

**Maryland State Retirement and Pension System
Implementation of the 2022 Divestiture from Russia Act
(Annotated Code of Maryland, State Personnel and Pensions Article, § 21-123.3) As
of April 1, 2023**

The 2022 Divestiture from Russia Act (the “Act”) requires the Board of Trustees of the Maryland State Retirement and Pension System (the “Retirement System”) to submit semi-annual reports to the Senate Budget and Taxation and House Appropriations Committees as well as the Joint Committee on Pensions regarding the Retirement System’s implementation of the Act, which is codified at SPP § 21-123.3 of the Annotated Code of Maryland.

The Act requires that the Board of Trustees review its investment holdings in certain eligible accounts for the purpose of determining the extent to which funds in eligible accounts are invested in Russia-restricted investments. The Act states that the Board shall take certain divestment action in eligible accounts with regard to current investments in any Russia-restricted investment; or in any security or instrument issued by Russia; and may not make any new investments from net new funds in an eligible account in any Russia-restricted investment; provided, however, that the Act does not require the Board of Trustees to take action unless the Board of Trustees determines, in good faith, that the action is consistent with the fiduciary responsibilities of the Board of Trustees as described in the State pension article.

This report includes the following:

- (1) all divestment actions taken by the Board of Trustees in accordance with the Act;
- (2) a list of investments that the Board of Trustees has determined to be ineligible for investments of net new funds under subsection (c)(2) of the Act; and
- (3) other developments relevant to Russia-restricted investments.

1. All divestment actions taken by the Board of Trustees during the Reporting Period.

During the Reporting Period, the Board of Trustees added 1,270 companies to the list of restricted securities. Please see Attachment 1.

2. Companies doing business in Russia, which the Board of Trustees has determined during the Reporting Period to be ineligible for investments of net new funds under the terms of the Act.

At its meeting on March 21, 2023, the Board of Trustees determined that the 1,270 companies noted in attachment 1 are not eligible for investment and directed that managers of eligible accounts be notified of the restriction.

3. Other developments relevant to investments in companies doing business in Russia.

- A. In discharging their responsibilities under the Act, the Board of Trustees and its Corporate Governance and Securities Litigation Committee (“Corporate Governance Committee”) receive and review information, as well as input from (i) the System’s external investment managers, (ii) Meketa Investment Group, Inc., the System’s general investment consultant, (iii) legal counsel and, (iv) staff of the Investment Division.

The information presented to the Board of Trustees and its Corporate Governance Committee considers a wide array of factors, including:

1. Explicit/initial and implicit/ongoing divestment costs on both an individual and aggregate level;
 2. Company impact on aggregate, fund-level returns and managers; and
 3. Representation of companies in the relevant investment benchmarks, including:
 - i. Representation of companies in sectors and industries; and
 - ii. Representation of companies in various investment benchmarks.
- B. The Board of Trustees recognizes that it has a continuing monitoring and reporting obligation. ISS is providing ongoing monitoring services, and the general investment consultant, State Retirement Agency staff, and legal counsel will continue to assist the Corporate Governance Committee in reviewing matters regarding the Act.
