

Hosting an Electronic Voter Registration Drive

Hosting an electronic voter registration drive is easy and convenient – requiring minimal supplies and preparation. It's a great option for universities, schools or any organization.

Online voter registration ensures that a voter's personal information is submitted securely in real time. Electronic applications also eliminate errors caused by illegible applications and can be processed more quickly. Additionally, a unique transaction number allows applicants to verify the status of their application by contacting their County Election Board after the registration drive.

How It Works

An electronic voter registration drive allows individuals to complete and submit the **Oklahoma Voter Registration Application** ONLINE using any desktop or mobile device.

Applicants must have the following:

- A current Oklahoma Driver License or State ID
- A digital signature on file with Service Oklahoma

Eligible applicants without the required information will be directed to fill out the **Oklahoma Voter Registration Application** online using the [OK Voter Portal "wizard."](#) Applications filled out using the "wizard" can be printed on demand at the host location for the applicant to sign and mail to their County Election Board **OR** the applicant can email the application to themselves to review, print and submit at a later date.

Preparing Your Event

No approval is needed to host an electronic Voter Registration Drive; however, you will may want to create promotional materials for your event.

- [Download our Register to Vote QR codes](#) to copy and use on posters, cards, and other promotional materials. You can also create your own QR code or provide the URL to the State Election Board's Register to Vote page at <https://oklahoma.gov/elections/voter-registration/register-to-vote.html>.
- Create a "voter registration station" desk or table. Feel free to use decorations to draw attention to your voter registration drive.
- Recruit volunteers and provide them with a copy of Legal Responsibilities and Hosting a Voter Registration Drive Q & A *and* Tips.
- Promote your event!

RECOMMENDED: You may want to assist those who are unable to register to vote online by having paper applications available OR at least one computer, one printer, and a pen available (blue or black) for applicants using the OK Voter Portal "wizard." Applications that are filled out and printed using the "wizard," must be signed and dated by the applicant and submitted by mail or in person to the Election Board.

Voter Registration Applications

As the voter registration host, you may assist voters by:

- Reading or explaining the requirements of the application (see [Legal Responsibilities](#));
- Collecting printed and signed applications to submit to the State Election Board or County Election Board **immediately** following the voter registration drive; and/or
- Offering envelopes and/or stamps for voters to mail applications to the Election Board themselves. (See [26 O.S. § 16-106](#).)

TIP: By allowing voters to mail applications themselves, you eliminate your organization's responsibility for ensuring that the applicant's information remains secure and that the application is delivered to the Election Board by the voter registration deadline.

For more information on hosting a successful voter registration drive, be sure to read our [Voter Registration Drive Q & A and Tips](#).
