) reduction of subdivision street widths and turning radii at subdivision street intersections.*

*C. The comprehensive plan shall describe any financial and other incentives for development in the urban development areas.*

*D. No county, city, or town that has amended its comprehensive plan in accordance with this section shall limit or prohibit development pursuant to existing zoning or shall refuse to consider any application for rezoning based solely on the fact that the property is located outside the urban development area.*

*E. Any county, city, or town that would be required to amend its plan pursuant to this section that determines that its plan accommodates growth in a manner consistent with this section, upon adoption of a resolution certifying such compliance, shall not be required to further amend its plan.*

*F. Any county that amends its comprehensive plan pursuant to this section may designate one or more urban development areas in any incorporated town within such county, if the governing body of the town has also amended its comprehensive plan to designate the same areas as urban development areas with at least the same density designated by the county.*

*G. To the extent possible, state and local transportation, housing, and economic development funding shall be directed to the urban development area.*

[§ 15.2-2317](#). Applicability of article.

*This article shall apply to (i) any county having a population of 500,000 or more as determined by the most recent U.S. Census, (ii) any county or city adjacent thereto, (iii) any city contiguous to such adjacent county or city, (iv) any town within such county or an adjacent county, (v) any county having a population between 58,000 and 62,000 as determined by the 1990 U.S. Census, (vi) Fauquier County, (vii) Spotsylvania County and (viii) Frederick County any locality that has adopted zoning pursuant to Article 7 (§*

[15.2-2280](#) et seq.) of Chapter 22 of Title 15.2 and that (i) has a population of at least 20,000 and has a population growth rate of at least 5% or (ii) has population growth of 15% or more. For the purposes of this section, population growth shall be the difference in population from the next-to-latest to the latest decennial census year, based on population reported by the United States Bureau of the Census.

§ [15.2-2318](#). Definitions.

As used in this article, unless the context requires a different meaning:

"Cost" includes, in addition to all labor, materials, machinery and equipment for construction, (i) acquisition of land, rights-of-way, property rights, easements and interests, including the costs of moving or relocating utilities, (ii) demolition or removal of any structure on land so acquired, including acquisition of land to which such structure may be moved, (iii) survey, engineering, and architectural expenses, (iv) legal, administrative, and other related expenses, and (v) interest charges and other financing costs if impact fees are used for the payment of principal and interest on bonds, notes or other obligations issued by the locality to finance the road improvement.

"Impact fee" means a charge or assessment imposed against new development in order to generate revenue to fund or recover the costs of reasonable road improvements ~~needed~~ ~~by and attributable to~~ *benefiting* the new development. Impact fees may not be assessed and imposed for road repair, operation and maintenance, nor to ~~expand existing roads to~~ meet demand which existed prior to the new development.

"Impact fee service area" means ~~land designated by ordinance within a locality~~, *an area designated within the comprehensive plan of a locality* having clearly defined boundaries and clearly related traffic needs and within which development is to be subject to the assessment of impact fees.

"Road improvement" includes construction of new roads or improvement or expansion of existing roads *and related appurtenances* as required by applicable ~~construction~~ standards of the Virginia Department of Transportation, *or the applicable standards of a locality with road maintenance responsibilities*, to meet increased demand attributable to new development. Road improvements do not include on-site construction of roads which a developer may be required to provide pursuant to §§ [15.2-2241](#) through [15.2-2245](#).

§ [15.2-2319](#). Authority to assess and impose impact fees.

Any applicable locality may, by ordinance pursuant to the procedures and requirements of this article, assess and impose impact fees on new development to pay all or a part of the cost of reasonable road improvements ~~attributable in substantial part to that benefit~~ the new development.

Prior to the adoption of the ordinance, a locality shall establish an impact fee advisory committee. The committee shall be composed of not less than five nor more than ten members appointed by the governing body of the locality and at least forty percent of the membership shall be representatives from the development, building or real estate industries. The planning commission or other existing committee that meets the membership requirements may serve as the impact fee advisory committee. The committee shall serve in an advisory capacity to assist and advise the governing body of the locality with regard to the ordinance. No action of the committee shall be considered a necessary prerequisite for any action taken by the locality in regard to the adoption of an ordinance.

§ [15.2-2320](#). Impact fee service areas to be established.

The locality shall delineate one or more impact fee service areas within its ~~jurisdiction~~ *comprehensive plan*. Impact fees collected from new development within an impact fee service area shall be expended for road improvements ~~within~~ *benefiting* that impact fee service area. An impact fee service area may encompass more than one road improvement project. *A locality may exclude urban development areas designated pursuant to § [15.2-2223.1](#) from impact fee service areas.*

§ [15.2-2321](#). Adoption of road improvements program.

Prior to adopting a system of impact fees, the locality shall conduct an assessment of road improvement needs ~~within~~ *benefiting* an impact fee service area ~~and in the locality~~ and shall adopt a road improvements plan for the area showing the new roads proposed to be constructed and the existing roads to be improved or expanded and the schedule for undertaking such construction, improvement or expansion. The road improvements plan shall be adopted as an amendment to the required comprehensive plan and shall be incorporated into the capital improvements program or, in the case of the counties where applicable, the six-year plan for secondary road construction pursuant to § [33.1-70.01](#).

The locality shall adopt the road improvements plan after holding a duly advertised public hearing. The public hearing notice shall identify the impact fee service area or areas to be designated, and shall include a summary of the needs assessment and the assumptions upon which the assessment is based, the proposed amount of the impact fee, and information as to how a copy of the complete study may be examined. A copy of the complete study shall be available for public inspection and copying at reasonable times prior to the public hearing.

The locality at a minimum shall include the following items in assessing road improvement needs and preparing a road improvements plan:

1. An analysis of the existing capacity, current usage and existing commitments to future usage of existing roads, as indicated by (i) *current and projected service levels*, (ii) ~~current valid building permits outstanding, (ii) approved conditional rezonings, special exceptions, and special use permits,~~ and (iii) approved *and pending* site plans and subdivision plats. If the current usage and commitments exceed the existing capacity of the roads, the locality also shall determine the costs of improving the roads to meet the demand. The analysis shall *include any off-site road improvements or cash payments for road improvements accepted by the locality and shall include a plan to fund the current usages and commitments that exceed the existing capacity of the roads.*

2. The projected need for and costs of construction of new roads or improvement or expansion of existing roads attributable in whole or in part to projected new development. Road improvement needs shall be projected for the impact fee service area when fully developed in accord with the comprehensive plan and, if full development is projected to occur more than ~~ten~~ 20 years in the future, at the end of a ~~ten-year~~ 20-year period. The assumptions with regard to land uses, densities, intensities, and population upon which road improvement projections are based shall be presented.

3. The total number of new service units projected for the impact fee service area when fully developed and, if full development is projected to occur more than ~~ten~~ 20 years in the future, at the end of a ~~ten-year~~ 20-year period. A "service unit" is a standardized measure of traffic use or generation. The locality shall develop a table or method for attributing service units to various types of development and land use, including but not limited to residential, commercial and industrial uses. The table shall be based upon the ITE manual (published by the Institute of Transportation Engineers) or locally conducted trip generation studies, *and consistent with the traffic analysis standards adopted pursuant to § 15.2-2222.1.*

§ [15.2-2322](#). Adoption of impact fee and schedule.

After adoption of a road improvement program, the locality may adopt an ordinance establishing a system of impact fees to fund or recapture all or any part of the cost of providing reasonable road improvements ~~required by~~ *benefiting* new development. The ordinance shall set forth the schedule of impact fees.

§ [15.2-2323](#). When impact fees assessed and imposed.

The amount of impact fees to be imposed on a specific development or subdivision shall be determined before or at the time the site plan or subdivision is approved. The ordinance shall specify that the fee is to be collected at the time of the issuance of a ~~certificate of occupancy~~ *building permit*. The ordinance shall provide that fees (i) may be paid in lump sum or (ii) be paid on installment at a reasonable rate of interest for a fixed number

of years. The locality by ordinance may provide for negotiated agreements with the owner of the property as to the time and method of paying the impact fees.

The maximum impact fee to be imposed shall be determined (i) by dividing projected road improvement costs in the *impact fee* service area when fully developed by the number of projected service units when fully developed, or (ii) for a reasonable period of time, but not less than ten years, by dividing the projected costs necessitated by development in the next ten years by the service units projected to be created in the next ten years.

The ordinance shall provide for appeals from administrative determinations, regarding the impact fees to be imposed, to the governing body or such other body as designated in the ordinance. The ordinance may provide for the resolution of disputes over an impact fee by arbitration or otherwise.

~~No impact fees shall be assessed or imposed upon a development or subdivision if the subdivider or developer has proffered conditions pursuant to §§ [15.2-2298](#) or [15.2-2303](#) for off-site road improvements and the proffered conditions have been accepted by the local government.~~

*B. Any urban county that has established an urban transportation service district in accordance with this section shall maintain the roads within such district. Any such county shall receive an amount equal to the per lane mile maintenance payments made to cities and certain towns pursuant to § [33.1-41.1](#) for the area within the district for purposes of road maintenance.*

*A. All moneys received by the Authority and the proceeds of bonds issued pursuant to § [15.2-4839](#) shall be used by the Authority solely for transportation purposes benefiting those counties and cities that are embraced by the Authority.*

*B. Forty percent of the revenues shall be distributed on a pro rata basis, with each locality's share being the total of such fees and taxes assessed or imposed by the Authority and received by the Authority that are generated or attributable to the locality divided by the total of such fees and taxes assessed or imposed by the Authority and received by the Authority. *For each year after 2018 any portion of the amount distributed pursuant to this subsection may be used for mass transit improvements in Prince William County;*

Notwithstanding the foregoing, any locality may provide engineering services or right-of-way acquisition for any project with its own forces. The Authority shall avail itself of the strategies permitted under the Public-Private Transportation Act (§ [56-556](#) et seq.) whenever feasible and advantageous. Notwithstanding the foregoing, at the request of the Authority, VDOT may provide the Authority with engineering services or right-of-way acquisition for the project with its own forces. When determining what projects to construct under this subsection, the Authority shall base its decisions on the combination that (i) equitably*

*distributes the funds throughout the localities, and (ii) constructs projects that move the most people or commercial traffic in the most cost-effective manner, and on such other factors as approved by the Authority.*

*3. All revenues deposited to the credit of the Authority shall be used for projects benefiting the localities embraced by the Authority, with each locality's total long-term benefits being approximately equal to the total of the fees and taxes received by the Authority that are generated by or attributable to the locality divided by the total of such fees and taxes received by the Authority.*

*D. For road construction and improvements pursuant to subsection B, the Department of Transportation may, on a reimbursement basis, provide the locality with planning, engineering, right-of-way, and construction services for projects funded in whole by the revenues provided to the locality by the Authority.*

The amount of such toll and the time of day when such toll shall change shall be as fixed and revised by the Commonwealth Transportation Board or such other entity as may be responsible for fixing or revising the amount of such toll; provided, however, that any such variation shall be reasonably calculated to minimize the reduction in toll revenue generated by such toll.

B. *1. Beginning July 1, 2008, every agency of the Commonwealth or any political subdivision or instrumentality thereof having control of or day-to-day responsibility for the operation of any toll facility in the Commonwealth shall take all necessary actions to ensure that every newly constructed toll facility under its control is capable of fully automated electronic operation, employing technologies and procedures that permit the collection of tolls from users of the facility, to the extent possible, without impeding the traffic flow of the facility. An entity operating a toll facility that substantially upgrades its equipment or substantially renovates its facility after July 1, 2008, shall comply with the provisions of this subsection. The provisions of this section shall also apply to any nongovernmental or quasigovernmental entity operating a toll facility under a comprehensive agreement entered into, pursuant to the Public-Private Transportation Act of 1995 (§ [56-556](#) et seq.), on or after January 1, 2008. § [46.2-694](#). Fees for vehicles designed and used for transportation of passengers; weights used for computing fees; burden of proof.

A. The annual registration fees for motor vehicles, trailers, and semitrailers designed and used for the transportation of passengers on the highways in the Commonwealth are:

1. ~~Twenty-three~~ *Thirty-three* dollars for each private passenger car or motor home if the passenger car or motor home weighs 4,000 pounds or less, provided that it is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire, or is not operated under a lease without a chauffeur.
2. ~~Twenty-eight~~ *Thirty-eight* dollars for each passenger car or motor home which weighs more than 4,000 pounds, provided that it is not used for the transportation of passengers

for compensation and is not kept or used for rent or for hire, or is not operated under a lease without a chauffeur.

3. Thirty cents per 100 pounds or major fraction thereof for a private motor vehicle other than a motorcycle with a normal seating capacity of more than 10 adults including the driver if the private motor vehicle is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire or is not operated under a lease without a chauffeur. In no case shall the fee be less than \$23 if the vehicle weighs 4,000 pounds or less or \$28 if the vehicle weighs more than 4,000 pounds.

4. Thirty cents per 100 pounds or major fraction thereof for a school bus. In no case shall the fee be less than \$23 if the vehicle weighs 4,000 pounds or less or \$28 if the vehicle weighs more than 4,000 pounds.

5. Twenty-three dollars for each trailer or semitrailer designed for use as living quarters for human beings.

6. Thirteen dollars plus \$ 0.30 per 100 pounds or major fraction thereof for each motor vehicle, trailer, or semitrailer used as a common carrier of passengers, operating either intrastate or interstate. Interstate common carriers of interstate passengers may elect to be licensed and pay the fees prescribed in subdivision 7 of this subsection on submission to the Commissioner of a declaration of operations and equipment as he may prescribe. An additional \$5 shall be charged if the motor vehicle weighs more than 4,000 pounds.

7. Thirteen dollars plus \$ 0.70 per 100 pounds or major fraction thereof for each motor vehicle, trailer, or semitrailer used as a common carrier of interstate passengers if election is made to be licensed under this subsection. An additional \$5 shall be charged if the motor vehicle weighs more than 4,000 pounds. In lieu of the foregoing fee of \$ 0.70 per 100 pounds, a motor carrier of passengers, operating two or more vehicles both within and outside the Commonwealth and registered for insurance purposes with the Surface Transportation Board of the United States Department of Transportation, Federal Highway Administration, may apply to the Commissioner for prorated registration. Upon the filing of such application, in such form as the Commissioner may prescribe, the Commissioner shall apportion the registration fees provided in this subsection so that the total registration fees to be paid for such vehicles of such carrier shall be that proportion of the total fees, if there were no apportionment, that the total number of miles traveled by such vehicles of such carrier within the Commonwealth bears to the total number of miles traveled by such vehicles within and outside the Commonwealth. Such total mileage in each instance is the estimated total mileage to be traveled by such vehicles during the license year for which such fees are paid, subject to

the adjustment in accordance with an audit to be made by representatives of the Commissioner at the end of such license year, the expense of such audit to be borne by the carrier being audited. Each vehicle passing into or through Virginia shall be registered and licensed in Virginia and the annual registration fee to be paid for each such vehicle shall not be less than \$33. For the purpose of determining such apportioned registration fees, only those motor vehicles, trailers, or semitrailers operated both within and outside the Commonwealth shall be subject to inclusion in determining the apportionment provided for herein.

8. Thirteen dollars plus \$ 0.80 per 100 pounds or major fraction thereof for each motor vehicle, trailer or semitrailer kept or used for rent or for hire or operated under a lease without a chauffeur for the transportation of passengers. An additional fee of \$5 shall be charged if the vehicle weighs more than 4,000 pounds. This subsection does not apply to vehicles used as common carriers.

9. Twenty-three dollars for a taxicab or other vehicle which is kept for rent or hire operated with a chauffeur for the transportation of passengers, and which operates or should operate under permits issued by the Department as required by law. An additional fee of \$5 shall be charged if the vehicle weighs more than 4,000 pounds. This subsection does not apply to vehicles used as common carriers.

10. Eighteen dollars for a motorcycle, with or without a sidecar. To this fee shall be added a surcharge of \$3 which shall be distributed as provided in § [46.2-1191](#).

11. Twenty-three dollars for a bus used exclusively for transportation to and from church school, for the purpose of religious instruction, or church, for the purpose of divine worship. If the empty weight of the vehicle exceeds 4,000 pounds, the fee shall be \$28.

12. Thirteen dollars plus \$ 0.70 per 100 pounds or major fraction thereof for other passenger-carrying vehicles.

13. An additional fee of \$4 per year shall be charged and collected at the time of registration of each pickup or panel truck and each motor vehicle under subdivisions 1 through 12 of this subsection. All funds collected pursuant to this subdivision shall be paid into the state treasury and shall be set aside as a special fund to be used only for emergency medical service purposes. The moneys in the special fund shall be distributed as follows:

a. Two percent shall be distributed to the State Department of Health to provide funding to the Virginia Association of Volunteer Rescue Squads to be used solely for the purpose of conducting volunteer recruitment, retention and training activities;

b. Thirty percent shall be distributed to the State Department of Health to support (i) emergency medical services training programs (excluding advanced life support classes); (ii)

advanced life support training; (iii) recruitment and retention programs (all funds for such support shall be used to recruit and retain volunteer emergency medical services personnel only, including public awareness campaigns, technical assistance programs, and similar activities); (iv) emergency medical services system development, initiatives, and priorities based on needs identified by the State Emergency Medical Services Advisory Board; (v) local, regional, and statewide performance contracts for emergency medical services to meet the objectives stipulated in § [32.1-111.3](#); (vi) technology and radio communication enhancements; and (vii) improved emergency preparedness and response. Any funds set aside for distribution under this provision and remaining undistributed at the end of any fiscal year shall revert to the Rescue Squad Assistance Fund;

c. Thirty-two percent shall be distributed to the Rescue Squad Assistance Fund;

d. Ten percent shall be available to the State Department of Health's Office of Emergency Medical Services for use in emergency medical services; and

e. Twenty-six percent shall be returned by the Comptroller to the locality wherein such vehicle is registered, to provide funding for training of volunteer or salaried emergency medical service personnel of licensed, nonprofit emergency medical services agencies and for the purchase of necessary equipment and supplies for use in such locality for licensed, nonprofit emergency medical and rescue services.

The Comptroller shall clearly designate on the warrant, check, or other means of transmitting these funds that such moneys are only to be used for purposes set forth in this subdivision. Such funds shall be in addition to any local appropriations and local governing bodies shall not use these funds to supplant local funds. Each local governing body shall report annually to the Board of Health on the use of the funds returned to it pursuant to this section. In any case in which the local governing body grants the funds to a regional emergency medical services council to be distributed to the licensed, nonprofit emergency medical and rescue services, the local governing body shall remain responsible for the proper use of the funds. If, at the end of any fiscal year, a report on the use of the funds returned to the locality pursuant to this section for that year has not been received from a local governing body, any funds due to that local governing body for the next fiscal year shall be retained until such time as the report has been submitted to the Board.

B. All motor vehicles, trailers, and semitrailers registered as provided in subsection B of § [46.2-646](#) shall pay a registration fee equal to one-twelfth of all fees required by subsection A of this section or § [46.2-697](#) for such motor vehicle, trailer, or semitrailer, computed to the nearest cent, multiplied by the number of months in the registration period for such motor vehicles, trailers, and semitrailers.

C. The manufacturer's shipping weight or scale weight shall be used for computing all fees required by this section to be based upon the weight of the vehicle.

D. The applicant for registration bears the burden of proof that the vehicle for which registration is sought is entitled by weight, design, and use to be registered at the fee tendered by the applicant to the Commissioner or to his authorized agent.

§ [46.2-694.1](#). Fees for trailers and semitrailers not designed and used for transportation of passengers.

**§ [46.2-1167.1](#). Additional fee permitted in certain counties and cities.**

*In addition to all other charges and fees permitted by law, the Hampton Roads Transportation Authority and the Northern Virginia Transportation Authority are authorized to charge an additional fee at the time of inspection in the amount of \$10 for all vehicles for which an amount is permitted to be charged for inspection pursuant to § [46.2-1167](#) in the area embraced by the respective Authority and which shall be transmitted to the respective Authority.*

**§ [58.1-605](#).** To what extent and under what conditions cities and counties may levy local sales taxes; collection thereof by Commonwealth and return of revenue to each city or county entitled thereto.

A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as authorized by this section.

B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§ [58.1-603](#) and [58.1-604](#) and shall be subject to all the provisions of this chapter and the rules and

regulations published with respect thereto. No discount under § [58.1-622](#) shall be allowed on a local sales tax.

C. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state sales tax.

E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales tax moneys shall be credited to the account of each particular city or county levying a local sales tax under this section. The basis of such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are involved.

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the next six months as follows: one-sixth of the total adjustment shall be included in the payments for the next six months. In addition, the payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years preceding the discovery of the

error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last preceding school age population census, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such census and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G above, that in any county wherein is situated any incorporated town not constituting a separate special school district which has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age population of the entire county, based on the latest statewide school census. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last preceding school age population census, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such census and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any incorporated town not constituting a separate school district within such county which has not complied with the provisions of its charter relating to the elections of its council and mayor, an amount not to exceed the

amount it would have received from the tax imposed by this chapter if such election had been held.

J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer under subsection G or H of this section be located in a county which does not levy a general retail sales tax under the provisions of this law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the county within which such town is located.

*K. 1. Notwithstanding the other provisions of this chapter, the Hampton Roads Transportation Authority and the Northern Virginia Transportation Authority may impose a retail sales tax at the rate of 5% on (i) charges for separately stated labor or services in the repair of motor vehicles and (ii) charges for the repair of a motor vehicle in cases in which the true object of the repair is a service provided within a city or county embraced by the respective Authority.*

*2. The revenue generated and collected pursuant to the tax authorized under this subsection, less the applicable portion of any refunds to taxpayers and after subtraction of the direct costs of administration by the Department, shall be deposited and held in a special trust fund under the control of the State Treasurer entitled "Special Sales and Use Tax Motor Vehicle Repair Fund." The State Treasurer on a monthly basis shall distribute the amounts deposited in the special trust fund to the Hampton Roads Transportation Authority or the Northern Virginia Transportation Authority as appropriate.*

*3. No discount under § [58.1-622](#) shall be allowed for the tax described under this subsection. Except as otherwise provided herein, the tax under this subsection shall be administered and collected in the same manner and subject to the same penalties as provided for the local retail sales tax.*

§ [58.1-606](#). To what extent and under what conditions cities and counties may levy local use tax; collection thereof by Commonwealth and return of revenues to the cities and counties.

A. The council of any city and the governing body of any county which has levied or may hereafter levy a city or county sales tax under § [58.1-605](#) may levy a city or county use tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state use tax imposed by this chapter and shall be subject to all the provisions of this chapter, and all amendments thereof,

and the rules and regulations published with respect thereto, except that no discount under § [58.1-622](#) shall be allowed on a local use tax.

B. The council of any city and the governing body of any county desiring to impose a local use tax under this section may do so in the manner following:

1. If the city or county has previously imposed the local sales tax authorized by § [58.1-605](#), the local use tax may be imposed by the council or governing body by the adoption of a resolution by a majority of all the members thereof, by a recorded yea and nay vote, stating its purpose and referring to this section, and providing that the local use tax shall become effective on the first day of a month at least 60 days after the adoption of the resolution. A certified copy of such resolution shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption. The resolution authorized by this paragraph may be adopted in the manner stated notwithstanding any other provision of law, including any charter provision.

2. If the city or county has not imposed the local sales tax authorized by § [58.1-605](#), the local use tax may be imposed by ordinance together with the local sales tax in the manner set out in subsections B and C of § [58.1-605](#).

C. Any local use tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state use tax.

D. The local use tax authorized by this section shall not apply to transactions to which the sales tax applies, the situs of which for state and local sales tax purposes is the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. However, the local use tax authorized by this section shall apply to tangible personal property purchased without this Commonwealth for use or consumption within the city or county imposing the local use tax, or stored within the city or county for use or consumption, where the property would have been subject to the sales tax if it had been purchased within this Commonwealth. The local use tax shall also apply to leases or rentals of tangible personal property where the place of business of the lessor is without this Commonwealth and such leases or rentals are subject to the state tax. Moreover, the local use tax shall apply in all cases in which the state use tax applies.

E. Out-of-state dealers who hold certificates of registration to collect the use tax from their customers for remittance to this Commonwealth shall, to the extent reasonably practicable, in filing their monthly use tax returns with the Tax Commissioner, break down their shipments into this Commonwealth by cities and counties so as to show the city or county of destination. If, however, the out-of-state dealer is unable accurately to assign

any shipment to a particular city or county, the local use tax on the tangible personal property involved shall be remitted to the Commonwealth by such dealer without attempting to assign the shipment to any city or county.

F. Local use tax revenue shall be distributed among the cities and counties for which it is collected, respectively, as shown by the records of the Department, and the procedure shall be the same as that prescribed for distribution of local sales tax revenue under § [58.1-605](#). The local use tax revenue that is not accurately assignable to a particular city or county shall be distributed monthly by the appropriate state authorities among the cities and counties in this Commonwealth imposing the local use tax upon the basis of taxable retail sales in the respective cities and counties in which the local sales and use tax was in effect in the taxable month involved, as shown by the records of the Department, and computed with respect to taxable retail sales as reflected by the amounts of the local sales tax revenue distributed among such cities and counties, respectively, in the month of distribution. Notwithstanding any other provision of this section, the Tax Commissioner shall develop a uniform method to distribute local use tax. Any significant changes to the method of local use tax distribution shall be phased in over a five-year period. Distribution information shall be shared with the affected localities prior to implementation of the changes.

G. All local use tax revenue shall be used, applied or disbursed by the cities and counties as provided in § [58.1-605](#) with respect to local sales tax revenue.

*H. 1. Notwithstanding the other provisions of this chapter, the Hampton Roads Transportation Authority and the Northern Virginia Transportation Authority may impose a retail use tax at the rate of 5% on (i) charges for separately stated labor or services for the repair of motor vehicles and (ii) charges for the repair of a motor vehicle in cases in which the true object of the repair is a service provided within a city or county embraced by the respective Authority.*

*2. The revenue generated and collected pursuant to the tax authorized under this subsection, less the applicable portion of any refunds to taxpayers and after subtraction of the direct costs of administration by the Department, shall be deposited and held in a special trust fund under the control of the State Treasurer entitled "Special Sales and Use Tax Motor Vehicle Repair Fund." The State Treasurer on a monthly basis shall distribute the amounts deposited in the special trust fund to the Hampton Roads Transportation Authority or the Northern Virginia Transportation Authority as appropriate.*

*3. No discount under § [58.1-622](#) shall be allowed for the tax described under this subsection. Except as otherwise provided herein, the tax under this subsection shall be*

*administered and collected in the same manner and subject to the same penalties as provided for the local retail use tax.*

*§ [58.1-625.1](#). Certain dealers required to separately state labor or service charges in the repair of motor vehicles.*

*Any dealer or other person required to collect any tax imposed under this chapter, or pursuant to any authority granted under this chapter, who is located in any county or city embraced by the Northern Virginia Transportation Authority established under § [15.2-4830](#) or the Hampton Roads Transportation Authority established under § [33.1-391.7](#), shall separately state on any bill, invoice, ticket, or other billing statement the amount charged by such dealer or person for labor or services performed in the repair of motor vehicles. This section shall apply only in the counties or cities embraced by the Northern Virginia Transportation Authority if the Authority is imposing the taxes authorized pursuant to subsection K of § [58.1-605](#) and subsection H of § [58.1-606](#), or in the counties or cities embraced by the Hampton Roads Transportation Authority if the Authority is imposing the taxes authorized pursuant to subsection K of § [58.1-605](#) and subsection H of § [58.1-606](#).*

*§ [58.1-802.1](#). Regional congestion relief fee.*

*In addition to any other tax imposed under the provisions of this chapter, the Hampton Roads Transportation Authority established pursuant to § [33.1-391.7](#) and the Northern Virginia Transportation Authority established pursuant to § [15.2-4830](#) may impose a fee, delineated as the "Regional congestion relief fee," on each deed, instrument, or writing by which lands, tenements, or other realty located in any county or city embraced by the respective Authority is sold and is granted, assigned, transferred, or otherwise conveyed to or vested in the purchaser or any other person, by such purchaser's direction. The rate of the fee, when the consideration or value of the interest, whichever is greater, equals or exceeds \$100, shall be \$0.40 for each \$100 or fraction thereof, exclusive of the value of any lien or encumbrance remaining thereon at the time of the sale, whether such lien is assumed or the realty is sold subject to such lien or encumbrance.*

*The fee imposed by this section shall be paid by the grantor, or any person who signs on behalf of the grantor, of any deed, instrument, or writing subject to the fee imposed by this section.*

*Fees imposed by this section shall be collected pursuant to subsection B of § [58.1-802](#). However, the compensation allowed to the clerk of the court under such subsection shall not be applicable with regard to the fee collected under this section. The clerk shall return all fees collected pursuant to the authority granted under this section to the Hamp-*

*ton Roads Transportation Authority or the Northern Virginia Transportation Authority, as appropriate, as soon as practicable.*

A. In addition to the taxes authorized under § [58.1-3712](#), any county or city may adopt a license tax on every person engaging in the business of severing coal or gases from the earth. The rate of such tax shall not exceed one percent. The provisions of § [58.1-3712](#) as they relate to measurement of gross receipts, filing of reports and record keeping shall be applicable to the tax imposed under this section.

The moneys collected for each county or city from the tax imposed under authority of this section shall be paid into a special fund of such county or city to be called the Coal and Gas Road Improvement Fund of such county or city, and shall be spent for such improvements to public roads as the coal and gas road improvement advisory committee and the governing body of such county or city may determine as provided in subsection B of this section. The county may also, in its discretion, elect to improve city or town roads with its funds if consent of the city or town council is obtained. Such funds shall be in addition to those allocated to such counties from state highway funds which allocations shall not be reduced as a result of any revenues received from the tax imposed hereunder. In those localities which comprise the Virginia Coalfield Economic Development Authority, the tax imposed under this section shall be paid as follows: (i) three-fourths of the revenue shall be paid to the Coal and Gas Road Improvement Fund and used for the purposes set forth herein; however, one-fourth of such revenue may be used to fund the construction of new water and/or sewer systems and lines in areas with natural water supplies which are insufficient from the standpoint of quality or quantity, and (ii) one-fourth of the revenue shall be paid to the Virginia Coalfield Economic Development Fund. Furthermore, with regard to the portion paid to the Coal and Gas Road Improvement Fund, a county or city may provide for an additional one-fourth allocation for the construction of new water or sewer systems or lines or the repair or enhancement of existing water or sewer systems or lines in areas with natural water supplies which are insufficient from the standpoint of quality or quantity; however, if this option is initiated by a county or city, it must satisfy the requirements set forth in § [58.1-3713.01](#). Notwithstanding the foregoing limitations regarding revenues used for water systems and/or sewer systems, such revenues designated for water and water systems and/or sewer systems shall be dis-

tributed directly to the local public service authority for such purposes instead of the local governing body.

B. Any county or city imposing the tax authorized in this section shall establish a Coal and Gas Road Improvement Advisory Committee, to be composed of four members: (i) a member of the governing body of such county or city, appointed by the governing body, (ii) a representative of the Department of Transportation, and (iii) two citizens of such county or city connected with the coal and gas industry, appointed for a term of four years, initially commencing July 1, 1989, by the chief judge of the circuit court.

Such committee shall develop on or before July 1 of each year a plan for improvement of roads during the following fiscal year. Such plan shall have the approval of three members of the committee and shall be submitted to the governing body of the county or city for approval. The governing body may approve or disapprove such plan, but may make no changes without the approval of three members of the committee.

*C. The provisions of this section shall expire on December 31, 2012.*

*§ 8. Investments and Contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The bonds and BANs issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs.*

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c), Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9(c) or (b), as the case may be, of the Constitution of Virginia.*

§ 13. *Severability.*

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

The bonds may be issued in coupon or registered form or both, as the Commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the conversion and reconversion into coupon bonds of any bonds registered as to both principal and interest and vice versa. The Commission may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the Commission.*

*Prior to the preparation of definitive bonds, the Commission may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery.*

16. To vest in a bondholder the right, in the event of the failure of the Commission to observe or perform any covenant on its part to be kept or performed, to cure any such default, and, subject to the limitation on total indebtedness expressed in this act, to advance any moneys necessary for such purpose, and the moneys so advanced may be made an additional obligation of the Commission with such interest, security and priority as may be provided in any trust indenture, lease or contract of the Commission with reference thereto;

17. To covenant and prescribe as to the events of default and terms and conditions upon which any or all of its bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived;

18. To covenant as to the rights, liabilities, powers, and duties arising upon the breach by it of any covenant, condition or obligation;

*operate, manage, and control such facility or any part thereof, and to collect and receive all fees, rents, and revenues arising therefrom in the same manner as the Commission itself might do and to dispose of the moneys collected in accordance with the agreement of the Commission with such obligee, subject to the continued use of such facilities for airport purposes;*

*20. To vest in a trustee or trustees the right to enforce any covenant made to secure, to pay, or in relation to the bonds, to provide for the powers and duties of such trustee or trustees, to limit liabilities thereof and to provide the terms and conditions upon which the trustee or trustees or the bondholders or any proportion of them may enforce any such covenant;*

To make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or in the absolute discretion of the Commission that tend to make the bonds more marketable; notwithstanding that such covenant, acts or things may not be enumerated herein, it being the intention hereof to give the Commission power to do all things in the issuance of bonds, and in the provisions for their security that are not inconsistent with the Constitution of Virginia or this act.*

*§ 17. Fees, rents and charges.*

*The Commission is hereby authorized to and shall fix, revise, charge, and collect fees, rents and other charges for the use and services of any facilities. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and other charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Commission, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary, be set aside at*

Neither the resolution nor any trust indenture by which a pledge is created need to be filed or recorded except in the records of the Commission. *§ 18. Credit of Commonwealth and political subdivisions not pledged.*

*The bonds of the Commission shall not be a debt of the Commonwealth or any political subdivision thereof, other than the Commission, and neither the Commonwealth nor any political subdivision thereof, other than the Commission, shall be liable thereon, nor shall such bonds be payable out of any funds or properties other than those of the Commission. All bonds of the Commission shall contain on the face thereof a statement to such effect. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction.*

*§ 19. Members and persons executing bonds not liable thereon.*

*Neither the Commission nor any person executing the bonds shall be liable personally on the Commission's bonds by reasons of the issuance thereof.*

*§ 20. Remedies of bondholder.*

*Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement, may, either at law or in equity, by suit, action, injunction, or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust indenture agreement or the resolution authorizing the issuance of such bonds and may enforce and compel the performance of all duties required by this act or by such trust indenture or agreement or resolution to be performed by the Commission or by any officer or agent thereof, including the fixing, charging and collection of fees, rents and other charges. *trust indenture or agreement securing the same may limit or abrogate the individual right of action by the holders of such bonds or coupons appertaining thereto.*

*§ 21. Taxation.*

*The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience and prosperity, and as the operation and maintenance of any project that the Commission is authorized to undertake will constitute the performance of an essential governmental function, the Commission shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act and the bonds issued under the provisions of this act, their transfer and the income therefrom including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations and organizations leasing property of the Commission or doing business on property of the Commission shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on tangible personal property and machinery and tools, taxes for admission, taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation or calling and taxes upon consumers of gas, electricity, telephone and other public utility services.*

*§ 22. Bonds as legal investments.*

*Bonds issued by the Commission under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.*

## Chapter 440 Development rights; allows Albemarle County to enact an ordinance for severance and transfer.

An Act to allow Albemarle County to enact an ordinance for the transfer and severance of development rights.

[\[H 991\]](#)

Approved March 7, 2008

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Notwithstanding the provisions of Article 7.1 (§ [15.2-2316.1](#) et seq.) of Chapter 22 of Title 15.2 of the Code of Virginia, the provisions of this act shall apply to Albemarle County.*

*§ 2. Definitions.*

*As used in this act, the term:*

*"Development rights" or "transferable development rights" means the permitted uses and density of development that are allowed on the sending property under any zoning ordinance of a locality on a date prescribed by the ordinance.*

*"Receiving area" means an area identified by an ordinance and designated by the comprehensive plan as an area authorized to receive development rights transferred from a sending area.*

*"Receiving property" means a lot or parcel within which development rights are increased pursuant to a transfer of development rights affixed to the property. Receiving property shall be appropriate and suitable for development and shall be sufficient to accommodate the development rights being transferred and affixed thereto. Development rights may be transferred between receiving properties, as otherwise permitted in the ordinance.*

*"Sending area" means an area identified by an ordinance and designated by the comprehensive plan as an area from which development rights are authorized to be severed and transferred to a receiving area.*

*"Sending property" means a lot or parcel within a sending area from which development rights are authorized by the ordinance to be severed.*

*"Severance of development rights" means the process by which development rights from a sending property are severed pursuant to this act.*

*"Transfer of development rights" means the process by which development rights are conveyed to one or more parties, or transferred to become affixed to one or more receiving properties, pursuant to this act.*

*§ 3. Albemarle County may provide for transfer of development rights.*

*A. Pursuant to the provisions of this act, the governing body of Albemarle County by ordinance may, in order to conserve and promote the public health, safety, and general welfare, establish procedures, methods, and standards for the transfer and severance of development rights within its jurisdiction. The county shall give notice and hold a public hearing in accordance with § [15.2-2204](#) of the Code of Virginia prior to approval by the governing body.*

*B. Albemarle County may not require property owners to transfer development rights as a condition of the development of any property. The owner of a property may sever development rights from the sending property, pursuant to the provisions of this act. An application to transfer development rights to one or more receiving properties, for the purpose of affixing such rights thereto, shall only be initiated upon application by the owner of such development rights and the owners of the receiving properties. However, if a property in the receiving area does not have sufficient development rights for the proposed development at the time an application for development is submitted by the owner of a receiving property, the owner of said receiving property may accept development rights from a sending property pursuant to this act.*

*C. In accordance with implementing the provisions of this act, Albemarle County shall adopt an ordinance and shall provide for:*

- 1. The issuance and recordation of the instruments necessary to sever development rights from the sending property, to convey development rights to one or more parties, or to affix development rights to one or more receiving properties. These instruments shall be executed by the property owners of the development rights being transferred, and lienholders of such property owners, if any. The instruments shall identify the development rights being severed and the sending properties or receiving properties, as applicable;*
- 2. Assurance that the prohibitions against the use and development of the sending property shall bind the landowner and every successor in interest to the landowner;*
- 3. The severance of transferable development rights from the sending property;*
- 4. The purchase, sale, exchange, or other conveyance of transferable development rights, after severance and prior to the rights being affixed to a receiving property;*
- 5. A system for monitoring the severance, ownership, assignment, and transfer of transferable development rights;*

6. A map or other description of areas designated as sending and receiving areas for the transfer of development rights between properties;

7. The identification of parcels, if any, within a receiving area that are inappropriate as receiving properties;

8. Permitted uses and the maximum increases in density in the receiving area;

9. The minimum acreage of a sending property and the minimum reduction in density of the sending property that may be conveyed in severance or transfer of development rights;

10. An assessment of the infrastructure in the receiving area that identifies the ability of the area to accept increases in density and its plans to provide necessary utility services within any designated receiving area;

11. The review of an application to transfer development rights by the planning commission or its agent to determine whether the application complies with the provisions of the ordinance. The application shall be deemed approved upon the determination of compliance with the ordinance and upon recordation of the instrument in the land records of the office of the circuit court clerk for the locality that transfers and affixes development rights to one or more receiving properties; and

12. Such other provisions as the locality deems necessary to aid in the implementation of the provisions of this act.

D. The ordinance may provide for the allowance for residential density to be converted to an increase in the square feet of a commercial, industrial, or other use on the receiving property.

E. Development rights severed pursuant to this act shall be interests in real property and shall be considered as such for purposes of conveyance and taxation. Once a deed for transferable development rights, created pursuant to this act, has been recorded in the land records of the office of the circuit court clerk for the locality to reflect the transferable development rights sold, conveyed, or otherwise transferred by the owner of the sending property, the development rights shall vest in the grantee and may be transferred by such grantee to a successor in interest. Nothing herein shall be construed to prevent the owner of the sending property from recording a deed covenant against the sending property severing the development rights on said property, with the owner of the sending property retaining ownership of the severed development rights. Any transfer of the development rights to a different property in a receiving area shall be subject to review pursuant to the provisions of the ordinance adopted pursuant to subdivision C 11.

F. For the purposes of ad valorem real property taxation, the value of a transferable development right shall be deemed appurtenant to the sending property until the

*transferable development right is severed from and recorded as a distinct interest in real property, or the transferable development right is used at a receiving property and becomes appurtenant thereto. Once a transferable development right is severed from the sending property, the assessment of the fee interest in the sending property shall reflect any change in the fair market value that results from the inability of the owner of the fee interest to use such property for such uses terminated by the severance of the transferable development right. Upon severance from the sending property and recordation as a distinct interest in real property, the transferable development right shall be assessed at its fair market value on a separate real estate tax bill sent to the owner of said development right as taxable real estate in accordance with Article 1 (§ [58.1-3200](#) et seq.) of Chapter 32 of Title 58.1 of the Code of Virginia.*

*G. Severance of development rights shall become effective upon the recording of the conveyance and submittal of a certified copy of such recording to the local assessor. Transfers of development rights, approved by the County to be affixed to one or more receiving properties, shall become effective upon the recording of the conveyance.*

*H. Albemarle County shall incorporate the map identified in subdivision C 6 into the comprehensive plan.*

*I. No amendment to the zoning map, nor any amendments to the text of the zoning ordinance with respect to the zoning district applicable thereto initiated by the governing body, which eliminate, materially restrict, or reduce the uses, or the density of use permitted in the zoning district applicable to any receiving properties to which development rights have been transferred and affixed thereto, shall be effective with respect to such property unless there has been mistake, fraud, or a change in circumstances substantially affecting the public health, safety, or welfare.*

*J. In adopting an ordinance pursuant to this act, Albemarle County may designate eligible receiving areas in any incorporated town within such county, if the governing body of the town has also amended its zoning ordinance to designate the same areas as eligible to receive density being transferred from sending areas in the county.*

*K. Albemarle County and an adjacent city may enter voluntarily into an agreement to permit the county to designate eligible receiving areas in the city if the governing body of the city has also amended its zoning ordinance to designate the same areas as eligible to receive density being transferred from sending areas in the county. The city council shall designate areas it deems suitable as receiving areas and shall designate the maximum increases in density in each such receiving area. However, if any such agreement contains any provision addressing any issue provided for in Chapter 32 (§ [15.2-3200](#) et seq.), 33 (§ [15.2-3300](#) et seq.), 36 (§ [15.2-3600](#) et seq.), 38 (§ [15.2-3800](#) et seq.), 39 (§*

[15.2-3900](#) et seq.), or 41 (§ [15.2-4100](#) et seq.) of Title 15.2 of the Code of Virginia, the agreement shall be subject to the review and implementation process established by Chapter 34 (§ [15.2-3400](#) et seq.) of Title 15.2 of the Code of Virginia.

1. The terms and conditions of the density transfer agreement as provided in this subsection shall be determined by the affected localities and shall be approved by the governing body of each locality participating in the agreement, provided the governing body of each such locality first holds a public hearing, which shall be advertised once a week for two successive weeks in a newspaper of general circulation in the locality.
2. The governing bodies shall petition a circuit court having jurisdiction in one or more of the localities for an order affirming the proposed agreement. The circuit court shall be limited in its decision to either affirm or deny the agreement and shall have no authority, without the express approval of each local governing body, to amend or change the terms or conditions of the agreement, but shall have the authority to validate the agreement and give it full force and effect. The circuit court shall affirm the agreement unless the court finds either that the agreement is contrary to the best interests of the Commonwealth or that it is not in the best interests of each of the parties thereto.
3. The agreement shall not become binding on the localities until affirmed by the court under this subsection. Once approved by the circuit court, the agreement shall also bind future local governing bodies of the localities.

2. That the provisions of this act shall expire on July 1, 2012, if Albemarle County has not enacted an ordinance for the transfer of development rights as described in this act prior to that time. Further, that the provisions of this act shall not become effective unless or until Albemarle County adopts an ordinance pursuant to this chapter.

"Covered Employee" means any person who is employed by the University on either a salaried or wage basis.

"Covered Institution" means, on and after the effective date of its initial management agreement with the Commonwealth, a public institution of higher education of the Commonwealth of Virginia that has entered into a management agreement with the Com-

monwealth to be governed by and in accordance with the provisions of subsection D of § [23-38.88](#) and Subchapter 3 of the Act.

"Enabling legislation" means those chapters, other than Chapter 4.10, of Title 23 of the Code of Virginia, as amended, creating, continuing, or otherwise setting forth the powers, purposes, and missions of the individual public institutions of higher education of the Commonwealth, and as provided in §§ [2.2-2817.2](#) and [2.2-2905](#).

"Management Agreement" means this agreement between the Commonwealth of Virginia and the University as required by subsection D of § [23-38.88](#) and Subchapter 3 of the Act.

"Parties" means the parties to this Management Agreement, the Commonwealth of Virginia and the University.

"Public institution of higher education" means those two-year and four-year institutions enumerated in § [23-14](#) of the Code of Virginia.

"University" means Virginia Commonwealth University.

## ARTICLE 2. SCOPE OF MANAGEMENT AGREEMENT.

### SECTION 2.1. Enhanced Authority Granted and Accompanying Accountability.

Subchapter 3 of the Act, provides that, upon the execution of, and as of the effective date for, this Management Agreement, the University shall become a Covered Institution entitled to be granted by the Commonwealth and to exercise the powers and authority provided in Subchapter 3 of the Act, that are expressly contained in this Management Agreement. In general, subject to its management agreement with the Commonwealth, status as a Covered Institution governed by Subchapter 3 of the Act, and this Management Agreement is intended to replace (i) the post-General Assembly authorization prior-approval system of reviews, approvals, policies and procedures carried out and implemented by a variety of central State agencies with (ii) a post-audit system of reviews and accountability under which a Covered Institution is fully responsible and fully accountable for managing itself pursuant to Subchapter 3 of the Act and its management agreement with the Commonwealth.

SECTION 2.1.1. Assessments and Accountability. The University and its implementation of the enhanced authority granted by Subchapter 3 of the Act and this Management Agreement, and the Board of Visitors policies attached hereto as Exhibits A through F, shall be subject to the reviews, assessments, and audits (i) set forth in the Act that are to be conducted by the Auditor of Public Accounts, the Joint Legislative Audit and Review Commission, and the State Council of Higher Education for Virginia, or (ii) as may be conducted periodically by the Secretaries of Finance, Administration, Education, or Tech-

nology, or by some combination of these four Secretaries, or (iii) as otherwise may be required by law other than the Act.

*SECTION 2.1.2. Express Grant of Powers and Authority. Subject to the specific conditions and limitations contained in Article 4 (Institutional Management), Article 5 (Capital Projects; Procurement; Property Generally), and Article 6 (Human Resources) of Subchapter 3 of the Act, the Commonwealth and the University agree that the Commonwealth has expressly granted to the University by this Management Agreement all the powers and authority contained in certain policies adopted by the Board of Visitors of the University attached hereto as Exhibits A through F and governing (1) the undertaking and implementation of capital projects, and other acquisition and disposition of property (Exhibit A), (2) the leasing of property, including capital leases (Exhibit B), (3) information technology (Exhibit C), (4) the procurement of goods, services, including certain professional services, insurance, and construction (Exhibit D), (5) human resources (Exhibit E), and (6) its system of financial management (Exhibit F), including, as provided in subsection B of § [23-38.104](#) of the Act, the sole authority to establish tuition, fees, room, board, and other charges consistent with sum sufficient appropriation authority for non-general funds as provided by the Governor and the General Assembly in the Commonwealth's biennial appropriations authorization. Subject to the specific conditions and limitations contained in Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act, in this Management Agreement, and in one or more of the Board of Visitors policies attached hereto as Exhibits A through F, the Commonwealth and the University agree that the Commonwealth has expressly granted to the University all the powers and authority permitted by Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act.*

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Management Agreement and the policies adopted by it and attached hereto as Exhibits A through F. Consistent with this full and ultimate accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate the duties and responsibilities set forth in this Management Agreement to its officers, committees, and subcommittees, and, as set forth in the policies adopted by the Board and attached hereto as Exhibits A through F, to a person or persons within the University.*

*SECTION 2.1.3. Reimbursement by the University of Certain Costs. By July 1 of each odd-numbered year, the University shall inform the Secretary of Finance of any intent during the next biennium to withdraw from any health or other group insurance or risk*

*management program made available to the University through any agency, body corporate, political subdivision, authority, or other entity of the Commonwealth, and in which the University is then participating, to enable the Commonwealth's actuaries to complete an adverse selection analysis of any such decision and to determine the additional costs to the Commonwealth that would result from any such withdrawal. If upon notice of such additional costs to the Commonwealth, the University proceeds to withdraw from such health or other group insurance or risk management program, the University shall, pursuant to subdivision D 2 c of § [23-38.88](#), reimburse the Commonwealth for all such additional costs attributable to such withdrawal as determined by the Commonwealth's actuaries.*

*SECTION 2.1.4. Potential Impact on Virginia College Savings Plan. As required by subdivision D 2 c of § [23-38.88](#) of the Act, the University has given consideration to potential future impacts of tuition increases on the Virginia College Savings Plan (§ [23-38.75](#) of the Code of Virginia), has consulted staff of the Plan and examined public documents which set forth the assumptions about tuition increases on which Plan prices are set. Tuition assumptions used by Plan officials to set prices for the future of the Plan are higher than those included by the University in its most recent six-year financial plan transmitted to the State Council of Higher Education for Virginia (SCHEV) pursuant to subdivision B 10 of § [23-38.88](#).*

*SECTION 2.1.5. Justification for Deviations from the Virginia Public Procurement Act. Pursuant to § [23-38.110](#) of the Act, and subject to the provisions of this Management Agreement, the University may be exempt from the provisions of the Virginia Public Procurement Act (VPPA), Chapter 43 (§ [2.2-4300](#) et seq.) of Title 2.2 of the Code of Virginia. Any procurement policies or rules that deviate from the VPPA must be uniform across all institutions governed by Subchapter 3 of the Act, and the Board of Visitors shall adopt and comply with procurement policies that are based upon competitive principles and seek competition to the maximum practical degree. The Policy Governing the Procurement of Goods, Services, Insurance, and Construction, and the Disposition of Surplus Materials and the Rules Governing Procurement of Goods, Services, Insurance, and Construction (the Procurement Rules) attached to that Policy as Attachment 1 constitute the policies and uniform deviations from the VPPA required by subsections A and B of § [23-38.110](#) of the Act.*

*Subsection D of § [23-38.110](#) of the Act requires that the University identify the public, educational, and operational interests served by any procurement rule or rules that deviate from those in the VPPA. The adopted Board of Visitors policy on procurement and the Procurement Rules provide the University with the autonomy to administer its*

*procurement process while fully adhering to the principle that competition should be sought to the maximum extent feasible. This autonomy will better position the University to support the requirements of its growing teaching, research and outreach missions. Greater autonomy in procurement will improve internal capacity to respond quickly to emergent material and service issues and, therefore, enable the University to be more efficient and effective in meeting the Commonwealth's goals for institutions of higher education. In some instances, costs will be reduced. Taken collectively, the University's procurement policies and rules that differ from those required by the VPPA will enhance procurement "best practices" as they currently are being observed within the higher education community nationally. Further, these changes will provide efficiencies to both the University and public sector suppliers.*

*SECTION 2.1.6. Quantification of Cost Savings. Subsection C of § [23-38.104](#) of the Act requires that a Covered Institution include in its management agreement with the Commonwealth the quantification of cost savings realized as a result of the additional operational flexibility provided pursuant to Subchapter 3 of the Act. Since this initial Management Agreement with the Commonwealth has not yet been implemented by the University, the parties agree that the University is not in a position to quantify any such cost savings at this time, although the University expects that there will be cost savings resulting from the additional authority granted to the University pursuant to Subchapter 3 of the Act, and that such cost savings will be part of the determinations made during the reviews, assessments, and audits to be conducted pursuant to Subchapter 3 of the Act by the Auditor of Public Accounts, the Joint Legislative Audit and Review Commission, and the State Council of Higher Education for Virginia, and as otherwise described in Section 2.1.1 above.*

*SECTION 2.1.7. Participation in State Programs. The Commonwealth intends that the University shall continue to fully participate in, and receive funding support from, the many and varied programs established now or in the future by the Commonwealth to provide support for Virginia's public institutions of higher education and for Virginians attending such institutions, including but not limited to: the state capital outlay and bond financing initiatives undertaken from time to time by the Commonwealth; the Higher Education Equipment Trust Fund established pursuant to Chapter 3.2 (§ [23-30.24](#) et seq.) of Title 23 of the Code of Virginia; the Maintenance Reserve Fund as provided in the Appropriation Act; the Eminent Scholars program as provided in the Appropriation Act; the Commonwealth's various student financial assistance programs; and other statewide programs or initiatives that exist, or may be established, in support of the Commonwealth's higher education institutions, programs, or activities.*

*SECTION 2.1.8. Implied Authority. Pursuant to subdivision D 1 of § [23-38.88](#) of the Act, the only implied authority granted to the University by this Management Agreement is that implied authority that is actually necessary to carry out the expressed grant of financial or operational authority contained in this Agreement or in the policies adopted by the University's Board of Visitors and attached hereto as Exhibits A through F.*

*SECTION 2.1.9. Exercise of Authority. The University and the Commonwealth acknowledge and agree that the execution of this Management Agreement constitutes the conclusion of a process that, as of the effective date of this Agreement, confers upon the University the enhanced authority and operating flexibility described above, all of which is in furtherance of the purposes of Subchapter 3 of the Act. Therefore, without any further conditions or requirements, the University shall, on and after the effective date of this Management Agreement, be authorized to exercise the authority conferred upon it by this Management Agreement and the policies adopted by its Board of Visitors attached hereto as Exhibits A through F, and by Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act except to the extent that the powers and authority contained in Article 3 of Subchapter 3 of the Act have been limited by this Management Agreement or the Board of Visitors policies attached hereto as Exhibits A through F.*

*The University and the Commonwealth also acknowledge and agree that, pursuant to subsection A of § [23-38.91](#) of the Act and consistent with the terms of this Management Agreement, the Board of Visitors of the University shall assume full responsibility for management of the University, subject to the requirements and conditions set forth in Subchapter 3 of the Act, the general requirements for this Management Agreement as provided in § [23-38.88](#) of the Act, and this Management Agreement. The Board of Visitors shall be fully accountable for (a) the management of the University as provided in the Act, (b) meeting the requirements of §§ [2.2-5004](#), [23-9.2:3.02](#), and [23-9.6:1.01](#) of the Code of Virginia, and (c) meeting such other provisions as are set forth in this Management Agreement.*

*SECTION 2.2. State Goals.*

*SECTION 2.2.1. Furthering State Goals. As required for all public institutions of higher education of the Commonwealth by subsection B of § [23-38.88](#) of the Code of Virginia, prior to August 1, 2005, the Board of Visitors of the University adopted the resolution setting forth its commitment to the Governor and the General Assembly to meet the State goals specified in that subsection B. In addition to the above commitments, the University commits to furthering these State goals by:*

*1. In addition to its six-year target of achieving about \$161.8 million in external research expenditures by 2011-12, the University commits to match from institutional funds, other*

*than general funds or tuition, on a dollar-for-dollar basis, any additional research funds provided by the State in the Appropriation Act above the amount provided from institutional funds for research in 2007-08.*

*2. Virginia Commonwealth University (VCU) is committed to improving retention and graduation rates, without changing its core mission of access. The University has a diverse student body, a large number of whom are first generation college students and many of whom work in addition to attending college.*

*Major investments have recently been made in initiatives like the University College, which provides intensive advising and academic support for all first year students, and the VCU Compact, a university-wide academic experience for first year students that provides the foundation for lifelong learning and success. The University has also approved a Core Curriculum, providing a common set of general education courses required for all University undergraduates. These efforts are designed to positively impact freshman retention rates, which have steadily improved from 73.5 percent for the fall 1998 freshmen to 82.3 percent for the fall 2006 cohort. As these efforts continue, VCU expects freshman retention rates to increase further, reaching about 85 percent by fall 2010.*

*These efforts are also designed to improve the University's six-year graduation rate, although the major impact of these fundamental improvements will not be seen immediately. Graduation rates are improving, from 40.8 percent for the cohort of first-time, full-time freshmen entering in the fall of 1998 to 45.2 percent for the cohort of freshmen entering in the fall 2000. As the first cohorts of freshmen benefiting from the University College and the VCU Compact progress, six-year graduation rates should reach 50 percent for the cohort of first-time, full-time freshman who entered in the fall of 2006.*

*SECTION 2.2.2. Student Enrollment, Tuition, and Financial Aid. As required by § [23-9.2:3.02](#) of the Code of Virginia, the University, along with all other public institutions of higher education of the Commonwealth, has developed and submitted to the State Council of Higher Education for Virginia (SCHEV) by October 1, 2007, an institution-specific Six-Year Plan addressing the University's academic, financial, and enrollment plans for the six-year period of fiscal years 2008-10 through 2013-14. Subsection A of § [23-9.2:3.02](#) requires the University to update this Six-Year Plan by October 1 of each odd-numbered year. Subsection B of § [23-38.97](#) of the Act requires that a management agreement address, among other issues, such matters as the University's in-state undergraduate student enrollment, its financial aid requirements and capabilities, and its tuition policy for in-state undergraduate students. These matters are addressed in the University's Six-Year Plan submitted to SCHEV, and the parties therefore agree that the*

*University's Six-Year Plan and the description below meet the requirement of subsection B of § [23-38.97](#) of the Act.*

*Subsection B of § [23-38.104](#) of the Act requires the Board of Visitors of the University to include in this Management Agreement the University's commitment to provide need-based grant aid for middle- and lower-income Virginia students in a manner that encourages student enrollment and progression without respect to potential increases in tuition and fees.*

*Virginia Commonwealth University has made significant efforts to provide additional institutional funding for financial aid. The University has continued this pledge in its most recently submitted six-year financial plan, increasing the amount of undergraduate need-based financial aid available to Virginia students each year in response to unavoidable increases in undergraduate tuition and fees.*

*Rather than using this additional institutional funding to decrease unmet financial need across the board, the University will strategically invest these resources to further the state and university goals of ensuring access, serving more Virginia community college transfer students, and increasing retention and graduation rates.*

*The University has a firm commitment to its mission of access, and to serving a diverse student population, many of whom are first-generation college students. To further address access and affordability, the University will establish a new Access Grant Program. The program will provide a grant of about \$1,500 for resident freshmen and sophomores who come to the University from families at or below the federal poverty level (as measured against the federal guidelines associated with the tax year used for the federal aid application). The goal of this program will be to partially relieve the exceptional financial pressure, and correspondingly high risk of early attrition, experienced by this group of students.*

*To serve more transfer students from the Virginia Community College System, the University will also establish a new Transfer Achievement Scholarship. These \$1,000 scholarships will be targeted to students with demonstrated financial need who transfer to the University with an associate degree earned from a Virginia community college with a minimum GPA of 3.00. The goal of the program will be to partially address the financial needs of academically strong Virginia residents who have earned an associate degree from a Virginia community college.*

*To address retention and graduate rates, the University will also enhance two existing scholarship programs. At present, the University's Academic Performance Scholarships are available to high-performing, rising sophomore students with demonstrated need who did not receive scholarships as entering freshmen. These scholarships will be*

*expanded to include rising juniors. The goal of the expansion is to increase the sophomore to junior retention rate for academically capable students who have unmet financial need. The current Academic Achievement Scholarships, which combine merit and need-based grants targeted to highly qualified entering freshmen from Virginia not receiving a Dean's level scholarship, will be enhanced by increasing the award from the current \$1,000 to about \$1,500.*

*Because the University will strategically invest these resources to further the state and university goals of ensuring access, serving more Virginia community college transfer students, and increasing retention and graduation rates, the metrics used to measure progress in the area of financial aid will be the same as those to which the University will be held under existing Institutional Performance Standards.*

*While the additional institutional support for financial aid is vital, the University believes that the best way to ensure that all Virginia students can attend college is to keep tuition affordable. Keeping college affordable is especially important to the University, considering its mission to serve first-generation college students, many of whom come from families with limited income. For many years now, the University has had the lowest tuition and fees for in-state undergraduates among Virginia's public doctoral universities. The Commonwealth and the University agree that this commitment meets the requirements of subsection B of § [23-38.104](#) of the Act.*

*SECTION 2.3. Other Law. As provided in subsection B of § [23-38.91](#) of the Act, the University shall be governed and administered in the manner provided not only in this Management Agreement, but also as provided in the Appropriation Act then in effect and the University's Enabling Legislation.*

*SECTION 2.3.1. The Appropriation Act. The Commonwealth and the University agree that, pursuant to the current terms of the Act and the terms of § 4-11.00 of the 2006-08 Appropriation Act, if there is a conflict between the provisions of the Appropriation Act and the provisions of Subchapter 3 of the Act, or this Management Agreement, or the Board of Visitors policies attached to this Management Agreement as Exhibits A through F, the provisions of the Appropriation Act shall control, and shall continue to control unless provided otherwise by law.*

*SECTION 2.3.2. The University's Enabling Legislation. As provided in subsection C of § [23-38.91](#) of the Act, in the event of a conflict between any provision of Subchapter 3 of this Act and the University's Enabling Legislation, the Enabling Legislation shall control, except as provided in subdivision A 1 b of § [23-38.112](#) of the Act, regarding § [23-77.1](#).*

*SECTION 2.3.3. Title 2.2 of the Code of Virginia. As provided in subsection B of § [23-38.92](#) of the Act, except as specifically made inapplicable under Subchapter 3 of the Act*

*and the express terms of this Management Agreement, the provisions of Title 2.2 relating generally to the operation, management, supervision, regulation, and control of public institutions of higher education shall be applicable to the University as provided by the express terms of this Management Agreement. As further provided in subsection C of § [23-38.92](#) of the Act, in the event of conflict between any provision of Title 2.2 and any provision of Subchapter 3 of the Act as expressed in this Management Agreement, the provisions of this Management Agreement shall control.*

*SECTION 2.3.4. Educational Policies of the Commonwealth. As provided in subsection A of § [23-38.93](#) of the Act, for purposes of §§ [2.2-5004](#), [23-1.01](#), [23-1.1](#), [23-2](#), [23-2.1](#), [23-2.1:1](#), [23-3](#), [23-4.2](#), [23-4.3](#), [23-4.4](#), [23-7.1:02](#), [23-7.4](#), [23-7.4:1](#), [23-7.4:2](#), [23-7.4:3](#), [23-7.5](#), [23-8.2:1](#), [23-9.1](#), [23-9.2](#), [23-9.2:3](#), [23-9.2:3.02](#), [23-9.2:3.1](#) through [23-9.2:5](#), [23-9.6:1.01](#), and Chapter 4.9 (§ [23-38.75](#) et seq.) of the Code of Virginia, the University shall remain a public institution of higher education of the Commonwealth following the effective date of this Management Agreement, and shall retain the authority granted and any obligations required by such provisions, unless and until provided otherwise by law other than the Act. In addition, the University shall retain the authority, and any obligations related to the exercise of such authority, that is granted to institutions of higher education pursuant to Chapter 1.1 (§ [23-9.3](#) et seq.), Chapter 3 (§ [23-14](#) et seq.), Chapter 3.2 (§ [23-30.23](#) et seq.), Chapter 3.3 (§ [23-30.39](#) et seq.), Chapter 4 (§ [23-31](#) et seq.), Chapter 4.01 (§ [23-38.10:2](#) et seq.), Chapter 4.1 (§ [23-38.11](#) et seq.), Chapter 4.4 (§ [23-38.45](#) et seq.), Chapter 4.4:2 (§ [23-38.53:4](#) et seq.), Chapter 4.4:3 (§ [23-38.53:11](#)), Chapter 4.4:4 (§ [23-38.53:12](#) et seq.), Chapter 4.5 (§ [23-38.54](#) et seq.), Chapter 4.8 (§ [23-38.72](#) et seq.), and Chapter 4.9 (§ [23-38.75](#) et seq.) of Title 23 of the Code of Virginia, unless and until provided otherwise by law other than the Act.*

*SECTION 2.3.5. Public Access to Information. As provided in § [23-38.95](#) of the Act, the University shall continue to be subject to § [2.2-4342](#) and to the provisions of the Virginia Freedom of Information Act, Chapter 37 (§ [2.2-3700](#) et seq.) of Title 2.2 of the Code of Virginia, and may conduct business as a "state public body" for purposes of subsection B of § [2.2-3708](#).*

*SECTION 2.3.6. Conflicts of Interests. As provided in § [23-38.96](#) of the Act, the provisions of the State and Local Government Conflict of Interests Act, Chapter 32 (§ [2.2-3100](#) et seq.) that are applicable to officers and employees of a state governmental agency shall continue to apply to the members of the Board of Visitors of the University and to its Covered Employees.*

*SECTION 2.3.7. Other Provisions of the Code of Virginia. Other than as specified above, any other powers and authorities granted to the University pursuant to any other sections*

*of the Code of Virginia, including other provisions of the Act, are not affected by this Management Agreement or the Board policies attached hereto as Exhibits A through F.*

**ARTICLE 3. AMENDMENTS TO, AND RIGHT AND POWER TO VOID OR REVOKE, MANAGEMENT AGREEMENT.**

**SECTION 3.1. Amendments.** *Any change to or deviation from this Management Agreement or the Board of Visitors policies attached hereto as Exhibits A through F shall be reported to the Secretaries of Finance, Administration, Education, and Technology and to the Chairmen of the Senate Committee on Finance and the House Committee on Appropriations and shall be posted on the University's website. The change or deviation shall become effective unless one of the above persons notifies the University in writing within 60 days that the change or deviation is substantial and material. Any substantial and material change or deviation shall require the execution by the parties of an amendment to this Management Agreement or a new Management Agreement pursuant to the provisions of subsection D of § [23-38.88](#) and may lead to the Governor declaring this Management Agreement to be void pursuant to subdivision D 4 of § [23-38.88](#) of the Act.*

**SECTION 3.2. Right and Power to Void, Revoke, or Reinstate Management Agreement.**

**SECTION 3.2.1. Governor.** *Pursuant to subdivision D 4 of § [23-38.88](#) and § [23-38.98](#), of the Act, if the Governor makes a written determination that the University is not in substantial compliance with the terms of this Management Agreement or with the requirements of the Act in general, (i) the Governor shall provide a copy of that written determination to the Rector of the Board of Visitors of the University and to the members of the General Assembly, and (ii) the University shall develop and implement a plan of corrective action, satisfactory to the Governor, for purposes of coming into substantial compliance with the terms of this Management Agreement and with the requirements of the Act, as soon as practicable, and shall provide a copy of such corrective action plan to the members of the General Assembly. If after a reasonable period of time after the corrective action plan has been implemented by the University, the Governor determines that the institution is not yet in substantial compliance with this Management Agreement or the requirements of the Act, the Governor may void this Management Agreement.*

*Upon the Governor voiding this Management Agreement, the University shall no longer be allowed to exercise any restructured financial or operational authority pursuant to the provisions of Subchapter 3 of the Act unless and until the University has entered into a subsequent management agreement with the Secretary or Secretaries designated by the Governor or the voided Management Agreement is reinstated by the General Assembly.*

**SECTION 3.2.2. General Assembly.** *As provided in subdivision D 4 of § [23-38.88](#) of the Act, the General Assembly may reinstate a Management Agreement declared void by*

*the Governor. Pursuant to § [23-38.98](#) of the Act, the University's status as a Covered Institution governed by Subchapter 3 of the Act may be revoked by an act of the General Assembly (i) if the University fails to meet the requirements of Subchapter 3 of the Act, or (ii) if the University fails to meet the requirements of this Management Agreement.*

*ARTICLE 4. GENERAL PROVISIONS.*

*SECTION 4.1. No Third-Party Beneficiary Status. Nothing in this Agreement, express or implied, shall be construed as conferring any third-party beneficiary status on any person or entity.*

*SECTION 4.2. Sovereign Immunity. Pursuant to subsection E of § [23-38.88](#) of the Act, the University and the members of its Board of Visitors, officers, directors, employees, and agents shall be entitled to the same sovereign immunity to which they would be entitled if the University were not governed by the Act; provided that the Virginia Tort Claims Act (§ [8.01-195.1](#) et seq.) of the Code of Virginia and its limitations on recoveries shall remain applicable with respect to the University.*

*SECTION 4.3. Term of Agreement. This Management Agreement shall expire at midnight on June 30, 2012.*

*WHEREFORE, the foregoing Management Agreement has been executed as of this 15<sup>th</sup> day of November, 2007, and shall become effective on the effective date of legislation enacted into law providing for the terms of such Agreement.*

*AND*

*VIRGINIA COMMONWEALTH UNIVERSITY*

*PURSUANT TO*

*THE RESTRUCTURED HIGHER EDUCATION*

*FINANCIAL AND ADMINISTRATIVE OPERATIONS*

*ACT OF 2005*

*POLICY GOVERNING CAPITAL PROJECTS*

*THE RECTOR AND VISITORS OF VIRGINIA COMMONWEALTH UNIVERSITY*

*POLICY GOVERNING CAPITAL PROJECTS*

*I. PREAMBLE.*

*In 1996, § 4-5.08 of the Appropriation Act (Chapter 912), delegated limited autonomy to the University as a whole for non-general fund capital projects. This authority has since been continued through 2002-2004 by subsequent legislative action. That authority was extended to selected capital projects funded through state-supported bonds through § 4-5.08 of the 2003 Appropriation Act (Chapter 1042). Pursuant to this delegation, Virginia Commonwealth University developed a system of reviews and approvals for the university's state general fund and state-supported debt capital projects, which was adopted by the Board of Visitors on April 26, 2004. Subsequent to that adoption, Virginia Commonwealth University entered into a Memorandum of Understanding with the Secretary of Finance and Secretary of Administration, which was signed in February 2005. The Restructured Higher Education Financial and Administrative Operations Act (the Act), Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia, provides that, upon becoming a Covered Institution, the University may be delegated the authority to establish its own system for undertaking the implementation of its capital projects. In general, status as a Covered Institution is designed to replace the post-authorization system of reviews, approvals, policies and procedures carried out by a variety of central State agencies, and the traditional pre-authorization approval process for projects funded entirely with non-general funds and without any proceeds from State Tax Supported Debt. The University's system for carrying out its capital outlay process as a Covered Institution is to be governed by policies adopted by the Board of Visitors. The following provisions of this Policy, together with the Policy Governing the Procurement of Goods, Services, Insurance, and Construction, and the Disposition of Surplus Materials adopted by the Board, and the Rules Governing Procurement of Goods, Services, Insurance, and Construction, which is attached as Attachment 1 to that Policy, constitute the adopted Board of Visitors policies regarding the University's capital projects, whether funded by a state general fund appropriation, State Tax Supported Debt, or funding from other sources.*

*This Policy is intended to encompass and implement the authority that may be granted to the University pursuant to Subchapter 3 of the Act. Any other powers and authorities*

*granted to the University pursuant to the Appropriation Act, or any other sections of the Code of Virginia, including other provisions of the Act and the University's Enabling Legislation, are not affected by this Policy.*

#### *IV. GENERAL PROVISIONS.*

##### *A. Adoption of This Policy and Continued Applicability of Other Board of Visitors' Procurement Policies.*

*The University has had decentralization and pilot program autonomy in many procurement functions and activities since the Appropriation Act of 1994. The Act extends and reinforces the autonomy previously granted to the University in Item 330 E of the 1994 Appropriation Act. This Policy therefore is adopted by the Board of Visitors to enable the University to develop a procurement system, as well as a surplus materials disposition system for the University as a whole. Any University electronic procurement system shall integrate or interface with the Commonwealth's electronic procurement system.*

*This Policy shall be effective on the Effective Date of the University's initial Management Agreement with the Commonwealth. The implementing policies and procedures adopted by the President, acting through the Senior Vice President for Finance and Administration or other designee, to implement this Policy shall continue to be subject to any other policies adopted by the Board of Visitors affecting procurements at the University, including policies regarding the nature and amounts of procurements that may be undertaken without the approval of the Board of Visitors, or of the President, acting through the Senior Vice President for Finance and Administration or other designee.*

##### *B. Scope and Purpose of University Procurement Policies.*

*This Policy shall apply to procurements of goods, services, insurance, and construction. It shall be the policy of the University that procurements conducted by the University result in the purchase of high quality goods and services at reasonable prices, and that the University be free, to the maximum extent permitted by law and this Policy, from constraining policies that hinder the ability of the University to do business in a competitive environment. This Policy, together with the Rules Governing Procurement of Goods, Services, Insurance, and Construction attached to this Policy as Attachment 1, shall apply to all procurements undertaken by the University, regardless of the source of funds.*

##### *C. Collaboration, Communication, and Cooperation with the Commonwealth.*

*The University is committed to developing, maintaining, and sustaining collaboration, communication, and cooperation with the Commonwealth regarding the matters addressed in this Policy, particularly with the Offices of the Secretaries of Administration and Technology, the Department of General Services, and the Virginia Information Technologies Agency. Identifying business objectives and goals common to both the University and the Commonwealth and the mechanisms by which such objectives and goals may be jointly pursued and achieved are among the desired outcomes of such collaboration, communication, and cooperation.*

*D. Commitment to Statewide Contracts, Electronic Procurement, and SWAM Participation and Use.*

*The University is committed to maximizing its internal operational efficiencies, economies of scale among institutions of higher education, and the leveraged buying power of the Commonwealth as a whole.*

*Consistent with this commitment, the University:*

- 1. May purchase from and participate in all statewide contracts for goods and services, including information technology goods and services, except that the University shall purchase from and participate in contracts for communications services and telecommunications facilities entered into by the Virginia Information Technologies Agency pursuant to § [2.2-2011](#) of the Code of Virginia, unless an exception is provided in the Appropriation Act or by other law, and provided that orders not placed through statewide contracts shall be processed directly or by integration or interface through the Commonwealth's electronic procurement system;*
- 2. Shall use directly or by integration or interface the Commonwealth's enterprise electronic procurement system, commonly known as "eVA", and comply with the Business Plan for the Commonwealth's enterprise electronic procurement system; and*
- 3. Shall adopt a small, woman-owned, and minority-owned (SWAM) business program that is consistent with the Commonwealth's SWAM program.*

*E. Implementation.*

*To effect its implementation under the Act, and if the University remains in continued substantial compliance with the terms and conditions of this Management Agreement with the Commonwealth pursuant to subdivision D 4 of § [23-38.88](#) and the requirements of Chapter 4.10 of the Act, the University's procurement of goods, services, insurance, and construction, and the disposition of surplus materials shall be exempt from the Virginia Public Procurement Act, Chapter 43 (§ [2.2-4300](#) et seq.) of Title 2.2, except § [2.2-4342](#) and §§ [2.2-4367](#) through [2.2-4377](#); the oversight of the Virginia Information Technologies Agency, Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2; and the Information*

*Technology Investment Board, Article 20 (§ [2.2-2457](#) et seq.) of Chapter 24 of Title 2.2; the state agency requirements regarding disposition of surplus materials and distribution of proceeds from the sale or recycling of surplus materials in §§ [2.2-1124](#) and [2.2-1125](#); the requirement to purchase from the Department for the Blind and Vision Impaired (DBVI) (§ [2.2-1117](#)); and any other state statutes, rules, regulations or requirements relating to the procurement of goods, services, insurance, and construction, including but not limited to Article 3 (§ [2.2-1109](#) et seq.) of Chapter 11 of Title 2.2, regarding the duties, responsibilities and authority of the Division of Purchases and Supply of the Virginia Department of General Services, and Article 4 (§ [2.2-1129](#) et seq.) of Chapter 11 of Title 2.2 of the Code of Virginia, regarding the review and the oversight by the Division of Engineering and Buildings of the Virginia Department of General Services of contracts for the construction of University capital projects and construction-related professional services (§ [2.2-1132](#)).*

#### *V. UNIVERSITY PROCUREMENT POLICIES.*

##### *A. General Competitive Principles.*

*In connection with University procurements and the processes leading to award of contracts for goods, services, insurance, construction, and professional services, the University is committed to:*

*Seeking competition to the maximum practical degree, taking into account the size of the anticipated procurement, the term of the resulting contract and the likely extent of competition;*

*Conducting all procurements in an open, fair and impartial manner and avoiding any impropriety or the appearance of any impropriety;*

*Making procurement rules clear in advance of any competition;*

*Providing access to the University's business to all qualified vendors, firms and contractors, with no potential bidder or offeror excluded arbitrarily or capriciously, while allowing the flexibility to engage in cooperative procurements and to meet special needs of the University;*

*Ensuring that specifications for purchases are fairly drawn so as not to favor unduly a particular vendor; and*

*Providing for the free exchange of information between the University, vendors, firms or contractors concerning the goods or services sought and offered while preserving the confidentiality of proprietary information.*

##### *B. Access to Records.*

*Procurement records shall be available to citizens or to interested persons, firms or corporations in accordance with the provisions of the Virginia Freedom of Information Act,*

*Chapter 37 (§ [2.2-3700](#) et seq.) of Title 2.2 of the Code of Virginia, except those records exempt from disclosure pursuant to subdivision 7 or 12 of § [2.2-3705.1](#) or subdivision 4 of § [2.2-3705.4](#), or other applicable exemptions of the Virginia Freedom of Information Act, and § [2.2-4342](#) of the Virginia Public Procurement Act.*

*C. Cooperative Procurements and Alliances.*

*In circumstances where the University determines and documents that statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to the University that meet its business goals and objectives, the University is authorized to participate in cooperative procurements with other public or private organizations or entities, including other educational institutions, public-private partnerships, public bodies, charitable organizations, health care provider alliances and purchasing organizations, so long as the resulting contracts are procured competitively pursuant to subsections A through J of § 5 of the Rules Governing Procurement of Goods, Services, Insurance, and Construction attached to this Policy as Attachment 1 and the purposes of this Policy will be furthered. In the event the University engages in a cooperative contract with a private organization or public-private partnership and the contract was not competitively procured pursuant to subsections A through J of § 5 of the Rules Governing Procurement of Goods, Services, Insurance, and Construction attached to this Policy as Attachment 1, use of the contract by other state agencies, institutions and public bodies shall be prohibited. Notwithstanding all of the above, use of cooperative contracts shall conform to the business requirements of the Commonwealth's electronic procurement system, including the requirement for payment of applicable fees. By October 1 of each year, the President, acting through the Senior Vice President for Finance and Administration or other designee, shall make available to the Secretaries of Administration and Technology, the Joint Legislative Audit and Review Commission, and the Auditor of Public Accounts a list of all cooperative contracts and alliances entered into or used during the prior fiscal year.*

*D. Training; Ethics in Contracting.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall take all necessary and reasonable steps to assure (i) that all University officials responsible for and engaged in procurements authorized by the Act and this Policy are knowledgeable regarding the requirements of the Act, this Policy, and the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of the Code of Virginia, (ii) that only officials authorized by this Policy and any procedures adopted by the President, acting through the Senior Vice President for Finance and Administration or other designee,*

*to implement this Policy are responsible for and engaged in such procurements, and (iii) that compliance with the Act and this Policy are achieved.*

*The University shall maintain an ongoing program to provide professional development opportunities to its buying staff and to provide methods training to internal staff who are engaged in placing decentralized small purchase transactions.*

*E. Ethics and University Procurements.*

*In implementing the authority conferred by this Policy, the personnel administering any procurement shall adhere to the following provisions of the Code of Virginia: the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2, the State and Local Government Conflict of Interests Act, Chapter 31 (§ [2.2-3100](#) et seq.) of Title 2.2, and the Virginia Governmental Frauds Act, Article 1.1 (§ [18.2-498.1](#) et seq.) of Chapter 12 of Title 18.2 of the Code of Virginia.*

*VI. UNIVERSITY SURPLUS MATERIALS POLICY AND PROCEDURES.*

*The policy and procedures for disposal for surplus materials shall provide for the sale, environmentally appropriate disposal, or recycling of surplus materials by the University and the retention of the resulting proceeds by the University.*

*VII. ADOPTION AND EFFECTIVE DATES OF RULES AND IMPLEMENTING POLICIES AND PROCEDURES.*

*A. The President, acting through the Senior Vice President for Finance and Administration or other designee, shall adopt one or more comprehensive sets of specific procurement policies and procedures for the University, which, in addition to the Rules, implement applicable provisions of law and this Policy. University procurements shall be carried out in accordance with this Policy, the Rules, and any implementing policies and procedures adopted by the University. The implementing policies and procedures (i) shall include the delegation of procurement authority by the Board to appropriate University officials who shall oversee University procurements of goods, services, insurance, and construction, including a grant of authority to such officials to engage in further delegation of authority as the President deems appropriate, and (ii) shall remain consistent with the competitive principles set forth in Part V above.*

*B. Any implementing policies and procedures adopted pursuant to subsection A above and the Rules shall become effective on the Effective Date of the University's initial Management Agreement with the Commonwealth, and, as of their effective date, shall be applicable to all procurements undertaken by the University on behalf of the University for goods, services, insurance, and construction. This Policy, the Rules, and any imple-*

*menting policies and procedures adopted by the University shall not affect existing contracts already in effect.*

*C. The Rules and University implementing policies and procedures for all University procurements of goods, services, insurance, and construction, and the disposition of surplus property shall be substantially consistent with the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and their Vendors in their form as of the effective date of this Policy and as amended or changed in the future, and with University procedures specific to the Acquisition of Goods and Services. The Rules and University implementing policies and procedures shall implement a system of competitive negotiation, and competitive sealed bidding when appropriate, for goods, services, including professional services as defined in the Rules, insurance, and construction.*

#### *VIII. REQUIREMENTS FOR RULES AND IMPLEMENTING POLICIES AND PROCEDURES.*

##### *A. Protests, Appeals and Debarment.*

*The Rules and University implementing policies and procedures for procurements other than capital outlay shall include a process or processes for an administrative appeal by vendors, firms or contractors. Protests and appeals may challenge determinations of vendor, firm or contractor non-responsibility or ineligibility, or the award of contracts, provided that such protests and appeals are filed within the times specified by the Rules. Remedies available shall be limited to reversal of the action challenged or, where a contract already being performed is declared void, compensation for the cost of performance up to the time of such declaration. The Rules and University implementing policies and procedures also may establish the basis and process for debarment of any vendor, firm or contractor.*

##### *B. Prompt Payment of Contractors and Subcontractors.*

*The Rules and University implementing policies and procedures shall include provisions related to prompt payment of outstanding invoices, which shall include payment of interest on properly-presented invoices outstanding more than seven (7) days beyond the payment date, at a rate no higher than the lowest prime rate charged by any commercial bank as published in the Wall Street Journal. The payment date shall be the later of thirty (30) days from the date of the receipt of goods or invoice, or the date established by the contract. All contracts also shall require prompt payment of subcontractors by the general contractor, upon receipt of payment by the University.*

##### *C. Types of Procurements.*

*The Rules and University implementing policies and procedures shall implement a system of competitive negotiation for professional services, as defined in the Rules, and*

*shall implement purchasing procedures developed to maximize competition given the size and duration of the contract, and the needs of the University. Such policies and procedures may include special provisions for procurements such as emergency procurements, sole source procurements, brand name procurements, small purchases, procurements in which only one qualified vendor responds, and others.*

*D. Approval and Public Notice of Procurements.*

*The Rules and University implementing policies and procedures shall provide for approval of solicitation documents by an authorized individual and for reasonable public notice of procurements, given the size and nature of the need and the applicability of any Virginia Freedom of Information Act exemption.*

*E. Administration of Contracts.*

*The Rules and University implementing policies and procedures shall contain provisions related to the administration of contracts, including contract claims, modifications, extensions and assignments.*

*F. Non-Discrimination.*

*The Rules and University implementing policies and procedures shall provide for a non-discriminatory procurement process that prohibits discrimination because of race, religion, color, sex or national origin of the bidder or offeror in the solicitation and award of contracts; and shall include appropriate provisions to effectuate fair and reasonable consideration of women-owned, minority-owned and small businesses and to promote and encourage a diversity of suppliers.*

**ATTACHMENT 1**

*Rules Governing Procurement of Goods, Services, Insurance, and Construction  
by a Public Institution of Higher Education of the Commonwealth of Virginia  
Governed by Subchapter 3 of the  
Restructured Higher Education Financial and Administrative Operations Act,  
Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia*

*In accordance with the provisions of the Restructured Higher Education Financial and Administrative Operations Act (the Act), Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia, and in particular § [23-38.110](#) of the Act, the governing body of a public institution of higher education of the Commonwealth of Virginia that has entered*

*into a Management Agreement with the Commonwealth pursuant to Subchapter 3 of the Act has adopted the following Rules Governing Procurement of Goods, Services, Insurance, and Construction to govern the procurement of goods, services, insurance, and construction by the Institution:*

*§ 1. Purpose.*

*The purpose of these Rules is to enunciate the public policies pertaining to procurement of goods, services, insurance, and construction by the Institution from nongovernmental sources, to include governmental procurement that may or may not result in monetary consideration for either party. These Rules shall apply whether the consideration is monetary or nonmonetary and regardless of whether the Institution, the contractor, or some third party is providing the consideration.*

*§ 2. Scope of Procurement Authority.*

*Subject to these Rules, and the Institution's continued substantial compliance with the terms and conditions of its Management Agreement with the Commonwealth pursuant to subdivision D 4 of § [23-38.88](#) and the requirements of Chapter 4.10 of the Act, the Institution shall have and shall be authorized to have and exercise all of the authority relating to procurement of goods, services, insurance, and construction, including but not limited to capital outlay-related procurement and information technology-related procurement, that Institutions are authorized to exercise pursuant to Subchapter 3 of the Restructuring Act.*

*§ 3. Competition is the Priority.*

*To the end that the Institution shall obtain high quality goods and services at reasonable cost, that all procurement procedures be conducted in an open, fair and impartial manner with avoidance of any impropriety or appearance of impropriety, that all qualified vendors have access to the Institution's business and that no offeror be arbitrarily or capriciously excluded, it is the intent of the governing body of the Institution that competition be sought to the maximum feasible degree, that procurement procedures involve openness and administrative efficiency, that individual public bodies enjoy broad flexibility in fashioning details of such competition, that the rules governing contract awards be made clear in advance of the competition, that specifications reflect the procurement needs of the purchasing body rather than being drawn to favor a particular vendor, and that the purchaser and vendor freely exchange information concerning what is sought to be procured and what is offered. The Institution may consider best value concepts when procuring goods and nonprofessional services, but not construction or professional services. Professional services will be procured using a qualification-based selection pro-*

*cess. The criteria, factors, and basis for consideration of best value and the process for the consideration of best value shall be as stated in the procurement solicitation.*

*§ 4. Definitions.*

*As used in these Rules:*

*"Affiliate" means an individual or business that controls, is controlled by, or is under common control with another individual or business. A person controls an entity if the person owns, directly or indirectly, more than 10 percent of the voting securities of the entity. For the purposes of this definition "voting security" means a security that (i) confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business or (ii) is convertible into, or entitles the holder to receive, upon its exercise, a security that confers such a right to vote. A general partnership interest shall be deemed to be a voting security.*

*"Best value," as predetermined in the solicitation, means the overall combination of quality, price, and various elements of required services that in total are optimal relative to the Institution's needs.*

*"Business" means any type of corporation, partnership, limited liability company, association, or sole proprietorship operated for profit.*

*"Competitive negotiation" is a method of contractor selection that includes the following elements:*

- 1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities or qualifications that will be required of the contractor.*
- 2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by publication in a newspaper or newspapers of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Public notice also shall be published on the Department of General Services' central electronic procurement website and may be published on other appropriate websites. In addition, proposals may be solicited directly from potential contractors.*
- 3. a. Procurement of professional services. The procurement of professional services for capital projects shall be conducted using a qualification-based selection process. The Institution shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis*

*on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or costs for services. At the discussion stage, the Institution may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. Proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the Institution shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the Institution can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price. Should the Institution determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.*

*A contract for architectural or professional engineering services relating to construction projects may be negotiated by the Institution for multiple projects provided (i) the projects require similar experience and expertise, and (ii) the nature of the projects is clearly identified in the Request for Proposal. Under such contract, (a) the fair and reasonable prices, as negotiated, shall be used in determining the cost of each project performed; (b) the sum of all projects performed in one contract term shall be as set in the Request for Proposal; and (c) the project fee of any single project shall not exceed the term limit as set in the Request for Proposal. Any unused amounts from any contract term may be carried forward. Competitive negotiations for such contracts may result in awards to more than one offeror provided the Request for Proposal stated the potential for a multi-vendor award.*

*Multiphase professional services contracts satisfactory and advantageous to the Institution for environmental, location, design and inspection work regarding construction of infrastructure projects may be negotiated and awarded based on qualifications at a fair and reasonable price for the first phase only, when completion of the earlier phases is*

*necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to the procurement of any such contract, the Institution shall state the anticipated intended total scope of the project and determine in writing that the nature of the work is such that the best interests of such Institution require awarding the contract.*

*b. Procurement of other than professional services. Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. Negotiations shall then be conducted with each of the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the Institution shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the Institution determine in writing and in its sole discretion that only one offeror has made the best proposal, a contract may be negotiated and awarded to that offeror. "Competitive sealed bidding" is a method of contractor selection, other than for professional services, which includes the following elements:*

*1. Issuance of a written Invitation to Bid containing or incorporating by reference the specifications and contractual terms and conditions applicable to the procurement. Unless the Institution has provided for prequalification of bidders, the Invitation to Bid shall include a statement of any requisite qualifications of potential contractors. When it is impractical to prepare initially a purchase description to support an award based on prices, an Invitation to Bid may be issued requesting the submission of unpriced offers to be followed by an Invitation to Bid limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.*

*2. Public notice of the Invitation to Bid at least 10 days prior to the date set for receipt of bids by publication on the Department of General Services' central electronic procurement website. Public notice also may be published in a newspaper of general circulation or on other appropriate websites, or both. In addition, bids may be solicited directly from potential contractors. Any additional solicitations shall include businesses selected from a list made available by the Department of Minority Business Enterprise.*

*3. Public opening and announcement of all bids received.*

*4. Evaluation of bids based upon the requirements set forth in the invitation, which may include special qualifications of potential contractors, life-cycle costing, value analysis,*

*and any other criteria such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose, which are helpful in determining acceptability.*

*5. Award to the lowest responsive and responsible bidder. When the terms and conditions of multiple awards are so provided in the Invitation to Bid, awards may be made to more than one bidder.*

*"Construction" means building, altering, repairing, improving or demolishing any structure, building or highway, and any draining, dredging, excavation, grading or similar work upon real property.*

*"Construction management contract" means a contract in which a party is retained by the owner to coordinate and administer contracts for construction services for the benefit of the owner, and may also include, if provided in the contract, the furnishing of construction services to the owner.*

*"Covered Institution" or "Institution" means, on and after the effective date of the initial management agreement with the Commonwealth of Virginia, a public institution of higher education of the Commonwealth that has entered into a management agreement with the Commonwealth to be governed by the provisions of Subchapter 3 of the Restructuring Act.*

*"Design-build contract" means a contract between the Institution and another party in which the party contracting with the Institution agrees to both design and build the structure, roadway or other item specified in the contract.*

*"Goods" means all material, equipment, supplies, and printing, including information technology and telecommunications goods such as automated data processing hardware and software.*

*"Informality" means a minor defect or variation of a bid or proposal from the exact requirements of the Invitation to Bid, or the Request for Proposal, which does not affect the price, quality, quantity or delivery schedule for the goods, services or construction being procured.*

*"Multiphase professional services contract" means a contract for the providing of professional services where the total scope of work of the second or subsequent phase of the contract cannot be specified without the results of the first or prior phase of the contract.*

*"Nonprofessional services" means any services not specifically identified as professional services in the definition of professional services and includes small construction projects valued not over \$1 million; provided that subdivision 3 a of the definition of "competitive negotiation" in this section shall still apply to professional services for such small construction projects.*

*"Potential bidder or offeror" for the purposes of §§ 50 and 54 of these Rules means a person who, at the time the Institution negotiates and awards or proposes to award a contract, is engaged in the sale or lease of goods, or the sale of services, insurance or construction, of the type to be procured under the contract, and who at such time is eligible and qualified in all respects to perform that contract, and who would have been eligible and qualified to submit a bid or proposal had the contract been procured through competitive sealed bidding or competitive negotiation.*

*"Professional services" means work performed by an independent contractor within the scope of the practice of accounting, actuarial services, architecture, land surveying, landscape architecture, law, dentistry, medicine, optometry, pharmacy or professional engineering.*

*"Public body" means any legislative, executive or judicial body, agency, office, department, authority, post, commission, committee, institution, board or political subdivision created by law to exercise some sovereign power or to perform some governmental duty, and empowered by law to undertake the activities described in these Rules.*

*"Public contract" means an agreement between the Institution and a nongovernmental source that is enforceable in a court of law.*

*"Responsible bidder" or "responsible offeror" means a person who has the capability, in all respects, to perform fully the contract requirements and the moral and business integrity and reliability that will assure good faith performance, and who has been pre-qualified, if required.*

*"Responsive bidder" means a person who has submitted a bid that conforms in all material respects to the Invitation to Bid.*

*"Restructuring Act" or "Act" means the Restructured Higher Education Financial and Administrative Operations Act, Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia.*

*"Reverse auctioning" means a procurement method wherein bidders are invited to bid on specified goods or nonprofessional services through real-time electronic bidding, with the award being made to the lowest responsive and responsible bidder. *B. Professional services shall be procured by competitive negotiation. Qualification-based selection shall be used for design services.*

*C. Goods, services, or insurance may be procured by competitive negotiation.*

*D. Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances upon a determination made in advance by the Institution and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination:*

*1. By the Institution on a fixed price design-build basis or construction management basis under § 7;*

*2. By the Institution for the construction, alteration, repair, renovation or demolition of buildings; or*

*3. By the Institution for the construction of highways and any draining, dredging, excavation, grading or similar work upon real property.*

*E. Upon a determination in writing that there is only one source practicably available for that which is to be procured, a contract may be negotiated and awarded to that source without competitive sealed bidding or competitive negotiation. The writing shall document the basis for this determination. The Institution shall issue a written notice stating that only one source was determined to be practicably available, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area, which may be the Department of General Services' website for the Commonwealth's central electronic procurement system, or published in a newspaper of general circulation on the day the Institution awards or announces its decision to award the contract, whichever occurs first. The Institution shall issue a written notice stating that the contract is being awarded on an emergency basis, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area, which may be the Department of General Services' website for the Commonwealth's central electronic procurement system, or published in a newspaper of general circulation on the day the Institution awards or announces its decision to award the contract, whichever occurs first, or as soon thereafter as is practicable. *J. The purchase of goods or nonprofessional services, but not construction or professional services, may be made by reverse auctioning.*

#### *§ 6. Cooperative procurement.*

*A. In circumstances where the Institution determines and documents that statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to the Institution that meet its business goals and objectives, the Institution is authorized to participate in, sponsor, conduct, or administer a cooperative procurement arrangement on behalf of or in conjunction with public bodies, public or private health or educational institutions, other*

*public or private organizations or entities, including public-private partnerships, charitable organizations, health care provider alliances or purchasing organizations or entities, or with public agencies or institutions or group purchasing organizations of the several states, territories of the United States, or the District of Columbia, for the purpose of combining requirements to effect cost savings or reduce administrative expense in any acquisition of goods and services, other than professional services. The Institution may purchase from any authority, department, agency, institution, city, county, town, or other political subdivision of the Commonwealth's contract even if it did not participate in the request for proposal or invitation to bid, if the request for proposal or invitation to bid specified that the procurement was being conducted on behalf of other public bodies. In such instances, deviation from the procurement procedures set forth in these Rules and the administrative policies and procedures established to implement these Rules shall be permitted. Notwithstanding all of the above, use of cooperative contracts shall conform to the business requirements of the Commonwealth's electronic procurement system, including the requirement for payment of applicable fees. Nothing herein shall prohibit the payment by direct or indirect means of any administrative fee that will allow for participation in any such arrangement.*

*B. In circumstances where statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to meet the Institution's business goals and objectives, and as authorized by the United States Congress and consistent with applicable federal regulations, and provided the terms of the contract permit such purchases:*

- 1. The Institution may purchase goods and nonprofessional services, from a United States General Services Administration contract or a contract awarded by any other agency of the United States government; and*

*A. Notwithstanding any other provisions of law, the Institution may enter into contracts on a fixed price design-build basis or construction management basis in accordance with the provisions of this section.*

*B. Procurement of construction by the design-build or construction management method shall be a two-step competitive negotiation process. In the first step, offerors shall be requested to submit their qualifications. Based upon the information submitted and any other relevant information which the Commonwealth may obtain, no more than five*

*offerors deemed most suitable for the project shall be selected by the Commonwealth and requested to submit proposals.*

*§ 8. Modification of the contract.*

*A. A contract awarded by the Institution may include provisions for modification of the contract during performance, but no fixed-price contract may be increased by more than 25 percent of the amount of the contract or \$50,000, whichever is greater, without the advance written approval of the Institution's president or his designee. In no event may the amount of any contract, without adequate consideration, be increased for any purpose, including, but not limited to, relief of an offeror from the consequences of an error in its bid or offer.*

*B. The Institution may extend the term of an existing contract for services to allow completion of any work undertaken but not completed during the original term of the contract.*

*C. Nothing in this section shall prevent the Institution from placing greater restrictions on contract modifications.*

*§ 9. Discrimination prohibited; participation of small, women- and minority-owned business.*

*A. In the solicitation or awarding of contracts, the Institution shall not discriminate against a bidder or offeror because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment.*

*Whenever solicitations are made, the Institution shall include businesses selected from a list made available by the Department of Minority Business Enterprise.*

*B. The Institution shall establish programs consistent with this section to facilitate the participation of small businesses and businesses owned by women and minorities in procurement transactions. The programs established shall be in writing and shall include cooperation with the Department of Minority Business Enterprise, the United States Small Business Administration, and other public or private agencies. The Institution shall submit annual progress reports on minority business procurement to the Department of Minority Business Enterprise.*

*C. Whenever there exists (i) a rational basis for small business enhancement or (ii) a persuasive analysis that documents a statistically significant disparity between the availability and utilization of women- and minority-owned businesses, the Governor is by law authorized and encouraged to require the Institution to implement appropriate enhancement or remedial measures consistent with prevailing law.*

*D. In the solicitation or awarding of contracts, the Institution shall not discriminate against a bidder or offeror because the bidder or offeror employs ex-offenders unless it has*

*made a written determination that employing ex-offenders on the specific contract is not in its best interest.*

*§ 10. Employment discrimination by contractor prohibited; required contract provisions. The Institution shall include in every contract of more than \$10,000 the following provisions:*

*1. During the performance of this contract, the contractor agrees as follows:*

*a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.*

*b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.*

*c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.*

*2. The contractor will include the provisions of the foregoing paragraphs a, b, and c in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.*

*§ 11. Drug-free workplace to be maintained by contractor; required contract provisions. The Institution shall include in every contract over \$10,000 the following provisions:*

*During the performance of this contract, the contractor agrees to (i) provide a drug-free workplace for the contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the contractor that the contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.*

*For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a contractor in accordance with these Rules, the employees of whom are prohibited from engaging in the*

*unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.*

*§ 12. Use of brand names.*

*Unless otherwise provided in the Invitation to Bid, the name of a certain brand, make or manufacturer shall not restrict bidders to the specific brand, make or manufacturer named and shall be deemed to convey the general style, type, character, and quality of the article desired. Any article that the Institution in its sole discretion determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted.*

*§ 13. Comments concerning specifications.*

*The Institution shall establish procedures whereby comments concerning specifications or other provisions in Invitations to Bid or Requests for Proposal can be received and considered prior to the time set for receipt of bids or proposals or award of the contract.*

*§ 14. Prequalification generally; prequalification for construction.*

*A. Prospective contractors may be prequalified for particular types of supplies, services, insurance or construction, and consideration of bids or proposals limited to prequalified contractors. Any prequalification procedure shall be established in writing and sufficiently in advance of its implementation to allow potential contractors a fair opportunity to complete the process.*

*B. Any prequalification of prospective contractors for construction by the Institution shall be pursuant to a prequalification process for construction projects adopted by the Institution. The process shall be consistent with the provisions of this section.*

*The application form used in such process shall set forth the criteria upon which the qualifications of prospective contractors will be evaluated. The application form shall request of prospective contractors only such information as is appropriate for an objective evaluation of all prospective contractors pursuant to such criteria. The form shall allow the prospective contractor seeking prequalification to request, by checking the appropriate box, that all information voluntarily submitted by the contractor pursuant to this subsection shall be considered a trade secret or proprietary information subject to the provisions of subsection D of § 34 of these Rules.*

*In all instances in which the Institution requires prequalification of potential contractors for construction projects, advance notice shall be given of the deadline for the submission of prequalification applications. The deadline for submission shall be sufficiently in advance of the date set for the submission of bids for such construction so as to allow the procedures set forth in this subsection to be accomplished.*

*At least 30 days prior to the date established for submission of bids or proposals under the procurement of the contract for which the prequalification applies, the Institution shall advise in writing each contractor who submitted an application whether that contractor has been prequalified. In the event that a contractor is denied prequalification, the written notification to the contractor shall state the reasons for the denial of prequalification and the factual basis of such reasons.*

*A decision by the Institution denying prequalification under the provisions of this subsection shall be final and conclusive unless the contractor appeals the decision as provided in § 54 of these Rules.*

*C. The Institution may deny prequalification to any contractor only if the Institution finds one of the following:*

- 1. The contractor does not have sufficient financial ability to perform the contract that would result from such procurement. If a bond is required to ensure performance of a contract, evidence that the contractor can acquire a surety bond from a corporation included on the United States Treasury list of acceptable surety corporations in the amount and type required by the Institution shall be sufficient to establish the financial ability of the contractor to perform the contract resulting from such procurement;*
- 2. The contractor does not have appropriate experience to perform the construction project in question;*
- 3. The contractor or any officer, director or owner thereof has had judgments entered against him within the past 10 years for the breach of contracts for governmental or non-governmental construction, including, but not limited to, design-build or construction management;*
- 4. The contractor has been in substantial noncompliance with the terms and conditions of prior construction contracts with the Institution without good cause. If the Institution has not contracted with a contractor in any prior construction contracts, the Institution may deny prequalification if the contractor has been in substantial noncompliance with the terms and conditions of comparable construction contracts with another public body without good cause. The Institution may not utilize this provision to deny prequalification unless the facts underlying such substantial noncompliance were documented in writing in the prior construction project file and such information relating thereto given to the contractor at that time, with the opportunity to respond;*
- 5. The contractor or any officer, director, owner, project manager, procurement manager or chief financial official thereof has been convicted within the past 10 years of a crime related to governmental or nongovernmental construction or contracting, including, but not limited to, a violation of (i) Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of*

the Code of Virginia, (ii) the Virginia Governmental Frauds Act (§ [18.2-498.1](#) et seq.) of the Code of Virginia, (iii) Chapter 4.2 (§ [59.1-68.6](#) et seq.) of Title 59.1 of the Code of Virginia, or (iv) any substantially similar law of the United States or another state;

6. The contractor or any officer, director or owner thereof is currently debarred pursuant to an established debarment procedure from bidding or contracting by any public body, agency of another state or agency of the federal government;

7. The contractor failed to provide to the Institution in a timely manner any information requested by the Institution relevant to subdivisions 1 through 6 of this subsection.

§ 15. *Negotiation with lowest responsible bidder.*

Unless canceled or rejected, a responsive bid from the lowest responsible bidder shall be accepted as submitted, except that if the bid from the lowest responsible bidder exceeds available funds, the Institution may negotiate with the apparent low bidder to obtain a contract price within available funds. However, the negotiation may be undertaken only under conditions and procedures described in writing and approved by the Institution prior to issuance of the Invitation to Bid and summarized therein.

§ 16. *Cancellation, rejection of bids; waiver of informalities.*

A. An Invitation to Bid, a Request for Proposal, any other solicitation, or any and all bids or proposals, may be canceled or rejected. The reasons for cancellation or rejection shall be made part of the contract file. The Institution shall not cancel or reject an Invitation to Bid, a Request for Proposal, any other solicitation, bid or proposal pursuant to this section solely to avoid awarding a contract to a particular responsive and responsible bidder or offeror.

B. The Institution may waive informalities in bids.

§ 17. *Exclusion of insurance bids prohibited.*

Notwithstanding any other provision of law, no insurer licensed to transact the business of insurance in the Commonwealth or approved to issue surplus lines insurance in the Commonwealth shall be excluded from presenting an insurance bid proposal to the Institution in response to a request for proposal or an invitation to bid. Nothing in this section shall preclude the Institution from debarring a prospective insurer pursuant to § 18.

§ 18. *Debarment.*

Prospective contractors may be debarred from contracting for particular types of supplies, services, insurance or construction, for specified periods of time. Any debarment procedure shall be established in writing by the Institution. Any debarment procedure may provide for debarment on the basis of a contractor's unsatisfactory performance for the Institution.

§ 19. *Purchase programs for recycled goods; Institution responsibilities.*

*A. The Institution may implement a purchase program for recycled goods and may coordinate its efforts so as to achieve the goals and objectives set forth in §§ [10.1-1425.6](#), [10.1-1425.7](#), and [10.1-1425.8](#) of the Code of Virginia, and §§ 20 and 22 of these Rules.*

*B. The Department of Environmental Quality, with advice from the Virginia Recycling Markets Development Council, shall advise the Institution concerning the designation of recycled goods.*

*§ 20. Preference for Virginia products with recycled content and for Virginia firms.*

*A. In the case of a tie bid, preference shall be given to goods produced in Virginia and goods or services or construction provided by Virginia persons, firms or corporations; otherwise the tie shall be decided by lot.*

*B. Whenever any bidder is a resident of any other state and such state under its laws allows a resident contractor of that state a preference, a like preference may be allowed by the Institution to the lowest responsive and responsible bidder who is a resident of Virginia.*

*C. Notwithstanding the provisions of subsections A and B, in the case of a tie bid in instances where goods are being offered, and existing price preferences have already been taken into account, preference shall be given to the bidder whose goods contain the greatest amount of recycled content.*

*§ 21. Preference for Virginia coal used in the Institution.*

*In determining the award of any contract for coal to be purchased for use in the Institution with state funds, the Institution shall procure using competitive sealed bidding and shall award to the lowest responsive and responsible bidder offering coal mined in Virginia so long as its bid price is not more than 4 percent greater than the bid price of the lowest responsive and responsible bidder offering coal mined elsewhere.*

*§ 22. Preference for recycled paper and paper products used by the Institution.*

*A. In determining the award of any contract for paper and paper products to be purchased for use by the Institution, it shall competitively procure recycled paper and paper products of a quality suitable for the purpose intended, so long as the price is not more than 10 percent greater than the price of the lowest responsive and responsible bidder or offeror offering a product that does not qualify under subsection B.*

*B. For purposes of this section, recycled paper and paper products means any paper or paper products meeting the EPA Recommended Content Standards as defined in 40 C.F.R. Part 247.*

*§ 23. Withdrawal of bid due to error.*

*A. A bidder for a public construction contract, other than a contract for construction or maintenance of public highways, may withdraw his bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake in the bid, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake, and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.*

*If a bid contains both clerical and judgment mistakes, a bidder may withdraw his bid from consideration if the price bid would have been substantially lower than the other bids due solely to the clerical mistake, that was an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid that shall be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.*

*One of the following procedures for withdrawal of a bid shall be selected by the Institution and stated in the advertisement for bids: (i) the bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice; or (ii) the bidder shall submit to the Institution or designated official his original work papers, documents and materials used in the preparation of the bid within one day after the date fixed for submission of bids. The work papers shall be delivered by the bidder in person or by registered mail at or prior to the time fixed for the opening of bids. In either instance, the work papers, documents and materials may be considered as trade secrets or proprietary information subject to the conditions of subsection F of § 34 of these Rules. The bids shall be opened one day following the time fixed by the Institution for the submission of bids. Thereafter, the bidder shall have two hours after the opening of bids within which to claim in writing any mistake as defined herein and withdraw his bid. The contract shall not be awarded by the Institution until the two-hour period has elapsed. The mistake shall be proved only from the original work papers, documents and materials delivered as required herein.*

*B. The Institution may establish procedures for the withdrawal of bids for other than construction contracts.*

*C. No bid shall be withdrawn under this section when the result would be the awarding of the contract on another bid of the same bidder or of another bidder in which the ownership of the withdrawing bidder is more than 5 percent.*

*D. If a bid is withdrawn in accordance with this section, the lowest remaining bid shall be deemed to be the low bid.*

*E. No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to or perform any subcontract or other work agreement for the person or firm to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.*

*F. If the Institution denies the withdrawal of a bid under the provisions of this section, it shall notify the bidder in writing stating the reasons for its decision and award the contract to such bidder at the bid price, provided such bidder is a responsible and responsive bidder.*

#### *§ 24. Contract Pricing Arrangements.*

*A. Public contracts may be awarded on a fixed price or cost reimbursement basis, or on any other basis that is not prohibited by these Rules.*

*B. Except in case of emergency affecting the public health, safety or welfare, no public contract shall be awarded on the basis of cost plus a percentage of cost.*

#### *§ 25. Workers' compensation requirements for construction contractors and subcontractors.*

*A. No contractor shall perform any work on a construction project of the Institution unless he (i) has obtained, and continues to maintain for the duration of the work, workers' compensation coverage required pursuant to the provisions of Chapter 8 (§ [65.2-800](#) et seq.) of Title 65.2 of the Code of Virginia, and (ii) provides prior to the award of contract, on a form furnished by the Institution, evidence of such coverage.*

*B. The Department of General Services shall provide the form to the Institution. Failure of the Institution to provide the form prior to the award of contract shall waive the requirements of clause (ii) of subsection A.*

*C. No subcontractor shall perform any work on a construction project of the Institution unless he has obtained, and continues to maintain for the duration of such work, workers' compensation coverage required pursuant to the provisions of Chapter 8 (§ [65.2-800](#) et seq.) of Title 65.2 of the Code of Virginia.*

*§ 26. Retainage on construction contracts.*

*A. In any contract issued by the Institution for construction that provides for progress payments in installments based upon an estimated percentage of completion, the contractor shall be paid at least 95 percent of the earned sum when payment is due, with no more than 5 percent being retained to ensure faithful performance of the contract. All amounts withheld may be included in the final payment.*

*B. Any subcontract for a public project that provides for similar progress payments shall be subject to the provisions of this section.*

*§ 27. Public construction contract provisions barring damages for unreasonable delays declared void.*

*A. Any provision contained in any public construction contract of the Institution that purports to waive, release, or extinguish the rights of a contractor to recover costs or damages for unreasonable delay in performing such contract, either on his behalf or on behalf of his subcontractor if and to the extent the delay is caused by acts or omissions of the Institution, its agents or employees and due to causes within their control shall be void and unenforceable as against public policy.*

*B. Subsection A shall not be construed to render void any provision of a public construction contract awarded by the Institution that:*

- 1. Allows the recovery of that portion of delay costs caused by the acts or omissions of the contractor, or its subcontractors, agents or employees;*
- 2. Requires notice of any delay by the party claiming the delay;*
- 3. Provides for liquidated damages for delay; or*
- 4. Provides for arbitration or any other procedure designed to settle contract disputes.*

*C. A contractor making a claim against the Institution for costs or damages due to the alleged delaying of the contractor in the performance of its work under any public construction contract of the Institution shall be liable to the Institution and shall pay it for a percentage of all costs incurred by the Institution in investigating, analyzing, negotiating, litigating and arbitrating the claim, which percentage shall be equal to the percentage of the contractor's total delay claim that is determined through litigation or arbitration to be false or to have no basis in law or in fact.*

*D. If the Institution denies a contractor's claim for costs or damages due to the alleged delaying of the contractor in the performance of work under any public construction contract for the Institution, it shall be liable to and shall pay such contractor a percentage of all costs incurred by the contractor to investigate, analyze, negotiate, litigate and arbitrate the claim. The percentage paid by the Institution shall be equal to the percentage of*

*the contractor's total delay claim for which the Institution's denial is determined through litigation or arbitration to have been made in bad faith.*

*§ 28. Bid bonds.*

*A. Except in cases of emergency, all bids or proposals for construction contracts in excess of \$1 million shall be accompanied by a bid bond from a surety company selected by the bidder that is authorized to do business in Virginia, as a guarantee that if the contract is awarded to the bidder, he will enter into the contract for the work mentioned in the bid. The amount of the bid bond shall not exceed 5 percent of the amount bid.*

*B. No forfeiture under a bid bond shall exceed the lesser of (i) the difference between the bid for which the bond was written and the next low bid, or (ii) the face amount of the bid bond.*

*C. Nothing in this section shall preclude the Institution from requiring bid bonds to accompany bids or proposals for construction contracts anticipated to be less than \$1 million.*

*§ 29. Performance and payment bonds.*

*A. Upon the award by the Institution of any (i) public construction contract exceeding \$1 million awarded to any prime contractor or (ii) public construction contract exceeding \$1 million awarded to any prime contractor requiring the performance of labor or the furnishing of materials for buildings, structures or other improvements to real property owned by the Institution, the contractor shall furnish to the Institution the following bonds:*

*1. Except for transportation-related projects, a performance bond in the sum of the contract amount conditioned upon the faithful performance of the contract in strict conformity with the plans, specifications and conditions of the contract. For transportation-related projects, such bond shall be in a form and amount satisfactory to the Institution.*

*2. A payment bond in the sum of the contract amount. The bond shall be for the protection of claimants who have and fulfill contracts to supply labor or materials to the prime contractor to whom the contract was awarded, or to any subcontractors, in furtherance of the work provided for in the contract, and shall be conditioned upon the prompt payment for all materials furnished or labor supplied or performed in the furtherance of the work.*

*"Labor or materials" shall include public utility services and reasonable rentals of equipment, but only for periods when the equipment rented is actually used at the site.*

*B. Each of the bonds shall be executed by one or more surety companies selected by the contractor that are authorized to do business in Virginia.*

*C. The bonds shall be payable to the Commonwealth of Virginia naming also the Institution.*

*D. Each of the bonds shall be filed with the Institution, or a designated office or official thereof.*

*E. Nothing in this section shall preclude the Institution from requiring payment or performance bonds for construction contracts below \$1 million.*

*F. Nothing in this section shall preclude the contractor from requiring each subcontractor to furnish a payment bond with surety thereon in the sum of the full amount of the contract with such subcontractor conditioned upon the payment to all persons who have and fulfill contracts that are directly with the subcontractor for performing labor and furnishing materials in the prosecution of the work provided for in the subcontract.*

*§ 30. Alternative forms of security.*

*A. In lieu of a bid, payment, or performance bond, a bidder may furnish a certified check or cash escrow in the face amount required for the bond.*

*B. If approved by the Institution's General Counsel or his equivalent, a bidder may furnish to the Institution a personal bond, property bond, or bank or savings institution's letter of credit on certain designated funds in the face amount required for the bid, payment or performance bond. Approval shall be granted only upon a determination that the alternative form of security proffered affords protection to the Institution equivalent to a corporate surety's bond.*

*§ 31. Bonds on other than construction contracts.*

*The Institution may require bid, payment, or performance bonds for contracts for goods or services if provided in the Invitation to Bid or Request for Proposal.*

*§ 32. Action on performance bond.*

*No action against the surety on a performance bond shall be brought by the Institution unless brought within one year after (i) completion of the contract, including the expiration of all warranties and guarantees, or (ii) discovery of the defect or breach of warranty that gave rise to the action.*

*§ 33. Actions on payment bonds; waiver of right to sue.*

*A. Subject to the provisions of subsection B, any claimant who has performed labor or furnished material in accordance with the contract documents in furtherance of the work provided in any contract for which a payment bond has been given, and who has not been paid in full before the expiration of 90 days after the day on which the claimant performed the last of the labor or furnished the last of the materials for which he claims payment, may bring an action on the payment bond to recover any amount due him for the labor or material. The obligee named in the bond need not be named a party to the action.*

*B. Any claimant who has a direct contractual relationship with any subcontractor but who has no contractual relationship, express or implied, with the contractor, may bring an action on the contractor's payment bond only if he has given written notice to the contractor within 180 days from the day on which the claimant performed the last of the labor or furnished the last of the materials for which he claims payment, stating with substantial accuracy the amount claimed and the name of the person for whom the work was performed or to whom the material was furnished. Notice to the contractor shall be served by registered or certified mail, postage prepaid, in an envelope addressed to such contractor at any place where his office is regularly maintained for the transaction of business. Claims for sums withheld as retainages with respect to labor performed or materials furnished, shall not be subject to the time limitations stated in this subsection.*

*C. Any action on a payment bond shall be brought within one year after the day on which the person bringing such action last performed labor or last furnished or supplied materials.*

*D. Any waiver of the right to sue on the payment bond required by this section shall be void unless it is in writing, signed by the person whose right is waived, and executed after such person has performed labor or furnished material in accordance with the contract documents.*

*§ 34. Public inspection of certain records.*

*A. Except as provided in this section, all proceedings, records, contracts and other public records relating to procurement transactions shall be open to the inspection of any citizen, or any interested person, firm or corporation, in accordance with the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.).*

*B. Cost estimates relating to a proposed procurement transaction prepared by or for the Institution shall not be open to public inspection.*

*C. Any competitive sealed bidding bidder, upon request, shall be afforded the opportunity to inspect bid records within a reasonable time after the opening of all bids but prior to award, except in the event that the Institution decides not to accept any of the bids and to reopen the contract. Otherwise, bid records shall be open to public inspection only after award of the contract.*

*D. Any competitive negotiation offeror, upon request, shall be afforded the opportunity to inspect proposal records within a reasonable time after the evaluation and negotiations of proposals are completed but prior to award, except in the event that the Institution decides not to accept any of the proposals and to reopen the contract. Otherwise, proposal records shall be open to public inspection only after award of the contract.*

*E. Any inspection of procurement transaction records under this section shall be subject to reasonable restrictions to ensure the security and integrity of the records.*

*F. Trade secrets or proprietary information submitted by a bidder, offeror or contractor in connection with a procurement transaction or prequalification application submitted pursuant to subsection B of § 14 shall not be subject to the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.); however, the bidder, offeror or contractor shall (i) invoke the protections of this section prior to or upon submission of the data or other materials, (ii) identify the data or other materials to be protected, and (iii) state the reasons why protection is necessary.*

*§ 35. Exemption for certain transactions.*

*A. The provisions of these Rules shall not apply to:*

*1. The selection of services related to the management and investment of the Institution's endowment funds, endowment income, or gifts pursuant to § [23-76.1](#). However, selection of these services shall be governed by the Uniform Management of Institutional Funds Act (§ [55-268.1](#) et seq.) as required by § [23-76.1](#).*

*2. The purchase of items for resale at retail bookstores and similar retail outlets operated by the Institution. However, such purchase procedures shall provide for competition where practicable.*

*3. Procurement of any construction or planning and design services for construction by the Institution when (i) the planning, design or construction is \$50,000 or less or (ii) the Institution is obligated to conform to procurement procedures that are established by federal statutes or regulations, whether or not those federal procedures are in conformance with the provisions of these Rules.*

*4. The purchase of goods and services by the Institution when such purchases are made under a remedial plan established by the Governor pursuant to subsection C of § 9 of these Rules.*

*B. Where a procurement transaction involves the expenditure of federal assistance or contract funds, the receipt of which is conditioned upon compliance with mandatory requirements in federal laws or regulations not in conformance with the provisions of these Rules, the Institution may comply with such federal requirements, notwithstanding the provisions of these Rules, only upon the written determination of the Institution's President or his designee that acceptance of the grant or contract funds under the applicable conditions is in the public interest. Such determination shall state the specific provision of these Rules in conflict with the conditions of the grant or contract.*

*§ 36. Permitted contracts with certain religious organizations; purpose; limitations.*

*A. The Opportunity Reconciliation Act of 1996, P.L. 104-193, authorizes public bodies to enter into contracts with faith-based organizations for the purposes described in this section on the same basis as any other nongovernmental source without impairing the religious character of such organization, and without diminishing the religious freedom of the beneficiaries of assistance provided under this section.*

*B. For the purposes of this section, "faith-based organization" means a religious organization that is or applies to be a contractor to provide goods or services for programs funded by the block grant provided pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, P.L. 104-193.*

*C. The Institution, in procuring goods or services, or in making disbursements pursuant to this section, shall not (i) discriminate against a faith-based organization on the basis of the organization's religious character or (ii) impose conditions that (a) restrict the religious character of the faith-based organization, except as provided in subsection F, or (b) impair, diminish, or discourage the exercise of religious freedom by the recipients of such goods, services, or disbursements.*

*D. The Institution shall ensure that all invitations to bid, requests for proposals, contracts, and purchase orders prominently display a nondiscrimination statement indicating that it does not discriminate against faith-based organizations.*

*E. A faith-based organization contracting with the Institution (i) shall not discriminate against any recipient of goods, services, or disbursements made pursuant to a contract authorized by this section on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and (ii) shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the Institution. Nothing in clause (ii) shall be construed to supersede or otherwise override any other applicable state law.*

*F. Consistent with the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, P.L. 104-193, funds provided for expenditure pursuant to contracts with public bodies shall not be spent for sectarian worship, instruction, or proselytizing; however, this prohibition shall not apply to expenditures pursuant to contracts, if any, for the services of chaplains.*

*G. Nothing in this section shall be construed as barring or prohibiting a faith-based organization from any opportunity to make a bid or proposal or contract on the grounds that the*

*faith-based organization has exercised the right, as expressed in 42 U.S.C. (§ 2000e-1 et seq.), to employ persons of a particular religion.*

*H. If an individual, who applies for or receives goods, services, or disbursements provided pursuant to a contract between the Institution and a faith-based organization, objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the Institution shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.*

*The Institution shall provide to each individual who applies for or receives goods, services, or disbursements provided pursuant to a contract between the Institution and a faith-based organization a notice in bold face type that states: "Neither the Institution's selection of a charitable or faith-based provider of services nor the expenditure of funds under this contract is an endorsement of the provider's charitable or religious character, practices, or expression. No provider of services may discriminate against you on the basis of religion, a religious belief, or your refusal to actively participate in a religious practice. If you object to a particular provider because of its religious character, you may request assignment to a different provider. If you believe that your rights have been violated, please discuss the complaint with your provider or notify the appropriate person as indicated in this form."*

*§ 37. Exemptions from competition for certain transactions.*

*The Institution may enter into contracts without competition, as that term is described in subsections A through J of § 5 (Methods of procurement) of these Rules, for:*

- 1. The purchase of goods or services that are produced or performed by or related to:
  - a. Persons, or in schools or workshops, under the supervision of the Virginia Department for the Blind and Vision Impaired;*
  - b. Nonprofit sheltered workshops or other nonprofit organizations that offer transitional or supported employment services serving the handicapped;*
  - c. Private educational institutions; or*
  - d. Other public educational institutions.**
- 2. Speakers and performing artists;*
- 3. Memberships and Association dues;*
- 4. Sponsored research grant sub-awards and contract sub-awards, not to include the purchase of goods or services by the Institution;*
- 5. Group travel in foreign countries;*
- 6. Conference facilities and services;*

7. *Participation in intercollegiate athletic tournaments and events including team travel and lodging, registration and tournament fees;*

8. *Royalties; or*

9. *The purchase of legal services, provided that the Office of the Attorney General has been consulted, or expert witnesses or other services associated with litigation or regulatory proceedings.*

*§ 38. Exemptions from competitive sealed bidding and competitive negotiation for certain transactions; limitations.*

*The Institution may enter into contracts for insurance or electric utility service without competitive sealed bidding or competitive negotiation if purchased through an association of which the Institution is a member if the association was formed and is maintained for the purpose of promoting the interest and welfare of and developing close relationships with similar public bodies, provided such association has procured the insurance or electric utility services by use of competitive principles and provided that the Institution has made a determination in advance after reasonable notice to the public and set forth in writing that competitive sealed bidding and competitive negotiation are not fiscally advantageous to the public. The writing shall document the basis for this determination.*

*§ 39. Definitions.*

*As used in §§ 39 through 46, unless the context requires a different meaning:*

*"Contractor" means the entity that has a direct contract with the Institution.*

*"Debtor" means any individual, business, or group having a delinquent debt or account with any state agency that obligation has not been satisfied or set aside by court order or discharged in bankruptcy.*

*"Payment date" means either (i) the date on which payment is due under the terms of a contract for provision of goods or services; or (ii) if such date has not been established by contract, (a) 30 days after receipt of a proper invoice by the Institution or its agent or (b) 30 days after receipt of the goods or services by the Institution.*

*"Subcontractor" means any entity that has a contract to supply labor or materials to the contractor to whom the contract was awarded or to any subcontractor in the performance of the work provided for in such contract.*

*§ 40. Exemptions.*

*The provisions of §§ 39 through 46 shall not apply to the late payment provisions contained in any public utility tariffs prescribed by the State Corporation Commission.*

*§ 41. Retainage to remain valid.*

*Notwithstanding the provisions of §§ 39 through 46, the provisions of § 26 relating to retainage shall remain valid.*

*§ 42. Prompt payment of bills by the Institution.*

*A. The Institution shall promptly pay for the completely delivered goods or services by the required payment date.*

*Payment shall be deemed to have been made when offset proceedings have been instituted, as authorized under the Virginia Debt Collection Act (§ [2.2-4800](#) et seq.).*

*B. Separate payment dates may be specified for contracts under which goods or services are provided in a series of partial deliveries or executions to the extent that such contract provides for separate payment for such partial delivery or execution.*

*§ 43. Defect or impropriety in the invoice or goods and/or services received.*

*In instances where there is a defect or impropriety in an invoice or in the goods or services received, the Institution shall notify the supplier of the defect or impropriety, if the defect or impropriety would prevent payment by the payment date. The notice shall be sent within 15 days after receipt of the invoice or the goods or services.*

*§ 44. Date of postmark deemed to be date payment is made.*

*In those cases where payment is made by mail, the date of postmark shall be deemed to be the date payment is made for purposes of these Rules.*

*§ 45. Payment clauses to be included in contracts.*

*Any contract awarded by the Institution shall include:*

*1. A payment clause that obligates the contractor to take one of the two following actions within seven days after receipt of amounts paid to the contractor by the Institution for work performed by the subcontractor under that contract:*

*a. Pay the subcontractor for the proportionate share of the total payment received from the Institution attributable to the work performed by the subcontractor under that contract;*  
*or*

*b. Notify the Institution and subcontractor, in writing, of his intention to withhold all or a part of the subcontractor's payment with the reason for nonpayment.*

*2. A payment clause that requires (i) individual contractors to provide their social security numbers and (ii) proprietorships, partnerships, and corporations to provide their federal employer identification numbers.*

*3. An interest clause that obligates the contractor to pay interest to the subcontractor on all amounts owed by the contractor that remain unpaid after seven days following receipt by the contractor of payment from the Institution for work performed by the subcontractor under that contract, except for amounts withheld as allowed in subdivision 1b.*

4. An interest rate clause stating, "Unless otherwise provided under the terms of this contract, interest shall accrue at the rate of 1 percent per month."

Any such contract awarded shall further require the contractor to include in each of its subcontracts a provision requiring each subcontractor to include or otherwise be subject to the same payment and interest requirements with respect to each lower-tier subcontractor.

A contractor's obligation to pay an interest charge to a subcontractor pursuant to the payment clause in this section shall not be construed to be an obligation of the Institution. A contract modification shall not be made for the purpose of providing reimbursement for the interest charge. A cost reimbursement claim shall not include any amount for reimbursement for the interest charge.

§ 46. Interest penalty; exceptions.

A. Interest shall accrue, at the rate determined pursuant to subsection B, on all amounts owed by the Institution to a vendor that remain unpaid after seven days following the payment date. However, nothing in this section shall affect any contract providing for a different rate of interest, or for the payment of interest in a different manner.

B. The rate of interest charged the Institution pursuant to subsection A shall be the base rate on corporate loans (prime rate) at large United States money center commercial banks as reported daily in the publication entitled *The Wall Street Journal*. Whenever a split prime rate is published, the lower of the two rates shall be used. However, in no event shall the rate of interest charged exceed the rate of interest established pursuant to [§ 58.1-1812](#) of the Code of Virginia.

C. Notwithstanding subsection A, no interest penalty shall be charged when payment is delayed because of disagreement between the Institution and a vendor regarding the quantity, quality or time of delivery of goods or services or the accuracy of any invoice received for the goods or services. The exception from the interest penalty provided by this subsection shall apply only to that portion of a delayed payment that is actually the subject of the disagreement and shall apply only for the duration of the disagreement.

D. This section shall not apply to § 26 pertaining to retainage on construction contracts, during the period of time prior to the date the final payment is due. Nothing contained herein shall prevent a contractor from receiving interest on such funds under an approved escrow agreement.

E. Notwithstanding subsection A, no interest penalty shall be paid to any debtor on any payment, or portion thereof, withheld pursuant to the Comptroller's Debt Setoff Program, as authorized by the Virginia Debt Collection Act ([§ 2.2-4800](#) et seq.) of the Code of Virginia, commencing with the date the payment is withheld. If, as a result of an error, a

*payment or portion thereof is withheld, and it is determined that at the time of setoff no debt was owed to the Commonwealth, then interest shall accrue at the rate determined pursuant to subsection B on amounts withheld that remain unpaid after seven days following the payment date.*

*§ 47. Ineligibility.*

*A. Any bidder, offeror or contractor refused permission to participate, or disqualified from participation, in public contracts to be issued by the Institution shall be notified in writing. Prior to the issuance of a written determination of disqualification or ineligibility, the Institution shall (i) notify the bidder in writing of the results of the evaluation, (ii) disclose the factual support for the determination, and (iii) allow the bidder an opportunity to inspect any documents that relate to the determination, if so requested by the bidder within five business days after receipt of the notice.*

*Within 10 business days after receipt of the notice, the bidder may submit rebuttal information challenging the evaluation. The Institution shall issue its written determination of disqualification or ineligibility based on all information in the possession of the Institution, including any rebuttal information, within five business days of the date the Institution received such rebuttal information.*

*If the evaluation reveals that the bidder, offeror or contractor should be allowed permission to participate in the public contract, the Institution shall cancel the proposed disqualification action. If the evaluation reveals that the bidder should be refused permission to participate, or disqualified from participation, in the public contract, the Institution shall so notify the bidder, offeror or contractor. The notice shall state the basis for the determination, which shall be final unless the bidder appeals the decision within 10 days after receipt of the notice by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*B. If, upon appeal, it is determined that the action taken was arbitrary or capricious, or not in accordance with the Constitution of Virginia, applicable state law or regulations, the sole relief shall be restoration of eligibility.*

*§ 48. Appeal of denial of withdrawal of bid.*

*A. A decision denying withdrawal of bid under the provisions of § 23 of these Rules shall be final and conclusive unless the bidder appeals the decision within 10 days after receipt of the decision by invoking administrative procedures meeting the standards of § 55, if available, or in the alternative by instituting legal action as provided in § 54.*

*B. If no bid bond was posted, a bidder refused withdrawal of a bid under the provisions of § 23, prior to appealing, shall deliver to the Institution a certified check or cash bond in*

*the amount of the difference between the bid sought to be withdrawn and the next low bid. Such security shall be released only upon a final determination that the bidder was entitled to withdraw the bid.*

*C. If, upon appeal, it is determined that the decision refusing withdrawal of the bid was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid, the sole relief shall be withdrawal of the bid.*

*§ 49. Determination of nonresponsibility.*

*A. Following public opening and announcement of bids received on an Invitation to Bid, the Institution shall evaluate the bids in accordance with element 4 of the definition of "Competitive sealed bidding" in § 4 of these Rules. At the same time, the Institution shall determine whether the apparent low bidder is responsible. If the Institution so determines, then it may proceed with an award in accordance with element 5 of the definition of "Competitive sealed bidding" in § 4. If the Institution determines that the apparent low bidder is not responsible, it shall proceed as follows:*

*1. Prior to the issuance of a written determination of nonresponsibility, the Institution shall (i) notify the apparent low bidder in writing of the results of the evaluation, (ii) disclose the factual support for the determination, and (iii) allow the apparent low bidder an opportunity to inspect any documents that relate to the determination, if so requested by the bidder within five business days after receipt of the notice.*

*2. Within 10 business days after receipt of the notice, the bidder may submit rebuttal information challenging the evaluation. The Institution shall issue its written determination of responsibility based on all information in the possession of the Institution, including any rebuttal information, within five business days of the date the Institution received the rebuttal information. At the same time, the Institution shall notify, with return receipt requested, the bidder in writing of its determination.*

*3. Such notice shall state the basis for the determination, which shall be final unless the bidder appeals the decision within 10 days after receipt of the notice by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*The provisions of this subsection shall not apply to procurements involving the pre-qualification of bidders and the rights of any potential bidders under such pre-qualification to appeal a decision that such bidders are not responsible.*

*B. If, upon appeal pursuant to § 54 or 55 of these Rules, it is determined that the decision of the Institution was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or*

*regulation, or the terms or conditions of the Invitation to Bid, and the award of the contract in question has not been made, the sole relief shall be a finding that the bidder is a responsible bidder for the contract in question or directed award as provided in subsection A of § 54, or both.*

*If it is determined that the decision of the Institution was not an honest exercise of discretion, but rather was arbitrary or capricious or not in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid, and an award of the contract has been made, the relief shall be as set forth in subsection B of § 54 of these Rules.*

*C. A bidder contesting a determination that he is not a responsible bidder for a particular contract shall proceed under this section, and may not protest the award or proposed award under the provisions of § 50 of these Rules.*

*D. Nothing contained in this section shall be construed to require the Institution, when procuring by competitive negotiation, to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous.*

*§ 50. Protest of award or decision to award.*

*A. Any bidder or offeror, who desires to protest the award or decision to award a contract shall submit the protest in writing to the Institution, or an official designated by the Institution, no later than 10 days after the award or the announcement of the decision to award, whichever occurs first. Public notice of the award or the announcement of the decision to award shall be given by the Institution in the manner prescribed in the terms or conditions of the Invitation to Bid or Request for Proposal. Any potential bidder or offeror on a contract negotiated on a sole source or emergency basis who desires to protest the award or decision to award such contract shall submit the protest in the same manner no later than 10 days after posting or publication of the notice of such contract as provided in § 5 of these Rules. However, if the protest of any actual or potential bidder or offeror depends in whole or in part upon information contained in public records pertaining to the procurement transaction that are subject to inspection under § 34 of these Rules, then the time within which the protest shall be submitted shall expire 10 days after those records are available for inspection by such bidder or offeror under § 34, or at such later time as provided in this section. No protest shall lie for a claim that the selected bidder or offeror is not a responsible bidder or offeror. The written protest shall include the basis for the protest and the relief sought. The Institution or designated official shall issue a decision in writing within 10 days stating the reasons for the action taken. This decision shall be final unless the bidder or offeror appeals within 10 days of receipt of the written decision by invoking administrative procedures meeting the*

*standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54. Nothing in this subsection shall be construed to permit a bidder to challenge the validity of the terms or conditions of the Invitation to Bid or Request for Proposal. The use of Alternative Dispute Resolution (ADR) shall constitute an administrative appeal procedure meeting the standards of § 55 of these Rules.*

*B. If prior to an award it is determined that the decision to award is arbitrary or capricious, then the sole relief shall be a finding to that effect. The Institution shall cancel the proposed award or revise it to comply with the law. If, after an award, it is determined that an award of a contract was arbitrary or capricious, then the sole relief shall be as hereinafter provided.*

*Where the award has been made but performance has not begun, the performance of the contract may be enjoined. Where the award has been made and performance has begun, the Institution may declare the contract void upon a finding that this action is in the best interest of the public. Where a contract is declared void, the performing contractor shall be compensated for the cost of performance up to the time of such declaration. In no event shall the performing contractor be entitled to lost profits.*

*C. Where the Institution, an official designated by it, or an appeals board determines, after a hearing held following reasonable notice to all bidders, that there is probable cause to believe that a decision to award was based on fraud or corruption or on an act in violation of these Rules, the Institution, designated official or appeals board may enjoin the award of the contract to a particular bidder.*

*§ 51. Effect of appeal upon contract.*

*Pending final determination of a protest or appeal, the validity of a contract awarded and accepted in good faith in accordance with these Rules shall not be affected by the fact that a protest or appeal has been filed.*

*§ 52. Stay of award during protest.*

*An award need not be delayed for the period allowed a bidder or offeror to protest, but in the event of a timely protest as provided in § 50 of these Rules, or the filing of a timely legal action as provided in § 54, no further action to award the contract shall be taken unless there is a written determination that proceeding without delay is necessary to protect the public interest or unless the bid or offer would expire.*

*§ 53. Contractual disputes.*

*A. Contractual claims, whether for money or other relief, shall be submitted in writing no later than 60 days after final payment. However, written notice of the contractor's intention to file a claim shall be given at the time of the occurrence or beginning of the work upon which the claim is based. Nothing herein shall preclude a contract from requiring*

*submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance of the goods. Pendency of claims shall not delay payment of amounts agreed due in the final payment.*

*B. The Institution shall include in its contracts a procedure for consideration of contractual claims. Such procedure, which may be contained in the contract or may be specifically incorporated into the contract by reference and made available to the contractor, shall establish a time limit for a final decision in writing by the Institution. If the Institution has established administrative procedures meeting the standards of § 55 of these Rules, such procedures shall be contained in the contract or specifically incorporated in the contract by reference and made available to the contractor. The Institution may require the submission of contractual claims pursuant to any contract to Alternative Dispute Resolution (ADR) as an administrative procedure.*

*C. A contractor may not invoke administrative procedures meeting the standards of § 55 of these Rules, if available, or institute legal action as provided in § 54, prior to receipt of the Institution's decision on the claim, unless the Institution fails to render such decision within the time specified in the contract.*

*D. The decision of the Institution shall be final and conclusive unless the contractor appeals within six months of the date of the final decision on the claim by the Institution by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*§ 54. Legal actions.*

*A. A bidder or offeror, actual or prospective, who is refused permission or disqualified from participation in bidding or competitive negotiation, or who is determined not to be a responsible bidder or offeror for a particular contract, may bring an action in the appropriate circuit court challenging that decision, which shall be reversed only if the petitioner establishes that the decision was not (i) an honest exercise of discretion, but rather was arbitrary or capricious; (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid; or (iii) in the case of denial of prequalification, based upon the criteria for denial of prequalification set forth in subsection B of § 14 of these Rules. In the event the apparent low bidder, having been previously determined by the Institution to be not responsible in accordance with § 4, is found by the court to be a responsible bidder, the court may direct the Institution to award the contract to such bidder in accordance with the requirements of this section and the Invitation to Bid.*

*B. A bidder denied withdrawal of a bid under § 23 of these Rules may bring an action in the appropriate circuit court challenging that decision, which shall be reversed only if the*

*bidder establishes that the decision of the Institution was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid.*

*C. A bidder, offeror or contractor, or a potential bidder or offeror on a contract negotiated on a sole source or emergency basis in the manner provided in § 5 of these Rules, whose protest of an award or decision to award under § 50 of these Rules is denied, may bring an action in the appropriate circuit court challenging a proposed award or the award of a contract, which shall be reversed only if the petitioner establishes that the proposed award or the award is not (i) an honest exercise of discretion, but rather is arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms and conditions of the Invitation to Bid or Request for Proposal.*

*D. If injunctive relief is granted, the court, upon request of the Institution, shall require the posting of reasonable security to protect the Institution.*

*E. A contractor may bring an action involving a contract dispute with the Institution in the appropriate circuit court. Notwithstanding any other provision of law, the Comptroller shall not be named as a defendant in any action brought pursuant to these Rules or § [33.1-387](#) of the Code of Virginia, except for disputes involving contracts of the Office of the Comptroller or the Department of Accounts.*

*F. A bidder, offeror or contractor need not utilize administrative procedures meeting the standards of § 55 of these Rules, if available, but if those procedures are invoked by the bidder, offeror or contractor, the procedures shall be exhausted prior to instituting legal action concerning the same procurement transaction unless the Institution agrees otherwise.*

*G. Nothing herein shall be construed to prevent the Institution from instituting legal action against a contractor.*

*§ 55. Administrative appeals procedure.*

*A. The Institution may establish an administrative procedure for hearing (i) protests of a decision to award or an award, (ii) appeals from refusals to allow withdrawal of bids, (iii) appeals from disqualifications and determinations of nonresponsibility, and (iv) appeals from decisions on disputes arising during the performance of a contract, or (v) any of these. Such administrative procedure may include the use of Alternative Dispute Resolution (ADR) or shall provide for a hearing before a disinterested person or panel, and the opportunity to present pertinent information and the issuance of a written decision containing findings of fact. The disinterested person or panel shall not be an employee*

*of the governmental entity against whom the claim has been filed. The findings of fact shall be final and conclusive and shall not be set aside unless the same are (a) fraudulent, arbitrary or capricious; (b) so grossly erroneous as to imply bad faith; or (c) in the case of denial of prequalification, the findings were not based upon the criteria for denial of prequalification set forth in subsection B of § 14 of these Rules. No determination on an issue of law shall be final if appropriate legal action is instituted in a timely manner. The Institution may seek advice and input from the Alternative Dispute Resolution Council in establishing an Alternative Dispute Resolution (ADR) procedure.*

*B. Any party to the administrative procedure, including the Institution, shall be entitled to institute judicial review if such action is brought within 30 days of receipt of the written decision.*

*§ 56. Alternative dispute resolution.*

*The Institution may enter into agreements to submit disputes arising from contracts entered into pursuant to these Rules to arbitration and utilize mediation and other alternative dispute resolution procedures. However, such procedures shall be nonbinding and subject to § [2.2-514](#) of the Code of Virginia, as applicable.*

*§ 57. Ethics in public contracting.*

*The Institution and its governing body, officers and employees shall be governed by the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of the Code of Virginia.*

### *III. SCOPE AND PURPOSE OF UNIVERSITY HUMAN RESOURCES POLICIES.*

*The University has had human resources system autonomy through decentralization for its employees for some time. For example, general faculty at the University are expressly exempt from the Virginia Personnel Act. The University has had decentralization in most human resources functions and activities since the late 1980s and early 1990s, including, but not limited to, the running of payrolls; the administration of hiring, classification, and promotion practices. The Act extends and reinforces the human resources autonomy previously granted to the University. This Policy therefore is adopted by the Board of Visitors to enable the University to develop, adopt, and have in place a human resources system or systems for all University employees. Until the Effective Date of the Human Resources System, the systems for University employees shall be the same systems applicable to those employees in effect immediately prior to that Effective Date.*

### *IV. BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.*

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Policy. Consistent with this full and ultimate accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate either herein or by separate Board resolution the duties and responsibilities set forth in this Policy to a person or persons within the University who, while continuing to be fully accountable for such duties and responsibilities, may further delegate the implementation of those duties and responsibilities pursuant to the University's usual delegation policies and procedures.*

### *V. VIRGINIA COMMONWEALTH UNIVERSITY HUMAN RESOURCES SYSTEMS.*

*A. Adoption and Implementation of University Human Resources Systems.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, is hereby authorized to adopt and implement human resources systems for employees of the University that are consistent with the Governing Law, other applicable provisions of law, these University human resources policies for University employees, and any other human resources policies adopted by the Department of Human Resource Management or the Board of Visitors for University personnel, unless University employees are exempted from those other human resources policies by law or policy. The University Human Resources Systems shall include a delegation of personnel authority to appropriate University officials responsible for overseeing and implementing the University Human Resources Systems, including a grant of authority to such officials to engage in further delegation of authority as the President or his designee deems appropriate.*

*The University commits to regularly engage employees in appropriate discussions and to receive employee input as the new University Human Resources Systems are developed. The University will regularly communicate the details of new proposals to all employees who are eligible to participate in the University Human Resources System through written communication, open meetings, and website postings as appropriate, so that employees will have full information that will help them evaluate the merits of the new human resource system compared to the then-current State human resource system.*

*On the Effective Date of the adoption of the University's Human Resources System, and unless amended as described below, the University's human resources systems shall consist of the following:*

- 1. The current "Virginia Commonwealth University Faculty Handbook," as it is posted on the Provost's website, <http://www.provost.vcu.edu/faculty/handbook.html>, and periodically amended;*
- 2. The current human resources system for Classified Employees in the University as posted on the Virginia Department of Human Resources Management website at <http://www.dhrm.state.va.us/hrpolicy/policy.html>, and the University's website at <http://www.hr.vcu.edu/policies/index.htm>, as periodically amended; and*
- 3. The human resources system for Participating Covered Employees, which shall include nonsalaried (wage) employees, as posted on the University Human Resources website at <http://www.hr.vcu.edu/>, as periodically amended.*

*All the systems described above, except the system described in paragraph 2, may be amended by the President, acting through the Senior Vice President for Finance and*

*Administration or other designee, consistent with these human resources policies. The system described in paragraph 2 may be amended only by the State.*

*B. Training in and Compliance with Applicable Provisions of Law and Board of Visitors' Human Resources Policies.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall take all necessary and reasonable steps to ensure (i) that the University officials who develop, implement and administer the University Human Resources Systems authorized by Governing Law and these human resources policies are knowledgeable regarding the requirements of the Governing Law, other applicable provisions of law, these University human resources policies, any other human resources policies adopted by the Virginia Department of Human Resource Management, and other applicable Board of Visitors' human resources policies affecting University employees, and (ii) that compliance with such laws and human resources policies is achieved.*

#### *VI. HUMAN RESOURCES POLICIES.*

*The University Human Resources Systems adopted by the University pursuant to Governing Law and this Policy, as set forth in Section V above, shall embody the following human resources policies and principles:*

*A. Election by Classified Salaried Nonfaculty Employees.*

*At least six months prior to the adoption of a University Human Resources System, the University shall notify the Secretary of Administration and the Department of Human Resource Management that the University intends to adopt a University Human Resources System, effective on a January 1. Upon the Effective Date of adoption by the University of a University Human Resources System, each salaried nonfaculty Classified employee who was in the employment of the University as of the day prior to the Effective Date of its University Human Resources System shall be permitted to elect to participate in and be governed by either (i) the State human resources program set forth in Chapters 28 (§ [2.2-2800](#) et seq.) and 29 (§ [2.2-2900](#) et seq.) of Title 2.2 of the Code of Virginia, and administered by the Department of Human Resource Management, or (ii) the University Human Resources System, as appropriate. A salaried nonfaculty Classified employee who elects to continue to be governed by the State human resources program described above shall continue to be governed by all State human resources and benefit plans, programs, policies and procedures that apply to and govern State employees. A salaried nonfaculty Classified employee who elects in writing to participate in and be governed by the University Human Resources System, by that election, shall be deemed to have elected to participate in and to be governed by the*

*University human resources program, authorized alternative insurance, and severance plans, programs, policies and procedures that are or may be adopted by the University as part of that University Human Resources System.*

*Each nonfaculty Classified employee who was in the employment of the University as of the day prior to the Effective Date of the University's Human Resources System shall be given at least 90 days after the date on which the University Human Resources System becomes effective to make the election required by the prior paragraph. If such a salaried nonfaculty Classified employee does not make an election by the end of that specified election period, that Classified employee shall be deemed not to have elected to participate in the University Human Resources System. If such a salaried nonfaculty Classified employee elects to participate in the University Human Resources System, that election shall be irrevocable. At least every two years, the University shall offer to salaried nonfaculty Classified employees who have elected to continue to participate in the state human resources program set forth in Chapters 28 (§ 2.2.-2800 et seq.) and 29 (§ [2.2-2900](#) et seq.) of Title 2.2 of the Code of Virginia, an opportunity to elect to participate in the University Human Resources System, provided that, each time prior to offering such opportunity to such salaried nonfaculty Classified employees, the University shall make available to each of its salaried nonfaculty Classified employees a comparison of its human resources program for that classification of salaried nonfaculty University employee with the State human resources program for comparable State employees, including but not limited to a comparability assessment of compensation and benefits. A copy of the human resources program comparison shall be provided to the Department of Human Resource Management.*

*B. Classification and Compensation.*

*1. General. The Systems shall include classification and compensation plans that are fair and reasonable, and are based on the availability of University financial resources. The plans adopted by the University for Participating Covered Employees shall be independent of, and need not be based on, the classification and compensation plans of the Commonwealth, do not require the approval of any State agency or officer, and shall be subject to the review and approval by the Board of Visitors as set forth in paragraph 3 below. The University shall provide information on its classification and compensation plans to all University employees. The plans applicable to Participating Covered Employees may or may not include changes in classification or compensation announced by the Commonwealth depending on such factors as the availability of necessary financial resources to fund any such changes, and subject to the review and approval by the Board of Visitors of any major changes in the University's compensation plans.*

*2. Classification Plan. The Systems shall include one or more classification plans for University employees that classify positions according to job responsibilities and qualifications. Until the Effective Date of the University's Human Resources System, the classification plans shall be the same plans that are in effect for each group of employees immediately prior to that Effective Date.*

*3. Compensation Plan. The Systems shall include one or more compensation plans for each University employee classification or group. On the Effective Date of the University's Human Resources System, and until changed by the Department of Human Resource Management, the compensation plan for Classified Employees in the University shall be the compensation plan in effect immediately prior to that Effective Date, known as the Commonwealth's Classified Compensation Plan. On the Effective Date of the University's Human Resources System, the University may implement one or more compensation plans for Participating Covered Employees that are graded or non-graded plan(s) based on internal and external market data and other relevant factors to be determined annually. Any major change in compensation plans for Participating Covered Employees shall be reviewed and approved by the Board of Visitors before that change becomes effective. Any change recommended in the compensation plans may take into account the prevailing rates in the labor market for the jobs in question, or for similar positions, the relative value of jobs, the competency and skills of the individual employee, internal equity, and the availability of necessary financial resources to fund the proposed change. The compensation payable to University employees shall be authorized and approved only by designated University officers delegated such authority by the University, and shall be consistent with the approved compensation plan for the relevant position or classification. Further approval by any other State Agency, governmental body or officer is not required for setting, adjusting or approving the compensation payable to individual Participating Covered Employees.*

*4. Wages. The Systems shall include policies and procedures for the authorization, computation and payment of wages, where appropriate, for such premium pays as overtime, shift differential, on call, and call back, and for the payment of hourly employees.*

*5. Payment of Compensation. The Systems shall include policies and procedures for paying compensation to employees, including the establishment of one or more payday schedules.*

*6. Work Schedule and Workweek. The Systems shall include policies and procedures for the establishment of, and modifications to, work schedules and workweeks for all University employees, including alternative work schedules and sites, and telecommuting policies and procedures.*

*7. Other Classification and Compensation Policies and Procedures. The Systems may include any other reasonable classification and compensation policies and procedures the President, acting through the Senior Vice President for Finance and Administration or other designee, deems appropriate.*

*C. Benefits.*

*The Systems shall provide fringe benefits to all benefits eligible employees, including retirement benefits, health care insurance, life, disability, and accidental death and dismemberment insurance. The benefits provided shall include a basic plan of benefits for each benefits eligible employee, and may include an optional benefits plan for benefits eligible employees, including additional insurance coverage, long-term care, tax deferred annuities, flexible reimbursement accounts, employee assistance programs, employee intramural and recreational passes, and other wellness programs. As provided in subsections B and C of § [23-38.119](#) of the Act, the University may require Participating Covered Employees to pay all or a portion of the cost of group life, disability and accidental death and dismemberment insurance, which may be collected through a payroll deduction program. Participating Covered Employees shall not be required to present evidence of insurability for basic group life insurance coverage. The Board of Visitors may elect to provide benefits through Virginia Retirement System group insurance programs under the terms of and to the extent allowed by subsections B and D of § [23-38.119](#) of the Act or any other provision of law.*

*Notwithstanding the above, pursuant to subsection A of § [23-38.114](#) of the Act, and unless and until that section is amended, the state retirement system, state health insurance program, and state workers' compensation coverage program as they may be amended from time to time, shall continue to apply to and govern all eligible University employees. The Systems may provide different benefits plans for reasonably different groups or classifications of employees, and may provide benefits to part-time employees. On or after the Effective Date of the University's Human Resources System, alternative University group life, accidental death and dismemberment, and short- and long-term disability plans may be provided to eligible Participating Covered Employees, or at the election of the Board of Visitors and subject to the execution of participation agreements as provided in subsections B and C of § [23-38.119](#) of the Act, they may be provided by the appropriate State programs, but no contributions to the state programs by the University shall be required for Participating Covered Employees who do not participate in the programs. Subject to the provisions of the Act, any new plans, programs and material changes permitted under current law in University employee benefit plans, other than Classified Employee benefit plans, shall be approved by the Board of Visitors,*

*including the authority to increase the Cash Match Contribution rate up to the limit permitted by the Code of Virginia based on available resources, and the authority to implement cafeteria-style benefits for University employees other than Classified Employees. Insurance and all proceeds therefrom provided pursuant to § [23-38.119](#) of the Act shall be exempt from legal process and may be subject to voluntary assignment as provided in subsection A of § [23-38.119](#).*

*D. Employee Relations.*

*1. General. The Systems shall contain provisions that protect the rights and privileges of University employees consistent with sound management principles and fair employment practice law.*

*2. Employee Safety and Health. The Systems shall contain provisions that promote workplace safety compliance with applicable law and regulations.*

*3. Employee Work Environment. The Systems shall promote a work environment that is conducive to the performance of job duties, and free from intimidation or coercion in violation of State or federal law, including sexual harassment or other discrimination.*

*4. Employee Recognition. The Systems may provide for the use of leave awards and bonuses specific to policies and procedures for awarding, honoring, or otherwise recognizing University employees, including but not limited to those who have performed particularly meritorious service for the University, have been employed by the University for specified periods of time, or have retired from the University after lengthy service.*

*5. Counseling Services. The Systems shall provide counseling services through the State's Employee Assistance Program or a University Employee Assistance Program to any eligible University employee experiencing job-related difficulties and seeking counseling for those difficulties, and shall establish the circumstances under which the time necessary to participate in such counseling may be granted.*

*6. Unemployment Compensation. The Systems shall ensure that University employees receive the full unemployment compensation benefits to which they are legally entitled, and that the University's liability is limited to legitimate claims for such benefits.*

*7. Workers' Compensation. The Systems shall ensure that University employees have workers' compensation benefits to which they are legally entitled pursuant to the State Employees Workers' Compensation Program administered by the Department of Human Resource Management.*

*8. Performance Planning and Evaluation. The Systems shall include one or more performance planning and evaluation processes for University employees that (i) establish and communicate the University's performance expectations, (ii) help develop productive working relationships, (iii) allow employees to present their views concerning*

*their performance, (iv) identify areas for training or professional development, (v) establish the process by which evaluations shall be conducted, (vi) clarify how superlative or inadequate performance shall be addressed, and (vii) ensure that all University employees are provided relevant information on the evaluation process. The Systems may include separate performance and evaluation processes for reasonably distinguishable groups of University employees. On the Effective Date of the University's Human Resources System, the existing merit-based performance management system for faculty shall continue, until amended by the University. On or after that Effective Date, University nonfaculty salaried Participating Covered Employees may be subject to a variable merit-based performance management system.*

*9. Standards of Conduct and Performance. In order to protect the well-being and rights of all employees and to ensure safe, efficient University operations and compliance with the law, the Systems shall establish rules of personal conduct and standards of acceptable work performance for University salaried nonfaculty employees and policies for corrective discipline. In general, the policies for corrective discipline shall serve to (i) establish a uniform and objective process for correcting or disciplining unacceptable conduct or work performance, (ii) distinguish between less serious and more serious actions of misconduct and provide corrective action accordingly, and (iii) limit corrective action to employee conduct occurring only when employees are at work or are otherwise representing the University in an official or work-related capacity, unless otherwise specifically provided by the policies of the Systems or other applicable law. The Systems may provide for a probationary period for new and re-employed University salaried nonfaculty employees, during which period the policies for corrective discipline shall not be applicable and the employee may not use the grievance procedure set forth in the next paragraph. The Systems may include separate rules of personal conduct and standards of acceptable work performance and policies for corrective discipline for reasonably distinguishable groups of University employees.*

*10. Grievance Procedure. As provided in the Governing Law, employees shall be encouraged to resolve employment-related problems and complaints informally, and shall be permitted to discuss their concerns freely and without fear of retaliation with immediate supervisors and management. In the event that such problems cannot be resolved informally, all salaried nonfaculty University employees, regardless of their date of hire, shall have access, as provided in subsection A of § [23-38.114](#) and in § [23-38.117](#) of the Act, to the State Grievance Procedure, Chapter 30 (§ [2.2-3000](#) et seq.) of Title 2.2 of the Code of Virginia, to the extent it was applicable to their classification of employees prior to the Effective Date of the University's Human Resources System. On that Effective*

*Date, and until changed by the University, the faculty grievance procedures in effect immediately prior to the Effective Date shall continue.*

*11. Discrimination Complaints. If a Classified Employee believes discrimination has occurred, the Classified Employee may file a complaint with the Department of Human Resource Management Office of Equal Employment Services. All Covered Employees and applicants for employment after the Effective Date of the University's Human Resources System shall file a complaint with the appropriate University office or with the appropriate federal agencies.*

*12. Layoff Policy. The Systems shall include one or more layoff policies for salaried University employees who lose their jobs for reasons other than their job performance or conduct, such as a reduction in force or reorganization at the University. These University layoff policies shall govern such issues as (i) whether there is a need to effect a layoff, (ii) actions to be taken prior to a layoff, (iii) notice to employees affected by a lay-off, (iv) placement options within the University or its respective major divisions and within other parts of the University, (v) the preferential employment rights, if any, of various University employees, (vi) the effect of layoff on leave and service, and (vii) the policy for recalling employees. In accordance with the terms of the Act, University employees who: (a) were employed prior to the Effective Date of the University's Human Resources System, (b) would otherwise be eligible for severance benefits under the Workforce Transition Act, (c) were covered by the Virginia Personnel Act prior to that Effective Date, and (d) are separated because of a reduction in force shall have the same preferential hiring rights with State agencies and other executive branch institutions as Classified Employees have under § [2.2-3201](#) of the Code of Virginia. Conversely, the University shall recognize the hiring preference conferred by § [2.2-3201](#) on State employees who were hired by a State agency or executive branch institution before the Effective Date of the University's Human Resources System and who were separated after that date by that State agency or executive branch institution because of a reduction in workforce. If the University has adopted a classification system pursuant to § [23-38.116](#) of the Act that differs from the classification system administered by the Department of Human Resource Management, the University shall classify the separated employee according to its classification system and shall place the separated employee appropriately. The University may include separate policies for reasonably distinguishable groups of University employees. On or after the Effective Date of the University's Human Resources System, all employees from other State agencies and executive branch institutions who are placed by the University under the provisions of the State Layoff Policy shall be Participating Covered Employees.*

13. *Severance Benefits.* In accordance with the terms of the Act, the University shall adopt severance policies for salaried Participating Covered Employees who are involuntarily separated for reasons unrelated to performance or conduct. The terms and conditions of such policies shall be determined by the Board of Visitors. Classified Employees who otherwise would be eligible and were employed prior to the Effective Date of the University's Human Resources System shall be covered by the Workforce Transition Act, Chapter 32 (§ [2.2-3200](#) et seq.) of Title 2.2 of the Code of Virginia. The University and the Board of the Virginia Retirement System may negotiate a formula according to which cash severance benefits may be converted to years of age or creditable service for Participating Covered Employees who participate in the Virginia Retirement System. An employee's becoming, on the Effective Date, a Covered Employee shall not constitute a severance or reduction in force to which severance or Workforce Transition Act policies would apply.

14. *Use of Alcohol and Other Drugs.* The Systems shall include policies and procedures that (i) establish and maintain a work environment at the University that is free from the adverse effect of alcohol and other drugs, (ii) are consistent with the federal Drug-Free Workplace Act of 1988 and with the Virginia Commonwealth University alcohol and other drugs policy, (iii) describe the range of authorized disciplinary action, including termination where appropriate, for violations of such policies and procedures, and the process to be followed in taking such disciplinary action, (iv) provide University employees access to assistance and treatment for problems involving alcohol and other drugs, (v) provide for the circumstances under which employees are required to report certain violations of the policies and procedures to their supervisor, and the University is required to report those violations to a federal contracting or granting agency, (vi) describe the circumstances under which personnel records of actions taken under the University's alcohol and other drugs policy shall not be kept confidential, and (vii) provide notice to University employees of the scope and content of the University alcohol and other drugs policy. As part of this alcohol and other drugs policy, and in compliance with the federal Omnibus Transportation Employee Testing Act of 1991, the Systems may provide for pre-employment, reasonable suspicion, random, post-accident, return-to-duty and follow-up alcohol and other drug testing for University positions that are particularly safety sensitive, such as those requiring a Commercial Driver's License.

15. *Background Checks.* The Systems shall include a process for conducting background checks, which may include but is not limited to reference checks, educational/professional credentialing checks, and conviction and driver's records checks on applicants for full-time or part-time positions at the University, and for addressing situations

*where employees do not disclose a conviction on their application or otherwise falsify their application with regard to information concerning their education/professional credential and/or prior convictions.*

*16. Other Employee Relations Policies and Procedures. The Systems shall include any other reasonable employee relations policies or procedures that the President, acting through the Senior Vice President for Finance and Administration or other designee, deems appropriate, which may include, but are not limited to, policies or procedures relating to orientation programs for new or re-employed University employees, an employee suggestion program, the responsibility of University employees for property placed in their charge, work breaks, inclement weather and emergencies, and employment outside the University.*

*E. Leave and Release Time.*

*The Systems shall include policies and procedures regarding leave for eligible employees. The Systems shall provide reasonable paid leave for purposes such as holidays, vacation, or other personal uses. The Systems may provide for release time for such matters as the donation of blood, participation in an employee assistance program and other appropriate employment-related matters. On or after the Effective Date of its Human Resources System, the University may provide an alternative leave and release time system for salaried nonfaculty Participating Covered Employees.*

*F. Equal Employment Opportunity, Nondiscrimination, Employment, and Separation.*

*1. Equal Employment Opportunity and Nondiscrimination. The Systems shall contain policies and procedures to ensure that all aspects of human resources management, including the employment of University employees, meet all requirements of federal and state law, and of the relevant policies of the Board of Visitors, with regard to equal employment opportunity and nondiscrimination.*

*2. Employment. The Systems shall include policies and procedures for the recruitment, selection and hiring of University employees that are based on merit and fitness, including where appropriate a requirement for job posting, interviews, pre-employment testing, pre-employment drug testing, reference checks and conviction record checks. On and after the Effective Date of its Human Resources System, the University shall post all salaried nonfaculty position vacancies through the University's job posting system, the Commonwealth's job posting system, and other external media as appropriate. The Systems shall establish designated veterans' re-employment rights in accordance with applicable law. In order to encourage employees to attain the highest level positions for which they are qualified, and to compensate employees for accepting positions of increased value and responsibility, the Systems shall include policies and procedures*

*governing the promotion of employees, including the effect of promotion on an employee's compensation. On or after the Effective Date of the University's Human Resources System, all employees hired from other state agencies shall be Participating Covered Employees. University Classified Employees who change jobs within the University through a competitive employment process i.e., promotion or transfer shall have the choice of remaining a Classified Employee or becoming a Participating Covered Employee. If a Classified Employee elects to become a Participating Covered Employee, that decision shall be irrevocable.*

*3. Notice of Separation. The Systems shall include policies and procedures requiring reasonable notice, where appropriate, of a decision either by the employee or by the University to separate the employee from the University in accordance with policies governing performance, conduct, or layoff.*

*G. Information Systems.*

*The University shall provide an electronic file transfer of information on all salaried University employees and shall continue to provide the Employee Position Reports to meet the human resources reporting requirements specified by law or by request of the Governor or the General Assembly, unless the University is specifically exempted from those requirements. The University shall conduct assessments to demonstrate its accountability for human resources practices that comply with laws and regulations. The Department of Human Resource Management and the University have entered into a Memorandum of Understanding, attached hereto as Attachment 2, which may be amended from time to time by agreement of the parties, regarding the specific data and reporting requirements. The University shall be accountable for ensuring the timeliness and integrity of the data transmitted to the Department of Human Resource Management.*

*VII. CONTINUED APPLICABILITY OF OTHER PROVISIONS OF THE CODE OF VIRGINIA AND OTHER BOARD OF VISITORS' POLICIES AFFECTING UNIVERSITY PERSONNEL.*

*On and after the Effective Date of its Human Resources System, University employees shall be subject to the terms and conditions of the Act and the Management Agreement between the Commonwealth and the University. Classified Employees shall continue to be subject to the human resources policies and exceptions to those policies adopted or approved by the Department of Human Resource Management. In addition, all University employees also shall remain subject to any other human resources policies adopted by the Board of Visitors applicable to University personnel unless University employees or a subset thereof are specifically exempted from those other human resources policies either by those other policies or by this Policy.*

ATTACHMENT 2

*Memorandum of Understanding*

*Between Virginia Commonwealth University and the  
Department of Human Resource Management Regarding  
The Reporting of Human Resources Management Data*

*This Memorandum of Understanding, which may be amended from time to time by the agreement of all parties, is an attachment to the Policy Governing Human Resources for Participating Covered Employees and Other University Employees pursuant to the Restructured Higher Education Financial and Administrative Operations Act of 2005, and is hereby entered into between Virginia Commonwealth University and the Department of Human Resource Management (DHRM).*

*This document outlines the provisions for information management pertaining to human resources data, consistent with the objectives to enable DHRM to meet the Commonwealth's reporting requirements, to ensure compliance with relevant federal and state laws and regulations, and to do so through efficient and cost-effective methods.*

*1. In lieu of data entry into the state's Personnel Management Information System (PMIS), data will be transmitted through an electronic file transfer to update DHRM's warehouse.*

*a. The University will provide a flat file of designated personnel data. For "Classified Employees," the data provided will match DHRM's data values for the designated fields. For salaried "Participating Covered Employees," the data provided will include the University's data values for the designated fields. The University will provide a data dictionary to DHRM. The file of designated data will be specifically described by an addendum to this Memorandum upon the agreement of the University and DHRM.*

*b. The University will provide a second flat file of salaried personnel actions for "Classified Employees" and salaried "Participating Covered Employees," such as promotions, separations, and salary adjustments. The file of relevant personnel actions and designated data to be provided for each action will be specifically described by an addendum to this Memorandum upon the agreement of the University and DHRM.*

*c. In the event that the University and DHRM cannot agree on a format that prevents the need for modification to the University's current personnel system, the University will continue to enter data directly into PMIS or any successor system.*

*2. In lieu of the University's participation in the state's Equal Employment Opportunity Compliance Assessment process, DHRM will accept the University's federal Affirmative Action Plan (AAP), including the adverse impact analyses of employment and compensation actions that are part of the AAP, as demonstration of the University's compliance with relevant federal and state employment laws and regulations.*

*3. The University may key data into the Benefits Enrollment System or provide a batch file, or employees may use Employee Direct (employee self-service).*

*4. Other reports to be provided by the University include the following:*

*a. Monthly Employment Position Report.*

*b. Annual report on salaried, wage, and contract employees.*

### *III. SCOPE OF POLICY.*

*This Policy applies to the University's responsibility for management, investment and stewardship of all its financial resources, including but not limited to, general, non-general and private funds. ### *IV. BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.*

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Policy. ### *V. FINANCIAL MANAGEMENT AND REPORTING SYSTEM.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized by the Board to maintain existing and implement new policies governing the management of University financial resources. These policies shall continue to (i) ensure compliance with Generally Accepted Accounting Principles, (ii) ensure consistency with the current accounting principles employed by the Commonwealth, including the use of fund accounting principles, with regard to the establishment of the underlying accounting records of the University and the*

*allocation and utilization of resources within the accounting system, including the relevant guidance provided by the State Council of Higher Education for Virginia chart of accounts with regard to the allocation and proper use of funds from specific types of fund sources, (iii) provide adequate risk management and internal controls to protect and safeguard all financial resources, including moneys transferred to the University pursuant to a general fund appropriation, and (iv) ensure compliance with the requirements of the Appropriation Act.*

*The financial management system shall continue to include a financial reporting system to satisfy both the requirements for inclusion into the Commonwealth's Comprehensive Annual Financial Report, as specified in the related State Comptroller's Directives, and the University's separately audited financial statements. To ensure observance of limitations and restrictions placed on the use of the resources available to the University, the accounting and bookkeeping system of the University shall continue to be maintained in accordance with the principles prescribed for governmental organizations by the Governmental Accounting Standards Board.*

*In addition, the financial management system shall continue to provide financial reporting for the President, acting through the Senior Vice President for Finance and Administration or other designee, and the Board of Visitors to enable them to provide adequate oversight of the financial operations of the University. Upon the Effective Date of the initial Management Agreement between the University and the Commonwealth, except for the recordation of daily revenue deposits of State funds as specified in Section VII below, the University shall not be required to record its financial transactions in the Commonwealth's Accounting and Reporting System (CARS), including the current monthly interfacing with CARS, or to record its financial transactions in any subsequent Commonwealth financial systems that replace CARS or are in addition to CARS, but shall have its own financial reporting system. The University's financial reporting system shall provide (i) monthly summary reports for State agencies including, but not limited to, the Department of Accounts, the Department of Planning and Budget, the Joint Legislative Audit and Review Commission, the Department of Medical Assistance Services, the Auditor of Public Accounts, and the State Council of Higher Education for Virginia, and for the Chairmen of the Senate Committee on Finance and the House Committee on Appropriations at a sufficient level of detail, on such schedule, and using such format that is compatible with the Commonwealth's accounting system, as may be requested by the requesting State agency, and (ii) such other special reports as may be requested from time to time.*

**VI. FINANCIAL MANAGEMENT POLICIES.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall create and implement any and all financial management policies necessary to establish a financial management system with adequate risk management and internal control processes and procedures for the effective protection and management of all University financial resources. Such policies will not address the underlying accounting principles and policies employed by the Commonwealth and the University, but rather will focus on the internal operations of the University's financial management. These policies shall include, but need not be limited to, the development of a tailored set of finance and accounting practices that seek to support the University's specific business and administrative operating environment in order to improve the efficiency and effectiveness of its business and administrative functions. In general, the system of independent financial management policies shall be guided by the general principles contained in the Commonwealth's Accounting Policies and Procedures such as establishing strong risk management and internal accounting controls to ensure University financial resources are properly safeguarded and that appropriate stewardship of public funds is obtained through management's oversight of the effective and efficient use of such funds in the performance of University programs.*

*Upon the Effective Date of its initial Management Agreement with the Commonwealth, the University shall continue to follow the Commonwealth's accounting policies until such time as specific alternate policies can be developed, approved and implemented. Such alternate policies shall include applicable accountability measures and shall be submitted to the State Comptroller for review and comment before they are implemented by the University.*

#### **VII. FINANCIAL RESOURCE RETENTION AND MANAGEMENT.**

*Under subsection A of § [23-38.104](#) of the Act, subject to applicable accountability measures and audits, the University shall have the power and authority to manage all monies received by it. All State general funds to be allocated to the University shall remain subject to the appropriations process.*

*Pursuant to subsection C of § [23-9.6:1.01](#) of the Code of Virginia, the State Council of Higher Education for Virginia (SCHEV) annually shall assess and certify to the Governor and General Assembly the degree to which each public institution of higher education of the Commonwealth has met the financial and administrative management and educational-related performance benchmarks called for by that subsection and approved as part of the Appropriation Act then in effect for the State goals and objectives set forth in subdivisions B 1 through B 12 of § [23-38.88](#) of the Act. Pursuant to § [2.2-5005](#) of the Code of Virginia, beginning with the fiscal year that immediately follows the first full fiscal*

*year for which the financial and administrative management and educational-related performance benchmarks described in § [23-9.6:1.01](#) are effective, as provided in a general Appropriation Act, and for all fiscal years thereafter, each public institution of higher education of the Commonwealth that (i) has been certified during the fiscal year by SCHEV as having met such institutional performance benchmarks and (ii) meets the conditions prescribed in subsection B of § [23-38.88](#) shall receive certain financial incentives, including interest on the tuition and fees and other non-general fund Educational and General Revenues deposited into the State Treasury by the public institution of higher education. Consistent with the prior paragraph, beginning with the fiscal year following the first fiscal year for which it has received such certification from SCHEV, the University is authorized to hold and invest tuition, Educational and General (E&G) fees, research and sponsored program funds, auxiliary enterprise funds, and all other non-general fund revenues (excluding gift, agency and endowment funds and the investment income thereon) subject to the following requirements:*

- 1. The University shall deposit such funds in the State Treasury pursuant to the State process in place at the time of such deposit.*
- 2. Such non-general funds deposited in the State Treasury shall be disbursed as provided in Section IX below.*
- 3. The University shall remit to the State Comptroller quarterly and the State Comptroller shall hold in escrow all interest earned on the University's tuition and fees and other non-general fund Educational and General Revenues. Upon receipt of the required State Council of Higher Education for Virginia certification that the University has met such institutional performance benchmarks and the conditions prescribed in subsection B of § [23-38.88](#), the Governor shall include in the next budget bill a non-general fund appropriation, payable no later than July 1 of the immediately following fiscal year, equivalent to the amount deposited in the escrow account as the financial incentive provided in subdivision 1 of § [2.2-5005](#), after which time the University may expend the funds for purposes related to its mission. If public institutions of higher education of the Commonwealth are permitted, or the University in particular is permitted, by the Appropriation Act or other law to retain or be paid the interest the Commonwealth would have earned on sponsored programs and research funds, then this paragraph shall not apply to such interest on such funds, and such interest shall not be held in escrow.*
- 4. If in any given year the University does not receive the certification from the State Council of Higher Education for Virginia that it has met for that year the institutional benchmarks called for by subsection C of § [23-9.6:1.01](#) and approved in the then-current*

*Appropriation Act, the Comptroller shall transfer to the general fund the balance in the escrow account as of June 30 of that year.*

*5. Beginning on the effective date of its initial management agreement with the University until the beginning of the first fiscal year following the fiscal year for which it has received the required certification from SCHEV, the University shall continue to deposit tuition and all other non-general funds with the State Treasurer by the same process that it would have been required to use if it had not entered into a management agreement with the Commonwealth.*

*6. On the first business day of the first fiscal year following the fiscal year for which it has received the required certification from SCHEV, the University may draw down all cash balances held by the State Treasurer on behalf of the University related to tuition, E&G fees, research and sponsored programs, auxiliary enterprises, and all other non-general fund revenues.*

*7. The Commonwealth shall retain all funds related to general fund appropriations, but shall pay these funds to the University as specified in Section IX below.*

*The University also shall have sum sufficient appropriation authority for all non-general funds as approved by the Governor and the General Assembly in the Commonwealth's biennial appropriations process, and shall report to the Department of Planning and Budget (i) its estimate of the non-general fund revenues for the sum sufficient appropriation to be included in the biennial Budget Bill for each of the two years in the next biennium by November 1 of each odd-numbered year and the estimate to be included in the Budget Bill for the first and second year of the then-current biennium by November 1 of each even-numbered year, and (ii) report its actual non-general fund revenues for each fiscal year to the Department of Planning and Budget by July 31 of the subsequent fiscal year.*

*The Board of Visitors shall retain the authority to establish tuition, fee, room, board, and other charges, with appropriate commitment provided to need-based grant aid for middle- and lower-income undergraduate Virginians. Except as provided otherwise in the Appropriation Act then in effect, it is the intent of the Commonwealth and the University that the University shall be exempt from the revenue restrictions in the general provisions of the Appropriation Act related to non-general funds. In addition, unless prohibited by the Appropriation Act then in effect, it is the intent of the Commonwealth and the University that the University shall be entitled to retain non-general fund savings generated from changes in Commonwealth rates and charges, including but not limited to health, life, and disability insurance rates, retirement contribution rates, telecommunications charges, and utility rates, rather than reverting such savings back to the*

*Commonwealth. This financial resource policy assists the University by providing the framework for retaining and managing non-general funds, for the receipt of general funds, and for the use and stewardship of all these funds.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to provide oversight of the University's cash management system which is the framework for the retention of non-general funds. The Assurance Services Department of the University shall periodically audit the University's cash management system in accordance with appropriate risk assessment models and make reports to the Audit Committee of the Board of Visitors. Additional oversight shall continue to be provided through the annual audit and assessment of internal controls performed by the Auditor of Public Accounts.*

*For the receipt of general and non-general funds, the University shall conform to the Security for Public Deposits Act, Chapter 44 (§ [2.2-4400](#) et seq.) of Title 2.2 of the Code of Virginia as it currently exists and from time to time may be amended.*

#### **VIII. ACCOUNTS RECEIVABLE MANAGEMENT AND COLLECTION.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized to create and implement any and all Accounts Receivable Management and Collection policies as part of a system for the management of University financial resources. The policies shall be guided by the requirements of the Virginia Debt Collection Act, Chapter 48 (§ [2.2-4800](#) et seq.) of the Code of Virginia, such that the University shall take all appropriate and cost effective actions to aggressively collect accounts receivable in a timely manner.*

*These shall include, but not be limited to, establishing the criteria for granting credit to University customers; establishing the nature and timing of collection procedures within the above general principles; and the independent authority to select and contract with collection agencies and, after consultation with the Office of the Attorney General, private attorneys as needed to perform any and all collection activities for all University accounts receivable such as reporting delinquent accounts to credit bureaus, obtaining judgments, garnishments, and liens against such debtors, and other actions. In accordance with sound collection activities, the University shall continue to utilize the Commonwealth's Debt Set-Off Collection Programs, shall develop procedures acceptable to the Tax Commissioner and the State Comptroller to implement such Programs, and shall provide a quarterly summary report of receivables to the Department of Accounts in accordance with the reporting procedures established pursuant to the Virginia Debt Collection Act.*

#### **IX. DISBURSEMENT MANAGEMENT.**

*The President, through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized to create and implement any and all disbursement policies as part of a system for the management of University financial resources. The disbursement management policies shall continue to define the appropriate and reasonable uses of all funds, from whatever source derived, in the execution of the University's operations. These policies also shall continue to address the timing of appropriate and reasonable disbursements consistent with the Prompt Payment Act, and the appropriateness of certain goods or services relative to the University's mission, including travel-related disbursements. Further, the University's disbursement policy shall continue to provide for the mechanisms by which payments are made including the use of charge cards, warrants, and electronic payments. Since the University no longer will interface to the CARS system or any replacement for the CARS system for disbursements, the University shall establish its own mechanisms for electronic payments to vendors through Electronic Data Interchange (EDI) or similar process and payments to the Commonwealth's Debt Set-Off Collection Programs.*

*Beginning with the fiscal year after the first fiscal year for which it first receives the required certification from SCHEV, the University may draw down its general fund appropriations (subject to available cash) and tuition and E&G fees and other non-general fund revenues from the State Treasury. Such funds shall be available to the University for disbursement as provided in the then-current rules of the Automated Clearing House (ACH) Network. The drawing down of funds may be initiated in accordance with the following schedule:*

- 1. The University may draw down one-twenty-fourth (1/24) of its annual general fund appropriation for Educational and General programs on the first and fifteenth days of each month, and up to 50 percent of its annual general fund appropriation for Student Financial Assistance on or after September 1 of each year with the remaining 50 percent to be drawn on or after February 1 of each year in order to meet student obligations;*
- 2. The University may draw down the sum of all tuition and E&G fees and all other non-general fund revenues deposited to the State Treasury each day on the same business day they were deposited; and*
- 3. The University anticipates that expenditures could exceed available revenues from time to time during the year if the above disbursement schedule is used. When the University projects a cash deficit is likely in activities supported by general fund appropriations, the University may make a request to the State Comptroller for an early draw on its appropriated general funds deposited in the State Treasury, in a form and within a time frame agreeable to the parties, in order to cover expenditures.*

*These disbursement policies shall authorize the President, acting through the Senior Vice President for Finance and Administration or other designee, to independently select, engage, and contract for such consultants, accountants, and financial experts, and other such providers of expert advice and consultation, and, after consultation with the Office of the Attorney General, private attorneys, as may be necessary or desirable in his or her discretion. The policies also shall continue to include the ability to locally manage and administer the Commonwealth's credit card and cost recovery programs related to disbursements, subject to any restrictions contained in the Commonwealth's contracts governing those programs, provided that the University shall submit the credit card and cost recovery aspects of its financial and operations policies to the State Comptroller for review and comment prior to implementing those aspects of those policies. The disbursement policies shall ensure that adequate risk management and internal control procedures shall be maintained over previously decentralized processes for public records, payroll, and non-payroll disbursements. The University shall continue to provide summary quarterly prompt payment reports to the Department of Accounts in accordance with the reporting procedures established pursuant to the Prompt Payment Act. The University's disbursement policies shall be guided by the principles of the Commonwealth's policies as included in the Commonwealth's Accounting Policy and Procedures Manual. Upon the Effective Date of its initial management agreement with the Commonwealth, the University shall continue to follow the Commonwealth's disbursement policies until such time as specific alternative policies can be developed, approved and implemented. Such alternate policies shall be submitted to the State Comptroller for review and comment prior to their implementation by the University.*

#### **X. DEBT MANAGEMENT.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, is authorized to create and implement any and all debt management policies as part of a system for the management of University financial resources.*

*Pursuant to subsection B of § [23-38.108](#) of the Act, the University shall have the authority to issue bonds, notes, or other obligations that do not constitute State Tax Supported Debt, as determined by the Treasury Board, and that are consistent with the University's debt-management policy established by its Board of Visitors, without obtaining the consent of any legislative body, elected official, commission, board, bureau, or agency of the Commonwealth or of any political subdivision, and without any proceedings or conditions other than those specifically required by Subchapter 3 of the Act; provided that, the University shall notify the Treasurer of Virginia of its intention to issue bonds pursuant to this Policy at the time it adopts the bond issuance planning schedule for those*

*bonds. Any new or revised debt capacity and management policy shall be submitted to the Treasurer of Virginia for review and comment prior to its adoption by the University. The University recognizes that there are numerous types of financing structures and funding sources available each with specific benefits, risks, and costs. All potential funding sources shall be reviewed by the President, acting through the Senior Vice President for Finance and Administration or other designee, within the context of the overall portfolio to ensure that any financial product or structure is consistent with the University's objectives. Regardless of the financing structure(s) utilized, the President, acting through the Senior Vice President for Finance and Administration or other designee, shall obtain sufficient documentation to gain a full understanding of the transaction, including (i) the identification of potential risks and benefits, and (ii) an analysis of the impact on University creditworthiness and debt capacity. All such debt or financial products issued pursuant to the provisions of §§ 23.38-107 and 23.38-108 of the Act shall be authorized by resolution of the Board, providing that they do not constitute State Tax Supported Debt. The University currently has established policy relating to the total permissible amount of outstanding debt by monitoring University-wide ratios that measure debt compared to University balance-sheet resources and annual debt service burden. These measures are monitored and reviewed regularly in light of the University's current strategic initiatives and expected debt requirements. The Board of Visitors shall periodically review and approve the University's debt management policy. Any change in the current policy shall be submitted to the Treasurer of Virginia for review and comment prior to their adoption by the University.*

#### *XI. INVESTMENT POLICY.*

*It is the policy of the University to invest its operating and reserve funds solely in the interest of the University and in a manner that will provide the highest investment return with the maximum security while meeting daily cash flow demands and conforming to the Investment of Public Funds Act (§ [2.2-4500](#) et seq.) of the Code of Virginia. Investments shall be made with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.*

*Endowment investments shall be invested and managed in accordance with the Uniform Management of Institutional Funds Act, §§ [55-268.1](#) through [55-268.10](#) and § [23-76.1](#) of the Code of Virginia.*

*The Board of Visitors shall periodically review and approve the investment guidelines governing the University's operating and reserve funds.*

*XII. INSURANCE AND RISK MANAGEMENT.*

*By July 1 of each odd-numbered year, the University shall inform the Secretary of Finance of any intent during the next biennium to withdraw from any insurance or risk management program made available to the University through the Commonwealth's Division of Risk Management and in which the University is then participating, to enable the Commonwealth to complete an adverse selection analysis of any such decision and to determine the additional costs to the Commonwealth that would result from any such withdrawal. If upon notice of such additional costs to the Commonwealth, the University proceeds to withdraw from the insurance or risk management program, the University shall reimburse the Commonwealth for all such additional costs attributable to such withdrawal, as determined by the Commonwealth's actuaries. Such payment shall be made in a manner agreeable to both the University and the Commonwealth.*

2. That the first enactment of this Act shall supersede the terms of any management agreement between the Commonwealth and Virginia Commonwealth University that was entered into prior to January 1, 2008. Any such management agreement entered into prior to January 1, 2008, shall be deemed incorporated into this Act.

3. That the provisions of the first enactment of this Act shall expire at midnight on June 30, 2012. The expiration of such enactment shall automatically result in the expiration of the provisions of any management agreement between the Commonwealth and Virginia Commonwealth University that was entered into prior to January 1, 2008, and incorporated into this Act.

*Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other*

*reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. *§ 9. Security for bonds and BANs.*

*The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of*

The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs.*

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c), Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9(c) or (b), as the case may be, of the Constitution of Virginia.*

§ 13. *Severability.*

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

## **Chapter 122 Appointment of counsel; indigent defendants.**

An Act to amend and reenact § [19.2-159](#) of the Code of Virginia, as it is currently effective, and to repeal the second enactments of Chapter 680 and Chapter 708 of the Acts of Assembly of 2006, relating to determination of indigency; appointment of counsel.

[\[H 410\]](#)

Approved March 2, 2008

Be it enacted by the General Assembly of Virginia:

1. That § [19.2-159](#) of the Code of Virginia, as it is currently effective, is amended and reenacted as follows:

§ [19.2-159](#). (Effective until July 1, 2008) Determination of indigency; guidelines; statement of indigence; appointment of counsel.

A. If the accused shall claim that he is indigent, and the charge against him is a criminal offense which may be punishable by death or confinement in the state correctional facility or jail, subject to the provisions of § [19.2-160](#), the court shall determine from oral examination of the accused or other competent evidence whether or not the accused is indigent within the contemplation of law pursuant to the guidelines set forth in this section.

B. In making its finding, the court shall determine whether or not the accused is a current recipient of a state or federally funded public assistance program for the indigent. If the accused is a current recipient of such a program and does not waive his right to counsel or retain counsel on his own behalf, he shall be presumed eligible for the appointment of counsel. This presumption shall be rebuttable where the court finds that a more thorough examination of the financial resources of the defendant is necessary. If the accused shall claim to be indigent and is not presumptively eligible under the provisions of this section, then a thorough examination of the financial resources of the accused shall be made with consideration given to the following:

1. The net income of the accused, which shall include his total salary and wages minus deductions required by law. The court also shall take into account income and amenities from other sources including but not limited to social security funds, union funds, veteran's benefits, other regular support from an absent family member, public or private employee pensions, dividends, interests, rents, estates, trusts, or gifts.

2. All assets of the accused which are convertible into cash within a reasonable period of time without causing substantial hardship or jeopardizing the ability of the accused to maintain home and employment. Assets shall include all cash on hand as well as in checking and savings accounts, stocks, bonds, certificates of deposit, and tax refunds. All personal property owned by the accused which is readily convertible into cash shall be considered, except property exempt from attachment. Any real estate owned by the accused shall be considered in terms of the amounts which could be raised by a loan on the property. For purposes of eligibility determination, the income, assets, and expenses of the spouse, if any, who is a member of the accused's household, shall be considered, unless the spouse was the victim of the offense or offenses allegedly committed by the accused.

3. Any exceptional expenses of the accused and his family which would, in all probability, prohibit him from being able to secure private counsel. Such items shall include but not be limited to costs for medical care, family support obligations, and child care payments.

The available funds of the accused shall be calculated as the sum of his total income and assets less the exceptional expenses as provided in paragraph 3 above. If the accused does not waive his right to counsel or retain counsel on his own behalf, counsel shall be appointed for the accused if his available funds are equal to or below 125 percent of the federal poverty income guidelines prescribed for the size of the household of the accused by the federal Department of Health and Human Services. The Supreme Court of Virginia shall be responsible for distributing to all courts the annual updates of the federal poverty income guidelines made by the Department.

If the available funds of the accused exceed 125 percent of the federal poverty income guidelines and the accused fails to employ counsel and does not waive his right to counsel, the court may, in exceptional circumstances, and where the ends of justice so require, appoint an attorney to represent the accused. However, in making such appointments, the court shall state in writing its reasons for so doing. The written statement by the court shall be included in the permanent record of the case.

C. If the court determines that the accused is indigent as contemplated by law pursuant to the guidelines set forth in this section, the court shall provide the accused with a statement which shall contain the following:

"I have been advised this . . . . day of . . . . ., 20 -  
. ., by the  
(name of court)  
court of my right to representation by counsel in the  
trial of the charge pending against me; I certify that I am-  
without  
means to employ counsel and I hereby request the court to a-  
ppoint counsel  
for me. "  
.....  
(signature of accused)

The court shall also require the accused to complete a written financial statement to support the claim of indigency and to permit the court to determine whether or not the accused is indigent within the contemplation of law. The accused shall execute the said statements under oath, and the said court shall appoint competent counsel to represent the accused in the proceeding against him, including an appeal, if any, until relieved or replaced by other counsel.

The executed statements by the accused and the order of appointment of counsel shall be filed with and become a part of the record of such proceeding.

All other instances in which the appointment of counsel is required for an indigent shall be made in accordance with the guidelines prescribed in this section.

D. Except in jurisdictions having a public defender, *or unless (i) the public defender is unable to represent the defendant by reason of conflict of interest or (ii) the court finds that appointment of other counsel is necessary to attain the ends of justice*, counsel appointed by the court for representation of the accused shall be selected by a fair system of rotation among members of the bar practicing before the court whose names are on the list maintained by the Indigent Defense Commission pursuant to § [19.2-163.01](#). If no attorney who is on the list maintained by the Indigent Defense Commission is reasonably available, the court may appoint as counsel an attorney not on the list who has otherwise demonstrated to the court's satisfaction an appropriate level of training and

experience. The court shall provide notice to the Commission of the appointment of the attorney.

[\[S 358\]](#)

Approved March 12, 2008

Be it enacted by the General Assembly of Virginia:

1. That the following shall hereafter be known as the 2008 Management Agreement Between the Commonwealth of Virginia and Virginia Commonwealth University:

*MANAGEMENT AGREEMENT*

*BY AND BETWEEN*

*THE COMMONWEALTH OF VIRGINIA*

*AND*

*THE RECTOR AND VISITORS OF VIRGINIA COMMONWEALTH UNIVERSITY*

*This MANAGEMENT AGREEMENT, executed this 15th day of November, 2007, by and between the Commonwealth of Virginia (hereafter, the Commonwealth) and the Rector and Visitors of the Virginia Commonwealth University (hereafter, the University) provides as follows:*

*RECITALS*

*WHEREAS, the University has satisfied the conditions precedent set forth in subsections A and B of § [23-38.97](#) of the Code of Virginia, to become a public institution of higher education of the Commonwealth governed by Subchapter 3 (§ [23-38.91](#) et seq.) of the Restructured Higher Education Administrative and Financial Operations Act, Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia (Subchapter 3 and the Act, respectively), as evidenced by:*

- 1. Board of Visitors Approval. The minutes of a meeting of the Board of Visitors of the University held on February 22, 2007, and the accompanying certification of the Secretary of the Board, indicate that an absolute two-thirds or more of the members voted to approve the resolution required by subdivision A 1 of § [23-38.97](#) of the Act;*
- 2. Written Application to the Governor. The University has submitted to the Governor a written Application, dated March 23, 2007, with copies to the Chairmen of the House Committee on Appropriations, the House Committee on Education, the Senate Committee on Finance, and the Senate Committee on Education and Health, expressing the sense of its Board of Visitors that the University is qualified to be, and should be, governed by Subchapter 3 of the Act, and substantiating that the University has fulfilled the requirements of paragraph 2 of subsection A of § [23-38.97](#) of the Act; and*
- 3. Finding by the Governor. In accordance with subsection B of § [23-38.97](#) of the Act, the Governor has found that the University has fulfilled the requirements of subdivision A 2*

of § [23-38.97](#), and therefore has authorized Cabinet Secretaries to enter into this Management Agreement on behalf of the Commonwealth with the University; and WHEREAS, the University is therefore authorized to enter into this Management Agreement as provided in subsection D of § [23-38.88](#) and Subchapter 3 of the Act.

AGREEMENT

NOW, THEREFORE, in accordance with the provisions of the Restructured Higher Education Administrative and Financial Operations Act, Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia, and in consideration of the foregoing premises, the Commonwealth and the University do now agree as follows:

ARTICLE 1. DEFINITIONS.

*ARTICLE 2. SCOPE OF MANAGEMENT AGREEMENT.*

*SECTION 2.1. Enhanced Authority Granted and Accompanying Accountability.*

*Subchapter 3 of the Act, provides that, upon the execution of, and as of the effective date for, this Management Agreement, the University shall become a Covered Institution entitled to be granted by the Commonwealth and to exercise the powers and authority provided in Subchapter 3 of the Act, that are expressly contained in this Management Agreement. In general, subject to its management agreement with the Commonwealth, status as a Covered Institution governed by Subchapter 3 of the Act, and this Management Agreement is intended to replace (i) the post-General Assembly authorization prior-approval system of reviews, approvals, policies and procedures carried out and implemented by a variety of central State agencies with (ii) a post-audit system of reviews and accountability under which a Covered Institution is fully responsible and fully accountable for managing itself pursuant to Subchapter 3 of the Act and its management agreement with the Commonwealth.*

*SECTION 2.1.1. Assessments and Accountability. The University and its implementation of the enhanced authority granted by Subchapter 3 of the Act and this Management Agreement, and the Board of Visitors policies attached hereto as Exhibits A through F, shall be subject to the reviews, assessments, and audits (i) set forth in the Act that are to be conducted by the Auditor of Public Accounts, the Joint Legislative Audit and Review Commission, and the State Council of Higher Education for Virginia, or (ii) as may be conducted periodically by the Secretaries of Finance, Administration, Education, or Technology, or by some combination of these four Secretaries, or (iii) as otherwise may be required by law other than the Act.*

*SECTION 2.1.2. Express Grant of Powers and Authority. Subject to the specific conditions and limitations contained in Article 4 (Institutional Management), Article 5 (Capital Projects; Procurement; Property Generally), and Article 6 (Human Resources) of Subchapter 3 of the Act, the Commonwealth and the University agree that the Commonwealth has expressly granted to the University by this Management Agreement all the powers and authority contained in certain policies adopted by the Board of Visitors of the University attached hereto as Exhibits A through F and governing (1) the undertaking and implementation of capital projects, and other acquisition and disposition of property (Exhibit A), (2) the leasing of property, including capital leases (Exhibit B), (3) information technology (Exhibit C), (4) the procurement of goods, services, including certain professional services, insurance, and construction (Exhibit D), (5) human resources (Exhibit E), and (6) its system of financial management (Exhibit F), including, as provided in subsection B of § [23-38.104](#) of the Act, the sole authority to establish tuition,*

*fees, room, board, and other charges consistent with sum sufficient appropriation authority for non-general funds as provided by the Governor and the General Assembly in the Commonwealth's biennial appropriations authorization. Subject to the specific conditions and limitations contained in Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act, in this Management Agreement, and in one or more of the Board of Visitors policies attached hereto as Exhibits A through F, the Commonwealth and the University agree that the Commonwealth has expressly granted to the University all the powers and authority permitted by Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act.*

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Management Agreement and the policies adopted by it and attached hereto as Exhibits A through F. Consistent with this full and ultimate accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate the duties and responsibilities set forth in this Management Agreement to its officers, committees, and subcommittees, and, as set forth in the policies adopted by the Board and attached hereto as Exhibits A through F, to a person or persons within the University.*

*SECTION 2.1.3. Reimbursement by the University of Certain Costs. By July 1 of each odd-numbered year, the University shall inform the Secretary of Finance of any intent during the next biennium to withdraw from any health or other group insurance or risk management program made available to the University through any agency, body corporate, political subdivision, authority, or other entity of the Commonwealth, and in which the University is then participating, to enable the Commonwealth's actuaries to complete an adverse selection analysis of any such decision and to determine the additional costs to the Commonwealth that would result from any such withdrawal. If upon notice of such additional costs to the Commonwealth, the University proceeds to withdraw from such health or other group insurance or risk management program, the University shall, pursuant to subdivision D 2 c of § [23-38.88](#), reimburse the Commonwealth for all such additional costs attributable to such withdrawal as determined by the Commonwealth's actuaries.*

*SECTION 2.1.4. Potential Impact on Virginia College Savings Plan. As required by subdivision D 2 c of § [23-38.88](#) of the Act, the University has given consideration to potential future impacts of tuition increases on the Virginia College Savings Plan (§ [23-38.75](#) of the Code of Virginia), has consulted staff of the Plan and examined public documents which set forth the assumptions about tuition increases on which Plan prices are set.*

*Tuition assumptions used by Plan officials to set prices for the future of the Plan are higher than those included by the University in its most recent six-year financial plan transmitted to the State Council of Higher Education for Virginia (SCHEV) pursuant to subdivision B 10 of § [23-38.88](#).*

*SECTION 2.1.5. Justification for Deviations from the Virginia Public Procurement Act. Pursuant to § [23-38.110](#) of the Act, and subject to the provisions of this Management Agreement, the University may be exempt from the provisions of the Virginia Public Procurement Act (VPPA), Chapter 43 (§ [2.2-4300](#) et seq.) of Title 2.2 of the Code of Virginia. Any procurement policies or rules that deviate from the VPPA must be uniform across all institutions governed by Subchapter 3 of the Act, and the Board of Visitors shall adopt and comply with procurement policies that are based upon competitive principles and seek competition to the maximum practical degree. The Policy Governing the Procurement of Goods, Services, Insurance, and Construction, and the Disposition of Surplus Materials and the Rules Governing Procurement of Goods, Services, Insurance, and Construction (the Procurement Rules) attached to that Policy as Attachment 1 constitute the policies and uniform deviations from the VPPA required by subsections A and B of § [23-38.110](#) of the Act.*

*Subsection D of § [23-38.110](#) of the Act requires that the University identify the public, educational, and operational interests served by any procurement rule or rules that deviate from those in the VPPA. The adopted Board of Visitors policy on procurement and the Procurement Rules provide the University with the autonomy to administer its procurement process while fully adhering to the principle that competition should be sought to the maximum extent feasible. This autonomy will better position the University to support the requirements of its growing teaching, research and outreach missions. Greater autonomy in procurement will improve internal capacity to respond quickly to emergent material and service issues and, therefore, enable the University to be more efficient and effective in meeting the Commonwealth's goals for institutions of higher education. In some instances, costs will be reduced. Taken collectively, the University's procurement policies and rules that differ from those required by the VPPA will enhance procurement "best practices" as they currently are being observed within the higher education community nationally. Further, these changes will provide efficiencies to both the University and public sector suppliers.*

*SECTION 2.1.6. Quantification of Cost Savings. Subsection C of § [23-38.104](#) of the Act requires that a Covered Institution include in its management agreement with the Commonwealth the quantification of cost savings realized as a result of the additional operational flexibility provided pursuant to Subchapter 3 of the Act. Since this initial*

*Management Agreement with the Commonwealth has not yet been implemented by the University, the parties agree that the University is not in a position to quantify any such cost savings at this time, although the University expects that there will be cost savings resulting from the additional authority granted to the University pursuant to Subchapter 3 of the Act, and that such cost savings will be part of the determinations made during the reviews, assessments, and audits to be conducted pursuant to Subchapter 3 of the Act by the Auditor of Public Accounts, the Joint Legislative Audit and Review Commission, and the State Council of Higher Education for Virginia, and as otherwise described in Section 2.1.1 above.*

*SECTION 2.1.7. Participation in State Programs. The Commonwealth intends that the University shall continue to fully participate in, and receive funding support from, the many and varied programs established now or in the future by the Commonwealth to provide support for Virginia's public institutions of higher education and for Virginians attending such institutions, including but not limited to: the state capital outlay and bond financing initiatives undertaken from time to time by the Commonwealth; the Higher Education Equipment Trust Fund established pursuant to Chapter 3.2 (§ [23-30.24](#) et seq.) of Title 23 of the Code of Virginia; the Maintenance Reserve Fund as provided in the Appropriation Act; the Eminent Scholars program as provided in the Appropriation Act; the Commonwealth's various student financial assistance programs; and other statewide programs or initiatives that exist, or may be established, in support of the Commonwealth's higher education institutions, programs, or activities.*

*SECTION 2.1.8. Implied Authority. Pursuant to subdivision D 1 of § [23-38.88](#) of the Act, the only implied authority granted to the University by this Management Agreement is that implied authority that is actually necessary to carry out the expressed grant of financial or operational authority contained in this Agreement or in the policies adopted by the University's Board of Visitors and attached hereto as Exhibits A through F.*

*SECTION 2.1.9. Exercise of Authority. The University and the Commonwealth acknowledge and agree that the execution of this Management Agreement constitutes the conclusion of a process that, as of the effective date of this Agreement, confers upon the University the enhanced authority and operating flexibility described above, all of which is in furtherance of the purposes of Subchapter 3 of the Act. Therefore, without any further conditions or requirements, the University shall, on and after the effective date of this Management Agreement, be authorized to exercise the authority conferred upon it by this Management Agreement and the policies adopted by its Board of Visitors attached hereto as Exhibits A through F, and by Article 3 (Powers and Authority Generally) of Subchapter 3 of the Act except to the extent that the powers and authority contained in*

*Article 3 of Subchapter 3 of the Act have been limited by this Management Agreement or the Board of Visitors policies attached hereto as Exhibits A through F.*

*The University and the Commonwealth also acknowledge and agree that, pursuant to subsection A of § [23-38.91](#) of the Act and consistent with the terms of this Management Agreement, the Board of Visitors of the University shall assume full responsibility for management of the University, subject to the requirements and conditions set forth in Subchapter 3 of the Act, the general requirements for this Management Agreement as provided in § [23-38.88](#) of the Act, and this Management Agreement. The Board of Visitors shall be fully accountable for (a) the management of the University as provided in the Act, (b) meeting the requirements of §§ [2.2-5004](#), [23-9.2:3.02](#), and [23-9.6:1.01](#) of the Code of Virginia, and (c) meeting such other provisions as are set forth in this Management Agreement.*

#### *SECTION 2.2. State Goals.*

*SECTION 2.2.1. Furthering State Goals. As required for all public institutions of higher education of the Commonwealth by subsection B of § [23-38.88](#) of the Code of Virginia, prior to August 1, 2005, the Board of Visitors of the University adopted the resolution setting forth its commitment to the Governor and the General Assembly to meet the State goals specified in that subsection B. In addition to the above commitments, the University commits to furthering these State goals by:*

*1. In addition to its six-year target of achieving about \$161.8 million in external research expenditures by 2011-12, the University commits to match from institutional funds, other than general funds or tuition, on a dollar-for-dollar basis, any additional research funds provided by the State in the Appropriation Act above the amount provided from institutional funds for research in 2007-08.*

*2. Virginia Commonwealth University (VCU) is committed to improving retention and graduation rates, without changing its core mission of access. The University has a diverse student body, a large number of whom are first generation college students and many of whom work in addition to attending college.*

*Major investments have recently been made in initiatives like the University College, which provides intensive advising and academic support for all first year students, and the VCU Compact, a university-wide academic experience for first year students that provides the foundation for lifelong learning and success. The University has also approved a Core Curriculum, providing a common set of general education courses required for all University undergraduates. These efforts are designed to positively impact freshman retention rates, which have steadily improved from 73.5 percent for the fall 1998 freshmen to 82.3 percent for the fall 2006 cohort. As these efforts continue,*

*VCU expects freshman retention rates to increase further, reaching about 85 percent by fall 2010.*

*These efforts are also designed to improve the University's six-year graduation rate, although the major impact of these fundamental improvements will not be seen immediately. Graduation rates are improving, from 40.8 percent for the cohort of first-time, full-time freshmen entering in the fall of 1998 to 45.2 percent for the cohort of freshmen entering in the fall 2000. As the first cohorts of freshmen benefiting from the University College and the VCU Compact progress, six-year graduation rates should reach 50 percent for the cohort of first-time, full-time freshman who entered in the fall of 2006.*

*SECTION 2.2.2. Student Enrollment, Tuition, and Financial Aid. As required by § [23-9.2:3.02](#) of the Code of Virginia, the University, along with all other public institutions of higher education of the Commonwealth, has developed and submitted to the State Council of Higher Education for Virginia (SCHEV) by October 1, 2007, an institution-specific Six-Year Plan addressing the University's academic, financial, and enrollment plans for the six-year period of fiscal years 2008-10 through 2013-14. Subsection A of § [23-9.2:3.02](#) requires the University to update this Six-Year Plan by October 1 of each odd-numbered year. Subsection B of § [23-38.97](#) of the Act requires that a management agreement address, among other issues, such matters as the University's in-state undergraduate student enrollment, its financial aid requirements and capabilities, and its tuition policy for in-state undergraduate students. These matters are addressed in the University's Six-Year Plan submitted to SCHEV, and the parties therefore agree that the University's Six-Year Plan and the description below meet the requirement of subsection B of § [23-38.97](#) of the Act.*

*Subsection B of § [23-38.104](#) of the Act requires the Board of Visitors of the University to include in this Management Agreement the University's commitment to provide need-based grant aid for middle- and lower-income Virginia students in a manner that encourages student enrollment and progression without respect to potential increases in tuition and fees.*

*Virginia Commonwealth University has made significant efforts to provide additional institutional funding for financial aid. The University has continued this pledge in its most recently submitted six-year financial plan, increasing the amount of undergraduate need-based financial aid available to Virginia students each year in response to unavoidable increases in undergraduate tuition and fees.*

*Rather than using this additional institutional funding to decrease unmet financial need across the board, the University will strategically invest these resources to further the*

*state and university goals of ensuring access, serving more Virginia community college transfer students, and increasing retention and graduation rates.*

*The University has a firm commitment to its mission of access, and to serving a diverse student population, many of whom are first-generation college students. To further address access and affordability, the University will establish a new Access Grant Program. The program will provide a grant of about \$1,500 for resident freshmen and sophomores who come to the University from families at or below the federal poverty level (as measured against the federal guidelines associated with the tax year used for the federal aid application). The goal of this program will be to partially relieve the exceptional financial pressure, and correspondingly high risk of early attrition, experienced by this group of students.*

*To serve more transfer students from the Virginia Community College System, the University will also establish a new Transfer Achievement Scholarship. These \$1,000 scholarships will be targeted to students with demonstrated financial need who transfer to the University with an associate degree earned from a Virginia community college with a minimum GPA of 3.00. The goal of the program will be to partially address the financial needs of academically strong Virginia residents who have earned an associate degree from a Virginia community college.*

*To address retention and graduate rates, the University will also enhance two existing scholarship programs. At present, the University's Academic Performance Scholarships are available to high-performing, rising sophomore students with demonstrated need who did not receive scholarships as entering freshmen. These scholarships will be expanded to include rising juniors. The goal of the expansion is to increase the sophomore to junior retention rate for academically capable students who have unmet financial need. The current Academic Achievement Scholarships, which combine merit and need-based grants targeted to highly qualified entering freshmen from Virginia not receiving a Dean's level scholarship, will be enhanced by increasing the award from the current \$1,000 to about \$1,500.*

*Because the University will strategically invest these resources to further the state and university goals of ensuring access, serving more Virginia community college transfer students, and increasing retention and graduation rates, the metrics used to measure progress in the area of financial aid will be the same as those to which the University will be held under existing Institutional Performance Standards.*

*While the additional institutional support for financial aid is vital, the University believes that the best way to ensure that all Virginia students can attend college is to keep tuition affordable. Keeping college affordable is especially important to the University,*

*considering its mission to serve first-generation college students, many of whom come from families with limited income. For many years now, the University has had the lowest tuition and fees for in-state undergraduates among Virginia's public doctoral universities. The Commonwealth and the University agree that this commitment meets the requirements of subsection B of § [23-38.104](#) of the Act.*

*SECTION 2.3. Other Law. As provided in subsection B of § [23-38.91](#) of the Act, the University shall be governed and administered in the manner provided not only in this Management Agreement, but also as provided in the Appropriation Act then in effect and the University's Enabling Legislation.*

*SECTION 2.3.1. The Appropriation Act. The Commonwealth and the University agree that, pursuant to the current terms of the Act and the terms of § 4-11.00 of the 2006-08 Appropriation Act, if there is a conflict between the provisions of the Appropriation Act and the provisions of Subchapter 3 of the Act, or this Management Agreement, or the Board of Visitors policies attached to this Management Agreement as Exhibits A through F, the provisions of the Appropriation Act shall control, and shall continue to control unless provided otherwise by law.*

*SECTION 2.3.2. The University's Enabling Legislation. As provided in subsection C of § [23-38.91](#) of the Act, in the event of a conflict between any provision of Subchapter 3 of this Act and the University's Enabling Legislation, the Enabling Legislation shall control, except as provided in subdivision A 1 b of § [23-38.112](#) of the Act, regarding § [23-77.1](#).*

*SECTION 2.3.3. Title 2.2 of the Code of Virginia. *POLICY GOVERNING CAPITAL PROJECTS*

*I. PREAMBLE.*

*In 1996, § 4-5.08 of the Appropriation Act (Chapter 912), delegated limited autonomy to the University as a whole for non-general fund capital projects. This authority has since been continued through 2002-2004 by subsequent legislative action. That authority was extended to selected capital projects funded through state-supported bonds through § 4-5.08 of the 2003 Appropriation Act (Chapter 1042). Pursuant to this delegation, Virginia*

*Commonwealth University developed a system of reviews and approvals for the university's state general fund and state-supported debt capital projects, which was adopted by the Board of Visitors on April 26, 2004. Subsequent to that adoption, Virginia Commonwealth University entered into a Memorandum of Understanding with the Secretary of Finance and Secretary of Administration, which was signed in February 2005. The Restructured Higher Education Financial and Administrative Operations Act (the Act), Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia, provides that, upon becoming a Covered Institution, the University may be delegated the authority to establish its own system for undertaking the implementation of its capital projects. In general, status as a Covered Institution is designed to replace the post-authorization system of reviews, approvals, policies and procedures carried out by a variety of central State agencies, and the traditional pre-authorization approval process for projects funded entirely with non-general funds and without any proceeds from State Tax Supported Debt. The University's system for carrying out its capital outlay process as a Covered Institution is to be governed by policies adopted by the Board of Visitors. The following provisions of this Policy, together with the Policy Governing the Procurement of Goods, Services, Insurance, and Construction, and the Disposition of Surplus Materials adopted by the Board, and the Rules Governing Procurement of Goods, Services, Insurance, and Construction, which is attached as Attachment 1 to that Policy, constitute the adopted Board of Visitors policies regarding the University's capital projects, whether funded by a state general fund appropriation, State Tax Supported Debt, or funding from other sources.*

*This Policy is intended to encompass and implement the authority that may be granted to the University pursuant to Subchapter 3 of the Act. Any other powers and authorities granted to the University pursuant to the Appropriation Act, or any other sections of the Code of Virginia, including other provisions of the Act and the University's Enabling Legislation, are not affected by this Policy.*

#### *IV. BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.*

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Policy. #### *V. CAPITAL PROGRAM.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall adopt a system for developing one or more capital project programs that defines or define the capital needs of the University for a given period of time consistent with the University's published Master Plan. This process may or may not mirror the Commonwealth's requirements for capital plans. The Board of Visitors shall approve the program for Major Capital Projects. *It shall be University policy that each capital project program shall meet the University's mission and institutional objectives, and be appropriately authorized by the University. Moreover, it shall be University policy that each capital project shall be of a size and scope to provide for the defined program needs, designed in accordance with all applicable building codes and handicapped accessibility standards as well as the University's design guidelines and standards, and costed to reflect current costs and escalated to the mid-point of anticipated construction.*

#### *VI. AUTHORIZATION OF CAPITAL PROJECTS.*

*The Board of Visitors shall authorize the initiation of each Major Capital Project by approving its size, scope, budget, and funding. The President, acting through the Senior Vice President for Finance and Administration or other designee, shall adopt procedures*

*for approving the size, scope, budget and funding of all other capital projects. Major Capital Projects that are to be funded entirely or in part by a general fund appropriation of the General Assembly or proceeds from State Tax Supported Debt, shall require both Board of Visitors approval and those pre-appropriation approvals of the State's governmental agencies then applicable, and shall follow the State's process for capital budget requests.*

*It shall be the policy of the University that the implementation of capital projects shall be carried out so that the capital project as completed is the capital project approved by the Board for Major Capital Projects and according to the procedures adopted by the President, acting through the Senior Vice President for Finance and Administration or other designee, for all other capital projects. The President, acting through the Senior Vice President for Finance and Administration or other designee, shall ensure strict adherence to this requirement.*

*Accordingly, the budget, size and scope of a capital project shall not be materially changed beyond the plans and justifications that were the basis for the capital project's approval, either before or during construction, unless approved in advance as described above. Minor changes shall be permissible if they are determined by the President, acting through the Senior Vice President for Finance and Administration or other designee, to be justified. Major Capital Projects may be submitted for Board of Visitors authorization at any time but must include a statement of urgency if not part of the approved Major Capital Project program.*

#### **VII. PROCUREMENT OF CAPITAL PROFESSIONAL SERVICES AND CONSTRUCTION SERVICES.**

*It shall be the policy of the University that procurements shall result in the purchase of high quality services and construction at reasonable prices and shall be consistent with the Policy Governing the Procurement of Goods, Services, Insurance, and Construction, and the Disposition of Surplus Materials adopted by the Board, and with the Rules Governing Procurement of Goods, Services, Insurance, and Construction, which is attached as Attachment 1 to that Policy. - Making procurement rules clear in advance of any competition;*

*Providing access to the University's business to all qualified vendors, firms and contractors, with no potential bidder or offeror excluded arbitrarily or capriciously, while allowing the flexibility to engage in cooperative procurements and to meet special needs of the University;*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall designate a Building Official responsible for building code compliance by either (i) hiring an individual to be the University Building Official, or (ii) continuing to use the services of the Department of General Services, Division of Engineering and Buildings, to perform the Building Official function. If option (i) is selected, the individual hired as the University Building Official shall be a full-time employee, a registered professional architect or engineer, and certified by the Department of Housing and Community Development to perform this Building Official function. The University Building Official shall issue building permits for each project required by the VUSBC to have a building permit, and shall determine the suitability for occupancy of, and shall issue certifications for building occupancy for, all projects requiring such certification. Prior to issuing any such certification, this individual shall ensure that the VUSBC and accessibility requirements are met for that project and that such project has been inspected by the State Fire Marshal or his designee as required. The University Building Official shall organizationally report directly and exclusively to the Board of Visitors. If the University hires its own University Building Official, it shall fulfill the code review requirement by maintaining a review unit of licensed professional architects or engineers who are certified by the Department of Housing and Community Development in accordance with § [36-137](#) of the Code of Virginia, for such purpose and who shall review plans, specifications and documents for compliance with building codes and standards and perform required inspections of work in progress and the completed capital project. No individual licensed professional architect or engineer hired under the University's personnel system as a member of the review unit shall perform other building code-related design, construction, facilities-related project management or facilities management functions for the University.*

#### **IX. ENVIRONMENTAL IMPACT REPORTS.**

*It shall be the policy of the University to assess the environmental, historic preservation, and conservation impacts of all capital projects and to minimize and otherwise mitigate all adverse impacts to the extent practicable. The University shall develop a procedure for the preparation and approval of environmental impact reports for capital projects, in accordance with State environmental, historic preservation, and conservation requirements generally applicable to capital projects otherwise meeting the definition of Major*

*C. Title and Survey.*

*A survey shall be prepared for any real property acquired, and an examination of title to the real property shall be conducted by a licensed attorney or, in the alternative, a commitment for title insurance shall be procured from a title insurance company authorized to do business in the Commonwealth. Based upon the survey and title examination or report, the President, acting through the Senior Vice President for Finance and Administration or other designee, shall conclude, prior to acquisition of the real property, that title thereto will be conveyed to the University in fee simple, free and clear of all liens, encumbrances, covenants, restrictions, easements or other matters that may have a significant adverse effect upon the University's ability to own, occupy, convey or develop the real property.*

*An appraisal shall be conducted of the real property to be acquired to determine its fair market value and the consistency of the fair market value with the price agreed upon by the University.*

*XII. BUILDING OR LAND DISPOSITIONS.*

*The Board of Visitors shall approve the disposition of any building or land. Disposition of land or buildings, the acquisition or construction of which was funded entirely or in part by a general fund appropriation of the General Assembly or proceeds from State Tax Supported Debt, shall require both Board of Visitors approval and other approvals in*

*accordance with general law applicable to State-owned property and with the University's Enabling Legislation.*

#### *XIII. PROJECT MANAGEMENT SYSTEMS.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall implement one or more systems for the management of capital projects for the University. The systems may include the delegation of project management authority to appropriate University officials, including a grant of authority to such officials to engage in further delegation of authority as the President, acting through the Senior Vice President for Finance and Administration or other designee, deems appropriate.*

*The project management systems for capital projects shall be designed to ensure that such projects comply with the provisions of this Policy and other Board of Visitors policies applicable to closely related subjects such as selection of architects or policies applicable to University buildings and grounds.*

*The project management systems may include one or more reporting systems applicable to capital projects whereby University officials responsible for the management of such projects provide appropriate and timely reports to the President, acting through the Senior Vice President for Finance and Administration or other designee, on the status of such projects during construction.*

#### *XIV. REPORTING REQUIREMENTS.*

*In addition to complying with any internal reporting systems contained in the University's project management systems, as described in Section XIII above, the University shall comply with State reporting requirements for those Major Capital Projects funded entirely or in part by a general fund appropriation by the General Assembly or State Tax Supported Debt. Additionally, if any capital project constructs improvements on land, or renovates property, that originally was acquired or constructed in whole or in part with a general fund appropriation for that purpose or proceeds from State Tax Supported Debt, and such improvements or renovations are undertaken entirely with funds not appropriated by the General Assembly and, if the cost of such improvements or renovations is reasonably expected to exceed \$2 million, the decision to undertake such improvements or renovations shall be communicated as required by subdivision C 3 of § [23-38.109](#) of the Act. ### *IV. GENERAL PROVISIONS.*

#### *A. Adoption of This Policy and Continued Applicability of Other Board of Visitors' Procurement Policies.*

*The University has had decentralization and pilot program autonomy in many procurement functions and activities since the Appropriation Act of 1994. The Act extends and reinforces the autonomy previously granted to the University in Item 330 E of the 1994 Appropriation Act. This Policy therefore is adopted by the Board of Visitors to*

*enable the University to develop a procurement system, as well as a surplus materials disposition system for the University as a whole. Any University electronic procurement system shall integrate or interface with the Commonwealth's electronic procurement system.*

*This Policy shall be effective on the Effective Date of the University's initial Management Agreement with the Commonwealth. *B. Scope and Purpose of University Procurement Policies.*

*This Policy shall apply to procurements of goods, services, insurance, and construction. It shall be the policy of the University that procurements conducted by the University result in the purchase of high quality goods and services at reasonable prices, and that the University be free, to the maximum extent permitted by law and this Policy, from constraining policies that hinder the ability of the University to do business in a competitive environment. This Policy, together with the Rules Governing Procurement of Goods, Services, Insurance, and Construction attached to this Policy as Attachment 1, shall apply to all procurements undertaken by the University, regardless of the source of funds.*

*C. Collaboration, Communication, and Cooperation with the Commonwealth.*

*The University is committed to developing, maintaining, and sustaining collaboration, communication, and cooperation with the Commonwealth regarding the matters addressed in this Policy, particularly with the Offices of the Secretaries of Administration and Technology, the Department of General Services, and the Virginia Information Technologies Agency. *D. Commitment to Statewide Contracts, Electronic Procurement, and SWAM Participation and Use.*

*The University is committed to maximizing its internal operational efficiencies, economies of scale among institutions of higher education, and the leveraged buying power of the Commonwealth as a whole.*

*Consistent with this commitment, the University:*

1. May purchase from and participate in all statewide contracts for goods and services, including information technology goods and services, except that the University shall purchase from and participate in contracts for communications services and telecommunications facilities entered into by the Virginia Information Technologies Agency pursuant to § [2.2-2011](#) of the Code of Virginia, unless an exception is provided in the Appropriation Act or by other law, and provided that orders not placed through statewide contracts shall be processed directly or by integration or interface through the Commonwealth's electronic procurement system;

To effect its implementation under the Act, and if the University remains in continued substantial compliance with the terms and conditions of this Management Agreement with the Commonwealth pursuant to subdivision D 4 of § [23-38.88](#) and the requirements of Chapter 4.10 of the Act, the University's procurement of goods, services, insurance, and construction, and the disposition of surplus materials shall be exempt from the Virginia Public Procurement Act, Chapter 43 (§ [2.2-4300](#) et seq.) of Title 2.2, except § [2.2-4342](#) and §§ [2.2-4367](#) through [2.2-4377](#); the oversight of the Virginia Information Technologies Agency, Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2; and the Information Technology Investment Board, Article 20 (§ [2.2-2457](#) et seq.) of Chapter 24 of Title 2.2; the state agency requirements regarding disposition of surplus materials and distribution of proceeds from the sale or recycling of surplus materials in §§ [2.2-1124](#) and [2.2-1125](#); the requirement to purchase from the Department for the Blind and Vision Impaired (DBVI) (§ [2.2-1117](#)); and any other state statutes, rules, regulations or requirements relating to the procurement of goods, services, insurance, and construction, including but not limited to Article 3 (§ [2.2-1109](#) et seq.) of Chapter 11 of Title 2.2, regarding the duties, responsibilities and authority of the Division of Purchases and Supply of the Virginia Department of General Services, and Article 4 (§ [2.2-1129](#) et seq.) of Chapter 11 of Title 2.2 of the Code of Virginia, regarding the review and the oversight by the Division of Engineering and Buildings of the Virginia Department of General Services of contracts for the construction of University capital projects and construction-related professional services (§ [2.2-1132](#)).

*V. UNIVERSITY PROCUREMENT POLICIES.*

*A. General Competitive Principles.*

*In connection with University procurements and the processes leading to award of contracts for goods, services, insurance, construction, and professional services, the University is committed to:*

*Seeking competition to the maximum practical degree, taking into account the size of the anticipated procurement, the term of the resulting contract and the likely extent of competition;*

*Conducting all procurements in an open, fair and impartial manner and avoiding any impropriety or the appearance of any impropriety;*

*Making procurement rules clear in advance of any competition;*

*Providing access to the University's business to all qualified vendors, firms and contractors, with no potential bidder or offeror excluded arbitrarily or capriciously, while allowing the flexibility to engage in cooperative procurements and to meet special needs of the University;*

*Ensuring that specifications for purchases are fairly drawn so as not to favor unduly a particular vendor; and*

*Providing for the free exchange of information between the University, vendors, firms or contractors concerning the goods or services sought and offered while preserving the confidentiality of proprietary information.*

*B. Access to Records.*

*Procurement records shall be available to citizens or to interested persons, firms or corporations in accordance with the provisions of the Virginia Freedom of Information Act, Chapter 37 (§ [2.2-3700](#) et seq.) of Title 2.2 of the Code of Virginia, except those records exempt from disclosure pursuant to subdivision 7 or 12 of § [2.2-3705.1](#) or subdivision 4 of § [2.2-3705.4](#), or other applicable exemptions of the Virginia Freedom of Information Act, and § [2.2-4342](#) of the Virginia Public Procurement Act.*

*C. Cooperative Procurements and Alliances.*

*In circumstances where the University determines and documents that statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to the University that meet its business goals and objectives, the University is authorized to participate in cooperative procurements with other public or private organizations or entities, including other educational institutions, public-private partnerships, public bodies, charitable organizations, health care provider alliances and purchasing organizations, so long as the resulting contracts are procured competitively pursuant to subsections A through J of § 5 of the Rules Governing Procurement of Goods, Services, Insurance, and Construction*

*attached to this Policy as Attachment 1 and the purposes of this Policy will be furthered. In the event the University engages in a cooperative contract with a private organization or public-private partnership and the contract was not competitively procured pursuant to subsections A through J of § 5 of the Rules Governing Procurement of Goods, Services, Insurance, and Construction attached to this Policy as Attachment 1, use of the contract by other state agencies, institutions and public bodies shall be prohibited. Notwithstanding all of the above, use of cooperative contracts shall conform to the business requirements of the Commonwealth's electronic procurement system, including the requirement for payment of applicable fees. By October 1 of each year, the President, acting through the Senior Vice President for Finance and Administration or other designee, shall make available to the Secretaries of Administration and Technology, the Joint Legislative Audit and Review Commission, and the Auditor of Public Accounts a list of all cooperative contracts and alliances entered into or used during the prior fiscal year.*

*D. Training; Ethics in Contracting.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall take all necessary and reasonable steps to assure (i) that all University officials responsible for and engaged in procurements authorized by the Act and this Policy are knowledgeable regarding the requirements of the Act, this Policy, and the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of the Code of Virginia, (ii) that only officials authorized by this Policy and any procedures adopted by the President, acting through the Senior Vice President for Finance and Administration or other designee, to implement this Policy are responsible for and engaged in such procurements, and (iii) that compliance with the Act and this Policy are achieved.*

*The University shall maintain an ongoing program to provide professional development opportunities to its buying staff and to provide methods training to internal staff who are engaged in placing decentralized small purchase transactions.*

*E. Ethics and University Procurements.*

*In implementing the authority conferred by this Policy, the personnel administering any procurement shall adhere to the following provisions of the Code of Virginia: the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2, the State and Local Government Conflict of Interests Act, Chapter 31 (§ [2.2-3100](#) et seq.) of Title 2.2, and the Virginia Governmental Frauds Act, Article 1.1 (§ [18.2-498.1](#) et seq.) of Chapter 12 of Title 18.2 of the Code of Virginia.*

The President, acting through the Senior Vice President for Finance and Administration or other designee, shall adopt one or more comprehensive sets of specific procurement policies and procedures for the University, which, in addition to the Rules, implement applicable provisions of law and this Policy. University procurements shall be carried out in accordance with this Policy, the Rules, and any implementing policies and procedures adopted by the University. The implementing policies and procedures (i) shall include the delegation of procurement authority by the Board to appropriate University officials who shall oversee University procurements of goods, services, insurance, and construction, including a grant of authority to such officials to engage in further delegation of authority as the President deems appropriate, and (ii) shall remain consistent with the competitive principles set forth in Part V above.*

*B. Any implementing policies and procedures adopted pursuant to subsection A above and the Rules shall become effective on the Effective Date of the University's initial Management Agreement with the Commonwealth, and, as of their effective date, shall be applicable to all procurements undertaken by the University on behalf of the University for goods, services, insurance, and construction. This Policy, the Rules, and any implementing policies and procedures adopted by the University shall not affect existing contracts already in effect.*

*C. The Rules and University implementing policies and procedures for all University procurements of goods, services, insurance, and construction, and the disposition of surplus property shall be substantially consistent with the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and their Vendors in their form as of the effective date of this Policy and as amended or changed in the future, and with University procedures specific to the Acquisition of Goods and Services. The Rules and University implementing policies and procedures shall implement a system of competitive negotiation, and competitive sealed bidding when appropriate, for goods, services, including professional services as defined in the Rules, insurance, and construction.*

**VIII. REQUIREMENTS FOR RULES AND IMPLEMENTING POLICIES AND PROCEDURES.**

*A. Protests, Appeals and Debarment.*

*The Rules and University implementing policies and procedures for procurements other than capital outlay shall include a process or processes for an administrative appeal by vendors, firms or contractors. Protests and appeals may challenge determinations of vendor, firm or contractor non-responsibility or ineligibility, or the award of contracts, provided that such protests and appeals are filed within the times specified by the Rules. Remedies available shall be limited to reversal of the action challenged or, where a contract already being performed is declared void, compensation for the cost of performance up to the time of such declaration. The Rules and University implementing policies and procedures also may establish the basis and process for debarment of any vendor, firm or contractor.*

*B. Prompt Payment of Contractors and Subcontractors.*

*The Rules and University implementing policies and procedures shall include provisions related to prompt payment of outstanding invoices, which shall include payment of interest on properly-presented invoices outstanding more than seven (7) days beyond the payment date, at a rate no higher than the lowest prime rate charged by any commercial bank as published in the Wall Street Journal. The payment date shall be the later of thirty (30) days from the date of the receipt of goods or invoice, or the date established by the contract. All contracts also shall require prompt payment of subcontractors by the general contractor, upon receipt of payment by the University.*

*C. Types of Procurements.*

*The Rules and University implementing policies and procedures shall implement a system of competitive negotiation for professional services, as defined in the Rules, and shall implement purchasing procedures developed to maximize competition given the size and duration of the contract, and the needs of the University. Such policies and procedures may include special provisions for procurements such as emergency procurements, sole source procurements, brand name procurements, small purchases, procurements in which only one qualified vendor responds, and others.*

*D. Approval and Public Notice of Procurements.*

*The Rules and University implementing policies and procedures shall provide for approval of solicitation documents by an authorized individual and for reasonable public notice of procurements, given the size and nature of the need and the applicability of any Virginia Freedom of Information Act exemption.*

*E. Administration of Contracts.*

*The Rules and University implementing policies and procedures shall contain provisions related to the administration of contracts, including contract claims, modifications, extensions and assignments.*

*F. Non-Discrimination.*

*The Rules and University implementing policies and procedures shall provide for a non-discriminatory procurement process that prohibits discrimination because of race, religion, color, sex or national origin of the bidder or offeror in the solicitation and award of contracts; and shall include appropriate provisions to effectuate fair and reasonable consideration of women-owned, minority-owned and small businesses and to promote and encourage a diversity of suppliers.*

Restructured Higher Education Financial and Administrative Operations Act,  
Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia*

*In accordance with the provisions of the Restructured Higher Education Financial and Administrative Operations Act (the Act), Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia, and in particular § [23-38.110](#) of the Act, the governing body of a public institution of higher education of the Commonwealth of Virginia that has entered into a Management Agreement with the Commonwealth pursuant to Subchapter 3 of the Act has adopted the following Rules Governing Procurement of Goods, Services, Insurance, and Construction to govern the procurement of goods, services, insurance, and construction by the Institution:*

*§ 1. Purpose.*

*The purpose of these Rules is to enunciate the public policies pertaining to procurement of goods, services, insurance, and construction by the Institution from nongovernmental sources, to include governmental procurement that may or may not result in monetary consideration for either party. These Rules shall apply whether the consideration is monetary or nonmonetary and regardless of whether the Institution, the contractor, or some third party is providing the consideration.*

*§ 2. Scope of Procurement Authority.*

*Subject to these Rules, and the Institution's continued substantial compliance with the terms and conditions of its Management Agreement with the Commonwealth pursuant to*

*subdivision D 4 of § [23-38.88](#) and the requirements of Chapter 4.10 of the Act, the Institution shall have and shall be authorized to have and exercise all of the authority relating to procurement of goods, services, insurance, and construction, including but not limited to capital outlay-related procurement and information technology-related procurement, that Institutions are authorized to exercise pursuant to Subchapter 3 of the Restructuring Act.*

*§ 3. Competition is the Priority.*

*To the end that the Institution shall obtain high quality goods and services at reasonable cost, that all procurement procedures be conducted in an open, fair and impartial manner with avoidance of any impropriety or appearance of impropriety, that all qualified vendors have access to the Institution's business and that no offeror be arbitrarily or capriciously excluded, it is the intent of the governing body of the Institution that competition be sought to the maximum feasible degree, that procurement procedures involve openness and administrative efficiency, that individual public bodies enjoy broad flexibility in fashioning details of such competition, that the rules governing contract awards be made clear in advance of the competition, that specifications reflect the procurement needs of the purchasing body rather than being drawn to favor a particular vendor, and that the purchaser and vendor freely exchange information concerning what is sought to be procured and what is offered. The Institution may consider best value concepts when procuring goods and nonprofessional services, but not construction or professional services. Professional services will be procured using a qualification-based selection process. The criteria, factors, and basis for consideration of best value and the process for the consideration of best value shall be as stated in the procurement solicitation.*

*§ 4. Definitions.*

*As used in these Rules:*

*"Affiliate" means an individual or business that controls, is controlled by, or is under common control with another individual or business. A person controls an entity if the person owns, directly or indirectly, more than 10 percent of the voting securities of the entity. For the purposes of this definition "voting security" means a security that (i) confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business or (ii) is convertible into, or entitles the holder to receive, upon its exercise, a security that confers such a right to vote. A general partnership interest shall be deemed to be a voting security.*

*"Best value," as predetermined in the solicitation, means the overall combination of quality, price, and various elements of required services that in total are optimal relative to the Institution's needs.*

*"Business" means any type of corporation, partnership, limited liability company, association, or sole proprietorship operated for profit.*

*"Competitive negotiation" is a method of contractor selection that includes the following elements:*

- 1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities or qualifications that will be required of the contractor.*
- 2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by publication in a newspaper or newspapers of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Public notice also shall be published on the Department of General Services' central electronic procurement website and may be published on other appropriate websites. In addition, proposals may be solicited directly from potential contractors.*
- 3. a. Procurement of professional services. The procurement of professional services for capital projects shall be conducted using a qualification-based selection process. The Institution shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or costs for services. At the discussion stage, the Institution may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. Proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the Institution shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the Institution can be negotiated at a price considered fair and reasonable, the award shall be made to*

*that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price. Should the Institution determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.*

*A contract for architectural or professional engineering services relating to construction projects may be negotiated by the Institution for multiple projects provided (i) the projects require similar experience and expertise, and (ii) the nature of the projects is clearly identified in the Request for Proposal. Under such contract, (a) the fair and reasonable prices, as negotiated, shall be used in determining the cost of each project performed; (b) the sum of all projects performed in one contract term shall be as set in the Request for Proposal; and (c) the project fee of any single project shall not exceed the term limit as set in the Request for Proposal. Any unused amounts from any contract term may be carried forward. Competitive negotiations for such contracts may result in awards to more than one offeror provided the Request for Proposal stated the potential for a multi-vendor award.*

*Multiphase professional services contracts satisfactory and advantageous to the Institution for environmental, location, design and inspection work regarding construction of infrastructure projects may be negotiated and awarded based on qualifications at a fair and reasonable price for the first phase only, when completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to the procurement of any such contract, the Institution shall state the anticipated intended total scope of the project and determine in writing that the nature of the work is such that the best interests of such Institution require awarding the contract.*

*b. Procurement of other than professional services. Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. Negotiations shall then be conducted with each of the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the Institution shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror.*

*Should the Institution determine in writing and in its sole discretion that only one offeror has made the best proposal, a contract may be negotiated and awarded to that offeror.*

*"Competitive sealed bidding" is a method of contractor selection, other than for professional services, which includes the following elements:*

*1. Issuance of a written Invitation to Bid containing or incorporating by reference the specifications and contractual terms and conditions applicable to the procurement. Unless the Institution has provided for prequalification of bidders, the Invitation to Bid shall include a statement of any requisite qualifications of potential contractors. When it is impractical to prepare initially a purchase description to support an award based on prices, an Invitation to Bid may be issued requesting the submission of unpriced offers to be followed by an Invitation to Bid limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.*

*2. Public notice of the Invitation to Bid at least 10 days prior to the date set for receipt of bids by publication on the Department of General Services' central electronic procurement website. Public notice also may be published in a newspaper of general circulation or on other appropriate websites, or both. In addition, bids may be solicited directly from potential contractors. Any additional solicitations shall include businesses selected from a list made available by the Department of Minority Business Enterprise.*

*3. Public opening and announcement of all bids received.*

*4. Evaluation of bids based upon the requirements set forth in the invitation, which may include special qualifications of potential contractors, life-cycle costing, value analysis, and any other criteria such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose, which are helpful in determining acceptability.*

*5. Award to the lowest responsive and responsible bidder. When the terms and conditions of multiple awards are so provided in the Invitation to Bid, awards may be made to more than one bidder.*

*"Construction" means building, altering, repairing, improving or demolishing any structure, building or highway, and any draining, dredging, excavation, grading or similar work upon real property.*

*"Construction management contract" means a contract in which a party is retained by the owner to coordinate and administer contracts for construction services for the benefit of the owner, and may also include, if provided in the contract, the furnishing of construction services to the owner.*

*"Covered Institution" or "Institution" means, on and after the effective date of the initial management agreement with the Commonwealth of Virginia, a public institution of higher education of the Commonwealth that has entered into a management agreement*

*with the Commonwealth to be governed by the provisions of Subchapter 3 of the Restructuring Act.*

*"Design-build contract" means a contract between the Institution and another party in which the party contracting with the Institution agrees to both design and build the structure, roadway or other item specified in the contract.*

*"Goods" means all material, equipment, supplies, and printing, including information technology and telecommunications goods such as automated data processing hardware and software.*

*"Informality" means a minor defect or variation of a bid or proposal from the exact requirements of the Invitation to Bid, or the Request for Proposal, which does not affect the price, quality, quantity or delivery schedule for the goods, services or construction being procured.*

*"Multiphase professional services contract" means a contract for the providing of professional services where the total scope of work of the second or subsequent phase of the contract cannot be specified without the results of the first or prior phase of the contract.*

*"Nonprofessional services" means any services not specifically identified as professional services in the definition of professional services and includes small construction projects valued not over \$1 million; provided that subdivision 3 a of the definition of "competitive negotiation" in this section shall still apply to professional services for such small construction projects.*

*"Potential bidder or offeror" for the purposes of §§ 50 and 54 of these Rules means a person who, at the time the Institution negotiates and awards or proposes to award a contract, is engaged in the sale or lease of goods, or the sale of services, insurance or construction, of the type to be procured under the contract, and who at such time is eligible and qualified in all respects to perform that contract, and who would have been eligible and qualified to submit a bid or proposal had the contract been procured through competitive sealed bidding or competitive negotiation.*

*"Professional services" means work performed by an independent contractor within the scope of the practice of accounting, actuarial services, architecture, land surveying, landscape architecture, law, dentistry, medicine, optometry, pharmacy or professional engineering.*

*"Public body" means any legislative, executive or judicial body, agency, office, department, authority, post, commission, committee, institution, board or political subdivision created by law to exercise some sovereign power or to perform some governmental duty, and empowered by law to undertake the activities described in these Rules.*

*"Public contract" means an agreement between the Institution and a nongovernmental source that is enforceable in a court of law.*

*"Responsible bidder" or "responsible offeror" means a person who has the capability, in all respects, to perform fully the contract requirements and the moral and business integrity and reliability that will assure good faith performance, and who has been pre-qualified, if required.*

*"Responsive bidder" means a person who has submitted a bid that conforms in all material respects to the Invitation to Bid.*

*"Restructuring Act" or "Act" means the Restructured Higher Education Financial and Administrative Operations Act, Chapter 4.10 (§ [23-38.88](#) et seq.) of Title 23 of the Code of Virginia.*

*"Reverse auctioning" means a procurement method wherein bidders are invited to bid on specified goods or nonprofessional services through real-time electronic bidding, with the award being made to the lowest responsive and responsible bidder. During the bidding process, bidders' prices are revealed and bidders shall have the opportunity to modify their bid prices for the duration of the time period established for bid opening.*

*"Rules" means these Rules Governing Procurement of Goods, Services, Insurance, and Construction adopted by the governing body of the Covered Institution.*

*"Services" means any work performed by an independent contractor wherein the service rendered does not consist primarily of acquisition of equipment or materials, or the rental of equipment, materials and supplies.*

*"Sheltered workshop" means a work-oriented rehabilitative facility with a controlled working environment and individual goals that utilizes work experience and related services for assisting the handicapped person to progress toward normal living and a productive vocational status.*

*§ 5. Methods of procurement.*

*A. All public contracts with nongovernmental contractors for the purchase or lease of goods, or for the purchase of services, insurance, or construction, shall be awarded after competitive sealed bidding, or competitive negotiation as provided in this section, unless otherwise authorized by law.*

*B. Professional services shall be procured by competitive negotiation. Qualification-based selection shall be used for design services.*

*C. Goods, services, or insurance may be procured by competitive negotiation.*

*D. Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances upon a determination made in advance by the Institution and set forth in writing that competitive sealed bidding is*

*either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination:*

*1. By the Institution on a fixed price design-build basis or construction management basis under § 7;*

*2. By the Institution for the construction, alteration, repair, renovation or demolition of buildings; or*

*3. By the Institution for the construction of highways and any draining, dredging, excavation, grading or similar work upon real property.*

*E. Upon a determination in writing that there is only one source practicably available for that which is to be procured, a contract may be negotiated and awarded to that source without competitive sealed bidding or competitive negotiation. The writing shall document the basis for this determination. The Institution shall issue a written notice stating that only one source was determined to be practicably available, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area, which may be the Department of General Services' website for the Commonwealth's central electronic procurement system, or published in a newspaper of general circulation on the day the Institution awards or announces its decision to award the contract, whichever occurs first. Public notice shall also be published on the Department of General Services' website for the Commonwealth's central electronic procurement system and may be published on other appropriate websites.*

*F. In case of emergency, a contract may be awarded without competitive sealed bidding or competitive negotiation; however, such procurement shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The Institution shall issue a written notice stating that the contract is being awarded on an emergency basis, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area, which may be the Department of General Services' website for the Commonwealth's central electronic procurement system, or published in a newspaper of general circulation on the day the Institution awards or announces its decision to award the contract, whichever occurs first, or as soon thereafter as is practicable. Public notice may also be published on the Department of General Services' website for the Commonwealth's central electronic procurement system and other appropriate websites.*

*G. The Institution may establish purchase procedures, if adopted in writing, not requiring competitive sealed bids or competitive negotiation for single or term contracts for goods and services other than professional services if the aggregate or the sum of all phases is not expected to exceed \$50,000; however, such small purchase procedures shall provide for competition wherever practicable.*

*H. The Institution may establish purchase procedures, if adopted in writing, not requiring competitive negotiation for single or term contracts for professional services if the aggregate or the sum of all phases is not expected to exceed \$50,000; however such small purchase procedures shall provide for competition wherever practicable.*

*I. Upon a determination made in advance by the Institution and set forth in writing that the purchase of goods, products or commodities from a public auction sale is in the best interests of the public, such items may be purchased at the auction, including online public auctions. The writing shall document the basis for this determination.*

*J. The purchase of goods or nonprofessional services, but not construction or professional services, may be made by reverse auctioning.*

*§ 6. Cooperative procurement.*

*A. In circumstances where the Institution determines and documents that statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to the Institution that meet its business goals and objectives, the Institution is authorized to participate in, sponsor, conduct, or administer a cooperative procurement arrangement on behalf of or in conjunction with public bodies, public or private health or educational institutions, other public or private organizations or entities, including public-private partnerships, charitable organizations, health care provider alliances or purchasing organizations or entities, or with public agencies or institutions or group purchasing organizations of the several states, territories of the United States, or the District of Columbia, for the purpose of combining requirements to effect cost savings or reduce administrative expense in any acquisition of goods and services, other than professional services. The Institution may purchase from any authority, department, agency, institution, city, county, town, or other political subdivision of the Commonwealth's contract even if it did not participate in the request for proposal or invitation to bid, if the request for proposal or invitation to bid specified that the procurement was being conducted on behalf of other public bodies. In such instances, deviation from the procurement procedures set forth in these Rules and the administrative policies and procedures established to implement these Rules shall be permitted. Notwithstanding all of the above, use of cooperative contracts shall conform to the business requirements of the Commonwealth's electronic procurement*

*system, including the requirement for payment of applicable fees. Nothing herein shall prohibit the payment by direct or indirect means of any administrative fee that will allow for participation in any such arrangement.*

*B. In circumstances where statewide contracts for goods and services, including information technology and telecommunications goods and services, do not provide goods and services to meet the Institution's business goals and objectives, and as authorized by the United States Congress and consistent with applicable federal regulations, and provided the terms of the contract permit such purchases:*

- 1. The Institution may purchase goods and nonprofessional services, from a United States General Services Administration contract or a contract awarded by any other agency of the United States government; and*
- 2. The Institution may purchase telecommunications and information technology goods and nonprofessional services from a United States General Services Administration contract or a contract awarded by any other agency of the United States government.*

*§ 7. Design-build or construction management contracts authorized.*

*A. Notwithstanding any other provisions of law, the Institution may enter into contracts on a fixed price design-build basis or construction management basis in accordance with the provisions of this section.*

*B. Procurement of construction by the design-build or construction management method shall be a two-step competitive negotiation process. In the first step, offerors shall be requested to submit their qualifications. Based upon the information submitted and any other relevant information which the Commonwealth may obtain, no more than five offerors deemed most suitable for the project shall be selected by the Commonwealth and requested to submit proposals.*

*§ 8. Modification of the contract.*

*A. A contract awarded by the Institution may include provisions for modification of the contract during performance, but no fixed-price contract may be increased by more than 25 percent of the amount of the contract or \$50,000, whichever is greater, without the advance written approval of the Institution's president or his designee. In no event may the amount of any contract, without adequate consideration, be increased for any purpose, including, but not limited to, relief of an offeror from the consequences of an error in its bid or offer.*

*B. The Institution may extend the term of an existing contract for services to allow completion of any work undertaken but not completed during the original term of the contract.*

*C. Nothing in this section shall prevent the Institution from placing greater restrictions on contract modifications.*

*§ 9. Discrimination prohibited; participation of small, women- and minority-owned business.*

*A. In the solicitation or awarding of contracts, the Institution shall not discriminate against a bidder or offeror because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment.*

*Whenever solicitations are made, the Institution shall include businesses selected from a list made available by the Department of Minority Business Enterprise.*

*B. The Institution shall establish programs consistent with this section to facilitate the participation of small businesses and businesses owned by women and minorities in procurement transactions. The programs established shall be in writing and shall include cooperation with the Department of Minority Business Enterprise, the United States Small Business Administration, and other public or private agencies. The Institution shall submit annual progress reports on minority business procurement to the Department of Minority Business Enterprise.*

*C. Whenever there exists (i) a rational basis for small business enhancement or (ii) a persuasive analysis that documents a statistically significant disparity between the availability and utilization of women- and minority-owned businesses, the Governor is by law authorized and encouraged to require the Institution to implement appropriate enhancement or remedial measures consistent with prevailing law.*

*D. In the solicitation or awarding of contracts, the Institution shall not discriminate against a bidder or offeror because the bidder or offeror employs ex-offenders unless it has made a written determination that employing ex-offenders on the specific contract is not in its best interest.*

*§ 10. Employment discrimination by contractor prohibited; required contract provisions. The Institution shall include in every contract of more than \$10,000 the following provisions:*

*1. During the performance of this contract, the contractor agrees as follows:*

*a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.*

*b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.*

*c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.*

*2. The contractor will include the provisions of the foregoing paragraphs a, b, and c in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.*

*§ 11. Drug-free workplace to be maintained by contractor; required contract provisions. The Institution shall include in every contract over \$10,000 the following provisions: During the performance of this contract, the contractor agrees to (i) provide a drug-free workplace for the contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the contractor that the contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.*

*For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a contractor in accordance with these Rules, the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.*

*§ 12. Use of brand names.*

*Unless otherwise provided in the Invitation to Bid, the name of a certain brand, make or manufacturer shall not restrict bidders to the specific brand, make or manufacturer named and shall be deemed to convey the general style, type, character, and quality of the article desired. Any article that the Institution in its sole discretion determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted.*

*§ 13. Comments concerning specifications.*

*The Institution shall establish procedures whereby comments concerning specifications or other provisions in Invitations to Bid or Requests for Proposal can be received and considered prior to the time set for receipt of bids or proposals or award of the contract.*

*§ 14. Prequalification generally; prequalification for construction.*

*A. Prospective contractors may be prequalified for particular types of supplies, services, insurance or construction, and consideration of bids or proposals limited to prequalified contractors. Any prequalification procedure shall be established in writing and sufficiently in advance of its implementation to allow potential contractors a fair opportunity to complete the process.*

*B. Any prequalification of prospective contractors for construction by the Institution shall be pursuant to a prequalification process for construction projects adopted by the Institution. The process shall be consistent with the provisions of this section.*

*The application form used in such process shall set forth the criteria upon which the qualifications of prospective contractors will be evaluated. The application form shall request of prospective contractors only such information as is appropriate for an objective evaluation of all prospective contractors pursuant to such criteria. The form shall allow the prospective contractor seeking prequalification to request, by checking the appropriate box, that all information voluntarily submitted by the contractor pursuant to this subsection shall be considered a trade secret or proprietary information subject to the provisions of subsection D of § 34 of these Rules.*

*In all instances in which the Institution requires prequalification of potential contractors for construction projects, advance notice shall be given of the deadline for the submission of prequalification applications. The deadline for submission shall be sufficiently in advance of the date set for the submission of bids for such construction so as to allow the procedures set forth in this subsection to be accomplished.*

*At least 30 days prior to the date established for submission of bids or proposals under the procurement of the contract for which the prequalification applies, the Institution shall advise in writing each contractor who submitted an application whether that contractor has been prequalified. In the event that a contractor is denied prequalification, the written notification to the contractor shall state the reasons for the denial of prequalification and the factual basis of such reasons.*

*A decision by the Institution denying prequalification under the provisions of this subsection shall be final and conclusive unless the contractor appeals the decision as provided in § 54 of these Rules.*

*C. The Institution may deny prequalification to any contractor only if the Institution finds one of the following:*

*1. The contractor does not have sufficient financial ability to perform the contract that would result from such procurement. If a bond is required to ensure performance of a contract, evidence that the contractor can acquire a surety bond from a corporation included on the United States Treasury list of acceptable surety corporations in the amount and*

*type required by the Institution shall be sufficient to establish the financial ability of the contractor to perform the contract resulting from such procurement;*

*2. The contractor does not have appropriate experience to perform the construction project in question;*

*3. The contractor or any officer, director or owner thereof has had judgments entered against him within the past 10 years for the breach of contracts for governmental or non-governmental construction, including, but not limited to, design-build or construction management;*

*4. The contractor has been in substantial noncompliance with the terms and conditions of prior construction contracts with the Institution without good cause. If the Institution has not contracted with a contractor in any prior construction contracts, the Institution may deny prequalification if the contractor has been in substantial noncompliance with the terms and conditions of comparable construction contracts with another public body without good cause. The Institution may not utilize this provision to deny prequalification unless the facts underlying such substantial noncompliance were documented in writing in the prior construction project file and such information relating thereto given to the contractor at that time, with the opportunity to respond;*

*5. The contractor or any officer, director, owner, project manager, procurement manager or chief financial official thereof has been convicted within the past 10 years of a crime related to governmental or nongovernmental construction or contracting, including, but not limited to, a violation of (i) Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of the Code of Virginia, (ii) the Virginia Governmental Frauds Act (§ [18.2-498.1](#) et seq.) of the Code of Virginia, (iii) Chapter 4.2 (§ [59.1-68.6](#) et seq.) of Title 59.1 of the Code of Virginia, or (iv) any substantially similar law of the United States or another state;*

*6. The contractor or any officer, director or owner thereof is currently debarred pursuant to an established debarment procedure from bidding or contracting by any public body, agency of another state or agency of the federal government;*

*7. The contractor failed to provide to the Institution in a timely manner any information requested by the Institution relevant to subdivisions 1 through 6 of this subsection.*

*§ 15. Negotiation with lowest responsible bidder.*

*Unless canceled or rejected, a responsive bid from the lowest responsible bidder shall be accepted as submitted, except that if the bid from the lowest responsible bidder exceeds available funds, the Institution may negotiate with the apparent low bidder to obtain a contract price within available funds. However, the negotiation may be undertaken only under conditions and procedures described in writing and approved by the Institution prior to issuance of the Invitation to Bid and summarized therein.*

*§ 16. Cancellation, rejection of bids; waiver of informalities.*

*A. An Invitation to Bid, a Request for Proposal, any other solicitation, or any and all bids or proposals, may be canceled or rejected. The reasons for cancellation or rejection shall be made part of the contract file. The Institution shall not cancel or reject an Invitation to Bid, a Request for Proposal, any other solicitation, bid or proposal pursuant to this section solely to avoid awarding a contract to a particular responsive and responsible bidder or offeror.*

*B. The Institution may waive informalities in bids.*

*§ 17. Exclusion of insurance bids prohibited.*

*Notwithstanding any other provision of law, no insurer licensed to transact the business of insurance in the Commonwealth or approved to issue surplus lines insurance in the Commonwealth shall be excluded from presenting an insurance bid proposal to the Institution in response to a request for proposal or an invitation to bid. Nothing in this section shall preclude the Institution from debarring a prospective insurer pursuant to § 18.*

*§ 18. Debarment.*

*Prospective contractors may be debarred from contracting for particular types of supplies, services, insurance or construction, for specified periods of time. Any debarment procedure shall be established in writing by the Institution. Any debarment procedure may provide for debarment on the basis of a contractor's unsatisfactory performance for the Institution.*

*§ 19. Purchase programs for recycled goods; Institution responsibilities.*

*A. The Institution may implement a purchase program for recycled goods and may coordinate its efforts so as to achieve the goals and objectives set forth in §§ [10.1-1425.6](#), [10.1-1425.7](#), and [10.1-1425.8](#) of the Code of Virginia, and §§ 20 and 22 of these Rules.*

*B. The Department of Environmental Quality, with advice from the Virginia Recycling Markets Development Council, shall advise the Institution concerning the designation of recycled goods.*

*§ 20. Preference for Virginia products with recycled content and for Virginia firms.*

*A. In the case of a tie bid, preference shall be given to goods produced in Virginia and goods or services or construction provided by Virginia persons, firms or corporations; otherwise the tie shall be decided by lot.*

*B. Whenever any bidder is a resident of any other state and such state under its laws allows a resident contractor of that state a preference, a like preference may be allowed by the Institution to the lowest responsive and responsible bidder who is a resident of Virginia.*

*C. Notwithstanding the provisions of subsections A and B, in the case of a tie bid in instances where goods are being offered, and existing price preferences have already been taken into account, preference shall be given to the bidder whose goods contain the greatest amount of recycled content.*

*§ 21. Preference for Virginia coal used in the Institution.*

*In determining the award of any contract for coal to be purchased for use in the Institution with state funds, the Institution shall procure using competitive sealed bidding and shall award to the lowest responsive and responsible bidder offering coal mined in Virginia so long as its bid price is not more than 4 percent greater than the bid price of the lowest responsive and responsible bidder offering coal mined elsewhere.*

*§ 22. Preference for recycled paper and paper products used by the Institution.*

*A. In determining the award of any contract for paper and paper products to be purchased for use by the Institution, it shall competitively procure recycled paper and paper products of a quality suitable for the purpose intended, so long as the price is not more than 10 percent greater than the price of the lowest responsive and responsible bidder or offeror offering a product that does not qualify under subsection B.*

*B. For purposes of this section, recycled paper and paper products means any paper or paper products meeting the EPA Recommended Content Standards as defined in 40 C.F.R. Part 247.*

*§ 23. Withdrawal of bid due to error.*

*A. A bidder for a public construction contract, other than a contract for construction or maintenance of public highways, may withdraw his bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake in the bid, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake, and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.*

*If a bid contains both clerical and judgment mistakes, a bidder may withdraw his bid from consideration if the price bid would have been substantially lower than the other bids due solely to the clerical mistake, that was an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid that shall be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.*

*One of the following procedures for withdrawal of a bid shall be selected by the Institution and stated in the advertisement for bids: (i) the bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice; or (ii) the bidder shall submit to the Institution or designated official his original work papers, documents and materials used in the preparation of the bid within one day after the date fixed for submission of bids. The work papers shall be delivered by the bidder in person or by registered mail at or prior to the time fixed for the opening of bids. In either instance, the work papers, documents and materials may be considered as trade secrets or proprietary information subject to the conditions of subsection F of § 34 of these Rules. The bids shall be opened one day following the time fixed by the Institution for the submission of bids. Thereafter, the bidder shall have two hours after the opening of bids within which to claim in writing any mistake as defined herein and withdraw his bid. The contract shall not be awarded by the Institution until the two-hour period has elapsed. The mistake shall be proved only from the original work papers, documents and materials delivered as required herein.*

*B. The Institution may establish procedures for the withdrawal of bids for other than construction contracts.*

*C. No bid shall be withdrawn under this section when the result would be the awarding of the contract on another bid of the same bidder or of another bidder in which the ownership of the withdrawing bidder is more than 5 percent.*

*D. If a bid is withdrawn in accordance with this section, the lowest remaining bid shall be deemed to be the low bid.*

*E. No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to or perform any subcontract or other work agreement for the person or firm to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.*

*F. If the Institution denies the withdrawal of a bid under the provisions of this section, it shall notify the bidder in writing stating the reasons for its decision and award the contract to such bidder at the bid price, provided such bidder is a responsible and responsive bidder.*

#### *§ 24. Contract Pricing Arrangements.*

*A. Public contracts may be awarded on a fixed price or cost reimbursement basis, or on any other basis that is not prohibited by these Rules.*

*B. Except in case of emergency affecting the public health, safety or welfare, no public contract shall be awarded on the basis of cost plus a percentage of cost.*

*C. A policy or contract of insurance or prepaid coverage having a premium computed on the basis of claims paid or incurred, plus the insurance carrier's administrative costs and retention stated in whole or part as a percentage of such claims, shall not be prohibited by this section.*

*§ 25. Workers' compensation requirements for construction contractors and sub-contractors.*

*A. No contractor shall perform any work on a construction project of the Institution unless he (i) has obtained, and continues to maintain for the duration of the work, workers' compensation coverage required pursuant to the provisions of Chapter 8 (§ [65.2-800](#) et seq.) of Title 65.2 of the Code of Virginia, and (ii) provides prior to the award of contract, on a form furnished by the Institution, evidence of such coverage.*

*B. The Department of General Services shall provide the form to the Institution. Failure of the Institution to provide the form prior to the award of contract shall waive the requirements of clause (ii) of subsection A.*

*C. No subcontractor shall perform any work on a construction project of the Institution unless he has obtained, and continues to maintain for the duration of such work, workers' compensation coverage required pursuant to the provisions of Chapter 8 (§ [65.2-800](#) et seq.) of Title 65.2 of the Code of Virginia.*

*§ 26. Retainage on construction contracts.*

*A. In any contract issued by the Institution for construction that provides for progress payments in installments based upon an estimated percentage of completion, the contractor shall be paid at least 95 percent of the earned sum when payment is due, with no more than 5 percent being retained to ensure faithful performance of the contract. All amounts withheld may be included in the final payment.*

*B. Any subcontract for a public project that provides for similar progress payments shall be subject to the provisions of this section.*

*§ 27. Public construction contract provisions barring damages for unreasonable delays declared void.*

*A. Any provision contained in any public construction contract of the Institution that purports to waive, release, or extinguish the rights of a contractor to recover costs or damages for unreasonable delay in performing such contract, either on his behalf or on behalf of his subcontractor if and to the extent the delay is caused by acts or omissions of the Institution, its agents or employees and due to causes within their control shall be void and unenforceable as against public policy.*

*B. Subsection A shall not be construed to render void any provision of a public construction contract awarded by the Institution that:*

1. Allows the recovery of that portion of delay costs caused by the acts or omissions of the contractor, or its subcontractors, agents or employees;

2. Requires notice of any delay by the party claiming the delay;

3. Provides for liquidated damages for delay; or

4. Provides for arbitration or any other procedure designed to settle contract disputes.

C. A contractor making a claim against the Institution for costs or damages due to the alleged delaying of the contractor in the performance of its work under any public construction contract of the Institution shall be liable to the Institution and shall pay it for a percentage of all costs incurred by the Institution in investigating, analyzing, negotiating, litigating and arbitrating the claim, which percentage shall be equal to the percentage of the contractor's total delay claim that is determined through litigation or arbitration to be false or to have no basis in law or in fact.

D. If the Institution denies a contractor's claim for costs or damages due to the alleged delaying of the contractor in the performance of work under any public construction contract for the Institution, it shall be liable to and shall pay such contractor a percentage of all costs incurred by the contractor to investigate, analyze, negotiate, litigate and arbitrate the claim. The percentage paid by the Institution shall be equal to the percentage of the contractor's total delay claim for which the Institution's denial is determined through litigation or arbitration to have been made in bad faith.

#### § 28. Bid bonds.

A. Except in cases of emergency, all bids or proposals for construction contracts in excess of \$1 million shall be accompanied by a bid bond from a surety company selected by the bidder that is authorized to do business in Virginia, as a guarantee that if the contract is awarded to the bidder, he will enter into the contract for the work mentioned in the bid. The amount of the bid bond shall not exceed 5 percent of the amount bid.

B. No forfeiture under a bid bond shall exceed the lesser of (i) the difference between the bid for which the bond was written and the next low bid, or (ii) the face amount of the bid bond.

C. Nothing in this section shall preclude the Institution from requiring bid bonds to accompany bids or proposals for construction contracts anticipated to be less than \$1 million.

#### § 29. Performance and payment bonds.

A. Upon the award by the Institution of any (i) public construction contract exceeding \$1 million awarded to any prime contractor or (ii) public construction contract exceeding \$1 million awarded to any prime contractor requiring the performance of labor or the furnishing of materials for buildings, structures or other improvements to real property owned by the Institution, the contractor shall furnish to the Institution the following bonds:

1. Except for transportation-related projects, a performance bond in the sum of the contract amount conditioned upon the faithful performance of the contract in strict conformity with the plans, specifications and conditions of the contract. For transportation-related projects, such bond shall be in a form and amount satisfactory to the Institution.

2. A payment bond in the sum of the contract amount. The bond shall be for the protection of claimants who have and fulfill contracts to supply labor or materials to the prime contractor to whom the contract was awarded, or to any subcontractors, in furtherance of the work provided for in the contract, and shall be conditioned upon the prompt payment for all materials furnished or labor supplied or performed in the furtherance of the work.

"Labor or materials" shall include public utility services and reasonable rentals of equipment, but only for periods when the equipment rented is actually used at the site.

B. Each of the bonds shall be executed by one or more surety companies selected by the contractor that are authorized to do business in Virginia.

C. The bonds shall be payable to the Commonwealth of Virginia naming also the Institution.

D. Each of the bonds shall be filed with the Institution, or a designated office or official thereof.

E. Nothing in this section shall preclude the Institution from requiring payment or performance bonds for construction contracts below \$1 million.

F. Nothing in this section shall preclude the contractor from requiring each subcontractor to furnish a payment bond with surety thereon in the sum of the full amount of the contract with such subcontractor conditioned upon the payment to all persons who have and fulfill contracts that are directly with the subcontractor for performing labor and furnishing materials in the prosecution of the work provided for in the subcontract.

§ 30. Alternative forms of security.

A. In lieu of a bid, payment, or performance bond, a bidder may furnish a certified check or cash escrow in the face amount required for the bond.

B. If approved by the Institution's General Counsel or his equivalent, a bidder may furnish to the Institution a personal bond, property bond, or bank or savings institution's letter of credit on certain designated funds in the face amount required for the bid, payment or performance bond. Approval shall be granted only upon a determination that the alternative form of security proffered affords protection to the Institution equivalent to a corporate surety's bond.

§ 31. Bonds on other than construction contracts.

*The Institution may require bid, payment, or performance bonds for contracts for goods or services if provided in the Invitation to Bid or Request for Proposal.*

*§ 32. Action on performance bond.*

*No action against the surety on a performance bond shall be brought by the Institution unless brought within one year after (i) completion of the contract, including the expiration of all warranties and guarantees, or (ii) discovery of the defect or breach of warranty that gave rise to the action.*

*§ 33. Actions on payment bonds; waiver of right to sue.*

*A. Subject to the provisions of subsection B, any claimant who has performed labor or furnished material in accordance with the contract documents in furtherance of the work provided in any contract for which a payment bond has been given, and who has not been paid in full before the expiration of 90 days after the day on which the claimant performed the last of the labor or furnished the last of the materials for which he claims payment, may bring an action on the payment bond to recover any amount due him for the labor or material. The obligee named in the bond need not be named a party to the action.*

*B. Any claimant who has a direct contractual relationship with any subcontractor but who has no contractual relationship, express or implied, with the contractor, may bring an action on the contractor's payment bond only if he has given written notice to the contractor within 180 days from the day on which the claimant performed the last of the labor or furnished the last of the materials for which he claims payment, stating with substantial accuracy the amount claimed and the name of the person for whom the work was performed or to whom the material was furnished. Notice to the contractor shall be served by registered or certified mail, postage prepaid, in an envelope addressed to such contractor at any place where his office is regularly maintained for the transaction of business. Claims for sums withheld as retainages with respect to labor performed or materials furnished, shall not be subject to the time limitations stated in this subsection.*

*C. Any action on a payment bond shall be brought within one year after the day on which the person bringing such action last performed labor or last furnished or supplied materials.*

*D. Any waiver of the right to sue on the payment bond required by this section shall be void unless it is in writing, signed by the person whose right is waived, and executed after such person has performed labor or furnished material in accordance with the contract documents.*

*§ 34. Public inspection of certain records.*

A. Except as provided in this section, all proceedings, records, contracts and other public records relating to procurement transactions shall be open to the inspection of any citizen, or any interested person, firm or corporation, in accordance with the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.).

B. Cost estimates relating to a proposed procurement transaction prepared by or for the Institution shall not be open to public inspection.

C. Any competitive sealed bidding bidder, upon request, shall be afforded the opportunity to inspect bid records within a reasonable time after the opening of all bids but prior to award, except in the event that the Institution decides not to accept any of the bids and to reopen the contract. Otherwise, bid records shall be open to public inspection only after award of the contract.

D. Any competitive negotiation offeror, upon request, shall be afforded the opportunity to inspect proposal records within a reasonable time after the evaluation and negotiations of proposals are completed but prior to award, except in the event that the Institution decides not to accept any of the proposals and to reopen the contract. Otherwise, proposal records shall be open to public inspection only after award of the contract.

E. Any inspection of procurement transaction records under this section shall be subject to reasonable restrictions to ensure the security and integrity of the records.

F. Trade secrets or proprietary information submitted by a bidder, offeror or contractor in connection with a procurement transaction or prequalification application submitted pursuant to subsection B of § 14 shall not be subject to the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.); however, the bidder, offeror or contractor shall (i) invoke the protections of this section prior to or upon submission of the data or other materials, (ii) identify the data or other materials to be protected, and (iii) state the reasons why protection is necessary.

#### § 35. Exemption for certain transactions.

A. The provisions of these Rules shall not apply to:

1. The selection of services related to the management and investment of the Institution's endowment funds, endowment income, or gifts pursuant to § [23-76.1](#). *B. Where a procurement transaction involves the expenditure of federal assistance or contract funds, the receipt of which is conditioned upon compliance with mandatory requirements in federal laws or regulations not in conformance with the provisions of these Rules, the Institution may comply with such federal requirements, notwithstanding the provisions of these Rules, only upon the written determination of the Institution's President or his designee that acceptance of the grant or contract funds under the applicable conditions is in the public interest. Such determination shall state the specific provision of these Rules in conflict with the conditions of the grant or contract.*

*§ 36. Permitted contracts with certain religious organizations; purpose; limitations.*

*A. The Opportunity Reconciliation Act of 1996, P.L. 104-193, authorizes public bodies to enter into contracts with faith-based organizations for the purposes described in this section on the same basis as any other nongovernmental source without impairing the religious character of such organization, and without diminishing the religious freedom of the beneficiaries of assistance provided under this section.*

*B. For the purposes of this section, "faith-based organization" means a religious organization that is or applies to be a contractor to provide goods or services for programs funded by the block grant provided pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, P.L. 104-193.*

*C. The Institution, in procuring goods or services, or in making disbursements pursuant to this section, shall not (i) discriminate against a faith-based organization on the basis of the organization's religious character or (ii) impose conditions that (a) restrict the religious character of the faith-based organization, except as provided in subsection F, or (b) impair, diminish, or discourage the exercise of religious freedom by the recipients of such goods, services, or disbursements.*

*D. The Institution shall ensure that all invitations to bid, requests for proposals, contracts, and purchase orders prominently display a nondiscrimination statement indicating that it does not discriminate against faith-based organizations.*

*E. A faith-based organization contracting with the Institution (i) shall not discriminate against any recipient of goods, services, or disbursements made pursuant to a contract authorized by this section on the basis of the recipient's religion, religious belief, refusal*

*to participate in a religious practice, or on the basis of race, age, color, gender or national origin and (ii) shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the Institution. Nothing in clause (ii) shall be construed to supersede or otherwise override any other applicable state law.*

*F. Consistent with the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, P.L. 104-193, funds provided for expenditure pursuant to contracts with public bodies shall not be spent for sectarian worship, instruction, or proselytizing; however, this prohibition shall not apply to expenditures pursuant to contracts, if any, for the services of chaplains.*

*G. Nothing in this section shall be construed as barring or prohibiting a faith-based organization from any opportunity to make a bid or proposal or contract on the grounds that the faith-based organization has exercised the right, as expressed in 42 U.S.C. (§ 2000e-1 et seq.), to employ persons of a particular religion.*

*H. If an individual, who applies for or receives goods, services, or disbursements provided pursuant to a contract between the Institution and a faith-based organization, objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the Institution shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.*

*The Institution shall provide to each individual who applies for or receives goods, services, or disbursements provided pursuant to a contract between the Institution and a faith-based organization a notice in bold face type that states: "Neither the Institution's selection of a charitable or faith-based provider of services nor the expenditure of funds under this contract is an endorsement of the provider's charitable or religious character, practices, or expression. No provider of services may discriminate against you on the basis of religion, a religious belief, or your refusal to actively participate in a religious practice. If you object to a particular provider because of its religious character, you may request assignment to a different provider. If you believe that your rights have been violated, please discuss the complaint with your provider or notify the appropriate person as indicated in this form."*

*§ 37. Exemptions from competition for certain transactions.*

*§ 38. Exemptions from competitive sealed bidding and competitive negotiation for certain transactions; limitations.*

*The Institution may enter into contracts for insurance or electric utility service without competitive sealed bidding or competitive negotiation if purchased through an association of which the Institution is a member if the association was formed and is maintained for the purpose of promoting the interest and welfare of and developing close relationships with similar public bodies, provided such association has procured the insurance or electric utility services by use of competitive principles and provided that the Institution has made a determination in advance after reasonable notice to the public and set forth in writing that competitive sealed bidding and competitive negotiation are not fiscally advantageous to the public. The writing shall document the basis for this determination.*

*§ 39. Definitions.*

*As used in §§ 39 through 46, unless the context requires a different meaning: "Contractor" means the entity that has a direct contract with the Institution.*

*"Debtor" means any individual, business, or group having a delinquent debt or account with any state agency that obligation has not been satisfied or set aside by court order or discharged in bankruptcy.*

*"Payment date" means either (i) the date on which payment is due under the terms of a contract for provision of goods or services; or (ii) if such date has not been established by contract, (a) 30 days after receipt of a proper invoice by the Institution or its agent or (b) 30 days after receipt of the goods or services by the Institution.*

*"Subcontractor" means any entity that has a contract to supply labor or materials to the contractor to whom the contract was awarded or to any subcontractor in the performance of the work provided for in such contract.*

*§ 40. Exemptions.*

*B. Separate payment dates may be specified for contracts under which goods or services are provided in a series of partial deliveries or executions to the extent that such contract provides for separate payment for such partial delivery or execution.*

*§ 43. Defect or impropriety in the invoice or goods and/or services received.*

*In instances where there is a defect or impropriety in an invoice or in the goods or services received, the Institution shall notify the supplier of the defect or impropriety, if the defect or impropriety would prevent payment by the payment date. The notice shall be sent within 15 days after receipt of the invoice or the goods or services.*

*§ 44. Date of postmark deemed to be date payment is made.*

*In those cases where payment is made by mail, the date of postmark shall be deemed to be the date payment is made for purposes of these Rules.*

*§ 45. Payment clauses to be included in contracts.*

*Any contract awarded by the Institution shall include:*

1. A payment clause that obligates the contractor to take one of the two following actions within seven days after receipt of amounts paid to the contractor by the Institution for work performed by the subcontractor under that contract:

a. Pay the subcontractor for the proportionate share of the total payment received from the Institution attributable to the work performed by the subcontractor under that contract; or

b. Notify the Institution and subcontractor, in writing, of his intention to withhold all or a part of the subcontractor's payment with the reason for nonpayment.

2. A payment clause that requires (i) individual contractors to provide their social security numbers and (ii) proprietorships, partnerships, and corporations to provide their federal employer identification numbers.

3. An interest clause that obligates the contractor to pay interest to the subcontractor on all amounts owed by the contractor that remain unpaid after seven days following receipt by the contractor of payment from the Institution for work performed by the subcontractor under that contract, except for amounts withheld as allowed in subdivision 1b.

4. An interest rate clause stating, "Unless otherwise provided under the terms of this contract, interest shall accrue at the rate of 1 percent per month."

Any such contract awarded shall further require the contractor to include in each of its subcontracts a provision requiring each subcontractor to include or otherwise be subject to the same payment and interest requirements with respect to each lower-tier subcontractor.

A contractor's obligation to pay an interest charge to a subcontractor pursuant to the payment clause in this section shall not be construed to be an obligation of the Institution. A contract modification shall not be made for the purpose of providing reimbursement for the interest charge. A cost reimbursement claim shall not include any amount for reimbursement for the interest charge.

§ 46. Interest penalty; exceptions.

A. Interest shall accrue, at the rate determined pursuant to subsection B, on all amounts owed by the Institution to a vendor that remain unpaid after seven days following the payment date. However, nothing in this section shall affect any contract providing for a different rate of interest, or for the payment of interest in a different manner.

B. The rate of interest charged the Institution pursuant to subsection A shall be the base rate on corporate loans (prime rate) at large United States money center commercial banks as reported daily in the publication entitled *The Wall Street Journal*. Whenever a split prime rate is published, the lower of the two rates shall be used. However, in no

event shall the rate of interest charged exceed the rate of interest established pursuant to § [58.1-1812](#) of the Code of Virginia.

C. Notwithstanding subsection A, no interest penalty shall be charged when payment is delayed because of disagreement between the Institution and a vendor regarding the quantity, quality or time of delivery of goods or services or the accuracy of any invoice received for the goods or services. The exception from the interest penalty provided by this subsection shall apply only to that portion of a delayed payment that is actually the subject of the disagreement and shall apply only for the duration of the disagreement.

D. This section shall not apply to § 26 pertaining to retainage on construction contracts, during the period of time prior to the date the final payment is due. Nothing contained herein shall prevent a contractor from receiving interest on such funds under an approved escrow agreement.

E. Notwithstanding subsection A, no interest penalty shall be paid to any debtor on any payment, or portion thereof, withheld pursuant to the Comptroller's Debt Setoff Program, as authorized by the Virginia Debt Collection Act (§ [2.2-4800](#) et seq.) of the Code of Virginia, commencing with the date the payment is withheld. If, as a result of an error, a payment or portion thereof is withheld, and it is determined that at the time of setoff no debt was owed to the Commonwealth, then interest shall accrue at the rate determined pursuant to subsection B on amounts withheld that remain unpaid after seven days following the payment date.

#### § 47. Ineligibility.

A. Any bidder, offeror or contractor refused permission to participate, or disqualified from participation, in public contracts to be issued by the Institution shall be notified in writing. Prior to the issuance of a written determination of disqualification or ineligibility, the Institution shall (i) notify the bidder in writing of the results of the evaluation, (ii) disclose the factual support for the determination, and (iii) allow the bidder an opportunity to inspect any documents that relate to the determination, if so requested by the bidder within five business days after receipt of the notice.

Within 10 business days after receipt of the notice, the bidder may submit rebuttal information challenging the evaluation. The Institution shall issue its written determination of disqualification or ineligibility based on all information in the possession of the Institution, including any rebuttal information, within five business days of the date the Institution received such rebuttal information.

If the evaluation reveals that the bidder, offeror or contractor should be allowed permission to participate in the public contract, the Institution shall cancel the proposed disqualification action. If the evaluation reveals that the bidder should be refused

*permission to participate, or disqualified from participation, in the public contract, the Institution shall so notify the bidder, offeror or contractor. The notice shall state the basis for the determination, which shall be final unless the bidder appeals the decision within 10 days after receipt of the notice by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*B. If, upon appeal, it is determined that the action taken was arbitrary or capricious, or not in accordance with the Constitution of Virginia, applicable state law or regulations, the sole relief shall be restoration of eligibility.*

*§ 48. Appeal of denial of withdrawal of bid.*

*A. A decision denying withdrawal of bid under the provisions of § 23 of these Rules shall be final and conclusive unless the bidder appeals the decision within 10 days after receipt of the decision by invoking administrative procedures meeting the standards of § 55, if available, or in the alternative by instituting legal action as provided in § 54.*

*B. If no bid bond was posted, a bidder refused withdrawal of a bid under the provisions of § 23, prior to appealing, shall deliver to the Institution a certified check or cash bond in the amount of the difference between the bid sought to be withdrawn and the next low bid. Such security shall be released only upon a final determination that the bidder was entitled to withdraw the bid.*

*C. If, upon appeal, it is determined that the decision refusing withdrawal of the bid was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid, the sole relief shall be withdrawal of the bid.*

*§ 49. Determination of nonresponsibility.*

*A. Following public opening and announcement of bids received on an Invitation to Bid, the Institution shall evaluate the bids in accordance with element 4 of the definition of "Competitive sealed bidding" in § 4 of these Rules. At the same time, the Institution shall determine whether the apparent low bidder is responsible. If the Institution so determines, then it may proceed with an award in accordance with element 5 of the definition of "Competitive sealed bidding" in § 4. If the Institution determines that the apparent low bidder is not responsible, it shall proceed as follows:*

*1. Prior to the issuance of a written determination of nonresponsibility, the Institution shall (i) notify the apparent low bidder in writing of the results of the evaluation, (ii) disclose the factual support for the determination, and (iii) allow the apparent low bidder an opportunity to inspect any documents that relate to the determination, if so requested by the bidder within five business days after receipt of the notice.*

2. *Within 10 business days after receipt of the notice, the bidder may submit rebuttal information challenging the evaluation. The Institution shall issue its written determination of responsibility based on all information in the possession of the Institution, including any rebuttal information, within five business days of the date the Institution received the rebuttal information. At the same time, the Institution shall notify, with return receipt requested, the bidder in writing of its determination.*

3. *Such notice shall state the basis for the determination, which shall be final unless the bidder appeals the decision within 10 days after receipt of the notice by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*The provisions of this subsection shall not apply to procurements involving the pre-qualification of bidders and the rights of any potential bidders under such pre-qualification to appeal a decision that such bidders are not responsible.*

*B. If, upon appeal pursuant to § 54 or 55 of these Rules, it is determined that the decision of the Institution was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid, and the award of the contract in question has not been made, the sole relief shall be a finding that the bidder is a responsible bidder for the contract in question or directed award as provided in subsection A of § 54, or both.*

*If it is determined that the decision of the Institution was not an honest exercise of discretion, but rather was arbitrary or capricious or not in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid, and an award of the contract has been made, the relief shall be as set forth in subsection B of § 54 of these Rules.*

*C. A bidder contesting a determination that he is not a responsible bidder for a particular contract shall proceed under this section, and may not protest the award or proposed award under the provisions of § 50 of these Rules.*

*D. Nothing contained in this section shall be construed to require the Institution, when procuring by competitive negotiation, to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous.*

*§ 50. Protest of award or decision to award.*

*A. Any bidder or offeror, who desires to protest the award or decision to award a contract shall submit the protest in writing to the Institution, or an official designated by the Institution, no later than 10 days after the award or the announcement of the decision to award, whichever occurs first. Public notice of the award or the announcement of the*

*decision to award shall be given by the Institution in the manner prescribed in the terms or conditions of the Invitation to Bid or Request for Proposal. Any potential bidder or offeror on a contract negotiated on a sole source or emergency basis who desires to protest the award or decision to award such contract shall submit the protest in the same manner no later than 10 days after posting or publication of the notice of such contract as provided in § 5 of these Rules. However, if the protest of any actual or potential bidder or offeror depends in whole or in part upon information contained in public records pertaining to the procurement transaction that are subject to inspection under § 34 of these Rules, then the time within which the protest shall be submitted shall expire 10 days after those records are available for inspection by such bidder or offeror under § 34, or at such later time as provided in this section. No protest shall lie for a claim that the selected bidder or offeror is not a responsible bidder or offeror. The written protest shall include the basis for the protest and the relief sought. The Institution or designated official shall issue a decision in writing within 10 days stating the reasons for the action taken. This decision shall be final unless the bidder or offeror appeals within 10 days of receipt of the written decision by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54. Nothing in this subsection shall be construed to permit a bidder to challenge the validity of the terms or conditions of the Invitation to Bid or Request for Proposal. The use of Alternative Dispute Resolution (ADR) shall constitute an administrative appeal procedure meeting the standards of § 55 of these Rules.*

*B. If prior to an award it is determined that the decision to award is arbitrary or capricious, then the sole relief shall be a finding to that effect. The Institution shall cancel the proposed award or revise it to comply with the law. If, after an award, it is determined that an award of a contract was arbitrary or capricious, then the sole relief shall be as hereinafter provided.*

*Where the award has been made but performance has not begun, the performance of the contract may be enjoined. Where the award has been made and performance has begun, the Institution may declare the contract void upon a finding that this action is in the best interest of the public. Where a contract is declared void, the performing contractor shall be compensated for the cost of performance up to the time of such declaration. In no event shall the performing contractor be entitled to lost profits.*

*C. Where the Institution, an official designated by it, or an appeals board determines, after a hearing held following reasonable notice to all bidders, that there is probable cause to believe that a decision to award was based on fraud or corruption or on an act*

*in violation of these Rules, the Institution, designated official or appeals board may enjoin the award of the contract to a particular bidder.*

*§ 51. Effect of appeal upon contract.*

*Pending final determination of a protest or appeal, the validity of a contract awarded and accepted in good faith in accordance with these Rules shall not be affected by the fact that a protest or appeal has been filed.*

*§ 52. Stay of award during protest.*

*An award need not be delayed for the period allowed a bidder or offeror to protest, but in the event of a timely protest as provided in § 50 of these Rules, or the filing of a timely legal action as provided in § 54, no further action to award the contract shall be taken unless there is a written determination that proceeding without delay is necessary to protect the public interest or unless the bid or offer would expire.*

*§ 53. Contractual disputes.*

*A. Contractual claims, whether for money or other relief, shall be submitted in writing no later than 60 days after final payment. However, written notice of the contractor's intention to file a claim shall be given at the time of the occurrence or beginning of the work upon which the claim is based. Nothing herein shall preclude a contract from requiring submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance of the goods. Pendency of claims shall not delay payment of amounts agreed due in the final payment.*

*B. The Institution shall include in its contracts a procedure for consideration of contractual claims. Such procedure, which may be contained in the contract or may be specifically incorporated into the contract by reference and made available to the contractor, shall establish a time limit for a final decision in writing by the Institution. If the Institution has established administrative procedures meeting the standards of § 55 of these Rules, such procedures shall be contained in the contract or specifically incorporated in the contract by reference and made available to the contractor. The Institution may require the submission of contractual claims pursuant to any contract to Alternative Dispute Resolution (ADR) as an administrative procedure.*

*C. A contractor may not invoke administrative procedures meeting the standards of § 55 of these Rules, if available, or institute legal action as provided in § 54, prior to receipt of the Institution's decision on the claim, unless the Institution fails to render such decision within the time specified in the contract.*

*D. The decision of the Institution shall be final and conclusive unless the contractor appeals within six months of the date of the final decision on the claim by the Institution*

*by invoking administrative procedures meeting the standards of § 55 of these Rules, if available, or in the alternative by instituting legal action as provided in § 54.*

*§ 54. Legal actions.*

*A. A bidder or offeror, actual or prospective, who is refused permission or disqualified from participation in bidding or competitive negotiation, or who is determined not to be a responsible bidder or offeror for a particular contract, may bring an action in the appropriate circuit court challenging that decision, which shall be reversed only if the petitioner establishes that the decision was not (i) an honest exercise of discretion, but rather was arbitrary or capricious; (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid; or (iii) in the case of denial of prequalification, based upon the criteria for denial of prequalification set forth in subsection B of § 14 of these Rules. In the event the apparent low bidder, having been previously determined by the Institution to be not responsible in accordance with § 4, is found by the court to be a responsible bidder, the court may direct the Institution to award the contract to such bidder in accordance with the requirements of this section and the Invitation to Bid.*

*B. A bidder denied withdrawal of a bid under § 23 of these Rules may bring an action in the appropriate circuit court challenging that decision, which shall be reversed only if the bidder establishes that the decision of the Institution was not (i) an honest exercise of discretion, but rather was arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms or conditions of the Invitation to Bid.*

*C. A bidder, offeror or contractor, or a potential bidder or offeror on a contract negotiated on a sole source or emergency basis in the manner provided in § 5 of these Rules, whose protest of an award or decision to award under § 50 of these Rules is denied, may bring an action in the appropriate circuit court challenging a proposed award or the award of a contract, which shall be reversed only if the petitioner establishes that the proposed award or the award is not (i) an honest exercise of discretion, but rather is arbitrary or capricious or (ii) in accordance with the Constitution of Virginia, applicable state law or regulation, or the terms and conditions of the Invitation to Bid or Request for Proposal.*

*D. If injunctive relief is granted, the court, upon request of the Institution, shall require the posting of reasonable security to protect the Institution.*

*E. A contractor may bring an action involving a contract dispute with the Institution in the appropriate circuit court. Notwithstanding any other provision of law, the Comptroller shall not be named as a defendant in any action brought pursuant to these Rules or §*

[33.1-387](#) of the Code of Virginia, except for disputes involving contracts of the Office of the Comptroller or the Department of Accounts.

F. A bidder, offeror or contractor need not utilize administrative procedures meeting the standards of § 55 of these Rules, if available, but if those procedures are invoked by the bidder, offeror or contractor, the procedures shall be exhausted prior to instituting legal action concerning the same procurement transaction unless the Institution agrees otherwise.

G. Nothing herein shall be construed to prevent the Institution from instituting legal action against a contractor.

§ 55. Administrative appeals procedure.

A. The Institution may establish an administrative procedure for hearing (i) protests of a decision to award or an award, (ii) appeals from refusals to allow withdrawal of bids, (iii) appeals from disqualifications and determinations of nonresponsibility, and (iv) appeals from decisions on disputes arising during the performance of a contract, or (v) any of these. Such administrative procedure may include the use of Alternative Dispute Resolution (ADR) or shall provide for a hearing before a disinterested person or panel, and the opportunity to present pertinent information and the issuance of a written decision containing findings of fact. The disinterested person or panel shall not be an employee of the governmental entity against whom the claim has been filed. The findings of fact shall be final and conclusive and shall not be set aside unless the same are (a) fraudulent, arbitrary or capricious; (b) so grossly erroneous as to imply bad faith; or (c) in the case of denial of prequalification, the findings were not based upon the criteria for denial of prequalification set forth in subsection B of § 14 of these Rules. No determination on an issue of law shall be final if appropriate legal action is instituted in a timely manner. The Institution may seek advice and input from the Alternative Dispute Resolution Council in establishing an Alternative Dispute Resolution (ADR) procedure.

B. Any party to the administrative procedure, including the Institution, shall be entitled to institute judicial review if such action is brought within 30 days of receipt of the written decision.

§ 56. Alternative dispute resolution.

The Institution may enter into agreements to submit disputes arising from contracts entered into pursuant to these Rules to arbitration and utilize mediation and other alternative dispute resolution procedures. However, such procedures shall be nonbinding and subject to § [2.2-514](#) of the Code of Virginia, as applicable.

§ 57. Ethics in public contracting.

*The Institution and its governing body, officers and employees shall be governed by the Ethics in Public Contracting provisions of the Virginia Public Procurement Act, Article 6 (§ [2.2-4367](#) et seq.) of Chapter 43 of Title 2.2 of the Code of Virginia.*

*human resources functions and activities since the late 1980s and early 1990s, including, but not limited to, the running of payrolls; the administration of hiring, classification, and promotion practices. The Act extends and reinforces the human resources autonomy previously granted to the University. This Policy therefore is adopted by the Board of Visitors to enable the University to develop, adopt, and have in place a human resources system or systems for all University employees. Until the Effective Date of the Human Resources System, the systems for University employees shall be the same systems applicable to those employees in effect immediately prior to that Effective Date.*

#### *IV. BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.*

#### *V. VIRGINIA COMMONWEALTH UNIVERSITY HUMAN RESOURCES SYSTEMS.*

##### *A. Adoption and Implementation of University Human Resources Systems.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, is hereby authorized to adopt and implement human resources systems for employees of the University that are consistent with the Governing Law, other applicable provisions of law, these University human resources policies for University employees, and any other human resources policies adopted by the Department of Human Resource Management or the Board of Visitors for University personnel, unless University employees are exempted from those other human resources policies by law or policy. The University Human Resources Systems shall include a delegation of personnel authority to appropriate University officials responsible for overseeing and implementing the University Human Resources Systems, including a grant of authority to such officials to engage in further delegation of authority as the President or his designee deems appropriate.*

*The University commits to regularly engage employees in appropriate discussions and to receive employee input as the new University Human Resources Systems are developed. The University will regularly communicate the details of new proposals to all employees who are eligible to participate in the University Human Resources System*

*through written communication, open meetings, and website postings as appropriate, so that employees will have full information that will help them evaluate the merits of the new human resource system compared to the then-current State human resource system.*

*On the Effective Date of the adoption of the University's Human Resources System, and unless amended as described below, the University's human resources systems shall consist of the following:*

- 1. The current "Virginia Commonwealth University Faculty Handbook," as it is posted on the Provost's website, <http://www.provost.vcu.edu/faculty/handbook.html>, and periodically amended;*
- 2. The current human resources system for Classified Employees in the University as posted on the Virginia Department of Human Resource Management website at <http://www.dhrm.state.va.us/hrpolicy/policy.html>, and the University's website at <http://www.hr.vcu.edu/policies/index.htm>, as periodically amended; and*
- 3. The human resources system for Participating Covered Employees, which shall include nonsalaried (wage) employees, as posted on the University Human Resources website at <http://www.hr.vcu.edu/>, as periodically amended.*

The system described in paragraph 2 may be amended only by the State.*

*B. Training in and Compliance with Applicable Provisions of Law and Board of Visitors' Human Resources Policies.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall take all necessary and reasonable steps to ensure (i) that the University officials who develop, implement and administer the University Human Resources Systems authorized by Governing Law and these human resources policies are knowledgeable regarding the requirements of the Governing Law, other applicable provisions of law, these University human resources policies, any other human resources policies adopted by the Virginia Department of Human Resource Management, and other applicable Board of Visitors' human resources policies affecting University employees, and (ii) that compliance with such laws and human resources policies is achieved.*

*VI. HUMAN RESOURCES POLICIES.*

*The University Human Resources Systems adopted by the University pursuant to Governing Law and this Policy, as set forth in Section V above, shall embody the following human resources policies and principles:*

*A. Election by Classified Salaried Nonfaculty Employees.*

*At least six months prior to the adoption of a University Human Resources System, the University shall notify the Secretary of Administration and the Department of Human Resource Management that the University intends to adopt a University Human Resources System, effective on a January 1. Upon the Effective Date of adoption by the University of a University Human Resources System, each salaried nonfaculty Classified employee who was in the employment of the University as of the day prior to the Effective Date of its University Human Resources System shall be permitted to elect to participate in and be governed by either (i) the State human resources program set forth in Chapters 28 (§ [2.2-2800](#) et seq.) and 29 (§ [2.2-2900](#) et seq.) of Title 2.2 of the Code of Virginia, and administered by the Department of Human Resource Management, or (ii) the University Human Resources System, as appropriate. A salaried nonfaculty Classified employee who elects to continue to be governed by the State human resources program described above shall continue to be governed by all State human resources and benefit plans, programs, policies and procedures that apply to and govern State employees. A salaried nonfaculty Classified employee who elects in writing to participate in and be governed by the University Human Resources System, by that election, shall be deemed to have elected to participate in and to be governed by the University human resources program, authorized alternative insurance, and severance plans, programs, policies and procedures that are or may be adopted by the University as part of that University Human Resources System.*

*Each nonfaculty Classified employee who was in the employment of the University as of the day prior to the Effective Date of the University's Human Resources System shall be given at least 90 days after the date on which the University Human Resources System becomes effective to make the election required by the prior paragraph. If such a salaried nonfaculty Classified employee does not make an election by the end of that specified election period, that Classified employee shall be deemed not to have elected to participate in the University Human Resources System. If such a salaried nonfaculty Classified employee elects to participate in the University Human Resources System, that election shall be irrevocable. At least every two years, the University shall offer to salaried nonfaculty Classified employees who have elected to continue to participate in the state human resources program set forth in Chapters 28 (§ [2.2-2800](#) et seq.) and 29 (§ [2.2-2900](#) et seq.) of Title 2.2 of the Code of Virginia, an opportunity to elect to*

*participate in the University Human Resources System, provided that, each time prior to offering such opportunity to such salaried nonfaculty Classified employees, the University shall make available to each of its salaried nonfaculty Classified employees a comparison of its human resources program for that classification of salaried nonfaculty University employee with the State human resources program for comparable State employees, including but not limited to a comparability assessment of compensation and benefits. A copy of the human resources program comparison shall be provided to the Department of Human Resource Management.*

*B. Classification and Compensation.*

*1. General. The Systems shall include classification and compensation plans that are fair and reasonable, and are based on the availability of University financial resources. The plans adopted by the University for Participating Covered Employees shall be independent of, and need not be based on, the classification and compensation plans of the Commonwealth, do not require the approval of any State agency or officer, and shall be subject to the review and approval by the Board of Visitors as set forth in paragraph 3 below. The University shall provide information on its classification and compensation plans to all University employees. The plans applicable to Participating Covered Employees may or may not include changes in classification or compensation announced by the Commonwealth depending on such factors as the availability of necessary financial resources to fund any such changes, and subject to the review and approval by the Board of Visitors of any major changes in the University's compensation plans.*

*2. Classification Plan. The Systems shall include one or more classification plans for University employees that classify positions according to job responsibilities and qualifications. Until the Effective Date of the University's Human Resources System, the classification plans shall be the same plans that are in effect for each group of employees immediately prior to that Effective Date.*

*3. Compensation Plan. The Systems shall include one or more compensation plans for each University employee classification or group. On the Effective Date of the University's Human Resources System, and until changed by the Department of Human Resource Management, the compensation plan for Classified Employees in the University shall be the compensation plan in effect immediately prior to that Effective Date, known as the Commonwealth's Classified Compensation Plan. On the Effective Date of the University's Human Resources System, the University may implement one or more compensation plans for Participating Covered Employees that are graded or non-graded plan(s) based on internal and external market data and other relevant factors to be determined annually. Any major change in compensation plans for Participating*

*Covered Employees shall be reviewed and approved by the Board of Visitors before that change becomes effective. Any change recommended in the compensation plans may take into account the prevailing rates in the labor market for the jobs in question, or for similar positions, the relative value of jobs, the competency and skills of the individual employee, internal equity, and the availability of necessary financial resources to fund the proposed change. The compensation payable to University employees shall be authorized and approved only by designated University officers delegated such authority by the University, and shall be consistent with the approved compensation plan for the relevant position or classification. Further approval by any other State Agency, governmental body or officer is not required for setting, adjusting or approving the compensation payable to individual Participating Covered Employees.*

The benefits provided shall include a basic plan of benefits for each benefits eligible employee, and may include an optional benefits plan for benefits eligible employees, including additional insurance coverage, long-term care, tax deferred annuities, flexible reimbursement accounts, employee assistance programs, employee intramural and recreational passes, and other wellness programs. As provided in subsections B and C of § [23-38.119](#) of the Act, the University may require Participating Covered Employees to pay all or a portion of the cost of group life, disability and accidental death and dismemberment insurance, which may be collected through a*

*payroll deduction program. Participating Covered Employees shall not be required to present evidence of insurability for basic group life insurance coverage. The Board of Visitors may elect to provide benefits through Virginia Retirement System group insurance programs under the terms of and to the extent allowed by subsections B and D of § [23-38.119](#) of the Act or any other provision of law.*

*Notwithstanding the above, pursuant to subsection A of § [23-38.114](#) of the Act, and unless and until that section is amended, the state retirement system, state health insurance program, and state workers' compensation coverage program as they may be amended from time to time, shall continue to apply to and govern all eligible University employees. The Systems may provide different benefits plans for reasonably different groups or classifications of employees, and may provide benefits to part-time employees. On or after the Effective Date of the University's Human Resources System, alternative University group life, accidental death and dismemberment, and short- and long-term disability plans may be provided to eligible Participating Covered Employees, or at the election of the Board of Visitors and subject to the execution of participation agreements as provided in subsections B and C of § [23-38.119](#) of the Act, they may be provided by the appropriate State programs, but no contributions to the state programs by the University shall be required for Participating Covered Employees who do not participate in the programs. Subject to the provisions of the Act, any new plans, programs and material changes permitted under current law in University employee benefit plans, other than Classified Employee benefit plans, shall be approved by the Board of Visitors, including the authority to increase the Cash Match Contribution rate up to the limit permitted by the Code of Virginia based on available resources, and the authority to implement cafeteria-style benefits for University employees other than Classified Employees. Insurance and all proceeds therefrom provided pursuant to § [23-38.119](#) of the Act shall be exempt from legal process and may be subject to voluntary assignment as provided in subsection A of § [23-38.119](#).*

*D. Employee Relations.*

- 1. General. The Systems shall contain provisions that protect the rights and privileges of University employees consistent with sound management principles and fair employment practice law.*
- 2. Employee Safety and Health. The Systems shall contain provisions that promote workplace safety compliance with applicable law and regulations.*
- 3. Employee Work Environment. The Systems shall promote a work environment that is conducive to the performance of job duties, and free from intimidation or coercion in violation of State or federal law, including sexual harassment or other discrimination.*

4. *Employee Recognition.* The Systems may provide for the use of leave awards and bonuses specific to policies and procedures for awarding, honoring, or otherwise recognizing University employees, including but not limited to those who have performed particularly meritorious service for the University, have been employed by the University for specified periods of time, or have retired from the University after lengthy service.

5. *Counseling Services.* The Systems shall provide counseling services through the State's Employee Assistance Program or a University Employee Assistance Program to any eligible University employee experiencing job-related difficulties and seeking counseling for those difficulties, and shall establish the circumstances under which the time necessary to participate in such counseling may be granted.

6. *Unemployment Compensation.* The Systems shall ensure that University employees receive the full unemployment compensation benefits to which they are legally entitled, and that the University's liability is limited to legitimate claims for such benefits.

7. *Workers' Compensation.* The Systems shall ensure that University employees have workers' compensation benefits to which they are legally entitled pursuant to the State Employees Workers' Compensation Program administered by the Department of Human Resource Management.

8. *Performance Planning and Evaluation.* The Systems shall include one or more performance planning and evaluation processes for University employees that (i) establish and communicate the University's performance expectations, (ii) help develop productive working relationships, (iii) allow employees to present their views concerning their performance, (iv) identify areas for training or professional development, (v) establish the process by which evaluations shall be conducted, (vi) clarify how superlative or inadequate performance shall be addressed, and (vii) ensure that all University employees are provided relevant information on the evaluation process. The Systems may include separate performance and evaluation processes for reasonably distinguishable groups of University employees. On the Effective Date of the University's Human Resources System, the existing merit-based performance management system for faculty shall continue, until amended by the University. On or after that Effective Date, University nonfaculty salaried Participating Covered Employees may be subject to a variable merit-based performance management system.

9. *Standards of Conduct and Performance.* In order to protect the well-being and rights of all employees and to ensure safe, efficient University operations and compliance with the law, the Systems shall establish rules of personal conduct and standards of acceptable work performance for University salaried nonfaculty employees and policies for corrective discipline. In general, the policies for corrective discipline shall serve to (i)

*establish a uniform and objective process for correcting or disciplining unacceptable conduct or work performance, (ii) distinguish between less serious and more serious actions of misconduct and provide corrective action accordingly, and (iii) limit corrective action to employee conduct occurring only when employees are at work or are otherwise representing the University in an official or work-related capacity, unless otherwise specifically provided by the policies of the Systems or other applicable law. The Systems may provide for a probationary period for new and re-employed University salaried non-faculty employees, during which period the policies for corrective discipline shall not be applicable and the employee may not use the grievance procedure set forth in the next paragraph. The Systems may include separate rules of personal conduct and standards of acceptable work performance and policies for corrective discipline for reasonably distinguishable groups of University employees.*

*10. Grievance Procedure. As provided in the Governing Law, employees shall be encouraged to resolve employment-related problems and complaints informally, and shall be permitted to discuss their concerns freely and without fear of retaliation with immediate supervisors and management. In the event that such problems cannot be resolved informally, all salaried nonfaculty University employees, regardless of their date of hire, shall have access, as provided in subsection A of § [23-38.114](#) and in § [23-38.117](#) of the Act, to the State Grievance Procedure, Chapter 30 (§ [2.2-3000](#) et seq.) of Title 2.2 of the Code of Virginia, to the extent it was applicable to their classification of employees prior to the Effective Date of the University's Human Resources System. On that Effective Date, and until changed by the University, the faculty grievance procedures in effect immediately prior to the Effective Date shall continue.*

*11. Discrimination Complaints. If a Classified Employee believes discrimination has occurred, the Classified Employee may file a complaint with the Department of Human Resource Management Office of Equal Employment Services. All Covered Employees and applicants for employment after the Effective Date of the University's Human Resources System shall file a complaint with the appropriate University office or with the appropriate federal agencies.*

*12. Layoff Policy. The Systems shall include one or more layoff policies for salaried University employees who lose their jobs for reasons other than their job performance or conduct, such as a reduction in force or reorganization at the University. These University layoff policies shall govern such issues as (i) whether there is a need to effect a layoff, (ii) actions to be taken prior to a layoff, (iii) notice to employees affected by a layoff, (iv) placement options within the University or its respective major divisions and within other parts of the University, (v) the preferential employment rights, if any, of*

various University employees, (vi) the effect of layoff on leave and service, and (vii) the policy for recalling employees. In accordance with the terms of the Act, University employees who: (a) were employed prior to the Effective Date of the University's Human Resources System, (b) would otherwise be eligible for severance benefits under the Workforce Transition Act, (c) were covered by the Virginia Personnel Act prior to that Effective Date, and (d) are separated because of a reduction in force shall have the same preferential hiring rights with State agencies and other executive branch institutions as Classified Employees have under § [2.2-3201](#) of the Code of Virginia. Conversely, the University shall recognize the hiring preference conferred by § [2.2-3201](#) on State employees who were hired by a State agency or executive branch institution before the Effective Date of the University's Human Resources System and who were separated after that date by that State agency or executive branch institution because of a reduction in workforce. If the University has adopted a classification system pursuant to § [23-38.116](#) of the Act that differs from the classification system administered by the Department of Human Resource Management, the University shall classify the separated employee according to its classification system and shall place the separated employee appropriately. The University may include separate policies for reasonably distinguishable groups of University employees. On or after the Effective Date of the University's Human Resources System, all employees from other State agencies and executive branch institutions who are placed by the University under the provisions of the State Layoff Policy shall be Participating Covered Employees.

13. *Severance Benefits.* In accordance with the terms of the Act, the University shall adopt severance policies for salaried Participating Covered Employees who are involuntarily separated for reasons unrelated to performance or conduct. The terms and conditions of such policies shall be determined by the Board of Visitors. Classified Employees who otherwise would be eligible and were employed prior to the Effective Date of the University's Human Resources System shall be covered by the Workforce Transition Act, Chapter 32 (§ [2.2-3200](#) et seq.) of Title 2.2 of the Code of Virginia. The University and the Board of the Virginia Retirement System may negotiate a formula according to which cash severance benefits may be converted to years of age or creditable service for Participating Covered Employees who participate in the Virginia Retirement System. An employee's becoming, on the Effective Date, a Covered Employee shall not constitute a severance or reduction in force to which severance or Workforce Transition Act policies would apply.

14. *Use of Alcohol and Other Drugs.* The Systems shall include policies and procedures that (i) establish and maintain a work environment at the University that is free from the

*adverse effect of alcohol and other drugs, (ii) are consistent with the federal Drug-Free Workplace Act of 1988 and with the Virginia Commonwealth University alcohol and other drugs policy, (iii) describe the range of authorized disciplinary action, including termination where appropriate, for violations of such policies and procedures, and the process to be followed in taking such disciplinary action, (iv) provide University employees access to assistance and treatment for problems involving alcohol and other drugs, (v) provide for the circumstances under which employees are required to report certain violations of the policies and procedures to their supervisor, and the University is required to report those violations to a federal contracting or granting agency, (vi) describe the circumstances under which personnel records of actions taken under the University's alcohol and other drugs policy shall not be kept confidential, and (vii) provide notice to University employees of the scope and content of the University alcohol and other drugs policy. As part of this alcohol and other drugs policy, and in compliance with the federal Omnibus Transportation Employee Testing Act of 1991, the Systems may provide for pre-employment, reasonable suspicion, random, post-accident, return-to-duty and follow-up alcohol and other drug testing for University positions that are particularly safety sensitive, such as those requiring a Commercial Driver's License.*

*15. Background Checks. The Systems shall include a process for conducting background checks, which may include but is not limited to reference checks, educational/professional credentialing checks, and conviction and driver's records checks on applicants for full-time or part-time positions at the University, and for addressing situations where employees do not disclose a conviction on their application or otherwise falsify their application with regard to information concerning their education/professional credential and/or prior convictions.*

*16. Other Employee Relations Policies and Procedures. The Systems shall include any other reasonable employee relations policies or procedures that the President, acting through the Senior Vice President for Finance and Administration or other designee, deems appropriate, which may include, but are not limited to, policies or procedures relating to orientation programs for new or re-employed University employees, an employee suggestion program, the responsibility of University employees for property placed in their charge, work breaks, inclement weather and emergencies, and employment outside the University.*

*E. Leave and Release Time.*

*The Systems shall include policies and procedures regarding leave for eligible employees. The Systems shall provide reasonable paid leave for purposes such as holidays, vacation, or other personal uses. The Systems may provide for release time for such*

*matters as the donation of blood, participation in an employee assistance program and other appropriate employment-related matters. On or after the Effective Date of its Human Resources System, the University may provide an alternative leave and release time system for salaried nonfaculty Participating Covered Employees.*

*F. Equal Employment Opportunity, Nondiscrimination, Employment, and Separation.*

*1. Equal Employment Opportunity and Nondiscrimination. The Systems shall contain policies and procedures to ensure that all aspects of human resources management, including the employment of University employees, meet all requirements of federal and state law, and of the relevant policies of the Board of Visitors, with regard to equal employment opportunity and nondiscrimination.*

*2. Employment. The Systems shall include policies and procedures for the recruitment, selection and hiring of University employees that are based on merit and fitness, including where appropriate a requirement for job posting, interviews, pre-employment testing, pre-employment drug testing, reference checks and conviction record checks. On and after the Effective Date of its Human Resources System, the University shall post all salaried nonfaculty position vacancies through the University's job posting system, the Commonwealth's job posting system, and other external media as appropriate. The Systems shall establish designated veterans' re-employment rights in accordance with applicable law. In order to encourage employees to attain the highest level positions for which they are qualified, and to compensate employees for accepting positions of increased value and responsibility, the Systems shall include policies and procedures governing the promotion of employees, including the effect of promotion on an employee's compensation. On or after the Effective Date of the University's Human Resources System, all employees hired from other state agencies shall be Participating Covered Employees. University Classified Employees who change jobs within the University through a competitive employment process i.e., promotion or transfer shall have the choice of remaining a Classified Employee or becoming a Participating Covered Employee. If a Classified Employee elects to become a Participating Covered Employee, that decision shall be irrevocable.*

*3. Notice of Separation. The Systems shall include policies and procedures requiring reasonable notice, where appropriate, of a decision either by the employee or by the University to separate the employee from the University in accordance with policies governing performance, conduct, or layoff.*

*G. Information Systems.*

*The University shall provide an electronic file transfer of information on all salaried University employees and shall continue to provide the Employee Position Reports to*

*meet the human resources reporting requirements specified by law or by request of the Governor or the General Assembly, unless the University is specifically exempted from those requirements. The University shall conduct assessments to demonstrate its accountability for human resources practices that comply with laws and regulations. The Department of Human Resource Management and the University have entered into a Memorandum of Understanding, attached hereto as Attachment 2, which may be amended from time to time by agreement of the parties, regarding the specific data and reporting requirements. The University shall be accountable for ensuring the timeliness and integrity of the data transmitted to the Department of Human Resources Management.*

**VII. CONTINUED APPLICABILITY OF OTHER PROVISIONS OF THE CODE OF VIRGINIA AND OTHER BOARD OF VISITORS' POLICIES AFFECTING UNIVERSITY PERSONNEL.**

*On and after the Effective Date of its Human Resources System, University employees shall be subject to the terms and conditions of the Act and the Management Agreement between the Commonwealth and the University. Classified Employees shall continue to be subject to the human resources policies and exceptions to those policies adopted or approved by the Department of Human Resource Management. In addition, all University employees also shall remain subject to any other human resources policies adopted by the Board of Visitors applicable to University personnel unless University employees or a subset thereof are specifically exempted from those other human resources policies either by those other policies or by this Policy.*

*The Reporting of Human Resources Management Data*

*This Memorandum of Understanding, which may be amended from time to time by the agreement of all parties, is an attachment to the Policy Governing Human Resources for Participating Covered Employees and Other University Employees pursuant to the Restructured Higher Education Financial and Administrative Operations Act of 2005,*

*and is hereby entered into between Virginia Commonwealth University and the Department of Human Resource Management (DHRM).*

*This document outlines the provisions for information management pertaining to human resources data, consistent with the objectives to enable DHRM to meet the Commonwealth's reporting requirements, to ensure compliance with relevant federal and state laws and regulations, and to do so through efficient and cost-effective methods.*

*1. In lieu of data entry into the state's Personnel Management Information System (PMIS), data will be transmitted through an electronic file transfer to update DHRM's warehouse.*

*a. The University will provide a flat file of designated personnel data. For "Classified Employees," the data provided will match DHRM's data values for the designated fields. For salaried "Participating Covered Employees," the data provided will include the University's data values for the designated fields. The University will provide a data dictionary to DHRM. The file of designated data will be specifically described by an addendum to this Memorandum upon the agreement of the University and DHRM.*

*b. The University will provide a second flat file of salaried personnel actions for "Classified Employees" and salaried "Participating Covered Employees," such as promotions, separations, and salary adjustments. The file of relevant personnel actions and designated data to be provided for each action will be specifically described by an addendum to this Memorandum upon the agreement of the University and DHRM.*

*c. In the event that the University and DHRM cannot agree on a format that prevents the need for modification to the University's current personnel system, the University will continue to enter data directly into PMIS or any successor system.*

*2. In lieu of the University's participation in the state's Equal Employment Opportunity Compliance Assessment process, DHRM will accept the University's federal Affirmative Action Plan (AAP), including the adverse impact analyses of employment and compensation actions that are part of the AAP, as demonstration of the University's compliance with relevant federal and state employment laws and regulations.*

*3. The University may key data into the Benefits Enrollment System or provide a batch file, or employees may use Employee Direct (employee self-service).*

*4. Other reports to be provided by the University include the following:*

## *III. SCOPE OF POLICY.*

*This Policy applies to the University's responsibility for management, investment and stewardship of all its financial resources, including but not limited to, general, non-general and private funds. This responsibility includes maintaining an independent uniform*

*system of accounting, financial reporting, and internal controls adequate to protect and account for the University's financial resources.*

**IV. BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.**

*The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Policy. Consistent with this full and ultimate accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate either herein or by separate Board resolution the duties and responsibilities set forth in this Policy to a person or persons within the University, who, while continuing to be fully accountable for such duties and responsibilities, may further delegate the implementation of those duties and responsibilities pursuant to the University's usual delegation policies and procedures.*

**V. FINANCIAL MANAGEMENT AND REPORTING SYSTEM.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized by the Board to maintain existing and implement new policies governing the management of University financial resources. These policies shall continue to (i) ensure compliance with Generally Accepted Accounting Principles, (ii) ensure consistency with the current accounting principles employed by the Commonwealth, including the use of fund accounting principles, with regard to the establishment of the underlying accounting records of the University and the allocation and utilization of resources within the accounting system, including the relevant guidance provided by the State Council of Higher Education for Virginia chart of accounts with regard to the allocation and proper use of funds from specific types of fund sources, (iii) provide adequate risk management and internal controls to protect and safeguard all financial resources, including moneys transferred to the University pursuant to a general fund appropriation, and (iv) ensure compliance with the requirements of the Appropriation Act.*

*The financial management system shall continue to include a financial reporting system to satisfy both the requirements for inclusion into the Commonwealth's Comprehensive Annual Financial Report, as specified in the related State Comptroller's Directives, and the University's separately audited financial statements. To ensure observance of limitations and restrictions placed on the use of the resources available to the University, the accounting and bookkeeping system of the University shall continue to be maintained in accordance with the principles prescribed for governmental organizations by the Governmental Accounting Standards Board.*

*In addition, the financial management system shall continue to provide financial reporting for the President, acting through the Senior Vice President for Finance and Administration or other designee, and the Board of Visitors to enable them to provide adequate oversight of the financial operations of the University. Upon the Effective Date of the initial Management Agreement between the University and the Commonwealth, except for the recordation of daily revenue deposits of State funds as specified in Section VII below, the University shall not be required to record its financial transactions in the Commonwealth's Accounting and Reporting System (CARS), including the current monthly interfacing with CARS, or to record its financial transactions in any subsequent Commonwealth financial systems that replace CARS or are in addition to CARS, but shall have its own financial reporting system. The University's financial reporting system shall provide (i) monthly summary reports for State agencies including, but not limited to, the Department of Accounts, the Department of Planning and Budget, the Joint Legislative Audit and Review Commission, the Department of Medical Assistance Services, the Auditor of Public Accounts, and the State Council of Higher Education for Virginia, and for the Chairmen of the Senate Committee on Finance and the House Committee on Appropriations at a sufficient level of detail, on such schedule, and using such format that is compatible with the Commonwealth's accounting system, as may be requested by the requesting State agency, and (ii) such other special reports as may be requested from time to time.*

#### **VI. FINANCIAL MANAGEMENT POLICIES.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall create and implement any and all financial management policies necessary to establish a financial management system with adequate risk management and internal control processes and procedures for the effective protection and management of all University financial resources. Such policies will not address the underlying accounting principles and policies employed by the Commonwealth and the University, but rather will focus on the internal operations of the University's financial management. These policies shall include, but need not be limited to, the development of a tailored set of finance and accounting practices that seek to support the University's specific business and administrative operating environment in order to improve the efficiency and effectiveness of its business and administrative functions. In general, the system of independent financial management policies shall be guided by the general principles contained in the Commonwealth's Accounting Policies and Procedures such as establishing strong risk management and internal accounting controls to ensure University financial resources are properly safeguarded and that appropriate*

*stewardship of public funds is obtained through management's oversight of the effective and efficient use of such funds in the performance of University programs.*

*Upon the Effective Date of its initial Management Agreement with the Commonwealth, the University shall continue to follow the Commonwealth's accounting policies until such time as specific alternate policies can be developed, approved and implemented. Such alternate policies shall include applicable accountability measures and shall be submitted to the State Comptroller for review and comment before they are implemented by the University.*

#### **VII. FINANCIAL RESOURCE RETENTION AND MANAGEMENT.**

*Under subsection A of § [23-38.104](#) of the Act, subject to applicable accountability measures and audits, the University shall have the power and authority to manage all monies received by it. All State general funds to be allocated to the University shall remain subject to the appropriations process.*

*Pursuant to subsection C of § [23-9.6:1.01](#) of the Code of Virginia, the State Council of Higher Education for Virginia (SCHEV) annually shall assess and certify to the Governor and General Assembly the degree to which each public institution of higher education of the Commonwealth has met the financial and administrative management and educational-related performance benchmarks called for by that subsection and approved as part of the Appropriation Act then in effect for the State goals and objectives set forth in subdivisions B 1 through B 12 of § [23-38.88](#) of the Act. Pursuant to § [2.2-5005](#) of the Code of Virginia, beginning with the fiscal year that immediately follows the first full fiscal year for which the financial and administrative management and educational-related performance benchmarks described in § [23-9.6:1.01](#) are effective, as provided in a general Appropriation Act, and for all fiscal years thereafter, each public institution of higher education of the Commonwealth that (i) has been certified during the fiscal year by SCHEV as having met such institutional performance benchmarks and (ii) meets the conditions prescribed in subsection B of § [23-38.88](#) shall receive certain financial incentives, including interest on the tuition and fees and other non-general fund Educational and General Revenues deposited into the State Treasury by the public institution of higher education. Consistent with the prior paragraph, beginning with the fiscal year following the first fiscal year for which it has received such certification from SCHEV, the University is authorized to hold and invest tuition, Educational and General (E&G) fees, research and sponsored program funds, auxiliary enterprise funds, and all other non-general fund revenues (excluding gift, agency and endowment funds and the investment income thereon) subject to the following requirements:*

- 1. The University shall deposit such funds in the State Treasury pursuant to the State process in place at the time of such deposit.*
- 2. Such non-general funds deposited in the State Treasury shall be disbursed as provided in Section IX below.*
- 3. The University shall remit to the State Comptroller quarterly and the State Comptroller shall hold in escrow all interest earned on the University's tuition and fees and other non-general fund Educational and General Revenues. Upon receipt of the required State Council of Higher Education for Virginia certification that the University has met such institutional performance benchmarks and the conditions prescribed in subsection B of § [23-38.88](#), the Governor shall include in the next budget bill a non-general fund appropriation, payable no later than July 1 of the immediately following fiscal year, equivalent to the amount deposited in the escrow account as the financial incentive provided in subdivision 1 of § [2.2-5005](#), after which time the University may expend the funds for purposes related to its mission. If public institutions of higher education of the Commonwealth are permitted, or the University in particular is permitted, by the Appropriation Act or other law to retain or be paid the interest the Commonwealth would have earned on sponsored programs and research funds, then this paragraph shall not apply to such interest on such funds, and such interest shall not be held in escrow.*
- 4. If in any given year the University does not receive the certification from the State Council of Higher Education for Virginia that it has met for that year the institutional benchmarks called for by subsection C of § [23-9.6:1.01](#) and approved in the then-current Appropriation Act, the Comptroller shall transfer to the general fund the balance in the escrow account as of June 30 of that year.*
- 5. Beginning on the effective date of its initial management agreement with the University until the beginning of the first fiscal year following the fiscal year for which it has received the required certification from SCHEV, the University shall continue to deposit tuition and all other non-general funds with the State Treasurer by the same process that it would have been required to use if it had not entered into a management agreement with the Commonwealth.*
- 6. On the first business day of the first fiscal year following the fiscal year for which it has received the required certification from SCHEV, the University may draw down all cash balances held by the State Treasurer on behalf of the University related to tuition, E&G fees, research and sponsored programs, auxiliary enterprises, and all other non-general fund revenues.*
- 7. The Commonwealth shall retain all funds related to general fund appropriations, but shall pay these funds to the University as specified in Section IX below.*

*The University also shall have sum sufficient appropriation authority for all non-general funds as approved by the Governor and the General Assembly in the Commonwealth's biennial appropriations process, and shall report to the Department of Planning and Budget (i) its estimate of the non-general fund revenues for the sum sufficient appropriation to be included in the biennial Budget Bill for each of the two years in the next biennium by November 1 of each odd-numbered year and the estimate to be included in the Budget Bill for the first and second year of the then-current biennium by November 1 of each even-numbered year, and (ii) report its actual non-general fund revenues for each fiscal year to the Department of Planning and Budget by July 31 of the subsequent fiscal year.*

*The Board of Visitors shall retain the authority to establish tuition, fee, room, board, and other charges, with appropriate commitment provided to need-based grant aid for middle- and lower-income undergraduate Virginians. Except as provided otherwise in the Appropriation Act then in effect, it is the intent of the Commonwealth and the University that the University shall be exempt from the revenue restrictions in the general provisions of the Appropriation Act related to non-general funds. In addition, unless prohibited by the Appropriation Act then in effect, it is the intent of the Commonwealth and the University that the University shall be entitled to retain non-general fund savings generated from changes in Commonwealth rates and charges, including but not limited to health, life, and disability insurance rates, retirement contribution rates, telecommunications charges, and utility rates, rather than reverting such savings back to the Commonwealth. This financial resource policy assists the University by providing the framework for retaining and managing non-general funds, for the receipt of general funds, and for the use and stewardship of all these funds.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to provide oversight of the University's cash management system which is the framework for the retention of non-general funds. The Assurance Services Department of the University shall periodically audit the University's cash management system in accordance with appropriate risk assessment models and make reports to the Audit Committee of the Board of Visitors. Additional oversight shall continue to be provided through the annual audit and assessment of internal controls performed by the Auditor of Public Accounts.*

*For the receipt of general and non-general funds, the University shall conform to the Security for Public Deposits Act, Chapter 44 (§ [2.2-4400](#) et seq.) of Title 2.2 of the Code of Virginia as it currently exists and from time to time may be amended.*

*VIII. ACCOUNTS RECEIVABLE MANAGEMENT AND COLLECTION.*

*The President, acting through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized to create and implement any and all Accounts Receivable Management and Collection policies as part of a system for the management of University financial resources. The policies shall be guided by the requirements of the Virginia Debt Collection Act, Chapter 48 (§ [2.2-4800](#) et seq.) of the Code of Virginia, such that the University shall take all appropriate and cost effective actions to aggressively collect accounts receivable in a timely manner.*

*These shall include, but not be limited to, establishing the criteria for granting credit to University customers; establishing the nature and timing of collection procedures within the above general principles; and the independent authority to select and contract with collection agencies and, after consultation with the Office of the Attorney General, private attorneys as needed to perform any and all collection activities for all University accounts receivable such as reporting delinquent accounts to credit bureaus, obtaining judgments, garnishments, and liens against such debtors, and other actions. In accordance with sound collection activities, the University shall continue to utilize the Commonwealth's Debt Set-Off Collection Programs, shall develop procedures acceptable to the Tax Commissioner and the State Comptroller to implement such Programs, and shall provide a quarterly summary report of receivables to the Department of Accounts in accordance with the reporting procedures established pursuant to the Virginia Debt Collection Act.*

#### **IX. DISBURSEMENT MANAGEMENT.**

*The President, through the Senior Vice President for Finance and Administration or other designee, shall continue to be authorized to create and implement any and all disbursement policies as part of a system for the management of University financial resources. The disbursement management policies shall continue to define the appropriate and reasonable uses of all funds, from whatever source derived, in the execution of the University's operations. These policies also shall continue to address the timing of appropriate and reasonable disbursements consistent with the Prompt Payment Act, and the appropriateness of certain goods or services relative to the University's mission, including travel-related disbursements. Further, the University's disbursement policy shall continue to provide for the mechanisms by which payments are made including the use of charge cards, warrants, and electronic payments. Since the University no longer will interface to the CARS system or any replacement for the CARS system for disbursements, the University shall establish its own mechanisms for electronic payments to vendors through Electronic Data Interchange (EDI) or similar process and payments to the Commonwealth's Debt Set-Off Collection Programs.*

*Beginning with the fiscal year after the first fiscal year for which it first receives the required certification from SCHEV, the University may draw down its general fund appropriations (subject to available cash) and tuition and E&G fees and other non-general fund revenues from the State Treasury. Such funds shall be available to the University for disbursement as provided in the then-current rules of the Automated Clearing House (ACH) Network. The drawing down of funds may be initiated in accordance with the following schedule:*

- 1. The University may draw down one-twenty-fourth (1/24) of its annual general fund appropriation for Educational and General programs on the first and fifteenth days of each month, and up to 50 percent of its annual general fund appropriation for Student Financial Assistance on or after September 1 of each year with the remaining 50 percent to be drawn on or after February 1 of each year in order to meet student obligations;*
- 2. The University may draw down the sum of all tuition and E&G fees and all other non-general fund revenues deposited to the State Treasury each day on the same business day they were deposited; and*
- 3. The University anticipates that expenditures could exceed available revenues from time to time during the year if the above disbursement schedule is used. When the University projects a cash deficit is likely in activities supported by general fund appropriations, the University may make a request to the State Comptroller for an early draw on its appropriated general funds deposited in the State Treasury, in a form and within a time frame agreeable to the parties, in order to cover expenditures.*

*These disbursement policies shall authorize the President, acting through the Senior Vice President for Finance and Administration or other designee, to independently select, engage, and contract for such consultants, accountants, and financial experts, and other such providers of expert advice and consultation, and, after consultation with the Office of the Attorney General, private attorneys, as may be necessary or desirable in his or her discretion. The policies also shall continue to include the ability to locally manage and administer the Commonwealth's credit card and cost recovery programs related to disbursements, subject to any restrictions contained in the Commonwealth's contracts governing those programs, provided that the University shall submit the credit card and cost recovery aspects of its financial and operations policies to the State Comptroller for review and comment prior to implementing those aspects of those policies. The disbursement policies shall ensure that adequate risk management and internal control procedures shall be maintained over previously decentralized processes for public records, payroll, and non-payroll disbursements. The University shall continue to provide sum-*

*mary quarterly prompt payment reports to the Department of Accounts in accordance with the reporting procedures established pursuant to the Prompt Payment Act. The University's disbursement policies shall be guided by the principles of the Commonwealth's policies as included in the Commonwealth's Accounting Policy and Procedures Manual. Upon the Effective Date of its initial management agreement with the Commonwealth, the University shall continue to follow the Commonwealth's disbursement policies until such time as specific alternative policies can be developed, approved and implemented. Such alternate policies shall be submitted to the State Comptroller for review and comment prior to their implementation by the University.*

#### **X. DEBT MANAGEMENT.**

*The President, acting through the Senior Vice President for Finance and Administration or other designee, is authorized to create and implement any and all debt management policies as part of a system for the management of University financial resources.*

*Pursuant to subsection B of § [23-38.108](#) of the Act, the University shall have the authority to issue bonds, notes, or other obligations that do not constitute State Tax Supported Debt, as determined by the Treasury Board, and that are consistent with the University's debt-management policy established by its Board of Visitors, without obtaining the consent of any legislative body, elected official, commission, board, bureau, or agency of the Commonwealth or of any political subdivision, and without any proceedings or conditions other than those specifically required by Subchapter 3 of the Act; provided that, the University shall notify the Treasurer of Virginia of its intention to issue bonds pursuant to this Policy at the time it adopts the bond issuance planning schedule for those bonds. Any new or revised debt capacity and management policy shall be submitted to the Treasurer of Virginia for review and comment prior to its adoption by the University. The University recognizes that there are numerous types of financing structures and funding sources available each with specific benefits, risks, and costs. All potential funding sources shall be reviewed by the President, acting through the Senior Vice President for Finance and Administration or other designee, within the context of the overall portfolio to ensure that any financial product or structure is consistent with the University's objectives. Regardless of the financing structure(s) utilized, the President, acting through the Senior Vice President for Finance and Administration or other designee, shall obtain sufficient documentation to gain a full understanding of the transaction, including (i) the identification of potential risks and benefits, and (ii) an analysis of the impact on University creditworthiness and debt capacity. [\[S 268\]](#)

Approved March 27, 2008

1.

*§ 1. A. The governing body of the City of Charlottesville may provide in its comprehensive plan for the physical development within the city, adopted pursuant to [§ 15.2-2223](#), for densities of development ranging between a floor area ratio (FAR) of 1.0 FAR and 10.0 FAR, or greater, and as such, the governing body may adopt as part of its zoning ordinance requirements for the provision of (i) on-site or off-site "Affordable Dwelling Units," as defined herein, or (ii) a cash contribution to the city's affordable housing fund, in lieu of such units, in such amounts as set out herein, as a condition of the governing body's approval of a rezoning or special use application for residential or the residential portion of mixed-use projects with a density equal to or greater than 1.0 FAR, or an equivalent density based on units per acre. Residential or the residential portion of mixed-use projects with a density less than 1.0 FAR, or an equivalent density based on units per acre, shall be exempt from the requirements of this section and the city's zoning ordinance adopted pursuant to this section. The city's zoning ordinance requirements shall provide as follows:*

*1. Upon approval of a rezoning or special use application approving a residential, or the residential portion of a mixed-use project with a density equal to or greater than 1.0 FAR, or an equivalent density based on units per acre, the applicant shall provide on-site Affordable Dwelling Units as part of the project, the total gross square footage of such units shall be five percent of the amount of the gross floor area of the project that exceeds 1.0 FAR or an equivalent density based on units per acre. For purposes of this section, "applicant" shall mean the person or entity submitting a rezoning or special use application for approval of a residential or mixed-use project that contains residential dwelling units in the city and shall include the successors or assigns of the applicant.*

*2. As an alternative, upon approval of a rezoning or special use application approving a residential, or the residential portion of a mixed-use project with a density equal to or greater than 1.0 FAR, or an equivalent density based on units per acre, the applicant may elect to provide any one of the following:*

*a. Affordable Dwelling Units at an off-site location in the city, the total gross square footage of such units shall be five percent of the amount of the gross floor area of the project that is over 1.0 FAR, or an equivalent density based on units per acre; or*

*b. A cash contribution to the city's affordable housing fund, which contribution shall be calculated as follows for each of the density tiers described below:*

*(1) Two dollars per square foot of gross floor area for residential projects greater than 1.0 FAR or an equivalent density based on units per acre.*

*(2) For mixed-use projects, cash contributions shall be calculated by applying the proportionate amount of residential gross floor area at two dollars per square foot.*

*The cash contribution shall be indexed to the Consumer Price Index for Housing in the Charlottesville MSA as published by the Bureau of Labor Statistics and shall be adjusted annually based upon the changes made in January to such index.*

*3. For purposes of this section, "Affordable Dwelling Units" mean units committed for a 30-year term as affordable to households with incomes at 60 percent or less of the area median income.*

*B. With the exception of the authority under § [15.2-2305](#), this section establishes the legislative authority for the city to obtain Affordable Dwelling Units in exchange for the approval of a rezoning or special use application for a residential, or mixed-use project that contains residential dwelling units in the city, and may not be used in combination with any other provision of law in this chapter to obtain Affordable Dwelling Units from an applicant. Nothing in this section shall be construed to repeal the city's authority under any other provision of law.*

## **Chapter 799 Underground transmission lines; pilot program established.**

An Act to establish a pilot program to place certain transmission lines underground.

[\[H 1319\]](#)

Approved April 2, 2008

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. There is hereby established a pilot program to construct qualifying electrical transmission lines of 230 kilovolts or less in whole or in part underground. Such pilot program*

*shall consist of a total of four qualifying electrical transmission line projects, constructed in whole or in part underground, as set forth in this act.*

*§ 2. A. Notwithstanding any other law to the contrary, as a part of the pilot program established pursuant to this act, the State Corporation Commission shall approve as a qualifying project a transmission line of 230 kilovolts or less that has received a certificate of public convenience and necessity from the State Corporation Commission prior to the effective date of this act that approved construction of an electrical transmission line in a right of way located upon land owned by a regional park authority used by the general public for park and recreation purposes, provided that the construction of such electrical transmission line has not commenced prior to the effective date of this act. The project shall be constructed in part underground, and the underground portion shall consist of a double circuit.*

*The State Corporation Commission shall approve such underground construction within 30 days of receipt of the written request of the public utility to participate in the pilot program pursuant to this section. The Commission shall not require the submission of additional technical and cost analyses as a condition of its approval, but may request such analyses for its review. The Commission shall approve the underground construction of one contiguous segment of the transmission line that is approximately 1.8 miles in length that was previously approved for construction upon or immediately adjacent to the right of way of the regional park authority, provided that the underground construction shall be located within the boundaries of such existing right of way upon the land owned by the regional park authority, excluding any substation or transition locations which may be required as a part thereof. The Commission shall make a finding establishing the termini of the underground portion of the line. The remainder of the construction for the previously approved transmission line shall be aboveground pursuant to the terms of the certificate of public convenience and necessity. The Commission shall not be required to perform any further analysis as to the impacts of this route, including environmental impacts or impacts upon historical resources.*

*The approval for constructing the above-described portion of the previously approved electrical transmission line as a double circuit underground shall not impair or delay the implementation of the certificate of public convenience and necessity and no further notice, testimony, or hearings shall be required in connection with such approval. The electric utility may proceed to acquire right of way and take such other actions as it deems appropriate in furtherance of the construction of the approved transmission line, including acquiring the cables necessary for the underground installation. Approval of a*

*transmission line pursuant to this section for inclusion in the pilot program shall be deemed to satisfy the requirements of § [15.2-2232](#) and local zoning ordinances with respect to such transmission line and any substations or transition locations that may be required.*

*B. If the qualifying project approved in subsection A provides only radial, rather than networked, electric service, there shall be a presumption of need in applications filed for a certificate of public convenience and necessity for electrical transmission lines that will complete the network for such qualifying project. The State Corporation Commission shall give priority on its docket for any such application of a public utility. Upon written request of the public utility for participation in the pilot program pursuant to this section, the Commission shall approve the construction of such additional network facilities in whole or in part underground, and such additional network facilities shall be considered a qualifying project for purposes of this act. The Commission shall not require the submission of additional technical and cost analyses as a condition of such approval, but may request such analyses for its review.*

*§ 3. In reviewing applications submitted by public utilities for certificates of public convenience and necessity for the construction of electrical transmission lines of 230 kilovolts or less filed between the effective date of this act and July 1, 2012, the State Corporation Commission shall approve three applications for qualifying projects to be constructed in whole or in part underground, as a part of the pilot program. The three qualifying projects shall be in addition to the qualifying project described in subsection A of § 2. If a public utility submits an application for a certificate of public convenience and necessity for an electrical transmission line that completes the network for a qualifying project as set forth in subsection B of § 2, the approval of such application shall constitute one of the three additional projects to be approved pursuant to this section.*

*§ 4. For purposes of this act, a project shall be qualified to be placed underground, in whole or in part, if it meets all of the following criteria:*

- 1. An engineering analysis demonstrates that it is technically feasible to place the proposed line, in whole or in part, underground;*
- 2. The estimated additional cost of placing the proposed line, in whole or in part, underground does not exceed 2.5 times the cost of placing the same line overhead, assuming accepted industry standards for undergrounding to ensure safety and reliability. If the public utility, the affected localities, and the State Corporation Commission agree, a proposed underground line whose cost exceeds 2.5 times the cost of placing the line overhead may also be accepted into the pilot program; and*

3. *The governing body of each locality in which a portion of the proposed line will be placed underground indicates, by resolution, general community support for the line to be placed underground.*

§ 5. *A. If the State Corporation Commission identifies an application as a potentially qualified project for purposes of the pilot program, the Commission shall request that the public utility provide technical and cost analyses for placing the proposed line overhead and for placing the proposed line, in whole or in part, underground.*

*B. If any application relates to the construction of a proposed line to meet a specific and identifiable industry's needs, and the project must be completed by the public utility within a specific amount of time to facilitate an economic development agreement, then such application need not include the two analyses, so long as the public utility provides documentation regarding the economic development agreement.*

§ 6. *The State Corporation Commission shall report annually to the Commission on Electric Utility Restructuring, the Joint Commission on Technology and Science, and the Governor on the progress of the pilot program by no later than December 1 of each year that this act is in effect. The State Corporation Commission shall submit a final report to the Commission on Electric Utility Restructuring, the Joint Commission on Technology and Science, and the Governor no later than December 1, 2012, analyzing the entire program and making recommendations about the continued placement of transmission lines underground in the Commonwealth.*

§ 7. *For any qualifying project chosen pursuant to this act (regardless of whether such project is chosen pursuant to § 2 or 3) and not fully recoverable as charges for new transmission facilities pursuant to subdivision A 4 of § [56-585.1](#), the State Corporation Commission shall approve a rate adjustment clause. The rate adjustment clause shall provide for the full and timely recovery of any portion of the cost of such project not recoverable under applicable rates, terms, and conditions approved by the Federal Energy Regulatory Commission and shall include the use of the fair return on common equity most recently approved in a Commission proceeding for such utility, as defined by subsection A of § [56-585.1](#). Such costs shall be entirely assigned to the utility's Virginia jurisdictional customers. The Commission's final order regarding any petition filed pursuant to this subsection shall be entered not more than three months after the filing of such petition.*

§ 8. *If a transmission line is included in the pilot program pursuant to § 3 that includes only radial, rather than networked, electric service, there shall be a presumption of need in applications for a certificate of public convenience and necessity for electrical transmission lines that will complete the network for such qualifying project. The State*

*Corporation Commission shall give priority on its docket for any such application of a public utility.*

*§ 9. Approval of a proposed transmission line for inclusion in this program shall not preclude the placing of existing or future overhead facilities in the same area or corridor by other transmission projects.*

*§ 10. Public utility companies granted a certificate of public convenience and necessity for a proposed transmission line not included in this program or not otherwise being placed underground shall seek to implement low-cost and effective means to improve the aesthetics of new overhead transmission lines and towers.*

*§ 11. The provisions of this act shall not be construed to limit the ability of the State Corporation Commission to approve additional applications for placement of transmission lines underground.*

*§ 12. If four applications are not submitted to the State Corporation Commission that meet the requirements of this act, the State Corporation Commission shall document the failure of the projects to qualify for the pilot program in order to justify approving fewer than four projects to be placed underground, in whole or in part.*

*§ 13. Insofar as the provisions of this act are inconsistent with the provisions of any other law or local ordinance, the provisions of this act shall be controlling.*

2. That an emergency exists and this act is in force from its passage.

It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as the depository of the proceeds of bonds or of revenue to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such resolution, trust agreement or indenture may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such resolution, trust agreement or indenture may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the Authority facilities or portion thereof.*

*All or any portion of the revenues derived from the ownership and operation of Authority facilities, as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement or indenture securing the same, may be pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the revenues or other moneys so pledged and thereafter*

*received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement nor indenture by which a pledge is created need be filed or recorded except in the records of the Authority.*

*§ 8. Covenants to secure bonds.*

*Any resolution authorizing the issuance of bonds of the Authority may, for the benefit and security of the holders from time to time of such bonds, contain covenants by the Authority for said purpose, including covenants as to, among other things:*

- 9. Such other covenants and agreements as may be determined necessary in the discretion of the Authority to advantageously market the revenue bonds of the Authority.*

*§ 9. Revenue bonds eligible for investment.*

*Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banks, banking associations,*

*investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital, in their control or belonging to them. Such bonds are also hereby made securities that may properly and legally be deposited with and received by any Commonwealth or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.*

*§ 10. Authority obligations to be negotiable instruments; enforcement of bonds.*

*Notwithstanding the provisions of this act, or any provisions of the laws of the Commonwealth, and any recitals in any bonds, interim receipts or any other obligations issued under the provisions of this act, all such bonds, interim receipts or other obligations shall be deemed to be negotiable instruments under the laws of this Commonwealth. The provisions of this act, and of any resolution or resolutions or indentures providing for the issuance and security of any revenue bonds, interim receipts or other obligations issued as herein set forth, shall constitute a contract with the holder or holders of any such revenue bonds, interim receipts or other obligations, and the agreements and covenants of the Authority under this act and under any such resolution, resolutions or indentures shall be enforceable by any holder or holders of revenue bonds, interim receipts or other obligations issued under the provisions of this act and any representative of such holder or holders, and any trustee appointed under the bond resolution and authorized so to do may, by suit, action, injunction, mandamus or other proceeding issued by a court of competent jurisdiction, enforce any and all rights of such holders under the laws of the Commonwealth or granted by this act and in any such bond resolution or indenture, and may compel performance of all duties required to be performed by this act and by such bond resolutions or indenture by the Authority or by any officer or agent thereof, including the fixing, charging and collecting of fees, tolls, rents, rates and other charges for the use of the Authority facilities.*

*§ 11. Exemption from taxation.*

*All property, real and personal, and all rights and interests therein and the income of the Authority, the revenue bonds and the interest thereon, and the transfer thereof and any profit made on the sale thereof, shall at all times be free from taxation or assessment by the Commonwealth and by any municipality, county or other political subdivision thereof.*

7. *When requested by the Authority, to vacate or change the location of any public highway, street or other public way or place, or any portion thereof, public utility, sewer, pipe, main, conduit, cable, wire, tower, pole and other equipment or appliance owned or controlled by or under the jurisdiction of a participating locality, in the manner required or authorized by law conferring such power on the locality, and to construct the same in such new location as shall be designated by the governing body of the locality, and the cost of vacating or changing the location or reconstruction thereof and any damages resulting therefrom required to be paid by the locality shall be reimbursed by the Authority as a part of the cost of the Project in connection with which such expenditures have been made; and*

Any holder of bonds, notes, certificates or other evidences of borrowing issued by the Authority under the provisions of this act or of any coupons appertaining thereto, and the representatives of such holders and the trustee under any bond resolution or indenture, may either at law or in equity, by suit, action, mandamus or other proceedings, protect and enforce any and all rights of the Authority under or by virtue of any such contract or agreement.*

*§ 15. Acquisition of property.*

*A. The Authority is hereby authorized and empowered to acquire solely from funds provided under the provisions of this act such lands, structures, property, rights, rights-of-way, franchises, easements and other interests in lands, including lands lying under water and riparian rights, as it may deem necessary for the construction and operation of Authority facilities, upon such terms and at such prices as may be considered by it to be reasonable and can be agreed upon between it and the owner thereof.*

*E. If the owner, lessee or occupier of any property to be condemned or otherwise acquired pursuant to this act shall refuse to remove his property therefrom or give up possession thereof, the Authority or a locality, as the case may be, may proceed to obtain possession in any manner provided by law.*

*F. When the Authority or a locality under this act proposes to construct a highway across the tracks of any railroad, the exercise of the general power of eminent domain over the property of a railroad granted by this act shall be limited with respect to the property, right-of-way, facilities, works or appurtenances upon which the tracks at such proposed crossing are located, to the acquisition only of an easement therein, which crossing shall be constructed either sufficiently above or below the grade of any such railroad track or tracks so that neither the crossing then under construction nor any part thereof, including any bridge abutments, columns, supporting structures and appurtenances, nor any traffic upon it shall interfere in any manner with the use, operation or maintenance of the trains, tracks, works or appurtenances of the railroad nor interfere with or endanger the movement of the trains or traffic upon the tracks of the railroad. § [2.2-3800](#). Short title; findings; principles of information practice.

A. This chapter may be cited as the "Government Data Collection and Dissemination Practices Act."

B. The General Assembly finds that:

1. An individual's privacy is directly affected by the extensive collection, maintenance, use and dissemination of personal information;
2. The increasing use of computers and sophisticated information technology has greatly magnified the harm that can occur from these practices;
3. An individual's opportunities to secure employment, insurance, credit, and his right to due process, and other legal protections are endangered by the misuse of certain of these personal information systems; and
4. In order to preserve the rights guaranteed a citizen in a free society, legislation is necessary to establish procedures to govern information systems containing records on individuals.

C. Recordkeeping agencies of the Commonwealth and political subdivisions shall adhere to the following principles of information practice to ensure safeguards for personal privacy:

1. There shall be no personal information system whose existence is secret.
2. Information shall not be collected unless the need for it has been clearly established in advance.
3. Information shall be appropriate and relevant to the purpose for which it has been collected.
4. Information shall not be obtained by fraudulent or unfair means.
5. Information shall not be used unless it is accurate and current.
6. There shall be a prescribed procedure for an individual to learn the purpose for which information has been recorded and particulars about its use and dissemination.
7. There shall be a clearly prescribed and uncomplicated procedure for an individual to correct, erase or amend inaccurate, obsolete or irrelevant information.
8. Any agency holding personal information shall assure its reliability and take precautions to prevent its misuse. ~~On and after July 1, 2004, no agency shall display the social security number of a data subject on a student or employee identification card, except that for universities and colleges that have such a prevention plan for misuse of personal information in place on or before July 1, 2004, in compliance with this section, the date shall be January 1, 2005. On and after July 1, 2006, no agency shall display an individual's entire social security number on any student or employee identification card.~~
9. There shall be a clearly prescribed procedure to prevent personal information collected for one purpose from being used for another purpose.
10. The Commonwealth or any agency or political subdivision thereof shall not collect personal information except as explicitly or implicitly authorized by law.

~~D. After July 1, 2004, no agency, as defined in § 42.1-77, shall send or deliver or cause to be sent or delivered, any letter, envelope or package that displays a social security number on the face of the mailing envelope or package or from which a social security number is visible, whether on the outside or inside of the mailing envelope or package.~~ § 2.2-3801. *§ 8. Investments and contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for*

*investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A. of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B. of this section.*

*§ 9. Security for bonds and BANs.*

*The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The bonds and BANs issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs.*

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability.*

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

The CIO may issue a request for information to seek out potential private partners interested in providing programs or projects pursuant to an agreement under this subsection. The compensation for such services shall be computed with reference to and paid from the increased revenue or cost savings attributable to the successful implementation of the program or project for the period specified in the contract. The CIO shall be responsible for reviewing and approving the programs and projects and the terms of contracts for same under this subsection. The CIO shall determine annually the total amount of increased revenue or cost savings attributable to the successful implementation of a program or project under this subsection and such amount shall be deposited in the Virginia Technology Infrastructure Fund created in § [2.2-2023](#). The CIO is authorized to use moneys deposited in the Fund to pay private partners pursuant to the terms of contracts under this subsection. All moneys in excess of that required to be paid to private partners, as determined by the CIO, shall be reported to the Comptroller and retained in the Fund. The CIO shall prepare an annual report to the Governor, *the Secretary*, and General Assembly on all contracts under this subsection, describing each information technology program or project, its progress, revenue impact, and such other information as may be relevant.

*C. The CIO shall strive to follow acceptable technology investment methods, such as Information Technology Investment Management (ITIM) principles developed by the United States Government Accountability Office, to ensure that all technology expenditures are an integral part of the Commonwealth's performance management system and are aligned with (i) agency strategic business objectives, (ii) the Governor's policy objectives, and (iii) the long-term objectives of the Council on Virginia's Future.*

*D. Subject to review and approval by the Secretary, the CIO shall have the authority to enter*

*into and amend contracts for the provision of information technology services.*

§ [2.2-2008](#). Additional duties of the CIO relating to project management.

The CIO shall have the following duties relating to the management of information technology projects:

1. Develop an approval process for proposed major information technology projects by state agencies to ensure that all such projects conform to the statewide information management plan and the information management plans of agencies and public institutions of higher education.
2. Establish a methodology for conceiving, planning, scheduling and providing appropriate oversight for information technology projects including a process for approving the planning, development and procurement of information technology projects. Such methodology shall include guidelines for the establishment of appropriate oversight for information technology projects.

8. Determine, prior to proceeding with the development of a major information technology project pursuant to § [2.2-2019](#) or the procurement of any major information technology project pursuant to § [2.2-2020](#), that the funding for such project has been included in the budget bill in accordance with § [2.2-1509.3](#). ~~Notwithstanding the~~ *The* provisions of this subdivision; *shall not apply* upon a determination by the Governor that an emergency exists and a major information technology project is necessary to address the emergency, ~~the CIO shall refer such project directly to the Information Technology Investment Board.~~

§ [2.2-2009](#). Additional duties of the CIO relating to security of government information.

A. To provide for the security of state government electronic information from unauthorized uses, intrusions or other security threats, the CIO shall direct the development of policies, procedures and standards for assessing security risks, determining the appropriate security measures and performing security audits of government electronic information. Such policies, procedures, and standards will apply to the Commonwealth's executive, legislative, and judicial branches, and independent agencies and institutions of higher education. The CIO shall work with representatives of the Chief Justice of the Supreme Court and Joint Rules Committee of the General Assembly to identify their needs.

B. The CIO shall also develop policies, procedures, and standards that shall address the scope of security audits and the frequency of such security audits. In developing and updating such policies, procedures, and standards, the CIO shall designate a government entity to oversee, plan and coordinate the conduct of periodic security audits of all executive branch and independent agencies and institutions of higher education. The CIO will coordinate these audits with the Auditor of Public Accounts and the Joint Legislative Audit and Review Commission. The Chief Justice of the Supreme Court and the Joint Rules Committee of the General Assembly shall determine the most appropriate methods to review the protection of electronic information within their branches.

C. The CIO shall *annually* report to the Governor, *the Secretary*, and General Assembly ~~by December 2008 and annually thereafter~~; those executive branch and independent agencies and institutions of higher education that have not implemented acceptable policies, procedures, and standards to control unauthorized uses, intrusions, or other security threats. For any executive branch ~~and~~ *or* independent agency or institution of higher education whose security audit results and plans for corrective action are unacceptable, the CIO shall report such results to ~~the (i) Information Technology Investment Board~~ *the Secretary*, (ii) *any other* affected cabinet secretary, (iii) *the* Governor, and (iv) *the* Auditor of Public Accounts. Upon review of the security audit results in question, ~~the Information Technology Investment Board~~ *CIO* may take action to suspend the public ~~bodies~~ *body's* information technology projects pursuant to ~~subdivision 3 of § 2.2-2458~~ § [2.2-2015](#), limit additional information technology investments pending acceptable corrective actions, and recommend to the Governor *and Secretary* any other appropriate actions.

*The CIO shall also include in this report (a) results of security audits, including those state agencies, independent agencies, and institutions of higher education that have not implemented acceptable regulations, standards, policies, and guidelines to control unauthorized uses, intrusions, or other security threats and (b) the extent to which security standards and guidelines have been adopted by state agencies.*

D. All public bodies subject to such audits as required by this section shall fully cooperate with the entity designated to perform such audits and bear any associated costs. Public bodies that are not required to but elect to use the entity designated to perform such audits shall also bear any associated costs.

E. The provisions of this section shall not infringe upon responsibilities assigned to the Comptroller, the Auditor of Public Accounts, or the Joint Legislative Audit and Review Commission by other provisions of the Code of Virginia.

F. To ensure the security and privacy of citizens of the Commonwealth in their interactions with state government, the CIO shall direct the development of policies, procedures, and standards for the protection of confidential data maintained by state agencies against unauthorized access and use. Such policies, procedures, and standards shall include, but not be limited to:

1. Requirements that any state employee or other authorized user of a state technology asset provide passwords or other means of authentication to (i) use a technology asset and (ii) access a state-owned or operated computer network or database; and
2. Requirements that a digital rights management system or other means of authenticating and controlling an individual's ability to access electronic records be utilized to limit access to and use of electronic records that contain confidential data to authorized individuals.

G. The CIO shall promptly receive reports from directors of departments in the executive branch of state government made in accordance with § [2.2-603](#) and shall take such actions as are necessary, convenient or desirable to ensure the security of the Commonwealth's electronic information and confidential data.

*H. The CIO shall also develop policies, procedures, and standards that shall address the creation and operation of a risk management program designed to identify information technology security gaps and develop plans to mitigate the gaps. All agencies in the Commonwealth shall cooperate with the CIO. Such cooperation includes, but is not limited to, (i) providing the CIO with information required to create and implement a Commonwealth risk management program; (ii) creating an agency risk management program; and (iii) complying with all other risk management activities.*

§ [2.2-2012](#). Procurement of information technology and telecommunications goods and services; computer equipment to be based on performance-based specifications.

A. Information technology and telecommunications goods and services of every description shall be procured by (i) VITA for its own benefit or on behalf of other state agencies and institutions or (ii) such other agencies or institutions to the extent authorized by VITA. Such procurements shall be made in accordance with the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.), regulations that implement the electronic and information technology accessibility standards of the Rehabilitation Act of 1973 (29 U.S.C. § 794d), as amended, and any regulations as may be prescribed by VITA. In no case shall such procurements exceed the requirements of the regulations that implement the electronic and information technology accessibility standards of the Rehabilitation Act of 1973, as amended.

The CIO shall disapprove any procurement that does not conform to the statewide information technology plan or to the individual plans of state agencies or public institutions of higher education.

B. All statewide contracts and agreements made and entered into by VITA for the purchase of communications services, telecommunications facilities, and information technology goods and services shall provide for the inclusion of counties, cities, and towns in such contracts and agreements. Notwithstanding the provisions of § [2.2-4301](#), VITA may enter into multiple vendor contracts for the referenced services, facilities, and goods and services.

~~B~~C. The Department may establish contracts for the purchase of personal computers and related devices by licensed teachers employed in a full-time teaching capacity in Virginia public schools or in state educational facilities for use outside the classroom. The computers and related devices shall not be purchased with public funds, but shall be paid for and owned by teachers individually provided that no more than one such computer and related device per year shall be so purchased.

~~C~~D. If VITA, or any agency or institution authorized by VITA, elects to procure personal computers and related peripheral equipment pursuant to any type of blanket purchasing arrangement under which public bodies, as defined in § [2.2-4301](#), may purchase such goods from any vendor following competitive procurement but without the conduct of an individual procurement by or for the using agency or institution, it shall establish performance-based specifications for the selection of equipment. Establishment of such contracts shall emphasize performance criteria including price, quality, and delivery without regard to "brand name." All vendors meeting the Commonwealth's performance requirements shall be afforded the opportunity to compete for such contracts.

~~D~~E. This section shall not be construed or applied so as to infringe upon, in any manner, the responsibilities for accounting systems assigned to the Comptroller under § [2.2-803](#).

~~E~~F. The CIO of VITA shall, on or before October 1, 2009, and every two years thereafter, solicit from each state agency and public institution of higher education a list of procurements that were competed with the private sector that appear on the Commonwealth Competition Council's commercial activities list and were, until that time, being performed by each state agency and public institution of higher education during the previous two years, and the outcome of that competition. The CIO shall make the lists available to the public on VITA's website.

§ [2.2-2013](#). Internal service funds; Automated Services Internal Service Fund; Computer Services Internal Service Fund; Telecommunication Services Internal Service Fund.

A. There are established the following internal service funds to be administered by VITA:

1. The Automated Services Internal Service Fund to be used to finance automated systems design, development and testing services and staff of VITA;
2. The Computer Services Internal Service Fund to be used to finance computer operations and staff of VITA; and
3. The Telecommunication Services Internal Service Fund to be used to finance telecommunications operations and staff of VITA.

B. There is established the Acquisition Services Special Fund to be administered by VITA and used to finance procurement and contracting activities and programs unallowable for federal fund reimbursement.

C. All users of services provided for in this chapter administered by VITA shall be assessed a surcharge, which shall be deposited in the appropriate fund. This charge shall be an amount sufficient to allow VITA to finance the operations and staff of the services offered.

D. Additional moneys necessary to establish these funds or provide for the administration of the activities of VITA may be advanced from the general account of the state treasury.

*E. The CIO shall direct that the following activities be conducted with respect to VITA's internal service funds:*

*1. VITA shall establish fee schedules for the collection of fees from users when general fund appropriations are not available for the services rendered.*

*2. VITA shall develop and implement information, billing, and collections methods that will assist state agencies in analyzing and effectively managing their use of VITA's services, and which will allow VITA to forecast service demands and balances of its internal service funds.*

*3. By September 1 of each year, VITA shall submit biennial projections of future revenues and expenditures for each internal service fund and estimates of any anticipated changes to fee schedules to the Joint Legislative Audit and Review Commission and the Department of Planning and Budget.*

*4. In the event that changes to fee schedules or rates are required, the CIO shall submit documentation to the Joint Legislative Audit and Review Commission and the Department of Planning and Budget no later than September 1 prior to the fiscal year in which the new or revised rates are to take effect so that the impact of the rate changes can be considered for inclusion in the executive budget submitted to the General Assembly pursuant to [§ 2.2-1508](#). In emergency circumstances, deviations from this approach shall be approved in advance by the Joint Legislative Audit and Review Commission.*

§ [2.2-2015](#). Authority of CIO to modify or suspend major information technology projects; project termination.

The CIO may direct the modification or suspension of any major information technology project that, as the result of a periodic review authorized by subdivision A 5 of § [2.2-2007](#), has not met the performance measures agreed to by the CIO and the sponsoring agency or public institution of higher education or if he otherwise deems such action appropriate and consistent with the terms of any affected contracts. The CIO may recommend to the ~~Board~~ *Secretary* the termination of such project. Nothing in this section shall be construed to supersede the responsibility of a board of visitors for the management and operation of a public institution of higher education.

The provisions of this section shall not apply to research projects, research initiatives or instructional programs at public institutions of higher education. However, technology investments in research projects, research initiatives or instructional programs at such institutions estimated to cost \$1 million or more of general fund appropriations may be reviewed as provided in subdivision A 5 of § [2.2-2007](#) if the projects are deemed mission-critical by the institution or of statewide application by the CIO. The CIO and the Secretary of Education, in consultation with public institutions of higher education, shall develop and provide to such institution criteria to be used in determining whether projects are mission-critical.

§ [2.2-2019](#). Project development approval.

A. Upon approval of the CIO of the project plan, an agency shall submit to the Division a project development proposal containing (i) a detailed business case including a cost-benefit analysis; (ii) a business process analysis, if applicable; (iii) system requirements, if known; (iv) a proposed development plan and project management structure; and (v) a proposed resource or funding plan. The project management specialist may require the submission of additional information necessary to meet the criteria developed by the Division.

B. The project management specialist assigned to review the project development proposal shall recommend its approval or rejection to the CIO. ~~If the CIO determines that the proposal be approved, he shall recommend such approval to the Board.~~

§ [2.2-2020](#). Procurement approval for major information technology projects.

Upon approval of the ~~Board~~ *CIO* of the project development proposal involving a major information technology project that requires the procurement of goods or services, the agency shall submit a copy of any Invitation for Bid (IFB) or Request for Proposal (RFP) to the Division. The project management specialist shall review the IFB or RFP and recommend its approval or rejection to the ~~CIO~~ *Secretary*. The ~~CIO~~ *Secretary*, pursuant

to § [2.2-225](#), shall have the final authority to approve the IFB or RFP prior to its release and shall approve the proposed contract for the award of the project.

§ [2.2-2021](#). Project oversight.

A. Whenever an agency has received approval from the ~~Board~~ *Secretary* to proceed with the development and acquisition of a major information technology project, an internal agency oversight committee shall be established by the CIO. The internal agency oversight committee shall provide ongoing oversight for the project and have the authority to approve or reject any changes in the project's scope, schedule, or budget. The CIO shall ensure that the project has in place adequate project management and oversight structures for addressing major issues that could affect the project's scope, schedule or budget and shall address issues that cannot be resolved by the internal agency oversight committee.

B. Whenever a statewide or multiagency project has received approval from the ~~Board~~ *Secretary*, the primary project oversight shall be conducted by a committee composed of representatives from agencies impacted by the project, which shall be established by the CIO.

§ [2.2-2023](#). Virginia Technology Infrastructure Fund created; contributions.

A. The Virginia Technology Infrastructure Fund (the Fund) is created in the state treasury. The Fund is to be used to fund major information technology projects or to pay private partners as authorized in subsection B of § [2.2-2007](#).

B. The Fund shall consist of: (i) the transfer of general and nongeneral fund appropriations from state agencies which represent savings that accrue from reductions in the cost of information technology and communication services, (ii) the transfer of general and nongeneral fund appropriations from state agencies which represent savings from the implementation of information technology enterprise projects, (iii) funds identified pursuant to subsection B of § [2.2-2007](#), (iv) such general and nongeneral fund fees or surcharges as may be assessed to agencies for enterprise technology projects, (v) gifts, grants, or donations from public or private sources, and (vi) such other funds as may be appropriated by the General Assembly. Savings shall be as identified by the CIO through a methodology ~~approved~~ *reviewed* by the ~~Board~~ *ITAC* and *approved* by the Secretary of Finance. The Auditor of Public Accounts shall certify the amount of any savings identified by the CIO. For public institutions of higher education, however, savings shall consist only of that portion of total savings that represent general funds. The State Comptroller is authorized to transfer cash consistent with appropriation transfers. Appropriated funds from federal sources are exempted from transfer. Except for funds to pay private

partners as authorized in subsection B of § [2.2-2007](#), moneys in the Fund shall only be expended as provided by the appropriation act.

Interest earned on the Fund shall be credited to the Fund. The Fund shall be permanent and nonreverting. Any unexpended balance in the Fund at the end of the biennium shall not be transferred to the general fund of the state treasury.

*Nonlegislative citizen members shall be appointed for terms of four years. Appointments to fill vacancies, other than by expiration of a term, shall be for the unexpired terms. All members may be reappointed. However, no nonlegislative citizen member shall serve more than two consecutive four-year terms. The remainder of any term to which a member is appointed to fill a vacancy shall not constitute a term in determining the member's eligibility for reappointment. Vacancies shall be filled in the same manner as the original appointments.*

*C. The Secretary of Technology shall serve as chairman of the ITAC. The CIO shall serve as vice-chairman. A majority of the members shall constitute a quorum. The ITAC shall meet at least quarterly each year. The meetings of the ITAC shall be held at the call of the chairman or whenever the majority of the members so request.*

*§ [2.2-2699.7](#). Health Information Technology Standards Advisory Committee.*

*The ITAC may appoint an advisory committee of persons with expertise in health care and information technology to advise the ITAC on the utilization of nationally recognized technical and data standards for health information technology systems or software pursuant to subdivision 5 of § [2.2-2699.6](#). § [23-38.111](#). Information technology.

Subject to the terms of the management agreement, covered institutions may be exempt from the provisions governing the Virginia Information Technologies Agency, Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2., and the provisions governing the Information Technologies Investment Board Advisory Council, Article ~~20~~ 35 (§ [2.2-2699.5](#) et seq.) of Chapter ~~24~~ (~~§ [2.2-2457](#) et seq.~~) 26 of Title 2.2; provided, however, that the governing body of a covered institution shall adopt, and the covered institution shall comply with, policies for the procurement of information technology goods and services, including professional services, that are consistent with the requirements of § [23-38.110](#) and that include provisions addressing cooperative arrangements for such procurement as described in § [23-38.110](#), and shall adopt and comply with institutional policies and professional best practices regarding strategic planning for information technology, project management, security, budgeting, infrastructure, and ongoing operations.

§ [23-77.4](#). Medical center management.

A. The General Assembly recognizes and finds that the economic viability of the University of Virginia Medical Center, hereafter referred to as the Medical Center, together with the requirement for its specialized management and operation, and the need of the Medical Center to participate in cooperative arrangements reflective of changes in health care delivery, as set forth in § [23-77.3](#), are dependent upon the ability of the management of the Medical Center to make and implement promptly decisions necessary to conduct the affairs of the Medical Center in an efficient, competitive manner. The General Assembly also recognizes and finds that it is critical to, and in the best interests of, the Commonwealth that the University continue to fulfill its mission of providing quality medical and health sciences education and related research and, through the presence of its Medical Center, continue to provide for the care, treatment, health-related services, and education activities associated with Virginia patients, including indigent and medically indigent patients. Because the General Assembly finds that the ability of the University to fulfill this mission is highly dependent upon revenues derived from providing health care through its Medical Center, and because the General Assembly also finds that the ability of the Medical Center to continue to be a reliable source of such revenues is heavily dependent upon its ability to compete with other providers of health care that are not subject to the requirements of law applicable to agencies of the Commonwealth, the University is hereby authorized to implement the following modifications

to the management and operation of the affairs of the Medical Center in order to enhance its economic viability:

B. Capital projects; leases of property; procurement of goods, services and construction.

1. Capital projects.

a. For any Medical Center capital project entirely funded by a nongeneral fund appropriation made by the General Assembly, all post-appropriation review, approval, administrative, and policy and procedure functions performed by the Department of General Services, the Division of Engineering and Buildings, the Department of Planning and Budget and any other agency that supports the functions performed by these departments are hereby delegated to the University, subject to the following stipulations and conditions: (i) the Board of Visitors shall develop and implement an appropriate system of policies, procedures, reviews and approvals for Medical Center capital projects to which this subdivision applies; (ii) the system so adopted shall provide for the review and approval of any Medical Center capital project to which this subdivision applies in order to ensure that, except as provided in clause (iii), the cost of any such capital project does not exceed the sum appropriated therefor and that the project otherwise complies with all requirements of the Code of Virginia regarding capital projects, excluding only the post-appropriation review, approval, administrative, and policy and procedure functions performed by the Department of General Services, the Division of Engineering and Buildings, the Department of Planning and Budget and any other agency that supports the functions performed by these departments; (iii) the Board of Visitors may, during any fiscal year, approve a transfer of up to a total of 15 percent of the total nongeneral fund appropriation for the Medical Center in order to supplement funds appropriated for a capital project or capital projects of the Medical Center, provided that the Board of Visitors finds that the transfer is necessary to effectuate the original intention of the General Assembly in making the appropriation for the capital project or projects in question; (iv) the University shall report to the Department of General Services on the status of any such capital project prior to commencement of construction of, and at the time of acceptance of, any such capital project; and (v) the University shall ensure that Building Officials and Code Administrators (BOCA) Code and fire safety inspections of any such project are conducted and that such projects are inspected by the State Fire Marshal or his designee prior to certification for building occupancy by the University's assistant state building official to whom such inspection responsibility has been delegated pursuant to § [36-98.1](#). Nothing in this section shall be deemed to relieve the University of any reporting requirement pursuant to § [2.2-1513](#). Notwithstanding the foregoing, the

terms and structure of any financing of any capital project to which this subdivision applies shall be approved pursuant to § [2.2-2416](#).

b. No capital project to which this subdivision applies shall be materially increased in size or materially changed in scope beyond the plans and justifications that were the basis for the project's appropriation unless: (i) the Governor determines that such increase in size or change in scope is necessary due to an emergency or (ii) the General Assembly approves the increase or change in a subsequent appropriation for the project. After construction of any such capital project has commenced, no such increase or change may be made during construction unless the conditions in (i) or (ii) have been satisfied.

## 2. Leases of property.

a. The University shall be exempt from the provisions of § [2.2-1149](#) and from any rules, regulations and guidelines of the Division of Engineering and Buildings in relation to leases of real property that it enters into on behalf of the Medical Center and, pursuant to policies and procedures adopted by the Board of Visitors, may enter into such leases subject to the following conditions: (i) the lease must be an operating lease and not a capital lease as defined in guidelines established by the Secretary of Finance and Generally Accepted Accounting Principles (GAAP); (ii) the University's decision to enter into such a lease shall be based upon cost, demonstrated need, and compliance with guidelines adopted by the Board of Visitors which direct that competition be sought to the maximum practical degree, that all costs of occupancy be considered, and that the use of the space to be leased actually is necessary and is efficiently planned; (iii) the form of the lease is approved by the Special Assistant Attorney General representing the University; (iv) the lease otherwise meets all requirements of law; (v) the leased property is certified for occupancy by the building official of the political subdivision in which the leased property is located; and (vi) upon entering such leases and upon any subsequent amendment of such leases, the University shall provide copies of all lease documents and any attachments thereto to the Department of General Services.

b. Notwithstanding the provisions of §§ [2.2-1155](#) and [23-4.1](#), but subject to policies and procedures adopted by the Board of Visitors, the University may lease, for a purpose consistent with the mission of the Medical Center and for a term not to exceed 50 years, property in the possession or control of the Medical Center.

c. Notwithstanding the foregoing, the terms and structure of any financing arrangements secured by capital leases or other similar lease financing agreements shall be approved pursuant to § [2.2-2416](#).

## 3. Procurement of goods, services and construction.

Contracts awarded by the University in compliance with this section, on behalf of the Medical Center, for the procurement of goods; services, including professional services; construction; and information technology and telecommunications, shall be exempt from (i) the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.), except as provided below; (ii) the requirements of the Division of Purchases and Supply of the Department of General Services as set forth in Article 3 (§ [2.2-1109](#) et seq.) of Chapter 11 of Title 2.2; (iii) the requirements of the Division of Engineering and Buildings as set forth in Article 4 (§ [2.2-1129](#) et seq.) of Chapter 11 of Title 2.2; and (iv) the authority of the *Chief Information Officer and the Virginia Information Technologies Agency* as set forth in Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2 and the Information Technology Investment Board created pursuant to § [2.2-2457](#) regarding the review and approval of contracts for (a) the construction of Medical Center capital projects and (b) information technology and telecommunications projects; however, the provisions of this subdivision may not be implemented by the University until such time as the Board of Visitors has adopted guidelines generally applicable to the procurement of goods, services, construction and information technology and telecommunications projects by the Medical Center or by the University on behalf of the Medical Center. Such guidelines shall be based upon competitive principles and shall in each instance seek competition to the maximum practical degree. The guidelines shall implement a system of competitive negotiation for professional services; shall prohibit discrimination because of race, religion, color, sex, or national origin of the bidder or offeror in the solicitation or award of contracts; may take into account in all cases the dollar amount of the intended procurement, the term of the anticipated contract, and the likely extent of competition; may implement a pre-qualification procedure for contractors or products; may include provisions for cooperative procurement arrangements with private health or educational institutions, or with public agencies or institutions of the several states, territories of the United States or the District of Columbia; shall incorporate the prompt payment principles of §§ [2.2-4350](#) and [2.2-4354](#); and may implement provisions of law. The following sections of the Virginia Public Procurement Act shall continue to apply to procurements by the Medical Center or by the University on behalf of the Medical Center: §§ [2.2-4311](#), [2.2-4315](#), and [2.2-4342](#) (which section shall not be construed to require compliance with the pre-qualification application procedures of subsection B of § [2.2-4317](#)), [2.2-4330](#), [2.2-4333](#) through [2.2-4341](#), and [2.2-4367](#) through [2.2-4377](#).

C. Subject to such conditions as may be prescribed in the budget bill under § [2.2-1509](#) as enacted into law by the General Assembly, the State Comptroller shall credit, on a monthly basis, to the nongeneral fund operating cash balances of the University of

Virginia Medical Center the imputed interest earned by the investment of such non-general fund operating cash balances, including but not limited to those balances derived from patient care revenues, on deposit with the State Treasurer.

§ [2.2-2009](#). Additional duties of the CIO relating to security of government information.

A. To provide for the security of state government electronic information from unauthorized uses, intrusions or other security threats, the CIO shall direct the development of policies, procedures and standards for assessing security risks, determining the appropriate security measures and performing security audits of government electronic information. Such policies, procedures, and standards will apply to the Commonwealth's executive, legislative, and judicial branches, and independent agencies and institutions of higher education. The CIO shall work with representatives of the Chief Justice of the Supreme Court and Joint Rules Committee of the General Assembly to identify their needs.

B. The CIO shall also develop policies, procedures, and standards that shall address the scope of security audits and the frequency of such security audits. In developing and updating such policies, procedures, and standards, the CIO shall designate a government entity to oversee, plan and coordinate the conduct of periodic security audits of all executive branch and independent agencies and institutions of higher education. The CIO will coordinate these audits with the Auditor of Public Accounts and the Joint Legislative Audit and Review Commission. The Chief Justice of the Supreme Court and the Joint Rules Committee of the General Assembly shall determine the most appropriate methods to review the protection of electronic information within their branches.

C. The CIO shall *annually* report to the Governor, *the Secretary*, and General Assembly ~~by December 2008 and annually thereafter~~; those executive branch and independent agencies and institutions of higher education that have not implemented acceptable policies, procedures, and standards to control unauthorized uses, intrusions, or other security threats. For any executive branch ~~and~~ *or* independent agency or institution of higher education whose security audit results and plans for corrective action are unacceptable, the CIO shall report such results to the (i) ~~Information Technology Investment Board~~ *the Secretary*, (ii) *any other* affected cabinet secretary, (iii) *the* Governor, and (iv) *the* Auditor of Public Accounts. Upon review of the security audit results in question, the ~~Information Technology Investment Board~~ *CIO* may take action to suspend the public ~~bodies~~ *body's* information technology projects pursuant to ~~subdivision 3 of §~~ [2.2-2458](#) § [2.2-2015](#), limit additional information technology investments pending acceptable corrective actions, and recommend to the Governor *and Secretary* any other appropriate actions.

*The CIO shall also include in this report (a) results of security audits, including those state agencies, independent agencies, and institutions of higher education that have not implemented acceptable regulations, standards, policies, and guidelines to control unau-*

*thorized uses, intrusions, or other security threats and (b) the extent to which security standards and guidelines have been adopted by state agencies.*

D. All public bodies subject to such audits as required by this section shall fully cooperate with the entity designated to perform such audits and bear any associated costs.

Public bodies that are not required to but elect to use the entity designated to perform such audits shall also bear any associated costs.

E. The provisions of this section shall not infringe upon responsibilities assigned to the Comptroller, the Auditor of Public Accounts, or the Joint Legislative Audit and Review Commission by other provisions of the Code of Virginia.

F. To ensure the security and privacy of citizens of the Commonwealth in their interactions with state government, the CIO shall direct the development of policies, procedures, and standards for the protection of confidential data maintained by state agencies against unauthorized access and use. Such policies, procedures, and standards shall include, but not be limited to:

1. Requirements that any state employee or other authorized user of a state technology asset provide passwords or other means of authentication to (i) use a technology asset and (ii) access a state-owned or operated computer network or database; and

2. Requirements that a digital rights management system or other means of authenticating and controlling an individual's ability to access electronic records be utilized to limit access to and use of electronic records that contain confidential data to authorized individuals.

G. The CIO shall promptly receive reports from directors of departments in the executive branch of state government made in accordance with § [2.2-603](#) and shall take such actions as are necessary, convenient or desirable to ensure the security of the Commonwealth's electronic information and confidential data.

*H. The CIO shall also develop policies, procedures, and standards that shall address the creation and operation of a risk management program designed to identify information technology security gaps and develop plans to mitigate the gaps. All agencies in the Commonwealth shall cooperate with the CIO. Such cooperation includes, but is not limited to, (i) providing the CIO with information required to create and implement a Commonwealth risk management program; (ii) creating an agency risk management program; and (iii) complying with all other risk management activities.*

§ [2.2-2012](#). Procurement of information technology and telecommunications goods and services; computer equipment to be based on performance-based specifications.

A. Information technology and telecommunications goods and services of every description shall be procured by (i) VITA for its own benefit or on behalf of other state agencies

and institutions or (ii) such other agencies or institutions to the extent authorized by VITA. Such procurements shall be made in accordance with the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.), regulations that implement the electronic and information technology accessibility standards of the Rehabilitation Act of 1973 (29 U.S.C. § 794d), as amended, and any regulations as may be prescribed by VITA. In no case shall such procurements exceed the requirements of the regulations that implement the electronic and information technology accessibility standards of the Rehabilitation Act of 1973, as amended.

The CIO shall disapprove any procurement that does not conform to the statewide information technology plan or to the individual plans of state agencies or public institutions of higher education.

B. All statewide contracts and agreements made and entered into by VITA for the purchase of communications services, telecommunications facilities, and information technology goods and services shall provide for the inclusion of counties, cities, and towns in such contracts and agreements. Notwithstanding the provisions of § [2.2-4301](#), VITA may enter into multiple vendor contracts for the referenced services, facilities, and goods and services.

~~B~~C. The Department may establish contracts for the purchase of personal computers and related devices by licensed teachers employed in a full-time teaching capacity in Virginia public schools or in state educational facilities for use outside the classroom. The computers and related devices shall not be purchased with public funds, but shall be paid for and owned by teachers individually provided that no more than one such computer and related device per year shall be so purchased.

~~C~~D. If VITA, or any agency or institution authorized by VITA, elects to procure personal computers and related peripheral equipment pursuant to any type of blanket purchasing arrangement under which public bodies, as defined in § [2.2-4301](#), may purchase such goods from any vendor following competitive procurement but without the conduct of an individual procurement by or for the using agency or institution, it shall establish performance-based specifications for the selection of equipment. Establishment of such contracts shall emphasize performance criteria including price, quality, and delivery without regard to "brand name." All vendors meeting the Commonwealth's performance requirements shall be afforded the opportunity to compete for such contracts.

~~D~~E. This section shall not be construed or applied so as to infringe upon, in any manner, the responsibilities for accounting systems assigned to the Comptroller under § [2.2-803](#).

E-F. The CIO of VITA shall, on or before October 1, 2009, and every two years thereafter, solicit from each state agency and public institution of higher education a list of procurements that were competed with the private sector that appear on the Commonwealth Competition Council's commercial activities list and were, until that time, being performed by each state agency and public institution of higher education during the previous two years, and the outcome of that competition. The CIO shall make the lists available to the public on VITA's website.

§ [2.2-2013](#). Internal service funds; Automated Services Internal Service Fund; Computer Services Internal Service Fund; Telecommunication Services Internal Service Fund.

A. There are established the following internal service funds to be administered by VITA:

1. The Automated Services Internal Service Fund to be used to finance automated systems design, development and testing services and staff of VITA;
2. The Computer Services Internal Service Fund to be used to finance computer operations and staff of VITA; and
3. The Telecommunication Services Internal Service Fund to be used to finance telecommunications operations and staff of VITA.

B. There is established the Acquisition Services Special Fund to be administered by VITA and used to finance procurement and contracting activities and programs unallowable for federal fund reimbursement.

C. All users of services provided for in this chapter administered by VITA shall be assessed a surcharge, which shall be deposited in the appropriate fund. This charge shall be an amount sufficient to allow VITA to finance the operations and staff of the services offered.

D. Additional moneys necessary to establish these funds or provide for the administration of the activities of VITA may be advanced from the general account of the state treasury.

*E. The CIO shall direct that the following activities be conducted with respect to VITA's internal service funds:*

- 1. VITA shall establish fee schedules for the collection of fees from users when general fund appropriations are not available for the services rendered.*
- 2. VITA shall develop and implement information, billing, and collections methods that will assist state agencies in analyzing and effectively managing their use of VITA's services, and which will allow VITA to forecast service demands and balances of its internal service funds.*
- 3. By September 1 of each year, VITA shall submit biennial projections of future revenues and expenditures for each internal service fund and estimates of any anticipated*

*changes to fee schedules to the Joint Legislative Audit and Review Commission and the Department of Planning and Budget.*

*4. In the event that changes to fee schedules or rates are required, the CIO shall submit documentation to the Joint Legislative Audit and Review Commission and the Department of Planning and Budget no later than September 1 prior to the fiscal year in which the new or revised rates are to take effect so that the impact of the rate changes can be considered for inclusion in the executive budget submitted to the General Assembly pursuant to § [2.2-1508](#). In emergency circumstances, deviations from this approach shall be approved in advance by the Joint Legislative Audit and Review Commission.*

§ [2.2-2015](#). Authority of CIO to modify or suspend major information technology projects; project termination.

The CIO may direct the modification or suspension of any major information technology project that, as the result of a periodic review authorized by subdivision A 5 of § [2.2-2007](#), has not met the performance measures agreed to by the CIO and the sponsoring agency or public institution of higher education or if he otherwise deems such action appropriate and consistent with the terms of any affected contracts. The CIO may recommend to the ~~Board~~ Secretary the termination of such project. Nothing in this section shall be construed to supersede the responsibility of a board of visitors for the management and operation of a public institution of higher education.

The provisions of this section shall not apply to research projects, research initiatives or instructional programs at public institutions of higher education. However, technology investments in research projects, research initiatives or instructional programs at such institutions estimated to cost \$1 million or more of general fund appropriations may be reviewed as provided in subdivision A 5 of § [2.2-2007](#) if the projects are deemed mission-critical by the institution or of statewide application by the CIO. The CIO and the Secretary of Education, in consultation with public institutions of higher education, shall develop and provide to such institution criteria to be used in determining whether projects are mission-critical.

§ [2.2-2019](#). Project development approval.

A. Upon approval of the CIO of the project plan, an agency shall submit to the Division a project development proposal containing (i) a detailed business case including a cost-benefit analysis; (ii) a business process analysis, if applicable; (iii) system requirements, if known; (iv) a proposed development plan and project management structure; and (v) a proposed resource or funding plan. The project management specialist may require the submission of additional information necessary to meet the criteria developed by the Division.

B. The project management specialist assigned to review the project development proposal shall recommend its approval or rejection to the CIO. ~~If the CIO determines that the proposal be approved, he shall recommend such approval to the Board.~~

§ [2.2-2020](#). Procurement approval for major information technology projects.

Upon approval of the ~~Board~~ CIO of the project development proposal involving a major information technology project that requires the procurement of goods or services, the agency shall submit a copy of any Invitation for Bid (IFB) or Request for Proposal (RFP) to the Division. The project management specialist shall review the IFB or RFP and recommend its approval or rejection to the ~~CIO~~ Secretary. The ~~CIO~~ Secretary, pursuant to § [2.2-225](#), shall have the final authority to approve the IFB or RFP prior to its release and shall approve the proposed contract for the award of the project.

§ [2.2-2021](#). Project oversight.

A. Whenever an agency has received approval from the ~~Board~~ Secretary to proceed with the development and acquisition of a major information technology project, an internal agency oversight committee shall be established by the CIO. The internal agency oversight committee shall provide ongoing oversight for the project and have the authority to approve or reject any changes in the project's scope, schedule, or budget. The CIO shall ensure that the project has in place adequate project management and oversight structures for addressing major issues that could affect the project's scope, schedule or budget and shall address issues that cannot be resolved by the internal agency oversight committee.

B. Whenever a statewide or multiagency project has received approval from the ~~Board~~ Secretary, the primary project oversight shall be conducted by a committee composed of representatives from agencies impacted by the project, which shall be established by the CIO.

§ [2.2-2023](#). Virginia Technology Infrastructure Fund created; contributions.

A. The Virginia Technology Infrastructure Fund (the Fund) is created in the state treasury. The Fund is to be used to fund major information technology projects or to pay private partners as authorized in subsection B of § [2.2-2007](#).

B. The Fund shall consist of: (i) the transfer of general and nongeneral fund appropriations from state agencies which represent savings that accrue from reductions in the cost of information technology and communication services, (ii) the transfer of general and nongeneral fund appropriations from state agencies which represent savings from the implementation of information technology enterprise projects, (iii) funds identified pursuant to subsection B of § [2.2-2007](#), (iv) such general and nongeneral fund fees or surcharges as may be assessed to agencies for enterprise technology projects, (v) gifts,

grants, or donations from public or private sources, and (vi) such other funds as may be appropriated by the General Assembly. Savings shall be as identified by the CIO through a methodology ~~approved~~ *reviewed* by the ~~Board~~ *ITAC* and *approved* by the Secretary of Finance. The Auditor of Public Accounts shall certify the amount of any savings identified by the CIO. For public institutions of higher education, however, savings shall consist only of that portion of total savings that represent general funds. The State Comptroller is authorized to transfer cash consistent with appropriation transfers. Appropriated funds from federal sources are exempted from transfer. Except for funds to pay private partners as authorized in subsection B of § [2.2-2007](#), moneys in the Fund shall only be expended as provided by the appropriation act.

Interest earned on the Fund shall be credited to the Fund. The Fund shall be permanent and nonreverting. Any unexpended balance in the Fund at the end of the biennium shall not be transferred to the general fund of the state treasury.

*Nonlegislative citizen members shall be appointed for terms of four years. Appointments to fill vacancies, other than by expiration of a term, shall be for the unexpired terms. All members may be reappointed. However, no nonlegislative citizen member shall serve more than two consecutive four-year terms. The remainder of any term to which a member is appointed to fill a vacancy shall not constitute a term in determining the member's eligibility for reappointment. Vacancies shall be filled in the same manner as the original appointments.*

*C. The Secretary of Technology shall serve as chairman of the ITAC. The CIO shall serve as vice-chairman. A majority of the members shall constitute a quorum. The ITAC shall meet at least quarterly each year. The meetings of the ITAC shall be held at the call of the chairman or whenever the majority of the members so request.*

*The ITAC shall have the power and duty to:*

*§ [2.2-2699.7](#). Health Information Technology Standards Advisory Committee.*

*The ITAC may appoint an advisory committee of persons with expertise in health care and information technology to advise the ITAC on the utilization of nationally recognized technical and data standards for health information technology systems or software pursuant to subdivision 5 of § [2.2-2699.6](#). The ITAC, in consultation with the Secretary of Health and Human Resources, may appoint up to five persons to serve on the advisory committee. § [23-38.111](#). Information technology.

Subject to the terms of the management agreement, covered institutions may be exempt from the provisions governing the Virginia Information Technologies Agency, Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2., and the provisions governing the Information Technologies Investment Board Advisory Council, Article 20 35 (§ [2.2-2699.5](#) et seq.) of Chapter ~~24~~ (~~§ [2.2-2457](#) et seq.~~) 26 of Title 2.2; provided, however, that the governing body of a covered institution shall adopt, and the covered institution shall comply with, policies for the procurement of information technology goods and services, including professional services, that are consistent with the requirements of § [23-38.110](#) and that include provisions addressing cooperative arrangements for such procurement as described in § [23-38.110](#), and shall adopt and comply with institutional policies and professional best practices regarding strategic planning for information technology, project management, security, budgeting, infrastructure, and ongoing operations.

§ [23-77.4](#). Medical center management.

A. The General Assembly recognizes and finds that the economic viability of the University of Virginia Medical Center, hereafter referred to as the Medical Center, together with the requirement for its specialized management and operation, and the need of the Medical Center to participate in cooperative arrangements reflective of changes in health care delivery, as set forth in § [23-77.3](#), are dependent upon the ability of the management of the Medical Center to make and implement promptly decisions necessary to conduct the affairs of the Medical Center in an efficient, competitive manner. The General Assembly also recognizes and finds that it is critical to, and in the best interests of, the Commonwealth that the University continue to fulfill its mission of providing quality medical and health sciences education and related research and, through the presence of its Medical Center, continue to provide for the care, treatment, health-related services, and education activities associated with Virginia patients, including indigent

and medically indigent patients. Because the General Assembly finds that the ability of the University to fulfill this mission is highly dependent upon revenues derived from providing health care through its Medical Center, and because the General Assembly also finds that the ability of the Medical Center to continue to be a reliable source of such revenues is heavily dependent upon its ability to compete with other providers of health care that are not subject to the requirements of law applicable to agencies of the Commonwealth, the University is hereby authorized to implement the following modifications to the management and operation of the affairs of the Medical Center in order to enhance its economic viability:

B. Capital projects; leases of property; procurement of goods, services and construction.

1. Capital projects.

a. For any Medical Center capital project entirely funded by a nongeneral fund appropriation made by the General Assembly, all post-appropriation review, approval, administrative, and policy and procedure functions performed by the Department of General Services, the Division of Engineering and Buildings, the Department of Planning and Budget and any other agency that supports the functions performed by these departments are hereby delegated to the University, subject to the following stipulations and conditions: (i) the Board of Visitors shall develop and implement an appropriate system of policies, procedures, reviews and approvals for Medical Center capital projects to which this subdivision applies; (ii) the system so adopted shall provide for the review and approval of any Medical Center capital project to which this subdivision applies in order to ensure that, except as provided in clause (iii), the cost of any such capital project does not exceed the sum appropriated therefor and that the project otherwise complies with all requirements of the Code of Virginia regarding capital projects, excluding only the post-appropriation review, approval, administrative, and policy and procedure functions performed by the Department of General Services, the Division of Engineering and Buildings, the Department of Planning and Budget and any other agency that supports the functions performed by these departments; (iii) the Board of Visitors may, during any fiscal year, approve a transfer of up to a total of 15 percent of the total nongeneral fund appropriation for the Medical Center in order to supplement funds appropriated for a capital project or capital projects of the Medical Center, provided that the Board of Visitors finds that the transfer is necessary to effectuate the original intention of the General Assembly in making the appropriation for the capital project or projects in question; (iv) the University shall report to the Department of General Services on the status of any such capital project prior to commencement of construction of, and at the time of acceptance of, any such capital project; and (v) the University shall ensure that Building

Officials and Code Administrators (BOCA) Code and fire safety inspections of any such project are conducted and that such projects are inspected by the State Fire Marshal or his designee prior to certification for building occupancy by the University's assistant state building official to whom such inspection responsibility has been delegated pursuant to § [36-98.1](#). Nothing in this section shall be deemed to relieve the University of any reporting requirement pursuant to § [2.2-1513](#). Notwithstanding the foregoing, the terms and structure of any financing of any capital project to which this subdivision applies shall be approved pursuant to § [2.2-2416](#).

b. No capital project to which this subdivision applies shall be materially increased in size or materially changed in scope beyond the plans and justifications that were the basis for the project's appropriation unless: (i) the Governor determines that such increase in size or change in scope is necessary due to an emergency or (ii) the General Assembly approves the increase or change in a subsequent appropriation for the project. After construction of any such capital project has commenced, no such increase or change may be made during construction unless the conditions in (i) or (ii) have been satisfied.

## 2. Leases of property.

a. The University shall be exempt from the provisions of § [2.2-1149](#) and from any rules, regulations and guidelines of the Division of Engineering and Buildings in relation to leases of real property that it enters into on behalf of the Medical Center and, pursuant to policies and procedures adopted by the Board of Visitors, may enter into such leases subject to the following conditions: (i) the lease must be an operating lease and not a capital lease as defined in guidelines established by the Secretary of Finance and Generally Accepted Accounting Principles (GAAP); (ii) the University's decision to enter into such a lease shall be based upon cost, demonstrated need, and compliance with guidelines adopted by the Board of Visitors which direct that competition be sought to the maximum practical degree, that all costs of occupancy be considered, and that the use of the space to be leased actually is necessary and is efficiently planned; (iii) the form of the lease is approved by the Special Assistant Attorney General representing the University; (iv) the lease otherwise meets all requirements of law; (v) the leased property is certified for occupancy by the building official of the political subdivision in which the leased property is located; and (vi) upon entering such leases and upon any subsequent amendment of such leases, the University shall provide copies of all lease documents and any attachments thereto to the Department of General Services.

b. Notwithstanding the provisions of §§ [2.2-1155](#) and [23-4.1](#), but subject to policies and procedures adopted by the Board of Visitors, the University may lease, for a purpose

consistent with the mission of the Medical Center and for a term not to exceed 50 years, property in the possession or control of the Medical Center.

c. Notwithstanding the foregoing, the terms and structure of any financing arrangements secured by capital leases or other similar lease financing agreements shall be approved pursuant to § [2.2-2416](#).

### 3. Procurement of goods, services and construction.

Contracts awarded by the University in compliance with this section, on behalf of the Medical Center, for the procurement of goods; services, including professional services; construction; and information technology and telecommunications, shall be exempt from (i) the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.), except as provided below; (ii) the requirements of the Division of Purchases and Supply of the Department of General Services as set forth in Article 3 (§ [2.2-1109](#) et seq.) of Chapter 11 of Title 2.2; (iii) the requirements of the Division of Engineering and Buildings as set forth in Article 4 (§ [2.2-1129](#) et seq.) of Chapter 11 of Title 2.2; and (iv) the authority of the *Chief Information Officer and the Virginia Information Technologies Agency* as set forth in Chapter 20.1 (§ [2.2-2005](#) et seq.) of Title 2.2 and the Information Technology Investment Board created pursuant to § [2.2-2457](#) regarding the review and approval of contracts for (a) the construction of Medical Center capital projects and (b) information technology and telecommunications projects; however, the provisions of this subdivision may not be implemented by the University until such time as the Board of Visitors has adopted guidelines generally applicable to the procurement of goods, services, construction and information technology and telecommunications projects by the Medical Center or by the University on behalf of the Medical Center. Such guidelines shall be based upon competitive principles and shall in each instance seek competition to the maximum practical degree. The guidelines shall implement a system of competitive negotiation for professional services; shall prohibit discrimination because of race, religion, color, sex, or national origin of the bidder or offeror in the solicitation or award of contracts; may take into account in all cases the dollar amount of the intended procurement, the term of the anticipated contract, and the likely extent of competition; may implement a pre-qualification procedure for contractors or products; may include provisions for cooperative procurement arrangements with private health or educational institutions, or with public agencies or institutions of the several states, territories of the United States or the District of Columbia; shall incorporate the prompt payment principles of §§ [2.2-4350](#) and [2.2-4354](#); and may implement provisions of law. The following sections of the Virginia Public Procurement Act shall continue to apply to procurements by the Medical Center or by the University on behalf of the Medical Center: §§ [2.2-4311](#), [2.2-4315](#), and [2.2-](#)

[4342](#) (which section shall not be construed to require compliance with the pre-qualification application procedures of subsection B of § [2.2-4317](#)), [2.2-4330](#), [2.2-4333](#) through [2.2-4341](#), and [2.2-4367](#) through [2.2-4377](#).

C. Subject to such conditions as may be prescribed in the budget bill under § [2.2-1509](#) as enacted into law by the General Assembly, the State Comptroller shall credit, on a monthly basis, to the nongeneral fund operating cash balances of the University of Virginia Medical Center the imputed interest earned by the investment of such nongeneral fund operating cash balances, including but not limited to those balances derived from patient care revenues, on deposit with the State Treasurer.

2. That Article 7 (§§ [2.2-2033](#) and [2.2-2034](#)) of Chapter 20.1 of Title 2.2 and Article 20 (§§ [2.2-2457](#), [2.2-2458](#), and [2.2-2458.1](#)) of Chapter 24 of Title 2.2 of the Code of Virginia are repealed.

3. That the third enactment of Chapter 758 of the Acts of Assembly of 2009 is amended and reenacted as follows:

3. That the Department of General Services, the Virginia Information Technologies Agency, and the State Comptroller shall submit to the Information Technology Investment Board the standards required pursuant to § [2.2-1115.1](#) of this act by December 1, 2009. The Department of General Services and the Virginia Information Technologies Agency shall undertake to use these standards in the Commonwealth's enterprise electronic procurement system upon approval by the ~~Information Technology Investment Board~~ *Secretary of Technology* and make the standards available for use by all agencies and institutions by July 1, 2010. After July 1, 2010, the Department of General Services shall provide purchasing data from the Commonwealth's enterprise electronic procurement system, to the extent it is available, at least quarterly for inclusion in the Auditor of Public Accounts' searchable database established pursuant to § [30-133](#) of the Code of Virginia. All agencies and institutions that use the standards developed pursuant to this act that have not previously reported data to the Auditor of Public Accounts through the Commonwealth's enterprise electronic procurement system shall, to the extent practicable, provide such data to the Auditor of Public Accounts at least quarterly beginning after July 1, 2010.

4. That the third enactment of Chapter 812 of the Acts of Assembly of 2009 is amended and reenacted as follows:

3. That the Department of General Services, the Virginia Information Technologies Agency, and the State Comptroller shall submit to the Information Technology

Investment Board the standards required pursuant to § [2.2-1115.1](#) of this act by December 1, 2009. The Department of General Services and the Virginia Information Technologies Agency shall undertake to use these standards in the Commonwealth's enterprise electronic procurement system upon approval by the ~~Information Technology Investment Board~~ *Secretary of Technology* and make the standards available for use by all agencies and institutions by July 1, 2010. After July 1, 2010, the Department of General Services shall provide purchasing data from the Commonwealth's enterprise electronic procurement system, to the extent it is available, at least quarterly for inclusion in the Auditor of Public Accounts' searchable database established pursuant to § [30-133](#) of the Code of Virginia. All agencies and institutions that use the standards developed pursuant to this act that have not previously reported data to the Auditor of Public Accounts through the Commonwealth's enterprise electronic procurement system shall, to the extent practicable, provide such data to the Auditor of Public Accounts at least quarterly beginning after July 1, 2010.

5. ## **Chapter 150 Clarksville-Boydton Airport Commission; name changed to Lake Country Airport Commission.**

An Act to amend and reenact §§ 1, 2, 5, 6, 7, 8, and 12 of Chapter 680 of the Acts of Assembly of 2005, relating to the Clarksville-Boydton Airport Commission; name

change.

[\[S 322\]](#)

Approved March 11, 2010

Be it enacted by the General Assembly of Virginia:

1. That §§ 1, 2, 5, 6, 7, 8, and 12 of Chapter 680 of the Acts of Assembly of 2005 are amended and reenacted as follows:

~~Clarksville-Boydton Airport Commission~~ *Lake Country Airport Commission.*

§ 1. If the governing bodies of the towns of Clarksville and Boydton shall by resolution declare that there is a need for an airport commission to be created for the purpose of establishing and operating one or more airports or landing fields for all such political subdivisions, an airport commission, ~~to be originally~~ known as "The Clarksville-Boydton Airport Commission," shall thereupon exist for the towns and shall exercise its powers and functions therein.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of *the Lake Country Airport Commission, formerly known as and doing business as* The Clarksville-Boydton Airport Commission, the airport commission shall be conclusively deemed to have become created as a body corporate, and to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body of each of the towns creating the airport commission declaring that there is need for an airport commission and that it unites with the other political subdivision in its creation. A copy of the resolution, duly certified by the clerk of the governing body of the town which adopted it, shall be admissible in evidence in any suit, action, or proceeding.

§ 2. ~~The Clarksville-Boydton Airport Commission~~ *Lake Country Airport Commission*, hereinafter referred to as the "Commission," shall consist of members from the participating ~~towns~~ *localities*, the membership being composed of ~~five~~ *three* members appointed by the Town of Clarksville, ~~and two members by the Town of Boydton, and three members by Mecklenburg County.~~ Each member shall be appointed by the governing bodies thereof. Original appointments of members shall be for terms as follows: from the Town of Clarksville, one member for two years, ~~two members each for three and four years~~ *one member for three years, and one member for four years*; from the Town of Boydton, one member for one year and one member for two years; *from Mecklenburg*

*County, one member for two years, one member for three years, and one member for four years.* Thereafter all appointments shall be for three-year terms, except appointments to fill vacancies which shall be for the unexpired terms.

The governing body appointing any member may remove that member at any time and appoint his successor. The Commission shall have power to elect its chairman and to adopt rules and regulations for its own procedures and government. The members of the Commission so appointed shall constitute the Commission, and the powers of such Commission shall be vested in and exercised by the members in office from time to time. A majority of the members in office shall constitute a quorum.

§ 5. The ~~towns~~-localities for which the Commission is formed are hereby authorized to appropriate to the Commission from available funds, or from funds provided for the purpose by bond issues, such funds as may be necessary for the acquisition, construction, maintenance, and operation of airports, air landing fields, and other air navigation facilities. The basis of financial participation by the ~~towns~~-localities shall be determined by agreement between their governing bodies.

§ 6. The Commission shall prepare annually and submit to the governing bodies of the respective ~~towns~~-localities for which it is formed for their approval, a budget showing the estimated revenues it may reasonably expect to receive for such year, and its estimated expenses for all purposes for such period. After the approval of such budget, the Commission shall be limited in its expenditures for such year to the estimated expenses shown therein, and shall not commit the participating subdivisions beyond appropriations actually made. If the estimated expenditures exceed the estimated revenue from the operation of the Commission for such year the governing bodies of the participating local subdivisions may appropriate, in any amount the particular ~~town~~-locality determines it can contribute, the funds necessary to supply the deficiency. If the actual revenue received shall be less than the estimated revenue as approved in the budget, the governing bodies of the participating local subdivisions may appropriate, in the same manner, the funds necessary to supply the deficiency.

§ 7. If the funds received by the Commission in any year including money appropriated for its use by the participating subdivisions, shall exceed its expenditures for such year, the surplus shall be set aside in a separate fund for capital improvements and extensions. Such fund shall be used for this purpose only with the approval of both the participating subdivisions. Whenever such surplus fund shall amount to \$100,000, any additional revenue received in any year in excess of operating costs shall be applied towards repaying the participating ~~towns~~'-localities' contributions to the Commission in amounts proportionate to each ~~town~~'s-locality's financial interest in the Commission. The

financial interest of a ~~town~~-locality shall consist of the proportionate share of the total financial contributions, including those made for capital outlay and for any other reason whatsoever, each participating ~~town~~-locality has made to the Commission. Thereafter any profits derived from the operations of the Commission shall be distributed to the participating subdivisions in proportion to their financial interest in the Commission.

§ 8. The Commission shall be an independent body corporate, invested with the rights, powers, and authority and charged with the duties set forth in this act, and the political subdivisions which created it shall not be responsible for its acts. No pecuniary liability of any kind shall be imposed upon any ~~town~~-locality creating the Commission because of any act, agreement, contract, tort, malfeasance or misfeasance by or on the part of the Commission or any member thereof, or its agents, servants or employees, except as otherwise provided in this act with respect to contracts and agreements between the Commission and ~~either such town~~ any such locality.

§ 12. ~~Either town creating~~ Any participating locality of the Commission may withdraw therefrom upon giving one year's notice to the action, due regard being had for existing contracts and obligations. Upon the cessation of its activities all of the assets of the Commission shall be distributed to the ~~towns~~-localities participating therein at the time of liquidation in the proportion equal to their financial interest in the Commission as defined in § 7 herein.

2. That in all regards, the Lake Country Airport Commission shall be the successor in interest to the Clarksville-Boydton Airport Commission, except as otherwise provided by law.

[\[S 15\]](#)

Approved April 7, 2010

Whereas, Article X, Section 9 (c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues

The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding thirty years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

**§ 6. Sources for payment of expenses.**

*All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

**§ 7. Revenues.**

*The institution of higher learning named above is hereby authorized (i) to fix, revise, charge, and collect rates, fees and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The institution is further authorized to create debt service and sinking funds for the*

*payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and contracts.*

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A. of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B. of this section.*

*§ 9. Security for bonds and BANs.*

*The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and*

*the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The bonds and BANs issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs.*

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the*

*applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

§ 13. Severability.

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

CHAPTER 72.

FORT MONROE AUTHORITY ACT.

§ [15.2-7200](#). *Short title; declaration of public purpose; Fort Monroe Authority created; successor in interest to Fort Monroe Federal Area Development Authority.*

A. *This chapter shall be known and may be cited as the Fort Monroe Authority Act.*

B. *The General Assembly finds and declares that:*

1. *Fort Monroe, located on a barrier spit at Hampton Roads Harbor and the southern end of Chesapeake Bay where the Old Point Comfort lighthouse has been welcoming ships since 1802, is one of the Commonwealth's most important cultural treasures.*

*Strategically located near Virginia's Historic Triangle of Williamsburg, Yorktown, and Jamestown, the 565-acre site has been designated a National Historic Landmark District;*

*2. As a result of decisions made by the federal Base Realignment and Closure Commission, Fort Monroe will cease to be an army base in 2011, and at that time most of the site will revert to the Commonwealth;*

*3. The planning phase of Fort Monroe's transition from a United States Army base to a village that will be owned by the Commonwealth has been managed by the Fort Monroe Federal Area Development Authority (FMFADA), established by the City of Hampton pursuant to legislation enacted by the General Assembly in 2007. The Fort Monroe Federal Area Development Authority, a partnership between the City and the Commonwealth, has fulfilled its primary purpose of formulating a reuse plan for Fort Monroe;*

*4. It is the policy of the Commonwealth to protect the historic resources at Fort Monroe, provide public access to the Fort's historic resources and recreational opportunities, exercise exemplary stewardship of the Fort's natural resources, and maintain Fort Monroe in perpetuity as a place that is a desirable one in which to reside, do business, and visit, all in a way that is economically sustainable;*

*5. Fort Monroe's status as a Commonwealth-owned village is unique. Municipal services will need to be provided to Fort Monroe's visitors, residents, and businesses. Both the Commonwealth and the FMFADA are signatories to a Programmatic Agreement under Section 106 of the National Historic Preservation Act that requires several specific actions be taken, including the enforcement of Design Standards to be adopted by the FMFADA or its successor to govern any new development or building restoration or renovation at Fort Monroe. There exists a need for an entity that can manage the property for the Commonwealth and ensure adherence to the findings, declarations, and policies set forth in this section; and*

*6. The creation of an authority for this purpose is in the public interest, serves a public purpose, and will promote the health, safety, welfare, convenience, and prosperity of the people of the Commonwealth.*

*C. The Fort Monroe Authority is created, with the duties and powers set forth in this chapter, as a public body corporate and as a political subdivision of the Commonwealth. The Authority is constituted as a public instrumentality exercising public and essential governmental functions, and the exercise by the Authority of the duties and powers conferred by this chapter shall be deemed and held to be the performance of an essential governmental function of the Commonwealth. The exercise of the powers granted by this*

*chapter and its public purpose shall be in all respects for the benefit of the inhabitants of the Commonwealth.*

*D. The Fort Monroe Authority is the successor in interest to that political subdivision formerly known as the Fort Monroe Federal Area Development Authority. As such, the Authority stands in the place and stead of, and assumes all rights and duties formerly of, the Fort Monroe Federal Area Development Authority, including but not limited to all leases, contracts, grants-in-aid, and all other agreements of whatsoever nature; holds title to all realty and personalty formerly held by the Fort Monroe Federal Area Development Authority; and may exercise all powers that might at any time past have been exercised by the Fort Monroe Federal Area Development Authority, including the powers and authorities of a Local Redevelopment Authority under the provisions of any and all applicable federal laws, including the Base Relocation and Closure Act of 2005.*

*E. The Fort Monroe Authority shall be subject to the Virginia Public Procurement Act ([§ 2.2-4300](#) et seq.) and the Board shall adopt procedures consistent with that Act to govern its procurement processes.*

*F. Employees of the FMFADA shall be eligible for membership in the Virginia Retirement System and participation in health insurance and other benefits programs for employees of local governments established in accordance with [§ 2.2-1204](#).*

*[§ 15.2-7201](#). Definitions.*

*As used in this chapter, unless the context requires a different meaning:*

*"Adjacent to such Authority" means real or personal property that is contiguous, neighboring, or within reasonable proximity of Fort Monroe.*

*"Area of operation" means an area coextensive with the territorial boundaries of the land acquired or to be acquired from the federal government by the Authority.*

*"Authority" means the Fort Monroe Authority.*

*"Bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by an authority pursuant to this chapter.*

*"Facility" means a particular building or structure or particular buildings or structures, including all equipment, appurtenances, and accessories necessary or appropriate for the operation of such facility.*

*"Project" means any specific enterprise undertaken by an authority, including the facilities as defined in this chapter, and all other property, real or personal, or any interest therein, necessary or appropriate for the operation of such property.*

3. *The planning phase of Fort Monroe's transition from a United States Army base to a village that will be owned by the Commonwealth has been managed by the Fort Monroe Federal Area Development Authority (FMFADA), established by the City of Hampton pursuant to legislation enacted by the General Assembly in 2007. The Fort Monroe Federal Area Development Authority, a partnership between the City and the Commonwealth, has fulfilled its primary purpose of formulating a reuse plan for Fort Monroe;*

Neither the Trustees of the Authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the Authority (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof (other than the issuing Authority), and neither the Commonwealth nor any political subdivision thereof (other than the issuing Authority) shall be liable thereon, nor shall such bonds or

*obligations be payable out of any funds or properties other than those of the Authority. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction. Bonds of the Authority are declared to be issued for an essential public and governmental purpose.*

§ [15.2-7208](#). *Powers and duties of executive director.*

*The executive director shall exercise such of the powers and duties relating to the Authority conferred upon the Board as may be delegated to him by the Board, including powers and duties involving the exercise of discretion. *The rents, fees, and charges established by the Authority for the use of its property, projects, and facilities and for any other service furnished or provided by the Authority shall be fixed so that they, together with other revenues of the Authority, shall provide at least sufficient funds to pay the cost of maintaining, repairing, and operating the Authority; its property, projects, and facilities; and the principal and interest of any bonds issued by the Authority or other debts contracted as the same shall become due and payable. A reserve may be accumulated and maintained out of the revenues of the Authority for extraordinary repairs and expenses and for such other purposes as may be provided in any resolution authorizing a bond issue or in any trust indenture securing such bonds. Subject to such provisions and restrictions as may be set forth in the resolution or in the trust indenture authorizing or securing any of the bonds or other obligations issued*

*hereunder, the Authority shall have exclusive control of the revenue derived from the operation of the Authority and the right to use such revenues in the exercise of its powers and duties set forth in this chapter. No person, firm, association, or corporation shall receive any profit or dividend from the revenues, earnings, or other funds or assets of such authority other than for debts contracted, for services rendered, for materials and supplies furnished, and for other value actually received by the Authority.*

*The powers conferred by this chapter shall be in addition and supplemental to the powers conferred by any other law. The powers granted and the duties imposed in this chapter shall be construed to be independent and severable. If any one or more sections, subsections, sentences, or parts of any of this chapter shall be adjudged unconstitutional or invalid, such adjudication shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provisions held unconstitutional or invalid. This chapter shall be liberally construed to effect the purposes hereof.*

*§ [15.2-7213](#). Chapter controlling over inconsistent laws.*

*Insofar as the provisions of this chapter are inconsistent with the provisions of any other law, general, special, or local, including provisions of charters of localities, the provisions of this chapter shall be controlling.*

*§ [15.2-7214](#). Sovereign immunity.*

*No provisions of this chapter nor any act of the Authority, including the procurement of insurance or self-insurance, shall be deemed a waiver of any sovereign immunity to which the Authority or its directors, officers, employees, or agents are otherwise entitled.*

## **Chapter 444 Relief for purchaser of property sold at treasurers' sales; Charles L. Kingrea.**

An Act for the relief of Charles L. Kingrea.

[\[S 1\]](#)

Approved April 11, 2010

Whereas, under the provisions of former §§ 58-1029 through 58-1117 of the Code of Virginia, real property as to which local property taxes were delinquent could be sold to satisfy such delinquent taxes at a "treasurer's sale" convened by the city or county treasurer annually in December; and

Whereas, pursuant to these provisions, the purchaser of property at a treasurer's sale was required to pay the delinquent taxes, and further to continue to pay future real estate taxes on the property as they came due for a period of years established by law; and

Whereas, upon payment of both the delinquent taxes and the annual real property taxes for the requisite period of years, the purchaser would become eligible to make application to the circuit court of the city or county to receive a deed, thereby conveying to him clear title to the property, subject to certain limited redemption rights of the owners of the tax-delinquent property prior to the treasurer's sale; and

Whereas, Charles L. Kingrea (Mr. Kingrea) in 1970 and 1971 purchased a total of four parcels of real property located in Floyd County at a "treasurer's sale"; and

Whereas, in 1973, the General Assembly repealed the statutory provisions establishing this procedure for the sale of tax-delinquent property, substituting for it the process of judicial sale of tax-delinquent property now codified in Article 4 (§ [58.1-3965](#) et seq.) of Chapter 39 of Title 58.1 of the Code of Virginia; and

Whereas, at the time of the repeal of the prior procedures for treasurers' sales, the General Assembly provided a savings provision in former § 58-1117.11 of the Code of Virginia to make clear the entitlement of persons who had purchased properties at treasurers' sales prior to June 1, 1973, to obtain deeds for the properties they had purchased under the prior procedures, notwithstanding the repeal of the former statutes; and

Whereas, in 1984, during the recodification of Title 58 of the Code of Virginia, the savings provision in former § 58-1117.11 of the Code of Virginia was repealed because it was considered "obsolete" according to the recodification report; and

Whereas, Mr. Kingrea purchased the four parcels of real property at treasurers' sales in good faith, paid the taxes due with respect to such properties, and has not yet received deeds to the properties purchased; and

Whereas, but for the repeal of § 58-1117.11 of the Code of Virginia, he would have a clear statutory entitlement to obtain deeds to the properties he purchased; and

Whereas, the General Assembly passed, during its 2005 Session and its 2006 Session, relief bills, Chapter 10 of the Acts of Assembly of 2005 and Chapter 588 of the Acts of Assembly of 2006, respectively, to provide a clear legal right for certain purchasers of parcels of real property to obtain a deed, but it has become clear that there are other purchasers similarly situated; and

Whereas, it is appropriate to provide a general legal right for such purchasers to obtain the deeds to which they were entitled under prior law and would to this day remain entitled, but for the inadvertent repeal of the savings provision contained in former § 58-1117.11; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Charles L. Kingrea who, prior to June 1, 1973, purchased real property as described in § 2 under the provisions of former §§ 58-1029 through 58-1117 of the Code of Virginia, regarding the disposition and sale of delinquent lands, and who has not received any deeds for the properties so purchased, may institute a proceeding in the circuit court of Floyd County within which such real property is located to obtain deeds to such properties in accordance with the provisions of former § 58-1027 or former §§ 58-1029 through 58-1117.*

*§ 2. The provisions of this act shall apply to those parcels of real property located in Floyd County described generally as follows:*

*a. Tax map number 45-52, consisting of approximately 5 acres lying within the Little River Magisterial District, titled in the name of George O. M. Atkins and purchased by Charles L. Kingrea at a treasurer's sale held on December 13, 1971;*

*b. Tax map number 7-83, consisting of approximately 12 acres lying within the Locust Grove Magisterial District, titled in the name of William T. Howard and purchased by Charles L. Kingrea at a treasurer's sale held on December 14, 1970;*

*c. Tax map number 31-83, consisting of approximately 8 acres lying within the Little River Magisterial District, titled in the name of Creed W. Janney and purchased by Charles L. Kingrea at a treasurer's sale held on December 13, 1971; and*

*d. Tax map number 77-10, consisting of approximately 28.75 acres lying within the Burks Fork Magisterial District, titled in the name of Zeb Nester and purchased by Charles L. Kingrea at a treasurer's sale held on December 14, 1970.*

2. That the provisions of this act shall expire on July 1, 2014, but such expiration date shall not in any way affect or nullify any court proceeding commenced prior to such date regardless of the date of final disposition of such proceeding.

3. That an emergency exists and this act is in effect from its passage.

## **Chapter 618 Claims; Victor Anthony Burnette.**

An Act for the relief of Victor Anthony Burnette.

[\[H 5\]](#)

Approved April 11, 2010

Whereas, in August 1979, Victor Anthony Burnette (Mr. Burnette) was charged in an indictment with rape and breaking and entering with the intent to commit rape; and  
Whereas, at trial the victim testified that on August 3, 1979, a male entered her apartment and raped her; and

Whereas, the victim described the individual as being five feet eight inches tall, with long blond hair, a mustache and beard and wearing blue jeans; and

Whereas, the victim did not contact law-enforcement officials until August 5, 1979, two days later, despite reportedly seeing the individual outside of her apartment again the night after the alleged rape; and

Whereas, as a result of the rape reported by the victim, a physical evidence recovery kit (PERK) was performed on her; and

Whereas, in addition to the PERK test, a bed sheet and other physical evidence from the scene were submitted to the Virginia Bureau of Forensic Science for analysis; and

Whereas, forensic testing produced three pubic hairs, two of which were consistent with that of the victim, and one of which was consistent with an individual of the characteristics similar to Mr. Burnette's; and

Whereas, it was subsequently determined by Bureau personnel that Mr. Burnette does not secrete the blood type factor in bodily secretions and was therefore a nonsecretor; and

Whereas, since Mr. Burnette is a nonsecretor, technology available in 1979 could not eliminate him as a contributor of the seminal fluid found on the vaginal swab recovered from the victim; and

Whereas, at trial Mr. Burnette produced evidence that on the night of August 3, 1979, he was socializing with two other individuals at the Rainbow Inn located in the Oregon Hill neighborhood of Richmond, Virginia; and

Whereas, upon leaving the establishment, Mr. Burnette went home to care for his invalid grandmother and prepare for work in the morning; and

Whereas, despite consistently maintaining his innocence throughout the trial, on October 23, 1979, Mr. Burnette was convicted in the Circuit Court for the City of Richmond of rape in violation of § [18.2-61](#) of the Code of Virginia and burglary in violation of § [18.2-90](#) of the Code of Virginia; and

Whereas, Mr. Burnette was sentenced to a total of twenty years in the state penitentiary and was subsequently incarcerated; and

Whereas, on August 22, 1980, the Supreme Court of Virginia denied Mr. Burnette's Petition for Appeal; and

Whereas, Mr. Burnette proceeded to serve the sentence and in November 1987, he was released on parole; and

Whereas, on July 25, 1993, Mr. Burnette was discharged from parole; and

Whereas, in 2006, the Commonwealth's Attorney for the City of Richmond conducted a review of the 1979 convictions for rape and burglary; and

Whereas, using previously unavailable forensic testing technology Mr. Burnette was excluded as a contributor to the seminal fluid found in the vaginal swabs recovered from the victim; and

Whereas, the results of this completely reliable scientific method of testing corroborates Mr. Burnette's consistent claims of innocence; and

Whereas, Mr. Burnette has unsuccessfully pursued vindication through the Courts; and  
Whereas, on November 1, 2006, the Court of Appeals issued an order stating, in pertinent part, that it lacked jurisdiction because subsection A of § [19.2-327.11](#) of the Code of Virginia provides that human biological evidence may not be used as the sole basis for seeking relief; and

Whereas, on April 17, 2007, the Virginia Supreme Court issued an opinion rejecting Mr. Burnette's petition for relief based only on the fact that Mr. Burnette was no longer incarcerated; and

Whereas, Mr. Burnette subsequently filed a Petition for Absolute Clemency with the Governor; and

Whereas, on April 6, 2009, the Governor granted Mr. Burnette an absolute pardon; and

Whereas, Mr. Burnette spent eight years of his life incarcerated for crimes that he did not commit during which time he lost the opportunity to earn potential income from employment and participate in other pursuits; and

Whereas, in addition, the effects of being branded a convicted felon and rapist for over twenty years still reside with him daily; and

Whereas, Victor Anthony Burnette has suffered severe physical, emotional, and psychological damage as a result of this wrongful incarceration and has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1

*. § 1. That there is hereby appropriated from the general fund of the state treasury a compensation award in the amount of \$226,065 for the relief of Victor Anthony Burnette upon execution of a release by Mr. Burnette from any present or future claims he may have against the Commonwealth or any agency, instrumentality, officer, employee, or political subdivision thereof and any legal counsel appointed pursuant to § [19.2-159](#) of the Code of Virginia.*

*The award shall be paid as follows: (i) an initial lump sum of \$45,213 paid to Victor Anthony Burnette on or before August 1, 2010, by check issued by the State Treasurer on warrant of the Comptroller and (ii) the sum of \$180,852 to purchase an annuity for the primary benefit of Victor Anthony Burnette providing for equal monthly payments, for a period certain of 25 years commencing on or before August 1, 2011. The State Treasurer shall purchase the annuity at the lowest cost available from any A+ rated company authorized to sell annuities in the Commonwealth, including any A+ rated company from which the State Lottery Department may purchase an annuity. The annuity shall provide*

*that it shall not be sold, discounted, or used as securitization for loans and mortgages. The annuity shall, however, contain beneficiary provisions providing for the annuity's continued disbursement in the event of the death of the person awarded compensation.*

*§ 2. That Victor Anthony Burnette shall be entitled to receive career and technical training within the Virginia Community College System free of tuition charges, up to a maximum of \$10,000. The cost for the tuition benefit shall be paid by the community college at which the career or technical training is provided. The tuition benefit provided by this section shall expire on July 1, 2016.*

*§ 3. That Victor Anthony Burnette shall immediately be ineligible to receive any unpaid amounts from the compensation award and his beneficiaries shall be ineligible to receive any payments under the annuity purchased pursuant to § 1 of this act upon any subsequent conviction by Mr. Burnette of any felony. Any unpaid amounts remaining under any annuity shall become the property of the Commonwealth and shall be deposited into the general fund of the state treasury. In addition, Victor Anthony Burnette shall be ineligible to receive any unused portion of the tuition for career and technical training provided pursuant to § 2 of this act within the Virginia Community College System free of tuition charges, up to a maximum of \$10,000.*

An individual who is at least 18 years of age, a parent or guardian acting on behalf of a minor, a guardian acting on behalf of an incapacitated person, or an emancipated minor may apply in person, at domestic violence programs that provide services where the role of the services provider is (i) to assist the eligible person in determining whether the address confidentiality program should be part of such person's overall safety plan; (ii) to explain the address confidentiality program services and limitations; (iii) to explain the program participant's responsibilities; and (iv) to assist the person eligible for participation with the completion of application materials. The Office of the Attorney General shall approve an application if it is filed in the manner and on the form prescribed by the Attorney General and if the application contains the following:

The actual address of a program participant shall be available only to the Attorney General and to those employees involved in the operation of the Address Confidentiality Program and to law-enforcement officers. A program participant's actual address may be entered into the Virginia Criminal Information Network (VCIN) system so that it may be made known to law-enforcement officers accessing the VCIN system for law-enforcement purposes.

The agency shall accept the address designated by the Office of the Attorney General as a program participant's address, unless the agency has received a written exemption from the Office of the Attorney General demonstrating to the satisfaction of the Attorney General that:

1. The agency has a bona fide statutory basis for requiring the program participant to disclose to it the actual location of the program participant;
2. The disclosed confidential address of the program participant will be used only for that statutory purpose and will not be disclosed or made available in any way to any other person or agency; and
3. A state agency may request an exemption by providing in writing to the Office of the Attorney General identification of the statute or administrative rule that demonstrates the agency's bona fide requirement and authority for the use of the actual address of an individual. A request for a waiver from an agency may be for an individual program participant, a class of program participants, or all program participants. The denial of an agency's exemption request shall be in writing and include a statement of the specific reasons for the denial. Acceptance or denial of an agency's exemption request shall constitute final agency action.

Any state or local agency that discloses the program participant's confidential address provided by the Office of the Attorney General shall be immune from civil liability unless the agency acted with gross negligence or willful misconduct.

A program participant's actual address shall be disclosed pursuant to a court order.

H. Neither the Office of the Attorney General, its officers or employees, or others who have a responsibility to a program participant under this section shall have any liability nor shall any cause of action arise against them in their official or personal capacity from the failure of a program participant to receive any first class mail forwarded to him by the Office of the Attorney General pursuant to this section. Nor shall any such liability or cause of action arise from the failure of a program participant to timely receive any first class mail forwarded by the Office of the Attorney General pursuant to this section.

2. That the second enactment of Chapter 599 of the Acts of Assembly of 2007, as amended by Chapter 649 of the Acts of Assembly of 2008, is amended and reenacted as follows:

E. 1. Whenever an extended benefit period is to become effective in this Commonwealth as a result of a state "on" indicator, or an extended benefit period is to be terminated in this Commonwealth as a result of state "off" indicators, the Commission shall make an appropriate public announcement.

2. Computations required by the provisions of subsection B of § [60.2-610](#) shall be made by the Commission, in accordance with regulations prescribed by the United States Secretary of Labor.

3. An "on" or "off" indicator for this Commonwealth shall be determined without regard to subdivision 1 of subsection H of § [60.2-610](#) for any period that waiver of such provisions is authorized under § 203 (d) of the Federal-State Extended Unemployment Compensation Act (26 U.S.C. § 3304) and any amendments thereto, or as authorized by any provision of federal law.

F. 1. Notwithstanding the provisions of subsection A of this section, an individual shall be ineligible for payment of extended benefits for any week of unemployment in his eligibility period if the Commission finds that during such period:

a. He failed to accept any offer of suitable work or failed to apply for any suitable work, as defined under subdivision 3 of this subsection, to which he was referred by the Commission; or

b. He failed to actively engage in seeking work as prescribed under subdivision 5 of this subsection.

2. Any individual who has been found ineligible for extended benefits by reason of the provisions in subdivision 1 of this subsection shall also be denied benefits beginning with the first day of the week following the week in which such failure occurred and until he has been employed in each of four subsequent weeks, whether or not consecutive, and has earned remuneration equal to not less than four times the extended weekly benefit amount.

3. a. For purposes of this subsection, "suitable work" means, with respect to any individual, any work which is within the individual's capabilities and for which the gross average weekly remuneration payable for the work exceeds the sum of:

(1) The individual's average weekly benefit amount as determined under subsection C of this section, plus

(2) Any amount of supplemental unemployment benefits, as defined in § 501 (c) (17) (D) of the Internal Revenue Code, payable to the individual for such week.

b. Such gross average weekly remuneration shall pay wages equal to the higher of:

(2) Such failure could not result in a denial of benefits under the definition of suitable work for regular benefit claimants in subdivision 3 of § [60.2-618](#) to the extent that the criteria of suitability in that section are not inconsistent with the provisions of this subdivision; or

(3) The individual furnishes satisfactory evidence to the Commission that his prospects for obtaining work in his customary occupation within a reasonably short period are good. If the evidence is deemed satisfactory for this purpose, the determination of whether any work is suitable with respect to such individual shall be made in accordance with the definition of suitable work in subdivision 3 of § [60.2-618](#) without regard to the definition specified by this subdivision.

4. Notwithstanding the provisions of this subsection, no work shall be deemed to be suitable work for an individual which does not accord with the labor standard provisions required by § 3304 (a) 5 of the Internal Revenue Code and set forth under subdivision 3 of § [60.2-618](#).

5. For the purposes of subdivision 1 b of this subsection, an individual shall be treated as actively engaged in seeking work during any week if:

6. The Job Service shall refer any claimant entitled to extended benefits under this title to any suitable work which meets the criteria prescribed in subdivision 3 of this subsection.

7. Notwithstanding any other provisions of this chapter, if the benefit year of any individual ends within an extended benefit period, the remaining balance of extended benefits that such individual would, but for this section, be entitled to receive in that extended benefit period, for weeks of unemployment beginning after the end of the benefit year, shall be reduced, but not below zero, by the product of the number of weeks for which the individual received any amounts as trade readjustment allowances within that benefit year, multiplied by the individual's weekly benefit amount for extended benefits.

8. No claim for extended benefits shall be subject to subdivisions 1, 2, 3 or 6 of this subsection for weeks of unemployment beginning after March 6, 1993, and before January 1, 1995. If the Federal-State Extended Unemployment Compensation Act of 1970 is at any time amended to preclude enforcement of any provision of this section, such provision shall not apply to any claim for weeks beginning on the date said amendment becomes effective.

G. 1. Except as provided in subdivision 2 of this subsection, an individual shall not be eligible for extended benefits for any week if:

a. Extended benefits are payable for such week pursuant to an interstate claim filed in any state under the interstate benefit plan; and

b. No extended benefit period is in effect for such week in such state.

2. Subdivision 1 of this subsection shall not apply to the first two weeks for which extended benefits are payable, determined without regard to this subsection, pursuant to an interstate claim filed under the interstate benefit payment plan to the individual from the extended benefit account established for the individual with respect to the benefit year.

In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or*

The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Whereas, Mr. Hitt and Mr. Jarrett each purchased an additional four years of service credit with the Virginia Retirement System for his active duty military service; and

Whereas, at the time of purchase each was led to believe that the four years of active duty military service would be certified as hazardous duty service with the Virginia Retirement System; and

Whereas, when Mr. Jarrett retired effective December 1, 2010, he was informed by letter from the Virginia Retirement System that his active duty military service was not certified as hazardous duty service; and

Whereas, by the time the inaccurate advice was discovered, Mr. Hitt had already submitted his application to retire, and the City of Fredericksburg Sheriff's Office had already hired and trained his replacement, Mr. Jarrett had already retired from Spotsylvania County, and neither Mr. Hitt nor Mr. Jarrett had a job to which he could return and remedy the situation and qualify for the hazardous duty retirement supplement described in subsection B of § [51.1-206](#); and

§ [59.1-284.23](#). Advanced Shipbuilding Training Facility Grant Program; eligible city.

A. As used in this section:

"Advanced shipbuilding" means (i) the manufacture, construction, assembly, overhaul, repair, and test of nuclear vessels and submarines for the U.S. Navy; (ii) the design or development of nuclear vessels and submarines for the U.S. Navy; or (iii) the manufacturing activities of a private company described under 2007 index number 336611 of the North American Industry Classification System.

"Base training expense" means the total expenditures made by a qualified shipbuilder, ~~in the year prior to entering into a memorandum of understanding,~~ *in 2008* that directly and indirectly support training activities.

"Capital investment" means an investment in real property, tangible personal property, or both, within the Commonwealth.

"Eligible city" means the City of Newport News *or its industrial development authority*.

"Grant" means the advanced shipbuilding training facility grant as described in this section.

"Memorandum of understanding" means a performance agreement entered into on or before ~~June 30, 2009~~ *August 31, 2011*, among a qualified shipbuilder, the Commonwealth, and others as appropriate, such as the eligible city, setting forth the requirements for capital investment, training costs, and the creation of new full-time jobs that will make the qualified shipbuilder eligible for a grant under this section.

"New full-time job" means employment of an indefinite duration in an eligible city, created as the direct result of capital investment, for which the average annual wage is at least equal to the prevailing average annual wage in an eligible city and for which the standard fringe benefits are paid by the qualified shipbuilder, requiring a minimum of either (i) 35 hours of an employee's time per week for the entire normal year of such qualified shipbuilder's operations, which "normal year" must consist of at least 48 weeks, or (ii) 1,680 hours per year. Seasonal or temporary positions and positions created when a job function is shifted from an existing location in the Commonwealth shall not qualify as new full-time jobs under this section. Other positions, which may or may not be of indefinite duration, including supplemental employees of affiliates, subsidiaries, joint ventures, contractors, or subcontractors of the qualified shipbuilder, may be considered new full-time jobs, if so designated as such in the memorandum of understanding between such qualified shipbuilder, the Commonwealth, and others.

"New training facility" means a facility that, pursuant to a Memorandum of Agreement with the Secretary, is to be operated by the qualified shipbuilder for use by the shipbuilding industry, primarily to provide education, training and retraining of workers in the shipbuilding industry. Such training facility may be owned by the qualified shipbuilder, or may be operated by the qualified shipbuilder through a lease agreement with the eligible city, a local industrial development authority, or a private developer.

"Qualified shipbuilder" means a shipbuilder located in an eligible city that (i) makes a new capital investment of at least \$300 million from January 1, 2009 through December 31, 2011, related to advanced shipbuilding in an eligible city; (ii) creates at least 1,000 new full-time jobs in an eligible city for advanced shipbuilding or activities ancillary to or supportive of advanced shipbuilding; (iii) maintains an apprenticeship program accredited by the Council for Occupational Education with an average annual enrollment of at least 750 and articulation agreements with local community colleges that allow its graduates to qualify for accredited associate degrees from those institutions; and (iv) maintains a level of ~~base training expenditures no less than that spent in calendar year 2008 as set~~

~~forth in the memorandum of understanding expenditures directly or indirectly supporting training activities, which level is at least equal to the base training expense.~~

"Secretary" means the Secretary of Commerce and Trade or his designee.

B. Any qualified shipbuilder located in an eligible city shall be eligible to receive a grant each fiscal year beginning with the Commonwealth's fiscal year starting on July 1, 2012, and ending with the Commonwealth's fiscal year starting on July 1, 2016, unless such time frame is extended in accordance with subsection C or D. The grants under this section (i) shall be paid, subject to appropriation by the General Assembly, from a fund entitled the Advanced Shipbuilding Training Facility Fund, which Fund is hereby established on the books of the Comptroller; (ii) shall not exceed \$25 million in the aggregate; (iii) shall be paid to a qualified shipbuilder during each fiscal year contingent upon the qualified shipbuilder meeting the requirements for the aggregate of (a) number of new full-time jobs created and the substantial retention of the same, (b) maintenance of base training expenses, and (c) amount of the capital investment made and substantially retained, as set forth in the memorandum of understanding; and (iv) shall be expended by the qualified shipbuilder on training costs or to pay the capital or lease cost of any new training facility to provide that training.

1. The amount of the grant to be paid in each fiscal year shall be conditional upon the qualified shipbuilder meeting the requirements for (i) the aggregate number of new full-time jobs created and the substantial retention of the same throughout the calendar year that immediately precedes the beginning of such fiscal year; (ii) the aggregate amount of the capital investment made and substantially retained as of the last day of the calendar year that immediately precedes the beginning of such fiscal year; and (iii) ~~the expenditure of base training expenses as set forth in the memorandum of understanding entered into on or before June 30, 2009~~ *maintaining a level of expenditures directly or indirectly supporting training activities, which level is at least equal to the base training expense.* If the qualified shipbuilder has not fully met the grant requirements by December 31, 2011, the period of eligibility may be extended for up to three years, provided that the grants in any given fiscal year shall not exceed \$5 million, plus any amounts deferred in accordance with subsection C or D. Grants shall be paid based upon such requirements as agreed to on or before ~~June 30, 2009~~ *August 31, 2011*, regardless if such memorandum of understanding is later modified, amended, superseded, or otherwise changed;

2. The aggregate amount of grants that may be awarded in a particular fiscal year shall not exceed the following:

a. \$5 million for the Commonwealth's fiscal year beginning July 1, 2012;

b. \$10 million, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2013;

c. \$15 million, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2014;

d. \$20 million, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2015; and

3. Grants provided by this section shall not exceed \$25 million in the aggregate or the aggregate total of training costs expended by a qualified shipbuilder during the period, whichever is less.

C. The application and evidence shall be filed with the Secretary in person or by mail no later than April 1 each year following the calendar year in which the qualified shipbuilder meets such aggregate new full-time job requirements and aggregate capital investments. Failure to meet the filing deadline shall result in a deferral of a scheduled grant payment set forth in subsection B. For filings by mail, the postmark cancellation shall govern the date of the filing determination.

D. The memorandum of understanding may provide that if a grant payment has been deferred for any reason, including the initial failure to meet the aggregate capital investment or the aggregate new full-time job requirements or the aggregate base training expenses set forth in the memorandum of understanding or the occurrence of any substantial reduction in such new full-time job requirements or capital investment requirements after such requirements have been met but before the grant payment has been made, payment in a subsequent fiscal year for which such requirements have been met for the immediately preceding calendar year shall include both the deferred payment and the scheduled grant payment as provided in subsection B or that a proportional payment, based on the proportional share of the required additional full-time jobs, be made.

E. As a condition of receipt of a grant, a qualified shipbuilder shall make available to the Secretary or his designee for inspection upon his request relevant and applicable documents to determine whether the qualified shipbuilder has met the requirements for the receipt of grants as set forth in this section and subject to the memorandum of understanding. The Comptroller shall not draw any warrants to issue checks for the grant program under this section without a specific appropriation for the same. All such documents appropriately identified by the qualified shipbuilder shall be considered confidential and proprietary.

*F. An eligible city shall be eligible to receive a grant from the Advanced Shipbuilding Training Facility Fund established under subsection B each fiscal year beginning with the Commonwealth's fiscal year starting on July 1, 2012. The grants under this subsection may be paid to the eligible city subject to a memorandum of understanding between the Secretary, the eligible city, and the qualified shipbuilder that provides that (i) the eligible city or a private developer will build a new training facility for use by the qualified shipbuilder and the qualified shipbuilder will use the new training facility during the grant period; (ii) the new training facility is part of a development plan approved by the eligible city and the qualified shipbuilder that includes additional private capital investment adjacent to the new training facility that is equal to or greater than the cost of the facility; and (iii) the qualified shipbuilder waives its right to apply for grants under subsection B. Grants to an eligible city may be used only for the construction, lease, or lease-purchase of the new training facility, including related debt service or repayment of any loans whose proceeds are used for such costs. The memorandum of understanding may provide for a total amount of grants under this subsection of not more than \$42 million, subject to appropriation by the General Assembly, and for a period of eligibility of up to 10 years, unless such time frame is extended in accordance with subsection C or D, and may provide for a contractual agreement for payments by the Commonwealth. At the conclusion of the grant period, the qualified shipbuilder shall have the right to assume ownership of the new training facility.*

2. That Chapters 798 and 850 of the Acts of Assembly of 2009 are amended by adding a fifth enactment as follows:

A waiver of service of process shall be in a separate writing signed by the responding party; however, such signature may be electronic as otherwise provided by law. If electronic delivery is used, sufficient proof of the electronic delivery shall be retained, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery.*

3. *A private process server. For purposes of this section, "private process server" means any person 18 years of age or older and who is not a party or otherwise interested in the subject matter in controversy, and who charges a fee for service of process.*

Whenever in this Code the term "officer" or "sheriff" is used to refer to persons authorized to make, return or do any other act relating to service of process, such term shall be deemed to refer to any person authorized by this section to serve process.

B. Notwithstanding any other provision of law (i) only a sheriff or high constable may execute an order or writ of possession for personal, real or mixed property, including an

order or writ of possession arising out of an action in unlawful entry and detainer or ejectment; (ii) any sheriff, high constable or law-enforcement officer as defined in § [9.1-101](#) of the Code of Virginia may serve any capias or show cause order; and (iii) only a sheriff, the high constable for the City of Norfolk or Virginia Beach or a treasurer may levy upon property.

§ [8.01-294](#). Sheriff to get from clerk's office process and other papers; return of papers; effect of late return.

Every sheriff who attends a court shall, every day when the clerk's office is open for business, go to such office and receive all process, and other papers to be served by him, and give receipts therefor, unless he has received notice from a regular employee of the clerk's office that there are no such papers requiring service and shall return all papers within 72 hours of service, except when such returns would be due on a Saturday, Sunday, or legal holiday. In such case, the return is due on the next day following such Saturday, Sunday, or legal holiday.

The fees shall be collected by the sheriff and remitted to the treasurer of the appropriate county or city, and held by such treasurer to be appropriated by the governing body to the sheriff's office. The assessment shall be used solely by the sheriff for the development, operation, and maintenance of technology to implement the provisions of this section.*

Failure to make return of service of process by anyone authorized to serve process under § [8.01-293](#) within the time specified in this section shall not invalidate any service of process or any judgment based thereon. In the event a late return prejudices a party or interferes with the court's administration of a case, the court may, in its discretion, continue the case, require additional or substitute service of process, or take such other action or enter such order as the court deems appropriate under the circumstances.

In any civil action brought in a circuit court, the mailing of a copy of the pleadings with a notice that the proceedings are pending in the court indicated and that upon the expiration of 10 days after the giving of the notice and the expiration of the statutory period within which to respond, without further notice, the entry of a judgment by default as prayed for in the pleadings may be requested, shall satisfy the mailing requirements of this section and any notice requirement of the Rules of Court.
