

MESSAGE FROM THE DIRECTOR

Increased transparency is the goal of a new law in Colorado which will standardize the rulemaking process for all state agencies. Under House Bill 12-1008, departments must identify and work with interested and potentially impacted parties during the process, particularly when new fees or penalties may be involved in the proposed rule change.

For some agencies, this may be a departure from the way business has been done, but for many – including the Division of Gaming – it will formalize procedures that are already in practice. Rulemaking hearings have been publicized on the Gaming Web and are always open to the public.

The Department of Revenue will submit a departmental regulatory agenda each November 1, which will include:

- A list of new rules or revisions to existing rules that the department expects to propose during the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules; and
- An identification and listing of persons or parties that may be affected positively or negatively by the rules.

The Department of Revenue will also submit a regulatory report each November 1 that includes an update and brief summary of all permanent and temporary rules actually adopted since the previous departmental regulatory agenda was filed.

We look forward to more transparency and always welcome your involvement in the rulemaking process. You can learn more, and download a form to submit proposed rule changes at: <http://www.colorado.gov/cs/Satellite/Rev-Gaming/RGM/1213781235687>

— Laura Manning, Acting Director, Division of Gaming

MESSAGE FROM THE DIRECTOR

During 2011, the Division finalized rules and internal control procedures that allowed casinos to implement electronic promotional credit systems (EPCS) beginning in January 2012. Casinos can now download promotional credits from either player club accounts or other promotional accounts to slot machines for play by their patrons. Other regulatory reform efforts in 2012 included rule changes that allow casinos to use noncashable chips for table games play, which have been implemented.

The Division of Gaming worked in conjunction with the industry on the research, analysis, rules and Internal Control Minimum Procedures (ICMP) to allow delayed and offline tickets. The allowance of delayed and offline tickets will benefit the industry by permitting more than one ticket to be printed in the event of a minor communication break between the slot machine and the ticketing system. The information is stored in the slot machine and when communication is restored the ticket information is sent to the ticketing system. This will allow the industry increased efficiency in using the built-in features of the system. A rules workshop was held on March 19, 2013 to finalize the rule draft for presentation to the Commission. Once the rules are approved and the ICMP are effective the industry can begin the implementation and use of this functionality.

-- Laura Manning

KAMMERZELL MOVES ONWARD AND UPWARD; MANNING NAMED GAMING DIRECTOR

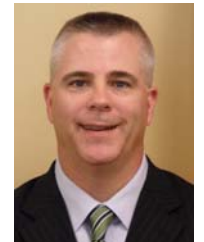

Laura Manning has been named the Director of the Colorado Division of Gaming. One of the longest-tenured employees at the agency, Laura has worked at the Division for more than 21 years, bringing a wealth of gaming regulatory and law enforcement experience to this position. She has worked both in the field in an enforcement capacity and also in the background investigations unit where she established many of the standards that are still used today. Laura Manning served as the Chief of Investigations and Enforcement for more than 9 years.

Manning

"I have a great deal of confidence in her abilities and I know that she will continue to build on the many successes of the Division through her dedication and leadership," said Ron Kammerzell, who started with Gaming in 1992, and worked his way up to Division director.

Kammerzell was recently named the Deputy Senior Director of Enforcement for the Department of Revenue, overseeing a number of Divisions including Auto Industry, Liquor/Tobacco, Medical Marijuana Enforcement, Racing and Hearings, as well as Gaming. Kammerzell was also on the Amendment 64 Task Force to help define a regulatory structure for sale of adult-use marijuana in Colorado.

Kammerzell

"Leaving was not an easy decision because the Division of Gaming has an amazing group of dedicated people," Kammerzell said. "But I am looking forward to the challenges in my new position overseeing Enforcement and know that I will have many more opportunities to work with the great staff at Gaming."

MESSAGE FROM THE DIRECTOR

The legislative session ended on May 8, and down to the wire the Division of Gaming was watching for the passage of Senate Bill 173, *“Concerning the continuation of the Division of Gaming, and, in connection therewith, implementing the recommendations in the 2012 sunset report by the Department of Regulatory Agencies.”*

We’re happy to say that SB13-173, better known as the Division’s Sunset Bill, was passed in the waning hours of the session, and we’ll be here until at least 2022, when we will do it all over again. Having the Division’s operations reviewed in detail isn’t a bad thing; on the contrary, it gives us a chance to take a focused look at how we are doing things and see if there are more elegant, efficient and effective ways to get the job done. We are now beginning the process of implementing the recommendations which are part of the sunset bill.

Another bill which passed is SB13-133, *“Concerning the distribution of the state share of limited gaming fund revenues.”* This bill, requested on behalf of the gaming fund recipients, sets specific amounts which each will receive during the fiscal year. Under the prior system, the recipients funding could fluctuate with gaming revenues, making it difficult to set budgets and anticipate the coverage of critical operating needs.

We look forward to regulating the industry for another decade.

-- Laura Manning, Director

Gaming Regulators Watching Google Glass

Gaming regulators in Colorado and the rest of the United States are watching the development of a new technology device, "Google Glass," to gauge its potential uses and effects in casino gambling.

Google Glass is a tiny computer worn on a head-mounted display resembling eyeglasses. The Google Glass device can take and transmit photographs and video recordings, and is operated through head movement, voice command or a touch pad. Currently being tested by a few thousand participants, the product is slated to be released to a wider market later in 2013.

"It's clear that using these glasses to cheat would be against Colorado law," said Division Director Laura Manning. "So while we are not contemplating regulations against the glasses specifically, we do want casinos to be aware of anyone who is using them while playing." Some say the devices could be used to cheat at card games by sharing information about one's hand with another person at the table, or could potentially project a calculator in the wearer's field of vision, enabling card counting.

Casinos in several states have voluntarily decided to ban the use of Google Glass in their establishments; while state regulators including New Jersey, Nevada and Missouri say they have or soon will issue directives or advisories on the topic. Other states may follow suit.

"Even if the individual is not using Google Glass to cheat, one concern we have is that having a patron using this technology while playing in a casino can give the impression that the environment is not fair, and undermine public confidence in the integrity of regulated gaming in Colorado," Manning said.

Colorado law (12-47.1-822 *Cheating and 12-47.1-823 Fraudulent acts*) already states that it is unlawful for any person to cheat at any limited gaming activity, or to change a bet or course of play after acquiring knowledge which is not available to all players.

HISTORY OF COLORADO'S GAMBLING PAYMENT INTERCEPT

In 2008, Colorado became the first state to require casinos, racetracks and the Colorado lottery to intercept cash winnings for Colorado court-ordered child support payments. Since then, other states including New Mexico, Iowa, Illinois, Indiana and Louisiana have followed suit. A number of other states are considering similar legislation.

Although Colorado's initial focus was on collecting delinquent child support, over the years, the Colorado Gambling Payment Intercept (GPI) Act has been modified to include court-ordered restitution and certain other debts. Legislation allows other state agencies to submit debts to the Department of Revenue (DOR) for delinquent citizens. These debts are compared to DOR records before payment is made. If a match is found the portion of the payment owed is withheld from winnings or refunds and remitted to the agency owed. This process is called an "intercept."

Here's a look at how the Gambling Payment Intercept Program evolved over the years.

HB 07-1349: In the 2007 Session, the General Assembly passed the Gambling Payment Intercept Act. The Act provided for intercepts of child support debt and arrearages. Rules allowed the licensee (such as a casino) to withhold \$25 of which \$15 was retained by the licensee to cover compliance costs.

HB 09-1137: In the 2009 Session, the General Assembly amended the Gambling Payment Intercept Act to provide for intercepts of criminal restitution that was ordered paid pursuant to §§18-1.3-603 or 19-2-918, C.R.S. The amendment created the \$25 fee for deposit in the gambling payment intercept cash fund, to expand the program and cover costs associated with

administration of the Act.

The Judicial database was added to the registry and DOR rules were amended and became effective July 1, 2011, to include the criminal restitution piece as well as the \$25 fee to the gambling payment intercept cash fund.

SB 11-051: In 2011, the General Assembly amended the Gambling Payment Intercept Act again, to provide for intercepts of certified State debt.

C.R.S. 24-35-607 was amended to allow a licensee (such as a racetrack or casino) to retain at least thirty dollars of each payment as a cost of compliance.

DOR rules were amended (effective November 14, 2012) to change the amount withheld by the licensee (such as a casino or racetrack operator) to \$40 of which \$30 goes to the licensee to offset compliance costs. The \$25 to the gambling payment intercept cash fund remained the same.

Current Status (Summer 2013): In 2013, the addition of the Department of Personnel and Administration (DPA) database to the registry is being implemented. Intercepts on behalf of DPA can include debt which has accrued through contract, subrogation, tort or operation of law.

DOR, the State Internet Portal Authority (SIPA) and FAST Enterprises are working jointly to create a Master Intercept Repository (MIR) that will centralize the intercept process between different divisions within DOR (Gaming, Racing, Lottery and Taxation). Centralization will reduce instances of citizens being intercepted multiple times for the same debt. The MIR will serve as the single point of record for DOR divisions to receive available intercept information. When an intercept is made, the MIR will reflect these transactions and coordinate notification. Consolidation should be completed by the end of calendar year 2013.

New Associated Equipment Supplier License Type Added in Colorado

Legislation passed in the spring of 2013 added a new license type, bringing the types of Gaming licenses from five to six. The addition is the "associated equipment supplier license." An associated equipment supplier license is required for a person who imports, manufactures, or distributes associated equipment in Colorado, or who otherwise acts as an associated equipment supplier.

"This new license fills a void we had previously," said Laura Manning, Division Director. "Particularly with rapid changes in technology, we need a license that allowed the Division to have regulatory authority over companies and individuals who sell or service devices, equipment, and systems used to monitor gaming transactions or collect data from machines."

Slot machine manufacturers or distributors who are licensed in this state and who import, manufacture, or distribute associated equipment need not obtain a separate associated equipment supplier license. The Division is in the process of creating rules for this new license, and a rules making workshop is scheduled for Tuesday October 22, 2013 at the Division's Golden office. The Commission is expected to promulgate the rules for this new license in December 2013.

MESSAGE FROM THE DIRECTOR

Division of Gaming management recently visited the beautiful southwestern part of the state for annual meetings with each of the Ute Mountain Ute and Southern Ute tribes per the compacts between the State and the tribes.

Every fall, we meet with our counterparts who regulate the Casino-style gaming on Indian land. The two tribes are not subject to taxation and are not required to report their revenues to the State. The tribes have agreed to conduct limited gaming with the same \$100 bet limits that other casinos in Colorado adhere to, but a provision in the compacts allows the tribes to litigate possible higher stakes and increased scope of games.

These meetings are a valuable opportunity to share information about casino regulation, as well as law enforcement issues. We value the experience and appreciate the welcome we receive on these visits.

Laura Manning,
Director
