# Adding NAIC Multi Factor Authentication (MFA) to Email Authentication.

On computer, follow below instructions after clicking 'Set Up' under Email Authentication. *(See MFA Getting Started instructions)*

Requires access to your email.

1. Click '**Setup'** or '**Configure factor**' button.

2. Click '**Send me the code**' button.

3. Check email for code, enter code received > Click '**Verify**' button.

NOTE: No email? > Click 'Send again' link.
