CITY OF SEQUIM

2008 STRATEGIC PLAN: MUNICIPAL COURT SERVICES

"It is our goal to meet the needs of the public through accessibility, accountability, visibility, and quality customer service while protecting the rights of the victims, witnesses, Citizens of Sequim, and accused."

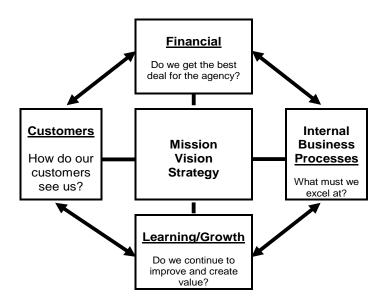

FALL 2008

TO: City Councilors

SUBJECT: Review of Municipal Court Services

Throughout this analysis, the team consistently used the below model which the police department adopted in 2007.

This overview report or strategic plan specific to municipal court services is intended to serve as a road map for city management with the support and oversight of the City Council to follow and reference in a goal-oriented quest to build the very best municipal capabilities to serve the mounting public safety needs of our growing community in a cost-conscious manner.

Municipal Court Operations have grown substantially:

- From 2004-2007 the number of Sequim infractions has increased by 632% while the Sequim Criminal Citations have increased by 253%.
- Future years will show that the expense of not having our Municipal Court in Sequim will be costly.
- The next window of opportunity will be 2014.

<u>Customer Service, Local Efficiencies and Cost-Benefit:</u>

- The level of customer service will increase to our victims and witnesses as the court will be centrally located within the City of Sequim.
- The cost-benefits are increased patrol time and decreased response time due to Officers remaining in our City versus driving over 30 miles for a court appearance.
- Have more control over costs incurred for jail and public defender costs as the City will negotiate our own contracts.
- Set our own court hours and trial schedule that could accommodate officer and staff schedules.
- Prosecutor travel to Port Angeles 4-5 times a week costing \$3,000 in mileage annually.

Does the investment warrant the cost?

Facilities seem to be the least of the hurdles for this project to surmount. Currently, District Court operates a traffic court session once a month in the Transit Center/City Council Chambers located at 2nd and Cedar Street. That facility would be adequate for the near term to run municipal court.

In the long-term, the police department cries out for a new police facility – that need cannot be understated and must remain in the forefront of the community's eyes. However, such a facility can easily be designed to include a shared use Courtroom, provide offices for both the small Court Staff and City prosecutor. This shared use concept offers huge benefits to the community.

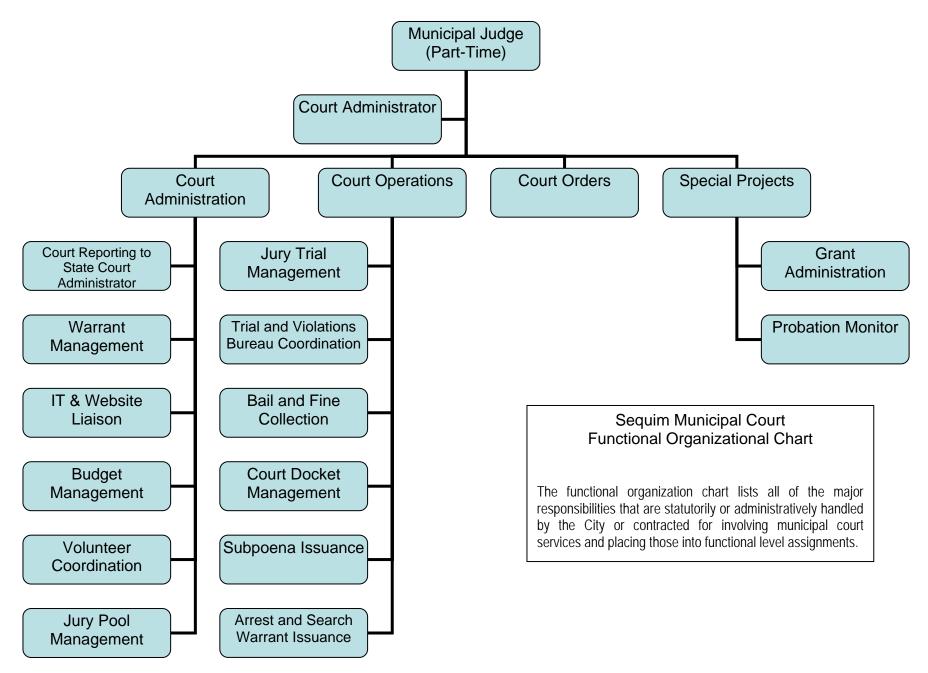

This study is in response to discussions beginning in 2007, identified needs in the annual update of the **2012 Policing Plan**, as well as discussions during the FY2008 budget process and subsequent presentations by the City Attorney's Office – the City Manager, City Attorney's Office and the Police Department collaborated to complete this study to report on the cost-benefit of the City reestablishing its own stand alone Municipal Court.

Throughout this study it became readily apparent that the Sequim community has grown past the tipping point where it is now time to re-evaluate City's contractual relationship with Clallam County and the City's use of District Court to handle city court cases.

- Note that 2011 the prediction is that the revenues will decrease and continue to decrease the following years.
- The State Remittance is increased by 15%.
- The caseload numbers are estimated at a 10% increase per year.
