Allocations from this Fund may be paid (i) to any authority, locality or commission for the purposes of paying the costs of the Northern Virginia Transportation District Program which consists of the following: the Fairfax County Parkway, Route 234 Bypass, and Metro Capital Improvements, including the Franconia-Springfield Metrorail Station, *Route 7 improvements in Loudoun County between Route 15 and Route 28, and the Route 50/Courthouse Road interchange improvements in Arlington County*, and (ii) for Category 23 projects as provided in § 2 of the act or acts authorizing the issuance of Bonds for the Northern Virginia Transportation District Program.

C. On or before July 15, ~~1993, \$9.5~~ 1994, \$19 million shall be transferred to the Fund. Such transfer shall be made by the issuance of a treasury loan at no interest in the amount of ~~\$9.5~~ 19 million in the event such an amount is not included for the Fund in the general appropriation act enacted by the ~~1993~~ 1994 Session of the General Assembly. Such treasury loan shall be repaid from the Commonwealth's portion of the state recordation tax imposed by Chapter 8 (§ [58.1-800](#) et seq.) of Title 58.1 designated for the Fund by §§ [58.1-815.1](#) and [58.1-816](#).

§ 2. The Commonwealth Transportation Board is hereby authorized, by and with the consent of the Governor, to issue, pursuant to the provisions of §§ [33.1-267](#) through [33.1-295](#), at one time or from time to time, bonds of the Commonwealth to be designated "Commonwealth of Virginia Transportation Revenue Bonds, Series .....", in an aggregate principal amount not exceeding ~~\$181,000,000~~ \$271,000,000 to finance the cost of the projects plus an amount for the issuance costs, capitalized interest, reserve funds, and other financing expenses (the "Bonds"). The proceeds of the Bonds shall be used exclusively for the purpose of providing funds, with any other available funds, for paying the costs incurred or to be incurred for construction or funding of the projects which comprise the Northern Virginia Transportation District Program as hereinafter defined and as established in Article 5 (§ [33.1-267](#) et seq.) of Chapter 3 of Title 33.1, consisting of environmental and engineering studies, rights-of-way acquisition, improvements to all modes of transportation, construction and related improvements (the "projects"). Such costs may include the payment of interest on the Bonds for a period during construction and not exceeding one year after completion of construction of the projects.

The projects shall be classified as Category 1 and, Category 2 and Category 3 projects, each category being subject to different preconditions. Bonds to finance the cost of

Category 1 projects may be issued by the Commonwealth Transportation Board. *Bonds to finance the cost of Category 2 projects may be issued by the Commonwealth Transportation Board only if the aggregate principal amount of \$261,000,000 in bonds has been issued to finance the cost of Category 1 projects.* Category 2 3 projects shall not be financed through the issuance of bonds; however, after all Bonds authorized have been issued, ~~or if there is excess bond-issuing capacity,~~ then to the extent the Northern Virginia Transportation District Fund contains amounts in excess of the amount needed to pay annual debt service on such Bonds in a particular fiscal year, such excess amounts may be expended to pay the cost of the work identified as Category 23 projects.

The projects, and the amount of bonds authorized to be issued for each such project, are as follows and constitute the Northern Virginia Transportation District Program:

*Category 2 projects consist of the Route 50/Courthouse Road interchange improvements in Arlington County, in the amount of \$10,000,000.*

The work identified as Category 23 projects to be funded from the Northern Virginia Transportation District Fund, to the extent there are sums in excess of the amount needed to pay debt service on the Bonds in a given fiscal year, is as follows:

#### Category 23 projects

Such ~~additional~~ projects as may be concurred in by the local jurisdictions participating in the Northern Virginia Transportation District Program, as evidenced by resolutions adopted by an affirmative vote of a majority of the jurisdictions participating in the Northern Virginia Transportation District Program and subject to such guidelines and conditions as may be promulgated by the Commonwealth Transportation Board.

The Bonds shall be issued by the Commonwealth Transportation Board and sold through the Treasury Board, which is hereby designated the sales and paying agent of

the Commonwealth Transportation Board with respect to the Bonds. The Treasury Board's duties shall include the approval of the terms and structure of the Bonds. In the event the aggregate principal amount of the initial issuance is less than \$181,000,000, the Commonwealth Transportation Board shall allocate the proceeds of the Bonds to individual projects in proportion to the total amount of debt authorized under this section for such projects issuance, for the projects and amounts authorized by the 1994 amendments to Chapter 391 of the Acts of Assembly of 1993, is less than \$127,000,000, the Commonwealth Transportation Board shall cause each Category 1 project to be shared in the reduced issuance by reducing the proceeds of the Bonds for each of the Category 1 projects on a pro rata basis. For purposes of making such computation, the 1993 issuance of Bonds and the amount of bond proceeds allocated to each Category 1 project in 1993 shall be disregarded.

3. That if any part of this act or the application thereof to any person or circumstance is held invalid by a court of competent jurisdiction, such holding shall not affect the validity of the remainder of the provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

## **Chapter 618 Standards of Quality.**

An Act to amend and reenact §§ [22.1-253.13:1](#) and [22.1-253.13:4](#) of the Code of Virginia and to repeal the second enactment of Chapter 661 of the 1993 Acts of Assembly, relating to the Standards of Quality for the several school divisions.

[\[S 460\]](#)

Approved April 10, 1994

Be it enacted by the General Assembly of Virginia:

1. That §§ [22.1-253.13:1](#) and [22.1-253.13:4](#) of the Code of Virginia are amended and reenacted as follows:

§ [22.1-253.13:1](#). Standard 1. Basic skills, selected programs, and instructional personnel.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of this Commonwealth must be to enable each student to develop the skills that are necessary for success in school and preparation for life, and find that the quality of education is dependent upon the provision of the appropriate working environment, benefits, and salaries necessary to ensure the availability of high quality instructional personnel and adequate commitment of other resources.

B. The Board of Education shall establish educational objectives to implement the development of the skills that are necessary for success in school and for preparation for life in the years beyond. The current educational objectives, known as the Standards of Learning, shall not be construed to be regulations as defined in § 9-6.14:4; however, the Board of Education may, from time to time, revise these educational objectives. In order to provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing new educational objectives. Thirty days prior to conducting such hearings, the Board shall give written notice by mail of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise these educational objectives in the Virginia Register

of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of these educational objectives.

The Board shall seek to ensure that any revised educational objectives are consistent with the world's highest educational standards. However, no revisions shall be implemented prior to July 1, 1994. These objectives shall include, but not be limited to, basic skills of communication, computation and critical reasoning including problem solving and decision making, and the development of personal qualities such as self-esteem, sociability, self-management, integrity, and honesty. School boards shall implement these objectives or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives utilized by the school division at appropriate age or grade levels. With such funds as are available for this purpose, the Board of Education may prescribe assessment methods to determine the level of achievement of these objectives by all students.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 which emphasizes reading, writing, speaking, mathematical concepts and computations, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of history, economics, government, foreign languages, international cultures, health, environmental issues and geography necessary for responsible participation in American society and in the international community; fine arts and practical arts; knowledge and skills needed to qualify for further education and employment or, in the case of some handicapped children, to qualify for appropriate training; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those whose scores are in the bottom national quartile on Virginia State Assessment Program Tests, or who do not pass the literacy test prescribed by the Board of Education. Division superintendents may require such students to take special programs of prevention, intervention, or remediation which may include attendance in public summer school sessions. Students required to attend such summer school sessions shall not be charged tuition. Based on the number of students attending and the Commonwealth's share of the per pupil costs, additional state funds shall be provided for summer remediation programs as set forth in the appropriation act.

D. Local school boards shall also implement the following:

1. Programs in grades K through 3 which emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or retrieval designed to increase the number of students who earn a high school diploma or general education development (GED) certificate. As provided in the appropriation act, state funding, in addition to basic aid, shall be allocated to support programs grounded in sound educational policy to reduce the number of students who drop out of school.
3. Career education programs infused into the K through 12 curricula that promote knowledge of careers and all types of employment opportunities including but not limited to, apprenticeships, the military, and career education schools, and emphasize the advantages of completing school with marketable skills. School boards may include career exploration opportunities in the middle school grades.
4. Competency-based vocational education programs, which integrate academic outcomes, career guidance and job-seeking skills for all secondary students including those identified as handicapped that reflect employment opportunities, labor market needs, applied basic skills, job-seeking skills, and career guidance. Career guidance shall include employment counseling designed to furnish information on available employment opportunities to all students, including those identified as handicapped, and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subsection.
5. Academic and vocational preparation for students who plan to continue their education beyond secondary school or who plan to enter employment.
6. Early identification of handicapped students and enrollment of such students in appropriate instructional programs consistent with state and federal law.
7. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.
8. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.
9. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.
10. A plan to make achievements for students who are educationally at risk a divisionwide priority which shall include procedures for measuring the progress of such students.

E. Each local school board shall employ with state and local basic, special education, gifted, and vocational education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten shall adjust their average daily membership for kindergarten to reflect eighty-five percent of the total kindergarten average daily memberships.

F. In addition to the positions supported by basic aid and in support of regular school year remedial programs, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 estimated to score in the bottom national quartile on Virginia State Assessment Program Tests and those who fail the literacy tests prescribed by the Board. State funding for remedial programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards. The Board of Education shall establish criteria for identification of educationally at-risk students, which shall not be construed to be regulations as defined in § 9-6.14:4; however, the Board of Education may, from time to time, revise these identification criteria. In order to provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing or revising such identification criteria. Thirty days prior to conducting such hearings, the Board shall give written notice by mail of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to establish or revise such identification criteria in the Virginia Register of Regulations.

Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any such identification criteria or revisions thereto.

G. ## **Chapter 653 Virginia Personnel Act.**

An Act to amend and reenact § 2.1-114.5:1 as it currently is effective and as it may become effective, and § 2.1-116 as it currently is effective and as it may become effective, of the Code of Virginia and to repeal the second enactment of Chapter 937 of the 1990 Acts of Assembly, relating to the grievance procedure and exemptions from the Virginia Personnel Act.

[\[H 776\]](#)

Approved April 10, 1994

Be it enacted by the General Assembly of Virginia:

1. That § 2.1-114.5:1 as it currently is effective and as it may become effective, and § 2.1-116 as it currently is effective and as it may become effective, of the Code of Virginia are amended and reenacted as follows:

§ 2.1-114.5:1. Grievance procedure.

The Department of Employee Relations Counselors shall establish a grievance procedure as part of the state's *Commonwealth's* program of employee-management relations. It shall be the policy of the Commonwealth to encourage resolution of employee problems and complaints wherein employees can freely discuss their concerns with immediate supervisors and upper management levels. However, to the extent such concerns cannot be resolved, the grievance procedure shall afford an immediate and fair method for the resolution of disputes which may arise between an agency and its employees. The grievance procedure shall include:

A. Definition of grievance. A grievance shall be a complaint or dispute by an employee relating to his employment, including but not necessarily limited to (i) disciplinary actions, including dismissals, demotions and suspensions, provided that dismissals shall be grievable whenever resulting from formal discipline or unsatisfactory job performance; (ii) the application of personnel policies, procedures, rules and regulations, including the application of policies involving matters referred to in subdivision B (iii) below; (iii) acts of retaliation as the result of utilization of the grievance procedure or of participation in the grievance of another state employee; (iv) complaints of discrimination on the basis of race, color, creed, political affiliation, age, disability, national origin or sex; and (v) acts of retaliation because the employee has complied with any law of the United States or of the Commonwealth, has reported any violation of such law to a governmental authority, or has sought any change in law before the Congress of the United States or the General Assembly.

B. Management responsibilities. Management reserves the exclusive right to manage the affairs and operations of state government. Accordingly, the following complaints are nongrievable: (i) establishment and revision of wages or salaries, position classifications or general benefits; (ii) work activity accepted by the employee as a condition of employment or work activity which may reasonably be expected to be a part of the job content; (iii) the contents of ordinances, statutes or established personnel policies, procedures, rules and regulations; (iv) failure to promote except where the employee can show that established promotional policies or procedures were not followed or applied fairly; (v)

the methods, means and personnel by which such work activities are to be carried on; (vi) except where such action affects an employee who has been reinstated within the previous six months as the result of the final determination of a grievance, termination, layoff, demotion or suspension from duties because of lack of work, reduction in work force, or job abolition; (vii) the hiring, promotion, transfer, assignment and retention of employees within the agency; and (viii) the relief of employees from duties of the agency in emergencies. In any grievance brought under the exception to (vi) of this subsection, the action shall be upheld upon a showing by the agency that: (i) there was a valid business reason for the action, and (ii) the employee was notified of the reason in writing prior to the effective date of the action.

C. Coverage of personnel. 1. All classified state employees, excluding probationary employees, are eligible to file grievances as provided in this chapter with the following exceptions:

- a. Appointees of elected groups or individuals;
- b. Agency heads or chief executive officers of government operations and institutions of higher education appointed by boards and commissions;
- c. Law-enforcement officers as defined in Chapter 10.1 (§ 2.1-116.1 et seq.) of this title whose grievance is subject to the provisions of Chapter 10.1 of this title and who have elected to proceed pursuant to Chapter 10.1 of this title in the resolution of their grievance or any other employee electing to proceed pursuant to any other existing procedure in the resolution of his grievance; and
- d. Employees in positions designated in subdivision 16 of § 2.1-116.

2. Employees of the entities listed below shall be subject to the following provisions:

- a. Employees of local social service departments and local social service boards, *including local superintendents and directors of the local boards and departments*, shall be included within the coverage of a grievance procedure. These employees may be accepted in a local governing body's grievance procedure if agreed to by the local governing body and the department or board but shall be excluded from the locality's personnel system, or they shall be covered by the state grievance procedure. The Director of the Department of Employee Relations Counselors may allow modifications to the management steps of the state grievance procedure for local social service departments and local social service boards.

b. Employees of community services boards shall be included within the coverage of a grievance procedure. These employees may be accepted in the grievance procedure of the local governing body that established the community services board or in the grievance procedure of any participating locality in the case of joint community services boards, if agreed to by the local governing body and the community services board, or they shall be covered by the state grievance procedure. The Director of the Department of Employee Relations Counselors may allow modifications to the management steps of the state grievance procedure for community services boards.

c. Constitutional officers' employees shall not be required to be covered by a grievance procedure; however, these employees may be accepted in a local governing body's grievance procedure if agreed to by both the constitutional officer and the local governing body but shall be excluded from the locality's personnel system unless their inclusion in the local personnel system is agreed to by both the constitutional officer and the locality.

d. Redevelopment and housing authorities created pursuant to § [36-4](#) and regional housing authorities created pursuant to § [36-40](#) shall promulgate and administer a grievance procedure which is consistent with the provisions of the state grievance procedure, including the definition of a grievance. Employees of authorities created pursuant to § [36-4](#) may be accepted in a local governing body's grievance procedure if agreed to by both the authority and the locality. Employees of authorities created pursuant to § [36-40](#) may be accepted in the grievance procedure of a local governing body that contributes financially to the operation of the authority if agreed to by both the authority and the locality. The state grievance procedure shall apply if a housing authority does not promulgate an approved grievance procedure or if its employees are not accepted in a local governing body's grievance procedure; the housing authority shall provide its employees copies of the state grievance procedure upon request.

e. A housing authority that promulgates its own grievance procedure shall submit the procedure to the Director of the Department of Employee Relations Counselors for approval. The Director may allow modifications to the management steps of the procedure. The grievance procedure shall provide for a panel hearing. A housing authority shall not be required to have an administrative hearing officer in employee termination cases, as provided in the state grievance procedure, but may do so at its option. When a housing authority elects to use an administrative hearing officer as the third panel member in employee termination cases, the administrative hearing officer shall be appointed

by the Executive Secretary of the Supreme Court. The appointment shall be made from the list of administrative hearing officers maintained by the Executive Secretary pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis. The housing authority shall bear the per diem expenses and other costs of the administrative hearing officer. Panel decisions shall be final and binding.

f. Employees of local social service departments and local social service boards, community services boards, housing authorities and local governing bodies who are covered by the state grievance procedure shall have issues of grievability, including questions of access to the procedure, determined by the Director of the Department of Employee Relations Counselors; those employees who have been accepted into a local governing body's grievance procedure shall have such determinations made pursuant to the locality's procedure. For a housing authority that promulgates its own grievance procedure, the commissioners of the housing authority or their designee shall determine issues of qualification for a panel hearing, subject to judicial review pursuant to subsection E of this section.

g. Notwithstanding those exempt from this chapter, every legislative and judicial agency shall promulgate and administer a grievance procedure.

D. Grievance procedure steps. The Department of Employee Relations Counselors shall develop a grievance procedure in compliance with the foregoing which shall include not more than four steps for airing complaints at successively higher levels of management and a final step providing for a panel hearing.

1. The first step shall provide for an informal, initial processing of employee complaints by the immediate supervisor through a nonwritten, discussion format.

2. Management steps shall provide for a review with higher levels of management following the employee's reduction to writing of the grievance and the relief requested on forms supplied by the agency or the Department of Employee Relations Counselors. Personal face-to-face meetings are required at these steps.

3. With the exception of the final management step, the only persons who may be present in the management step meetings are the grievant, the appropriate manager at the level at which the grievance is being heard, and appropriate witnesses for each side. At the final management step, the grievant, at his option, may have present a representative of his choice. If the grievant is represented by legal counsel, management likewise has the option of being represented by counsel.

4. Qualifying grievances shall advance to the final step as described below:

a. Employees of the Department of Mental Health, Mental Retardation and Substance Abuse Services who are terminated on the grounds of patient abuse, and employees of the Department of Corrections who work in institutions or have client or inmate contact, and employees of the Department of Youth and Family Services who work in learning centers or have client or resident contact and who are terminated on the grounds of client or inmate abuse, or a criminal conviction, or are terminated as a result of being placed on probation under the provisions of § [18.2-251](#), may appeal their termination through the grievance procedure only through the management steps. If resolution is not forthcoming by the conclusion of the last management step, the employee may advance the grievance to the circuit court of the jurisdiction in which the grievance occurred for a de novo hearing on the merits in lieu of a panel hearing. In its discretion, the court may refer the matter to a commissioner in chancery to take such evidence as may be proper and to make a report to the court. Both the grievant and the respondent may call upon appropriate witnesses and be represented by legal counsel or other representatives before the court or the commissioner in chancery. Such representatives may examine, cross-examine, question and present evidence on behalf of the grievant or respondent before the court or commissioner in chancery without being in violation of the provisions of § [54.1-3904](#). A termination shall be upheld unless shown to have been unwarranted by the facts or contrary to law or written policy. The decision of the court shall be final and binding.

b. For employees who are not grieving termination or retaliation under subdivision A (v) of this section, the final step shall provide for a hearing before an impartial panel, consisting of one member appointed by the grievant, one member appointed by the agency head and a third member selected by the first two. In the event that agreement cannot be reached as to the final panel member, the chief judge of the circuit court of the jurisdiction wherein the dispute arose shall select the third panel member. The panel shall not be composed of any persons having direct involvement with the grievance being heard by the panel, or with the complaint or dispute giving rise to the grievance. Managers who are in a direct line of supervision of a grievant, persons residing in the same household as the grievant and the following relatives of a participant in the grievance process or a participant's spouse are prohibited from serving as panel members: spouse, parent, child, descendants of a child, sibling, niece, nephew and first cousin. No attorney having direct involvement with the subject matter of the grievance, nor a partner, associate, employee or co-employee of the attorney shall serve as a panel member.

c. For employees grieving termination or retaliation under subdivision A (v) of this section, the third panel member shall not be selected in the manner described above, but shall be appointed by the Director of the Department of Employee Relations Counselors. The appointment shall be made from the list of administrative hearing officers maintained by the Supreme Court of Virginia pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis, as established by the Director of the Department of Employee Relations Counselors. In cases of termination of employees of local social service departments and local social service boards, community services boards, redevelopment and housing authorities and regional housing authorities who are covered by the state grievance procedure, the third panel member shall be appointed by the Executive Secretary of the Supreme Court. The appointment shall be made from the list of administrative hearing officers maintained by the Executive Secretary pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis. The employing agency of the grievant shall bear the per diem expenses and other costs of the administrative hearing officer. Local governments that have their own grievance procedure shall not be required to have an administrative hearing officer in employee termination cases, but may do so at their option.

d. In all cases the third panel member shall be chairperson of the panel. The decision of the panel shall be final and binding and shall be consistent with provisions of law and written policy. In grievances filed by classified state employees, the question of whether the relief granted by a panel is consistent with written policy shall be determined by the Director of the Department of Personnel and Training. In the case of other employees covered by the state grievance procedure or employees covered by local government grievance procedures, the question of whether the relief granted by a panel is consistent with written policy shall be determined by the chief administrative officer of the governmental agency which promulgated the policy or his designee unless such person has a direct involvement with the grievance, in which case the decision shall be made by the attorney for the Commonwealth of the jurisdiction in which the grievance is pending. Both the grievant and the respondent may call upon appropriate witnesses and be represented by legal counsel or other representatives at the panel hearing. Such representatives may examine, cross-examine, question and present evidence on behalf of the grievant or respondent before the panel without being in violation of the provisions of [§ 54.1-3904](#).

5. The grievance procedure shall prescribe reasonable and specific time limitations for the grievant to submit an initial complaint and to appeal each decision through the steps of the grievance procedure. Such limits shall be equivalent to the time which is allowed the response in each comparable situation.

6. After the initial filing of a written grievance, failure of either party to comply with all substantial procedural requirements of the grievance procedure without just cause shall result in a decision in favor of the other party on any grievable issue, provided the party not in compliance fails to correct the noncompliance within five work days of receipt of written notification by the other party of the compliance violation. Such written notification by the grievant shall be made to the agency head or chief administrative officer. Failure of either party without just cause to comply with all substantial procedural requirements at the panel hearing shall result in a decision in favor of the other party. For employees covered by the state grievance procedure, compliance determinations shall be made by the Director of the Department of Employee Relations Counselors. The commissioners of the housing authority shall make compliance determinations for employees of housing authorities that have their own procedures. Compliance determinations made by the commissioners of the housing authority shall be subject to judicial review.

E. Determining issues qualifying for a panel hearing. Decisions regarding whether a matter qualifies for a panel hearing shall be made by the agency head or chief administrative officer at the request of the agency or grievant within five work days of the request. A copy of the ruling shall be sent to the grievant. Decisions of the agency head or chief administrative officer may be appealed to the circuit court having jurisdiction in the locality in which the grievant is employed for a hearing on the issue of whether the grievance qualifies for a panel hearing. Proceedings for review of the decision of the agency head or chief administrative officer shall be instituted by filing a notice of appeal with the agency head or chief administrative officer within five work days from the date of receipt of the decision and giving a copy thereof to all other parties. Within five work days thereafter, the agency head or chief administrative officer shall transmit to the clerk of the court to which the appeal is taken: a copy of the decision of the agency head or chief administrative officer, a copy of the notice of appeal, and the exhibits. A list of the evidence furnished to the court shall also be furnished to the grievant. The failure of the agency head or chief administrative officer to transmit the record within the time allowed shall not prejudice the rights of the grievant. The court, on motion of the grievant, may issue a writ of certiorari requiring the agency head or chief administrative officer to transmit the record on or before a certain date. Within thirty days of receipt of such records by

the clerk, the court, sitting without a jury, shall hear the appeal on the record transmitted by the agency head or chief administrative officer and such additional evidence as may be necessary to resolve any controversy as to the correctness of the record. The court, in its discretion, may receive such other evidence as the ends of justice require. The court may affirm the decisions of the agency head or chief administrative officer or may reverse or modify the decision. The decision of the court shall be rendered no later than the fifteenth day from the date of the conclusion of the hearing. The decision of the court is final and is not appealable.

F. Either party may petition the circuit court having jurisdiction in the locality in which the grievant is employed for an order requiring implementation of the panel decision.

§ 2.1-114.5:1. (Delayed effective date) Grievance procedure.

The Department of Employee Relations Counselors shall establish a grievance procedure as part of the Commonwealth's program of employee-management relations. It shall be the policy of the Commonwealth to encourage resolution of employee problems and complaints wherein employees can freely discuss their concerns with immediate supervisors and upper management levels. However, to the extent such concerns cannot be resolved, the grievance procedure shall afford an immediate and fair method for the resolution of disputes which may arise between an agency and its employees. The grievance procedure shall include:

A. Definition of grievance. A grievance shall be a complaint or dispute by an employee relating to his employment, including but not necessarily limited to (i) disciplinary actions, including dismissals, demotions and suspensions, provided that dismissals shall be grievable whenever resulting from formal discipline or unsatisfactory job performance; (ii) the application of personnel policies, procedures, rules and regulations, including the application of policies involving matters referred to in subdivision B (iii) below; (iii) acts of retaliation as the result of utilization of the grievance procedure or of participation in the grievance of another state employee; (iv) complaints of discrimination on the basis of race, color, creed, political affiliation, age, disability, national origin or sex; and (v) acts of retaliation because the employee has complied with any law of the United States or of the Commonwealth, has reported any violation of such law to a governmental authority, or has sought any change in law before the Congress of the United States or the General Assembly.

B. Management responsibilities. Management reserves the exclusive right to manage the affairs and operations of state government. Accordingly, the following complaints are

nongrievable: (i) establishment and revision of wages or salaries, position classifications or general benefits; (ii) work activity accepted by the employee as a condition of employment or work activity which may reasonably be expected to be a part of the job content; (iii) the contents of ordinances, statutes or established personnel policies, procedures, rules and regulations; (iv) failure to promote except where the employee can show that established promotional policies or procedures were not followed or applied fairly; (v) the methods, means and personnel by which such work activities are to be carried on; (vi) except where such action affects an employee who has been reinstated within the previous six months as the result of the final determination of a grievance, termination, layoff, demotion or suspension from duties because of lack of work, reduction in work force, or job abolition; (vii) the hiring, promotion, transfer, assignment and retention of employees within the agency; and (viii) the relief of employees from duties of the agency in emergencies. In any grievance brought under the exception to (vi) of this subsection, the action shall be upheld upon a showing by the agency that: (i) there was a valid business reason for the action, and (ii) the employee was notified of the reason in writing prior to the effective date of the action.

C. Coverage of personnel. 1. All classified state employees, excluding probationary employees, are eligible to file grievances as provided in this chapter with the following exceptions:

b. Agency heads or chief executive officers of government operations and institutions of higher education appointed by boards and commissions;

c. Law-enforcement officers as defined in Chapter 10.1 (§ 2.1-116.1 et seq.) of this title whose grievance is subject to the provisions of Chapter 10.1 of this title and who have elected to proceed pursuant to Chapter 10.1 of this title in the resolution of their grievance or any other employee electing to proceed pursuant to any other existing procedure in the resolution of his grievance; and

d. ~~Managerial employees who are engaged in agency-wide policy determinations, or directors of major state facilities or geographic units as defined by regulation, except that such managerial employees below the agency head level may file grievances regarding disciplinary actions limited to dismissals.~~ *Employees in positions designated in subdivision 16 of § 2.1-116.*

2. Employees of the entities listed below shall be subject to the following provisions:

a. Employees of local social service departments and local social service boards, including local superintendents and directors of the local boards and departments, shall be included within the coverage of a grievance procedure. These employees may be accepted in a local governing body's grievance procedure if agreed to by the local governing body and the department or board but shall be excluded from the locality's personnel system, or they shall be covered by the state grievance procedure. The Director of the Department of Employee Relations Counselors may allow modifications to the management steps of the state grievance procedure for local social service departments and local social service boards.

b. Employees of community services boards shall be included within the coverage of a grievance procedure. These employees may be accepted in the grievance procedure of the local governing body that established the community services board or in the grievance procedure of any participating locality in the case of joint community services boards, if agreed to by the local governing body and the community services board, or they shall be covered by the state grievance procedure. The Director of the Department of Employee Relations Counselors may allow modifications to the management steps of the state grievance procedure for community services boards.

c. Constitutional officers' employees shall not be required to be covered by a grievance procedure; however, these employees may be accepted in a local governing body's grievance procedure if agreed to by both the constitutional officer and the local governing body but shall be excluded from the locality's personnel system unless their inclusion in the local personnel system is agreed to by both the constitutional officer and the locality.

Employees of authorities created pursuant to § [36-40](#) may be accepted in the grievance procedure of a local governing body that contributes financially to the operation of the authority if agreed to by both the authority and the locality. The state grievance procedure shall apply if a housing authority does not promulgate an approved grievance procedure or if its employees are not accepted in a local

governing body's grievance procedure; the housing authority shall provide its employees copies of the state grievance procedure upon request.

e. A housing authority that promulgates its own grievance procedure shall submit the procedure to the Director of the Department of Employee Relations Counselors for approval. The Director may allow modifications to the management steps of the procedure. The grievance procedure shall provide for a panel hearing. A housing authority shall not be required to have an administrative hearing officer in employee termination cases, as provided in the state grievance procedure, but may do so at its option. When a housing authority elects to use an administrative hearing officer as the third panel member in employee termination cases, the administrative hearing officer shall be appointed by the Executive Secretary of the Supreme Court. The appointment shall be made from the list of administrative hearing officers maintained by the Executive Secretary pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis. The housing authority shall bear the per diem expenses and other costs of the administrative hearing officer. Panel decisions shall be final and binding.

f. Employees of local social service departments and local social service boards, community services boards, housing authorities and local governing bodies who are covered by the state grievance procedure shall have issues of grievability, including questions of access to the procedure, determined by the Director of the Department of Employee Relations Counselors; those employees who have been accepted into a local governing body's grievance procedure shall have such determinations made pursuant to the locality's procedure. For a housing authority that promulgates its own grievance procedure, the commissioners of the housing authority or their designee shall determine issues of qualification for a panel hearing, subject to judicial review pursuant to subsection E of this section.

g. Notwithstanding those exempt from this chapter, every legislative and judicial agency shall promulgate and administer a grievance procedure.

D. Grievance procedure steps. The Department of Employee Relations Counselors shall develop a grievance procedure in compliance with the foregoing which shall include not more than four steps for airing complaints at successively higher levels of management and a final step providing for a panel hearing.

1. The first step shall provide for an informal, initial processing of employee complaints by the immediate supervisor through a nonwritten, discussion format.

2. Management steps shall provide for a review with higher levels of management following the employee's reduction to writing of the grievance and the relief requested on forms supplied by the agency or the Department of Employee Relations Counselors. Personal face-to-face meetings are required at these steps.

3. With the exception of the final management step, the only persons who may be present in the management step meetings are the grievant, the appropriate manager at the level at which the grievance is being heard, and appropriate witnesses for each side. At the final management step, the grievant, at his option, may have present a representative of his choice. If the grievant is represented by legal counsel, management likewise has the option of being represented by counsel.

4. Qualifying grievances shall advance to the final step as described below:

a. Employees of the Department of Mental Health, Mental Retardation and Substance Abuse Services who are terminated on the grounds of patient abuse, and employees of the Department of Corrections who work in institutions or have client or inmate contact, and employees of the Department of Youth and Family Services who work in learning centers or have client or resident contact and who are terminated on the grounds of client or inmate abuse, or a criminal conviction, or are terminated as a result of being placed on probation under the provisions of § [18.2-251](#), may appeal their termination through the grievance procedure only through the management steps. If resolution is not forthcoming by the conclusion of the last management step, the employee may advance the grievance to the circuit court of the jurisdiction in which the grievance occurred for a de novo hearing on the merits in lieu of a panel hearing. In its discretion, the court may refer the matter to a commissioner in chancery to take such evidence as may be proper and to make a report to the court. Both the grievant and the respondent may call upon appropriate witnesses and be represented by legal counsel or other representatives before the court or the commissioner in chancery. Such representatives may examine, cross-examine, question and present evidence on behalf of the grievant or respondent before the court or commissioner in chancery without being in violation of the provisions of § [54.1-3904](#). A termination shall be upheld unless shown to have been unwarranted by the facts or contrary to law or written policy. The decision of the court shall be final and binding.

b. For employees who are not grieving termination or retaliation under subdivision A (v) of this section, the final step shall provide for a hearing before an impartial panel, consisting of one member appointed by the grievant, one member appointed by the agency

head and a third member selected by the first two. In the event that agreement cannot be reached as to the final panel member, the chief judge of the circuit court of the jurisdiction wherein the dispute arose shall select the third panel member. The panel shall not be composed of any persons having direct involvement with the grievance being heard by the panel, or with the complaint or dispute giving rise to the grievance. Managers who are in a direct line of supervision of a grievant, persons residing in the same household as the grievant and the following relatives of a participant in the grievance process or a participant's spouse are prohibited from serving as panel members: spouse, parent, child, descendants of a child, sibling, niece, nephew and first cousin. No attorney having direct involvement with the subject matter of the grievance, nor a partner, associate, employee or co-employee of the attorney shall serve as a panel member.

c. For employees grieving termination or retaliation under subdivision A (v) of this section, the third panel member shall not be selected in the manner described above, but shall be appointed by the Director of the Department of Employee Relations Counselors. The appointment shall be made from the list of administrative hearing officers maintained by the Supreme Court of Virginia pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis, as established by the Director of the Department of Employee Relations Counselors. In cases of termination of employees of local social service departments and local social service boards, community services boards, redevelopment and housing authorities and regional housing authorities who are covered by the state grievance procedure, the third panel member shall be appointed by the Executive Secretary of the Supreme Court. The appointment shall be made from the list of administrative hearing officers maintained by the Executive Secretary pursuant to § 9-6.14:14.1 and shall be made from the appropriate geographical region on a rotating basis. The employing agency of the grievant shall bear the per diem expenses and other costs of the administrative hearing officer. Local governments that have their own grievance procedure shall not be required to have an administrative hearing officer in employee termination cases, but may do so at their option.

d. In all cases the third panel member shall be chairperson of the panel. The decision of the panel shall be final and binding and shall be consistent with provisions of law and written policy. In grievances filed by classified state employees, the question of whether the relief granted by a panel is consistent with written policy shall be determined by the Director of the Department of Personnel and Training. In the case of other employees covered by the state grievance procedure or employees covered by local government

grievance procedures, the question of whether the relief granted by a panel is consistent with written policy shall be determined by the chief administrative officer of the governmental agency which promulgated the policy or his designee unless such person has a direct involvement with the grievance, in which case the decision shall be made by the attorney for the Commonwealth of the jurisdiction in which the grievance is pending. Both the grievant and the respondent may call upon appropriate witnesses and be represented by legal counsel or other representatives at the panel hearing. Such representatives may examine, cross-examine, question and present evidence on behalf of the grievant or respondent before the panel without being in violation of the provisions of [§ 54.1-3904](#).

5. The grievance procedure shall prescribe reasonable and specific time limitations for the grievant to submit an initial complaint and to appeal each decision through the steps of the grievance procedure. Such limits shall be equivalent to the time which is allowed the response in each comparable situation.

6. After the initial filing of a written grievance, failure of either party to comply with all substantial procedural requirements of the grievance procedure without just cause shall result in a decision in favor of the other party on any grievable issue, provided the party not in compliance fails to correct the noncompliance within five work days of receipt of written notification by the other party of the compliance violation. Such written notification by the grievant shall be made to the agency head or chief administrative officer. Failure of either party without just cause to comply with all substantial procedural requirements at the panel hearing shall result in a decision in favor of the other party. For employees covered by the state grievance procedure, compliance determinations shall be made by the Director of the Department of Employee Relations Counselors. The commissioners of the housing authority shall make compliance determinations for employees of housing authorities that have their own procedures. Compliance determinations made by the commissioners of the housing authority shall be subject to judicial review.

E. Determining issues qualifying for a panel hearing. Decisions regarding whether a matter qualifies for a panel hearing shall be made by the agency head or chief administrative officer at the request of the agency or grievant within five work days of the request. A copy of the ruling shall be sent to the grievant. Decisions of the agency head or chief administrative officer may be appealed to the circuit court having jurisdiction in the locality in which the grievant is employed for a hearing on the issue of whether the grievance qualifies for a panel hearing. Proceedings for review of the decision of the

agency head or chief administrative officer shall be instituted by filing a notice of appeal with the agency head or chief administrative officer within five work days from the date of receipt of the decision and giving a copy thereof to all other parties. Within five work days thereafter, the agency head or chief administrative officer shall transmit to the clerk of the court to which the appeal is taken: a copy of the decision of the agency head or chief administrative officer, a copy of the notice of appeal, and the exhibits. A list of the evidence furnished to the court shall also be furnished to the grievant. The failure of the agency head or chief administrative officer to transmit the record within the time allowed shall not prejudice the rights of the grievant. The court, on motion of the grievant, may issue a writ of certiorari requiring the agency head or chief administrative officer to transmit the record on or before a certain date. Within thirty days of receipt of such records by the clerk, the court, sitting without a jury, shall hear the appeal on the record transmitted by the agency head or chief administrative officer and such additional evidence as may be necessary to resolve any controversy as to the correctness of the record. The court, in its discretion, may receive such other evidence as the ends of justice require. The court may affirm the decisions of the agency head or chief administrative officer or may reverse or modify the decision. The decision of the court shall be rendered no later than the fifteenth day from the date of the conclusion of the hearing. The decision of the court is final and is not appealable.

F. Either party may petition the circuit court having jurisdiction in the locality in which the grievant is employed for an order requiring implementation of the panel decision.

*§ 3. The proceeds of the bonds and any bond anticipation notes, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes, shall be deposited in a special capital outlay fund in the state treasury and shall be disbursed by the State Treasurer for paying all or any part of the cost of the acquisition, construction, renovation, enlargement, improvement and equipping of said capital projects in the amounts provided above, plus issuance costs, reserve funds and other financing expenses.*

*§ 4. The bonds shall be dated, shall bear interest at such rate or rates, shall mature at such time or times not exceeding thirty years from their date or dates, and may be made redeemable before their maturity or maturities at such price or prices, all as may be determined by the Treasury Board, by and with the consent of the Governor. The principal of, premium, if any, and the interest on the bonds shall be payable in lawful money of the United States of America. The Treasury Board shall determine the form of the bonds and shall fix the denomination or denominations of the bonds and the place or places of payment of principal, premium, if any, and interest, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. The bonds may bear interest at such rate or rates subject to inclusion in gross income for federal income tax purposes as may be determined by the Treasury Board, by and with the consent of the Governor.*

*The bonds may be in registered form or as may be required by federal law in effect on the date of issuance. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and the principal, premium, if any, and interest due thereon. Bonds issued in registered form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments of principal of, premium, if any, and interest on the bonds. The bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth.*

*The Treasury Board may sell the bonds in such manner, at public or private sale, and for such price as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth. The bonds may be sold at par, at a premium or at a discount.*

*Anything in this act to the contrary notwithstanding, the bonds authorized hereby may be issued at one time or in part may be issued and sold at the same time with other bonds of the Commonwealth authorized pursuant to Section 9 (c) of Article X of the Constitution*

*of Virginia, either as separate issues, as a combined issue designated "Commonwealth of Virginia, Article X, Section 9 (c) Project Bonds, Series ....., " or as a combination of both.*

*The Treasury Board shall be authorized to supplement the special capital outlay fund in the state treasury created pursuant to § 3 hereof from excess moneys in any debt service, sinking or comparable fund established pursuant to previous issues of higher educational institutions bonds so long as such excess fund moneys are not otherwise restricted by law or by express contract with the holders of such prior bonds.*

*§ 5. The bonds shall be signed on behalf of the Commonwealth by the Governor, or shall bear his facsimile signature, and by the State Treasurer, or shall bear his facsimile signature, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds bear the facsimile signature of the State Treasurer, the bonds shall be signed by such administrative assistant as the State Treasurer shall determine, or by such registrar or paying agent as may be designated to sign such bonds by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds ceases to be such officer before the delivery of such bonds, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such persons as at the actual time of the execution of such bond are the proper officers to sign such bond although, at the date of such bond, such persons may not have been such officers.*

*§ 6. All expenses incurred under this act shall be paid from the proceeds of the bonds, from payments made by the institutions for which the capital projects were acquired, constructed, renovated, enlarged, improved or equipped, or from any other available funds as the Treasury Board shall determine, including excess moneys in any debt service, sinking or comparable fund created in connection with prior issues of higher educational institutions bonds to the extent not otherwise restricted by law or by contract with the holders of such prior bonds.*

*§ 7. The Treasury Board is hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of the bonds, if the Treasury Board and the Governor deem it advisable to postpone the issuance of the bonds. Proceeds of the bonds shall be used to pay any such bond anticipation notes. Funds provided by the General Assembly, or from any other source, for the payment of the principal of, premium, if any, and the interest on the bonds shall be used in paying the principal of,*

*premium, if any, and the interest on any bond anticipation notes. Such bond anticipation notes shall be dated, shall mature at such time or times not exceeding five years from their dates, and may be redeemable before their maturity or maturities at such price or prices, all as may be determined by the Treasury Board, by and with the consent of the Governor. Such bond anticipation notes shall be in such form, shall be executed in such manner, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as the Treasury Board or the State Treasurer, when authorized by the Treasury Board, may determine. Such bond anticipation notes may bear interest subject to inclusion in gross income for federal income tax purposes as may be determined by the Treasury Board, by and with the consent of the Governor.*

*§ 8. Pending the application of the proceeds of the bonds and any bond anticipation notes to the purpose for which they have been authorized, all or any part of such proceeds may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds. Such investments shall be deemed at all times to be a part of such proceeds, and the interest thereon and any profit realized from such investments shall be credited to such proceeds and any losses shall be deducted therefrom.*

*§ 9. Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect a building fee or other comprehensive student fee and other rates, fees and charges for or in connection with the use, occupation and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge such rates, fees and charges remaining after payment of (a) the expenses of operating the project or system, as the case may be and (b) the expenses related to all other activities funded by the building fee or other comprehensive student fee, if applicable, to the payment of the principal of, premium, if any, and interest on the portion of the bonds issued for such capital project. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 10. The net revenues of the capital projects set forth above and the full faith, credit and taxing power of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on the bonds and the bond anticipation notes herein authorized. In the event the net revenues pledged hereby are insufficient in any fiscal*

*year for the timely payment of the principal of, premium, if any, and the interest on the bonds or bond anticipation notes herein authorized, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 11. The interest income on the bonds and bond anticipation notes issued under the provisions of this act shall at all times be exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof.*

*§ 12. The bonds issued under the provisions of this act may be refunded by refunding bonds authorized and issued in accordance with the provisions of Chapters 265 and 408 of the 1992 Acts of Assembly.*

2. That Chapters 507 and 515 of the Acts of Assembly of 1993 are repealed, provided that such repeal shall not operate to invalidate, alter the security, or prohibit the refunding of bonds heretofore issued pursuant to such act.

3. That an emergency exists and this act is in force from its passage.

## **Chapter 690 Conveyance of property to and from the Commonwealth.**

An Act to amend and reenact Chapter 931 of the Acts of Assembly of 1993, relating to conveyance of certain property of the Commonwealth to the City of Virginia Beach and conveyance of certain property of the City of Virginia Beach to the Commonwealth.

[\[S 449\]](#)

Approved April 10, 1994

Whereas, certain property owned by the Commonwealth, and known as Camp Pendleton, is used, in part, by the Virginia National Guard for training purposes; and

Whereas, at the time of its creation, the territory contiguous to Camp Pendleton was relatively sparsely populated; and

Whereas, since the creation of Camp Pendleton, surrounding communities have grown and developed at an unexpectedly rapid pace; and

Whereas, continuing urbanization and increasing population density in the Hampton Roads area have often confronted local communities with the need to find new areas of land which can be put to use for public purposes; and

Whereas, certain portions of the Camp Pendleton property are currently (i) leased to the City of Virginia Beach for public purposes or (ii) undeveloped and unused, and should therefore be considered surplus property; and

Whereas, it is in the best interest of the Commonwealth to dispose of surplus property for fair market value; and

Whereas, the City of Virginia Beach has been negotiating for a number of years to purchase the surplus properties of Camp Pendleton and, when compared to professional appraisals, has offered to pay the Commonwealth at least fair market value for the properties; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. That Chapter 931 of the Acts of Assembly of 1993 is amended and reenacted as follows:

§ 1. The Governor shall convey in the name of the Commonwealth, in a form approved by the Attorney General, to the City of Virginia Beach, the Commonwealth's interest in the following properties located at Camp Pendleton:

Tract 1, containing 288 acres, more or less, and commonly referred to as "Red Wing Golf Course";

Tract 2, containing 132 acres, more or less, and commonly referred to as the "Forest Tract";

Tract 3, containing seventy acres, more or less, and commonly referred to as the "Fire Training/Elementary School Tract"; and

Tract 4, containing fifty-nine acres, more or less, and commonly referred to as the "Municipal Tract-Owls Creek."

~~The City of Virginia Beach shall pay to the Commonwealth the fair market amount as determined by an appraisal at terms to be agreed upon. The appraisal shall be performed by a qualified appraiser as agreed upon by the Commonwealth and the City of Virginia Beach. If an appraiser cannot be agreed upon, then each party shall select an appraiser and the two appraisers shall agree upon a third appraiser. The appraisal amount shall be the average of the three appraisals value of the property, at terms to be agreed upon, with the fair market value to be determined by the following appraisal process. The City of Virginia Beach and the Commonwealth shall each select a licensed appraiser and the two appraisers selected shall each agree upon a third licensed appraiser. Each of the three appraisers shall (i) perform separate appraisals on the four tracts described above without improvements and (ii) appraise the value of the golf course improvements located on Tract 1. Each appraisal shall reflect the municipal purpose restrictions set forth below.~~

*The fair market value of the property shall be the average of the three appraisals of the unimproved property of each of the four tracts. After the appraisal process is completed, the City of Virginia Beach and the Commonwealth of Virginia shall negotiate the inclusion or exclusion of the value, or the inclusion of any part of the value, of the golf course improvements in the purchase price.*

*If the City has agreed to serve as local sponsor for a cost-shared federal beach nourishment or hurricane project in the Sandbridge area of the City, \$2.8 million of the purchase price paid by the City shall be returned to the City for its use solely in that project. The City of Virginia Beach shall create a special service district, pursuant to § 15.1-18.2*

*of the Code of Virginia, in the Sandbridge area of the City to provide the local share of the renourishment costs of the federal beach nourishment or hurricane project.*

The City's lease of Tract 1 shall continue under the current terms until June 30, 1994, or until the conveyance of Tract 1 to the City is completed, whichever shall occur first.

§ 2. Tracts 1 and 2 shall be used only for municipal recreational purposes and shall be subject to reclamation by the Commonwealth, in whole or in part, upon demand by the Governor, in the event of a national emergency declared by the President or by Congress. The property shall be returned to the City upon the expiration of the emergency.

§ 3. Tracts 3 and 4 shall be used only for municipal purposes.

## **Chapter 943 Certain program for persons living with AIDS.**

An Act to authorize implementation of a certain program for persons living with AIDS.

[\[H 1187\]](#)

Approved April 20, 1994

Whereas, from the earliest days of the AIDS epidemic, the private citizens and government of the Commonwealth of Virginia have joined together to provide needed services to infected persons; and

Whereas, these efforts have resulted in recognition of Virginia as an innovator in using available resources and developing new combinations of resources to meet the ever-growing needs of persons living with AIDS; and

## **Chapter 185 Federal retirees tax refund.**

An Act authorizing the Tax Commissioner to determine which retired federal and military taxpayers were denied participation due to missing information necessary to substantiate the validity or amount of a timely filed claim or missed the November 1, 1994,

Virginia Department of Taxation* case settlement; authorizing the Tax Commissioner to enter into settlement agreements with such taxpayers in an amount equal to the amount agreed to with the retired federal and military taxpayers who filed a completed claim by the November 1, 1994, deadline; and establishing a fund from which such incomplete or late settlement agreement amounts shall be paid.

[\[S 831\]](#)

Approved March 14, 1995

Whereas, during its Special Session in July 1994, the General Assembly passed legislation authorizing the Tax Commissioner to enter into settlement agreements with retired federal and military Virginia taxpayers affected by the *Harper v. Virginia Department of Taxation* case; and

Whereas, such legislation contained a November 1, 1994, deadline for the affected taxpayers to file certain forms and other supporting documentation, where necessary, with the Department of Taxation in order to participate in the settlement; and

Whereas, a large number of such taxpayers failed to provide the necessary supporting documentation, missed the deadline for filing, or mailed or otherwise sent the appropriate documentation which was not received by the Department of Taxation, thereby missing the opportunity to participate in the settlement; and

Whereas, the General Assembly wants as many of the affected taxpayers as possible to participate in the settlement; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. *The Tax Commissioner is authorized to make settlement payments to certain retired federal and military taxpayers, as originally authorized in Chapter 5 of the 1994 Acts of Assembly, Special Session I. To be eligible to receive these payments a taxpayer shall have (i) responded to the August 1, 1994, notice on or before November 1, 1994, but was denied either full or partial participation in the settlement program due to the lack of certain information necessary for the Department to compute the taxpayer's disputed refund, or (ii) missed the November 1, 1994, deadline for responses due to circumstances beyond the control of the taxpayer, or (iii) having filed a timely response by the November 1 deadline, missed the February 1, 1995, deadline for delivering a settlement agreement to the Department due to circumstances beyond the control of the taxpayer. Such taxpayers are hereby granted an additional sixty days from the date of*

*enactment to provide the Department with the necessary information to compute their disputed refunds or to provide the Department with response forms or settlement agreements and written explanations that demonstrate that the taxpayers missed the relevant deadline due to circumstances beyond their control. The burden of proof shall be on the taxpayer. Any determination of what constitutes circumstances beyond the control of a taxpayer shall be liberally construed in favor of the taxpayer. Any supporting documentation provided to the Department on forms received prior to the expiration of the additional time period shall be reviewed by the Tax Commissioner. The Tax Commissioner shall determine whether the necessary information was provided or the taxpayer's explanation for missing the original November 1, 1994, deadline or the February 1, 1995, deadline was due to circumstances beyond the control of the taxpayer. The Tax Commissioner's authority to proceed under this section is subject to the following terms and conditions:*

*1. For purposes of this act:*

*"Calculated total disputed refund" means the total of all disputed refunds for all taxpayers who timely filed the required information with the Department, pursuant to subdivision 4a, as calculated by the Department of Taxation.*

*"Department" means the Department of Taxation.*

*"Disputed refund" means the amount of the tax overpayment on retirement or pension benefits received from a federal retirement system for taxable years 1985 through 1988 for which a refund is claimed that resulted from the Department's acceptance and processing of the additional information the taxpayer provided, pursuant to subdivision 4 a. A disputed refund does not include any amount already included in the settlement offer mailed to a taxpayer on December 15, 1994, pursuant to the Federal Retiree Settlement Act.*

*"Federal Retiree Settlement Act" means enactment 2 of Chapter 5 of the 1994 Acts of Assembly, Special Session I.*

*"Final settlement offer" means the amount of the payment to be made to a taxpayer under the settlement agreement mailed to the taxpayer by the Department by the ninetieth day following enactment, pursuant to subdivision 4 b.*

*"Refund of taxes" includes any claim for interest thereon.*

*"Settlement agreement" means the settlement agreement mailed to the taxpayers by the Department under the Federal Retiree Settlement Act or under this act.*

*"Settlement program" means the settlement program established by the Federal Retiree Settlement Act.*

*"Taxpayer" includes the estate, committee and legal beneficiaries of any taxpayer to whom a disputed refund is owed. For purposes of a deceased taxpayer's estate, if that deceased taxpayer died intestate, an affidavit provided by the Department signed by the deceased taxpayer's surviving spouse, or if there is none, the heirs of the deceased taxpayer, shall operate to claim the disputed refund to which the taxpayer was entitled. If the deceased taxpayer died testate, an affidavit provided by the Department signed by the residuary legatees under the will shall operate to claim such refund.*

*2. The payments shall be made over a five-year period in annual installments and shall be disbursed by the Tax Commissioner or his designee to the taxpayers participating in the settlement as follows:*

*a. The Department shall offer each affected taxpayer an amount equal to the same percentage of the disputed refund as computed under the Federal Retiree Settlement Act.*

*b. Disbursements shall be made in up to five payments, the first of which shall be made on July 31, 1995, with each of the remaining four disbursements to be made on March 31 through 1999. The Department shall make payments to taxpayers who settle under this act in the same proportion as calculated for the payments to be made to retirees settling under the Federal Retiree Settlement Act.*

*c. Any amount received by a taxpayer pursuant to this section shall be subject to debt collection pursuant to Article 21 (§ [58.1-520](#) et seq.) of Chapter 1 of Title 58.1.*

*3. Payments may be made directly from a special fund or from a trust or other legal entity established by the Tax Commissioner to administer the payments. Subject to appropriation by the General Assembly, an amount sufficient to fund the first and second annual settlement payments shall be deposited in the special fund, trust or other legal entity on or before July 1, 1995, pending disbursement. Subject to appropriation by the General Assembly, on each succeeding July 1 through 1998, an amount sufficient to fund the annual settlement payment shall be deposited in the special fund, trust or other legal entity pending disbursement. All earnings on investment of the funds shall be held in the special fund, trust or other legal entity established by the Tax Commissioner and reinvested until the final payments to taxpayers are made on March 31, 1999. For those taxpayers who met the November 1, 1994, filing deadline but missed the February 1, 1995, filing deadline, the first and second settlement payments (to be paid on July 31, 1995, and March 31, 1996) shall be made out of the July 1, 1995, appropriation to be made pursuant to the Federal Retiree Settlement Act; the remaining installments shall be made annually from the subsequent annual appropriations made pursuant to such Act.*

4. *The procedures to be followed by the Tax Commissioner in effecting payments as authorized shall be as follows:*

*a. On or before thirty days from the date of enactment, the Department shall notify by first class mail each taxpayer (i) who timely filed a response to the August 1, 1994, notice issued by the Department pursuant to the terms of the Federal Retiree Settlement Act, but who was denied participation in the settlement program due to the lack of certain information necessary to compute the taxpayer's disputed refund, or (ii) who responded to the August 1, 1994, notice after November 1, 1994, or (iii) who delivered a settlement agreement to the Department after February 1, 1995, of the additional thirty-day period during which he may submit the information necessary to compute his disputed refund or deliver to the Department a signed settlement agreement accepting the final settlement offer and releasing the Commonwealth from any further liability. Each taxpayer so notified shall also be required to submit a written explanation that demonstrates that the taxpayer missed the deadline due to circumstances beyond his control. The additional information or settlement agreement returned to the Department shall be either post-marked on or before midnight of the sixtieth day following the enactment, or if such day is a Saturday, Sunday, or official state holiday, midnight of the next business day, or such information shall be received by the Department by 5:00 p.m. of the sixtieth day following enactment, or if such day is a Saturday, Sunday, or official state holiday, by 5:00 p.m. of the next business day.*

*b. Within ninety days following enactment, the Department shall send to each taxpayer, as appropriate, a notice and a settlement agreement that sets forth the amount of the final settlement offer. Those taxpayers who agree to accept the offer shall sign such settlement agreement releasing the Commonwealth and its agencies, officers and employees from any further liability for claims arising out of taxes paid on federal retirement income during the 1985 through 1988 taxable years and dismissing any litigation as to such claims in which the taxpayer is a party. Such settlement agreement shall be returned to the Department and shall be postmarked on or before midnight of the 120th day following the enactment, or if such day is a Saturday, Sunday, or official state holiday, midnight of the next business day, or such settlement agreement shall be received by the Department by 5:00 p.m. of the 120th day following enactment, or if such day is a Saturday, Sunday, or official state holiday, by 5:00 p.m. of the next business day.*

5. *A taxpayer who delivered to the Department a timely but incomplete settlement agreement under the terms of the Federal Retiree Settlement Act or this act shall be deemed to have met the filing deadline, provided that any delay in submitting completed forms to the Department may result in a delay of the first payment required under the settlement*

*program established by the Federal Retiree Settlement Act or under this act. The taxpayer shall provide the Department a completed settlement agreement (i) on or before the thirtieth day after enactment for those taxpayers who qualify for participation in the settlement program created by the Federal Retiree Settlement Act or (ii) on or before the 150th day following enactment for those taxpayers who qualify for the settlement program created by this act.*

*6. A taxpayer is hereby authorized, for purposes of the settlement created by this act, to sign on behalf of a spouse with whom he or she jointly filed an income tax return for a taxable year to which the settlement is related. By signing the agreement to settle the claim on behalf of both spouses, the signing taxpayer thereby agrees to indemnify the Commonwealth for any amounts related to the settlement payments that it may be required to pay under the law to the nonsigning spouse.*

*7. The Tax Commissioner is authorized to enter into such contracts or execute such instruments or agreements as may be necessary (i) to effect compromise or settlement of disputed refund claims through creation of a trust or other legal entity or (ii) to obtain administrative or investment services relevant to any such settlement or compromise. Any such contracts or agreements for services shall be approved by the Attorney General and shall be exempt from the provisions of the Virginia Public Procurement Act (§ [11-35](#) et seq.).*

*8. Except and to the extent specifically authorized in this act, nothing in this act shall be construed or interpreted to revive any claim barred by the provisions of the Federal Retiree Settlement Act, and nothing in this act shall be construed or interpreted to authorize any taxpayer to opt out of the settlement program or agree to accept the relief granted in pending litigation after the deadlines established in the Federal Retiree Settlement Act.*

2. That an emergency exists and this act is in force from its passage.

The percentage amount of the investment tax credit granted to a qualified zone resident shall be determined by agreement between the Department and the qualified zone resident, provided such percentage amount shall not exceed five percent. The total amount of tax credits granted to qualified zone residents under subsection J, and to qualified business firms under § [59.1-280](#) for firms granted a tax credit under subsection J of this section, for each fiscal year shall not exceed three million dollars. *L. The Tax Commissioner shall have the authority to issue regulations relating to the computation and carryover of the credit provided under this section.*

*M. In the first taxable year only, the credit provided in this section shall be prorated equally against the taxpayer's estimated payments made in the third and fourth quarters and the final payment, if such taxpayer is required to make quarterly payments.*

*§ [59.1-280.2](#). Policies and procedures for reservation and allocation of tax credits.*

*A. Qualified business firms and qualified zone residents shall be eligible to receive any tax credit provided under § [59.1-280](#) or § [59.1-280.1](#) in any year if, and to the extent, they reserve the tax credit through the Department.*

*B. In order to ensure that the limited amounts of tax credits available under §§ [59.1-280](#) and [59.1-280.1](#) in any year are not oversubscribed and are allocated in an orderly and equitable manner, the Board of Housing and Community Development shall establish policies and procedures for the reservation of tax credits by qualified business firms and qualified zone residents. Such policies and procedures shall provide (i) requirements for applying for reservations of tax credits; (ii) a system for allocating available amount of tax credits among eligible applicants; (iii) for carrying forward eligibility for tax credits to subsequent periods if an applicant does not obtain a reservation of the tax credit or any portion thereof for which he is eligible in any year as the result of the oversubscription of tax credits; (iv) priorities for allocating reservations to applicants whose eligibility for reservations of tax credits was carried forward from a preceding year but who did not receive a credit to which they were otherwise eligible; and (v) for the issuance of reservations to eligible applicants who did not initially receive a reservation in any year, if the Department determines that tax credit reservations were issued to other applicants who did not use, or were determined to be wholly or partially ineligible for, a reserved tax credit.*

*C. The Department shall apply such policies and procedures in approving applications for reservations of such tax credits to qualified business firms and qualified zone residents.*

*D. Actions of the Department relating to the approval or denial of applications for reservations for tax credits under § [59.1-280](#) or § [59.1-280.1](#) shall be exempt from the provisions of the Administrative Process Act pursuant to subdivision B 4 of § 9-6.14:4.1.*

*§ [59.1-282](#). State sales tax exemptions.*

(§ [58.1-600](#) et seq.) of Title 58.1. Such exemption shall extend for a period not to exceed five years. *No business firm designated as a qualified business firm on or after July 1, 1995, shall be entitled to such exemption.*

§ [59.1-282.1](#). *Grants for creating permanent full-time positions; eligibility.*

A. *As used in this section:*

*"Base year" means (i) the calendar year immediately preceding a business firm's first year of grant eligibility or (ii) at the option of the business firm, the next preceding calendar year. With respect to each three-year period of grant eligibility, a new base year shall be determined, and for the second and each subsequent three-year period of grant eligibility, the base year shall not precede the second year of grant eligibility in the preceding three-year period.*

*"First year of grant eligibility" means the first calendar year for which a business firm was both eligible and applied for a grant pursuant to this section.*

*"Grant year" means the calendar year for which a business firm applies for a grant pursuant to this section.*

*"Number of eligible positions" means the amount by which the number of permanent full-time positions at a business firm in a grant year exceeds the threshold number.*

*"Permanent full-time position" means a job of an indefinite duration at a business firm located within an enterprise zone requiring the employee to report for work within the enterprise zone, and requiring either (i) a minimum of thirty-five hours of an employee's time a week for the entire normal year of the business firm's operations, which "normal year" must consist of at least forty-eight weeks, or (ii) a minimum of thirty-five hours of an employee's time a week for the portion of the taxable year in which the employee was initially hired for, or transferred to, the business firm. Seasonal or temporary positions, or a position created when a job function is shifted from an existing location in this Commonwealth to a business firm located within an enterprise zone shall not qualify as permanent full-time positions.*

*"Threshold number" means 110 percent of the number of permanent full-time positions in the base year for the first three-year period in which a business firm is eligible for a grant under this section. For the second and any subsequent three-year period of grant eligibility, the threshold number means 120 percent of the number of permanent full-time positions in the applicable base year as redetermined for the subsequent three-year period. If such number would include a fraction, the threshold number shall be the next highest integer.*

B. *A business firm shall be eligible to receive enterprise zone incentive grants for the three calendar years commencing with the first year of grant eligibility. Following the*

*expiration of any three-year period of grant eligibility a business firm shall be eligible for grants as provided in this section, provided that the first year of grant eligibility shall be the first calendar year during which the business firm was both eligible and applied for a grant pursuant to this section following the expiration of the preceding three-year eligibility period.*

*C. The amount of the grant for which a business firm is eligible in any grant year shall be equal to (i) \$1,000 multiplied by the number of eligible positions filled by employees whose permanent place of residence is within the enterprise zone, and (ii) \$500 multiplied by the number of eligible positions filled by employees whose permanent place of residence is outside of the enterprise zone. The number of eligible positions filled by employees whose permanent place of residence is within the enterprise zone shall be determined for any grant year by multiplying the number of eligible positions by a fraction, the numerator of which shall be the number of employees hired for permanent full-time positions by the business firm from January 1 of the applicable base year through December 31 of the grant year whose permanent place of residence is within the enterprise zone, and the denominator of which shall be the number of employees hired for permanent full-time positions by the business firm during such period. The number of eligible positions filled by employees whose permanent place of residence is outside of the enterprise zone shall be determined for any grant year by subtracting the number of eligible positions filled by employees whose permanent place of residence is within the enterprise zone, determined as provided in the preceding sentence, from the number of eligible positions. The amount of the grant for which a business firm is eligible with respect to any employee who is employed in an eligible position for less than twelve full months during the grant year will be determined by multiplying the grant amount by a fraction, the numerator of which is the number of full months that the employee worked for the business firm during the grant year, and the denominator of which is twelve. In no event shall any business firm be eligible for a grant pursuant to this section in excess of \$100,000 for any grant year.*

*D. Grant applications shall be submitted to the local zone administrator by March 31 of the year following the grant year. Applications for grants shall include evidence of the number of permanent full-time employees, their place of residence, and other relevant information as the local zone administrator and the Department may reasonably require.*

*E. The amount of the grant for which a business firm is eligible in any year shall not include amounts for the number of eligible positions in any year other than the preceding calendar year, except as provided in § [59.1-282.2](#) regarding carry-forward of unsatisfied grant request amounts.*

*F. The local zone administrator shall review and forward applications for grants to the Department by April 30 in accordance with regulations promulgated by the Board of Housing and Community Development.*

*A. There is hereby established a special fund in the state treasury to be known as the Enterprise Zone Grant Fund, which shall be administered by the Department. The Fund shall be used solely for the payment of enterprise zone incentive grants to business firms pursuant to this chapter.*

*B. Upon receiving applications for grants from local zone administrators, the Department shall determine the amount of the grant to be allocated to each eligible business firm. ## **Chapter 719 Federal retirees missing deadline for filing.**

An Act to establish a second supplemental federal retiree settlement program.

[\[H 292\]](#)

Approved April 6, 1996

Whereas, during its special session in July 1994, the General Assembly passed legislation authorizing the Tax Commissioner to enter into settlement agreements with retired federal and military Virginia taxpayers affected by the *Harper v. Virginia Department of Taxation* case; and

Whereas, such legislation contained a November 1, 1994, deadline for the affected taxpayers to file certain forms and other supporting documentation, where necessary, with the Department of Taxation in order to participate in the settlement; and

Whereas, such legislation also contained a February 1, 1995, deadline for the affected taxpayers to deliver a settlement agreement accepting the final settlement offer to the Department of Taxation; and

Whereas, a large number of such taxpayers failed to provide the necessary supporting documentation, missed a deadline for filing, or mailed or otherwise sent the appropriate documentation which was not received by the Department of Taxation, thereby missing the opportunity to participate in the settlement; and

Whereas, during the 1995 Session, the General Assembly passed legislation (Chapters 185 and 203 of the 1995 Acts of Assembly) granting retired federal and military taxpayers who failed to provide the necessary supporting documentation or missed the deadline for filing a response or delivering a settlement agreement, due to circumstances beyond their control, a period of 60 days, which expired May 15, 1995, to participate in the settlement by providing the documentation, filing the response, or delivering the settlement agreement; and

Whereas, a large number of retired federal and military taxpayers again missed the opportunity to participate in the settlement by failing to provide the necessary supporting documentation, file a response, or deliver a settlement agreement by May 15, 1995; and

Whereas, the General Assembly wants as many of the affected taxpayers as possible to participate in the settlement; and

Whereas, it is the intent of the General Assembly that this act provide the final opportunity for affected taxpayers to submit any claim to the General Assembly for a tax refund pursuant to the settlement program or for any other relief related to the *Harper* case; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

1.

*§ 1. The Tax Commissioner is hereby authorized to determine which retired federal and military taxpayers were denied participation in either the Federal Retiree Settlement Act (Enactment clause 2 of Chapter 5 of the 1994 Acts of Assembly, Special Session I) or the supplemental federal retiree settlement program (Chapters 185 and 203 of the 1995 Acts of Assembly); and is authorized to enter into settlement agreements with such taxpayers in an amount equal to the settlement amounts retirees will receive or have received under the Federal Retiree Settlement Act.*

*1. To be eligible to receive these payments, a taxpayer shall (i) have failed to fully or partially participate in either the original settlement program or the supplemental settlement program; (ii) have notified the Tax Department by June 10, 1996, that he or she is not currently participating or did not participate in the prior settlement programs; (iii) provide the Department with the information the Department deems to be necessary for purposes of determining the validity of and quantifying a taxpayer's claimed tax overpayment; and (iv) submit a properly executed settlement agreement, which releases the Commonwealth and its agencies, officers and employees from any further liability for claims arising out of taxes paid on federal retirement income received during the 1985 through 1988 taxable years and dismissing any litigation as to such claims in which the taxpayer*

*is a party. To meet the notice requirement of clause (ii) above, the taxpayer's contact with the Department to put it on notice must be documented in the Department's records.*

*2. The payments shall be made over a four-year period in annual installments and shall be disbursed by the Tax Commissioner or his designees to the taxpayers participating in the settlement as follows:*

*a. The Department shall offer each affected taxpayer an amount equal to the same percentage of the disputed refund as computed under the Federal Retiree Settlement Act. Disbursements to these taxpayers shall be limited to an amount equal to the percentage of disputed refunds and shall not include any additional amounts.*

*b. Disbursements shall be made in up to four payments, the first of which shall be made on July 31, 1996, or as soon thereafter as practical with each of the remaining three disbursements to be made on each March 31 thereafter through 1999.*

*c. Payments under the settlement program created by this act shall be to taxpayers over the same payment schedule as if the taxpayers were participating in the Federal Retiree Settlement Act, except that the initial payment shall be equal to the first two payments that the participants would have received had they participated in the Federal Retiree Settlement Act.*

*d. Any amount received by a taxpayer pursuant to this section shall be subject to debt collection pursuant to Article 21 (§ [58.1-520](#) et seq.) of Chapter 1 of Title 58.1.*

*3. The Tax Commissioner is authorized to order payments to be made out of the state treasury as if the amount each affected taxpayer is entitled to receive pursuant to this act is a refund pursuant to § [58.1-309](#).*

*4. A taxpayer is hereby authorized, for purposes of the settlement created by this act, to sign on behalf of a spouse with whom he or she jointly filed an income tax return for a taxable year to which the settlement is related. By signing the agreement to settle the claim on behalf of both spouses, the signing taxpayer thereby agrees to indemnify the Commonwealth for any amounts related to the settlement payments that it may be required to pay under the law to the nonsigning spouse.*

*5. The Tax Commissioner is authorized to enter into such contracts or execute such instruments or agreements as may be necessary (i) to effect compromise or settlement of disputed refund claims through creation of a trust or other legal entity or (ii) to obtain administrative or investment services relevant to any such settlement or compromise. Any such contracts or agreements for services shall be approved by the Attorney General and shall be exempt from the provisions of the Virginia Public Procurement Act (§ [11-35](#) et seq.).*

*6. Except and to the extent specifically authorized in this act, nothing in this act shall be construed or interpreted to revive any claim barred by Chapter 5 of the 1994 Acts of Assembly, Special Session I, and nothing in this act shall be construed or interpreted to authorize any taxpayer to be entitled to the relief granted in the Harper litigation.*

2. That an emergency exists and this act is in force from its passage.

## **Chapter 845 Higher Educational Institutions Bond Act of 1996.**

An Act to authorize the issuance of bonds subject to the provisions of Section 9 (c) of Article X of the Constitution of Virginia in an amount not to exceed \$113,324,000, plus amounts needed to fund issuance costs, reserve funds and other financing expenses, for the purpose of providing funds, together with any other available funds, for paying all or a portion of the costs incurred or to be incurred for acquiring, constructing and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth; to authorize the Treasury Board, by and with the consent of the Governor, to fix the details of such bonds and to provide for the sale of such bonds at public or private sale; to authorize the Treasury Board, by and with the consent of the Governor, to borrow money in anticipation of the issuance of the bonds; to authorize the issuance of refunding bonds, by and with the consent of the Governor; to provide for the pledge of the net revenues of such capital projects and the full faith, credit and taxing power of the Commonwealth for the payment of the principal of and the interest on such bonds; to provide that the interest income on such bonds shall be exempt from all taxation by the Commonwealth and any political subdivision thereof; and to repeal Chapters 824 and 878 of the Acts of Assembly of 1994 and Chapter 191 of the Acts of Assembly of 1995.

[\[H 877\]](#)

Approved April 8, 1996

Whereas, Section 9 (c) of Article X of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including the enlargement or improvement thereof, at, among others, institutions of higher learning of the Commonwealth; and

Whereas, in accordance with the provisions of Section 9 (c) of Article X of the Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public

Accounts, his opinion that the anticipated net revenues of each of the capital projects set forth below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for each such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Section 9 (c) of Article X of the Constitution of Virginia; now, therefore,

The proceeds of the bonds, including any premium, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes, and the proceeds of any bond anticipation notes shall be deposited in a special capital outlay fund in the state treasury and shall be disbursed by the State Treasurer for paying all or any part of the cost of the acquisition, construction, renovation, enlargement, improvement and equipping of said capital projects in the amounts provided in § 2 hereof, plus issuance costs, reserve funds and other financing expenses. The proceeds of the bonds the issuance of which has been anticipated by bond anticipation notes shall be used to pay such bond anticipation notes. The Treasury Board shall be authorized to supplement the*

*special capital outlay fund in the state treasury from excess moneys in any debt service, sinking or comparable fund established in connection with previous issues of higher educational institutions bonds so long as such excess fund moneys are not otherwise restricted by law or by express contract with the holders of such prior bonds.*

*§ 4. The bonds shall be dated, shall mature at such time or times not exceeding thirty years from their date or dates, and may be made redeemable before their maturity or maturities at such price or prices, all as may be determined by the Treasury Board, by and with the consent of the Governor. The bonds shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or the State Treasurer, when authorized by the Treasury Board. The principal of, premium, if any, and the interest on the bonds shall be payable in lawful money of the United States of America. The Treasury Board shall fix the denomination or denominations of the bonds and the place or places of payment of principal, premium, if any, and interest, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth.*

*The bonds may be in registered form or as may be required by federal law in effect on the date of issuance. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and the principal, premium, if any, and interest due thereon. Bonds issued in registered form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments of principal of, premium, if any, and interest on the bonds.*

*The Treasury Board may sell the bonds in such manner, at public or private sale, and for such price as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth. The bonds may be sold at par, at a premium or at a discount.*

*The bonds and the refunding bonds authorized hereby may be issued at one time or in part from time to time and may, in the discretion of the Treasury Board, be issued and sold at the same time with other general obligation bonds of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, either as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds, Series ....., " or as a combination of both.*

*§ 5. The bonds shall be signed on behalf of the Commonwealth by the Governor, or shall bear his facsimile signature, and by the State Treasurer, or shall bear his facsimile signature, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds bear the facsimile signature of the State Treasurer, the bonds shall be signed by such administrative assistant as the State Treasurer shall determine, or by such registrar or paying agent as may be designated to sign such bonds by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds ceases to be such officer before the delivery of such bonds, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such persons as at the actual time of the execution of such bond are the proper officers to sign such bond although, at the date of such bond, such persons may not have been such officers.*

*§ 6. All expenses incurred under this act shall be paid from the proceeds of the bonds, bond anticipation notes, or refunding bonds from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine, including excess moneys in any debt service, sinking or comparable fund created in connection with prior issues of higher educational institutions bonds to the extent not otherwise restricted by law or by contract with the holders of such prior bonds.*

*§ 7. The Treasury Board is hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of the bonds. Pending the application of the proceeds of the bonds and any bond anticipation notes to the purpose for which they have been authorized, all or any part of such proceeds may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds. Such investments shall be deemed at all times to be a part of such proceeds, and the interest thereon and any profit realized from such investments shall be credited to such proceeds, and any losses shall be deducted therefrom.*

Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

In addition, the Treasury Board may pledge the full faith and credit of the Commonwealth for the payment of principal of and interest on any bond anticipation notes. In the event the net revenues pledged hereby are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds, any refunding bonds or any bond anticipation notes herein authorized where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appro-*

Whereas, the Weatherization Assistance Program (WAP), administered by the Department of Housing and Community Development (HCD) and principally funded by the U.S. Department of Energy, is designed to reduce the energy costs of low-income households by weatherizing homes and providing essential repairs to heating systems; and

Whereas, for the past two years general fund appropriations have been necessary to keep the program operational statewide, a condition necessary to qualify for federal funding; and

## **Chapter 1039 Interstate ozone reduction agreements.**

An Act to require legislative approval of any proposed interstate agreement related to the transport of ozone and to require certain studies of the economic, employment, and competitive impacts of such a proposed agreement.

[\[H 1512\]](#)

Approved April 17, 1996

Whereas, the Clean Air Act Amendments of 1990 contain a comprehensive regulatory scheme for the control of emissions from mobile and stationary sources which will improve ambient air quality and health and welfare in all parts of the nation; and

Whereas, the number of areas failing to meet national ambient air quality standards for ozone has been declining steadily and will continue to decline with implementation of the Clean Air Act Amendments of 1990; and

Whereas, scientific research on the transport of ozone across state boundaries is proceeding under the auspices of the United States Environmental Protection Agency (EPA), state agencies and private entities, and this research will lead to improved scientific understanding of the causes and nature of ozone transport and emission control strategies potentially applicable thereto; and

Whereas, the Ozone Transport Commission established by the Clean Air Act Amendments of 1990 has proposed emission control requirements for stationary and mobile sources in certain northeastern states and the District of Columbia exceeding those mandated by federal law; and

Whereas, the Commonwealth of Virginia and other parties have challenged the constitutionality of The Ozone Transport Commission and its regulatory proposals under the Guarantee, Compact, and Joinder Clauses of the United States Constitution; and

Whereas, the United States EPA, acting under color of federal law, is encouraging states east of and bordering the Mississippi River and Texas to develop and to enter into an

interstate agreement on ozone transport requiring reductions in emissions of nitrogen oxides exceeding the requirements of the Clean Air Act Amendments of 1990; and Whereas, before such an interstate agreement is entered into, the environmental benefits of such additional emission control requirements should be thoroughly weighed against any adverse effects such controls might have on state economic development, competitiveness, employment, or income; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

**1.**

*§ 1. Neither the Department of Environmental Quality nor any other agency of the Commonwealth shall, without the prior review and approval by resolution or other act of the General Assembly, enter into any interstate agreement related to the transport of ozone, if such agreement contains emission control requirements exceeding those required by applicable law.*

*§ 2. To assist the review and approval required by § 1, the Virginia Economic Development Partnership and the Department of Environmental Quality shall conduct a study of the impacts of any such proposed interstate ozone transport agreement on the Commonwealth's economy, including, but not limited to, impacts on economic development, employment, income, and industrial competitiveness and shall assess the alternative methods of achieving air quality standards. The State Corporation Commission and other agencies shall assist in the preparation of the study upon request. The study shall be submitted to the Chairmen of the House Committee on Conservation and Natural Resources and the Senate Committee on Agriculture, Conservation and Natural Resources not less than ten days prior to any scheduled hearing or other consideration of a proposed interstate agreement related to the transport of ozone.*

[\[H 2579\]](#)

1. That § 14.1-125.2 of the Code of Virginia is amended and reenacted as follows:

§ 14.1-125.2. Additional fee to be assessed by circuit court clerks for information technology.

A. In addition to the fees otherwise authorized by this chapter, the clerk of each circuit court shall assess a three-dollar fee, known as the "Technology Trust Fund Fee," in each law and chancery action, upon each instrument to be recorded in the deed books, and upon each judgment to be docketed in the judgment lien docket book. Such fee shall be deposited by the State Treasurer into a trust fund. The State Treasurer shall maintain a record of such deposits.

B. Two dollars of every three-dollar fee shall be allocated by the Compensation Board from the trust fund for the purposes of: (i) obtaining office *automation* and information technology equipment, including software and conversion services; (ii) preserving, maintaining and enhancing court records, including, but not limited to, the costs of repairs, maintenance, service contracts and system upgrades *which may include, but not necessarily be limited to, a digital imaging system*; and (iii) improving public access to court records. The Compensation Board in consultation with the circuit court clerks shall develop policies governing the allocation of funds for these purposes. In allocating funds, the Compensation Board ~~shall~~*may* consider the current automation of the clerks' offices and the recommendations made in ~~any study conducted by the Department of Information Technology (the "Department")~~ *the 1996 report by the Joint Legislative Audit and Review Commission ("JLARC")* regarding automation of the circuit court clerks' offices. *Except for improvements as provided in subsection E, such policies shall require a clerk to submit to the Compensation Board a written certification from the Council on Information Management that the clerk's proposed technology improvements will be*

*compatible with a system to provide statewide remote access to land records in accordance with the recommendations of JLARC and the Task Force on Land Records Management (the "Task Force") established by the Council on Information Management.*

The annual budget submitted by each circuit court clerk pursuant to § 14.1-50 shall ~~may~~ include a request for technology improvements in the upcoming fiscal year to be allocated by the Compensation Board from the trust fund. Such request shall not exceed the deposits into the trust fund credited to that locality. The Compensation Board shall allocate the funds requested by the clerks in an amount not to exceed the deposits into the trust fund credited to their respective localities.

C. The remaining one dollar of each such fee shall ~~may~~ be allocated by the Compensation Board from the trust fund for the purposes of (i) funding studies by the Department to design a remote access system, accessible to end-users on a uniform, statewide basis, which interfaces with the multiple systems used by the circuit court clerks' offices, to determine uniform, statewide implementation strategies, and allocations to circuit court clerks and a budget for the remote access system and to establish guidelines for additional fees, such as hook-up fees, connect-time charges, and transaction fees, to be charged by the circuit court clerks for such remote access; and (ii) implementing the remote access system developed by the Department pursuant to its study. In conducting its study, the Department shall receive input from circuit court clerks, attorneys, bankers, appraisers, title companies, realtors, and other end-users of such instruments and judgments ~~Task Force~~; (ii) funding studies by the Department of Information Technology or other public or private organizations to develop individual land-records automation plans for individual circuit court clerks' offices; and (iii) implementing the plan to modernize land records in individual circuit court clerk's offices and provide remote access to land records throughout the Commonwealth.

D. Such fee shall not be assessed to any instrument to be recorded in the deed books nor any judgment to be docketed in the judgment lien docket books tendered by any federal, state or local government.

*E. Notwithstanding any other provisions of this chapter, each circuit court clerk may apply to the Compensation Board for an allocation from the Technology Trust Fund for automation and technology improvements for any one or more of the following: (i) equipment and services to convert paper, microfilm, or similar documents to a digital image format, (ii) the conversion of information into a format which will accommodate remote access, and (iii) the law and chancery division of his office. However, allocations for (iii) above shall not exceed the pro rata share of the collections of the three-dollar fee relative to the chancery and law actions filed in the jurisdiction as provided in this section.*

~~E-F.~~ Information regarding the technology programs adopted by the circuit court clerks shall be shared with the Department of Information Technology, the State Library of Virginia, and the Office of the Executive Secretary of the Supreme Court.

~~F-G.~~ Nothing in this section shall be construed to diminish the duty of local governing bodies to furnish supplies and equipment to the clerks of the circuit courts pursuant to § 15.1-19. Revenue raised as a result of this section shall in no way supplant current funding to circuit court clerks' offices by local governing bodies.

2. That the second enactment of Chapter 431 of the 1996 Acts of Assembly is amended and reenacted as follows:

2. That the provisions of this act shall expire on July 1, ~~1997~~ 1998.

3.

*§ 1. The Director of the Council on Information Management shall establish the Task Force on Land Records Management (the "Task Force"). The Task Force shall develop a plan to modernize land records in individual circuit court clerk's offices and provide remote access to land records throughout the Commonwealth. Such plan shall not include any provision which incorporates the proposal for a statewide central record-keeping system recommended by the 1996 study conducted by the Department of Information Technology. *§ 2. The Task Force shall submit an interim report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees by September 1, 1997, which report shall define the concept of land-records management and make recommendations regarding the format, content, and technology standards for land records.*

*§ 3. The Task Force shall submit a final report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees by January 1, 1998, which report shall include an inventory of automated land-records technology in circuit court clerks' offices, provide recommendations for the future automation of land records in*

*individual circuit court clerk's offices, recommend policies for the Compensation Board to follow in allocating funds appropriated from the Technology Trust Fund, and address user fees charged for access to land records.*

*§ 4. The Compensation Board may contract with the Department of Information Technology or private contractors to prepare, at the request of the respective circuit court clerk, individual land-records automation plans for each circuit court clerk's office. Such plans shall be developed in concert with the findings and recommendations of the Task Force. Each plan shall address the extent of technology in each office; establish objectives to allow for optical disk imaging and the remote access to land records; identify actions to achieve the objectives; and provide recommendations as to the appropriate equipment and services necessary to facilitate these actions, and their associated costs and implementation schedules.*

4. That except as permitted in subsections C and E of § 14.1-125.2 on the effective date of this act, the Compensation Board shall not allocate funds from the Technology Trust Fund prior to May 1, 1998.

Whereas, the Virginia Alcoholic Beverage Control Board (the Board), Department of Alcoholic Beverage Control of the Commonwealth of Virginia, owns a parcel of land in the City of Richmond bounded by Sherwood Avenue and Robin Hood Road on which is located an office, a warehouse, a paved parking area, and an abandoned railroad sidetrack; and

Whereas, the abandoned railroad sidetrack is of no use to the Board for its present or anticipated future purposes; and

Whereas, the land adjacent to the area occupied by the abandoned railroad sidetrack is owned by Richfood, Inc., which owns and operates the Richfood Dairy milk processing plant located thereon; and

Whereas, Richfood Dairy requires additional land to continue and expand its dairy operations at that site; and

Whereas, the conveyance of a part of said parcel, being a strip of land approximately 95 feet in width extending between and bounded by Sherwood Avenue and Robin Hood Road and containing 1.21 acres, more or less, upon which is located the abandoned railroad sidetrack would provide the additional space needed for Richfood Dairy's operations; and

Whereas, such conveyance would provide additional real estate tax revenue to the City of Richmond, as well as enable Richfood Dairy to maintain its workforce at the site with the opportunity to expand that workforce in the future; and

Whereas, Richfood, Inc., is the only owner of property adjacent to that strip of land, except the Board which has no anticipated use for it; and

Whereas, by Chapter 301 of the 1996 Acts of Assembly, the Board was authorized to sell and convey that strip of land to Richfood, Inc., but; upon survey subsequent to enactment of Chapter 301 the boundaries and dimensions of said strip of land were determined to be different from the boundaries and dimensions described in Chapter 301; and

Whereas, by current survey, the Board and Richfood, Inc., have now established revised boundaries and dimensions which more accurately describe the strip of land to be

conveyed and which should be substituted in Chapter 301 for the original boundaries and dimensions for completion of the intended conveyance; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

1. That § 1 of Chapter 301 of the 1996 Acts of Assembly is amended and reenacted as follows:

§ 1. Notwithstanding any other provision of law, the Alcoholic Beverage Control Board, Department of Alcoholic Beverage Control of the Commonwealth of Virginia, is hereby authorized to convey to Richfood, Inc., ~~a strip of land approximately 320 feet by 130 feet between Sherwood Avenue and Robin Hood Road in the City of Richmond lying between the property of Richfood, Inc., and the portion of the property owned by the Board that is paved for vehicle parking and upon which is located a railroad sidetrack; or its designated affiliate an irregularly shaped strip or parcel of land lying and being in the City of Richmond, Virginia, approximately 95 feet in width (except slightly less near Robin Hood Road), containing 1.21 acres more or less, bounded on the north by Robin Hood Road, on the south by Sherwood Avenue, and on the east and west by parallel lines lying approximately 95 feet apart, the east line of which extends 530.88 feet along the current division line between the properties of the Board and Richfood Dairy and the west line of which extends 579.33 feet along and forming a new division line located immediately east of the edge of pavement of the Board's rear parking lot, and being a part of the approximately 21 acre tract comprising the Board's office and warehouse facility;~~ the conveyance shall be on terms determined by the Board without competitive bidding. The purchase price for any conveyance shall be no less than the fair market value of the property conveyed as determined by an independent appraisal. The appropriate officials of the Commonwealth are hereby authorized to prepare, execute and deliver such deed and other documents as may be necessary to accomplish such conveyance.

**§ 7. Revenues.**

*Each institution of higher education mentioned above is hereby authorized (i) to fix, revise, charge and collect a building fee or other comprehensive student fee and other rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the payment of the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

**§ 8. Authorized investments.**

*Pending the application of the proceeds of the bonds and BANs to the purpose for which they have been authorized and the application of the net revenues and other sums set aside for the payment of bonds and BANs, all or any part of such funds may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds. Such investments shall be deemed at all times to be a part of such funds, and the interest thereon and any profit realized from such investments shall be credited to such funds, and any losses shall be deducted therefrom.*

**§ 9. Security for bonds and BANs.**

*The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest on and any premium on the bonds or BANs to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient*

*in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The interest income on the bonds and any BANs issued under the provisions of this act shall at all times be exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that the interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds or BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (b) or (c), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability.*

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

2. That Chapter 845 of the Acts of Assembly of 1996 is repealed; however, such repeal shall not operate to invalidate, alter the security of or prohibit the refunding of bonds heretofore issued pursuant to such act.

3. That an emergency exists and this act is in force from its passage.

## **Chapter 553 Rappahannock River Basin Commission.**

An Act to authorize the creation of a Rappahannock River Basin Commission.

[\[S 598\]](#)

Approved April 15, 1998

Whereas, the Rappahannock River is a resource of great value to the Commonwealth of Virginia and to each of the localities within the Rappahannock River Basin; and  
Whereas, members of the General Assembly and representatives of each of the local governments representing jurisdictions in the Rappahannock River Basin have met pursuant to Senate Joint Resolution No. 92 (1996) and Senate Joint Resolution No. 270 (1997) for two years as the Rappahannock River Basin Study Commission (RRBSC) to examine, evaluate and make recommendations on the potential structure, goals and purposes of a mechanism to address coordination, communications and planning on issues of river basin-wide significance; and

Whereas, the RRBSC has found that (i) there is a need for a mechanism for coordination and communication for the multitude of individual, local, state and federal activities that influence the Basin's natural resources; (ii) there is a need for easily accessible information for decision making at the public policy level as well as at the individual level; (iii) the environmental health of the Basin directly impacts economic health; and (iv) there are great benefits to be derived from the Basin's localities' meeting together and discussing their individual and mutual concerns; and

Whereas, to help address these findings (i) there should be a continuing commission composed of elected officials from throughout the Basin; (ii) such a commission should not be a regulatory body; and (iii) there should be a concise mission statement with emphasis on stewardship, protection and enhancement of the Basin's water quality and other natural resources; and

Whereas, the RRBSC has developed legislation to address these findings and to provide for establishing a Rappahannock River Basin Commission; and

Whereas, the creation of such a commission will be of great benefit to the Commonwealth by promoting better communication, assisting in achieving improved water quality and natural resources, and meeting its commitments under the Chesapeake Bay Agreement; now, therefore,

## **Chapter 559 Accelerated payments in federal retiree settlement programs.**

An Act to amend and reenact § 1 of the second enactment of Chapter 5 of the 1994 Acts of Assembly, Special Session I; the first enactment of Chapter 185 of the 1995 Acts of Assembly; the first enactment of Chapter 203 of the 1995 Acts of Assembly; and the first enactment of Chapter 719 of the 1996 Acts of Assembly, relating to accelerated payments for participants in federal retiree settlement programs.

[\[H 100\]](#)

Approved April 15, 1998

Be it enacted by the General Assembly of Virginia:

1. That § 1 of the second enactment of Chapter 5 of the 1994 Acts of Assembly, Special Session I, is amended and reenacted as follows:

2.

§ 1. Upon the recommendation of the Attorney General and with the approval of the Governor, the Tax Commissioner is authorized to make settlement payments to taxpayers to resolve disputed claims for refunds of taxes paid with respect to retirement or pension benefits received from a federal retirement system created by the federal government for any officer or employee of the United States, including the United States Civil Service, the United States Armed Forces, or any agency or subdivision thereof for any taxable year beginning on or after January 1, 1985, and ending on or before December 31, 1988. The Tax Commissioner's authority to proceed under this section is subject to the following terms and conditions:

A. For purposes of this section:

"Calculated total disputed refund" means the total of all disputed refunds for all taxpayers who timely respond to the August 1, 1994, notice, pursuant to subdivision F 1, as calculated by the Department of Taxation.

"Department" means the Department of Taxation.

"Disputed refund" means the amount of the tax overpayment on retirement or pension benefits received from a federal retirement system for taxable years 1985 through 1988 for which a refund is claimed.

"Final settlement offer" means the amount of the payment to be made to a taxpayer under the settlement agreement mailed to the taxpayer by the Department on December 15, 1994, pursuant to subdivision F 2.

"Refund of taxes" includes any claim for interest thereon.

"Taxpayer" includes the estate, committee and legal beneficiaries of any taxpayer to whom a disputed refund is owed, except for purposes of notification. For purposes of a deceased taxpayer's estate, if that deceased taxpayer died intestate, an affidavit provided by the Department, signed by the deceased taxpayer's surviving spouse, or if there is none, the heirs of the deceased taxpayer, shall operate to claim the disputed refund to which the taxpayer was entitled. If the deceased taxpayer died testate, an affidavit provided by the Department signed by the residuary legatees under the will shall operate to claim such refund.

B. The payments may be made directly from a special fund or from a trust or other legal entity established by the Tax Commissioner or his designee to administer the payments. Subject to appropriation by the General Assembly, the initial appropriation of \$60 million shall be deposited in the special fund, trust or other legal entity on or before July 15, 1994, pending disbursement pursuant to this section. Subject to appropriation by the General Assembly, on each succeeding July 1 through 1998, *as necessary*, the amount of \$70 million shall be deposited in the special fund, trust or other legal entity pending disbursement pursuant to this section. All earnings on investment of these funds shall be held in the special fund, trust or other legal entity established by the Tax Commissioner and reinvested until the final payments to taxpayers are made ~~on March 31, 1999~~. *The final payment shall be September 30, 1998, provided that the 1997-1998 undesignated and unreserved general fund balance as certified by the Comptroller on August 15, 1998, is greater than or equal to \$62.5 million. If the 1997-1998 undesignated and unreserved general fund balance is less than \$62.5 million as certified by the Comptroller on August 15, 1998, there shall be a special installment payment made on September 30, 1998, based on a percentage of the final payment. The percentage for this calculation shall be as follows: 1997-1998 undesignated and unreserved general fund balance divided by \$62.5 million.* For purposes of this act, earnings on the investment of the funds shall be computed at the rate of four percent per annum.

C. The moneys so appropriated shall be disbursed by the Tax Commissioner or his designee, or any entity established to administer the payments, to the taxpayers participating in the settlement as follows:

1. The Tax Commissioner shall calculate the amount of each taxpayer's disputed refund and the total of all taxpayers' disputed refunds before December 15, 1994.

2. If the Tax Commissioner or his designee determines that the amount of money available from appropriations and the earnings from such investments will be insufficient to fund fully each participating taxpayer's disputed refund, then, prior to notifying such taxpayers of their final settlement offers on December 15, 1994, the Tax Commissioner shall reduce each participating taxpayer's disputed refund by a percentage derived from the following formula:

the calculated total disputed refunds for all participating taxpayers as computed by the Tax Commissioner or his designee.      the total amount of money available for disbursement, - for disbursement, the Tax Commissioner or his designee.

---

the calculated total disputed refunds for all participating taxpayers

3. If, after making this calculation or at any time prior to March 31, 1999, the Tax Commissioner or his designee determines that the total amount of the moneys to be appropriated and the earnings thereon will exceed the amount necessary to fund fully each taxpayer's disputed refund, then the Tax Commissioner will increase each taxpayer's disputed refund or final settlement offer by a percentage derived from the following formula:

the total amount of money available for disbursement, as computed by the Tax Commissioner or his designee      the calculated total disputed refunds or settlement offers for all participating taxpayers -

---

the calculated total disputed refunds or final settlement offers for all participating taxpayers

The amount of any calculated increase shall be disbursed to each participating taxpayer in a single payment ~~on~~ *no later than* March 31, 1999.

4. Disbursements shall be made annually on March 31 and, out of the money available for payments each year, *except for the special installment payment made on September 30, 1998*, one-half shall be used to pay the final settlement offer to the participating taxpayers with the smallest calculated payments after any reduction; the other half shall be paid proportionately to the remaining participating taxpayers.

5. Any amount received by a taxpayer pursuant to this section shall be subject to debt collection pursuant to Article 21 (§ [58.1-520](#) et seq.) of Chapter 1 of Title 58.1.

D. The taxpayers shall be given the option of whether they want to participate in the settlement. Those who do not want to participate will have the option of having their entitlement to refunds determined by existing litigation or filing suit themselves.

E. The appropriation required under subsection B shall be reduced by a percentage of the dollar amount of the claims of taxpayers opting out of the settlement pursuant to subdivision F 2 (ii) and (iii) and those waiving payments pursuant to subdivision F 2 (i) derived from the following formula:

the total amount appropriated, excluding interest

---

are the calculated total disputed refunds which are timely filed under this act

In the event that the total principal amount of the claims of the taxpayers opting out of the settlement exceeds \$20 million, the entire settlement shall be null and void unless reauthorized by the General Assembly on or before March 1, 1995.

F. The procedure to be followed by the Tax Commissioner in effecting payments as authorized shall be as follows:

1. The Department shall provide notice by August 1, 1994, to affected taxpayers by first-class mail stating the amount of each taxpayer's disputed refund. For purposes of this subdivision, the Tax Commissioner may use gross pension amounts in computing each taxpayer's disputed refund. The computation and methodology shall be reviewed by the Auditor of Public Accounts before taxpayers are notified of their final settlement offers. The notice shall state in bold-faced, fourteen-point type that, regardless of whether the taxpayer previously filed an amended return or returns, in order to be eligible to obtain any refund, the taxpayer must respond to the notice by November 1, 1994, and state whether the taxpayer accepts or challenges the calculations contained in the notice. The filing of a response to this notice on a form provided by the Tax Commissioner will be a prerequisite to participating in the settlement, or agreeing to accept the relief granted in pending litigation in Virginia courts, or the filing of a separate suit. This requirement shall be set out in the notice in bold-faced, fourteen-point type. Taxpayers who challenge the calculations contained in the notice shall provide with their response documentary evidence indicating that a different amount is due. Such evidence must be sufficient to allow the Department to resolve the challenge.

2. Before December 15, 1994, the Department shall compile all responses received and calculate the total amount of each participating taxpayer's disputed refund and the total of all participating taxpayers' disputed refunds and determine whether any reduction must be made pursuant to subdivision C 2. The estimate shall be forwarded to the Chairmen of the Senate Finance Committee and the House Finance and Appropriations Committees before taxpayers are notified of their final settlement offers. On December 15, 1994, the Department shall send notices by first-class mail to taxpayers who timely responded to the August notices informing them of their right to (i) receive or waive a payment calculated pursuant to subsection B; (ii) opt out of the settlement and initiate suit; or (iii) opt out of the settlement and agree to accept in full satisfaction of their claims the same relief granted to similarly situated taxpayers in pending litigation in Virginia courts determined by the Tax Commissioner to be controlling on the legal issue. The Department shall send with the notices the agreements necessary to effect settlement under

clause (i) or to opt out and agree to accept the relief granted in pending litigation under clause (iii) of this paragraph.

3. Those taxpayers who do not opt out of the settlement or waive payment will receive payments as provided in subsection C if they sign and deliver to the Tax Commissioner by February 1, 1995, the settlement agreement releasing the Commonwealth and its agencies, officers and employees from any further liability for claims arising out of taxes paid on federal retirement income during the 1985-1988 taxable years and dismissing any litigation as to such claims in which the taxpayer is a party. On January 10, 1995, the Department shall send a reminder of this requirement to each taxpayer who responded to the August notice indicating an interest in participating in the settlement.

4. Those taxpayers who choose to opt out of the settlement shall (i) sign and deliver to the Tax Commissioner by February 1, 1995, an agreement to accept the relief granted in pending litigation in Virginia courts or (ii) file by February 1, 1995, an action under § [58.1-1825](#) for recovery of Virginia income taxes paid on retirement income received.

5. A taxpayer may deliver an agreement to the Tax Commissioner in person or by mail. An agreement shall be deemed timely delivered if it is mailed to the Department, postage prepaid, and postmarked no later than February 1, 1995.

6. The Department shall undertake the greatest efforts practicable to identify and reach affected taxpayers by first-class mail and advertising campaigns. The Department shall establish a toll-free hotline for affected taxpayers to call to receive information and answers to questions about the settlement. The Department shall undertake the greatest effort practicable to reach taxpayers whose notices are returned unclaimed and for whom addresses cannot be obtained. The Department as a part of its advertising campaign shall publish notices in selected newspapers throughout the Commonwealth and in other portions of the country where large numbers of affected taxpayers are likely to reside. Such notices shall include an explanation of the terms of the settlement, the information hotline number, and the requirements (in bold-faced, fourteen-point type) of subdivisions F 1, F 3, F 4, and F 5 that a taxpayer who has not been notified by direct mail must satisfy in order to participate in the settlement.

G. The Tax Commissioner is authorized to enter into such contracts or execute such instruments or agreements as may be necessary (i) to effect compromise or settlement of disputed refund claims through creation of a trust or other legal entity or (ii) to obtain administrative or investment services relevant to any such settlement or compromise. Any such contracts or agreements for services must be approved by the Attorney

General and shall be exempt from the provisions of the Virginia Public Procurement Act (§ [11-35](#) et seq.).

H. Notwithstanding any other provision of law and pursuant to § [58.1-105](#), any taxpayer claiming a refund for any taxable year beginning on or after January 1, 1985, and ending on or before December 31, 1988, for taxes paid with respect to retirement or pension benefits received from a federal retirement system created by the federal government for any officer or employee of the United States shall comply fully with the requirements and procedures set forth in this act or such claims shall be forever barred; provided that if the settlement is null and void and is not reauthorized pursuant to subsection E, any taxpayer claiming such a refund must file an amended individual income tax return pursuant to § [58.1-1823](#) within one year from the entry of a final judicial order of a court of competent jurisdiction not subject to further appeal resolving the issues involved in Harper v. Virginia Department of Taxation, 113 S.Ct. 2510 (June 18, 1993).

2. That the first enactment of Chapter 185 of the 1995 Acts of Assembly is amended and reenacted as follows:

1.

§ 1. The Tax Commissioner is authorized to make settlement payments to certain retired federal and military taxpayers, as originally authorized in Chapter 5 of the 1994 Acts of Assembly, Special Session I. To be eligible to receive these payments a taxpayer shall have (i) responded to the August 1, 1994, notice on or before November 1, 1994, but was denied either full or partial participation in the settlement program due to the lack of certain information necessary for the Department to compute the taxpayer's disputed refund, or (ii) missed the November 1, 1994, deadline for responses due to circumstances beyond the control of the taxpayer, or (iii) having filed a timely response by the November 1 deadline, missed the February 1, 1995, deadline for delivering a settlement agreement to the Department due to circumstances beyond the control of the taxpayer. Such taxpayers are hereby granted an additional sixty days from the date of enactment to provide the Department with the necessary information to compute their disputed refunds or to provide the Department with response forms or settlement agreements and written explanations that demonstrate that the taxpayers missed the relevant deadline due to circumstances beyond their control. The burden of proof shall be on the taxpayer. Any determination of what constitutes circumstances beyond the control of a taxpayer shall be liberally construed in favor of the taxpayer. Any supporting documentation provided to the Department on forms received prior to the expiration of the additional time period shall be reviewed by the Tax Commissioner. The Tax

Commissioner shall determine whether the necessary information was provided or the taxpayer's explanation for missing the original November 1, 1994, deadline or the February 1, 1995, deadline was due to circumstances beyond the control of the taxpayer. 4. The procedures to be followed by the Tax Commissioner in effecting payments as authorized shall be as follows:

a. On or before thirty days from the date of enactment, the Department shall notify by first class mail each taxpayer (i) who timely filed a response to the August 1, 1994, notice issued by the Department pursuant to the terms of the Federal Retiree Settlement Act, but who was denied participation in the settlement program due to the lack of certain information necessary to compute the taxpayer's disputed refund, or (ii) who responded

to the August 1, 1994, notice after November 1, 1994, or (iii) who delivered a settlement agreement to the Department after February 1, 1995, of the additional thirty-day period during which he may (i) submit the information necessary to compute his disputed refund or (ii) deliver to the Department a signed settlement agreement accepting the final settlement offer and releasing the Commonwealth from any further liability. Each taxpayer so notified shall also be required to submit a written explanation that demonstrates that the taxpayer missed the deadline due to circumstances beyond his control. The additional information or settlement agreement returned to the Department shall be either postmarked on or before midnight of the sixtieth day following the enactment, or if such day is a Saturday, Sunday, or official state holiday, midnight of the next business day, or such information shall be received by the Department by 5:00 p.m. of the sixtieth day following enactment, or if such day is a Saturday, Sunday, or official state holiday, by 5:00 p.m. of the next business day.

b. Within ninety days following enactment, the Department shall send to each taxpayer, as appropriate, a notice and a settlement agreement that sets forth the amount of the final settlement offer. Those taxpayers who agree to accept the offer shall sign such settlement agreement releasing the Commonwealth and its agencies, officers and employees from any further liability for claims arising out of taxes paid on federal retirement income during the 1985 through 1988 taxable years and dismissing any litigation as to such claims in which the taxpayer is a party. Such settlement agreement shall be returned to the Department and shall be postmarked on or before midnight of the 120th day following the enactment, or if such day is a Saturday, Sunday, or official state holiday, midnight of the next business day, or such settlement agreement shall be received by the Department by 5:00 p.m. of the 120th day following enactment, or if such day is a Saturday, Sunday, or official state holiday, by 5:00 p.m. of the next business day.

5. A taxpayer who delivered to the Department a timely but incomplete settlement agreement under the terms of the Federal Retiree Settlement Act or this act shall be deemed to have met the filing deadline, provided that any delay in submitting completed forms to the Department may result in a delay of the first payment required under the settlement program established by the Federal Retiree Settlement Act or under this act. The taxpayer shall provide the Department a completed settlement agreement (i) on or before the thirtieth day after enactment for those taxpayers who qualify for participation in the settlement program created by the Federal Retiree Settlement Act or (ii) on or before the 150th day following enactment for those taxpayers who qualify for the settlement program created by this act.

6. A taxpayer is hereby authorized, for purposes of the settlement created by this act, to sign on behalf of a spouse with whom he or she jointly filed an income tax return for a taxable year to which the settlement is related. By signing the agreement to settle the claim on behalf of both spouses, the signing taxpayer thereby agrees to indemnify the Commonwealth for any amounts related to the settlement payments that it may be required to pay under the law to the nonsigning spouse.

7. The Tax Commissioner is authorized to enter into such contracts or execute such instruments or agreements as may be necessary (i) to effect compromise or settlement of disputed refund claims through creation of a trust or other legal entity or (ii) to obtain administrative or investment services relevant to any such settlement or compromise. Any such contracts or agreements for services shall be approved by the Attorney General and shall be exempt from the provisions of the Virginia Public Procurement Act (§ [11-35](#) et seq.).

8. Except and to the extent specifically authorized in this act, nothing in this act shall be construed or interpreted to revive any claim barred by the provisions of the Federal Retiree Settlement Act, and nothing in this act shall be construed or interpreted to authorize any taxpayer to opt out of the settlement program or agree to accept the relief granted in pending litigation after the deadlines established in the Federal Retiree Settlement Act.

3. That the first enactment of Chapter 203 of the 1995 Acts of Assembly is amended and reenacted as follows:

**1.**

§ 1. The Tax Commissioner is authorized to make settlement payments to certain retired federal and military taxpayers, as originally authorized in Chapter 5 of the 1994 Acts of Assembly, Special Session I. To be eligible to receive these payments a taxpayer shall have (i) responded to the August 1, 1994, notice on or before November 1, 1994, but was denied either full or partial participation in the settlement program due to the lack of certain information necessary for the Department to compute the taxpayer's disputed refund, or (ii) missed the November 1, 1994, deadline for responses due to circumstances beyond the control of the taxpayer, or (iii) having filed a timely response by the November 1 deadline, missed the February 1, 1995, deadline for delivering a settlement agreement to the Department due to circumstances beyond the control of the taxpayer. Such taxpayers are hereby granted an additional sixty days from the date of enactment to provide the Department with the necessary information to compute their disputed refunds or to provide the Department with response forms or settlement

agreements and written explanations that demonstrate that the taxpayers missed the relevant deadline due to circumstances beyond their control. The burden of proof shall be on the taxpayer. Any determination of what constitutes circumstances beyond the control of a taxpayer shall be liberally construed in favor of the taxpayer. Any supporting documentation provided to the Department on forms received prior to the expiration of the additional time period shall be reviewed by the Tax Commissioner. The Tax Commissioner shall determine whether the necessary information was provided or the taxpayer's explanation for missing the original November 1, 1994, deadline or the February 1, 1995, deadline was due to circumstances beyond the control of the taxpayer. A disputed refund does not include any amount already included in the settlement offer mailed to a taxpayer on December 15, 1994, pursuant to the Federal Retiree Settlement Act.

"Federal Retiree Settlement Act" means Enactment 2 of Chapter 5 of the 1994 Acts of Assembly, Special Session I.

deceased taxpayer's surviving spouse, or if there is none, the heirs of the deceased taxpayer, shall operate to claim the disputed refund to which the taxpayer was entitled. If the deceased taxpayer died testate, an affidavit provided by the Department signed by the residuary legatees under the will shall operate to claim such refund.

2. The payments shall be made ~~over a five-year period~~ in annual installments *or special installments* and shall be disbursed by the Tax Commissioner or his designee to the taxpayers participating in the settlement as follows:

a. The Department shall offer each affected taxpayer an amount equal to the same percentage of the disputed refund as computed under the Federal Retiree Settlement Act.

Each taxpayer so notified shall also be required to submit a written explanation that demonstrates that the taxpayer missed the deadline due to circumstances beyond his control. The additional information or settlement agreement returned to the Department shall be either postmarked on or before midnight of the sixtieth day following the enactment, or if such day is a Saturday, Sunday, or official state holiday, midnight of the next business day, or such information shall be received by the Department by 5:00 p.m. of the sixtieth day following enactment, or if such day is a Saturday, Sunday, or official state holiday, by 5:00 p.m. of the next business day.

b. Within ninety days following enactment, the Department shall send to each taxpayer, as appropriate, a notice and a settlement agreement that sets forth the amount of the final settlement offer. Those taxpayers who agree to accept the offer shall sign such settlement agreement releasing the Commonwealth and its agencies, officers and employees from any further liability for claims arising out of taxes paid on federal retirement income during the 1985 through 1988 taxable years and dismissing any litigation as to such claims in which the taxpayer is a party. 5. A taxpayer who delivered to the Department a timely but incomplete settlement agreement under the terms of the Federal Retiree Settlement Act or this act shall be deemed to have met the filing deadline, provided that any delay in submitting completed forms to the Department may result in a delay of the first payment required under the settlement program established by the Federal Retiree Settlement Act or under this act. The taxpayer shall provide the Department a completed settlement agreement (i) on or before

the thirtieth day after enactment for those taxpayers who qualify for participation in the settlement program created by the Federal Retiree Settlement Act or (ii) on or before the 150th day following enactment for those taxpayers who qualify for the settlement program created by this act.

6. A taxpayer is hereby authorized, for purposes of the settlement created by this act, to sign on behalf of a spouse with whom he or she jointly filed an income tax return for a taxable year to which the settlement is related. By signing the agreement to settle the claim on behalf of both spouses, the signing taxpayer thereby agrees to indemnify the Commonwealth for any amounts related to the settlement payments that it may be required to pay under the law to the nonsigning spouse.

7. Such treasury loan shall be repaid from the Commonwealth's portion of the state recordation tax imposed by Chapter 8 (§ [58.1-800](#) et seq.) of Title 58.1 designated for the Fund by this section and § [58.1-816](#).

2. That § 2 of Chapter 391 of the Acts of Assembly of 1993, as amended by Chapters 470 and 597 of the Acts of Assembly of 1994, is amended and reenacted as follows:

Such costs may include the payment of interest on the Bonds for a period during construction and not exceeding one year after completion of construction of the projects.

The projects shall be classified as Category 1, Category 2 ~~and~~, Category 3, *and Category 4* projects, each category being subject to different preconditions. Bonds to finance the cost of Category 1 *and Category 3* projects may be issued by the Commonwealth Transportation Board. Category ~~3~~4 projects shall not be financed through the issuance of bonds; however, after all Bonds authorized have been issued, then to the extent the Northern Virginia Transportation District Fund contains amounts in excess of the amount needed to pay annual debt service on such Bonds in a particular fiscal year, such excess amounts may be expended to pay the cost of the work identified as Category ~~3~~4 projects.

The projects, and the amount of bonds authorized to be issued for each such project, are as follows and constitute the Northern Virginia Transportation District Program:

The Bonds shall be issued by the Commonwealth Transportation Board and sold through the Treasury Board, which is hereby designated the sales and paying agent of the Commonwealth Transportation Board with respect to the Bonds. The Treasury Board's duties shall include the approval of the terms and structure of the Bonds. In the event the aggregate principal amount of the issuance, for the projects and amounts authorized by the 1994 amendments to Chapter 391 of the Acts of Assembly of 1993, is less than \$127,000,000, the Commonwealth Transportation Board shall cause each Category 1 project to be shared in the reduced issuance by reducing the proceeds of the Bonds for each of the Category 1 projects on a pro rata basis. ~~For purposes of making such computation, the 1993 issuance of Bonds and the amount of bond proceeds allocated to each Category 1 project in 1993 shall be disregarded.~~

3. That if any part of this act or the application thereof to any person or circumstance is held invalid by a court of competent jurisdiction, such holding shall not affect the validity of the remainder of the provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

[\[S 315\]](#)

Approved April 16, 1998

Be it enacted by the General Assembly of Virginia:

1. That § [46.2-833.01](#) of the Code of Virginia is amended and reenacted as follows:

§ [46.2-833.01](#). Liability for failure to comply with traffic light signals; pilot program in certain localities.

A. The governing body of any city having a population of more than 390,000, any city having a population of at least 200,000 but less than 225,000, any county having the urban county executive form of government, any county adjacent to such county, and any city or town adjacent to or surrounded by such county except any county having the county executive form of government and the cities surrounded by such county may provide by ordinance for the establishment of a demonstration program imposing monetary liability on the operator of a motor vehicle for failure to comply with traffic light signals in such locality in accordance with the provisions of this section. Each such locality may install and operate traffic light signal photo-monitoring systems at no more than twenty-five intersections within each locality at any one time.

B. The operator of a vehicle shall be liable for a monetary penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a traffic light signal violation monitoring system, to have failed to comply with a traffic light signal within such locality.

C. Proof of a violation of this section shall be evidenced by information obtained from a traffic light signal violation monitoring system authorized pursuant to this section. A certificate, sworn to or affirmed by a technician employed by a locality authorized to impose penalties pursuant to this section, or a facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a traffic light signal violation monitoring system, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation pursuant to an ordinance adopted pursuant to this section.

D. In the prosecution of an offense established under this section, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, shall constitute in evidence a rebuttable presumption that such registered owner of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the registered owner of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he or she was not the operator of the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he or she was not the operator of the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

E. For purposes of this section "owner" means the registered owner of such vehicle on record with the Department of Motor Vehicles. For purposes of this section "owner" does not mean a vehicle rental or vehicle leasing company. For purposes of this section, "traffic light signal violation-monitoring system" means a vehicle sensor installed to work in conjunction with a traffic light that automatically produces two or more photographs, two or more microphotographs, a videotape, or other recorded images of each vehicle at the time it is used or operated in violation of this section.

F. Imposition of a penalty pursuant to this section shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage. No monetary penalty imposed under this section shall exceed fifty dollars nor shall it include court costs.

G. A summons for a violation of this section may be executed pursuant to § [19.2-76.2](#). Notwithstanding the provisions of § [19.2-76](#), a summons for a violation of this section may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle as shown on the records of the Department of Motor Vehicles. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § [19.2-76.3](#). No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons.

H. In any action at law brought by any person or entity as the result of personal injury or death or damage to property, such evidence derived from a photo-monitoring system shall be admissible in the same method prescribed as required in the prosecution of an offense established under this section without the requirements of authentication as otherwise required by law.

I. On behalf of a locality, a private entity may not obtain records regarding the registered owners of vehicles which fail to comply with traffic light signals. A private entity may enter into an agreement with a locality to be compensated for providing the traffic light signal violation monitor system or equipment, and all related support services, to include consulting, operations and administration. However, only an employee of the locality may swear to or affirm the certificate required by subsection C.

*J. The provisions of this section shall expire on July 1, 2005.*

2. That the second enactment of Chapter 492 of the Acts of Assembly of 1995, as amended, is repealed.

## **Chapter 501 Gifted Education Consortium.**

An Act to establish the Virginia Gifted Education Consortium.

[\[S 1200\]](#)

Approved March 27, 1999

Whereas, the federal Gifted and Talented Children's Act, P.L. 95-561, as amended, and state law and regulations governing gifted education in Virginia require the early identification of gifted students and also require that an appropriate and differentiated instructional program be provided such students; and

Whereas, there are many concerns and needs in gifted education, such as adequate funding, the program's governing structure, appropriate measures and tools used to identify gifted and talented students, professional staff development, equity with other educational programs, and diversity among students, teachers, and staff; and

Whereas, representatives of school divisions and professional associations in gifted education, parents, teachers, and students expressed to the Joint Subcommittee Studying the Educational Needs of Certain Underserved Students concerns regarding these issues and the necessity for improved inter-division collaboration, cooperation, and communication to address these issues collegially and to discuss matters of mutual interest; and

Whereas, the joint subcommittee believes that essential improvements in gifted education can be made, and problems are resolved best when persons of a common mission and purpose are allowed and encouraged to deliberate and explore their interests together; now, therefore,

[\[H 2277\]](#)

Approved March 29, 1999

Be it enacted by the General Assembly of Virginia:

1. That § [15.2-1500](#) of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Article 5 of Chapter 15 of Title 56 sections numbered [56-484.12](#), [56-484.13](#) and [56-484.14](#) as follows:

§ [15.2-1500](#). Organization of local government.

A. Every locality shall provide for all the governmental functions of the locality, including, without limitation, the organization of all departments, offices, boards, commissions and agencies of government, and the organizational structure thereof, which are necessary and the employment of the officers and other employees needed to carry out the functions of government.

B. Notwithstanding any other provision of law, general or special, no locality shall establish any department, office, board, commission, agency or other governmental division or entity which has authority to offer telecommunications equipment, infrastructure, other than pole or tower attachments including antennas or conduit occupancy, or services, other than intragovernmental radio dispatch or paging systems shared by adjoining localities, for sale or lease to any person or entity other than (i) such locality's departments, offices, boards, commissions, agencies or other governmental divisions or entities or (ii) an adjoining locality's departments, offices, boards, commissions, agencies or other governmental divisions or entities, so long as any charges for such telecommunications equipment, infrastructure and services do not exceed the cost to the providing locality of providing such equipment, infrastructure or services. However, any town which is located adjacent to Exit 17 on Interstate 81 and which offered telecommunications services to the public on January 1, 1998, is hereby authorized to continue to offer such telecommunications services, but shall not acquire by eminent domain the facilities or other property of any telephone company or cable operator. Any locality may sell any telecommunications infrastructure, including related equipment, which such locality had constructed prior to September 1, 1998, and such locality may receive from the purchaser or purchasers, as full or partial consideration for the sale of such infrastructure, communications services to be used solely for internal use of the locality. Any locality which sells such infrastructure, including related equipment, may, at its option, exclude the incumbent local exchange carrier from the bid or other sale process.

C. *Notwithstanding the provisions of subsection B, a locality, electric commission or board, industrial development authority, or economic development authority, may lease dark fiber pursuant to § [56-484.12](#). For purposes of this section, "dark fiber" means fiber optic cable which is not lighted by lasers or other electronic equipment. The price for such lease may include reasonable provisions for the recovery of the cost of the network and installation of additional fiber and related facilities to complete the lessor's network but shall not be related to the revenue or profit of the lessee. The lessor may recover costs of constructing such leased network and any extensions or improvements thereto; however, such lessor may not profit from the leasing of such facilities. The lease may*

*require the lessee to make additional investments in the lessee's facilities based on such factors as the number of customers, market share, the lessee's revenue or the lessee's profit. Any such extension or improvements constructed by a lessee shall remain the property of the lessee; however, the lessee may be required to provide dedicated use to the lessor for the lessor's own internal purposes for the life of the fiber. The locality, electric commission or board, industrial development authority, or economic development authority, shall not be involved in the promotion or marketing of the lessee as the provider of the services.*

*§ [56-484.12](#). Leases by localities, electric commission or board, industrial development authorities, or economic development authorities of dark fiber.*

*Notwithstanding the provisions of § [15.2-1500](#), a county, city, town, electric commission or board, industrial development authority, or economic development authority may lease on nondiscriminatory terms, for a term not to exceed ten years, dark fiber, as that term is defined in subsection C of § [15.2-1500](#), to one or more certificated local exchange telephone companies and to not-for-profit educational schools and institutions, hospitals, health clinics and medical facilities for use in serving their not-for-profit purposes. Any such lease must specify the qualifying telecommunications service to be offered by the lessee and the geographic area in which that service will be offered. For purposes of this section, a "qualifying telecommunications service" is a telecommunications service, which shall include but is not limited to, high-speed data service and Internet access service, of general application to be offered by the lessee which is not otherwise generally and competitively available in the geographic area in which the service will be offered by an entity other than an entity leasing from the county, city, town, electric commission or board, industrial development authority, or economic development authority. Such lessee shall not be prohibited from offering authorized telecommunications services in addition to the qualifying telecommunications service over the leased facilities. No such lease shall be effective unless, prior to entering into such lease: (i) the proposed lessee petitions the State Corporation Commission to approve such lease of the dark fiber and (ii) the Commission, after notice and an opportunity for hearing in the affected area, issues a written order approving the lease or fails to approve or disapprove the lease within sixty days after notice. The sixty-day period may be extended by Commission order for a period not to exceed an additional sixty days. The lease shall be deemed approved if the Commission fails to act within sixty days after notice or any extended period ordered by the Commission.*

*§ [56-484.13](#). Factors for approval.*

*The State Corporation Commission shall find that it is in the public interest to approve the lease of dark fiber as specified in § [56-484.12](#) unless it shall be demonstrated to the Commission and found that, within the geographic area to be served by the lease: (i) the lease will not promote the provision of competitive communications service within the geographic area; (ii) the lease will not enhance economic development; (iii) the qualifying telecommunications service specified in its lease as provided for in § [56-484.12](#) is readily and generally available from three or more nonaffiliated certificated local exchange companies, not including any lessee; (iv) the lease is not in compliance with the requirements of § [56-484.12](#); or (v) the lease will not benefit consumers. The factor stated in clause (iii) shall not apply to leases of dark fiber filed for approval within five years of the Commission's approval of the first lease of dark fiber by that county, city, town, electric commission or board, industrial development authority, or economic development authority.*

*§ [56-484.14](#). Availability of service by lessee.*

*Any lessee which has a lease approved by the Commission shall continue to offer and make generally and competitively available the qualifying telecommunications service specified in its lease as provided for in § [56-484.12](#). Lease approval may be revoked by the Commission upon a finding that the requirements of this section are not being met.*

An Act authorizing the Marine Resources Commission to convey a permanent easement to certain subaqueous land in the James River to the United States Forest Service.

[\[H 2590\]](#)

Approved March 17, 1999

Whereas, the James River is a navigable waterway and the land under the waters of the James River is held by the Commonwealth under § [28.2-1200](#); and

Whereas, the Appalachian Trail Conference of Harpers Ferry, West Virginia, holds title to five abandoned stone bridge piers within the limits of the James River, said piers being an abandoned railway bridge at Snowden, Virginia, in the Counties of Amherst and Bedford; and

Whereas, the current crossing of the Appalachian National Scenic Trail at that location is on a heavily used highway bridge, providing an unsafe route for pedestrians; and

Whereas, the Appalachian Trail Conference proposed to transfer its interests in these bridge piers, and a footbridge to be constructed upon them, to the United States for administration by the U.S. Department of Agriculture Forest Service; and

Whereas, the U.S. Forest Service wants to administer the real and personal property interest involving the former bridge structure that is located over and under the James River for the purpose of providing and maintaining a new, permanent, safe and protected pedestrian bridge for use as a part of the Appalachian National Scenic Trail; and

Whereas, before accepting these bridge piers, the United States must assure that acceptable title interests are conveyed to protect the investment of federal funds in long-term maintenance and construction of the piers and the new bridge; and

Whereas, in order to expend funds for this purpose, the United States, by statute, must have the right to use the land for the estimated life of or need for the structure; now, therefore,

## **Chapter 859 Voluntary disclosure & exchange of Y2K readiness info.**

An Act to promote the voluntary disclosure and free exchange of Year 2000 readiness information.

[\[H 1671\]](#)

Approved March 29, 1999

Whereas, at least thousands and possibly millions of information technology computer systems, software programs, and semiconductors may not be capable of recognizing certain dates after December 31, 1999; may read dates in the Year 2000 and thereafter as if

those dates represent the year 1900; or may otherwise fail to accurately process those dates; and

Whereas, this situation, known colloquially and collectively as “the Year 2000 problem,” could incapacitate systems that are essential to public safety, economic health, and the delivery of electricity and water, medical care, and numerous other essential goods and services in the Commonwealth of Virginia, the United States, and the world; and

Whereas, reprogramming or replacing affected systems before the Year 2000 problem incapacitates such essential systems is a matter of state, national, and global interest; and

Whereas, the prompt, candid, and thorough disclosure and exchange of information related to the Year 2000 problem would greatly enhance the ability of the public and private sectors to improve their Year 2000 readiness; and

Whereas, improving Year 2000 readiness is a matter of state, national, and global importance and a vital factor in minimizing Year 2000-related disruptions to the health, safety, welfare, and economic well-being of the citizens, businesses, and governments of the Commonwealth of Virginia, the United States, and the world; and

Whereas, massive efforts are underway in the public and private sectors to timely and adequately solve the Year 2000 problem; prepare “mission critical” information technology computer systems, software programs, and semiconductors to recognize the Year 2000; and minimize the risks associated with a Year 2000 failure; and

Whereas, these massive efforts have been impeded because of concern about the potential for legal liability associated with the disclosure and exchange of Year 2000 readiness information; and

Whereas, facilitating the voluntary dissemination and free exchange of Year 2000 readiness information, solutions, best practices, and test results between and among the public and private sectors without undue concern about legal liability is crucial to the ability of the public and private sectors to timely and adequately solve the Year 2000 problem; prepare “mission critical” information technology computer systems, software programs, and semiconductors to recognize the Year 2000; and minimize the risks associated with a Year 2000 failure; and

Whereas, the purpose of this act is to serve the state, national, and global interest in promoting the voluntary dissemination and free exchange of Year 2000 readiness information shared in good faith; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

1.

*§ 1. Definitions.*

*For purposes of this act:*

*"Disclosure" and "discloses" means disseminating or providing information in good faith related to the Year 2000 problem or a Year 2000 failure without any expectation of or right to remuneration or fees therefor.*

*"Information" means any projection, estimate, planning document, objective, timetable, best practice, test plan, test date, or test result intended to timely and adequately solve the Year 2000 problem; prepare "mission critical" information technology computer systems, software programs, and semiconductors to recognize the Year 2000; or minimize the risks associated with a Year 2000 failure, which is clearly marked as such on the face of the information.*

*"Person" means the same as defined in § [1-13.19](#) of the Code of Virginia.*

*"Year 2000 problem" or "Year 2000 failure" means any computing, physical, enterprise, or distribution system complication that has occurred or may occur as a result of the change of the year from 1999 to 2000 in any person's technology system, including, without limitation, computer hardware, programs, software, or systems; embedded chip calculations or embedded systems; firmware; microprocessors; or management systems, business processes, or computing applications that govern, utilize, drive, or depend on the Year 2000 processing capabilities of the person's technology systems. Such complications may include the common computer programming practice of using a two-digit field to represent a year, resulting in erroneous date calculations; an ambiguous interpretation of the term or field "00"; the failure to recognize 2000 as a leap year; algorithms that use "99" or "00" to activate another function; or the use of any other applications, software, or hardware that are date-sensitive.*

*§ 2. "Safe harbor" from legal liability.*

*Notwithstanding any other provision of law, any person who discloses information regarding the Year 2000 problem or a Year 2000 failure shall not be liable for damages in any action brought against that person regarding such Year 2000 problem or Year 2000 failure for any injury caused by, arising out of, or relating to, the use of the information disclosed, except as provided in § 3. This act shall not apply in any action for personal injury or death.*

*§ 3. Exceptions.*

*The provisions of § 2 shall not apply if the claimant proves to the trier of fact by a preponderance of the evidence that:*

*1. The information disclosed was sold, exchanged, or provided for compensation by any person, or*

2. Such information (i) was material and false, inaccurate, or misleading and (ii) was disclosed (a) with the knowledge that the information was false, inaccurate, or misleading; (b) without a statement to the claimant that the disclosure was based on information supplied by another person if the information was a republication of, or otherwise a repetition of, information from such other person or made with the knowledge that the information was false, inaccurate, or misleading; or (c) with gross negligence in the determination of the truth or accuracy of the information or in the determination of whether the information was misleading.

§ 4. Act not limiting.

Nothing in this act shall be deemed to affect any other remedy available to a person against another person with respect to information disclosed about the Year 2000 problem or a Year 2000 failure.

2. That an emergency exists and this act is in force from its passage.

*The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement and equipping of the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.*

**§ 4. Details, sale of bonds and BANs.** *Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the*

*consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding thirty years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement, and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a)(3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds [Bond Anticipation Notes], Series ...."*

*§ 5. Execution of bonds and BANs.*

*Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer*

*before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses.*

*All expenses incurred under this act shall be paid from the proceeds of the bonds or BANs from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues.*

*Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the payment of the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Authorized investments.*

*Pending the application of the proceeds of bonds and BANs to the purpose for which they have been authorized and the application of the net revenues and other sums set aside for the payment of bonds and BANs, all or any portion of such funds may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds. Such investments shall be deemed at all times to be a part of such funds, and the interest thereon and any profit realized from such investments shall be credited to such funds, and any losses shall be deducted therefrom.*

*§ 9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the*

*Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest on and any premium on the bonds or BANs to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax.*

*The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs.*

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance.*

*Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company,*

*within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (b) or (c), as the case may be, of the Constitution of Virginia.*

§ 13. Severability.

*The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

2. That Chapters 473 and 734 of the Acts of Assembly of 1998 are repealed; however, such repeal shall not operate to invalidate, alter the security or prohibit the refunding of bonds heretofore issued pursuant to such act.

3. That an emergency exists and this act is in force from its passage.

## **Chapter 619 Special tax district in counties containing a town school division.**

An Act appropriating certain state and local tax revenues to the school division of the County of Westmoreland and the school division of the Town of Colonial Beach pursuant to an agreement between the County of Westmoreland and the Town of Colonial Beach.

[\[S 483\]](#)

Approved April 8, 2000

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. The Board of Supervisors of the County of Westmoreland (the Board) may establish a special tax district to pay all or any portion of the county's expenditures for operating the county school division. The boundaries of the tax district shall be the same as the geographical area of the county school division and shall exclude the area of the Town of Colonial Beach. If the Board elects to establish such a special tax district, its appropriations of funds for the county's share of expenditures for the county school division shall be governed by this act and the provisions of §§ [22.1-113](#) and [22.1-114](#) shall not be applicable.*

*§ 2. The Board may levy and collect taxes upon any taxable property in such special tax district, including real estate, tangible personal property, merchants' capital, and*

*machinery and tools, and may appropriate to the county school division such property taxes, including any penalties and interest thereon and any fund balance from the preceding fiscal year consisting of such taxes, penalties and interest. The Town of Colonial Beach shall pay for its share of expenditures to operate the town school division from town property taxes and other local, state, and federal revenues received by the town. The county and the town shall identify the sources of all revenues appropriated to their respective school divisions.*

*§ 3. The Board may also appropriate to the county school division all or any portion of the revenue derived from (i) those local or state taxes which are collected in part within the town but are allocated between the county and the town by state law or (ii) those non-property taxes that the county collects exclusively from sources outside the town. Such taxes include, but shall not be limited to: (i) the local sales tax authorized by § [58.1-605](#), (ii) the motor vehicle license tax authorized by § [46.2-752](#), (iii) wine taxes authorized by § [4.1-235](#), (iv) the net profits from the Alcoholic Beverage Control System authorized by § [4.1-117](#), (v) cable franchise fees authorized by § [15.2-2108](#), (vi) manufactured home titling taxes authorized by § [58.1-2402](#), (vii) automobile rental taxes authorized by § [58.1-2402](#), (viii) rolling stock taxes authorized by § [58.1-2652](#), (ix) bank stock taxes authorized by § [58.1-1204](#), and (x) interest or other investment earnings derived from the revenues specified in § 2 and this section, which investment earnings shall be separately accounted for by the county.*

*§ 4. The Board may also appropriate to the county school division all or any portion of the state or local recordation taxes received by the county, as authorized by §§ [58.1-801](#) and [58.1-3800](#), if the county pays to the town a pro rata share of such recordation taxes derived from real estate transactions that occur within the town.*

*The pro rata share shall be determined by multiplying the recordation taxes collected within the town by a fraction that equals the total recordation taxes appropriated to the county school division divided by the total recordation taxes derived by the county from real estate transactions that occur outside the town. The clerk of the circuit court for the county shall compile and furnish the necessary information to the governing body of the county to enable it to comply with this provision. The Board shall pay such sum to the town no later than forty-five days after receipt of such taxes by the county treasurer from the clerk of the circuit court.*

*§ 5. The Board may also appropriate to the county school division all or any portion of the state payments to reimburse the county for personal property taxes pursuant to the Personal Property Tax Relief Act of 1998 (§ [58.1-3523](#) et seq.) if the county pays to the town a pro rata share of these state payments received by the county that are attributable*

*to qualifying vehicles assessed for taxation within the town. The pro rata share shall be determined by multiplying the state reimbursement payments received by the county based on qualifying vehicles within the town by a fraction that equals the total state reimbursement payments appropriated to the county school division divided by the total state reimbursement payments received by the county from qualifying vehicles assessed for taxation outside the town. The Board shall pay such sum to the town no later than forty-five days after receipt of such payments by the county treasurer from the Commonwealth.*

*§ 6. Notwithstanding any other provision of law, if the Board establishes such a special tax district, the amount of the payments pursuant to § [58.1-3526](#) of the Personal Property Tax Relief Act of 1998, which are made by the Commonwealth to the treasurer of the town, shall be computed as follows:*

*The amount of the payments to the town treasurer specified in subdivisions B 2 through B 5 of § [58.1-3524](#) shall be based upon a "reimbursable amount" calculated by using (i) the effective tax rate on tangible personal property in effect in the town as of July 1, 1997, or August 1, 1997, whichever is greater, plus (ii) an effective tax rate equal to the difference between the county's effective tax rate on tangible personal property as of July 1, 1997, or August 1, 1997, whichever is greater, and the county's effective tax rate on tangible personal property within the town for the applicable tax year.*

*For example, if the county's effective tax rate for tangible personal property on July 1, 1997, and August 1, 1997, was \$2.50, the town's effective tax rate on the same dates was \$2.00; and, if the county's effective tax rate on tangible personal property within the town was \$1.30 during the 2000 tax year, the first tax year in which the Board may create a special tax district for the support of the county school division, then the effective tax rate applicable to the town would be \$2.00 plus \$1.20, or a total of \$3.20 for purposes of computing the "reimbursable amount" under § [58.1-3524](#). If the town issues tangible personal property tax bills for qualifying vehicles within the town, in addition to any tangible personal property tax bills issued by the county for such vehicles, the amounts to be paid to the town treasurer shall be shown as a deduction on the face of the town's tangible personal property tax bills for qualifying vehicles in the town, which amounts are to be paid by the Commonwealth in accordance with § [58.1-3526](#).*

*Notwithstanding any other provision of law, for purposes of calculating the payments to the county treasurer specified in subdivisions B 2 through B 5 of § [58.1-3524](#), the "reimbursable amount" for qualifying vehicles in the town shall be based on the lower of the county's effective tax rate on tangible personal property within the town for the applicable tax year or the county's effective tax rate on July 1, 1997, or August 1, 1997, (whichever is greater). For example, if the county's effective tax rate for tangible personal property*

*within the town was \$1.30 during the 2000 tax year, the first tax year in which the Board may create a special tax district for the support of the county school division, and the county's effective tax rate for tangible personal property was \$2.50 on July 1, 1997, and August 1, 1997, then the effective tax rate used to compute the "reimbursable amount" under § [58.1-3524](#) would be \$1.30 for qualifying vehicles in the town. The amounts to be paid to the county treasurer shall be shown as a deduction on the face of the county's tangible personal property tax bills for qualifying vehicles in the town, which amounts are to be paid by the Commonwealth in accordance with § [58.1-3526](#).*

*The provisions of this section shall not be effective in any tax year when the combined amount to be paid to the county and the town for such year as calculated pursuant to the Personal Property Tax Relief Act of 1998 (§ [58.1-3523](#) et seq.) is less than the combined amount to be paid to the county and the town for such year as calculated under this section. In any such tax year, the amount to be paid to the county and the town shall be determined in accordance with the relevant provisions of the Personal Property Tax Relief Act of 1998.*

*§ 7. If the Board appropriates to the county school division any other taxes, fees, or other sources of revenues that are collected within both the county and the town or are attributable to persons, property, transactions or activities within both the county and the town, the county shall pay to the town a sum calculated as follows: the total amount of such other revenues appropriated to the county school division shall be multiplied by a fraction equal to the total taxable property assessments in the town divided by the total taxable property assessments in the county as a whole, including the town. The revenues subject to this requirement would include, for example, property taxes collected by the county in both the county and the town, but would exclude, for example, a gift to the county or a state grant for school construction distributed to the county on the basis of school-age population in the county excluding the town. The Board shall pay such sum to the town no later than forty-five days after such revenues have been transferred to the county school division.*

*§ 8. In the event of a dispute regarding the application of this act, either the county or the town may initiate an arbitration proceeding. The arbitration panel shall consist of three members, including one person not associated with the county but selected by the county, one person not associated with the town but selected by the town, and the Auditor of Public Accounts for the Commonwealth of Virginia or his designee. The director of the Weldon Cooper Center for Public Service shall make an advisory recommendation from its staff as to the member to be selected by the town. The decision of a majority of the arbitration panel shall be binding on the county and the town.*

2. That an emergency exists and this act is in force from its passage.

[\[S 185\]](#)

Approved April 8, 2000

Be it enacted by the General Assembly of Virginia:

1. That §§ [56-235.8](#), [58.1-400.2](#), [58.1-403](#), [58.1-440.1](#), [58.1-504](#), [58.1-2626](#) as it shall become effective, [58.1-2627.1](#), [58.1-2660](#) as it shall become effective, [58.1-3731](#) and [58.1-3814](#) of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Title 58.1 a chapter numbered 29.1, consisting of sections numbered [58.1-2904](#) through [58.1-2907](#), as follows:

§ [56-235.8](#). Retail supply choice for natural gas customers.

A. Notwithstanding any provision of law to the contrary, each public utility authorized to furnish natural gas service in Virginia (gas utility) is authorized to offer to all of ~~its~~ *the gas utility's* customers not eligible for transportation service under tariffs in effect on the effective date of this section, direct access to gas suppliers (retail supply choice) by filing a plan for implementing retail supply choice with the State Corporation Commission for approval. The provisions of this section shall not apply to any retail supply choice pilot program in effect on July 1, 1999. The Commission shall accept such a plan for filing within thirty days of filing if it contains, at a minimum:

1. A schedule for implementing retail supply choice for all of its customers;
2. Tariff revisions, including proposed unbundled rates for firm and interruptible service (which may utilize a cost allocation and rate design formulated to recover the gas utility's nongas fixed costs on a nonvolumetric basis) and terms and conditions of service designed to provide nondiscriminatory open access over its transportation system, comparable to the transportation service provided by the gas utility to itself, to allow competitive suppliers to sell natural gas directly to the gas utility's customers. Any proposed

unbundling rates shall include an explanation of the methodology used to develop the rates and a calculation of revenues, by customer class, thereby produced;

3. ~~A Nonbypassable, competitively neutral mechanism~~ *annual surcharges* for the gas utility to *properly allocate and recover from its firm service customers not eligible for non-pilot transportation service under tariffs in effect on the effective date of this section*, its nonmitigable costs ~~prudently incurred to support its merchant obligation and to~~

~~facilitate~~ *associated with the provision of retail supply choice*, including ~~reasonable prudently incurred~~ contract obligation costs and transition costs. For the purposes of this section, contract obligation costs are costs associated with acquiring, maintaining or terminating interstate and intrastate pipeline and storage capacity contracts, less revenues generated ~~with~~ *by* mitigating such contract obligations, whether by off-system sales, capacity release, pipeline supplier refunds or otherwise; and transition costs are costs incurred by the gas utility associated with educating the public on retail supply choice and redesigning its facilities, operations and systems to permit retail supply choice;

4. Tariff provisions to balance the receipts and deliveries of gas supplies to retail supply choice customers and allocate the gas utility's gas costs so that ~~the retail supply choice~~ *one class of customers* ~~are~~ *is* not subsidized by ~~nonretail choice~~ *another class of customers*;

5. Tariff provisions requiring the gas utility, at a minimum, to offer gas suppliers or retail supply choice customers the right to acquire the gas utility's upstream transmission and/or storage capacity *in a manner that assures that one class of customers is not subsidized by another class of customers, provided that nothing contained herein shall deny the gas utility the right to request Commission approval of such tariff provisions as are designed to ensure the safe and reliable delivery of natural gas to firm service customers on its system, including provisions requiring gas suppliers to accept assignment of upstream transportation and storage capacity, and/or allowing the gas utility to retain a portion of its upstream transportation and storage capacity to ensure safe and reliable natural gas service to its customers*;

6. A code of conduct governing the activities and relationships between the gas utility and gas suppliers to prevent anticompetitive or discriminatory conduct and the unlawful exercise of market power. Such codes of conduct shall incorporate or be consistent with any rule or guideline established by the Commission; and

7. Any other requirement established by Commission rule or regulation.

The Commission may, by rule or regulation, impose such additional filing requirements as it deems necessary in the public interest. The Commission may also require a gas utility to continue to serve as a gas supplier to its customers after the gas utility's plan

becomes effective and under such terms and conditions as are necessary to protect the public interest.

B. *After the Commission has accepted a filing as provided in subsection A, the Commission shall review and approve a plan filed by a gas utility unless it determines, after notice and an opportunity for public hearing, that the plan would:*

1. Adversely affect the *quality, safety, or reliability* of natural gas service by the gas utility or the provision of adequate service to the gas utility's customers;
2. Result in rates charged by the gas utility that are not just and reasonable rates within the contemplation of § [56-235.2](#) or that are in excess of levels approved by the Commission under § [56-235.6](#), as the case may be;
3. Adversely affect the gas utility's customers not participating in the retail supply choice plan; ~~or~~
4. Unreasonably discriminate against one class of the gas utility's customers in favor of another class (provided, however, that a gas utility's recovery of nongas fixed costs on a nonvolumetric basis shall not necessarily constitute unreasonable discrimination); *or*
5. *Not be in the public interest.*

*The Commission shall, after the acceptance of a filing of a retail supply choice plan, approve or disapprove the plan within 120 days. The 120-day period may be extended by Commission order for an additional period not to exceed sixty days. The retail supply choice plan shall be deemed approved if the Commission fails to act within 120 days or any extended period ordered by the Commission.* The Commission shall approve a retail supply choice plan filed by a gas utility pursuant to this subsection regardless of whether it has promulgated rules and regulations pursuant to subsection A. The Commission may also modify a plan filed by a gas utility to ensure that it conforms to the provisions of this subsection and is otherwise in the public interest. Plans approved pursuant to this section shall not be placed into effect before July 1, 2000.

C. *The Commission may, on its own motion, direct a gas utility to file a retail supply choice plan, which shall comply with subsection A, shall include such other details in the plan as the Commission may require, and does not cause the effects set forth in subsection B, or the Commission may, on its own motion, propose a plan for a gas utility for retail supply choice that complies with the requirements of subsection A and does not cause the effects set forth in subsection B. The Commission may approve any plans under this subsection after notice to all affected parties and an opportunity for hearing.*

~~C.D.~~ Once a plan becomes effective pursuant to this section, if the Commission determines, after notice and opportunity for hearing, that the plan is causing, or is reasonably

likely to cause, the effects set forth in subsection B, it may order revisions to the plan to remove such effects. Any such revisions to the plan will operate prospectively only.

~~D.E.~~ If, upon application of at least twenty-five percent of retail supply choice customers or of 500 retail choice customers, whichever number is lesser, or by the gas utility, it is alleged that the marketplace for retail supply choice customer is not reasonably competitive or results in rates unreasonably in excess of what would otherwise be charged by the gas utility, or if the Commission renders such a determination upon its own motion, then the Commission may, after notice, and opportunity for hearing, terminate the gas utility's retail supply choice program and provide for an orderly return of the retail choice customers to the gas utility's traditional retail natural gas sales service. In such event, the gas utility shall be given the opportunity to acquire, under reasonable and competitive terms and conditions and within a reasonable time period, such upstream transportation and storage capacity as is necessary for it to provide traditional retail natural gas sales service to former retail supply choice customers.

~~E.F.~~ Licensure of gas suppliers.

1. No person, other than a gas utility, shall engage in the business of selling natural gas to the residential and small commercial customers of a gas utility that has an approved plan implementing retail supply choice unless such person (for the purpose of this section, gas supplier) holds a license issued by the Commission. An application for a gas supplier license must be made to the Commission in writing, be verified by oath or affirmation and be in such form and contain such information as the Commission may, by rule or regulation, require. For purposes of this subsection, the Commission shall require a gas supplier to demonstrate that it has the means to provide natural gas to essential human needs customers. A gas supplier license shall be issued to any qualified applicant within forty-five days of the date of filing such application, authorizing in whole or in part the service covered by the application, unless the Commission determines otherwise for good cause shown. A person holding such a license shall not be considered a "public service corporation," "public service company" or a "public utility" and shall not be subject to regulation as such; however, nothing contained herein shall be construed to affect the liability of such a person for any license tax levied pursuant to Article 2 (§ [58.1-2620](#) et seq.) of Chapter 26 of Title 58.1. No license issued under this chapter shall be transferred without prior Commission approval ~~as being finding that such transfer is~~ not inconsistent with the public interest. If the Commission determines, after notice and opportunity for public hearing, that a gas supplier has failed to comply with the provisions of this subsection or the Commission's rules, regulations or orders, the Commission may *enjoin, fine, or punish any such failure pursuant to the Commission's*

*authority under this statute and under Title 12.1 of the Code of Virginia. The Commission may also suspend or revoke the gas supplier's license or take such other action as is necessary to protect the public interest.*

2. The Commission shall establish rules and regulations for the implementation of this subsection, provided that:

a. The Commission's rules and regulations shall not govern the rates charged by licensed gas suppliers, except that the Commission's rules and regulations may govern the terms and conditions of service of licensed gas suppliers to protect the gas utility's customers from commercially unreasonable terms and conditions; and

b. The Commission's rules and regulations shall permit an affiliate of the gas utility to be licensed as a gas supplier and to participate in the gas utility's retail supply choice program under the same terms and conditions as gas suppliers not affiliated with the gas utility.

3. The Commission shall also have the authority to issue rules and regulations governing the marketing practices of gas suppliers.

~~F.G.~~ Retail customers' private right of action; marketing practices.

1. No gas supplier shall use any deception, fraud, false pretense, misrepresentation, or any deceptive or unfair practices in providing or marketing gas service.

2. Any person who suffers loss (i) as the result of *fraudulent* marketing practices, including telemarketing practices, engaged in by any gas supplier providing any service made competitive under this section, or of any violation of rules and regulations issued by the Commission pursuant to subdivision ~~E F~~ 3, or (ii) as the result of any violation of subdivision ~~F~~ 1 *of this subsection*, shall be entitled to initiate an action to recover actual damages, or \$500, whichever is greater. If the trier of fact finds that the violation was willful, it may increase damages to an amount not exceeding three times the actual damages sustained, or \$1,000, whichever is greater. Notwithstanding any other provisions of law to the contrary, in addition to any damages awarded, such person also may be awarded reasonable attorney's fees and court costs.

3. The Attorney General, the attorney for the Commonwealth or the attorney for the city, county or town may cause an action to be brought in the appropriate circuit court for relief of violations referenced in subdivision ~~F~~ 2 *of this subsection*.

4. Notwithstanding any other provision of law to the contrary, in addition to any damages awarded, such person or governmental agency initiating an action pursuant to this section may be awarded reasonable attorney's fees and court costs.

5. Any action pursuant to this ~~section~~ *subsection* shall be commenced *by persons other than the Commission* within two years after its accrual. The cause of action shall accrue

as provided in § [8.01-230](#). However, if the Commission initiates proceedings, or any other governmental agency files suit for violations under this section, the time during which such proceeding or governmental suit and all appeals therefrom are pending shall not be counted as any part of the period within which an action under this section shall be brought.

6. The circuit court may make such additional orders or decrees as may be necessary to restore to any identifiable person any money or property, real, personal, or mixed, tangible or intangible, which may have been acquired from such person by means of any act or practice violative of *this* subsection-F, provided; that such person shall be identified by order of the court within 180 days from the date of any order permanently enjoining the unlawful act or practice.

7. In any case arising under this subsection, no liability shall be imposed upon any gas supplier who shows by a preponderance of the evidence that (i) the act or practice alleged to be in violation of subdivision 1 of this subsection was an act or practice over which the same had no control or (ii) the alleged violation resulted from a bona fide error notwithstanding the maintenance of procedures reasonably adopted to avoid a violation. However, nothing in this section shall prevent the court from ordering restitution and payment of reasonable attorney's fees and court costs pursuant to subdivision 4 of this subsection to individuals aggrieved as a result of an unintentional violation of this subsection.

*H. Authorized public utilities shall file with the Commission tariff revisions reflecting the net effect of the elimination of taxes pursuant to subsection B of § [58.1-2904](#) and the addition of state income taxes pursuant to § [58.1-400](#). Such tariffs shall be effective for service rendered on and after January 1, 2001, and shall be filed at least forty-five days prior to the effective date. Such filing shall not constitute a rate increase for the purposes of § [56-235.4](#).*

*I. Consumer education.*

*1. The Commission shall develop a consumer education program designed to provide the following information to retail customers concerning retail supply choice for natural gas customers:*

*a. Opportunities and options in choosing natural gas suppliers;*

*b. Marketing and billing information gas suppliers will be required to furnish retail customers;*

*c. Retail customers' rights and obligations concerning the purchase of natural gas and related services; and*

*d. Such other information as the Commission may deem necessary and appropriate and in the public interest.*

*2. The consumer education program authorized herein may be conducted in conjunction with the program provided for in § [56-592](#).*

*3. The Commission shall establish or maintain a complaint bureau for the purpose of receiving, reviewing and investigating complaints by retail customers against gas utilities, public service companies, licensed suppliers and other providers of any services affected by this section. Upon the request of any interested person or the Attorney General, or upon its own motion, the Commission shall be authorized to inquire into possible violations of § [56-235.8](#) and to enjoin or punish any violations thereof pursuant to its authority under § [56-235.8](#), this title, or Title 12.1. The Attorney General shall have a right to participate in such proceedings consistent with the Commission's Rules of Practice and Procedure.*

*4. For all billing statements sent on and after August 1, 2000, all gas utilities, as defined in subsection A, shall enclose the following information in all billing statements for retail natural gas service:*

*a. Gas utilities shall separately state an approximate amount of the tax imposed under §§ [58.1-2626](#), [58.1-2660](#), and [58.1-3731](#) which is included in the customer's bill until such tax is no longer imposed; and*

*b. For all such billing statements, a statement which reads as follows shall be included: "Beginning January 1, 2001, the current state and local gross receipts taxes on sales of natural gas will be replaced by a tax based on the consumption of natural gas by consumers. In the past, the current gross receipts tax has always been included in the rate charged for natural gas. Now, this tax is being separately stated. The total gross receipts tax imposed by Virginia and the localities is approximately two percent of the amount charged to consumers. The new state and local consumption tax will be charged at an approximate rate of \$0.02 per 100 cubic feet (CCF) of natural gas consumed. While this rate was designed to be less than, or equal to, the effect of the current gross receipts tax which is being replaced, the tax you pay may actually be higher in your locality. This statement is being provided for your information."*

*§ [58.1-400.2](#). Taxation of electric suppliers, pipeline distribution companies, gas utilities, and gas suppliers.*

*A. Any electric supplier, pipeline distribution company, gas utility, or gas supplier that is subject to income tax pursuant to the Internal Revenue Code of 1986, as amended, except those organized as cooperatives and exempt from federal taxation under § 501 of*

the Internal Revenue Code of 1986, as amended, shall be subject to the tax levied pursuant to § [58.1-400](#).

B. Any electric supplier that operates as a cooperative and is exempt from income tax pursuant to § 501 of the Internal Revenue Code of 1986, shall be subject to tax at the tax rate set forth in § [58.1-400](#) on all modified net income derived from nonmember sales. *Any gas supplier, pipeline distribution company or gas utility which has a taxable year that begins after January 1, 2001, but before January 1, 2002, shall also be subject to the provisions under subsection E.*

C. The following words and terms; when used in this section; shall have the following meanings:

"Electric supplier" means any corporation, cooperative, partnership or other business entity providing electric service.

"Electricity" is deemed tangible personal property for purposes of the corporate income tax pursuant to ~~Article 10 (§ [58.1-400](#) et seq.) of this chapter~~ *this article*.

*"Gas supplier" means any person licensed by the State Corporation Commission to engage in the business of selling natural gas.*

*"Gas utility" has the same meaning as provided in § [56-235.8](#).*

"Members" means those customers of a cooperative who receive allocations of patronage capital from a cooperative.

"Modified net income" means all revenue of a cooperative from the sale of electricity within the Commonwealth with the following subtractions:

1. Revenue attributable to sales of electric power to its members.
2. Nonmember share of all ordinary and necessary expenses paid or incurred during the taxable year in carrying on the sale of electric power to nonmembers. Such nonmember expenses shall be determined by allocating the amount of such expenses between sales of electricity to members and sales of electricity to nonmembers. Such allocation shall be applicable to all tax credits available to an electric supplier.

"Nonmember" means those customers which are not members.

"Ordinary and necessary expenses paid or incurred" means ordinary and necessary expenses determined according to generally accepted accounting principles.

*"Pipeline distribution company" has the same meaning as provided in § [58.1-2600](#).*

D. The Department of Taxation shall promulgate all regulations necessary to implement the intent of this section. This section shall apply to taxable years beginning on and after January 1, 2001.

*E. 1. Any gas supplier, pipeline distribution company or gas utility which has a taxable year that begins after January 1, 2001, but before January 1, 2002, shall be required to*

*file an income tax return as if a short taxable year has occurred covering the period beginning January 1, 2001, and ending on the last day prior to the beginning of the gas supplier's, pipeline distribution company's or gas utility's taxable year pursuant to § [58.1-440](#) A.*

*2. If a return is required to be made under subdivision 1 of this subsection, federal taxable income will be determined using the methodology prescribed in § 443 of the Internal Revenue Code, as if the gas supplier, pipeline distribution company or gas utility was undergoing a change of annual accounting period, and § [58.1-440](#) B and the regulations thereunder.*

§ [58.1-403](#). Additional modifications to determine Virginia taxable income for certain corporations.

In addition to the modifications set forth in § [58.1-402](#) for determining Virginia taxable income for corporations generally, the adjustments set forth in subdivision 1 shall be made to the federal taxable income for savings institutions and as set forth in subdivisions 2 and 3 for railway companies and, as set forth in subdivisions 6 and 7 for telecommunications companies, and as set forth in subdivisions 8 and 9 for gas suppliers, pipeline distribution companies and gas utilities.

1. There shall be added the deduction allowed for bad debts. The percentage which would have been used in determining the bad debt deduction under the Internal Revenue Code of 1954, as in effect immediately prior to the enactment of the Tax Reform Act of 1986 (Public Law 99-514), shall then be applied to federal taxable income as adjusted under the provisions of § [58.1-402](#) and the amount so determined subtracted therefrom.

2. There shall be added to federal taxable income any amount which was deducted in determining taxable income as a net operating loss carryover from any taxable year beginning on or before December 31, 1978.

3. Where such railway company would have been allowed to deduct an amount as a net operating loss carryover or net capital loss carryover in determining taxable income for a taxable year beginning after December 31, 1978, but for the fact that such loss, or a portion of such loss, had been carried back in determining taxable income for a taxable year beginning prior to January 1, 1979, there shall be added to federal taxable income any amount which was actually deducted in determining taxable income as a net operating loss carryover or net capital loss carryover and there shall be subtracted from federal taxable income the amount which could have been deducted as a net operating loss carryover or net capital loss carryover in arriving at taxable income but for the fact that such loss, or a portion of such loss, had been carried back for federal purposes.

4., 5. [Repealed.]

6. There shall be added to federal taxable income any amount which was deducted in determining taxable income as a net operating loss carryover from any taxable year beginning on or before December 31, 1988.

7. Where such telecommunications company would have been allowed to deduct an amount as a net operating loss carryover or net capital loss carryover in determining taxable income for a taxable year beginning after December 31, 1988, but for the fact that such loss, or a portion of such loss, had been carried back in determining taxable income for a taxable year beginning prior to January 1, 1989, there shall be added to federal taxable income any amount which was actually deducted in determining taxable income as a net operating loss carryover or net capital loss carryover and there shall be subtracted from federal taxable income the amount which could have been deducted as a net operating loss carryover or net capital loss in arriving at taxable income but for the fact that such loss, or a portion of such loss, had been carried back for federal purposes.

*8. There shall be added to federal taxable income any amount that was deducted in determining taxable income as a net operating loss carryover from any taxable year beginning on or before December 31, 2000.*

*9. Where such gas supplier, pipeline distribution company or gas utility would have been allowed to deduct an amount as a net operating loss carryover or net capital loss carryover in determining taxable income for a taxable year beginning after December 31, 2000, but for the fact that such loss, or a portion of such loss, had been carried back in determining taxable income for a taxable year beginning prior to January 1, 2001, there shall be added to federal taxable income any amount that was actually deducted in determining taxable income as a net operating loss carryover or net capital loss carryover and there shall be subtracted from federal taxable income the amount that could have been deducted as a net operating loss carryover or net capital loss in arriving at taxable income but for the fact that such loss, or a portion of such loss, had been carried back for federal purposes.*

§ [58.1-440.1](#). Accounting-deferred taxes.

In the case of a *pipeline distribution company, a gas utility, a gas supplier* or an electric supplier, as defined in § [58.1-400.2](#), that was subject to the tax imposed under § [58.1-2626](#) with respect to its gross receipts received during the year commencing January 1, 2000, and that on or after January 1, 2001, becomes subject to the corporate income tax pursuant to Article 10 (§ [58.1-400](#) et seq.) of this chapter, net income shall be computed by taking into account the following adjustments:

In addition to the deductions for depreciation, amortization, or other cost recovery currently allowed by this Code, there shall be allowed deductions for the amortization of the

Virginia tax basis of assets that are recoverable for financial accounting and/or income tax purposes placed in service prior to the adjustment date. For purposes of this section, (i) "Virginia tax basis" means the aggregate adjusted book basis less the aggregate adjusted tax basis of such assets as recorded on the company's books of accounts as of the last day of the tax year immediately preceding the adjustment date and (ii) "adjustment date" means the first day of the tax year in which such *pipeline distribution company, gas utility, gas supplier or electric supplier* becomes subject to the tax imposed by § [58.1-400.2](#) A. The amortization of the Virginia tax basis shall be computed using the straight-line method over a period of thirty years, beginning on the adjustment date. Gain or loss on the disposition or retirement of any such asset shall be computed using its adjusted federal tax basis, and the amortization of the Virginia tax basis shall continue thereafter without adjustment. The Department of Taxation shall promulgate regulations describing a reasonable method of allocating the Virginia tax basis in the event that a portion of the ~~electric power supplier's~~ *operations of a pipeline distribution company, gas utility, gas supplier or electric supplier* are separated, spun-off, transferred to a separate company or otherwise disaggregated. *For gas suppliers, pipeline distribution companies or gas utilities which are required to file an income tax return for a short taxable year pursuant to subsection E of § [58.1-400.2](#), a portion of the amortized Virginia tax basis will be disallowed based on the proration in computing Virginia taxable income. Such portion will be recovered as a deduction in the first taxable year after which this deduction is no longer applicable.*

*For rate-making and accounting purposes, the State Corporation Commission shall not require a pipeline distribution company or gas utility to amortize these deferred taxes over a period other than the thirty-year period prescribed herein, nor shall the State Corporation Commission require the treatment of accelerated depreciation different from that allowed for federal income taxes.*

§ [58.1-504](#). Failure to pay estimated income tax.

A. In case of any underpayment of estimated tax by a corporation, except as provided in subsection D, there shall be added to the tax for the taxable year an amount determined at the rate established for interest under § [58.1-15](#), upon the amount of the underpayment (determined under subsection B) for the period of the underpayment (determined under subsection C).

B. For purposes of subsection A, the amount of the underpayment shall be the excess of:

1. The amount of the installment which would be required to be paid if the estimated tax were equal to ninety percent of the tax shown on the return for the taxable year or, if no return was filed, ninety percent of the tax for such year, over

2. The amount, if any, of the installment paid on or before the last date prescribed for payment.

C. The period of the underpayment shall run from the date the installment was required to be paid to whichever of the following dates is the earlier:

1. The fifteenth day of the fourth month following the close of the taxable year.
2. With respect to any portion of the underpayment, the date on which such portion is paid. For purposes of this subdivision, a payment of estimated tax on any installment date shall be considered a payment of any previous underpayment only to the extent such payment exceeds the amount of the installment determined under subdivision B 1 for such installment date.

D. Notwithstanding the provisions of subsections A, B and C, the addition to the tax with respect to any underpayment of any installment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax were whichever of the following is the lesser:

1. The tax shown on the return of the corporation for the preceding taxable year, if a return showing a liability for tax was filed by the corporation for the preceding taxable year and such preceding year was a taxable year of twelve months.
2. An amount equal to the tax computed at the rate applicable to the taxable year but otherwise on the basis of the facts shown on the return of the corporation for, and the law applicable to, the preceding taxable year.
3. An amount equal to ninety percent of the tax for the taxable year computed by placing on an annualized basis the taxable income:
  - a. For the first three months of the taxable year, in the case of the installment required to be paid in the fourth month,
  - b. For the first three months or for the first five months of the taxable year, in the case of the installment required to be paid in the sixth month,
  - c. For the first six months or for the first eight months of the taxable year, in the case of the installment required to be paid in the ninth month, and
  - d. For the first nine months or for the first eleven months of the taxable year, in the case of the installment required to be paid in the twelfth month of the taxable year. For purposes of this subdivision, the taxable income shall be placed on an annualized basis by (i) multiplying by twelve the taxable income referred to in subdivision D 3; and (ii) dividing the resulting amount by the number of months in the taxable year (three, five, six, eight, nine, or eleven, as the case may be) referred to in subsection A.

E. For purposes of subsection B, subdivisions D 2 and D 3, the term "tax" means the excess of the tax imposed by this chapter over the sum of any credits allowable against the tax.

F. The application of this to taxable years of less than twelve months shall be in accordance with regulations prescribed by the Commissioner.

G. *Pipeline distribution companies as defined in § [58.1-2600](#) and gas utilities, gas suppliers and electric suppliers as defined in § [58.1-400.2](#) that become subject to taxation under this chapter and prior thereto paid the annual license tax based on gross receipts, shall make estimated tax payments during the first year, or short taxable year under subsection E of § [58.1-400.2](#), they are so subject, and notwithstanding subsection D, any excesses described in subsection B shall constitute an underpayment for such year.*

[58.1-300](#) et seq.) (State Income Tax) of this title. There shall be deducted from such allocated and apportioned net income an amount equal to the percentage that gross profit (operating revenues less cost of purchased gas) derived from sales in this Commonwealth for consumption by the purchaser of natural or manufactured gas is of the total gross profit in the Commonwealth of the taxpayer.

B. The annual report of such company required pursuant to § [58.1-2628](#) shall be made to the Department, on forms prepared and furnished by the Department, if the company is a pipeline transmission company or to the Commission if a pipeline distribution company. *CHAPTER 29.1.*

*NATURAL GAS CONSUMPTION TAX.*

*§ [58.1-2904](#). Imposition of tax.*

*A. Effective January 1, 2001, there is hereby imposed, in addition to the local consumer utility tax of Article 4 (§ [58.1-3812](#) et seq.) of Chapter 38 of this title, a tax on the consumers of natural gas in the Commonwealth based on volume of gas at standard pressure and temperature in units of 100 cubic feet (CCF) delivered by the pipeline distribution company or gas utility and used per month. Each consumer of natural gas in the Commonwealth shall pay tax on the consumption of all natural gas consumed per month not in excess of 500 CCF at the following rates: (i) state consumption tax rate of \$0.0135 per CCF, (ii) local consumption tax rate of \$0.004 per CCF, and (iii) a special regulatory tax rate of up to \$0.002 per CCF.*

*B. The tax rates set forth in subsection A are in lieu of and replace the state gross receipts tax pursuant to § [58.1-2626](#), the special regulatory revenue tax pursuant to § [58.1-2660](#), and the local license tax pursuant to § [58.1-3731](#) levied on corporations furnishing heat, light or power by means of natural gas.*

*C. The tax of consumers under this section shall not be imposed on consumers served by a gas utility owned or operated by a municipality.*

*D. The tax authorized by this chapter shall not apply to use by divisions or agencies of federal, state and local governments.*

*§ [58.1-2905](#). Collection and remittance of tax.*

*A. A pipeline distribution company or gas utility shall collect the tax from the consumer by adding it as a separate charge to the consumer's monthly statement. Until the consumer pays the tax to such company, the tax shall constitute a debt of the consumer to the Commonwealth. If any consumer receives and pays for gas but refuses to pay the tax that is imposed by the Commonwealth, the pipeline distribution company or gas utility shall notify the Commission of the names and addresses of such consumers. If any consumer fails to pay a bill issued by a pipeline distribution company or gas utility, including the tax imposed by the Commonwealth, the pipeline distribution company or gas utility shall follow its normal collection procedures with regard to the charge for the gas and the tax and upon collection of the bill or any part thereof shall (i) apportion the net amount*

collected between the charge for gas service and the tax and (ii) remit the tax portion to the Commission. After the consumer pays the tax to the pipeline distribution company or gas utility, the taxes shall be deemed to be held in trust by such pipeline distribution company or gas utility until remitted to the Commission.

B. A pipeline distribution company or gas utility shall remit monthly to the Commission the amount of tax paid during the preceding month by the pipeline distribution company's consumers, except for the portion which represents the local consumption tax, which portion shall be remitted to the locality in which the natural gas was consumed and shall be based on such locality's license fee rate which it imposed.

C. The natural gas consumption tax shall be remitted monthly, on or before the last day of the succeeding month of collection. Those portions of the natural gas consumption tax that related to the state consumption tax and the special regulatory tax shall be remitted to the Commission; the portion that relates to the local consumption tax shall be remitted to the appropriate localities. Failure to remit timely will result in a ten percent penalty.

D. Taxes on natural gas sales in the year ending December 31, 2000, relating to the local license tax, shall be paid in accordance with § [58.1-3731](#). Monthly payments in accordance with subsection C shall commence on February 28, 2001.

E. The portion of the natural gas consumption tax relating to the local license tax replaces and precludes localities from imposing a license tax in accordance with § [58.1-3731](#) and the business, professional, occupation and license tax in accordance with Chapter 37 (§ [58.1-3700](#) et seq.) of this title on gas suppliers subsequent to December 31, 2000, except as provided in subsection D.

§ [58.1-2906](#). Natural gas consumption tax relating to the special regulatory tax; notification of changes.

A. The Commission may in the performance of its function and duty in levying the natural gas utility consumption tax relating to the special regulatory tax, omit the levy on any portion of the tax fixed in § [58.1-2904](#) as is unnecessary within the Commission's sole discretion for the accomplishment of the objects for which the tax is imposed, including a reasonable margin in the nature of a reserve fund.

B. The Commission shall notify all pipeline distribution companies and gas utilities collecting the tax on consumers of natural gas of any change in the natural gas consumption tax relating to the special regulatory tax not later than the first day of the second month preceding the month in which the revised rate is to take effect.

§ [58.1-2907](#). Use of natural gas consumption tax relating to special regulatory tax.

The natural gas consumption tax relating to the special regulatory tax paid into the treasury under this chapter shall be deposited into a special fund used only by the

*Commission for the purpose of making appraisals, assessments and collections against natural gas suppliers and public service corporations furnishing heat, light and power by means of natural gas and for the further purposes of the Commission in investigating and inspecting the properties or the services of such natural gas suppliers and public service corporations, and for the supervision and administration of all laws relative to such natural gas suppliers and public service corporations, whenever the same shall be deemed necessary by the Commission.*

§ [58.1-3731](#). Certain public service corporations; rate limitation.

Every county, city or town is hereby authorized to impose a license tax, in addition to any tax levied under Chapter 26 (§ [58.1-2600](#) et seq.) of this title, on (i) telephone and telegraph companies; (ii) water companies; and (iii) heat, light and power companies (except electric suppliers, *gas utilities and gas suppliers* as defined in § [58.1-400.2](#) and *pipeline distribution companies* as defined in § [58.1-2600](#)) at a rate not to exceed one-half of one percent of the gross receipts of such company accruing from sales to the ultimate consumer in such county, city or town. However, in the case of telephone companies, charges for long distance telephone calls shall not be included in gross receipts for purposes of license taxation. After December 31, 2000, the license tax authorized by this section shall not be imposed on *pipeline distribution companies* as defined in § [58.1-2600](#) or on *gas suppliers, gas utilities* or electric suppliers (as defined in § [58.1-400.2](#)), except as provided in § [58.1-2901](#) D.

§ [58.1-3814](#). Water or heat, light and power companies.

A. Any county, city or town may impose a tax on the consumers of the utility service or services provided by any water or heat, light and power company or other corporations coming within the provisions of Chapter 26 (§ [58.1-2600](#) et seq.) of this title, which tax shall not be imposed at a rate in excess of twenty percent of the monthly amount charged to consumers of the utility service and shall not be applicable to any amount so charged in excess of fifteen dollars per month for residential customers. Any city, town or county that on July 1, 1972, imposed a utility consumer tax in excess of limits specified herein may continue to impose such a tax in excess of such limits, but no more.

B. Any tax enacted pursuant to the provisions of this section, or any change in a tax or structure already in existence, shall not be effective until sixty days subsequent to written notice by certified mail from the county, city or town imposing such tax or change thereto, to the registered agent of the utility corporation that is required to collect the tax.

C. Any county, city or town may impose a tax on the consumers of services provided within its jurisdiction by any electric light and power, water or gas company owned by another municipality; provided, that no county shall be authorized under this section to

impose a tax within a municipality on consumers of services provided by an electric light and power, water or gas company owned by that municipality. Any county tax imposed hereunder shall not apply within the limits of any incorporated town located within such county which town imposes a town tax on consumers of utility service or services provided by any corporation coming within the provisions of Chapter 26 (§ [58.1-2600](#) et seq.) of this title, provided that such town (i) provides police or fire protection, and water or sewer services, provided that any such town served by a sanitary district or service authority providing water or sewer services or served by the county in which the town is located when such service or services are provided pursuant to an agreement between the town and county shall be deemed to be providing such water and sewer services itself, or (ii) constitutes a special school district and is operated as a special school district under a town school board of three members appointed by the town council.

Any county, city or town may provide for an exemption from the tax for any public safety agency as defined in § [58.1-3813](#).

Any city with a population of not less than 27,000 and not more than 28,500 may provide an exemption from the tax for any church or religious body entitled to an exemption pursuant to Article 4 (§ [58.1-3650](#) et seq.) of Chapter 36 of this title.

Any municipality required to collect a tax imposed under authority of this section for another city or county or town shall be entitled to a reasonable fee for such collection.

D. In a consolidated county wherein a tier-city exists, any county tax imposed hereunder shall apply within the limits of any tier-city located in such county, as may be provided in the agreement or plan of consolidation, and such tier-city may impose a tier-city tax on the same consumers of utility service or services, provided that the combined county and tier-city rates do not exceed the maximum permitted by state law.

E. The tax authorized by this section shall not apply to utility sales of products used as motor vehicle fuels.

F. For taxable years beginning on and after January 1, 2001, any county, city or town may impose a tax on consumers of electricity provided by electric suppliers as defined in § [58.1-400.2](#) which shall not be imposed at a rate in excess of \$.015 ([1-1/2](#) cent) per kWh billed monthly to consumers of electricity and shall not be applicable to any kilowatt hours billed in excess of 200 kWh per month for residential customers. In any county, city or town that imposes a consumer utility tax immediately prior to January 1, 2001, (i) on residential customers at a higher rate than the maximum rate on residential customers under this section because the rate of consumer utility tax it imposed on July 1, 1972, exceeded the limits specified in subsection A or (ii) on other consumers not subject to the maximum rate set by this section, the service provider shall convert the dollar amount

rate to a kWh rate of tax based on the monthly tax that is being collected immediately prior to January 1, 2001. However, nothing in this section shall be construed to prohibit or limit any county, city or town, after completion of the transition period on January 1, 2004, from imposing a consumer utility tax on nonresidential customers (as converted to a per kWh rate basis) in any amounts authorized by this section immediately prior to July 1, 1999. The service provider shall bill the tax to all users to whom it delivers electricity; and shall remit such tax to the appropriate locality in accordance with § [58.1-2901](#). The provisions of this subsection shall be applicable without the necessity of the locality amending or reenacting its existing ordinance imposing such tax.

Subsection B shall apply to any tax on the consumers of electricity enacted or amended pursuant to this section, except that the notice provided therein shall be given to the registered agent of the service provider that is required to collect the tax.

*G. Any county, city or town may impose a tax on consumers of natural gas provided by pipeline distribution companies and gas utilities. The tax so imposed shall be based on CCF delivered monthly to consumers and shall not exceed the limits set forth in this subsection. The pipeline distribution company or gas utility shall bill the tax to all users who are subject to the tax and to whom it delivers gas and shall remit such tax to the appropriate locality in accordance with § [58.1-2905](#). Any locality that imposed a tax pursuant to this section prior to January 1, 2001, based on the monthly revenue amount charged to consumers of gas shall convert to a tax based on CCF delivered monthly to consumers, taking into account minimum billing charges. The CCF tax rates shall, to the extent practicable: (i) avoid shifting the amount of the tax among gas consumer classes and (ii) maintain annual revenues being received by localities from such tax at the time of the conversion. Current pipeline distribution companies and gas utilities shall provide to localities not later than August 1, 2000, information to enable localities to convert their tax. The maximum amount of tax imposed on residential consumers as a result of the conversion shall be limited to three dollars per month, except any locality that imposed a higher maximum tax on July 1, 1972, may continue to impose such higher maximum tax on residential consumers at an amount no higher than the maximum tax in effect prior to January 1, 2001, as converted to CCF. For nonresidential consumers, the initial maximum rate of tax imposed as a result of the conversion shall be based on the annual amount of revenue received and due from each of the nonresidential gas purchase and gas transportation classes in calendar year 1999 for the CCF used that year. CCF tax rates imposed on nonresidential consumers shall be based at a class level on such factors as existing minimum charges, the amount of CCF used, and the amount of consumer utility tax paid and due in calendar year 1999 on the same CCF usage. The initial*

*maximum rate of tax imposed under this section shall continue, unless lowered, until December 31, 2003. Beginning January 1, 2004, nothing in this section shall be construed to prohibit or limit any locality from imposing a consumer utility tax on non-residential customers up to the amount authorized by subsection A.*

*On or before October 31, 2000, any locality imposing a tax on consumers of gas shall duly amend its ordinance under which such tax is imposed so that the ordinance conforms to the requirements of subsections C through H of this section. Notice of such amendment shall be provided to pipeline distribution companies and gas utilities in a manner consistent with subsection B except that "registered agent of the pipeline distribution company or gas utility" shall be substituted for "registered agent of the utility corporation." Any conversion of a tax to conform to the requirements of this subsection shall not be effective before the first meter reading after December 31, 2000, prior to which time the tax previously imposed by the locality shall be in effect.*

*G.H. Until the consumer pays the tax to such ~~service provider~~ gas utility or pipeline distribution company, the tax shall constitute a debt to the locality. If any consumer receives and pays for gas but refuses to pay the tax that is imposed by the locality, the ~~service provider~~ gas utility or pipeline distribution company shall notify the localities of the names and addresses of such consumers. If any consumer fails to pay a bill issued by a gas utility or pipeline distribution company, including the tax imposed by a locality, the gas utility or pipeline distribution company shall follow its normal collection procedures with regard to the charge for the gas and the tax and upon collection of the bill or any part thereof shall (i) apportion the net amount collected between the charge for gas service and the tax and (ii) remit the tax portion to the appropriate locality. After the consumer pays the tax to the ~~service provider~~ gas utility or pipeline distribution company, the taxes shall be deemed to be held in trust by such ~~service provider~~ gas utility or pipeline distribution company until remitted to the localities.*

*I. For purposes of this section:*

*"Class of consumers" means a category of consumers served under a rate schedule established by the pipeline distribution company and approved by the State Corporation Commission.*

*"Gas utility" has the same meaning as provided in § [56-235.8](#).*

*"Pipeline distribution company" has the same meaning as provided in § [58.1-2600](#).*

2. That the amendments to §§ [58.1-3731](#) and [58.1-3814](#) shall take effect on January 1, 2001, and the amendments to §§ [58.1-2626](#) and [58.1-2660](#) as they shall become effective and § [58.1-2627.1](#) shall take effect on January 1, 2002.

3. That the third enactment of Chapter 494 of the 1999 Acts of Assembly is repealed.

Whereas, the Commonwealth had a moratorium on new nursing home or extended care facilities for an extended period in the 1980s and 1990s; and

Whereas, a number of exceptions to this moratorium were approved for application submission by the General Assembly; and

Whereas, as a condition of some application submission exceptions, the law required restrictions on admissions of Medicaid recipients and, in the case of continuing care providers, of private pay patients; and

Whereas, in continuing care communities, the early contract holders are almost always admitted to ambulatory environments; and

Whereas, in modern times, many senior citizens are in good physical condition and health; therefore, the contract holders frequently do not need nursing home care until many years after entering the continuing care community; and

Whereas, prior to filling the nursing home with contract holders, the operation of nursing home units in continuing care communities may only be feasible if other private pay patients may be admitted to the nursing home; now, therefore,

Where the person who is the subject of medical records is confined in a state or local correctional facility, the administrator or chief medical officer of such facility may assert such confined person's right of access to the medical records if the administrator or chief medical officer has reasonable cause to believe that such confined person has an infectious disease or other medical condition from which other persons so confined need to be protected. Medical records shall only be reviewed and shall not be copied by such administrator or chief medical officer. The College of William and Mary in Virginia, at Williamsburg; the rector and visitors of Christopher Newport University, at Newport News; Longwood College, at Farmville; the Mary Washington College, at Fredericksburg; George Mason University, at Fairfax; the James Madison University, at Harrisonburg; Old Dominion University, at Norfolk; the State Board for Community Colleges, at Richmond; the Virginia Commonwealth University, at Richmond; the Radford University, at Radford; the Roanoke Higher Education Authority and Center; the rector and visitors of the University of Virginia, at Charlottesville; the University of Virginia's College at Wise; the Virginia Military Institute, at Lexington; the Virginia Polytechnic Institute and State University, at Blacksburg; the Virginia Schools for the Deaf and the Blind; the Virginia State University, at Petersburg; Norfolk State University, at Norfolk; the Woodrow Wilson Rehabilitation Center, at Fishersville; the *Eastern Virginia Medical College of Hampton Roads School*; and the Southwest Virginia Higher Education Center are hereby classified as educational institutions and are declared to be public bodies and constituted as governmental instrumentalities for the dissemination of education. The powers of every such institution derived directly or indirectly from this chapter shall be vested in and exercised by a majority of the members of its board, and a majority of such board shall be a quorum for the transaction of any business authorized by this chapter. Wherever the word "board" is used in this chapter, it shall be deemed to include the members of a governing body designated by another title.

§ [32.1-122.6](#). Conditional grants for certain medical students.

A. With such funds as are appropriated for this purpose, the Board of Health shall establish annual medical scholarships for students who intend to enter the designated specialties of family practice medicine, general internal medicine, pediatrics, and obstetrics/gynecology for students in good standing at the Medical College of Virginia of Virginia Commonwealth University, the University of Virginia School of Medicine, and the *Eastern Virginia Medical College of Hampton Roads School*. No recipient shall be awarded more than five scholarships. The amount and number of such scholarships and the apportionment of the scholarships among the medical schools shall be determined annually as provided in the appropriation act; however, the Board shall reallocate annually any remaining funds from awards made pursuant to this section and § [32.1-122.5:1](#) among the schools participating in these scholarship programs, proportionally to their need, for additional medical scholarships for eligible students. The Commissioner shall act as fiscal agent for the Board in administration of the scholarship funds.

The governing boards of Virginia Commonwealth University, the University of Virginia, and the *Eastern Virginia Medical College of Hampton Roads School* shall submit to the Commissioner the names of those eligible applicants who are most qualified as determined by the regulations of the Board for these medical scholarships. The Commissioner shall award the scholarships to the applicants whose names are submitted by the governing boards.

B. The Board, after consultation with the Medical College of Virginia of *Virginia Commonwealth University*, the University of Virginia School of Medicine, and the *Eastern Virginia Medical College of Hampton Roads School*, shall promulgate regulations to administer this scholarship program which shall include, but not be limited to:

1. Qualifications of applicants;
2. Criteria for award of the scholarships to assure that recipients will fulfill the practice obligations established in this section;
3. Standards to assure that these scholarships increase access to primary health care for individuals who are indigent or who are recipients of public assistance;
4. Assurances that bona fide residents of Virginia, as determined by § [23-7.4](#), students of economically disadvantaged backgrounds and residents of medically underserved areas are given preference over nonresidents in determining scholarship eligibility and awards;
5. Assurances that scholarship recipients will begin medical practice in one of the designated specialties in an underserved area of the Commonwealth within two years following completion of their residencies;
6. Methods for reimbursement of the Commonwealth by recipients who fail to complete medical school or who fail to honor the obligation to engage in medical practice for a period of years equal to the number of annual scholarships received;
7. Procedures for reimbursing any recipient who has repaid the Commonwealth for part or all of any scholarship and who later fulfills the terms of his contract;
8. Procedures for transferring unused funds upon the recommendation of the Commissioner and the approval of the Department of Planning and Budget in the event any of the medical schools has not recommended the award of its full complement of scholarships by January of each year and one or both of the other medical schools has a demonstrated need for additional scholarships for that year; and
9. Reporting of data related to the recipients of the scholarships by the medical schools.

C. Prior to the award of any scholarship, the applicant shall sign a contract in which he agrees to pursue the medical course of the school nominating him for the award until his graduation or to pursue his first year of postgraduate training at the hospital or institution

approved by the school nominating him for the award and upon completing a term not to exceed three years, or four years for the obstetric/gynecology specialty, as an intern or resident at an approved institution or facility intends to promptly begin and thereafter engage continuously in one of the designated specialties of medical practice in an underserved area in Virginia for a period of years equal to the number of annual scholarships received. The contract shall specify that no form of medical practice such as military service or public health service may be substituted for the obligation to practice in one of the designated specialties in an underserved area in the Commonwealth.

The contract shall provide that the applicant will not voluntarily obligate himself for more than the minimum period of military service required for physicians by the laws of the United States and that, upon completion of this minimum period of obligatory military service, the applicant will promptly begin to practice in an underserved area in one of the designated specialties for the requisite number of years. The contract shall include other provisions as considered necessary by the Attorney General and the Commissioner.

The contract may be terminated by the recipient while the recipient is enrolled in medical school upon providing notice and immediate repayment of the total amount of scholarship funds received plus interest at the prevailing bank rate for similar amounts of unsecured debt.

D. In the event the recipient fails to maintain a satisfactory scholastic standing, the recipient may, upon certification of the Commissioner, be relieved of the obligations under the contract to engage in medical practice in an underserved area upon repayment to the Commonwealth of the total amount of scholarship funds received plus interest at the prevailing bank rate for similar amounts of unsecured debt.

E. In the event the recipient dies or becomes permanently disabled so as not to be able to engage in the practice of medicine, the recipient or his estate may, upon certification of the Commissioner, be relieved of the obligation under the contract to engage in medical practice in an underserved area upon repayment to the Commonwealth of the total amount of scholarship funds plus interest on such amount computed at eight percent per annum from the date of receipt of scholarship funds. This obligation may be waived in whole or in part by the Commissioner in his discretion upon application by the recipient or his estate to the Commissioner with proof of hardship or inability to pay.

F. Except as provided in subsections D and E, any recipient of a scholarship who fails or refuses to fulfill his obligation to practice medicine in one of the designated specialties in an underserved area for a period of years equal to the number of annual scholarships received shall reimburse the Commonwealth three times the total amount of the scholarship funds received plus interest at the prevailing bank rate for similar amounts of

unsecured debt. If the recipient has fulfilled part of his contractual obligations by serving in an underserved area in one of the designated specialties, the total amount of the scholarship funds received shall be reduced by the amount of the annual scholarship multiplied by the number of years served.

G. The Commissioner shall collect all repayments required by this section and may establish a schedule of payments for reimbursement consistent with the regulations of the Board. No schedule of payments shall amortize the total amount due for a period of longer than two years following the completion of the recipient's postgraduate training or the recipient's entrance into the full-time practice of medicine, whichever is later. All such funds, including any interest thereon, shall be used only for the purposes of this section and shall not revert to the general fund. If any recipient fails to make any payment when and as due, the Commissioner shall notify the Attorney General. The Attorney General shall take such action as he deems proper. In the event court action is required to collect a delinquent scholarship account, the recipient shall be responsible for the court costs and reasonable attorneys' fees incurred by the Commonwealth in such collection.

H. For purposes of this section, the term "underserved area" shall include those medically underserved areas designated by the Board pursuant to § [32.1-122.5](#) and health professional shortage areas designated in accordance with the criteria established in 42 C.F.R. Part 5.

§ [32.1-279](#). Duties of Chief Medical Examiner; teaching legal medicine.

A. The Chief Medical Examiner shall carry out the provisions of this article under the direction of the Commissioner. The central and district offices and facilities established as provided in § [32.1-277](#) shall be under the supervision of the Chief Medical Examiner.

B. The Chief Medical Examiner and his assistants shall be available to Virginia Commonwealth University, the University of Virginia, the *Eastern Virginia Medical College of Hampton Roads School*, and other institutions of higher education providing instruction in health science or law for teaching legal medicine and other subjects related to their duties.

§ [54.1-2961](#). Interns and residents in hospitals.

A. Interns and residents holding temporary licenses may be employed in a legally established and licensed hospital, medical school or other organization operating an approved graduate medical education program when their practice is confined to persons who are bona fide patients within the hospital or other organization or who receive treatment and advice in an outpatient department of the hospital or an institution affiliated with the graduate medical education program.

B. Such intern or resident shall be responsible and accountable at all times to a licensed member of the staff. The training of interns and residents shall be consistent with the requirements of the agencies cited in subsection D and the policies and procedures of the hospital, medical school or other organization operating a graduate medical education program. No intern or resident holding a temporary license may be employed by any hospital or other organization operating an approved graduate medical education program unless he has completed successfully the preliminary academic education required for admission to examinations given by the Board in his particular field of practice.

C. No intern or resident holding a temporary license shall serve in any hospital or other organization operating an approved graduate medical education program in this Commonwealth for longer than the time prescribed by the graduate medical education program. The Board may prescribe regulations not in conflict with existing law and require such reports from hospitals or other organizations in the Commonwealth as may be necessary to carry out the provisions of this section.

D. Such employment shall be a part of an internship or residency training program approved by the Accreditation Council for Graduate Medical Education or American Osteopathic Association or American Podiatric Medical Association or Council on Chiropractic Education. No unlicensed intern or resident may be employed as an intern or resident by any hospital or other organization operating an approved graduate medical education program. The Board may determine the extent and scope of the duties and professional services which may be rendered by interns and residents.

E. The Board of Medicine shall adopt guidelines concerning the ethical practice of surgeons and surgery interns and residents in hospitals or other organizations operating graduate medical education programs. These guidelines shall not be construed to be or to establish standards of care or to be regulations and shall be exempt from the requirements of the Administrative Process Act (§ [2.2-4000](#) et seq.). The Medical College of Virginia of Virginia Commonwealth University, the University of Virginia School of Medicine, and the *Eastern Virginia Medical College of Hampton Roads School* shall cooperate with the Board in the development of these guidelines.

The guidelines shall include, but need not be limited to (i) the obtaining of informed consent from all patients, after such patients are informed as to which surgeons, residents, or interns will perform the surgery; (ii) except in emergencies and other unavoidable situations, the need, consistent with the informed consent, for a surgeon to be present during the procedure; and (iii) policies to avoid situations, unless the circumstances fall within an exception in the Board's guidelines or the policies of the relevant hospital, medical

school or other organization operating the graduate medical education program, in which a surgeon, intern or resident represents that he will perform a procedure which he then fails to perform.

F. The Board shall publish and distribute the guidelines required by subsection E to its licensees.

2. That an emergency exists and this act is in force from its passage.

§ 3.1-1106. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Active tobacco producer" means a person (i) actively engaged in planting, growing, harvesting, and marketing of flue-cured or burley tobacco, or who shares in the variable expenses of producing the crop, and is therefore entitled to share in the revenue derived from marketing the crop; and (ii) who produces such crop on a farm where tobacco was produced for the 1998 crop year, or any subsequent crop year upon which the Commission may determine to base indemnification payments, pursuant to a tobacco farm marketing quota or farm acreage allotment as established under the Agriculture Adjustment Act of 1938 (7 U.S.C. § 1281 et seq.).

*"Agreement" means the agreement or agreements between the Commonwealth, as seller of the Tobacco Assets, and the Corporation, as purchaser of the Tobacco Assets. The sale by the Commonwealth of the Tobacco Assets pursuant to any such agreement shall be a true sale and not a borrowing.*

"Commission" means the Tobacco Indemnification and Community Revitalization Commission created pursuant to § 3.1-1107.

*"Commission allocation" means fifty percent of the annual amount received under the Master Settlement Agreement by the Commonwealth, or that would have been received but for a sale of such allocation pursuant to an agreement, between the commencing and ending dates specified in the agreement.*

*"Corporation" means the Tobacco Settlement Financing Corporation as created under state law.*

*"Endowment" means the Tobacco Indemnification and Community Revitalization Endowment established pursuant to § 3.1-1109.1.*

"Fund" means the Tobacco Indemnification and Community Revitalization Fund established pursuant to § 3.1-1111.

"Master Settlement Agreement" means the settlement agreement and related documents between the Commonwealth and leading United States tobacco product manufacturers dated November 23, 1998, and including the Consent Decree and Final Judgment entered in the Circuit Court of the City of Richmond on February 23, 1999, Chancery Number HJ-2241-4.

*"Period of sale" means the time during which a purchaser under an agreement is entitled to receive the Commission allocation.*

"Quota holder" means an owner of a farm on July 1, 1998, or July 1 of any subsequent crop year upon which the Commission may determine to base indemnification payments, for which a tobacco farm marketing quota or farm acreage allotment was established under the Agriculture Adjustment Act of 1938 (7 U.S.C. § 1281 et seq.).

*"Tobacco assets" means all right, title, and interest in and to the portion of the Commission allocation that may be sold to the Corporation from time to time.*

*"Tobacco farmer" means a person who is an active tobacco producer, a quota holder, or both.*

*§ 3.1-1109.1. Tobacco Indemnification and Community Revitalization Endowment.*

*A. There is hereby established in the state treasury a special fund to be designated the "Tobacco Indemnification and Community Revitalization Endowment" (the "Endowment"). The Endowment shall receive any proceeds from any sale of all or any portion of the Commission allocation, and any gifts, grants and contributions that are specifically designated for inclusion in such Endowment. No part of the Endowment, neither corpus nor income, or interest thereon, shall revert to the general fund of the state treasury. The Endowment shall be under the management and control of the Treasury Board, and the Treasury Board shall have such powers and authority as may be necessary to exercise such management and control consistent with the provisions of this section. The income of the Endowment shall be paid out, not less than annually, to the Fund. In addition, up to ten percent of the corpus of the Endowment shall be paid to the Fund annually upon request of the Commission to the Treasury Board; provided, however, that upon two-thirds vote of the Commission, up to fifteen percent of the corpus of the Endowment shall be so paid. No use of proceeds shall be made that would cause bonds issued on a tax-exempt basis to be deemed taxable. For purposes of this section, "income" of the Endowment means at the time of determination the lesser of the available cash in, or the realized investment income for the applicable period of, the Endowment, and "corpus" of the Endowment means at the time of determination the sum of the proceeds from the sale of all or any portion of the Commission Allocation, any gifts, grants and contributions that have been credited to such Endowment, and any income not appropriated and withdrawn from the Endowment prior to June 30 of each year, less withdrawals from the corpus. Determinations by the Treasury Board, or the State Treasurer on behalf of the Treasury Board, as to the amount of income or the amount of the corpus shall be conclusive.*

*B. The Treasury Board shall serve as trustee of the Endowment and the corpus and income of the Endowment shall be withdrawn and credited to the Fund by order of the Treasury Board as provided in subsection A. The State Treasurer shall be custodian of the funds credited to the Endowment. The Treasury Board shall have full power to invest and reinvest funds credited to the Endowment in accordance with the provisions of the Uniform Management of Institutional Funds Act (§ [55-268.1](#) et seq.) and, in addition, as otherwise provided by law. The Treasury Board may borrow money in such amounts as*

*may be necessary whenever in its judgment it would be more advantageous to borrow money than to sell securities held for the Fund. Any debt so incurred may be evidenced by notes duly authorized by resolution of the Treasury Board, such notes to be retired no later than the end of the biennium in which such debt is incurred. The Treasury Board may commingle, for purposes of investment, the corpus of the Endowment provided that it shall appropriately account for the investments credited to the Endowment. The Treasury Board may hire independent investment advisors and managers as it deems appropriate to assist with investing the Endowment. The expenses of making and disposing of investments, such as brokerage commissions, legal expenses related to a particular transaction, investment advisory and management fees and expenses, transfer taxes and other customary transactional expenses shall be payable out of the income of the Endowment.*

*Not less than annually and more frequently if so desired by the Commission or requested by the Treasury Board, the Commission shall provide to the Treasury Board schedules of anticipated disbursements from the Fund for the current and succeeding fiscal year, and the Treasury Board shall, to the extent practicable, take into account such schedules and changes thereto in scheduling maturities and redemptions of its investments of the Endowment.*

§ 3.1-1110. Appointment of director; Commission employees; counsel to the Commission.

A. The Governor shall appoint an executive director subject to confirmation by the General Assembly. The compensation shall be determined by the Commission, subject to approval by the Governor. The executive director shall serve as the secretary to the Commission and shall administer the affairs and business of the Commission in accordance with the provisions of this chapter and subject to the policies, control and direction of the Commission. The Commission may employ technical experts and other officers, agents and employees, permanent and temporary, as it requires, and shall determine their qualifications, duties and compensation. The Commission may delegate to one or more of its agents or employees the administrative duties it deems proper. The actual expenses incurred in the performance of such duties shall be paid from the Fund.

*B. Employees of the Commission shall be treated as state employees for purposes of participation in the Virginia Retirement System, health insurance, and all other employee benefits offered by the Commonwealth to its classified employees. Employees of the Commission shall not be subject to the provisions of Chapter 29 (§ [2.2-2900](#) et seq.) of Title 2.2.*

BC. The Office of the Attorney General shall provide counsel to the Commission.

§ 3.1-1111. Tobacco Indemnification and Community Revitalization Fund; tax credits for technology industries in tobacco-dependent localities.

A. Money received by the Commonwealth pursuant to the Master Settlement Agreement shall be deposited into the state treasury subject to the special nonreverting funds established by subsection B of this section and by §§ 3.1-1109.1 and [32.1-360](#) and shall be included in general fund revenue calculations for purposes of subsection C of § [58.1-3524](#) and subsection B of § [58.1-3536](#). *However, in no case shall the amount received by the Endowment and Fund be included in general fund revenue calculations for purposes of subsection C of § [58.1-3524](#) and subsection B of § [58.1-3536](#).*

B. There is created in the state treasury a special nonreverting fund to be known as the Tobacco Indemnification and Community Revitalization Fund. The Fund shall be established on the books of the Comptroller. *Subject to the sale of all or any portion of the Commission Allocation, fifty percent of the annual amount received by the Commonwealth from the Master Settlement Agreement shall be paid into the state treasury and credited to the Fund. In the event of such sale (i) the Commission Allocation shall be paid in accordance with the agreement for the period of sale and (ii) the Fund shall receive the amounts withdrawn from the Endowment in accordance with § 3.1-1109.1.* Fifty percent of the annual amount received by the Commonwealth from the Master Settlement Agreement shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for the purposes described in this chapter; however, starting with the fiscal year beginning July 1, 2000, through December 31, 2009, the Commission may deposit moneys from the Fund into the Technology Initiative in Tobacco-Dependent Localities Fund, established under § [58.1-439.15](#), for purposes of funding the tax credits provided in §§ [58.1-439.13](#) and [58.1-439.14](#) and the grants provided in § [58.1-439.17](#). Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written authorization signed by the chairman of the Commission or his designee. The Fund shall also consist of other moneys received by the Commission, from any source, for the purpose of implementing the provisions of this chapter.

C. The obligations of the Commission shall not be a debt or grant or loan of credit of the Commonwealth of Virginia, and the Commonwealth shall not be liable thereon, nor shall such obligations be payable out of any funds other than those credited to the Fund.

2. That certain revenues derived from the Master Settlement Agreement, as defined in § 3.1-1106, shall be subject to the following provisions:

*§ 1. Short title.*

*This act may be referred to as the "Tobacco Settlement Financing Corporation Act."*

*§ 2. Findings.*

*A. The major United States tobacco manufacturers and forty-six states (including the Commonwealth of Virginia), the District of Columbia, the Commonwealth of Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa and the Territory of the Northern Marianas have signed a Master Settlement Agreement that should result in the Commonwealth receiving substantial sums of money in perpetuity. Virginia has reached State-Specific Finality, the Master Settlement Agreement has become effective in accordance with its terms, and Virginia has begun receiving its allocation of the tobacco settlement payments made under the Master Settlement Agreement.*

*B. Tobacco is Virginia's number one cash crop. Although tobacco production occurs in many states, the majority of production occurs within six states, including Virginia, of the southeastern United States. Virginia is home to tobacco growers, processors, warehouses and manufacturers. The relative prosperity of the tobacco industry directly influences the relative prosperity of the Commonwealth. Virginia derives income, sales and excise taxes directly and indirectly from the tobacco industry. Virginia derives a higher percentage of its general fund revenue directly and indirectly from the tobacco industry than do most other states.*

*C. The General Assembly has studied the techniques used recently by other jurisdictions to address their most critical needs and, in particular, the techniques used to convert future tobacco settlement payments received under the Master Settlement Agreement into current assets and thereby reduce such jurisdictions' exposure to the payment risks associated with the Master Settlement Agreement, and the credit risks associated with the tobacco industry, and finds that many jurisdictions have sold their allocations of payments under the Master Settlement Agreement and applied the sale proceeds toward such needs.*

*D. The Governor is authorized to sell all or part of the Commission Allocation to the Corporation created hereby, such sale to transfer to the Corporation that portion of the Tobacco Assets as provided in this act.*

*E. The General Assembly finds and determines that the optimum method for Virginia to convert its future tobacco settlement payments, under the Master Settlement Agreement, to current assets is one that does not require any increase in general taxes, that is not funded from taxes or other traditional general fund sources, that does not divert*

*resources from other needs of the Commonwealth and that is nonrecourse to, and requires no credit support by, the Commonwealth.*

*F. The General Assembly finds and determines that its creation of a special purpose corporation with power to issue obligations and use the proceeds to purchase the Tobacco Assets from the Commonwealth is compatible with the preceding subsections.*

*§ 3. Definitions. As used in this act:*

*"Agreement" means the agreement or agreements referred to in this act between the Commonwealth, as seller of the Tobacco Assets, and the Corporation, as purchaser of the Tobacco Assets. The sale by the Commonwealth of the Tobacco Assets pursuant to any such agreement shall be a true sale and not a borrowing.*

*"Ancillary contracts" means contracts described in subsection A of § 15 hereof.*

*"Board" means the Board of the Corporation.*

*"Bonds" means Tobacco Bonds and refunding bonds, notes and other evidences of indebtedness, issued by the Corporation pursuant to this act.*

*"Closing Date" means the date of delivery of the first issue of Tobacco Bonds.*

*"Commission Allocation" means fifty percent of the annual amount received under the Master Settlement Agreement by the Commonwealth, or that would have been received but for a sale of such allocation pursuant to an agreement, between the commencing and ending dates specified in the agreement.*

*"Corporation" means the Tobacco Settlement Financing Corporation created pursuant to this act.*

*"Financing costs" means all capitalized interest, costs, fees, reserves and credit and liquidity enhancements as the Corporation determines to be desirable in issuing, securing and marketing the bonds.*

*"Holders" and similar terms refer to the owners of the bonds. References to covenants and contracts with such holders, and to their rights and remedies shall, if so provided by the Corporation, extend to the parties to swaps and ancillary contracts.*

*"Income" means the portion of the Commission Allocation received by the Corporation and all aid, rents, fees, charges, payments and other income and receipts paid or payable to the Corporation or a trustee for the account of the Corporation or the holders.*

*"Indenture trustee" means the trust company or bank serving at the time as trustee under the trust indenture referred to in § 14 hereof.*

*"Master Settlement Agreement" or "MSA" means the settlement agreement and related documents between the Commonwealth and leading United States tobacco product manufacturers dated November 23, 1998, and including the Consent Decree and Final*

*Judgment entered in the Circuit Court of the City of Richmond on February 23, 1999, Chancery Number HJ-2241-4.*

*"Outstanding," when used with respect to bonds, shall exclude bonds that shall have been paid in full at maturity, or shall have otherwise been refunded, redeemed, defeased or discharged, or that may be deemed not outstanding pursuant to agreements with the holders thereof.*

*"Residual Trust" means the trust to be established by the Corporation, which is entitled to receive the income and bond proceeds of the Corporation that are in excess of the Corporation's expenses, debt service and contractual obligations to the holders and the Commonwealth of Virginia.*

*"Swap contracts" or "swaps" means contracts described in subsection B of § 15 hereof.*

*"Tobacco Assets" means all right, title, and interest in and to the portion of the Commission Allocation that may be sold to the Corporation from time to time.*

*"Tobacco Bonds" means the bonds, notes and other obligations issued by the Corporation, exclusive of bonds that the Corporation may issue to refund bonds, the net proceeds (after financing costs) of the first issue of which shall be used by the Corporation to pay the cash portion of the purchase price to the Commonwealth for the Tobacco Assets.*

*§ 4. Corporation created; public body corporate.*

*The Tobacco Settlement Financing Corporation is created as a public body corporate and an independent instrumentality of the Commonwealth.*

*§ 5. Board; membership; terms; compensation and expenses; chairman and vice-chairman; quorum; employees; agents, etc.*

*The Board of the Corporation shall exercise all powers, rights and duties conferred by this act or other provisions of law upon the Corporation. The Board shall consist of the State Treasurer and five additional members from the public at large to be appointed by the Governor, subject to confirmation by the General Assembly. The members appointed by the Governor shall have a background and significant experience in financial management and investments. The members of the Board appointed by the Governor shall serve for terms of four years each, or until their successors shall have been appointed and qualified, except that the initial terms of three of the members shall expire on June 30, 2003, 2004, and 2005, respectively, as designated by the Governor. Any appointment to fill a vacancy on the Board shall be made for the unexpired term of the member whose death, resignation, or removal created such vacancy. Members with less than six years of service on the Board may be appointed to an additional term. Members shall be reimbursed for travel and other actual expenses incurred in performing their official*

*duties as members. Members of the Board appointed by the Governor shall be compensated at the rate provided in § [2.2-2813](#) of the Code of Virginia for each day or portion thereof in which the member is engaged in the business of the Corporation. The Governor shall designate one member of the Board as chairman. The State Treasurer shall be ineligible to serve as chairman. The chairman shall sign and execute all vouchers for the disbursement of funds belonging to the Corporation upon authorization by the Board. Four members of the Board shall constitute a quorum for the transaction of all business of the Corporation. The Board shall elect one of its members as vice-chairman, who shall exercise the powers of the chairman when so directed by the chairman, or when the chairman is absent. The State Treasurer shall be the secretary-treasurer. The Board may delegate its powers to its chairman, the secretary-treasurer, officers of the Corporation or committees of the Board, with such standards for the exercise of delegated powers as the Board may specify, and may, to the extent not inconsistent with the rights of the holders, revoke any such delegation.*

*§ 6. Powers of Corporation enumerated.*

*A. To enable the Corporation to carry out the financing, purchasing, owning and managing of the Tobacco Assets and activities incidental thereto, the Corporation is vested (subject to § 8 and the other provisions hereof) with all the powers of a private corporation including, without limitation, the power to sue and be sued, to make contracts, to adopt and use a common seal and to alter the same and is further particularly authorized and empowered to:*

- 1. Purchase the Tobacco Assets and receive, or to authorize the indenture trustee to receive, as the same shall be paid, the portion of the Commission Allocation sold to the Corporation;*
- 2. Adopt or alter or repeal any bylaws, rules or regulations as the Board may deem necessary or expedient;*
- 3. Issue bonds as authorized by this act and refund any of such bonds;*
- 4. Commence any action to protect or enforce any right conferred upon it by any law, contract or other agreement;*
- 5. Pay its operating expenses;*
- 6. Establish the Residual Trust; and*
- 7. Do any and all other acts and things necessary, convenient, appropriate or incidental in carrying out the provisions of this act.*

The Auditor of Public Accounts is hereby authorized and empowered from time to time to examine the accounts and books of the Corporation; however, the Corporation shall not be deemed to be a state or governmental agency, advisory agency, public body or agency or instrumentality for purposes of Chapter 14 (§ [30-130](#) et seq.) of Title 30.*

*D. The Corporation may employ or retain such agents, financial advisers, accountants and consultants as it may deem necessary, and the provisions of any other law to the contrary notwithstanding, may determine their duties and compensation without the approval of any other agency or instrumentality of the Commonwealth.*

*E. The exercise of the powers granted by this act shall be in all respects for the benefit of the citizens of the Commonwealth and for the promotion of their welfare, convenience and prosperity. *F. The Corporation shall have perpetual existence. The Board of the Corporation may, however, bring to a conclusion the affairs of the Corporation and terminate the existence of the Corporation at any time by making provisions for the discharge of all of its*

*liabilities. All of the assets and property of the Corporation shall pass to and be vested in the Commonwealth upon the termination or dissolution of the Corporation.*

The Governor is authorized to enter into one or more agreements, with such terms and covenants as he deems appropriate, and to execute and deliver an agreement on the Closing Date and the effective date of any subsequent sale. Each agreement shall provide that the purchase price payable by the Corporation to the Commonwealth for the Tobacco Assets sold shall consist of such cash and noncash consideration as provided in the agreement. Any sale of Tobacco Assets shall be treated as a true sale and absolute transfer of the property so transferred and not as a pledge or other security interest for any borrowing. The characterization of such a sale as an absolute transfer by the participants shall not be negated or adversely affected if less than all of the Commission Allocation is transferred, nor by the Commonwealth's acquisition of a direct or indirect subordinate interest in the Tobacco Assets, nor by any characterization of the Corporation or its bonds for purposes of accounting, taxation or securities regulation, nor by any other factor whatsoever.*

*§ 12. Ownership of Tobacco Assets.*

*On and after the effective date of each sale of Tobacco Assets, the Commonwealth shall have no right, title or interest in or to the Tobacco Assets sold; and such Tobacco Assets shall be property of the Corporation and not of the Commonwealth, and shall be owned, received, held and disbursed by the Corporation or the indenture trustee and not the*

On or before the Closing Date and the effective date of any subsequent sale, the Commonwealth, through the Attorney General, shall notify the escrow agent under the MSA that the Tobacco Assets have been sold to the Corporation and irrevocably instruct such escrow agent that, subsequent to the Closing Date or other effective date, the Commission Allocation related thereto is to be paid directly to the indenture trustee for the account of the Corporation.*

*§ 13. Issuance of bonds of Corporation.*

*The Board is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of bonds of the Corporation in such amount or amounts as the Board shall determine. Such bonds shall be payable solely from funds of the Corporation, including, without limitation, all or any combination of the following sources: (i) the Commission Allocation received by the Corporation, (ii) the proceeds of the sale of any such bonds, (iii) earnings on funds of the Corporation or the indenture trustee, and (iv) such other funds as may become available, as shall be provided by the resolution of the Board authorizing any such bonds. Bonds issued under the provisions of this act shall not be deemed to constitute a debt of the Commonwealth or a pledge of the faith or credit of the Commonwealth, and all bonds shall contain on the face thereof a statement to the effect that neither the faith and credit nor the taxing power nor any other assets or revenues of the Commonwealth or of any political subdivision thereof is or shall be pledged to the payment of the principal of or the interest on such bonds. The bonds of each issue shall be dated, shall bear interest (which may be includable or excludable in the gross income of the holders for federal income tax purposes) at such fixed or variable rates, payable at or prior to maturity, and shall mature at such time or times, as may be determined by the Board and may be made redeemable before maturity, at the option of the Corporation, at such price or prices and under such terms and conditions as may be fixed by the Board. The principal and interest of such bonds may be made payable in any lawful medium. The Board shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or without the Commonwealth. If any officer whose signature or a facsimile thereof appears on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes, the same as if he had remained in office until such delivery. The bonds may be issued in coupon or in registered form or both, as the Board may determine, and provisions may be made for the registration of any coupon bonds as to principal alone and*

*as to both principal and interest and for the reconversion of any bonds registered as to both principal and interest into coupon bonds. The Board may sell such bonds in such manner, either at public or at private sale, and for such price as it may determine to be for the best interests of the Corporation. The proceeds of such bonds shall be disbursed for the purposes for which such bonds were issued under such restrictions, if any, as the laws of the Commonwealth and the resolution authorizing the issuance of such bonds or the trust indenture provided for in § 14 hereof may provide. The Corporation may also provide for temporary bonds and for the replacement of any bond that shall become mutilated or shall be destroyed or lost. Such bonds may be issued without any other proceedings or the happening of any other conditions or things than the proceedings, conditions, and things that are specified and required by this act. Neither the members of the Board nor any other person executing the bonds shall be subject to any personal liability or accountability by reason of the issuance thereof.*

*§ 14. Security for payment of bonds; provisions of trust indenture or resolution.*

*A. In the discretion of the Board, any bonds issued and any swaps or ancillary contracts made under the provisions of this act may be secured by a trust indenture by and between the Corporation and the indenture trustee, which may be any trust company or bank having the powers of a trust company, whether located within or outside the Commonwealth. Such trust indenture or the resolution providing for the issuance of such bonds may:*

- 1. Pledge or assign all or any part of the income or other assets of the Corporation available for such purpose;*
- 2. Provide for the creation and maintenance of such reserves as the Board shall determine to be proper;*
- 3. Include covenants setting forth the duties of the Corporation in relation to the bonds, the income of the Corporation, the related agreement and the Tobacco Assets;*
- 4. Contain provisions respecting the custody, safeguarding and application of all moneys and securities and such provisions for protecting and enforcing the rights and remedies (pursuant thereto and to the related agreement) of the holders and other beneficiaries as may be reasonable and proper and not in violation of law; and*
- 5. Contain such other provisions as the Corporation may deem reasonable and proper for priorities and subordination among the holders and other beneficiaries. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth that may act as depository of the proceeds of bonds, or of any other funds or obligations received on behalf of the Corporation, to furnish such indemnifying bonds or to pledge*

*such securities as may be required by the Corporation. Any reference in this act to a resolution of the Board shall include any trust indenture authorized thereby.*

*B. Any pledge made by the Corporation shall be valid and binding from the time when the pledge is made. The income or other assets so pledged and then or thereafter received by the Corporation shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Corporation, irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded or filed to perfect such pledge.*

*C. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the Uniform Commercial Code, the bonds are hereby made negotiable instruments for all purposes, subject only to the provisions of the bonds for registration.*

*§ 15. Swaps and ancillary contracts.*

*A. The Corporation may enter into, amend or terminate, as it determines to be necessary or appropriate, any ancillary contracts (i) to facilitate the issuance, sale, resale, purchase, repurchase or payment of bonds or the making or performance of swap contracts, including without limitation bond insurance, letters of credit and liquidity facilities, or (ii) to attempt to hedge risk or achieve a desirable effective interest rate or cash flow. The determination of the Board that an ancillary contract or the amendment or termination thereof is necessary or appropriate as aforesaid shall be conclusive. Such contracts shall be made upon the terms and conditions established by the Board, including without limitation provisions as to security, default, termination, payment, remedy and consent to service of process.*

*B. The Corporation may enter into, amend or terminate, any swap contract that it determines to be necessary or appropriate to place the obligations or investments of the Corporation, as represented by the bonds or the investment of their proceeds, in whole or in part, on the interest rate, cash flow or other basis desired by the Board, which contract may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Corporation in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or (ii) investment, or contract providing for investment, otherwise authorized by law. The determination by the Board that a swap contract or the amendment or termination thereof is necessary or appropriate as aforesaid shall be conclusive. These*

*contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Board, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate.*

*§ 16. No invalidity.*

*Any failure of the Corporation to comply with this act shall not invalidate or impair any bond or swap or ancillary contract. Bonds may contain a recital that they are issued pursuant to this act, which recital shall be conclusive evidence of their validity, the validity of the related agreements, and the regularity of the proceedings relating thereto.*

*§ 17. Bonds exempt from taxation.*

*The bonds, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any municipality, county, or any other political subdivision thereof.*

*§ 18. Distributions subject to appropriation.*

*Amounts received by the Commonwealth as a result of its sale of all or any portion of the Commission Allocation shall be subject to appropriation in accordance with the provisions of Article X, Section 7 of the Constitution of Virginia.*

*§ 19. Pledge and agreement.*

*The Commonwealth pledges and agrees with the Corporation, and the holders of the bonds in which the Corporation has included such pledge and agreement, that the Commonwealth will (i) irrevocably direct the escrow agent under the MSA to transfer all of the Commission Allocation related to the Tobacco Assets sold, directly to the Corporation or its assignee, (ii) enforce the Commonwealth's rights to receive the Commission Allocation to the full extent permitted by the terms of the MSA, (iii) not amend the MSA in any manner that would materially impair the rights of the holders, (iv) not limit or alter the rights of the Corporation to fulfill the terms of its agreements with such holders, and (v) not in any way impair the rights and remedies of such holders or the security for such bonds until such bonds, together with the interest thereon and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully paid and discharged.*

*§ 20. Construction and Effect.*

*This act and all powers granted hereby shall be liberally construed to effectuate its and their purposes, without implied limitations thereon. This act shall constitute full and complete authority for all things herein contemplated to be done. All rights and powers herein granted shall be cumulative with those derived from other sources and shall not, except as expressly stated herein, be construed in limitation thereof. Insofar as the provisions of*

*this act are inconsistent with the provisions of any other act, general or special, the provisions of this act shall be controlling. If any clause, sentence, paragraph, section or part of this act be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered.*

§ 21. Appropriation.

*There is hereby appropriated to the Tobacco Indemnification and Community Revitalization Endowment all of the proceeds of any sale of the Commission Allocation pursuant to this act between the effective date of this act and June 30, 2004.*

The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

**§ 10. Exemption of interest from tax.**

*The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free*

The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

**§ 11. Refunding bonds and BANs.**

*The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c) of the Constitution of Virginia. CHILDREN	1%	2%	3%	4%
				5%
	6%			

C. For purposes of this section, "gross income" means all income from all sources, and shall include, but not be limited to, income from salaries, wages, commissions, royalties, bonuses, dividends, severance pay, pensions, interest, trust income, annuities, capital gains, social security benefits except as listed below, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits, veterans' benefits, spousal support, rental income, gifts, prizes or awards.

If a parent's gross income includes disability insurance benefits, it shall also include any amounts paid to or for the child who is the subject of the order and derived by the child from the parent's entitlement to disability insurance benefits. To the extent that such derivative benefits are included in a parent's gross income, that parent shall be entitled to a credit against his or her ongoing basic child support obligation for any such amounts,

and, if the amount of the credit exceeds the parent's basic child support obligations, the credit may be used to reduce arrearages.

Gross income shall be subject to deduction of reasonable business expenses for persons with income from self-employment, a partnership, or a closely held business.

"Gross income" shall not include benefits from public assistance and social services programs as defined in § [63.2-100](#), federal supplemental security income benefits, or child support received. For purposes of this subsection: (i) spousal support received shall be included in gross income and spousal support paid shall be deducted from gross income when paid pursuant to an order or written agreement and (ii) one-half of any self-employment tax paid shall be deducted from gross income.

Where there is an existing court or administrative order or written agreement relating to the child or children of a party to the proceeding, who are not the child or children who are the subject of the present proceeding, then there is a presumption that there shall be deducted from the gross income of the party subject to such order or written agreement, the amount that the party is actually paying for the support of a child or children pursuant to such order or agreement.

Where a party to the proceeding has a natural or adopted child or children in the party's household or primary physical custody, and the child or children are not the subject of the present proceeding, there is a presumption that there shall be deducted from the gross income of that party the amount as shown on the Schedule of Monthly Basic Child Support Obligations contained in subsection B that represents that party's support obligation based solely on that party's income as being the total income available for the natural or adopted child or children in the party's household or primary physical custody, who are not the subject of the present proceeding. Provided, however, that the existence of a party's financial responsibility for such a child or children shall not of itself constitute a material change in circumstances for modifying a previous order of child support in any modification proceeding. Any adjustment to gross income under this subsection shall not create or reduce a support obligation to an amount which seriously impairs the custodial parent's ability to maintain minimal adequate housing and provide other basic necessities for the child, as determined by the court.

In cases in which retroactive liability for support is being determined, the court or administrative agency may use the gross monthly income of the parties averaged over the period of retroactivity.

D. Any extraordinary medical and dental expenses for treatment of the child or children shall be added to the basic child support obligation. For purposes of this section, extraordinary medical and dental expenses are uninsured expenses in excess of \$100

for a single illness or condition and shall include but not be limited to eyeglasses, prescription medication, prostheses, and mental health services whether provided by a social worker, psychologist, psychiatrist, or counselor.

E. Any costs for health care coverage as defined in § [63.2-1900](#) and dental care coverage, when actually being paid by a parent, to the extent such costs are directly allocable to the child or children, and which are the extra costs of covering the child or children beyond whatever coverage the parent providing the coverage would otherwise have, shall be added to the basic child support obligation.

F. Any child-care costs incurred on behalf of the child or children due to employment of the custodial parent shall be added to the basic child support obligation. Child-care costs shall not exceed the amount required to provide quality care from a licensed source. When requested by the noncustodial parent, the court may require the custodial parent to present documentation to verify the costs incurred for child care under this subsection. Where appropriate, the court shall consider the willingness and availability of the noncustodial parent to provide child care personally in determining whether child-care costs are necessary or excessive.

G. 1. Sole custody support. The sole custody total monthly child support obligation shall be established by adding (i) the monthly basic child support obligation, as determined from the schedule contained in subsection B, (ii) all extraordinary medical expenses, (iii) costs for health care coverage to the extent allowable by subsection E, and (iv) work-related child-care costs and taking into consideration all the factors set forth in subsection B of § [20-108.1](#). The total monthly child support obligation shall be divided between the parents in the same proportion as their monthly gross incomes bear to their monthly combined gross income. The monthly obligation of each parent shall be computed by multiplying each parent's percentage of the parents' monthly combined gross income by the total monthly child support obligation.

However, the monthly obligation of the noncustodial parent shall be reduced by the cost for health care coverage to the extent allowable by subsection E when paid directly by the noncustodial parent.

2. Split custody support. In cases involving split custody, the amount of child support to be paid shall be the difference between the amounts owed by each parent as a noncustodial parent, computed in accordance with subdivision 1, with the noncustodial parent owing the larger amount paying the difference to the other parent.

For the purpose of this section and § [20-108.1](#), split custody shall be limited to those situations where each parent has physical custody of a child or children born of the parents, born of either parent and adopted by the other parent or adopted by both parents. For the

purposes of calculating a child support obligation where split custody exists, a separate family unit exists for each parent, and child support for that family unit shall be calculated upon the number of children in that family unit who are born of the parents, born of either parent and adopted by the other parent or adopted by both parents. Where split custody exists, a parent is a custodial parent to the children in that parent's family unit and is a noncustodial parent to the children in the other parent's family unit.

### 3. Shared custody support.

(a) Where a party has custody or visitation of a child or children for more than ~~ninety~~90 days of the year, as such days are defined in subdivision G 3 (c), a shared custody child support amount based on the ratio in which the parents share the custody and visitation of any child or children shall be calculated in accordance with this subdivision. The presumptive support to be paid shall be the shared custody support amount, unless a party affirmatively shows that the sole custody support amount calculated as provided in subdivision G 1 is less than the shared custody support amount. If so, the lesser amount shall be the support to be paid. For the purposes of this subsection, the following shall apply:

(i) Income share. "Income share" means a parent's percentage of the combined monthly gross income of both parents. The income share of a parent is that parent's gross income divided by the combined gross incomes of the parties.

(ii) Custody share. "Custody share" means the number of days that a parent has physical custody, whether by sole custody, joint legal or joint residential custody, or visitation, of a shared child per year divided by the number of days in the year. The actual or anticipated "custody share" of the parent who has or will have fewer days of physical custody shall be calculated for a one-year period. The "custody share" of the other parent shall be presumed to be the number of days in the year less the number of days calculated as the first parent's "custody share." For purposes of this calculation, the year may begin on such date as is determined in the discretion of the court, and the day may begin at such time as is determined in the discretion of the court. For purposes of this calculation, a day shall be as defined in subdivision G 3 (c).

(iii) Shared support need. "Shared support need" means the presumptive guideline amount of needed support for the shared child or children calculated pursuant to subsection B of this section, for the combined gross income of the parties and the number of shared children, multiplied by 1.4.

(iv) Sole custody support. "Sole custody support" means the support amount determined in accordance with subdivision G 1.

(b) Support to be paid. The shared support need of the shared child or children shall be calculated pursuant to subdivision G 3 (a) (iii). This amount shall then be multiplied by the other parent's custody share. To that sum for each parent shall be added the other parent's cost of health care coverage to the extent allowable by subsection E, plus the other parent's work-related child-care costs to the extent allowable by subsection F. This total for each parent shall be multiplied by that parent's income share. The support amounts thereby calculated that each parent owes the other shall be subtracted one from the other and the difference shall be the shared custody support one parent owes to the other, with the payor parent being the one whose shared support is the larger. Any extraordinary medical and dental expenses, to the extent allowable by subsection D, shall be shared directly by the parents in accordance with their income shares, and shall not be adjusted by the custody share. The parents shall pay their respective shares of these extraordinary medical expenses as they are incurred, and they are not added to each party's shared custody support owed to the other party. The method of payment of said allowable expenses shall be contained in the support order. When the shared support is compared to the sole custody support to determine which is the lesser support, pursuant to subdivision G 3 (a), the extraordinary medical expenses shall not enter into either calculation.

(c) Definition of a day. For the purposes of this section, "day" means a period of ~~twenty-four~~24 hours; however, where the parent who has the fewer number of overnight periods during the year has an overnight period with a child, but has physical custody of the shared child for less than ~~twenty-four~~24 hours during such overnight period, there is a presumption that each parent shall be allocated one-half of a day of custody for that period.

(d) Minimum standards. Any calculation under this subdivision shall not create or reduce a support obligation to an amount which seriously impairs the custodial parent's ability to maintain minimal adequate housing and provide other basic necessities for the child. If the gross income of either party is equal to or less than 150 percent of the federal poverty level promulgated by the U.S. Department of Health and Human Services from time to time, then the shared custody support calculated pursuant to this subsection shall not be the presumptively correct support and the court may consider whether the sole custody support or the shared custody support is more just and appropriate.

(e) Support modification. When there has been an award of child support based on the shared custody formula and one parent consistently fails to exercise custody or visitation in accordance with the parent's custody share upon which the award was based, there shall be a rebuttable presumption that the support award should be modified.

(f) In the event that the shared custody support calculation indicates that the net support is to be paid to the parent who would not be the parent receiving support pursuant to the sole custody calculation, then the shared support shall be deemed to be the lesser support.

H. Thereafter, nonlegislative citizen members shall be appointed for four-year terms. ~~E. a term of four years. Appointments to fill vacancies shall be for the unexpired terms. A vacancy of a legislatively appointed member shall be filled by either the Speaker of the House of Delegates or the Senate Committee on Privileges and Elections, and any such appointee shall enter upon and continue in office.~~ All members may be reappointed, except that any member appointed initially to a four-year term shall not be eligible for reappointment for two years after the expiration of his term. However, no nonlegislative citizen member shall serve more than two consecutive four-year terms. The remainder of any term to which a member is appointed to fill a vacancy shall not constitute a term in determining the member's eligibility for reappointment. Appointments to fill vacancies, other than by expiration of a term, shall be made for the unexpired terms.*

*Vacancies shall be filled in the same manner as the original appointments. All appointments and reappointments shall be subject to confirmation at the next session of the General Assembly. If the General Assembly fails to confirm his appointment, such person shall not be eligible for reappointment. Members shall continue to serve until such time as their successors have been appointed and duly qualified to serve.*

~~F. A member who has been appointed to a four-year term shall not be eligible for reappointment during the two-year period beginning on the date on which such four-year term expired. However, upon the expiration of an appointment to an unexpired term, or an appointment described in subdivision D 1, D 2, or D 3, a member may be reappointed to a four-year term.~~

~~G. D. The Board shall elect a chairman and a vice chairman from *among* its members and appoint a secretary who may or may not be a member of the Board. A majority of the members of the Board shall constitute a quorum. The chairman shall preside over meetings of the Board and perform additional duties as may be set by resolution of the Board.~~

*E. Members shall serve without compensation for their services; however, all members shall be reimbursed for their all reasonable and necessary and actual expenses incurred in the performance of their official duties as provided in §§ [2.2-2813](#) and [2.2-2825](#). Funding for the costs of expenses of the members shall be provided by the Virginia Office for Protection and Advocacy.*

~~I. F. Members of the Board shall be subject to removal from office only as set forth in Article 7 (§ [24.2-230](#) et seq.) of Chapter 2 of Title 24.2. The Circuit Court of the City of Richmond shall have exclusive jurisdiction over all proceedings for such removal.~~

*G. The chairman of the Board shall submit to the Governor and the General Assembly an annual executive summary of the interim activity and work of the Board no later than the first day of each regular session of the General Assembly. The executive summary shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted to the General Assembly's website.*

§ [56-579](#). Regional transmission entities.

A. As set forth in § [56-577](#), on or before January 1, 2001, each incumbent electric utility owning, operating, controlling, or having an entitlement to transmission capacity shall

join or establish a regional transmission entity (RTE) to which such utility shall transfer the management and control of its transmission assets, subject to the following:

1. No such incumbent electric utility shall transfer to any person any ownership or control of, or any responsibility to operate, any portion of any transmission system located in the Commonwealth without obtaining the prior approval of the Commission, as hereinafter provided.

2. The Commission shall develop rules and regulations under which any such incumbent electric utility owning, operating, controlling, or having an entitlement to transmission capacity within the Commonwealth, may transfer all or part of such control, ownership or responsibility to an RTE, upon such terms and conditions that the Commission determines will:

a. Promote:

(1) Practices for the reliable planning, operating, maintaining, and upgrading of the transmission systems and any necessary additions thereto; and

(2) Policies for the pricing and access for service over such systems, which are safe, reliable, efficient, not unduly discriminatory and consistent with the orderly development of competition in the Commonwealth;

b. Be consistent with lawful requirements of the Federal Energy Regulatory Commission;

c. Be effectuated on terms that fairly compensate the transferor;

d. Generally promote the public interest, and are consistent with (i) ensuring the successful development of interstate regional transmission entities and (ii) meeting the transmission needs of electric generation suppliers both within and without this Commonwealth.

B. The Commission shall also adopt rules and regulations, with appropriate public input, establishing elements of regional transmission entity structures essential to the public interest, which elements shall be applied by the Commission in determining whether to authorize transfer of ownership or control from an incumbent electric utility to a regional transmission entity.

C. The Commission shall, to the fullest extent permitted under federal law, participate in any and all proceedings concerning regional transmission entities furnishing transmission services within the Commonwealth, before the Federal Energy Regulatory Commission. Such participation may include such intervention as is permitted state utility regulators under FERC rules and procedures.

D. Nothing in this section shall be deemed to abrogate or modify:

1. The Commission's authority over transmission line or facility construction, enlargement or acquisition within this Commonwealth, as set forth in Chapter 10.1 (§ [56-265.1](#) et seq.) of this title;

2. The laws of this Commonwealth concerning the exercise of the right of eminent domain by a public service corporation pursuant to the provisions of Article 5 (§ [56-257](#) et seq.) of Chapter 10 of this title; however, on and after January 1, 2002, a petition may not be filed to exercise the right of eminent domain in conjunction with the construction or enlargement of any utility facility whose purpose is the generation of electric energy; or

3. The Commission's authority over retail electric energy sold to retail customers within the Commonwealth by licensed suppliers of electric service, including necessary reserve requirements, all as specified in § [56-587](#).

E. For purposes of this section, transmission capacity shall not include capacity that is primarily operated in a distribution function, as determined by the Commission, taking into consideration any binding federal precedents.

F. On or after January 1, 2002, the Commission shall report to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring* its assessment of the success in the practices and policies of the RTE facilitating the orderly development of competition in the Commonwealth.

§ [56-581.1](#). Competitive retail electric billing and metering.

A. Effective January 1, 2002, (i) distributors shall offer consolidated billing services to licensed suppliers, aggregators, and retail customers, and (ii) licensed suppliers and aggregators shall be permitted to bill all retail customers separately for services rendered on and after the first regular meter reading date after January 1, 2002, subject to conditions, regulations, and licensing requirements established by the Commission.

B. Effective January 1, 2003, licensed suppliers and aggregators may offer consolidated billing service to distributors and retail customers for services rendered on and after the first regular meter reading date after January 1, 2003, subject to conditions, regulations, and licensing requirements established by the Commission.

C. Upon application by a distributor or upon its own motion, the Commission may delay any element of the competitive provision of billing services to retail customers for the period of time necessary, but no longer than one year, to resolve issues arising from considerations of billing accuracy, timeliness, quality, consumer readiness, or adverse effects upon development of competition in electric service. The Commission shall report any such delays and the underlying reasons therefor to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring* within a reasonable time.

D. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section in a manner that is consistent with its Recommendation and Draft Plan filed with the Legislative Transition Task Force, *the predecessor of the Commission on Electric Utility Restructuring*, on December 12, 2000, to facilitate the development of effective competition in electric service for all customer classes, and to ensure reasonable levels of billing accuracy, timeliness, and quality, and adequate consumer readiness and protection. Such rules and regulations shall include provisions regarding the licensing of persons seeking to sell, offering to sell, or selling competitive billing services, pursuant to the licensure requirements of § [56-587](#).

E. The Commission shall implement the provision of competitive metering services by licensed providers for large industrial and large commercial customers of investor-owned distributors on January 1, 2002, and may approve such services for residential and small business customers of investor-owned distributors on or after January 1, 2003, as determined to be in the public interest by the Commission. Such implementation and approvals shall:

1. Be consistent with the goal of facilitating the development of effective competition in electric service for all customer classes;
2. Take into account the readiness of customers and suppliers to buy and sell such services;
3. Take into account the technological feasibility of furnishing any such services on a competitive basis;
4. Take into account whether reasonable steps have been or will be taken to educate and prepare customers for the implementation of competition for any such services;
5. Not jeopardize the safety, reliability or quality of electric service;
6. Consider the degree of control exerted over utility operations by utility customers;
7. Not adversely affect the ability of an incumbent electric utility authorized or obligated to provide electric service to customers who do not buy such services from competitors to provide electric service to such customers at reasonable rates;
8. Give due consideration to the potential effects of such determinations on utility tax collection by state and local governments in the Commonwealth; and
9. Ensure the technical and administrative readiness of a distributor to coordinate and facilitate the provision of competitive metering services for its customers.

Upon the reasonable request of a distributor, the Commission shall delay the provision of competitive metering service in such distributor's service territory until January 1, 2003, for large industrial and large commercial customers, and after January 1, 2004, for residential and small business customers.

F. The Commission shall promulgate such rules and regulations as may be necessary to implement the authorization related to competitive metering services provided for in subsection E. Such rules and regulations shall include provisions regarding the licensing of persons seeking to sell, offering to sell, or selling competitive metering services, pursuant to the licensure requirements of § [56-587](#).

G. An incumbent electric utility shall coordinate with persons licensed to provide competitive metering service, billing services, or both, as the Commission deems reasonably necessary to the development of such competition. The foregoing shall apply to an affiliate of an incumbent electric utility if such affiliate controls a resource that is necessary to the coordination required of the incumbent electric utility by this subsection.

H. Notwithstanding the provisions of § [56-582](#), the Commission shall allow a distributor to recover its costs directly associated with the implementation of billing or metering competition through a tariff for all licensed suppliers, but not those that would be incurred by such utilities in any event as part of the restructuring under this Act. The Commission shall also determine the most appropriate method of recovering such costs through a tariff for such licensed suppliers; however, such method shall not unreasonably affect any customer for which the service is not made competitive.

I. The Commission shall adjust the rates for any noncompetitive services provided by a distributor so that such rates do not reflect costs associated with or properly allocable to the service made subject to competition. Such adjustment may be accomplished through unbundled rates, bill credits, the distributor's tariffs for licensed suppliers, or other methods as determined by the Commission.

J. Municipal electric utilities shall not be required to provide consolidated billing services to licensed suppliers, aggregators or retail customers. Municipal electric utilities and utility consumer services cooperatives shall not be required to undertake coordination of the provision of consolidated or direct billing services by suppliers and aggregators; however, the exemptions set forth in this subsection shall not apply if any such municipal electric utility or utility consumer services cooperative, or its affiliate, offers competitive electric energy supply to retail customers in the service territory of any other Virginia incumbent electric utility. The Commission may permit any municipal electric utility or utility consumer services cooperative that pursues such competitive activity to maintain such exemption upon application to the Commission demonstrating good cause for relief. In addition, upon petition by a utility consumer services cooperative, the Commission may approve the provision of competitive metering services by licensed providers for large industrial and large commercial customers of such cooperative on or after January 1, 2002, and for residential and small business customers of such

cooperative on or after January 1, 2003, as determined to be in the public interest by the Commission consistent with the criteria set forth in subsection E.

§ [56-585](#). Default service.

A. The Commission shall, after notice and opportunity for hearing, (i) determine the components of default service and (ii) establish one or more programs making such services available to retail customers requiring them commencing with the availability throughout the Commonwealth of customer choice for all retail customers as established pursuant to § [56-577](#). For purposes of this chapter, "default service" means service made available under this section to retail customers who (i) do not affirmatively select a supplier, (ii) are unable to obtain service from an alternative supplier, or (iii) have contracted with an alternative supplier who fails to perform.

B. From time to time, the Commission shall designate one or more providers of default service. In doing so, the Commission:

1. Shall take into account the characteristics and qualifications of prospective providers, including proposed rates, experience, safety, reliability, corporate structure, access to electric energy resources necessary to serve customers requiring such services, and other factors deemed necessary to ensure the reliable provision of such services, to prevent the inefficient use of such services, and to protect the public interest;
2. May periodically, as necessary, conduct competitive bidding processes under procedures established by the Commission and, upon a finding that the public interest will be served, designate one or more willing and suitable providers to provide one or more components of such services, in one or more regions of the Commonwealth, to one or more classes of customers;
3. To the extent that default service is not provided pursuant to a designation under subdivision 2, may require a distributor to provide, in a safe and reliable manner, one or more components of such services, or to form an affiliate to do so, in one or more regions of the Commonwealth, at rates determined pursuant to subsection C and for periods specified by the Commission; however, the Commission may not require a distributor, or affiliate thereof, to provide any such services outside the territory in which such distributor provides service; and
4. Notwithstanding imposition on a distributor by the Commission of the requirement provided in subdivision 3, the Commission may thereafter, upon a finding that the public interest will be served, designate through the competitive bidding process established in subdivision 2 one or more willing and suitable providers to provide one or more components of such services, in one or more regions of the Commonwealth, to one or more classes of customers.

C. If a distributor is required to provide default services pursuant to subdivision B 3, after notice and opportunity for hearing, the Commission shall periodically, for each distributor, determine the rates, terms and conditions for default services, taking into account the characteristics and qualifications set forth in subdivision B 1, as follows:

1. Until the expiration or termination of capped rates, the rates for default service provided by a distributor shall equal the capped rates established pursuant to subdivision A 2 of § [56-582](#). After the expiration or termination of such capped rates, the rates for default services shall be based upon competitive market prices for electric generation services.

2. The Commission shall, after notice and opportunity for hearing, determine the rates, terms and conditions for default service by such distributor on the basis of the provisions of Chapter 10 (§ [56-232](#) et seq.) of this title, except that the generation-related components of such rates shall be (i) based upon a plan approved by the Commission as set forth in subdivision 3 or (ii) in the absence of an approved plan, based upon prices for generation capacity and energy in competitive regional electricity markets.

3. Prior to a distributor's provision of default service, and upon request of such distributor, the Commission shall review any plan filed by the distributor to procure electric generation services for default service. The Commission shall approve such plan if the Commission determines that the procurement of electric generation capacity and energy under such plan is adequately based upon prices of capacity and energy in competitive regional electricity markets. If the Commission determines that the plan does not adequately meet such criteria, then the Commission shall modify the plan, with the concurrence of the distributor, or reject the plan.

4. a. For purposes of this subsection, in determining whether regional electricity markets are competitive and rates for default service, the Commission shall consider (i) the liquidity and price transparency of such markets, (ii) whether competition is an effective regulator of prices in such markets, (iii) the wholesale or retail nature of such markets, as appropriate, (iv) the reasonable accessibility of such markets to the regional transmission entity to which the distributor belongs, and (v) such other factors it finds relevant. As used in this subsection, the term "competitive regional electricity market" means a market in which competition, and not statutory or regulatory price constraints, effectively regulates the price of electricity.

b. If, in establishing a distributor's default service generation rates, the Commission is unable to identify regional electricity markets where competition is an effective regulator of rates, then the Commission shall establish such distributor's default service generation rates by setting rates that would approximate those likely to be produced in a

competitive regional electricity market. Such proxy generation rates shall take into account: (i) the factors set forth in subdivision C 4 a, and (ii) such additional factors as the Commission deems necessary to produce such proxy generation rates.

D. In implementing this section, the Commission shall take into consideration the need of default service customers for rate stability and for protection from unreasonable rate fluctuations.

E. On or before July 1, 2004, and annually thereafter, the Commission shall determine, after notice and opportunity for hearing, whether there is a sufficient degree of competition such that the elimination of default service for particular customers, particular classes of customers or particular geographic areas of the Commonwealth will not be contrary to the public interest. The Commission shall report its findings and recommendations concerning modification or termination of default service to the General Assembly and to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring*, not later than December 1, 2004, and annually thereafter.

F. A distribution electric cooperative, or one or more affiliates thereof, shall have the obligation and right to be the supplier of default services in its certificated service territory. A distribution electric cooperative's rates for such default services shall be the capped rate for the duration of the capped rate period and shall be based upon the distribution electric cooperative's prudently incurred cost thereafter. Subsections B and C shall not apply to a distribution electric cooperative or its rates. Such default services, for the purposes of this subsection, shall include the supply of electric energy and all services made competitive pursuant to § [56-581.1](#). If a distribution electric cooperative, or one or more affiliates thereof, elects or seeks to be a default supplier of another electric utility, then the Commission shall designate the default supplier for that distribution electric cooperative, or any affiliate thereof, pursuant to subsection B.

§ [56-592](#). Consumer education and protection; Commission report to Commission Electric Utility Restructuring.

A. The Commission shall develop a consumer education program designed to provide the following information to retail customers during the period of transition to retail competition and thereafter:

1. Opportunities and options in choosing (i) suppliers and aggregators of electric energy and (ii) any other service made competitive pursuant to this chapter;
2. Marketing and billing information suppliers and aggregators of electric energy will be required to furnish retail customers;
3. Retail customers' rights and obligations concerning the purchase of electric energy and related services; and

4. Such other information as the Commission may deem necessary and appropriate in the public interest.

B. The Commission shall complete the development of the consumer education program described in subsection A, and report its findings and recommendations to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring* on or before December 1, 1999, and as frequently thereafter as may be required by the ~~Task Force~~ *such Commission* concerning:

1. The scope of such recommended program consistent with the requirements of subsection A;
2. Materials and media required to effectuate any such program;
3. State agency and nongovernmental entity participation;
4. Program duration;
5. Funding requirements and mechanisms for any such program; and
6. Such other findings and recommendations the Commission deems appropriate in the public interest.

C. The Commission shall develop regulations governing marketing practices by public service companies, licensed suppliers, aggregators or any other providers of services made competitive by this chapter, including regulations to prevent unauthorized switching of suppliers, unauthorized charges, and improper solicitation activities. The Commission shall also establish standards for marketing information to be furnished by licensed suppliers, aggregators or any other providers of services made competitive by this chapter during the period of transition to retail competition, and thereafter, which information shall include standards concerning:

1. Pricing and other key contract terms and conditions;
2. To the extent feasible, fuel mix and emissions data on at least an annualized basis;
3. Customer's rights of cancellation following execution of any contract;
4. Toll-free telephone number for customer assistance; and
5. Such other and further marketing information as the Commission may deem necessary and appropriate in the public interest.

D. The Commission shall also establish standards for billing information to be furnished by public service companies, suppliers, aggregators or any other providers of services made competitive by this chapter during the period of transition to retail competition, and thereafter. Such billing information standards shall require that billing formation:

1. Distinguishes between charges for regulated services and unregulated services;
2. Itemizes any and all nonbypassable wires charges;

3. Is presented in a format that complies with standards to be established by the Commission;

4. Discloses, to the extent feasible, fuel mix and emissions data on at least an annualized basis; and

5. Includes such other billing information as the Commission deems necessary and appropriate in the public interest.

E. The Commission shall establish or maintain a complaint bureau for the purpose of receiving, reviewing and investigating complaints by retail customers against public service companies, licensed suppliers, aggregators and other providers of any services made competitive under this chapter. Upon the request of any interested person or the Attorney General, or upon its own motion, the Commission shall be authorized to inquire into possible violations of this chapter and to enjoin or punish any violations thereof pursuant to its authority under this chapter, this title, and under Title 12.1. The Attorney General shall have a right to participate in such proceedings consistent with the Commission's Rules of Practice and Procedure.

F. The Commission shall establish reasonable limits on customer security deposits required by public service companies, suppliers, aggregators or any other persons providing competitive services pursuant to this chapter.

§ [56-592.1](#). Consumer education program; scope and funding.

A. The Commission shall establish and implement a consumer education program in conjunction with the implementation of this chapter. In establishing such a program, the Commission shall take into account findings and recommendations in the Commission's December 1, 1999, report to the Legislative Transition Task Force ~~made pursuant to §~~ [56-592](#), *the predecessor of the Commission on Electric Utility Restructuring*.

B. The program shall be designed to (i) enable consumers to make rational and informed choices about energy providers in a competitive retail market, (ii) help consumers reduce transaction costs in selecting energy suppliers, and (iii) foster compliance with the consumer protection provisions of this chapter, and those contained in other laws of this Commonwealth, by all participants in a competitive retail market.

C. The Commission shall regularly consult with representatives of consumer organizations, community-based groups, state agencies, incumbent utilities, competitive suppliers and other interested parties throughout the program's implementation and operation.

D. Pursuant to the provisions of § ~~56-595~~ [30-205](#), the Commission shall provide periodic updates to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring* concerning the program's implementation and operation.

E. The Commission shall fund the establishment and operation of such consumer education program through the special regulatory revenue tax currently authorized by § [58.1-2660](#) and the special regulatory tax authorized by Chapter 29 (§ [58.1-2900](#) et seq.) of Title 58.1.

§ [56-596](#). Advancing competition.

A. In all relevant proceedings pursuant to this Act, the Commission shall take into consideration, among other things, the goals of advancement of competition and economic development in the Commonwealth.

B. By September 1 of each year, the Commission shall report to the ~~Legislative Transition Task Force~~ *Commission on Electric Utility Restructuring* and the Governor information on the status of competition in the Commonwealth, the status of the development of regional competitive markets, and its recommendations to facilitate effective competition in the Commonwealth as soon as practical. This report shall include any recommendations of actions to be taken by the General Assembly, the Commission, electric utilities, suppliers, generators, distributors and regional transmission entities it considers to be in the public interest. Such recommendations shall include actions regarding the supply and demand balance for generation services, new and existing generation capacity, transmission constraints, market power, suppliers licensed and operating in the Commonwealth, and the shared or joint use of generation sites.

B. *In all cases brought before the board, there shall be a presumption that the valuation determined by the assessor is correct, and the board shall be advised that it is not necessary that the taxpayer show that the assessment is a result of manifest error or disregard of controlling evidence, but rather that the standard of proof is in accordance with subsection C.*

C. *The burden of proof shall be upon a taxpayer seeking relief to show that the property in question is valued at more than its fair market value, that the assessment is not uniform in its application, or that the assessment is otherwise not equalized. In order to*

§ [58.1-3384](#). Minutes and copies of orders.

The board shall keep minutes of its meetings and enter therein all orders made and transmit promptly copies of such orders as relate to the increase or decrease of assessments to the taxpayer and commissioner of the revenue. *The orders shall be recorded on forms prepared by the Tax Commissioner and provided to localities by the Department of Taxation or on forms prepared by the board that contain, at a minimum, all the information required on the forms prepared by the Tax Commissioner.*

The application shall be before the court when it is filed in the clerk's office. In such proceeding the burden of proof shall be upon the taxpayer to show that the property in question is valued at more than its fair market value or that the assessment is not uniform in its application, or that the assessment is otherwise invalid or illegal, but it shall not be necessary for the taxpayer to show that intentional, systematic and willful discrimination has been made. The proceedings shall be conducted as an action at law before the court, sitting without a jury. The county or city attorney, or if none, the attorney for the Commonwealth, shall defend the application.*

B. In the event it comes or is brought to the attention of the commissioner of the revenue of the locality that the assessment of any tax is improper or is based on obvious error and should be corrected in order that the ends of justice may be served, and he is not able to correct it under § [58.1-3981](#), the commissioner of the revenue shall apply to the appropriate court, in the manner herein provided for relief of the taxpayer. Such application may include a petition for relief for any of several taxpayers.

Whereas, the Commonwealth is in the process of updating and improving its security plans for the Capitol Square area; and

Whereas, acquiring title to the alley running between 8th and 9th Streets, separating the Supreme Court of Virginia Building and St. Paul's Episcopal Church in downtown Richmond, is one possible component of such a plan; and

Whereas, if title to such alley is acquired by the Commonwealth through negotiations with St. Paul's Episcopal Church and the City of Richmond, the Commonwealth intends to grant an easement over such alley to St. Paul's Episcopal Church; and

Whereas, it is prudent for the General Assembly to grant to the Department of General Services any authority it may need to negotiate such a transaction to enhance the security of buildings in the Capitol Square area; now, therefore,

The basis for this determination shall be documented in writing.

D. Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances upon a determination made in advance by the public body and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination:

1. By the Commonwealth, its departments, agencies and institutions on a fixed price design-build basis or construction management basis under § [2.2-4306](#);
2. By any public body for the alteration, repair, renovation or demolition of buildings when the contract is not expected to cost more than \$500,000;
3. By any public body for the construction of highways and any draining, dredging, excavation, grading or similar work upon real property; or
4. As otherwise provided in § [2.2-4308](#).

E. Upon a determination in writing that there is only one source practicably available for that which is to be procured, a contract may be negotiated and awarded to that source without competitive sealed bidding or competitive negotiation. The writing shall

document the basis for this determination. The public body shall issue a written notice stating that only one source was determined to be practicably available, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area or published in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first. Public notice may also be published on the Department of General Services' central electronic procurement Web site and other appropriate Web sites.

F. In case of emergency, a contract may be awarded without competitive sealed bidding or competitive negotiation; however, such procurement shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The public body shall issue a written notice stating that the contract is being awarded on an emergency basis, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted in a designated public area or published in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first, or as soon thereafter as is practicable. Public notice may also be published on the Department of General Services' central electronic procurement Web site and other appropriate Web sites.

G. A public body may establish purchase procedures, if adopted in writing, not requiring competitive sealed bids or competitive negotiation for single or term contracts for goods and services other than professional services if the aggregate or the sum of all phases is not expected to exceed \$50,000; however, such small purchase procedures shall provide for competition wherever practicable. Purchases under this subsection that are expected to exceed \$30,000 shall require the written informal solicitation of a minimum of four bidders or offerors.

H. A public body may establish purchase procedures, if adopted in writing, not requiring competitive negotiation for single or term contracts for professional services if the aggregate or the sum of all phases is not expected to exceed \$30,000; however such small purchase procedures shall provide for competition wherever practicable.

I. Upon a determination made in advance by the local governing body and set forth in writing that the purchase of goods, products or commodities from a public auction sale is in the best interests of the public, such items may be purchased at the auction. The writing shall document the basis for this determination.

J. (~~Expires July 1, 2003~~) The purchase of goods or nonprofessional services, but not construction or professional services, may be made by reverse auctioning. *However, bulk purchases of commodities used in road and highway construction and maintenance, and aggregates shall not be made by reverse auctioning.*

2. That the second enactment of Chapter 395 of the Acts of Assembly of 2001 is repealed.

## **Chapter 653 Virginia Research and Technology Advisory Commission (VRTAC); plan.**

An Act to direct the Virginia Research and Technology Advisory Commission, in conjunction with the Secretaries of Technology, Commerce and Trade, and Education, to develop strategies for research and development in the Commonwealth.

[\[H 2760\]](#)

Approved March 18, 2003

Whereas, the Virginia Research and Technology Advisory Commission was established to advise the Governor on appropriate research and technology strategies for the Commonwealth with emphasis on policy recommendations that will enhance the global competitive advantage of both research institutions and technology-based commercial endeavors within the Commonwealth; and

Whereas, maximizing the amount of basic and applied federal research and development (R&D) and subsequent commercialization of related intellectual property would benefit the research institutions and technology-based commercial endeavors within the Commonwealth and industry-supported R&D at these institutions would provide unique educational opportunities and spur economic development; and

Whereas, a rigorous strategic planning process should lead to current and accurate information resources that support strategic decision-making and establish criteria to measure success; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. The Virginia Research and Technology Advisory Commission (VRTAC), in conjunction with the Secretaries of Technology, Commerce and Trade, and Education, shall develop strategies for research and development in the Commonwealth. The strategies should consider the areas the federal government will emphasize within the next five*

*years, the Commonwealth's R&D assets and capabilities, the current and future growth industries in the Commonwealth, and the means to strengthen the Commonwealth's position in global research and development competition. The Commission shall provide the strategies to the Governor and the General Assembly by November 30, 2003.*

*§ 2. The Innovative Technology Authority, Virginia Economic Development Partnership, and State Council of Higher Education shall provide staff support to the Commission.*

## **Chapter 746 Buckingham Correctional Center.**

An Act to authorize the Department of Corrections to exchange a certain parcel of land adjacent to the Buckingham Correctional Center.

[\[H 2719\]](#)

Approved March 19, 2003

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. That notwithstanding any law to the contrary, with the approval of the Governor and in a form approved by the Attorney General, the Department of Corrections is hereby authorized to make an equal exchange of a parcel of land 11.61 acres more or less which is a portion of a 37.45 acre tract owned by E. E. Talbott, Jr., for a parcel of land 11.61 acres more or less which is a portion of lands owned by the Virginia Department of Corrections adjacent to the lands known as the Buckingham Correctional Center.*

*§ 2. The appropriate officials of the Commonwealth are hereby authorized to execute and receive such deed or other documents as may be necessary to accomplish the conveyance.*

## **Chapter 747 Transferring property of unincorporated area; to board of supervisors.**

An Act to provide for the transfer of the property, duties, rights, and contractual obligations of trustees of unincorporated areas to the supervisors of the counties in which the areas are situated and dissolving the position of trustee for certain unincorporated areas.

[\[H 2807\]](#)

Approved March 19, 2003

Whereas, in colonial times, various statutes provided for trustees for certain unincorporated areas, commonly called towns, established for governmental purposes such as the oversight of ports and regulation of commerce (see, e.g., 3 Hening's Statutes, page 53 (1691), and 3 Hening's Statutes, page 186 (1699)); and

Whereas, the Codes of Virginia from 1819 to 1873 recognized the existence of boards of trustees but references to boards of trustees in the Codes of Virginia disappeared thereafter; and

Whereas, the General Assembly has enacted laws relating to trustees for an unincorporated portion of York County, e.g. Chapter 286 of the Acts of Assembly of 1926, as amended; and

Whereas, the colonial practice of relying on appointed trustees for limited governmental purposes has been replaced generally by reliance on elected councils for incorporated towns and elected supervisors for counties and the unincorporated areas in counties; and

Whereas, Article VII, Section 5, of the Constitution of Virginia now requires that the governing bodies of counties, cities, and towns be elected by the people; and

Whereas, the affairs of local government are best addressed and administered by the people's elected representatives and any unincorporated areas located within a county should be governed by the county's elected governing body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. The property, duties, rights, and contractual obligations of the trustees of any unincorporated area commonly referred to as a town or township are hereby transferred to the board of supervisors of the county in which the unincorporated area is located. Any such unincorporated area is confirmed to be part of the county in which it is located. Any trustees heretofore appointed to serve as trustees for such an unincorporated area are deemed to have completed their service as trustees on the effective date of this act, and any trust shall be dissolved thereafter. Any such property transferred to the board of supervisors of the county may be used, sold, leased, or otherwise disposed of in the public interest as the board of supervisors shall determine, consistent with the general laws applicable to counties.*

## **Chapter 890 Federal campaign and political committees; comity.**

An Act to provide for the regulation of federal campaign and political committees to the extent that federal law regulates Virginia campaign and political committees.

[\[H 1644\]](#)

Approved March 22, 2003

Whereas, federal agencies have imposed requirements of federal law and regulations on Virginia campaign and political committees with respect to taxation, reporting, and filings; and

Whereas, comity justifies the regulation by the Commonwealth of federal campaign and political committees to the same extent that Virginia campaign and political committees are regulated by federal agencies; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Any campaign committee, political party committee, or political committee established to participate in federal elections and solicit contributions or make expenditures in Virginia in connection with a federal election or an election for office in Virginia shall be subject to requirements of Virginia law and regulations as provided herein to the same extent that Virginia campaign committees are subject to regulation under federal law.*

*Any such committee shall be subject to the laws and regulations pertaining to the regulation and registration of business entities pursuant to Chapters 9 (§ [13.1-601](#) et seq.), 10 (§ [13.1-801](#) et seq.) and 12 (§ [13.1-1000](#) et seq.) of Title 13.1 of the Code of Virginia. The State Corporation Commission shall enforce registration and filing requirements applicable to such committees.*

*Any such committee shall be subject to the laws and regulations pertaining to the taxation of the income of individuals or entities pursuant to Chapter 3 (§ [58.1-300](#) et seq.) of Title 58.1 of the Code of Virginia. The Virginia Department of Taxation shall enforce the application of Chapter 3 to such committees.*

## **Chapter 953 U.S. Route 460 improvements.**

An Act to require the Virginia Department of Transportation to solicit proposals for improvements to U.S. Route 460 between Hampton Roads and the Richmond-Petersburg metropolitan area under the Public-Private Transportation Act of 1995.

[\[H 2543\]](#)

Approved March 24, 2003

Whereas, improvements to the U.S. Route 460 corridor between Hampton Roads and the Richmond-Petersburg metropolitan area would facilitate evacuation of Hampton Roads in the event of a hurricane, other natural disaster, or act of terrorism; and  
Whereas, improvements to this corridor would also facilitate movement of freight and military forces and supplies to and from the ports of Hampton Roads; and  
Whereas, state funds adequate to undertake the needed improvements in the U.S. Route 460 corridor are not likely to be available in the foreseeable future; and  
Whereas, it is thus highly desirable that the Department of Transportation solicit proposals to construct the improvements to the U.S. Route 460 corridor between Hampton Roads and the Richmond-Petersburg metropolitan area under the Public-Private Transportation Act of 1995; now, therefore,  
Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Within 90 days of the Commonwealth Transportation Board's approval of the Draft Environmental Impact Statement on the U.S. Route 460 Corridor and related projects between Hampton Roads and the Richmond-Petersburg metropolitan area, the Department of Transportation shall solicit proposals for improvements to U.S. Route 460 between Hampton Roads and the Richmond-Petersburg metropolitan area under the Public-Private Transportation Act of 1995.*

*The Department of Transportation shall submit to the Division of Legislative Automated Systems an executive summary and report of its progress in completing the Draft Environmental Impact Statement and in soliciting the proposals as required above no later than the first day of the 2005 and 2006 Regular Sessions of the General Assembly. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.*

## Chapter 2 Higher Educational Institutions Bond Bill of 2004; created.

An Act to authorize the issuance of bonds to finance \$137,700,600 in previously authorized projects and \$117,616,000 in new projects for a total of up to \$255,316,600, plus financing costs, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, for paying

costs of acquiring, constructing and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth; to authorize the Treasury Board, by and with the consent of the Governor, to fix the details of such bonds, to provide for the sale of such bonds, and to issue notes to borrow money in anticipation of the issuance of the bonds; to provide for the pledge of the net revenues of such capital projects and the full faith, credit and taxing power of the Commonwealth for the payment of such bonds; to provide that the interest income on such bonds and notes shall be exempt from all taxation by the Commonwealth and any political subdivision thereof.

[\[H 31\]](#)

Approved February 25, 2004

Whereas, Article X, Section 9 (c) of the Constitution of Virginia, provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher learning of the Commonwealth; and

Whereas, in accordance with Article X, Section 9 (c) of the Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public Accounts, his opinion that the anticipated net revenues of each of the capital projects identified below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for each such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Article X, Section 9 (c), Constitution of Virginia; now, therefore

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Title. This act shall be known and may be cited as the "Commonwealth of Virginia Higher Educational Institutions Bond Bill of 2004."*

*§ 2. Authorization of bonds and BANs.*

The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring, constructing, renovating, enlarging, improving and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth as follows:*

**§ 3. Application of Proceeds**

*The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement and equipping of the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs shall be used to pay such BANs, refunded bonds and refunded BANs.*

*§ 4. Details, sale of bonds and BANs. Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs*

*issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a)(3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds, Series....".*

*§ 5. Execution of bonds and BANs.*

*Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which*

*the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues. Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts. A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager*

*with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B of this section.*

*§9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the*

*refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

2. That Chapters 808 and 815 of the Acts of Assembly of 2002 and Chapters 4 and 157 of the Acts of Assembly of 2003 are repealed; however, such repeal shall not operate to invalidate, alter the security, or prohibit the refunding of bonds heretofore issued pursuant to such acts.

Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the*

*timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the Department of General Services to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. *§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

may be made redeemable before maturity, at the option of the Commission, at such price or prices and under such terms and conditions as may be fixed by the Commission prior to the issuance of the bonds; ~~provided, however, that any bonds of more than ten years maturity shall be made redeemable before maturity, at the option of the Commission, at such price or prices and under such term and conditions as may be fixed by the Commission prior to the issuance of the bonds.~~ The Commission shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such person or persons as at the actual time of the execution of such bond shall be the proper officer or officers to sign such bond although at the date of such bond such person or persons may not have been such officer or officers. ~~Notwithstanding any other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth.~~ The bonds may be issued in coupon or in registered form, or both, as the Commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Commission may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the District, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six ~~per centum (6%)~~ percent per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values excluding, however, from such computation, the amount of any premium to be paid on the redemption of any bonds prior to maturity.

§ 22. The Commission ~~shall~~ *may*, in the resolution providing for the issuance of revenue bonds or in the trust agreement securing the same, *covenant to* fix the ~~schedule of~~ rates, fees and other charges for the use of, and for the services and facilities furnished or to be furnished by, the sewage disposal system or systems and the sewer improvements, if any, for which such bonds are to be issued, to be paid by the owner, tenant or occupant

of each lot or parcel of land which may be connected with or may use any such sewage disposal system or sewer improvements. The Commission may revise such ~~schedule of~~ rates, fees and charges from time to time. Such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times (a) to pay the cost of maintaining, repairing and operating such sewage disposal system or systems and such sewer improvements, if any, including reserves for such purpose and for renewals and replacements and necessary extensions and additions to the sewerage system, (b) to pay the principal of and the interest on such revenue bonds as the same shall become due and to provide reserves therefor, and (c) to provide a margin of safety for making such payments. The Commission shall charge and collect the rates, fees and charges so fixed or revised, and, except as hereinafter provided in this act, such rates, fees and charges shall not be subject to supervision or regulation by any department, division, commission, board, bureau or agency of the Commonwealth or of any district or other political subdivision of the Commonwealth.

Such rates, fees and charges shall be just and equitable and may be based or computed either upon the quantity of water used or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises connected with the sewerage system or upon the number or average number of persons residing or working in or otherwise connected with such premises or upon the type or character of such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors. Charges for services to premises, including services to manufacturing and industrial plants, obtaining all or a part of their water supply from sources other than a public water system may be determined by gauging or metering at the expense of the owner, tenant or occupant of such premises or in any other manner as directed and approved by the Commission.

Premises not discharging the entire volume of water into the sanitary sewers shall be allowed a reduction in the charges provided the customer installs facilities, in a manner satisfactory to the Commission, for measuring the volume either discharged or not discharged into the sanitary sewers.

The Commission shall fix and determine the time or times when and the place or places where such rates, fees and charges shall be due and payable and may require that such rates, fees and charges shall be paid in advance for periods of not more than six months. A copy of the schedules of all rates, fees and charges in effect shall at all times be kept on file at the principal office of the Commission, and such schedules shall at all reasonable times be open to public inspection.

In cases where the character of the sewage from any manufacturing or industrial plant, building or premises is such that it imposes an unreasonable burden upon any sewage disposal system, an additional charge may be made therefor, or the Commission may, if it deems it advisable, compel such manufacturing or industrial plant, building or premises to treat such sewage in such manner as shall be specified by the Commission before discharging such sewage, into the sewerage system or prohibit the discharge, directly or indirectly, of such sewage into the sewerage system.

§ 32. The Commission shall have no power to mortgage, pledge, encumber or otherwise dispose of any part of the sewerage system of the District, except such part or parts thereof as may be no longer necessary or useful for the purposes of the Commission; *however, the Commission may enter into lease purchase and installment purchase agreements for equipment and fixtures and grant security interests therein.* The provisions of this section shall be deemed to constitute a contract with the holders of bonds of the District. The sewerage system of the District shall be exempt from any and all liability which may be incurred by, or imposed upon, the Commission or any county, city, town or political subdivision.

§ 45. All construction contracts, except in cases of emergency, ~~over ten thousand dollars~~ that the Commission may let for construction or materials in connection with such construction shall be let after public advertising *and in accordance with the provisions of the Virginia Public Procurement Act (§ [2.2-4300](#) et seq. of the Code of Virginia).* The Commission shall advertise for bids for the work or materials at least ~~ten~~ 10 days prior to the letting of any contracts therefor. The advertisement shall state the place where bidders may examine the plans and specifications and the time and place where bids for the work or materials will be opened. Each bidder shall accompany his bid with bid bond or other security payable to the Commission, for a reasonable sum to be fixed by the Commission, as a guarantee that if the contract is awarded to him, he will enter into a contract with the Commission for doing the work or furnishing the materials. The contract shall be let to the lowest responsible bidder, and the successful bidder shall give bond or other security for the faithful performance of the contract, in such form and amount as the Commission may require. The Commission is authorized to reject any and all bids. In the event that all bids are rejected, the Commission shall advertise for new bids as in the first instance. All bids and contracts shall be public records. The Commission is authorized, in its discretion, to do any and all such work by force account.

§ 48. The circuit court of the county or the corporation or circuit court of the city in which any territory proposed to be added to the District is located, upon receipt of a petition of the Commission or a petition of the governing body of the territory proposed to be added

to the District or a petition signed by not less than ~~twenty-five per centum (25%)~~ *25 percent* of the qualified voters residing within the limits of the territory proposed to be added to the District, or a petition signed by the owners of not less than ~~twenty-five per centum (25%)~~ *25 percent* by area of the real property within the territory proposed to be added to the District, shall enter an order fixing the date and hour and place for a public hearing on the question of the addition of territory to the District, which order shall set forth a copy of the petition, excluding signatures, and shall describe the territory proposed to be added to the District.

A copy of such order shall be published once a week for three consecutive weeks in a newspaper of general circulation within the territory proposed to be added to the District to be designated by such court and posted in such public places within such territory as shall be designated by such court. The first of such publications and such posting shall occur not less than ~~thirty~~ *30* days prior to the date fixed for such hearing.

At the time and place stated in such order, or to which an adjournment may be taken by the court, the court shall receive and hear any objections of interested persons to the addition of such territory to the District or to any defect in the petition and the court may then or thereafter grant such petition with such modifications, if any, as it may deem advisable and which do not enlarge the territory proposed to be added to the District. All such objections shall be made in writing, in person or by attorney, and filed with the court at or before the time or adjourned time of such hearing. Any such objections not so made shall be considered as waived.

If upon such hearing the court shall be of the opinion that any area proposed to be added to the District will not be benefited by the District, then said area shall not be included in the District. The order altering the boundaries of and enlarging the District shall prescribe the territory to be added to the District and fix the boundaries thereof.

From an order enlarging the District under the provisions of this section an appeal shall lie to the Supreme Court of ~~Appeals~~ *Virginia* in the manner provided by law.

~~If the city of Hampton, Newport News, Norfolk or South Norfolk shall hereafter annex any territory not then within the District to said city, such territory shall become a part of and be embraced within the District at such time as such annexation shall become effective.~~

§ 49. Nothing in this act shall be construed to affect, impair, repeal or supersede in any way the powers of the State Water Control Board under the provisions of Chapter ~~23.1~~, Title ~~6262.1~~, Code of Virginia, 1950, as amended.

## **Chapter 490 Parking Facilities Bond Bill of 2004; created.**

An Act to authorize the issuance of bonds, in an amount up to \$5,700,000 plus financing costs, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, for paying costs of acquiring a revenue-producing capital project to be administered by the Department of General Services, to authorize the Treasury Board, by and with the consent of the Governor, to fix the details of such bonds, to provide for the sale of such bonds, and to issue notes to borrow money in anticipation of the issuance of the bonds; to provide for the pledge of the net revenues of such capital project and the full faith, credit and taxing power of the Commonwealth for the payment of such bonds; to provide that the interest income on such bonds and notes shall be exempt from all taxation by the Commonwealth and any political subdivision thereof.

### [\[S 32\]](#)

Approved April 12, 2004

Whereas, Article X, Section 9 (c) of the Constitution of Virginia, provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, of institutions and agencies administered solely by the executive branch of the Commonwealth; and

Whereas, in accordance with Article X, Section 9 (c) of the Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public Accounts, his opinion that the anticipated net revenues of the capital project identified below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that the capital project complies with the requirements of Article X, Section 9 (c) of the Constitution of Virginia; now, therefore

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Title. This bill shall be known and may be cited as the "Commonwealth of Virginia Parking Facilities Bond Bill of 2004."*

*§ 2. Authorization of bonds and BANs. The Treasury Board is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9(c) of*

The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring a revenue-producing capital project of the Commonwealth as follows:*

<i>Department</i>	<i>Acquire Virginia</i>	<i>\$5,700,000</i>
<i>of</i>	<i>Retirement</i>	<i>16996</i>

*§ 3. Application of Proceeds. The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement and equipping of the authorized capital project, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs shall be used to pay such BANs, refunded bonds and refunded BANs.*

*§ 4. Details, sale of bonds and BANs. Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or,*

*when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a)(3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds, Series....."*

*§ 5. Execution of bonds and BANs. Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the*

*proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the agency for which the capital project was authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues. The Department of General Services is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of the capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The Department of General Services is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts. A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose of the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as*

*determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B of this section.*

*§9. Security for bonds and BANs. The net revenues of the Department of General Services Parking Facilities System and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the Department of General Services to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs,*

*respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

## **Chapter 634 Telecommunications and video taxation; proposed changes.**

An Act to establish a schedule for, and initiate Virginia's transition to, a new system for taxing telecommunications services in the Commonwealth.

[\[H 1174\]](#)

Approved April 12, 2004

Whereas, it is in the best interest of the citizens of this Commonwealth to restructure state and local telecommunications taxes and fees so that the tax burden falls equitably on all users of telecommunications services; and

Whereas, it is the intent of the General Assembly that any new tax structure fully replace revenues provided to state and local governments by current telecommunications taxes and fees; and

Whereas, the Joint Subcommittee to Study the State and Local Taxation of the Entire Telecommunications Industry and Its Customers within the Commonwealth (HJR 651, 2003; HJR 209, 2002) has been reviewing ways Virginia could restructure its telecommunications taxes and fees; and

Whereas, the joint subcommittee has, in conjunction with the Commission on the Revision of Virginia's State Tax Code and the Streamlined Sales Tax Project Agreement,

developed a set of guiding principles for telecommunications tax and fee restructuring;  
and

Whereas, those guiding principles are to reduce consumer confusion, consolidate taxes and fees, make taxes and fees uniform statewide, reduce the tax rate on the vast majority of Virginians, make taxes and fees competitively neutral, preserve state and local government revenues, and establish a single point of administration; and

Whereas, a working group of industry and local government representatives has been meeting under the auspices of the joint subcommittee to develop draft legislation for consideration by the joint subcommittee and the affected parties; and

Whereas, more information on the revenue impact from existing state and local telecommunications taxes and fees is needed before specific telecommunications tax and fee restructuring legislation can be enacted; and

Whereas, it is the intent of the General Assembly to collect this information prior to the 2005 Session so that telecommunications tax restructuring legislation may be introduced during the 2005 Session, to become effective July 1, 2005; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. That the General Assembly; the counties, cities and towns of the Commonwealth; and those providers of telecommunications services in Virginia are requested to work together to assist in the preparation of legislation for the 2005 General Assembly Session establishing a new telecommunications statewide tax and fee structure to become effective July 1, 2005.*

*§ 2. During the 2005 Session, the intent is for a new method of taxation to be enacted, effective July 1, 2005, to replace the following taxes and fees, which will be repealed: local consumer utility tax on consumers of local exchange and wireless services (§ [58.1-3812](#)); the gross receipts tax in excess of 0.5 percent (§ [58.1-3731](#)); the Virginia Relay Center Assessment (§ [56-484.6](#)); and state and local E-911 taxes and fees (§§ [58.1-3813.1](#) and [56-484.12](#)).*

*§ 3. In place of these taxes and fees, the intent is for legislation to be introduced during and enacted by the 2005 General Assembly, levying a yet-to-be-named tax on all retail telecommunications service revenues. The tax shall not be less than 4.5 percent and to the extent the state and local retail sales and use tax rate is greater than 4.5 percent, the tax may not exceed the state and local retail sales and use tax rate. This tax will be assessed in lieu of any other state or local sales and use tax.*

*§ 4. The 2005 legislation shall also provide for a uniform statewide 911 tax not to exceed \$0.75 levied on all local exchange lines and a uniform statewide 911 fee not to exceed \$0.75 levied on all wireless service lines. The rate shall be set at the level needed to ensure that revenues from it, when combined with revenues from the yet-to-be-named tax, are sufficient to fully replace all revenues that would have resulted from those state and local taxes that are being repealed.*

*§ 5. Service providers shall collect the yet-to-be-named tax from each end user's (other than federal, state and local governments) monthly bill for taxable retail service. In addition, local exchange and wireless providers shall collect the 911 tax and the 911 fee respectively, on a per access line and wireless service line basis by adding the tax or fee to each end user's (other than federal, state and local governments) monthly bill. The yet-to-be-named tax, the 911 tax and the 911 fee, when billed, shall be stated as a distinct item separate and apart from the monthly charges for service. Until the end user pays the yet-to-be-named tax, the 911 tax and the 911 fee to the service provider, the yet-to-be-named tax, the 911 tax and the 911 fee shall constitute a debt of the end user to the authority or other third party (yet to be determined) maintaining a special fund, as set forth in § 6 below. After the end user pays the taxes and fees to the appropriate service provider, all taxes and fees paid shall be deemed to be held in trust by such service provider until remitted to the authority or other third party. Provisions regarding how bad debts and sales for resale/access are to be treated shall be included in the 2005 legislation, if it is determined they are necessary.*

*§ 6. The 2005 legislation shall provide for the yet-to-be-named tax and the 911 tax collections to be remitted from the service providers to a special fund maintained by an authority or other third party (yet to be determined), which in turn will remit appropriate shares of the revenue to the state and individual local governments. The 911 fee collections shall be remitted from the wireless service providers directly to the Wireless 911 Board. To the extent that the 911 fee established as set forth in § 4, above, is inadequate to replace the total Wireless 911 Board revenues identified by the Auditor of Public Accounts as set forth in § 10, below, the difference will be transferred from the special fund to the Wireless Board. Also, sufficient funds will be transferred to the appropriate authority to adequately support the relay service centers.*

*§ 7. The 2005 legislation shall authorize the authority or other third party to conduct an annual audit, at their discretion, by means of a centralized and uniform method of any or all service providers to verify the accuracy of collections and special fund receipts. All expenses associated with the audits shall be paid from the special fund.*

§ 8. *The 2005 legislation shall establish a distribution methodology for the revenues in the special fund that will initially provide the state and each local governmental entity with revenues that are at least equal to those received in FY 2004, and in the case of local governments, from taxes and fees adopted by local ordinance on or before July 1, 2003. The distribution methodology shall also account for differences in future telecommunications revenue growth within the various localities. In addition, revenues distributed from the special fund shall not constitute state aid to localities for state budgeting purposes.*

§ 9. *The legislation shall also subject pre-paid calling arrangements to the Virginia retail sales and use tax in Chapter 6 (§ [58.1-600](#) et seq.) of Title 58.1, at the point of sale.*

§ 10. *In order to determine the amount of revenues generated by the current tax system to be replaced by the yet-to-be-named tax, the 911 tax and the 911 fee, the Auditor of Public Accounts shall determine revenues received by the Commonwealth and by its individual counties, cities, and towns for the fiscal year commencing July 1, 2003, and ending June 30, 2004, at rates adopted on or before July 1, 2003 for the following taxes and fees collected by the service providers: the gross receipts tax in excess of 0.5 percent; the Virginia Relay Center Assessment; the local consumer utility tax; and the 911 taxes and fees, where they exist. Local governments and service providers shall cooperate with the Auditor of Public Accounts and provide information to him as requested. The Auditor or his agent shall not divulge any information acquired by him in the performance of his duties under this section that may identify specific service providers. The Auditor shall report his findings to the chairmen of the House and Senate Finance Committees no later than October 15, 2004.*

§ 11. *In the event the Auditor of Public Accounts determines that the rate limitations established in sections 3 and 4, above, for the yet-to-be-named tax, the 911 tax and the 911 fee, respectively, are insufficient to fully replace all revenues that would have resulted from those state and local taxes and fees that are intended to be repealed, no telecommunications tax restructuring legislation related to this study shall be introduced during the 2005 General Assembly Session.*

§ 12. *The working group of industry and local government representatives that has been assisting the joint subcommittee is requested to continue its work and to develop recommendations on the following issues, as well as any others that may arise prior to the 2005 General Assembly Session: an authority or third party to receive and disburse the revenues to the state and individual local governments; a distribution methodology for apportioning the revenues; and a centralized and uniform method for auditing the revenues produced by the taxes and fees. The working group shall report its findings and*

*recommendations to the chairmen of the House and Senate Finance Committees no later than November 15, 2004.*

## **Chapter 454 Elizabeth River; Governor to convey certain subaqueous lands to Norfolk City.**

An Act to authorize the Governor to convey certain subaqueous lands in the Elizabeth River at Norfolk to the City of Norfolk.

[\[H 949\]](#)

Approved April 12, 2004

Whereas, in 2000, the Virginia Port Authority formally requested that the City of Norfolk (the City) begin handling homeport cruise activity at the City's Nauticus pier on the Elizabeth River in Norfolk, with Norfolk's willingness to handle passenger activity at Nauticus enabling the Port Authority to focus on its core cargo business; and

Whereas, the City appropriated \$2 million in 2001 to strengthen the Nauticus pier to handle cruise ships for the Commonwealth; and

Whereas, the requirements for Federal Inspection Stations for Customs, United States Citizenship and Immigration Services, and the U.S. Department of Agriculture dramatically increased after September 11, 2001, and the City is now required to construct a full-scale passenger terminal or all homeport cruise operations in the Commonwealth will cease in 2006; and

Whereas, the cruise terminal must be located adjacent to the current pier on piles above a portion of state bottomlands which the City desires to obtain by a conveyance of such subaqueous land from the Commonwealth; now, therefore

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. That the Governor is hereby authorized to convey, upon consultation with the Marine Resources Commission and the Attorney General, and in consideration of the mutual promises of the parties and the payment of \$1, an irregular-shaped lot, piece or parcel of land situate, lying and being in the downtown section of the City of Norfolk, Virginia, said parcel being further described as follows: all the subaqueous lands bounded on the*

north by the City Hall Avenue Canal, said canal being shown on a plat entitled, "Plat of Merchants & Miners Transportation Co's Property," said plat being dated February 14, 1911, and being on file in the Department of Public Works in the Division of Surveys in the City of Norfolk, Virginia, as file number [1-4-52](#); on the east by Boush Street and Matthews Street; on the south and west by the Pierhead Lines (Port Warden Lines) of the Eastern Branch of the Elizabeth River, said parcel being further described as follows: beginning at a point that is the intersection of the northern line of Main Street extended westwardly to its intersection with the western line of Matthews Street, said point of intersection being shown on a plat entitled, "Exhibit A," said plat prepared by the Division of Surveys and being on file in the Department of Public Works in the Division of Surveys in the City of Norfolk, Virginia, in Tube 507; thence, from the point of beginning thus described, the following two courses and distances along said western line of Matthews Street: S 19-10'-42" W, 360.00 feet, more or less, to a point; thence, S 35-34'-43" W, 219.23 feet, more or less, to a point on the Pierhead Line (Port Warden Line) running along the northern shore of the Eastern Branch of the Elizabeth River; thence, the following three courses and distances along said Pierhead Line (Port Warden Line): N 42-04'-56" W, 257.80 feet, more or less, to a point; thence, N 25-52'-55" W, 800.08 feet, more or less, to a point; thence, N 15-19'-53" W, 230.00 feet, more or less, to a point on the northern boundary of said parcel; thence, S 82-16'-46" E, 586.82 feet, more or less, to a point; thence, S 76-00'-00" E, 525.00 feet, more or less, to a point; thence, S 10-11'-42" W, 34.00 feet, more or less, to a point; thence, S 79-48'-14" E, 16.13 feet, more or less, to a point on the western line of Boush Street; thence, the following two courses and distances along said western line of Boush Street; S 25-57'-05" W, 197.08 feet, more or less, to a point; thence, S [21-18](#)'-27" W, 225.00 feet, more or less, to a point; thence, N 68-41'-33" W, 42.21 feet, more or less, to a point; thence, S [21-18](#)'-27" W, 25.00 feet, more or less, to a point; thence, N 68-08'-18" W, 60.00 feet, more or less, to the point of beginning.

The above-described parcel contains 15.00 acres, more or less, eight acres, more or less, of which are subaqueous lands.

§ 2. Such conveyance shall be made in a form approved by the Attorney General. The appropriate officials of the Commonwealth are hereby authorized to prepare, execute, and deliver such deed and other documents as may be necessary to accomplish the conveyance.

## **Chapter 571 Employment Commission; conveying certain real property located in Petersburg City.**

An Act authorizing the Virginia Employment Commission to convey certain real property to the City of Petersburg.

[\[H 1261\]](#)

Approved April 12, 2004

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. That the Virginia Employment Commission is hereby authorized to convey to the City of Petersburg, upon terms and conditions the Department of General Services deems proper, with the approval of the Governor, a parcel of real estate located at 10 North Jefferson Street in the City of Petersburg, consisting of an improved lot measuring approximately 47,460 square feet, and formerly used by the Virginia Employment Commission until it relocated its offices to the City of Hopewell.*

*§ 2. Such conveyance shall be made in a form approved by the Attorney General. The appropriate officials of the Commonwealth are hereby authorized to prepare, execute, and deliver such deed and other documents as may be necessary to accomplish the conveyance.*

## **Chapter 483 Elizabeth River; Marine Resources Commission to grant easement to VEPCO for electr. transm. lines.**

An Act to authorize the Virginia Marine Resources Commission to grant an easement and right-of-way across and in the bed of the Elizabeth River, including a portion of the Baylor Survey, to Virginia Electric and Power Company (Dominion Virginia Power) for an electric transmission line.

[\[H 1436\]](#)

Approved April 12, 2004

Whereas, notwithstanding a General Assembly grant of authority to the Virginia Marine Resources Commission (VMRC) to convey an easement in the Commonwealth's bottomland, Virginia Electric and Power Company will still be required to file a joint permit application with VMRC and VMRC will determine through this application process

whether, and under what conditions, to approve the encroachment on the Commonwealth's bottomlands so as to protect natural resources; and

Whereas, Dominion Virginia Power operates two submarine electric transmission line cables through two adjacent eight inch pipes under the Elizabeth River between the Craney Island Terminal Station and the Tanners Point Terminal Station, which serve the U.S. Norfolk Naval Air Station, the City of Norfolk, the Norfolk International Terminal, and numerous other business and residential areas; and

Whereas, demand for electricity has grown significantly over the 30 years since the two cables were installed and anticipated growth in Norfolk and Hampton Roads necessitates that additional capacity be provided to the area; and

Whereas, demand will soon grow to the point that if one of the two existing and closely placed submarine cables were to fail or be damaged, the remaining cable will be overloaded, placing in question the reliability of electrical service to the area; and

Whereas, resolution of this electric reliability situation necessitates the construction of an additional 230 kV transmission cable system between Craney Island Terminal Station and Tanners Point Terminal Station, approximately 500 feet north of the existing Elizabeth River crossing, providing a protective distance between the new and the existing cables, increasing needed electrical supply to the area and creating a safeguard should one or more cables fail; and

Whereas, it will be necessary to place the new transmission cable in the bed of the Elizabeth River because it is not possible to construct an overhead electrical line crossing at this important location due to the danger such a line poses to Elizabeth River Channel ship traffic and to U.S. Norfolk Naval Air Station air traffic; and

Whereas, a submarine crossing at this location will cross within the Baylor Survey Ground numbers 1, 2, 3 and possibly 5, therefore necessitating an act of the General Assembly; and

Whereas, it is necessary for continued adequate, secure and dependable electric service in Norfolk and the surrounding localities that the new transmission line be constructed; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. The Virginia Marine Resources Commission is hereby authorized to grant and convey to Virginia Electric and Power Company, its successors and assigns, upon such terms and conditions as the Commission, with the approval of the Governor and the Attorney General, shall deem proper, a permanent easement and right-of-way of 50 feet of*

*width and a temporary right-of-way of a reasonable width as needed for the purpose of installing, constructing, maintaining, repairing and operating a submarine electric transmission cable system in and across the bed of the Elizabeth River, including a portion of the Baylor Survey, the center line of such easement being described as follows:*

*Beginning at the mean low water mark on the west bank of the Elizabeth River, being the property line of a parcel of land now or formerly owned by the U.S. Department of the Navy, in the City of Portsmouth, Virginia; thence N 66° 49' E +/- 220 feet +/- to a point; thence along a curve with an angle 18° 30' +/- with a length 245 +/- feet to a point; then N 48° 19' E +/- 1,115 +/- feet to a point; thence along a curve with an angle 18° 30' +/- with a length of 245 +/- feet to a point; thence N 66° 49' E +/- 4,290 +/- feet to a point; thence along a curve with an angle 47° 00' +/- with a length 726 +/- feet to a point; then N 19° 49' E +/- with a length of 200 +/- feet to a point, being a bulkhead/property line of a parcel of land now or formerly owned by the Virginia Port Authority on the east bank of the Elizabeth River, said point being West 300 +/- feet from the bulkhead at the intersection of the Lafayette and Elizabeth Rivers.*

*§ 2. None of the above described property that lies within the Baylor Survey shall be considered part of the natural oyster beds, rocks and shoals in the waters of the Commonwealth.*

*§ 3. The instrument granting and conveying the easement and right-of-way from the Commonwealth to Dominion Virginia Power shall be in a form approved by the Attorney General.*

Whereas, excellence in teaching at the undergraduate level and high-quality research are two main factors that contribute to a university's success; and

Whereas, a focus on quality research and teaching will bring about growth in revenues, attract higher quality students and faculty, and higher rankings for Virginia-based universities; and

Whereas, for the Commonwealth's universities to maintain and enhance their positions at the forefront of research on a national and international basis and draw industries to locate, incubate, and grow to maturity in Virginia, they must recruit and retain top faculty; and

Whereas, the competitiveness of Virginia-based universities lies in the hands of high-quality faculty and researchers with the drive to provide excellent education and build positive relationships with industry; and

Whereas, these relationships lead to research and development of new technologies; and

Whereas, bringing new technologies from the research laboratory to the marketplace requires academia and industry to work together in new and innovative ways; and

Whereas, investment in strategic areas will allow the Commonwealth to more fully benefit from its investments in higher education and economic development; and

Whereas, new technologies can spawn new industries leading to new jobs, new products, and new markets thereby multiplying their impact on the economy; now, therefore,

## **Chapter 616 Integrated research & academic campuses; Research & Tech. Adv. Comm. continue its exam. of establmt.**

An Act to require the Virginia Research and Technology Advisory Commission (VRTAC) to continue its examination of establishing integrated research and academic campuses in the Commonwealth.

[\[H 545\]](#)

Approved April 12, 2004

Whereas, according to a 2002 study by the State Council of Higher Education for Virginia (SCHEV), approximately 90 percent of research and development (R&D) expendit-

ures in Virginia are attributable to private sector activities, federal agencies, and federal labs; and

Whereas, more than half of R&D expenditures in Virginia are attributable to the private sector, with a significant portion of that activity occurring in northern Virginia; and

Whereas, only two of the seven public research universities are located in northern Virginia and Hampton Roads while nine of the 12 federal labs, agencies and centers identified in the SCHEV report are located in the two regions; and

Whereas, Virginia's research universities must be located near its technology businesses if the Commonwealth is going to be on the world stage with an intertwined and vibrant academic research environment and entrepreneurship culture; and

Whereas, across the Commonwealth, several universities have gained eminence in critical fields of science and technology and attracted top students from the Commonwealth, the nation, and internationally; and

Whereas, most of the graduates of these leading-edge programs are unable to find jobs in their fields near where they studied causing many of them to move; and

Whereas, these graduates are as likely to move out of Virginia as they are to relocate within Virginia; and

Whereas, this situation stymies collaboration between Virginia's research universities, the private sector and the federal customers that drive much of Virginia's technology-based business activity; and

Whereas, co-location of research space and equipment for shared use and partnership between universities, federal labs and the private sector can produce enhanced access to cutting-edge equipment, decreased expense associated with capital costs and equipment, and more professional collaboration and shared objectives between Virginia's various research actors; and

Whereas, enhancing the capabilities of Virginia's universities to conduct sustained and significant research programs in close proximity to leading-edge companies and institutions would contribute enormously to improving leverage of existing private sector assets and expenditures while the private sector would gain better access to faculty and graduate student expertise; and

Whereas, a November 2003 study by the VRTAC Subcommittee on The Creation of New High-Technology Industries in Virginia recommended that Virginia look seriously at establishing an integrated research and academic campus in northern Virginia; and

Whereas, such an institution would enable a student to pursue a degree in nanotechnology from one institution, while taking courses from another institution at the

same campus, and working on cutting-edge research projects in the private sector; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. The Virginia Research and Technology Advisory Commission (VRTAC) shall continue its examination of the establishment of integrated research and academic campuses in the Commonwealth. The examination shall include (i) the feasibility of building or utilizing existing facilities for an academic research and advanced education enterprise in northern Virginia and in Hampton Roads; (ii) the requirements and policies necessary to establish a graduate school component that features participation from all universities in the Commonwealth; and (iii) a review of other options for enhancing the research capabilities of the Commonwealth's public institutions and leveraging the Commonwealth's proximity to the research activities of the private sector and federal government. Technical assistance shall be provided by the Secretary of Technology, the Secretary of Commerce and Trade, the Secretary of Education, the State Council of Higher Education for Virginia, and the Joint Commission on Technology and Science as may be permitted by each participant's time and resource availability. The Virginia Research and Technology Advisory Commission (VRTAC) shall submit to the Division of Legislative Automated Systems an executive summary and report of its findings to the Governor and the General Assembly no later than November 30, 2004. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.*

### **§ 3. Application of Proceeds**

*The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement and equipping of the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs shall be used to pay such BANs, refunded bonds and refunded BANs.*

*§ 4. Details, sale of bonds and BANs. Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the*

*consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a)(3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds, Series....".*

**§ 5. Execution of bonds and BANs.**

*Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer*

*before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.*

*§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

*§ 7. Revenues. Each institution of higher learning mentioned above is hereby authorized (i) to fix, revise, charge and collect rates, fees and charges for or in connection with the use, occupancy and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

*§ 8. Investments and Contracts. A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs or investments, in whole or in part, on the interest rate, cash flow or other basis desired by the Commonwealth. Such contract or other arrangement may include without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by*

*the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B of this section.*

*§9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

*§ 10. Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest*

*on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

*§ 11. Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9(c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.*

*§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.*

*§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.*

2. That Chapters 808 and 815 of the Acts of Assembly of 2002 and Chapters 4 and 157 of the Acts of Assembly of 2003 are repealed; however, such repeal shall not operate to invalidate, alter the security, or prohibit the refunding of bonds heretofore issued pursuant to such acts.

## Chapter 7 Opiate addiction; standards for issuance of new licenses to providers of treatment.

An Act to require regulations for the evaluation of the need and appropriateness for certain providers; moratorium.

[\[S 753\]](#)

Approved February 25, 2005

Whereas, a number of new clinics for the treatment of persons with opiate addiction have been proposed or licensed in the Commonwealth in the last several years; and  
Whereas, most clinics treating persons with opiate addiction dispense Methadone, a replacement drug that is taken for years by persons with opiate addiction, in many cases, for life; and

Whereas, although Methadone neutralizes withdrawal symptoms and stabilizes persons with opiate addiction, Methadone does not cure the addiction; and

Whereas, prior to 2000, opiate dependence treatment was only available through treatment clinics authorized by federal law and regulation to dispense Methadone or other Schedule II drugs for such treatment; and

Whereas, in recent years several developments at the federal level may increase the availability of treatment for opiate addiction, i.e., the Food & Drug Administration approved several new drugs for opiate addiction treatment (Subutex and Suboxone) and pursuant to the federal Drug Addiction Treatment Act (DATA) of 2000, these drugs can be prescribed through physicians' offices; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Standards for the evaluation of the need and appropriateness for certain new licenses; moratorium on licensure of providers until standards in place.*

*A. In addition to the existing regulations, the State Mental Health, Mental Retardation and Substance Abuse Services Board shall establish, pursuant to the Administrative Process Act, standards to evaluate the need and appropriateness for the issuance of new licenses to providers of treatment for persons with opiate addiction through the use of*

*Methadone or any other controlled substance approved by the Food & Drug Administration for the use in opiate treatment. The standards shall include criteria for (i) determination of need for new clinics, taking into consideration (a) the number of persons residing in the service area who are known or reasonably estimated to be in need of such treatment; (b) the availability of relevant staff in the service area; and (c) the building or space proposed to be the site of the new clinic and its suitability; (ii) the availability of counseling or other services necessary for effective treatment of persons with opiate addiction; (iii) existing access to such treatment, including through physicians' offices; (iv) the reasonable parameters, both geographic and demographic, of a clinic's service area; and (v) the proposed clinic's plan of operation, including security and accountability measures.*

*B. Notwithstanding the Commissioner of the Department of Mental Health, Mental Retardation and Substance Abuse Services' discretion to grant licenses to providers of treatment for persons with opiate addiction through the use of the controlled substance, methadone, or other opioid replacements, a moratorium on the issuance of new licenses for such providers shall be in effect from the enactment date of this act until the date on which the regulations required by subsection A become effective.*

2. That the State Mental Health, Mental Retardation and Substance Abuse Services Board shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

3. That an emergency exists and this act is in effect from its passage.

*made on December 31, 2004, and not in January 2005.*

2. That an emergency exists and this act is in force from its passage.

F. If at any time during any fiscal year it shall appear that the cash disbursements of the Commission will exceed its cash receipts for such fiscal year, including amounts appropriated to it by the participating political subdivisions, the Commission may request supplemental appropriations from the participating political subdivisions and any other political subdivision.

## **Chapter 64 Methadone clinics; prohibited in certain counties.**

An Act to require regulations for the evaluation of the need and appropriateness for certain providers; moratorium.

[\[H 1778\]](#)

Approved March 20, 2005

Whereas, a number of new clinics for the treatment of persons with opiate addiction have been proposed or licensed in the Commonwealth in the last several years; and

Whereas, most clinics treating persons with opiate addiction dispense Methadone, a replacement drug that is taken for years by persons with opiate addiction, in many cases, for life; and

Whereas, although Methadone neutralizes withdrawal symptoms and stabilizes persons with opiate addiction, Methadone does not cure the addiction; and

Whereas, prior to 2000, opiate dependence treatment was only available through treatment clinics authorized by federal law and regulation to dispense Methadone or other Schedule II drugs for such treatment; and

Whereas, in recent years several developments at the federal level may increase the availability of treatment for opiate addiction, i.e., the Food & Drug Administration approved several new drugs for opiate addiction treatment (Subutex and Suboxone) and pursuant to the federal Drug Addiction Treatment Act (DATA) of 2000, these drugs can be prescribed through physicians' offices; now, therefore,

Be it enacted by the General Assembly of Virginia:

1.

*§ 1. Standards for the evaluation of the need and appropriateness for certain new licenses; moratorium on licensure of providers until standards in place.*

*A. In addition to the existing regulations, the State Mental Health, Mental Retardation and Substance Abuse Services Board shall establish, pursuant to the Administrative Process Act, standards to evaluate the need and appropriateness for the issuance of new licenses to providers of treatment for persons with opiate addiction through the use of Methadone or any other controlled substance approved by the Food & Drug Administration for the use in opiate treatment. The standards shall include criteria for (i) determination of need for new clinics, taking into consideration (a) the number of persons residing in the service area who are known or reasonably estimated to be in need of such treatment; (b) the availability of relevant staff in the service area; and (c) the building or space proposed to be the site of the new clinic and its suitability; (ii) the availability of counseling or other services necessary for effective treatment of persons with opiate addiction; (iii) existing access to such treatment, including through physicians' offices; (iv) the reasonable parameters, both geographic and demographic, of a clinic's service area; and (v) the proposed clinic's plan of operation, including security and accountability measures.*

*B. Notwithstanding the Commissioner of the Department of Mental Health, Mental Retardation and Substance Abuse Services' discretion to grant licenses to providers of treatment for persons with opiate addiction through the use of the controlled substance, methadone, or other opioid replacements, a moratorium on the issuance of new licenses for such providers shall be in effect from the enactment date of this act until the date on which the regulations required by subsection A become effective.*

2. That the State Mental Health, Mental Retardation and Substance Abuse Services Board shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

## Chapter 241 Interstate Route 81 Corridor Multistate Transportation Planning Initiative; created.

An Act to provide for the establishment of the Interstate Route 81 Corridor Multistate Transportation Planning Initiative.

[\[S 778\]](#)

Approved March 20, 2005

Whereas, the General Assembly has determined that the transportation of freight and passengers by rail frequently provides a less expensive, safer, and more environmentally friendly alternative to the construction of additional highways; and  
Whereas, hundreds of miles of railroads in the Commonwealth have been abandoned and dismantled within the last 50 years, and hundreds of additional miles of railroad tracks are currently in need of repair, poorly utilized, and threatened with abandonment; and

Whereas, improvements and repairs to rail equipment and infrastructure can, in many circumstances, reduce or eliminate the cost to the public of highway construction, and can also reduce accidents, traffic congestion, fuel consumption, and air and water pollution; and

Whereas, the railroad companies that own most of the railroad infrastructure in the Commonwealth do not have the financial ability to make all of the repairs and improvements to rail infrastructure that would be in the public interest; and

Whereas, a higher-speed dual-track railway would enable the diversion of up to 30 percent of the through truck traffic from interstate highways to "truck ferries"; and

Whereas, there is a pressing public need to provide a mechanism for making improvements and repairs to the Commonwealth's rail infrastructure that are clearly in the public interest and in assisting in the financing of such improvements; now, therefore,

Be it enacted by the General Assembly of Virginia:

1

. § 1. *The Commonwealth of Pennsylvania, and the States of New York, New Jersey, West Virginia, Maryland, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, and Louisiana, primary states served by the Interstate Route 81 corridor, be requested to adopt an I-81 corridor multistate transportation planning initiative.*

*§ 2. The Interstate Route 81 corridor multistate transportation planning initiative shall:*

- 1. Study, develop, and promote a plan for the design, construction, financing, and operation of optimal freight and passenger transportation facilities in the I-81 corridor, a national and international transportation corridor, through and between points in the Commonwealth and other states;*
- 2. Coordinate efforts to establish the least costly and most efficient combination of transportation infrastructure development including highway expansion, higher-speed rail service, coordinated user regulations, and enforcement proposals at the federal, state, and local government levels;*
- 3. Coordinate and require joint planning by the Virginia Department of Transportation and the departments of transportation in other states; and*
- 4. Seek and provide funding and resources for innovative and appropriate passenger and freight transportation improvement concepts, including improved infrastructure, user regulation, and enforcement options, which most effectively meet the purpose and need of the corridor for a safe, efficient, least costly, and least environmentally damaging approach.*

2. Early retirement; applicable to teachers, state employees, and certain others. - The allowance shall be determined in the same manner as for normal retirement with creditable service and average final compensation being determined as of the date of actual retirement. If the member has less than 30 years of service at retirement, the amount of the retirement allowance shall be reduced on an actuarial equivalent basis for the period by which the actual retirement date precedes the earlier of (i) his normal retirement date or (ii) the first date on which he would have completed a total of 30 years of creditable service. If the member has less than 30 years of creditable service, the retirement allowance shall be reduced for the period by which the actual retirement date precedes the earlier of (i) his normal retirement date or (ii) the first date on which he would have completed a total of at least 30 years of creditable service and his then creditable service plus his then attained age would have been equal to 90 or more.

The provisions of this subdivision shall apply to the employees of any political subdivision that participates in the retirement system. The participating political subdivision may, however, elect to provide its employees with the early retirement allowance set forth in subdivision 2 of this subsection. Any election pursuant to this subdivision shall be set forth in a legally adopted resolution.

4. Additional allowance. - In addition to the allowance payable under subdivisions 1, 2, and 3 of this subsection, a member shall receive an additional allowance which shall be the actuarial equivalent, for his attained age at the time of retirement, of the excess of his accumulated contributions transferred from the abolished system to the retirement system, including interest credited at the rate of two percent compounded annually since the transfer to the date of retirement, over the annual amounts equal to four percent of his annual creditable compensation at the date of abolishment for a period equal to his period of membership in the abolished system.

5. 50/10 retirement. - The allowance shall be payable in a monthly stream of payments equal to the greater of (i) the actuarial equivalent of the benefit the member would have received had he terminated service and deferred retirement to age 55 or (ii) the actuarially calculated present value of the member's accumulated contributions, including accrued interest.

§ [10.1-1322](#). Permits.

A. Pursuant to regulations adopted by the Board, permits may be issued, amended, revoked or terminated and reissued by the Department and may be enforced under the provisions of this chapter in the same manner as regulations and orders. Failure to comply with any condition of a permit shall be considered a violation of this chapter and

investigations and enforcement actions may be pursued in the same manner as is done with regulations and orders of the Board under the provisions of this chapter.

B. The Board by regulation may prescribe and provide for the payment and collection of annual permit program fees for air pollution sources. Annual permit program fees shall not be collected until (i) the federal Environmental Protection Agency approves the Board's operating permit program established pursuant to Title V of the federal Clean Air Act or (ii) the Governor determines that such fees are needed earlier to maintain primacy over the program. The annual fees shall be based on the actual emissions (as calculated or estimated) of each regulated pollutant, as defined in § 502 of the federal Clean Air Act, in tons per year, not to exceed 4,000 tons per year of each pollutant for each source. The annual permit program fees shall not exceed a base year amount of \$25 per ton using 1990 as the base year, and shall be adjusted annually by the Consumer Price Index as described in § 502 of the federal Clean Air Act. Permit program fees for air pollution sources who receive state operating permits in lieu of Title V operating permits shall be paid in the first year and thereafter shall be paid biennially. The Board shall also collect permit application fee amounts not to exceed \$30,000 from applicants for a permit for a new major stationary source. The permit application fee amount paid shall be credited towards the amount of annual fees owed pursuant to this section during the first two years of the source's operation. The fees shall be exempt from statewide indirect costs charged and collected by the Department of Accounts.

C. When adopting regulations for permit program fees for air pollution sources, the Board shall take into account the permit fees charged in neighboring states and the importance of not placing existing or prospective industry in the Commonwealth at a competitive disadvantage.

D. On *or before* January 1, 1993, and December 1 of every even-numbered year thereafter, the Department shall make an evaluation of the implementation of the permit fee program and provide this evaluation in writing to the Senate Committee on Agriculture, Conservation and Natural Resources, the Senate Committee on Finance, the House Committee on Appropriations, the House Committee on Agriculture, Chesapeake and Natural Resources, and the House Committee on Finance. This evaluation shall include a report on the total fees collected, the amount of general funds allocated to the Department, the Department's use of the fees and the general funds, the number of permit

applications received, the number of permits issued, the progress in eliminating permit backlogs, and the timeliness of permit processing.

E. To the extent allowed by federal law and regulations, priority for utilization of permit fees shall be given to cover the costs of processing permit applications in order to more efficiently issue permits.

F. Fees collected pursuant to this section shall not supplant or reduce in any way the general fund appropriation to the Department.

G. The permit fees shall apply to permit programs in existence on July 1, 1992, any additional permit programs that may be required by the federal government and administered by the Board, or any new permit program required by the Code of Virginia.

By September 1 of each year, the Supreme Court, or its designee, shall transmit a report of the evaluation in the final year of the term of each justice and judge whose term expires during the next session of the General Assembly to the Chairmen of the House and Senate Committees for Courts of Justice. ~~This~~ *The reporting requirement of this section shall become effective on January 1, 2004 when funds are appropriated for this program and the first justice or judge is evaluated.*

8. Community outreach to build strong school, business, and community partnerships, and to promote parental involvement in the educational process of participating children;
9. Specific, measurable goals and objectives and an evaluation component to determine the program's effectiveness in preparing students participating in the program for college, increasing academic achievement, and lessening the need for remediation of such students who attend college.

C. Upon completion of the initial school year of the Advancement Via Individual Determination Program and at least annually thereafter, each school board

implementing such program shall require submission of interim evaluation reports of the program. *If funded by an appropriation pursuant to subsection A*, each school board having an Advancement Via Individual Determination Program ~~pursuant to subsection A of this section~~ shall report the status, effectiveness, and results of such program no later than November 30 of the year following the completion of the initial school year ~~and annually thereafter~~ to the Board of Education, which shall transmit such reports to the Governor and the General Assembly.

The Commission shall have all powers and duties necessary to carry out the provisions of this chapter and to exercise the control of horse racing as set forth in § [59.1-364](#). Such powers and duties shall include but not be limited to the following:

1. The Commission is vested with jurisdiction and supervision over all horse racing licensed under the provisions of this chapter including all persons conducting, participating in, or attending any race meeting. It shall employ such persons to be present at race meetings as are necessary to ensure that they are conducted with order and the highest degree of integrity. It may eject or exclude from the enclosure or from any part thereof any person, whether or not he possesses a license or permit, whose conduct or reputation is such that his presence may, in the opinion of the Commission, reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of horse racing.
2. The Commission, its representatives, and employees shall visit, investigate, and have free access to the office, track, facilities, satellite facilities or other places of business of any license or permit holder, and may compel the production of any of the books, documents, records, or memoranda of any license or permit holder for the purpose of satisfying itself that this chapter and its regulations are strictly complied with. In addition, the Commission may require the production of an annual balance sheet and operating statement of any person licensed or granted a permit pursuant to the provisions of this chapter and may require the production of any contract to which such person is or may be a party.
3. The Commission shall promulgate regulations and conditions under which horse racing with pari-mutuel wagering shall be conducted in the Commonwealth, and all such other regulations it deems necessary and appropriate to effect the purposes of this chapter, including a requirement that licensees post, in a conspicuous place in every place where pari-mutuel wagering is conducted, a sign which bears a toll-free telephone number for "Gamblers Anonymous" or other organization which provides assistance to compulsive gamblers. Such regulations shall include provisions for affirmative action to assure participation by minority persons in contracts granted by the Commission and its licensees. Nothing in this subdivision shall be deemed to preclude private local ownership or participation in any horse racetrack. Such regulations may include penalties for violations. The regulations shall be subject to the Administrative Process Act (§ [2.2-4000](#) et seq.).

4. The Commission shall promulgate regulations and conditions under which simulcast horse racing shall be conducted at a licensed horse racetrack or satellite facility in the Commonwealth and all such other regulations it deems necessary and appropriate to effect the purposes of this chapter. Such regulations shall include provisions that all simulcast horse racing shall comply with the Interstate Horse Racing Act of 1978 (15 U.S.C. § 3001 et seq.) and shall require the holder of an unlimited license to schedule not less than 150 live racing days in the Commonwealth each calendar year; however, the Commission shall have the authority to alter the required number of live racing days based on what the Commission deems to be in the best interest of the Virginia horse industry. Such regulations shall authorize up to 10 satellite facilities and restrict majority ownership of satellite facilities to an entity licensed by the Commission which owns a horse racetrack in the Commonwealth. Nothing in this subdivision shall be deemed to preclude private local ownership or participation in any satellite facility. The Commission shall promulgate regulations and conditions regulating and controlling a method of pari-mutuel wagering conducted in the Commonwealth that is permissible under the Interstate Horseracing Act, § 3001 et seq. of Chapter 57 of Title 15 of the United States Code, and in which an individual may establish an account with an entity, approved by the Commission, to place pari-mutuel wagers in person or electronically. Such regulations shall include, but not be limited to, (i) standards, qualifications, and procedures for the issuance of a license to any such entity or entities pursuant to § [59.1-375](#) to operate pari-mutuel wagering in the Commonwealth, (ii) provisions regarding access to books, records, and memoranda, and submission to investigations and audits, as authorized by subdivisions 2 and 10 of this section, and (iii) provisions regarding the collection of all revenues due to the Commonwealth from the placing of such wagers. No pari-mutuel wager may be made on or with any computer owned or leased by the Commonwealth, or any of its subdivisions, or at any public elementary or secondary school, or any public college or university. The Commission also shall ensure that, except for this method of pari-mutuel wagering, all wagering on simulcast horse racing shall take place only at a licensed horse racetrack or satellite facility. Notwithstanding the provisions of § [59.1-392](#), the allocation of revenue from a method of pari-mutuel wagering in which an individual may establish an account with an entity approved by the Commission to place pari-mutuel wagers in person or electronically shall include a licensee fee to the Commission, and shall be subject to a contractual agreement, approved by the Commission, between such entity and an unlimited licensee and representatives of the recognized majority horsemen groups concerning

the distribution of the remaining portion of the retainage. Nothing in this subdivision shall be construed to limit the Commission's authority as set forth elsewhere in this section.

6. The Commission may issue subpoenas for the attendance of witnesses before it, administer oaths, and compel production of records or other documents and testimony of such witnesses whenever, in the judgment of the Commission, it is necessary to do so for the effectual discharge of its duties.

7. The Commission may compel any person holding a license or permit to file with the Commission such data as shall appear to the Commission to be necessary for the performance of its duties including but not limited to financial statements and information relative to stockholders and all others with any pecuniary interest in such person. It may prescribe the manner in which books and records of such persons shall be kept.

8. The Commission may enter into arrangements with any foreign or domestic government or governmental agency, for the purposes of exchanging information or performing any other act to better ensure the proper conduct of horse racing.

9. The Commission shall report annually *on or before March 1* to the Governor and the General Assembly, which report shall include a financial statement of the operation of the Commission.

10. The Commission may order such audits, in addition to those required by § [59.1-394](#), as it deems necessary and desirable.

11. The Commission shall upon the receipt of a complaint of an alleged criminal violation of this chapter immediately report the complaint to the Attorney General of the Commonwealth and the State Police for appropriate action.

12. The Commission shall provide for the withholding of the applicable amount of state and federal income tax of persons claiming a prize or pay-off for a winning wager and shall establish the thresholds for such withholdings.

13. The Commission, its representatives and employees may, within the enclosure, stable, or other facility related to the conduct of racing, and during regular or usual business hours, subject any (i) permit holder to personal inspections, including alcohol and drug testing for illegal drugs, inspections of personal property, and inspections of other property or premises under the control of such permit holder and (ii) horse eligible to race at a race meeting licensed by the Commission to testing for substances foreign to the natural horse within the racetrack enclosure or other place where such horse is kept. Any item, document or record indicative of a violation of any provision of this chapter or Commission regulations may be seized as evidence of such violation. All permit holders consent to the searches and seizures authorized by this subdivision, including breath, blood and urine sampling for alcohol and illegal drugs, by accepting the permit issued by

the Commission. The Commission may revoke or suspend the permit of any person who fails or refuses to comply with this subdivision or any rules of the Commission. Commission regulations in effect on July 1, 1998, shall continue in full force and effect until modified by the Commission in accordance with law.

14. The Commission shall require the existence of a contract between the licensee and the recognized majority horseman's group providing for purses and prizes. Such contract shall be subject to the approval of the Commission, which shall have the power to approve or disapprove any of its items, including but not limited to the provisions regarding purses and prizes. Such contracts shall provide that on pools generated by wagering on simulcast horse racing from outside the Commonwealth, (i) for the first \$75 million of the total pari-mutuel handle for each breed, the licensee shall deposit funds at the minimum rate of five percent in the horsemen's purse account, (ii) for any amount in excess of \$75 million but less than \$150 million of the total pari-mutuel handle for each breed, the licensee shall deposit funds at the minimum rate of six percent in the horsemen's purse account, (iii) for amounts in excess of \$150 million for each breed, the licensee shall deposit funds at the minimum rate of seven percent in the horsemen's purse account. Such deposits shall be made in the horsemen's purse accounts of the breed that generated the pools and such deposits shall be made within five days from the date on which the licensee receives wagers.

15. Notwithstanding the provisions of § [59.1-391](#), the Commission may grant provisional limited licenses or provisional unlimited licenses to own or operate racetracks or satellite facilities to an applicant prior to the applicant securing the approval through the local referendum required by § [59.1-391](#).
