SUPPLEMENT

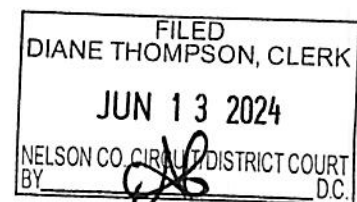

INVESTIGATION:

November 21st, 2023:

On November 21st, 2023 Detective James Gaither, Sgt. Bo Hensley, Sgt. Blake Owens, Detective Tony Hardin, Detective Dillon Spencer, and I met with Stephen Lawson. We met at 509 Thompson Hill Road in Cox's Creek. Lawson stated that he observed Joey Lawson and Jeremy Thompson digging within a short time after Crystal's disappearance. Steve states that he believes it was on July 4th that this occurred. He stated that it was within 5 days of Crystal's disappearance. He states that they were burning and digging at 400 Thompson Hill Road with a Skid-Steer. He stated that he was burning large amounts of wood in a hole at the request of David Thompson on the 509 side. It was later brought to my attention that we inquired about the skid-Steer being on the property on numerous occasions. Steve had denied that the Skid-Steer had ever left the construction sites after Rogers disappearance in a previous interview. Steve Lawson cannot explain the change after being questioned.
