

NAIC
Military Sales Online Reporting System (MSORS)
Terms of Use Agreement

The Military Personnel Financial Services Protection Act, Pub. L. No. 109-290 (2006) mandates that states collectively implement a system to receive reports from insurers, federal government entities and state government entities regarding disciplinary actions taken against persons that sell or solicit the sale of any life insurance product on any military installation of the United States. To satisfy this mandate, the NAIC established a uniform Military Sales Online Reporting Form and a centralized point to report disciplinary actions to all state insurance departments. The form may also be used by federal government entities and state entities, other than insurance departments, to report disciplinary actions.

Reporting is restricted to use for legitimate business purposes only. All electronic information transmitted by, received from, or stored in NAIC equipment is the property of NAIC. Submitted information will be transmitted to the states as indicated for their review and investigation. The NAIC bears no responsibility or liability for the accuracy or veracity of information submitted. Users reporting disciplinary actions will do so in good faith. The submission of disciplinary actions may be monitored and recorded for administrative and security reasons.

Submitted information will be transmitted by the NAIC to the State Departments of Insurance and also will be stored at the NAIC. Information provided to the NAIC by an insurer, a federal government entity, state government entity or their authorized representative may not be protected by the confidentiality provisions (if any) of individual state's laws.
