

SLCP in the Hard Goods Sector

CASE STUDY

Dick's Sporting Goods is a major US-based retailer specializing in sporting goods, equipment, apparel, and footwear.

Dick's operates in over 200 facilities worldwide, and in the past two years, **54%** of these, including **hardline facilities**, have adopted SLCP.

Benefits of SLCP adoption experienced by Dick's:

Enables standardization across facilities.

Facilitates the identification of areas of risk related to social compliance.

Allows proactive measures to address compliance issues in line with legislative expectations.

Drives more efficient and cost-effective compliance for brands and suppliers.

“

I highly recommend SLCP because it significantly reduces audit fatigue, allowing brands to focus their resources on capacity building projects.

”
Josephine Lam

Dick's Sporting Goods Senior Manager of Responsible Sourcing
