- Make your selections in the **Student Search** menu.
- Click **Submit**.
- Select a student.

**#3 CUSTOM STUDENT REPORTS**

- Create or select a **Custom Student Report**.
- Select a student.

**#4 PROJECTION SUMMARIES**

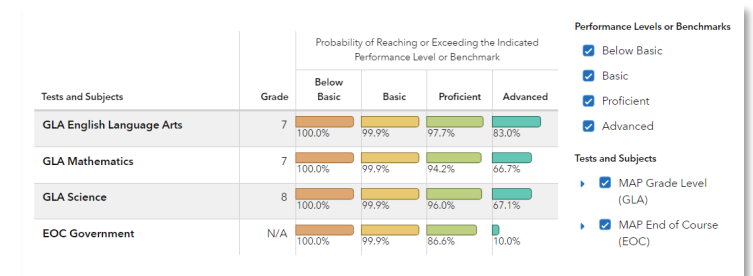

- Make your selections to open a report.
- Click on the number of students in a category.
- Select a student.

### Features of the Student Report

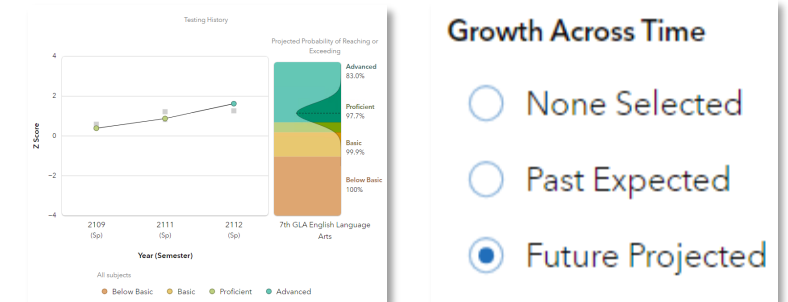

**PROJECTIONS AT A GLANCE**

View all of a student's available projections together.

**VIEW RESULTS ACROSS TIME**

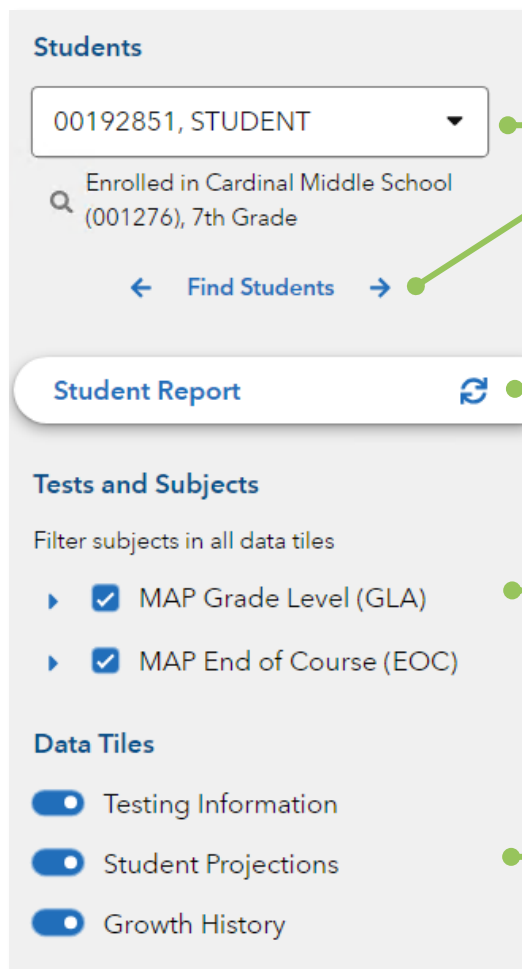

Examine students' testing history, past expected, and future projected scores.

**EXPANDED DATA OPTIONS**

Choose from a selection of data tiles and subjects, even viewing a student's growth by LEA or Building depending upon your level of access.

What do I click?

What will I see?

A specific student's testing history in English Language Arts

- ⇒ In the **Reports** menu, select **Student Report**
- ⇒ In the filter panel to the left, click **Find Students** to search and select a student
- ⇒ On the **Testing Information** tile, select **English Language Arts** as the **Focus Subject**

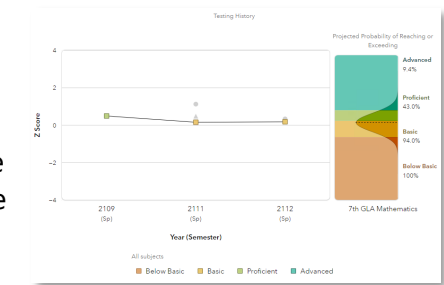

You will see a graph with the student's testing history in English Language Arts. There will also be a table below the graph containing the student's full testing history.

A student's testing history in Math, along with their projected performance level on the upcoming Math assessment

- ⇒ On the **Testing Information** tile, select **Math** as the **Focus Subject**
- ⇒ Under **Growth Across Time**, select **Future Projected**
- ⇒ In the **Projection** drop-down menu, select the upcoming Math assessment

You will see a graph of the student's testing history in Math plus a colorful display with the most likely performance and the probabilities that they will meet or exceed each level.

How to view all of the available projections for a student

- ⇒ Use the filter panel to the left to select all options under **Tests and Subjects**
- ⇒ Turn off all **Data Tiles** except **Student Projections**
- ⇒ Examine the data

You will see all of the student's available projections to upcoming assessments, along with filters that allow you to narrow your focus as needed.

**Student Projections**

A projection is a reliable indicator of a student's likelihood of reaching or exceeding future performance levels or benchmarks. It is based on the student's past performance on assessments across subjects.

Tests and Subjects	Grade	Probability of Reaching or Exceeding the Indicated Performance Level or Benchmark				Performance Levels or Benchmarks
		Below Basic	Basic	Proficient	Advanced	
GLA English Language Arts	7	100.0%	99.9%	70.7%	31.1%	<input checked="" type="checkbox"/> Below Basic <input checked="" type="checkbox"/> Basic <input checked="" type="checkbox"/> Proficient <input checked="" type="checkbox"/> Advanced
GLA Mathematics	7	100.0%	94.0%	53.0%	9.2%	<input checked="" type="checkbox"/> MAP Grade Level (GLA) <input checked="" type="checkbox"/> MAP End of Course (EOC)
GLA Science	8	100.0%	99.0%	61.1%	15.2%	
EOC Government	N/A	100.0%	75.0%	10.5%	<1.0%	

How a student was expected to score last year compared to how they actually scored

- ⇒ Click refresh
- ⇒ In the **Testing Information** tile filter, select **Past Expected** from the **Growth Across Time** menu
- ⇒ Select the year using radio button below the graph

You will see a distribution curve with the student's expected score in the center and their observed score on the line graph. Below the radio button is the percentile of that observed score within their expected score distribution.

If a student might have had limited access to effective instruction in the past

- ⇒ Click refresh
- ⇒ Turn off all **Data Tiles** except for **Growth History**

Depending on your account permissions, you will see the Growth results for the student's LEA and Building by test and subject.

Tests and Subjects	Entity	Year (Semester)	
		2111 (Sp)	2112 (Sp)
GLA English Language Arts	LEA	5	6
	Building	5	6
GLA Mathematics	LEA	5	6

What do the data tiles tell me?

Testing Information

This data tile appears at the top of the default view and provides information about the student's testing history. The tile filter also provides the following Growth Across Time options:

- **None Selected**—displays a student's testing history.
- **Past Expected**—adds a bell curve representing the student's expected score on a center dotted line enabling you to compare that with the student's observed score. Expected scores were determined after the student tested using the student's testing history and the student's own cohort's statewide data.
- **Future Projected**—adds a bell curve representing the student's most likely score on a center dotted line enabling you to compare that with the color-coded backdrop of all possible performance levels. Their probabilities of meeting or exceeding each performance level or benchmark are listed along the right side of the graph.

Student Projections

This is the second tile displayed on the default report. It provides a reliable indicator of the student's likelihood of reaching or exceeding future performance levels or benchmarks. It is based on the student's past performance on assessments across subjects.

Growth History

This is the third tile displayed on the default report. Depending on your account permissions, it displays the LEA and Building growth measures at the time the student was connected to them.
