INTRODUCTION

These *2022 Market Share Reports for the Top 125 Accident and Health Insurance Groups and Companies by State and Countrywide* are intended to make market share information more readily available. Data from groups and companies filing the property/casualty (P/C), life/health, and health annual statements are combined so that the accident and health (A&H) insurance market can be seen in its entirety.

The report also includes several charts and graphs to allow for premium trending. The direct premium data reported in this publication are taken from page 19 of the NAIC P/C annual statement, page 24 of the NAIC life/health annual statement, and page 38 of the NAIC health annual statement. Direct written premium includes premium data obtained via the California Department of Managed Health Care (DMHC).

The column labeled “Business Type” indicates whether the group/company has filed a life/health annual statement (L), a P/C annual statement (P), or a health annual statement (H), or whether the data was received from the California DMHC. The companies within a group may file on various annual statement types, so all statement types used by companies within the group are shown in this column.

Insurance groups are made up of insurance companies that are related by ownership. The market share reports show data by group for those insurers that are a member of a group. This allows the report to more accurately reflect the number of distinct entities that are competing against one another for business in the market. An index listing the individual insurers within a group is included at the end of the report. Insurers merge, change names, and buy and sell companies; however, the index gives a “snapshot” view of group structures as filed with the NAIC as of July 24, 2023 (the date this report was generated).

ACCIDENT AND HEALTH MARKET SHARE REPORT APPLICATIONS

The Accident and Health Market Share Report will help a user:

- ✓ Assess an insurer's competitive position
- ✓ Create benchmarks to compare companies
- ✓ Identify the top writers
- ✓ Analyze the overall size of the market
- ✓ Identify premium volume trends
- ✓ Evaluate market penetration potential
- ✓ Evaluate post-merger market implications

The Accident and Health Market Share Report provides fundamental market information that can be used by state insurance regulators, insurers, and others interested in analyzing the insurance industry. This report gives users an understanding of the overall size of the market by providing data at a state and national level. Included in this report are several charts and graphs that illustrate premium growth over the past 10 years. These charts can be used to identify nationwide premium volume trends. This is pertinent information for anyone attempting to evaluate an insurer's market penetration or growth potential.

The Accident and Health Market Share Report serves as an important tool for state insurance regulators and can help them identify the top A&H writers in their jurisdiction. Knowing this allows them to quickly and effectively target insurance department resources. This is important when responding to market or financial conditions in their jurisdiction. Many states have antitrust laws that prevent insurers from merging or combining with other insurers if the post-merger impact stifles competition within the state. State insurance regulators can assess any proposed merger transaction by evaluating the combined market share percentage of the participating insurers.

The data contained in this report can be used for financial or market analysis. Significant changes in an insurer's market share ranking can be an indication of competitiveness, financial or market health, or structural changes. For instance, steady market share growth allows an insurer to gain greater economies of scale and retain more in its bottom line. However, rapid market share increases can indicate that an insurer is growing too fast and should be examined for solvency stability and rate inadequacy. Rapid market share increases could also be the result of a merger. In contrast, rapid market decreases could indicate that the insurer is reducing its exposure, has ceased writing due to financial difficulty, or is encountering market conduct issues.

Using this report allows insurers to identify their competitors and comparative market share. This allows insurers to easily assess their competitive position and assist in establishing strategic objectives, such as premium growth goals or benchmark targets.

**2022 MARKET SHARE REPORTS – ACCIDENT AND HEALTH INSURERS
TECHNICAL NOTES**

General

Only companies reporting positive premiums are displayed in this report. While companies reporting negative premiums are not listed, the negative premium is still included in the calculation of total premium. Due to the addition of negative premiums to the total premium, the cumulative market share is capped at 100%.

Direct Written Premium Source

States, U.S. Territories, Canada, Aggregate Other Alien

The sum of all states, U.S. territories, Canada, aggregate other alien and California Department of Managed Health Care (DMHC) entities.

States and U.S. Territories

The sum of all states, U.S. territories and California DMHC entities.

Supplemented California Data

California DMHC

Please note: Beginning in 2019, life and fraternal companies began using the same quarterly and annual reporting forms. Additional rows and columns were added to the Life financial statements to accommodate reporting of fraternal organizations, and the fraternal quarterly and annual reporting forms were retired.

Market Share

Market share = Company's or group's premiums divided by the total premiums times 100. Depending on the report, the total premiums are either countrywide or by state/territory.

Cumulative market share is the running total of the individual company or group market shares.

It should be noted that the Total All Lines and California sections of the report may include entities that report to the California DMHC. For 2022, California DMHC entities included in this report are as follows:
