# Budget Message

November 6, 2017

*Board of Commissioners*

*Alderwood Water & Wastewater District's Customers and Stakeholders:*

District staff are pleased to present Alderwood Water & Wastewater District Proposed 2018-2019 Budget for consideration by the Board of Commissioners. This document was developed through the efforts of many staff throughout the organization, and is more than simply funding for ongoing operations: it reflects the directions we plan to take in coming years to provide reliable water and wastewater systems that serve our current and future ratepayers.

The Puget Sound region is facing residential and commercial growth at rates rarely if ever seen here. As Seattle and King County housing costs soar, development in south Snohomish County has intensified. Furthermore, there are no signs that this trend will abate any time soon. Light rail service will reach Lynnwood at the south end of our district in the early 2020's, and a station on 128th Street at our north end is expected to open in the 2030's. The traditional single-family nature of our area will increasingly intensify and building heights in several areas will push skyward.

These demands place new challenges on us as we strive to provide service to the community. During 2017 the District developed a Strategic Plan to help make decisions on what projects to pursue, and its influence will be seen throughout this Budget. We need more construction inspectors to keep up with development and assure that new infrastructure is properly installed for long-term service. As water lines installed in the early years of our existence begin to age out, we need engineers to plan and carry out their replacement and upsizing. Our capital program includes work to increase the capacity of the Picnic Point Treatment Facility, and to deliver more wastewater to it. And generally, we increasingly need staff to coordinate with other agencies and utilities as easements in dense developments get jammed full of pipes and wiring.

Doing this work efficiently, and responding quickly to public needs, demands a portfolio of modern technological tools. We are in the process of installing a comprehensive GIS system, which will be a significant component of a future asset management system. Staff is also preparing to take us into a document management system that will make us both more efficient and resilient to natural disasters.

The draft Budget being presented to you responds to all of these demands. It includes new staff positions to expand our capacity for capital projects, and to inspect work by developers. New staff to handle our IT needs are also requested, as well as staff in 2019 to develop easement maintenance and leak detection programs. The vehicle replacement program continues ahead as we analyze and update our fleet with the tool developed two years ago. We also include another Human Resources staff person to focus on training. In the highly competitive labor market we face, the District needs to provide staff with the training necessary to carry out their jobs.

While these additions will cost money up front, we expect them to contribute to the District's long-term efficiency and fiscal health. By all measures, our finances remain very strong. All reserves set by Board

policy are fully funded, and we enjoy the availability of funds for capital projects and mitigating against the possibility of revenue fluctuations. The rate increases adopted in 2016 have both increased revenue and better prepared us to weather flatter water usage, while generating few concerns from customers.

The table below summarizes the investments proposed in this budget to help modernize the utility and provide clean reliable water and wastewater services for a healthy community.

Category / Item	Comments	2018 Total	2019 Total
<b>Information Technology</b>			
Customer Service Software Improvements	Northstar Upgrade & business utilization review, Beacon Mobile solution	\$ 127,350	
WiFi Assessment and Implementation	Includes outside consulting on improvements, new hardware, support contract	121,000	16,000
Vehicle Tracking System	System will show real-time location of vehicles, equipment, and personnel	103,903	
CMMS System Upgrade	Upgrade to allow CMMS to work more effectively with upcoming GIS system	60,487	
SCADA- RA Factorytalk AssetCentre Software	For backup, archiving, disaster recovery for PLC, VFD drives, other devices		63,202
<b>Facilities</b>			
Office Space Modifications - Admin, M&O Buildings	Changes to workspace to accommodate proposed staff additions	\$ 154,268	
Lighting Upgrades for Energy Savings	Improvements at Admin and Treatment Plant; PUD rebate may follow	52,092	77,375
Satellite Inventory Storage	Installing storage containers at two sites for convenience, emergency preparation	37,530	19,909
Pump station 1 & 2 Site - Security Cameras	For added security at critical facility - Everett pump station site		121,769
<b>Professional Services</b>			
Asset Management Program - Consulting	Bringing consultants on board to help plan for Asset Management program	\$ 150,000	
Service of Electrical Gear- Pump Station 1	Factory service of medium voltage electrical gear; ideal to do this every 4-5 years	114,712	
Business process consulting	Lean process improvements, team building and coaching services	65,000	65,000
Cost of Service (COS)/Rate Study	Fiscal policies require performing a rate study every three years		125,000
Customer Service Survey	This version of the survey will target high-use customers - commercial, etc.		35,000
<b>Staffing (New FTEs proposed in 2018-19 Budget)</b>			
Two (2) Inspectors	Each to start 4/1/2018; increase capacity in development and capital inspection	\$ 196,235	\$ 247,849
Two (2) Engineers - Capital Projects Division	Each to start 7/1/2018; proposed CIP assumes these FTEs are on board	171,355	316,474
Business Analyst / CMMS Administrator	To start 4/1/2018; focus on proper, consistent use of CMMS across District	92,222	126,651
IT Network Administrator	To start 4/1/2018: server mgmt, equip replacement, software mgmt & support, etc.	85,265	121,489
Planning Engineer	To start 2/1/2018; Living Plan updates; Outside agency work; Franchise / ILAs	156,984	174,086
Training Coordinator / HR Analyst	To start 4/1/2018; planning and logistical support for leadership, training programs	74,481	106,123
Admin Assistant - Engineering & Development Dept	To start 7/1/2018: support for CIP, development, inspection work groups	87,185	97,137
Two (2) Easement Maintenance utility workers	To start 1/1/2019, focus on clearing and maintaining District easements		170,175
Asset Management Program Manager	To start 1/1/2019; dedicated to advancing A.M. program after '18 facilitated process		153,562
Leak Detection utility worker	To start 7/1/2019, focus on reducing water loss using modern tools		47,394
<b>Vehicles / Rolling Stock</b>			
Replacement Vehicles - 2018	Replacing 8 fleet vehicles according to replacement program	\$ 639,470	
NEW - Electrical Department Cargo Trailer	For hauling heavy electrical testing equipment, supplies, etc.	8,730	
Replacement Vehicles - 2019	Replacing 5 fleet vehicles according to replacement program		427,005
NEW - Mini Excavator	Excavator to be used by proposed Easement Maintenance utility workers		89,900
NEW - Vehicle - Easement Maintenance Program	Vehicle for use by proposed Easement Maintenance utility workers		52,800
NEW - Vehicle - Leak Detection Program	Vehicle for use by proposed Leak Detection Utility Worker		43,935
<b>Equipment / Tools</b>			
Electrical / SCADA @ Treatment Plant	Electrical and SCADA spares, generator load bank, racking equipment, service	\$ 529,429	\$ 368,016
Replacement - CCTV Truck Components	Replacing old equipment, cameras, monitors, software; incl. installation and training	200,000	
NEW - Leak Detection Equipment	Correlating radio loggers - to be used by proposed leak detection utility worker	43,039	
NEW - generator load bank testing equipment	One additional reactive load bank to utilize in maintaining emergency generators	32,539	
NEW - Hydraulic Pipe Bursting Machine	Would allow for more efficient upgrades of long side services; lower asphalt costs	31,590	
Replacement - Air Compressors #3 & #4	Replacing two compressors from late 1990s, according to replacement program	29,810	30,415
Replacement - Chlorine, Fluoride Analyzers	Fluoride Analyzer for Everett Pump Station; Chlorine Analyzer to monitor levels	22,001	
Replacement - Sewer Equipment	Replacing Pump #2, Purchasing new Impellers for lift station redundancy	17,250	121,300
Replacement - Large Meter Repl Program	Upgrading old meters 3" and larger; 2 x 4" meters and 2 x 3" meters each year	17,000	17,000
Fitness Room Equipment Additions	Two new machines for staff fitness room	2,650	5,425
NEW - Directional Driller	Allows efficient upgrades of services in hard soil; prevents high asphalt repair costs		67,700
<b>Annual Totals</b>		<b>\$ 3,423,577</b>	<b>\$ 3,307,692</b>

Below you will find a summary of the proposed expenses for the coming two years, compared with 2016 and 2017 adopted budgets. As always, the District's two largest single expenditures are water purchases and purchased sewage treatment; those two items take up approximately 50% of the operating budget.

**OPERATING FUND - Expenses paid from Current-Year Rate Revenue:**

COMBINED OPERATING EXPENSES	Adopted Budget 2016	Adopted Budget 2017	% Change	Adopted Budget 2018	% Change	Adopted Budget 2019	% Change
Employee Salaries & Benefits	\$ 14,706,200	\$ 15,358,100	4.4%	\$ 15,947,000	3.8%	\$ 17,471,000	9.6%
Purchased Supplies & Services	6,584,800	6,557,000	-0.4%	6,435,000	-1.9%	6,787,000	5.5%
Purchased Sewage Treatment	24,350,000	30,205,500	24.0%	27,477,000	-9.0%	28,432,000	3.5%
Purchased Water	14,284,600	14,836,100	3.9%	15,343,000	3.4%	15,749,000	2.6%
Utilities	1,719,800	1,807,300	5.1%	1,809,000	0.1%	2,000,000	10.6%
Debt Service	9,210,000	9,227,000	0.2%	9,281,000	0.6%	9,589,000	3.3%
Taxes	1,717,000	1,803,000	5.0%	1,875,000	4.0%	1,968,000	5.0%
Transfer to Capital Improvement Program	7,000,000	7,000,000	0.0%	7,000,000	0.0%	6,000,000	-14.3%
<b>TOTAL</b>	<b>\$ 79,572,400</b>	<b>\$ 86,794,000</b>	<b>9.1%</b>	<b>\$ 85,167,000</b>	<b>-1.9%</b>	<b>\$ 87,996,000</b>	<b>3.3%</b>

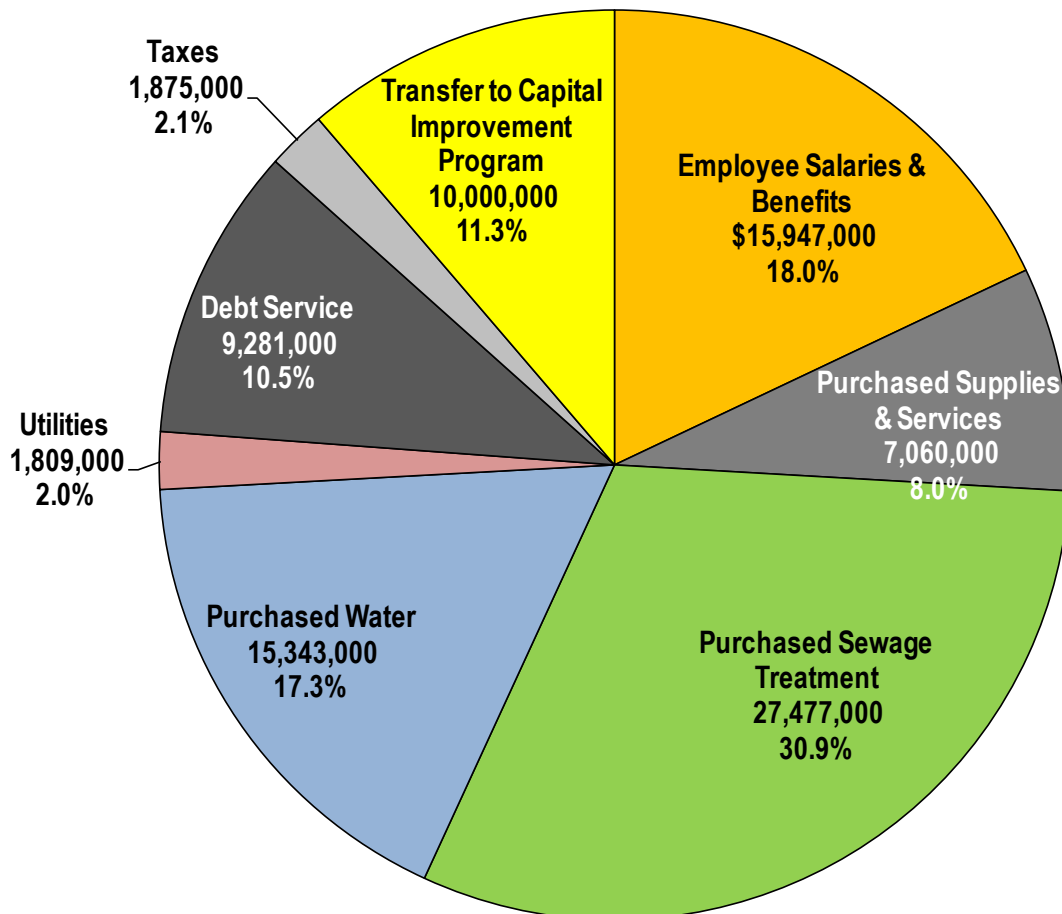

**OPERATING FUND - Additional Expenses paid from Available Cash:**

COMBINED OPERATING EXPENSES	Adopted Budget 2016	Adopted Budget 2017	% Change	Adopted Budget 2018	% Change	Adopted Budget 2019	% Change
Transfer to Capital Improvement Program	-	-	n/a	3,000,000	n/a	4,500,000	50.0%
Purchased Supplies & Services (one-time costs)	-	-	n/a	625,000	n/a	358,000	-42.7%
<b>TOTAL</b>	<b>\$ -</b>	<b>\$ -</b>	<b>n/a</b>	<b>\$ 3,625,000</b>	<b>n/a</b>	<b>\$ 4,858,000</b>	<b>34.0%</b>

**OPERATING FUND - Total Expenses**

<b>GRAND TOTAL</b>	<b>\$ 79,572,400</b>	<b>\$ 86,794,000</b>	<b>9.1%</b>	<b>\$ 88,792,000</b>	<b>2.3%</b>	<b>\$ 92,854,000</b>	<b>4.6%</b>
--------------------	----------------------	----------------------	-------------	----------------------	-------------	----------------------	-------------

**2018 Operating Fund Expense Budget - Water & Sewer Funds Combined**

---

The proposed budget was developed with the understanding that the following factors could influence the District's actual expenditures in ways that are hard to predict at this point:

- External:
  - King County's North Creek Project, which upon completion will divert sewage currently flowing to Everett for treatment to King County's Brightwater treatment plant.
  - Everett Sewage Contract Negotiations are currently in progress and the outcome of the discussions could impact expenditures.
- Internal:
  - New Director of the Engineering & Development Department
  - Strategic Facilities Plan recommendations
  - Picnic Point Wastewater Treatment Plant Improvements
  - Asset Management Program -- The proposed program has the potential to change how the District is operated in the future.

Depending on the impact of the factors listed above, Staff might be bringing forward amendments to the Adopted 2018-2019 Budget for the Board's review and approval in the next two years.

Our financial policies call for the District to carry out a rate study every three years. Funding for such a study is included in the Budget, to be carried out in 2019. Once that is completed, we expect to meet with the Board to discuss long term rate strategies to assure support for necessary programs. In 2016 the Board adopted a series of rate changes--for 2017, 2018, and 2019--under the assumption that a variety of costs would go up in future years, and our current proposal does not require any further adjustment to those rates.

### 2018 Operating Revenue Budget - Water and Sewer Funds Combined

---

The adopted Budget includes a Capital Improvement Plan (CIP) for 2018 - 19. This is significantly larger than seen in recent years. The two-year CIP for 2016-17 totaled \$32 million. The adopted 2018-19 CIP comes to \$66.3 million. This includes three significant and expensive capital projects: the D-1 Transmission Line (\$6.7 million); Lift Station 23 and associated improvements ((\$16.2 million); and the Membrane Replacement project at the Picnic Point Treatment Plant (\$18 million). This reflects a focus on funding projects currently under contract and deemed to be high priority projects. A major goal of the next two years is to develop an Asset Management program at the District to inform future budgets and capital improvement programs while delivering services at the lowest reasonable cost over the long term.

In closing, Staff looks forward to discussing this proposed Budget with the Board. The proposed budget reflects the ongoing commitment to ensure that the District can meet the needs of the community today and in the future.

Sincerely,

Jeff Clarke  
General Manager

Sridhar Krishnan  
Finance Director

# District History and Organization

The District is a special purpose district organized under RCW Chapter 57 to provide water and wastewater service to specific areas of south Snohomish County. Snohomish County is situated between northern Puget Sound to the west and the crest line of the North Cascade Range to the east. It shares its northern border with rural Skagit County and its southern border with King County. The District was formed by public election in 1931. As a public agency, it is governed by a five-member Board of Commissioners. Each Commissioner resides within the District service area and is elected by the District's registered voters to six-year terms.

The District service area is the largest water and sewer district in the State of Washington, serving a population of over 245,000 retail and wholesale customers. The District service area is approximately 44 square miles, and includes unincorporated areas and portions of the cities of Bothell, Lynnwood, Mountlake Terrace, Mill Creek, Mukilteo, and Brier. The District is bordered on the north by the City of Everett and on the northwest by the City of Mukilteo, on the east by Cross Valley Water District and the Silver Lake Water and Sewer District.

## The Water System

The District water system consists roughly 660 miles of pipeline, nine reservoirs and tanks with 97 million gallons of storage, three booster pump stations, with a combined capacity of 94 million gallons per day (“mgd”) and four service pressure zones. The average day demand for 2016 was 26.6 mgd with a maximum day demand of 44.0 mgd. The following table shows historical demand for the water system:

	2012	2013	2014	2015	2016
<b>Peak Flows (mgd)</b>	40.8	44.6	46.6	51.4	44.0
<b>Daily Average Flows (mgd)</b>	26.8	27.5	27.2	27.9	26.6

*Note: These peak and average numbers include all flows from Pump Stations 1& 2 and the Clearview Pump Station. AWWD shares the flows from the Clearview Pump station with the two other members of the Clearview Water Supply Agency: Silver Lake Water and Sewer District, and Cross Valley Water District.*

**Service Area and Customers:** The District provides retail water service to unincorporated areas of SW Snohomish County, the City of Brier, and portions of the Cities of Lynnwood, Bothell, Mukilteo and Mill Creek. The District provides wholesale water service to the Cities of Mountlake Terrace, Lynnwood, approximately two-thirds of Edmonds, the Clearview Water Supply Agency, and the Mukilteo Water & Wastewater District.

As of the end of 2016, the District served 51,800 retail accounts and the wholesale accounts of the agencies listed above. Water consumption by the District's wholesale customers accounts for approximately 50 percent of the total average daily demand. Records indicate that over 93% of the District's accounts are residential and approximately 79% of consumption within the retail service area is from residential accounts.

---

*Contractual Agreements and Water Rights:* Since the incorporation of the District in 1931, the District has purchased water from the City of Everett. During the period from 1954 to 1961, the District augmented the Everett water supply with ten deep wells. However, due to increasing demand and the inability to find sufficient water through a test well program, the District signed a long-term agreement with the City of Everett. The current contract with Everett provides water to the District until January 1, 2055.

## The Wastewater System

*Service Area and Customers:* In 1966, the District was authorized to provide wastewater service within the unincorporated area of its boundaries. Currently, the District serves these areas and portions of the cities of Bothell, Lynnwood, Mukilteo, Mill Creek and Brier. As of the end of 2016, the District served 39,100 retail wastewater accounts. In addition, the District provides wholesale wastewater transmission service for the City of Brier and the Silver Lake Water and Sewer District.

Of all District retail wastewater accounts, approximately 97% are residential. These accounts contribute approximately 81% of the total revenue in the Wastewater Fund. Approximately 13,000 properties within the District's wastewater service area have septic systems. As these septic systems fail with age, we expect the properties that lie within an Urban Growth Area to connect to District wastewater service and we plan for that additional growth in wastewater flows.

*Service Contract:* Transmission and treatment of sewage is provided by three sources: (1) a contract with King County Department of Natural Resources and Parks (KCDNRP); (2) a contract with the City of Everett; and (3) the District's own treatment plant. Treatment of sewage in most of the eastern half of the District is provided by the KCDNRP through a long-term contract with the District, which now expires July 1, 2056. In early 2013, the contract with KCDNRP was amended to extend from 2036 to 2056. Contract service is also provided by the City of Everett to the northeast portion of the District; that agreement expires March 31, 2020. KCDNRP treats approximately 80 percent of the District's sewage, 17 percent is treated by the District's plant, and 3 percent is treated by the City of Everett.

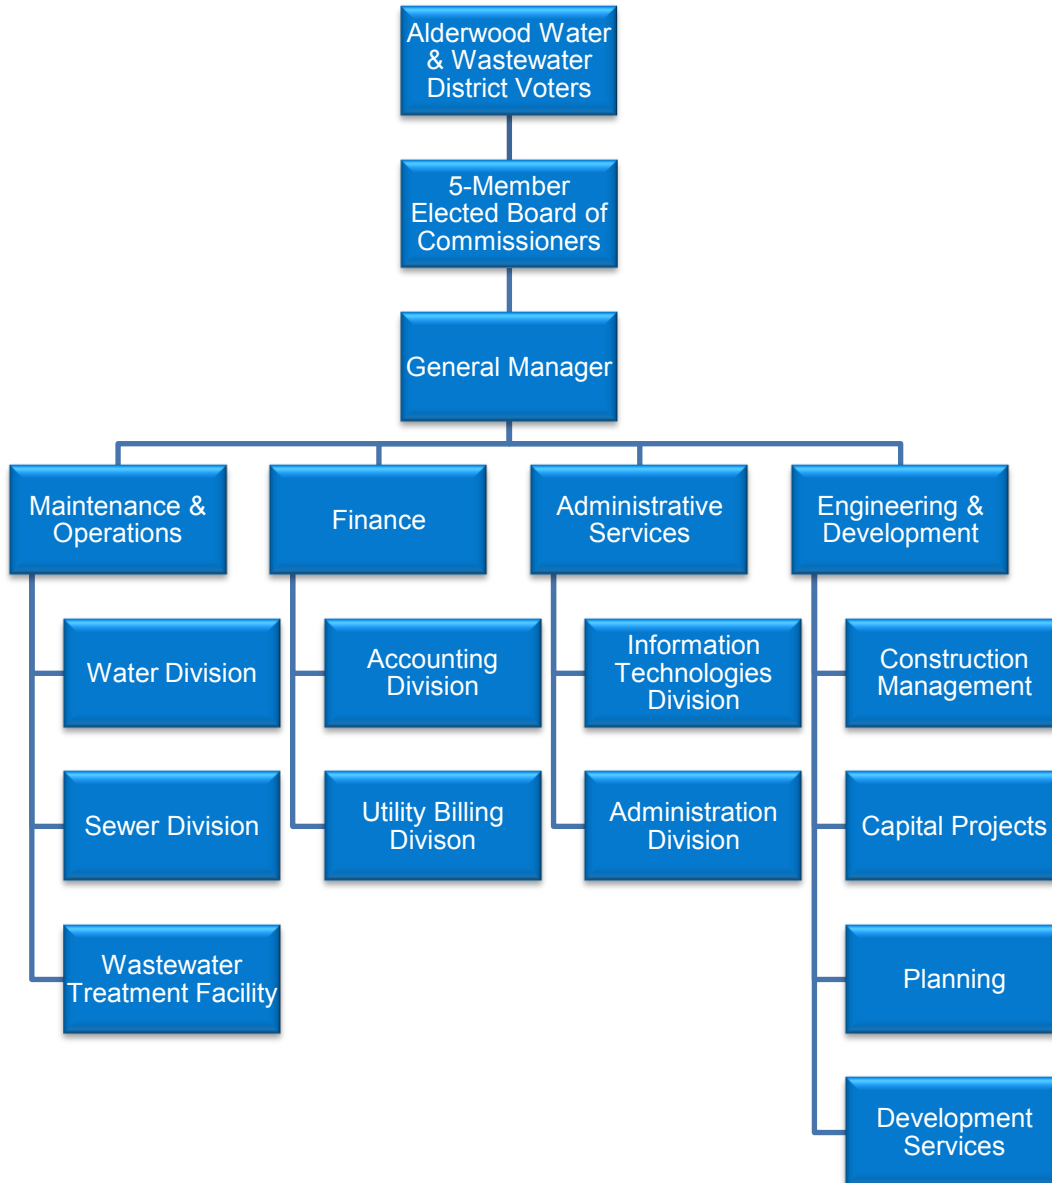

*District Facilities:* The District's renovated Picnic Point Wastewater Treatment Facility became fully operational in 2013. The expanded and state-of-the-art plant is capable of processing 4 million gallons a day ("mgd") and a maximum peak-hour flow of 8.8 mgd equivalent. The Picnic Point plant serves the northwest portion of the District and is located north of the City of Lynnwood with outfall into Puget Sound. In the near future, the District will modify existing facilities to re-route wastewater flows in specific areas from KCDNRP facilities to the new Picnic Point treatment plant.

The District currently has 12 active sanitary sewer lift stations ranging in capacity from 100 gallons per minute to 2,500 gallons per minute. All stations have a back-up power supply. The District has approximately 450 miles of sanitary sewer mains and laterals for local collection and transmission to treatment facilities.

# Water Service Area and Corporate Limits

# Organizational Chart

# Our Vision, Mission, and Values

**Vision.** Water for life, forever.

**Mission.** Clean, reliable water and wastewater services for a healthy community.

**Values.**

- **Integrity** means we do the right thing.
- **Learning** drives our people and culture.
- **Stewardship** because water is essential to life.
- **Safety** as our employees and our community deserve care.
- **Efficiency** enables us to deliver excellent value to our customers.

---

***AWWD strives to build and maintain a system that will function for the next 100 years and beyond. We protect the natural environment, conserve water resources, and provide critical services, every day. This Strategic Plan is a guide to how we can best serve customers today and in the future.***

---

## ***Our world is changing.***

Development, population growth, demographics, and technology affect the work we do and how we do it. To adapt to these changes and grow with the region, we must work in partnership with our communities and peers. We are evolving with our industry and strive to lead while learning from our peers and collaborating with our partners.

## ***Our physical system is aging.***

Some parts of the system need repair and others need replacement. We take a proactive, progressive approach to managing our infrastructure. As we develop a comprehensive infrastructure management program, we will minimize the cost of owning and operating our assets, all while delivering the high service levels our community expects.

## ***Our commitment to the future.***

Balancing our responsibility to future generations with our day-to-day demands isn't easy, which is why we developed this Strategic Plan to guide us. Delivering clean, safe drinking water and reliable wastewater services is important work, and we look forward to building on our current efforts... with forever in mind.

# Strategic Plan Goals and Strategies

## *Serve You Today and Plan for Tomorrow*

### 1. **Serve You Today**

- A. Ensure our water is safe and reliable.
- B. Engage and communicate with today's customers.

### 2. **Plan for Tomorrow**

- A. Maintain affordable and sustainable rates.
- B. Grow with the region.
- C. Take a leadership role in regional utility advocacy.
- D. Prepare for emergencies.
- E. Focus on resiliency.

## *Strengthen Our Foundation*

### 3. **Protect Our Water Supply**

- A. Continue to build our relationships with wholesale partners.
- B. Adapt our water and wastewater strategies to prepare for future regulations, conservation goals, and climate change.

### 4. **Manage Our Information and Our Physical Assets**

- A. Develop and implement a comprehensive information management program.
- B. Develop and implement a formal and comprehensive asset management program.
- C. Expand the preventative maintenance program to increase asset life and reduce reactive maintenance.

### 5. **Build a Learning Organization**

- A. Develop clear professional development pathways and mentoring opportunities.
- B. Establish a formal succession planning program.
- C. Strive for continuous improvement

# Budget Overview

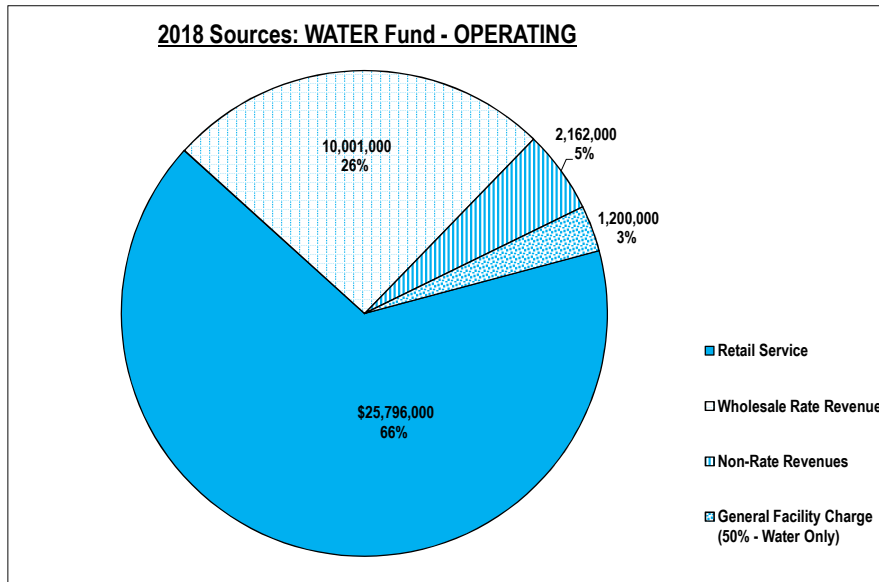

## Summary Statement

**NOTES - 2018:**

- "Transfers to Capital Improvement Program" in 2018 includes \$3.0 million transferred from available operating cash balance (this is in addition to the \$7.0 million transferred from 2018 rate revenue).
- "Purchased Supplies & Services" in 2018 includes \$625,000 in one-time purchases of supplies and services paid from existing available cash balance (this is in addition to the \$6.44 million in regular/ongoing purchases of supplies and services paid from 2018 rate revenue).

**NOTES - 2019:**

- "Transfers to Capital Improvement Program" in 2019 includes \$4.5 million transferred from available operating cash balance (this is in addition to the \$6.0 million transferred from 2019 rate revenue).
- "Purchased Supplies & Services" in 2019 includes \$358,000 in one-time purchases of supplies and services paid from existing available cash balance (this is in addition to the \$6.79 million in regular/ongoing purchases of supplies and services paid from 2018 rate revenue).

## Long-Range Financial Plan - Assumptions

Below is a table of the major assumptions used in the creation of AWWD's Long Range Financial Plan for Water and Sewer Funds.

WATER-Specific	Source	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027
<b>Revenues</b>											
Annual Growth in Number of Retail Connections:

\* The District purchases all of its electric power from Snohomish Public Utility District.

\*\* The District purchases all of its water from the City of Everett.

\*\*\* Aside from the District-owned wastewater treatment plant, AWWD sends wastewater to three other entities for treatment - King County, City of Everett, and Northshore Utility District (NUD).

† The Construction Cost Index is published by Engineering News-Record, a magazine and website dedicated to the engineering and construction industries.

†† PERS = Public Employees Retirement System, a Washington-State retirement benefit program for public employees.

## Long-Range Financial Plan - Projected Balances by Fund, 2017-2036

# Sources and Uses of Funds - WATER - Operating and Capital

# Board of Commissioners

# Board of Commissioners

## Functions

The Board provides its strategic direction by analyzing proposals and options and subsequently directing staff to move forward with approved projects and initiatives during its weekly open meetings and work sessions that take place on Monday evenings. The Commissioners communicate their desired actions directly to the General Manager during the open public meetings as well as during smaller (typically one-on-one) meetings with the General Manager.

Commissioners individually represent the District throughout the week through their attendance and participation at special events, on committees, and at other meetings.

## Budget Highlights

### 2018-2019 Changes

- Two Board positions will be up for election during 2019. A total of \$150,000 has been appropriated for the election expense, assuming that there will be primary and general elections for both positions during the second half of 2019.
- The **Salaries & Wages – Elected Officials** line item assumes that each Commissioner will attend 70 meetings and will earn \$7,980 each year (\$114 per meeting).
- Based upon historical attendance and participation patterns, \$20,000 is budgeted each year for the **Conferences**.

## Administrative Services

### Mission

The Administrative Services Department's mission is to effectively coordinate and manage the functions associated with information technology (IT), human resources, safety and emergency preparation, and administrative support services for the District.

### Functions

All day-to-day activities related to the following functions are supported by this department:

- *Information Technology* – computer hardware, software applications, geographic information systems (GIS), desktop and electronic device support, and network communications.
- *Human Resources* – recruitment and selection, labor relations, benefits and compensation administration, job classification, and training.
- *Safety and Emergency Preparation* – safety training, accident prevention, personal protective equipment, return-to-work and modified duty coordination, planning and preparation for emergency situations, and continuity of business.
- *Administrative Support* – contract and insurance administration, risk management, and administrative support for Board of Commissioners and General Manager.

The department also provides lead administrative support to the Clearview Water Supply Agency (CWSA), a three-district water distribution entity comprised of AWWD, the Silver Lake Water and Sewer District, and the Cross Valley Water District.

### 2018-2019 Goals

#### Information Technology

- Minimize server vulnerabilities and maintain continuity of operations by upgrading Windows Server 2008 operating systems.
- Implement two new GIS viewers or applications based upon business requirements to provide more access to location-based data.
- Evaluate and create new deployment and replacement cycles for end user devices on a three- or four-year cycle, depending upon device type and estimated product life cycle.

#### Human Resources

- Design and implement process to centralize the tracking of AWWD training.
- Implement a position control system so that every Board-approved full-time equivalent and temporary position within the organization is designated with a tracking number and monitored for total hours worked within each calendar year.
- Develop and communicate written succession plans for 10 positions identified as key positions within the organization.

### **Safety and Emergency Preparation**

- Through effective safety training, promotion, and communication, lower AWWD's Experience Modification Factor through Labor & Industries to 0.67 (or lower) for the 2019 calendar year.
- Lower the annual number of work-related OSHA 300-reportable injuries to three or less.
- Prepare and implement emergency preparedness training with a continued focus on personal preparedness with added emphasis on specific workplace training (active shooter, fire alarm and evacuation, and disaster operations).

### **Administrative Support**

- Facilitate the procurement, installation, and implementation of an Electronic Content Management (ECM) application to support the management, storage, and retrieval of AWWD's records.
- Implement and further the ability to manage mobile devices (cell phones and MS Surfaces) in order to remotely deploy desired applications from a centralized endpoint.

## **Budget Highlights**

### **2018-2019 Changes**

- The 2018-2019 budget provides for the addition of two new full-time equivalent positions for the Administrative Services Department, increasing the department's staff total to 13 employees. A Network Administrator position and one additional Human Resources (HR) Analyst have been added to assist with specific Strategic Plan-related goals as well as everyday work responsibilities. The Network Administrator position will increase the Information Technology work group to a total of six employees. The addition of the HR Analyst position will increase the HR work group to three employees.
- Customer service software upgrades involving financial and business utilization applications in the amount of \$127,350, enhanced wifi assessment and implementation expenses of \$137,000, and a centralized maintenance management system upgrade estimated at \$60,487 have been included and are part of an IT work plan for the biennium.
- A vehicle tracking system design and implementation expense in the amount of \$103,903 is earmarked for 2018.

*The department went through a re-organization during the 2016-2017 budget cycle. The department name was changed from Planning & Development Services to Engineering and Development. Multiple job titles were either re-named or re-classified.*

## Engineering and Development

### Functions

Engineering and Development work areas include:

- Development Services
- Planning
- Design
- Capital Improvements
- Construction & Inspection
- Conservation
- Administration

The Engineering and Development Department will continue to work with other Departments and the District Board of Commissioners to provide efficient, customer-oriented planning and engineering services that assist in replacing, improving and expanding water and sewer facilities in the District's service area.

### 2018-2019 Goals

#### **Customer Service**

- Return all calls and emails within one business day.
- Provide prompt, respectful, professional, and helpful service to internal and external customers.
- Embrace the Strategic Plan goals.
- Continue to implement Developer Extension process improvements.
  - Ensure plans submitted comply with District standards
  - Complete first review within 4 weeks of receipt (recently 6-8 weeks)
  - Move to an electronic plan review and record keeping process

#### **Department Operations**

- Streamline Department processes for maximum efficiency and responsiveness.
  - See previous Developer's Extension process improvements as an example
- Research and propose tools and strategies for efficiency.
- Adhere to State Records Retention Schedules and appropriate disposal of records that have met their retention periods.
- Increase in-house services including planning, design, construction management and inspection services.
  - Allows the creation of project teams that will include representatives from E&D (project engineer, construction manager and inspector) and maintenance and operations from project inception to project close out
  - Increases project ownership by District staff
  - Saves ratepayer money over hiring consultants
- Develop and implement standard practices to deliver projects from start to finish.

- Move to improved Geographic Information (GIS) and Asset Management Systems.
  - The District’s current GIS is really a series of attached photos of Quarter Section sheets showing the District facilities with information on where to find the record documents (“As Built” drawings)
  - The District initiative to migrate to an Enterprise GIS will allow for analysis in minutes to hours that currently take days or weeks
- Develop and regularly update the District’s 10-year Capital Improvement Program and population forecasts so that new General Facility Charges can be developed and updated regularly.
- Continue expansion of use of the Computerized Maintenance Management System to track necessary information needed across departments.
- Provide mentoring, training and cross training within the Department to meet the needs of the District and its growing customer base while growing employee skills and leadership abilities.
- Develop increased understanding of the Department’s Emergency Preparedness roles and responsibilities.
- Work together to encourage collaboration, communication and consistency within the District.
- Enhance collaboration with other agencies, including our water provider, wastewater treatment partners, wholesale customers and land use agencies.

## Budget Highlights

### Operational

- Implement new Hydraulic Models for Water & Wastewater Systems. This software will be installed in early 2018.
  - The existing models are stand-alone requiring regular manual updating
  - The proposed models operate using GIS data requiring no manual updates
  - Programs are similar to the current water model (H2O-net)
  - Training included in the Department training budget
- A contract for Wetland Monitoring was signed in 2015 and payments also began in 2015. This is an already approved ongoing expense that will continue in the 2018/19 budget.
- Hire and on-board authorized additional staff.

### Capital

- Replace water mains and repair/replace the sewer mains in the Shelby Road area.
- Complete Lift Station 23 project.
- Plan for the recoating of Reservoirs 2 and 3.
- Complete portions of the Eastside Pressure Reduction Project.
  - Water Transmission Main portion in 2018/19
  - Design of Pressure Zone Modifications with phase 1 construction beginning in 2019
- Install new and upgrade existing membranes at the Picnic Point Wastewater Treatment Facility.

Finance Technician I	1			1	3,640 - 4,878	9
	14	0	0	14		

*In 2017 the Accounting Supervisor position was replaced by the Finance Manager position. In 2018 the Accountant position will be replaced by a Sr. Accountant position. Total positions in the Finance Department will remain at 14 positions.*

## Finance

### Mission

To be excellent stewards of the public trust by being customer focused and data driven.

### Functions

The Finance Department is responsible for customer service, utility billing, accounting, financial planning and reporting.

All day-to-day **financial operations** activities are managed by the department including:

- *Customer Accounts* – utility billing, customer service, and all related record keeping.
- *Accounting* – cost accounting, accounts payable and receivable, financial reporting, auditing, and maintenance of financial records. Accounting also provides professional staff support for Clearview Water Supply Agency.
- *Payroll* – bi-weekly payroll and employee benefits and labor contract implementation.
- *Treasury* – cash and debt management.

The department also provides financial planning services including coordination and preparation of the District's Budget and Capital Improvement Program and provision of financial planning and analysis support to other departments, the General Manager, and the Board of Commissioners.

### 2018-2019 Goals: Alignment with 2018-2022 Strategic Plan

#### **Serve You Today** -- *Engage and communicate with today's customers*

- 95 percent of all calls to main phone line (425-743-4605) are answered within 5 seconds.
- Provide prompt, respectful, professional, and helpful customer service to internal and external customers.
- Conduct a focus group or customer survey and present the results to the Board by December 2019.
- Implement a new utility bill by July 2018.
- Maintain internal controls and meet all accounting, reporting, and auditing requirements.
- Deliver accurate payroll, health benefits and labor contract implementation.
- Comply with required annual audits by State and Federal agencies and any related reporting.

#### **Plan for Tomorrow** -- *Maintain affordable and sustainable rates*

- Conduct a rate study in 2019 and adopt appropriate rates for 2020-2022 by December 2019.
- Conduct an affordability analysis of District rates and present the Board with recommendations for new programs or policies to address affordability issues by December 2019.
- Maintain a financially strong utility through sustainable, affordable rates and the use of sound operational and financial planning practices.

**Protect Our Water Supply** -- *Continue to build our relationships with wholesale partners*

- Schedule semi-annual meetings with wholesale customers (including Clearview) to plan storage and other operational issues.
- Collaborate with other departments and external stakeholders to help the District develop operational goals and a storage plan by December 2019.

**Manage Our Information and Our Physical Assets** -- *Develop and implement a formal and comprehensive asset management program*

- Help coordinate asset management efforts and existing maintenance plans program to inform budget development and CIP planning.
- Finance Department has an asset management culture and broad understanding of the practice and processes.
- Evaluate and implement an integrated finance (accounting, budgeting, and reporting) and customer service (utility billing) software solution that leverages process improvements and helps the staff provide better information and customer service.

**Build a Learning Organization** -- *Strive for continuous improvement*

- Set vision, goals and strategy for a structured continuous improvement program in the Finance Department.
- Gather baseline metrics of business processes to measure improvement efforts over time.
- Develop plans for structured Kaizen and Value Stream Mapping exercises to document processes, capture knowledge held by long-term staff, and inform training.
- Training and conferences to educate staff to better utilize new tools.
- Encourage staff to utilize the District's tuition reimbursement program.
- Support staff participation on committees and other inter-departmental work groups.

## Budget Highlights

**Changes in 2018-2019 Budget over 2017 Estimates**

- Employee Benefits increasing \$514,000 or 10.3% in 2018 due to several factors: higher enrollment (more FTEs), an assumed 5% increase in medical benefits per FTE, annual COLA adjustments (3.0% in 2018 and an estimated 3.0% in 2019), increases in PERS contributions rates from 11.18% to 12.52% - a 12% increase. An increase of \$484,000 or 8.8% is expected in 2019.
- Professional Services increasing \$154,000 or 65% in 2018 due to several one-time efforts – billing system improvements, costs associated with redesigning the District's billing statement, and consulting services for lean process improvement and coaching for team building. A rate study is scheduled to occur in 2019, at a cost of \$125,000.
- Anticipating \$21,000 (8%) increase in Credit Card Fees in 2018. With addition of new online customer payment portal, we expect a continued increase in the number of credit card transactions, and thus higher fees. Expecting a \$22,000 (8%) increase in 2019.
- 2018 Salaries increasing \$89,000 or 8.4% due to a 3.0% COLA in 2018 and fewer expected vacancies. Expecting a 2019 increase of \$138,000 or 12.0% due to an additional 3.0% COLA

and the addition of an Asset Management Coordinator (this position may reside in a different department).

- In 2018, expecting a \$125,000 or 19% *decrease* in Insurance Expenses. The District received a lower premium in 2018 in connection with changing the deductible to \$25,000. A subsequent increase of \$50,000 (10%) is expected in 2019.
- Budgeting for a \$50,000 or ~50% increase in 2018 Postage budget due to normal increases in customer accounts and rate increases. Also, we are budgeting \$20,000 for special mailings (related to specific non-billing issues). For 2019, no increase in costs is expected.
- In 2018, budgeting for a \$32,000 increase in Supplies which covers the replacement of some office furniture and mailroom equipment. This budget category will decrease by \$13,000 in 2019.

# Organization Chart

## Maintenance & Operations Department

# Maintenance and Operations

## Functions

The Maintenance and Operations (M&O) Department consists currently of 87 positions that take care of the maintenance and operations of the water distribution and the wastewater collection system, as well as the wastewater treatment plant.

All day-to-day maintenance and operations activities are supported by the following work groups:

- *Water* – main line maintenance and repair, service upgrades and installations, meter reading and maintenance, fire hydrant maintenance and repair, pavement repairs.
- *Water Quality* – main line flushing, water sampling, reservoir monitoring and cleaning, chlorine analyzing, pressure-reducing valve maintenance and repair, cross connection control, valve operation and maintenance.
- *Meter Department* – meter reading, meter maintenance, response, customer service.
- *Wastewater* – sewer main cleaning, manhole inspection and adjustments, closed circuit television mainline inspection, sewer tap installation, side sewer repair, mainline repairs.
- *Wastewater Treatment Plant* – Treatment plant process monitoring, maintenance and repair of equipment and processes.
- *Pretreatment* – monitoring the fats, oils, and grease program, monitor and implement commercial discharge to make sure we meet our NPDES permit, flow monitoring, inflow and infiltration studies.
- *Fleet and Facilities* – maintenance and operation of all electrical systems for all of the District's facilities, SCADA system monitoring and repair, instrumentation and control system maintenance, water pumping station operation and maintenance, wastewater lift station operation and maintenance, fleet management and repair, special projects.
- *Administrative Group* – customer service, administrative support duties, document management, inventory control, CMMS system monitoring and support.

Maintenance and Operations staff also support the Clearview water supply agency by taking the lead in the maintenance and operations of the Clearview water pumping station.

## 2018-2019 Goals

### **Department Organization**

With the establishment of the Administrative workgroup, as well as the addition of four Supervisors, the M&O Department is set up well for the immediate future. Most goals were met by M&O staff in the last budget cycle, but not all were accomplished.

The Department will address these issues and others by implementing the following:

- Study work group practices and see where we can make process improvements. This will include the amount of staff needed on crews, and if we can adjust work practices to do programs that we cannot currently work on.
- Upgrade CMMS functionality. With assistance from IT, purchase a field device that will allow crews to take CMMS into the field with them. This will improve the ability to move assets within the asset tree while in the field, and interface with our new GIS system as it comes on line in the near future.
- Hire one FTE to oversee the CMMS system, and to help develop an asset management program for the District. This person will take over all functions of the CMMS, maintenance, training of personnel, as well as increase functionality of the system to help in the development of the asset management program. This will free time for the M&O Analyst, and Manager to more closely achieve the goals in the first two bullets.
- Purchase equipment and hire staff to implement the Easement clearing and maintenance program. This goal will help insure that we have access to our entire infrastructure to perform proper maintenance and repairs to insure reliability of our systems.
- Purchase equipment, support vehicles, and hire one FTE to implement the leak detection program. AWWD currently averages over 6% of our purchased water lost due to undetected leaks in our water distribution system. This is at a substantial cost to our rate payers of about \$650,000 per year. This program will help to identify those leaks so they can be repaired.
- M&O will work closely with Human Resources to establish a comprehensive employee succession plan, in order to prepare staff to fill leadership roles in the organization due to retirements and/or open positions.
- SCADA/Electrical staff will be making a push to have spare parts for the more critical devices for the wastewater treatment plant. Many of these items have long lead times to acquire, and could potential cause shutdowns to critical pieces of equipment with the treatment plant.
- Staff will be working to establish satellite inventory storage on remote sites of the District that will provide parts and equipment on the east side of Interstate 5 in the event of a natural disaster that may limit our ability to get to the east side of the District . These areas will also provide efficiencies for staff that will not need to drive all the way back to M&O if they need a part for a job they are working on in those areas.
- Purchase and implement a GPS tracking system for vehicles, equipment, and personnel in the event of emergencies, and emergency planning.

## **Water**

- Continue to work with agencies in the area to plan and execute projects together to improve the efficiencies of each agency and to limit the amount of need to disturb asphalt or concrete.
- Continue to develop relationships with developers in completing their projects. We established the DE workgroup in 2016 and it has already improved communications and work product with, and for, developers.
- Continue to improve the fire hydrant inspection program with the goal of inspecting each hydrant at least once every two years for proper operation.
- Continue to improve on responding to water system leaks in a timely manner to keep water loss to a minimum.

## **Wastewater**

- We will look to continue to increase the scope of the Pretreatment work group. Added to the program will be flow monitoring, commercial discharge monitoring, and inflow and infiltration study.
- Continue to increase the manhole inspection program. We started the program in 2016 and it has already helped us to identify and repair many issues in the collection system. We would like to increase the effort with this program.
- Renew the equipment in the CCTV work truck. The equipment is getting old and needs replaced, but the truck itself is still in fine working order.

## **Budget Highlights**

### **2018-2019 Changes**

- Adding new vehicles and equipment to replace aging units. Staff will be working on establishing an alternative fuels program for our fleet. This will include hybrid, as well as biodiesel and even electric vehicles, if they fill our needs.
- Adding equipment and staff to establish a water leak detection program. AWWD loses an average of 6% of our purchased water each year due to undetected leaks in our distribution system. This program will help identify and eliminate those leaks.
- Adding equipment and staff to establish an easement clearing and maintenance program. There is a need to locate, clear, and maintain easements that have water or wastewater infrastructure running through them. We do not currently do this due to the lack of staffing.
- Adding an ADA compliant vehicle to transport staff to offsite meetings and trainings. We currently have no vehicles that are ADA compliant.
- Increasing the Conference and Training budget so that more staff may be able to attend conferences to help in their development as personnel, preparing them for possible placement in positions of leadership in the organization.

# Maintenance & Operations Water Division

## Expense Justification

# Maintenance & Operations - Water

MAINTENANCE AND OPERATION EXPENSES - WATER		Total	2018	2019
<b>Salaries (including Overtime and Duty Pay)</b>		\$ 7,245,330	\$ 3,436,385	\$ 3,808,946
<b>Temporary Services</b>		\$ 2,240	\$ 1,120	\$ 1,120
Includes hiring an office temp to assist to cover vacations and/or sick leave of the clerical staff.				
<b>Employee Benefits - Uniforms</b>		\$ 82,500	\$ 41,000	\$ 41,500
• Uniforms	\$ 55,000			
• Boots	\$ 27,500			
<b>Purchased Water</b>		\$ 31,092,000	\$ 15,343,000	\$ 15,749,000
• AWWD Everett purchases	\$ 18,191,000			
• AWWD CWSA purchases	\$ 12,901,000			
Includes purchased water from Pump Stations 1, 2 and 3, and purchases from Clearview Water Supply Agency.				
<b>Purchased Power</b>		\$ 2,201,286	\$ 1,073,091	\$ 1,128,195
• Pump Stations 1 & 2	\$ 1,554,807			
• Pump Station - Clearview (#3)	\$ 541,800			
• Other Water Facilities	\$ 104,678			
Includes power costs for pump stations 1 and 2, pump station Clearview (#3), reservoirs 1, 2 and 3, the booster pump station, Nike reservoir, Canyon Park reservoir, the PRV station, and Well #5.				
<b>Fuel, Diesel and Other Fuel</b>		\$ 177,567	\$ 82,228	\$ 95,339
• Gasoline	\$ 108,958			
For vehicles and equipment.				
• Diesel	\$ 67,600			
For vehicles, equipment & backup generators.				
• Other	\$ 1,009			
Propane.				
<b>Chemicals</b>		\$ 13,285	\$ 6,541	\$ 6,745
Chlorine and other chemicals, DPD packets and fluoride testing tablets		\$ 13,285		
<b>Supplies</b>		\$ 2,764,093	\$ 1,390,894	\$ 1,373,200
• Office Supplies/Forms	\$ 18,174			
Includes, paper, laminating supplies, field supplies, maps, business forms, business cards, writing supplies, calendars, office tools and equipment, maps, letterhead, office equipment maintenance contracts, door hangers, and copier cartridges.				
• Maintenance Supplies	\$ 2,593,337			
Paper products, meals for Crew members when job requires working overtime, film and developing, cleaning supplies, sand, bark, gravel, rock, asphalt restoration, waste soil removal, telemetry supplies, paint and painting supplies such as Locator paint, equipment and facilities paint, and brushes.				
• Publications	\$ 1,313			
AWWA manuals & handbooks; Uniform Plumbing Code, trade magazines, daily paper, updated CFRs, Drinking Water and Backflow Prevention subscriptions, American Backflow Assn. subscriptions.				
• Small Tools, Equip.	\$ 151,270			
Covers replacement tools and small equipment that break or are no longer in good working condition. Examples include shovels, rakes, nozzles, clamps, wrenches, pliers, flashlights. Also included are all safety supplies from first-aid supplies to rain gear and rubber boots, as well as the small tools and equipment needed to support Pump Stations 1 and 2 and locating equipment; G.e. pipe horns for crew trucks. Office furniture has also been moved to this account as well as water quality equipment.				
<b>Professional Services</b>		\$ 201,830	\$ 107,314	\$ 94,516
• Lab Testing Services	\$ 95,578			
Bacteria, HAA5s and THMs.				
• Utility Locating	\$ 27,000			
• Alarm Monitoring - M&O Only	\$ 1,952			
• Other	\$ 77,300			
M&O audiograms, antifreeze disposal, solvent cleaner services, oil filter disposal, M&O Hepatitis B Shots.

# Maintenance & Operations Wastewater Division

## Expense Justification

# Maintenance & Operations - Wastewater

MAINTENANCE AND OPERATION EXPENSES - WASTEWATER	Total	2018	2019
<b>Salaries (Including Overtime &amp; Duty Pay)</b>	\$ 6,366,236	\$ 3,027,185	\$ 3,339,051
<b>Temporary Services</b>	\$ 2,240	\$ 1,120	\$ 1,120
Includes hiring an office temp to assist to cover vacations of the clerical staff and summer staff.			
<b>Employee Benefits - Uniforms</b>	\$ 82,500	\$ 41,000	\$ 41,500
• Uniforms \$ 55,000			
• Boots \$ 27,500			
<b>Purchased Sewage Treatment</b>	\$ 55,909,000	\$ 27,477,000	\$ 28,432,000
• King County/METRO \$ 52,570,000			
• City of Everett \$ 3,212,000			
• Northshore Utility District \$ 127,000			
<b>Sludge Removal Expenses</b>	\$ 478,293	\$ 238,173	\$ 240,120
• Transportation & Disposal \$ 239,200			
• Testing \$ 2,400			
We are required to monitor the metals in our biosolids. This will provide for six full metal screens.			
• Chemicals \$ 75,493			
Polymer used to enhance dewatering.			
• Repairs & Maintenance of Equipment: \$ 61,200			
Parts for the gravity thickener, belt press, conveyor belt, cross conveyor and the transport trailers.			
• Misc. Expenses \$ 100,000			
<b>Purchased Power</b>	\$ 1,042,395	\$ 474,495	\$ 567,900
Includes power costs for all 13 wastewater lift stations and the wastewater treatment plant			
<b>Fuel, Diesel and Other Fuel</b>	\$ 186,347	\$ 85,492	\$ 100,855
• Gasoline \$ 108,958			
For vehicles and equipment for all locations.			
• Diesel \$ 76,380			
For vehicles, equipment & backup generators.			
• Other \$ 1,009			
Propane.			
<b>Chemicals</b>	\$ 137,180	\$ 68,500	\$ 68,680
• Chlorine for disinfections & odor control at Plant \$ 128,000			
• Laboratory Chemicals \$ 9,180			
<b>Supplies</b>	\$ 482,386	\$ 244,504	\$ 237,882
• Office Supplies \$ 18,174			
Includes, but not limited to, paper, laminating supplies, field supplies, maps, business forms, business cards, writing supplies, calendars, office tools and equipment, maps, letterhead, office equipment maintenance contracts, door hangers, and copier cartridges.			
• Maintenance Supplies \$ 311,433			
Paper products, meals for Crew members when job requires working overtime, film and developing, cleaning supplies, sand, bark, gravel, rock, asphalt restoration and waste soil removal, telemetry supplies, paint and painting supplies such as locator paint, equipment and facilities paint, and brushes.

# Capital Improvement Plan

# Capital Improvement Plan Overview

A Capital Improvement Plan (CIP) identifies, prioritizes and schedules projects to address system deficiencies and needs. The needs are typically:

- 1) Reoccurring maintenance issues and/or repairs;
- 2) Preventative maintenance issues;
- 3) Infrastructure upsizing for future growth; and
- 4) Infrastructure replacement at the end of service life.

Numerous models for development of a CIP can be utilized. For example, the District's last sewer comprehensive plan identified service options for extension by development, reoccurring maintenance concerns and capacity limitations based on modeling. In addition to those criteria, the District plans on moving towards considering infrastructure service life. The District also plans on developing future Capital Improvement Plans with input from a wide range of staff and other sources regarding needs that may not be captured by more traditional evaluation approaches.

The Capital Improvement Plan included in this budget reflects an interim measure as the District prepares to invest in a more rigorous asset management approach for evaluating, prioritizing, and funding capital needs. The interim approach is based on the District current practice of transferring \$7 million (\$3.5 million each to water and wastewater capital funds) of rate revenues into the capital improvement fund each year. District has on average completed \$14 million of capital improvements annually--the equivalent of an annual capital project completion factor. The proposed CIP reflects the inclusion of this annual capital project completion factor.

The proposed Capital Improvement Plan includes the following categories of projects:

- Capital Projects: Those projects directly related to constructing, rehabilitating, replacing or other non-routine maintenance activities for infrastructure used to deliver water and wastewater services. This typically includes pipes, pumps, stations, reservoirs, treatment facilities, etc.
- Capital Support Items: Those projects and capital costs related to the indirect assets necessary to provide water and wastewater services. This typically includes administration and maintenance buildings and grounds, large software systems, vehicles, communication systems and other District-wide assets.
- Capital Franchise, Outside Agency & Participation: Those projects caused or driven by non-District entities. These are typically infrastructure relocation projects required when another agency does a capital project of their own, such as a road reconstruction. Alternatively, the project may be partnering with a developer or other agency by participating in the incremental cost of upsizing their project to meet our future needs.

The District intends to refine and develop the CIP as more information is gathered through the development of an asset management program and the Living Plan. Any changes to the CIP will be brought forward to the Board for discussion and approval.

# Capital Improvement Plan

# Appendix

# Fiscal Policies

## AWWD Res. No. 2615-2013

The purpose of establishing fiscal policies for AWWD is to promote the financial integrity and stability of the water and wastewater systems and to provide guidance and consistency in decision-making for the District's management. It is intended that these policies will be reviewed periodically.

### 1. Revenue Sufficiency

AWWD will establish water and sewer rates sufficient on an annual basis to meet all utility cash requirements including; operating expenses, debt service, rate funded capital costs and additions to reserves.

- AWWD will prepare a biennial budget document every other calendar year that provides a basic understanding of the planned spending for each utility fund for the coming 2-year period.
- In support of the budget process, AWWD will develop a rate forecast. The rate forecast shall contain a 5-year planning horizon with revised rates for up to a 3-year period. Any subsequent rate changes will be adopted by the Board.
- Rates and charges will be set for each utility at a level to remain a self-supporting utility.
- If possible, changes in rate levels should be gradual and uniform to the extent costs can be projected.

### 2. Rate Equity

The District will establish rates and charges which equitably recover the cost of service from each utility's customers. Changes in rate structure will be accompanied by a cost of service analysis establishing the equity of such changes.

- A cost allocation review should be conducted every three years and will utilize industry standard methodology [American Water Works Association, Water Environment Federation, etc.]. Cost of service adjustments should be based on the rate study results as well as Board discretion to incorporate the changes over a period of time to avoid rate shocks.
- AWWD will establish rates and fees which equitably recover service costs commensurate with how costs are incurred.
- Changes in rate structure will be accompanied by a cost of service analysis establishing the equity of such changes.
- Rates and fees will incorporate both a fixed charge for the up-front fixed costs associated with serving customers and a usage/volumetric charge that attempts to recover the variable costs of operating the utility.
- AWWD will impose a connection charge, also known as a General Facility Charge (GFC), on new or expanded development to reflect an appropriate capital investment by new customers commensurate with system costs, including both existing assets and future improvements that serve such growth.

- AWWD will review and adjust, when appropriate, the miscellaneous fees and charges schedules based on an inflationary cost index such as the Engineering News Record (ENR) construction cost index.
- AWWD will review and adjust, if appropriate, connection charges annually based upon the ENR construction cost index or similar inflationary cost index.

### 3. Sustainability of Infrastructure

In conjunction with establishing or planning its capital program, AWWD will develop a corresponding capital-financing plan that supports execution of that program and is capable of sustaining long-term utility capital requirements. The capital program will incorporate system expansion, upgrades & improvements, and system repair & replacement. The intention is to establish an integrated capital funding strategy.

- Capital Facilities Planning
  - Comprehensive plans for the water and wastewater utilities will be completed or updated as required by state law.
  - AWWD should maintain, for each utility, a capital projects schedule of at least six years in duration and consistent with the comprehensive long-range plans for each system.
  - The six-year capital projects schedule should be adopted by the Board.
  - The schedule will include the project description, scheduled year of construction, total estimated cost (including additional O&M) and funding source(s).
- Capital Facilities Funding
  - Revenue received from new customers connecting to the water and/or wastewater system is used to fund capacity enhancing AWWD's infrastructure and/or associated debt service.
  - Capital Funding from user rates shall be used to preserve the District's existing infrastructure. Contributions should fund current construction and engineering costs. Funding should target replacement cost or depreciation expense. Debt Funding will be used when it is judged to be appropriate based on the long-term capital needs and AWWD's ability to repay the indebtedness in light of all sources and uses of cash. The term of the debt should not exceed the reasonable useful life of the asset being acquired or constructed.

### 4. Reserves

Reserve balances are funds that are set aside for a specific project, task, covenant requirement, and/or emergencies. These balances are maintained in order to meet short-term cash flow requirements, while at the same time minimizing the risks associated with meeting financial obligations and continued operational needs under adverse conditions. The following reserve levels are established for AWWD:

- Operating Reserve

The purpose of an Operating Reserve is to maintain financial viability of the utilities despite short-term variability in revenues and expenses, primarily caused by billing cycles, payroll cycles, accounts receivable/payable, and weather variability. The Operating Reserve targets should be as of January 1 of each calendar year, with the Operating Reserve balance expected to vary during the course of the calendar year. The following Operating Reserve targets are established:

- Water Utility – 90 days of annual O&M expenses
- Wastewater Utility – 60 days of annual O&M Expenses

The water utility minimum is set higher since revenue is more susceptible to year-to-year variations in water demand due to weather variations and water conservation objectives.

▪ Capital Reserve

The Capital Reserve is a method of attempting to level out the capital funding requirements, thereby eliminating peaks and valleys in the overall revenue requirement. This reserve can vary from year to year depending upon projects anticipated and funding sources. The target for the Capital Reserve should be set equal to the greater of \$10 million per utility or 2% of original asset value. Since this Capital Reserve is also intended to cover capital contingencies, the target should include an amount sufficient to cover major failures of plant and equipment. It is not intended to fund all costs in a catastrophic loss such as an earthquake, but would appropriately cover more isolated failures. The following Capital Reserves targets are established:

- Water Utility – Greater of \$10 million or 2% of original asset value.
- Wastewater Utility – Greater of \$10 million or 2% of original asset value.

▪ Rate Stabilization Reserve

AWWD will maintain a Rate Stabilization Reserve to be used to mitigate major year-to-year fluctuations in revenues or expenses. Use of Rate Stabilization Reserves shall only occur by direct Board action based upon unplanned revenue shortfalls or unexpected expenses. Funding of the Rate Stabilization Reserve will be from a surplus of operating funds from the prior year or as a budgeted expense by the Board. Use of the Rate Stabilization Reserve funds will, when allowed by the Board, be considered revenue for purposes of debt coverage. The following Rate Stabilization Reserves targets are established.

- Water Utility – 15% of annual rate revenue
- Wastewater Utility – 10% of annual rate revenue

▪ Bond Reserve Fund and Bond Redemption Funds

AWWD will maintain Bond Reserve Funds and Bond Redemption Funds as required by bond covenants or loan agreements, and shall maintain Fund balances consistent with those corresponding debt covenants/agreements.

## 5. Fixed Asset Inventories

AWWD will maintain accurate inventories of all physical assets, to include the condition, life span and cost to ensure proper stewardship of public property. The Director of Finance will establish policies and appropriate procedures to manage fixed assets, including establishing the threshold dollar amount for which fixed asset records are maintained and how often physical inventories will be taken.

## 6. Accounting

AWWD is to maintain a uniform system of accounts, and maintain accounting practices that follow Generally Accepted Accounting Principles (GAAP) for its accounting procedures and financial statement preparation.

- AWWD will comply with the Uniform System of Accounts for Class A Water Utilities and the National Association of Regulatory Utility Commissioners accounting manuals and practices. AWWD will cooperate and comply with all audits and investigations by the Washington State Auditor's Office.

## 7. Investment Policy

AWWD has adopted an Investment Policy which complies with the State of Washington's eligible investments for public funds per the Revised Code of Washington (RCW) 39.59.020 and 39.59.030. The Board adopted Investment Policy will be reviewed and modified periodically to ensure that it continues to meet the financial objectives of the District and continues to serve the best interest of the District.

## 8. Debt Issuance

- Rates for Debt Service Coverage  
Water and wastewater rates shall be maintained at a level necessary to provide annual combined (water and wastewater) net revenues that satisfy a debt service coverage factor of no less than 1.25 times annual debt service. The District will budget for a factor of 1.75 to further protect AWWD's financial risk and provide a favorable measure for rating agencies.
- Arbitrage  
AWWD should engage an arbitrage consultant to assist the District in meeting IRS arbitrage compliance and reporting requirements when applicable.
- IRS Post Bond Issuance Compliance  
AWWD should maintain and comply with the IRS checklist of post-bond issuance compliance requirements.
- Competitive Bond Sale  
All bond sales should be issued on a competitive rather than a negotiated basis. The Board may authorize the use of a negotiated sale if conditions are such that it is in the best interests of the District to issue a bond on a negotiated basis. Competitive and

negotiated bond sales shall be conducted with the assistance of a Financial Advisor who only represents the District's interests. The Financial Advisor's only compensation shall be a fixed fee.

- Annual Reporting NRMSIR

AWWD should comply with bond covenants regarding the annual undertaking of reporting to the Nationally Recognized Municipal Securities Information Repository (NRMSIR) by electronically filing with the Electronic Municipal Market Access system (EMMA) or its successor. Refer to the bond resolutions for a complete list of filing requirements.

# Post Issuance Compliance Policy for Governmental Bonds

## AWWD Res. No. 2620-2013

- I. *Scope.* This Post Issuance Compliance Policy addresses the Alderwood Water & Wastewater District's (the "District") compliance with federal tax, federal securities and state law requirements and contractual obligations applicable to the District's tax-advantaged governmental bond issues. The policy applies generally to all of the District's tax-exempt governmental bonds, and other bonds subject to comparable requirements, such as its taxable direct-pay Build America Bonds. As used in this policy, references to "bonds" include bonds, lines of credit, bond anticipation notes, and equipment and other financing leases.
- II. *Purpose.* This policy is intended to improve the District's ability to:
  - Prevent violations in bond requirements from occurring in the first place,
  - Timely identify potential violations, and
  - Correct identified violations through appropriate remedial steps.
- III. *Schedule of Review.* The policy is to be reviewed at least annually and upon each issuance of new bonds, including refunding bonds. In connection with this periodic review, the District will consider whether the policy should be amended or supplemented:
  - To address any particular requirements associated with the new bond issue, or
  - To reflect general changes in requirements since the prior bond issue.
- IV. *Requirements at Bond Closing.* Numerous federal tax, federal securities and state law requirements must be met in connection with a bond issue. Rate and other covenant requirements will also need to be satisfied. These requirements are addressed in the bond transcript completed at bond closing, and confirmed in certain respects by the legal opinions included in the bond transcript.
- V. *Requirements After Bond Closing.* Other federal tax, federal securities law and state law requirements and contractual obligations require on-going monitoring after the issuance of the bonds.
  - 1) Officials or employees responsible for review. The following officers and employees of the District are identified as the responsible persons for reviewing compliance with the District's post-issuance obligations. Each responsible individual is to institute a calendaring system to track compliance with tasks in a timely manner.
    - a) Federal tax requirements, including arbitrage, use of proceeds, use of facilities and IRS filings:

- 
- Arbitrage, IRS Filings: Director of Finance
  - Use of Proceeds: Director of Finance and Capital Projects Manager
  - Use of Facilities: Director of Finance and Capital Projects Manager
- b) Continuing disclosure requirements:
- Annual Filing: Director of Finance
  - Material Event Notices: Director of Finance
  - Prior to filing each annual filing or material event notice, the Director of Finance is to circulate the draft filing or notice to bond counsel for review.
- c) The Director of Finance and General Manager are responsible for reviewing all other requirements under this policy.
- d) The responsible persons identified above may need to confer, from time to time, with the District's bond counsel, and/or financial advisor, to confirm the applicability and scope of the requirements outlined in this policy. For reference, the contact information for these advisors is provided below:
- Pacifica Law Group LLP, as bond counsel
    - a. Deanna Gregory at 206-245-1716 or Deanna.gregory@pacificallawgroup.com, or
    - b. Stacey Crawshaw-Lewis at 206-245-1714 or Stacey.Lewis@pacificallawgroup.com
    - c. Edward McCullough at 206-245-1727 or Edward.mccullough@pacificallawgroup.com
- 2) Training of the responsible official/employee. The District provides opportunities for training to the responsible individuals, specifically including the following training opportunities:
- a) At or after bond closing, a conference call or meeting with bond counsel to review the requirements applicable to a new bond issue.
  - b) Access to other training opportunities as offered and applicable to the District's bond issuances.
- 3) Records to be Maintained. The following documents are maintained in connection with each bond issue. The goal is to retain adequate records to substantiate compliance with federal tax, securities law, state law and other contractual requirements applicable to the District's bonds. Generally records should be maintained for the term of the bonds (plus any refunding) plus four years. The following records are to be maintained:
- a) Complete bond transcript (provided by bond counsel) in CD or hard copy.
  - b) Records of investment of bond proceeds in a format showing the date and amount of each investment, its interest rate and/or yield, the date any earnings are received and the amount earned, and the date each investment matures and if sold prior to maturity, the sale date and sale price.
  - c) Records of expenditure of bond proceeds in a format showing the amount, timing and the type of expenditure.

- 
- d) Records of invoices or requisitions, together with supporting documentation showing payee, payment amount and type of expenditure, particularly for projects involving multiple sources of funds.
  - e) Records necessary to document the allocation of bond proceeds and other sources of funds to particular projects or portions of projects.
  - f) Records documenting the final allocation of bond proceeds to projects, including any reallocations of bond proceeds, in a format showing the timing and substance of the reallocation, if applicable.
  - g) Records demonstrating compliance with arbitrage and rebate requirements, including arbitrage calculations, documentation of spending exceptions to rebate, rebate reports and IRS filings and payments.
  - h) Copies of contracts relating to the use of the bond-financed facility including leases, concession agreements, management agreements and other agreements that give usage rights or legal entitlements with respect to the facility to nongovernmental persons (e.g., advertising displays, cell tower leases, and naming rights agreements).
  - i) Copies of contracts relating to ongoing compliance with respect to the bonds.
  - j) Copies of any filings or correspondence with the IRS, the SEC or other regulatory body.
- 4) Investment of Bond Proceeds. In general, bond proceeds and certain other funds can only be invested at a rate that exceeds the yield on the bonds under limited circumstances. Furthermore, amounts earned by investing above the bond yield must be rebated to the IRS, unless the District qualifies as a small issuer or a spending exception is met. The arbitrage and rebate requirements for each bond issue are detailed in the federal tax certificate. The Director of Finance will monitor the investment and expenditure of the funds and accounts listed below. The Director of Finance determines whether the bond issue meets the requirement for one of the expenditure exceptions to arbitrage rebate. The Director of Finance will determine whether a rebate calculation is necessary and, if so, will perform the calculation or engage a rebate consultant. The Director of Finance will arrange for the payment of any required rebate to the IRS together with the appropriate IRS form on the dates described below.
- a) Funds to Monitor.
    - Bond or debt service funds/accounts
    - Project or construction funds/accounts
    - Debt service reserve funds/accounts
    - Other accounts with bond proceeds or amounts pledged to pay bonds
  - b) Arbitrage Reports; Rebate May Be Due.
    - During construction, monitor expenditures to confirm satisfaction of expected exception to rebate (such as six month exception, 18 month exception, 24 month exception)
    - The first rebate payment is due five years after date of issue plus 60 days
    - Rebate is due every succeeding five years, if there are unspent gross proceeds of the bonds
    - Final rebate payment is due 60 days after early redemption or retirement of the bonds
  - c) Limitations on Type of Investments. Bond proceeds must be invested as permitted under state law. In addition, the bond resolution or any bond insurance agreement may further limit the permitted investments. To monitor compliance with these investment restrictions, the District limits the investment of bond proceeds to those authorized by Chapter 39.59 of the Revised Code of Washington (RCW).

- 
- 5) Use of Bond Proceeds During the Construction Period. Monitoring the expenditure of bond proceeds is necessary to assure that the required amount of bond proceeds are expended for capital expenditures and that not more than 10% of the bond proceeds are expended for projects that will be used for or in a private trade or business (including by the federal government and nonprofit entities).
- a) The Director of Finance is responsible for reviewing the transcript for the bonds, and in particular the authorizing documents and the federal tax certificate, as well as invoices and other expenditure records to monitor that the bond proceeds are spent on authorized project costs.
  - b) If, at the completion of the project, there are unspent bond proceeds, the Director of Finance, conferring with bond counsel and the District's General Manager, will direct application of the excess proceeds for permitted uses under federal tax law, state law, and bond authorization documents.
  - c) If the project involves bond proceeds and other sources of funds and included both governmental and nongovernmental use of the financed facilities the Director of Finance will undertake a final reconciliation of bond proceeds expenditures with project costs no later than 18 months after the later of the date of expenditure or the date that the project is placed in service (but in no event more than five years after the date of issue).
- 6) Use of Bond-Financed Facilities. Monitoring (and limiting) any private use of the bond-financed facility is important to maintaining the federal tax treatment of governmental bonds. In general, no more than 10% of the bond-financed facility can be used in a private trade or business (including by the federal government and nonprofit entities). Private use can arise through any of the following arrangements, either directly or indirectly.
- a) Types of Private Use
    - Selling all or a portion of the facility
    - Leasing all or a portion of the facility
    - Entering into a management contract for the facility (except for qualified management contracts under IRS Rev. Proc. 97-13)
    - Use of all or a portion of the facility for research purposes under a research contract (except for qualified research contracts under IRS Rev. Proc. 97-14)
    - Entering into contracts giving "special legal entitlement" to the facility (for example, selling advertising space or naming rights)
  - b) Procedures for monitoring private use; procedures reasonably expected to timely identify noncompliance.
    - All leases and other contracts involving bond-financed property will be sent prior to execution to the Director of Finance for review.
  - c) Procedures ensuring that the District will take steps to timely correct noncompliance.
    - If the District takes official action to sell, lease or otherwise change the use of bond-financed facilities to private use, action should be taken under Treas. Reg. § 1.141-12 within 90 days to apply net proceeds of the sale or lease of the facility to other qualifying capital expenditure or to redeem or defease bonds. Upon a determination that there has been or could be a change in use of a bond-financed facility under the monitoring procedures described above, the Director of Finance shall consult with bond counsel and apply net proceeds of the change in use as required.

- 
- 7) Continuing Disclosure. The District is required to make annual filings with the Municipal Securities Rulemaking Board (“MSRB”) as described in the continuing disclosure undertaking for each bond issue (which may include tax-exempt or taxable bonds), and to file notice of certain material events.
- a) Submissions will be made in electronic form through the MSRB’s web-based system known as Electronic Municipal Market Access (“EMMA”), currently available at <http://www.emma.msrb.org>.
- b) Annual filings to be made:
- Financial information and operating data about the District included in the Official Statement for the bonds
  - Change in fiscal year; other information described in the continuing disclosure undertaking
  - Audited financial statements
  - These reports must be filed no later than nine months after the end of the District’s fiscal year end (e.g. September 30) for the District’s bonds (the District’s fiscal year currently ends December 31).
- c) Material event notices:
- The District is required to provide or cause to be provided to the MSRB, in a timely manner, notice of certain events with respect to the bonds. Amendments to SEC Rule 15c2-12 (the “Rule”) in 2010 expanded the list of events requiring disclosure and added a 10-day compliance period for undertakings effective after December 1, 2010.
  - Generally, if any of the following events occur, the District shall provide, or cause to be provided, to the MSRB, in a timely manner not in excess of ten business days after the occurrence of the event, notice of the occurrence of the any of the following events with respect to the bonds:
    1. Principal and interest payment delinquencies
    2. Non-payment related defaults, if material
    3. Unscheduled draws on debt service reserves reflecting financial difficulties
    4. Unscheduled draws on credit enhancements reflecting financial difficulties
    5. Substitution of credit or liquidity providers, or their failure to perform
    6. Adverse tax opinions, the issuance by the IRS of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the bonds, or other material events affecting the tax status of the bonds
    7. Modifications to the rights of bondholders, if material
    8. Bond calls, if material, and tender offers
    9. Defeasances
    10. Release, substitution, or sale of property securing repayment of the Bonds, if material
    11. Rating changes (both upgrades and downgrades)
    12. Bankruptcy, insolvency, receivership or similar event of the District
    13. The consummation of a merger, consolidation, or acquisition involving the District or the sale of all or substantially all of the assets of the District, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material
    14. Appointment of a successor or additional trustee or the change of name of a trustee, if material

d) Procedure for ensuring that notice of the above events is provided to the responsible individual(s) identified above: Director of Finance.

e) Periodic check of information regarding bonds on EMMA. Periodically and at least prior to each new bond issue, the District will search EMMA for its continuing disclosure filings to confirm proper filings have been made.

8) Compliance with Bond Covenants. Particularly for revenue bond issues, the District has made rate and other covenants for the benefit of bond owners. The District monitors compliance with these bond covenants on an annual basis, as part of its annual audit process. These covenants are summarized below:

<b>Covenant</b>	<b>Requirement</b>	<b>Document; Section</b>	<b>Timing</b>
Rates	Fair and equitable and sufficient to pay all operation and maintenance expenses, amounts to fund bond funds, and taxes, assessments and other charges.	Resolution No. 2618-2013; Section 13(a)	Annual review as part of the budget process.
Insurance	Must at all times carry fire and extended coverage, public liability and property damage.	Resolution No. 2618-2013; Section 13(g)	Review annually as part of insurance renewal.
Sale or disposition of property	By resolution with limitations set forth in Bond Resolution.	Resolution No. 2618-2013; Limited by Section 13(c)	Review upon any proposed disposition of assets.
Debt Service Reserve Fund Balance	The lesser of Maximum Annual Debt Service or 125% of Average Annual Debt Service on Parity Bonds.	Resolution No. 2618-2013; page 14, definition of "Reserve Requirement"	Annual review as part of the budget process.
Coverage Requirement	Net Revenues of the System must be at least equal to 1.25 times the Annual Debt Service in that year on Parity Bonds.	Resolution No. 2618-2013; page 8, definition of "Coverage Requirement"	Annual review as part of the budget process.

Note: Debt Service payments are estimated for the Drinking Water State Revolving Fund (DWSRF) loan with the number DM13-952-125. While the District is scheduled to begin making payments in 2019, the exact amounts are not yet known. The capital improvements funded by this loan are scheduled to be completed in 2018.

**ALDERWOOD WATER & WASTEWATER DISTRICT  
SNOHOMISH COUNTY, WASHINGTON  
RESOLUTION NO. 2685-2017**

**A RESOLUTION of the Board of Commissioners of Alderwood Water &  
Wastewater District, Snohomish County, Washington, Establishing the 2018-2019  
Biennium Budget for the Water and Sewer Funds**

WHEREAS, Alderwood Water & Wastewater District (the "District") is a special purpose district authorized by RCW 57 to provide water and wastewater service; and

WHEREAS, RCW 57.08.081 directs the Board of Commissioners of any district to provide for revenues by setting rates and charges for furnishing water and sewer service at a sufficient level to cover the costs of maintenance and operations, debt service payments and all other charges necessary for the efficient and proper operation of the system, including capital expenditures; and

WHEREAS, the Finance Director has provided the Board of Commissioners (Board) for the District with estimates of revenues and expenses for the 2018 and 2019 fiscal years based on estimates provided by departments and reviewed by the General Manager; and

WHEREAS, although chapter 57 of the RCW does not require that a special purpose water/sewer district adopt an annual or biennial budget, the Board and District management have deemed it an effective financial planning tool;

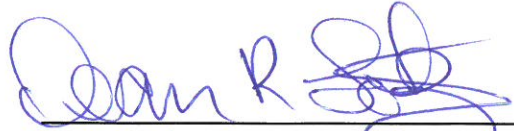

NOW THEREFORE, BE IT RESOLVED BY the Board of Commissioners of Alderwood Water & Wastewater District, Snohomish County, Washington that:

Section 1. The Operating Budget for fiscal years (Jan. 1 – Dec. 31) 2018 and 2019, as shown in Exhibit A, is hereby approved.

Section 2. The Capital Improvement Plan (CIP) Budget for fiscal years 2018 and 2019, as shown in Exhibit B, is hereby approved.

PASSED AND ADOPTED BY THE BOARD OF COMMISSIONERS OF THE

ALDERWOOD WATER & WASTEWATER DISTRICT, Snohomish County, Washington,  
at a regular meeting thereof held on this 4<sup>th</sup> day of December 2017.
