4.0 Declaration of policy

This policy outlines the roles, responsibilities, and best practice recommendations for the use of social media/new media by individual Council members in their capacity as elected officials. The City Council is committed to open and progressive communications between Councilmembers and constituents utilizing available and future on line technologies within the limits of the law.

5.0 Definitions

“Social Media” is third-party hosted online technologies that facilitate social interactions and dialogue. These online technologies are operated by non-city hosted services and may include, but are not limited to: social networking sites (MySpace, FaceBook, Linked-In), micro-blogging tools (Twitter, RSS feeds), audiovisual networking sites (YouTube, Flickr), blogs, etc.

“Comment” is a response to an article or social media content submitted by a commenter.

"Councilmember" here includes Councilmembers and any staff working on a Councilmember's behalf to represent him or her using a social media tool.

6.0 General Policy

Social media may be used by the Vancouver City Council and/or individual Council members to communicate with the public. When used in relation to City business, social media must be archived in compliance with applicable record retention laws. To ensure adherence to applicable record retention schedules, Council members should register all social media accounts used for City business with the City Information Technology Department so that such accounts may be set-up for appropriate social capture and archiving.

While social media, with its use of popular abbreviations and shorthand, does not adhere to standard conventions of correspondence, the content and tenor of online conversations, discussions, and information posts should model the same professional behavior displayed during Council meetings and community meetings.

Social media are not to be used as mechanisms for conducting official city business other than to informally communicate with the public. Examples of business that may not be conducted through social media include making policy decisions, official public noticing, and discussing items of legal or fiscal significance that have not previously been released to the public. Councilmembers' social media site(s) should contain links directing users back to the City's official website for in-depth information, forms, documents or online services necessary to conduct official city business.

Upon the advice and recommendation of the City Manager and staff and at the discretion of the Council, social media applications, tools or sites may be limited or banned by Council if they are not or cannot be used in compliance with this policy.

7.0 Ethics and Elections Rules of Compliance

All content posted on individual Councilmember's City-registered social media sites shall comply with Council Policies and Procedures, City ordinances and administrative rules and Washington State law regulating elected officials.

No content that promotes or advertises commercial services, entities, or products may be posted.

Councilmembers will not post or release proprietary, confidential or sensitive information on social media websites.

Councilmembers shall not post comments or links to any content that endorses or opposes political candidates or ballot propositions, including links to a Councilmember's campaign site, on any City-registered social media site (RCW 41.06.250; RCW 42.17.130; RCW 42.17.190).

8.0 Records Retention Act Compliance

State and local records retention laws and schedules apply to social media content. All social media content that is required to be retained by the City shall be maintained for the required retention period on a City server in a format that preserves the metadata of the original record. Prior approval of the retention format and procedures *for each social media tool being used* by Council members to conduct City business must be received from the City Manager upon the advice and recommendations of the Public Records and Information Technology staff. It is the responsibility of each Councilmember to either register their social media account(s) with the City Information Technology Department for capture and archiving by the City, or independently maintain current, approved retention procedures, and ensure that those procedures are followed. Councilmembers who do not register applicable social media accounts with the City should consult with the City Manager and appropriate staff for the applicable retention schedule and method.

9.0 Public Records Act Compliance

Any content maintained in a social media format, i.e., FaceBook, YouTube, Twitter, etc., that is related to City business, including communication between an individual Councilmember and constituents or the general public, and a site's listing of "friends" or "followers", may be considered a public record subject to disclosure under the state Public Records Act.

Any social media tools used should clearly state that all content submitted by members of the public is potentially subject to public disclosure pursuant to the Public Records Act RCW 42.56. If it is not possible to display this notice prominently on the site, Councilmembers must notify users by including a link from the site to the Public Records notice set out in Exhibit B, notify new users via response to posts, and/or periodically notify existing users via broadcast message.

Under the state Public Records Act, the City is responsible for responding accurately and completely to any public records request including a request for public records on social media maintained by individual Councilmembers. Therefore it is critical that records have been retained according to approved procedures.

Users and visitors to social media sites shall be notified that public disclosure requests must be directed to the City's Public Records Officer pursuant to the City's Public Records Disclosure Policy.

10.0 Open Public Meetings Act Compliance

Communication between Councilmembers via social media, as with telephone and email, may constitute a "meeting" under the Open Public Meetings Act. For this reason, Councilmembers are strongly discouraged from "friending" other Councilmembers.

In addition, receiving or making comments regarding quasi-judicial matters via social media may violate the Council Policy and Procedure 100-39 (Appearance of Fairness Standards and Procedures- Resolution M-3622). To avoid receiving any constituent comments on quasi-judicial matters that may violate the Appearance of Fairness Doctrine, Councilmembers are strongly encouraged to maintain social media sites with settings that can restrict users ability to post content.

11.0 Content Guidelines

Users of social media sites who submit comments should be clearly notified that the intended purpose of the site is to serve as a mechanism for informal communication between Councilmembers and the public regarding the topics discussed. If the public is allowed to post comments to a Councilmember's site, the Use Policy set out in Exhibit A must be displayed or made available by hyperlink. Any content removed in compliance with the Use Policy must be retained, including the time, date, and identity of the poster when available. *See above* Records Retention Act Compliance.

To avoid violations of the Use Policy set out in Exhibit A regarding the content submitted to social media sites, Councilmembers are strongly encouraged to maintain social media sites with settings that can restrict users ability to comment.

12.0 Equal Access

Sites requiring membership or subscription should be avoided. When posting information or soliciting feedback on such a site, always provide an alternate source for the same information or mechanism for feedback on the City's public web site, so that those who are not members of the social media site may have equal access. Sites should use the most open settings possible to allow the public to view content without requiring membership or login.

Appendix

General Approach

Maintain data online as long as possible.

Use retention processes and tools approved by the City's Information Technology Department.

Maintain current documentation of the approved method and schedule for preserving social media content.

Ideally, this process will store data in searchable electronic formats and will store information about transmissions, subscribers, and other metadata associated with the site.

Maintain original appearance and layout of social media site where possible.

Secure usernames and passwords for all sites by not sharing such information and using unique passwords to minimize the potential for cross site hacks and malicious mischief.

Consistently monitor activity and posts. Avoid stale or outdated information, respond to questions or responses, quickly remove inappropriate or spam content.

Notify site visitors that correspondence posted to a Councilmember's social media site will be considered public records and may be released per Chapter 42.56 RCW.

Notify visitors that individual Councilmember social media sites are not intended to be used to conduct official city business and any public records request must be made with the City's Public Records Officer.

Special Notes about text messaging, cellular phone and electronic tablet devices:

Regardless of whether the device used is paid or reimbursed by public funds, business conducted in the official capacity as a Councilmember is a public record. Care should be taken to ensure that records created are maintained and can be provided if requested. Know your device's capabilities and devise a strategy for archiving texts, call logs, and other communications.

Use of electronic devices for real-time communication between Councilmembers during Council meetings is discouraged. At the discretion of the Council, certain types of devices or use may be banned or limited. Each Councilmember is issued an electronic tablet device which is intended to facilitate the conduct of City business, including for use during Council meetings for accessing informational materials pertaining to the agenda items scheduled for discussion or action at the meeting. All content and use of these devices shall comply with Council Policies and Procedures, City ordinances and administrative rules, and the Washington State law regulating elected officials.

Video Posts

Videos posted by Councilmembers are likely to be of historical interest and archival value, as well as being public records. Consult with the City Manager and Public Records Officer regarding storage method and format of these videos so that they can be provided in

response to public records requests and later transferred to an archival video collection. Keep a record of which videos were posted, including dates and host site.

Exhibit A

The following content will be removed from this site: (1) comments not related to the topics for discussion; (2) comments in support of or opposition to political campaigns or ballot measures; (3) profane language; (4) discriminatory comments; (5) solicitations of commerce; (6) sexual content or links to sexual content; (7) encouragement of illegal activity; (8) information that may tend to compromise the safety or security of the public; and (9) content that violates a legal ownership interest of any party.

Exhibit B

All comments or other content posted to this site may be considered public records subject to public disclosure under the Washington State Public Records Act (RCW 42.56).
