Insurance Commissioners

# **Statistical Compilation of Annual Statement Information for Property/Casualty Insurance Companies in 2019**

---

**2020**

National Association of  
Insurance Commissioners

*The NAIC is the authoritative source for insurance industry information. Our expert solutions support the efforts of regulators, insurers and researchers by providing detailed and comprehensive insurance information. The NAIC offers a wide range of publications in the following categories:*

#### **Accounting & Reporting**

Information about statutory accounting principles and the procedures necessary for filing financial annual statements and conducting risk-based capital calculations.

#### **Consumer Information**

Important answers to common questions about auto, home, health and life insurance — as well as buyer's guides on annuities, long-term care insurance and Medicare supplement plans.

#### **Financial Regulation**

Useful handbooks, compliance guides and reports on financial analysis, company licensing, state audit requirements and receiverships.

#### **Legal**

Comprehensive collection of NAIC model laws, regulations and guidelines; state laws on insurance topics; and other regulatory guidance on antifraud and consumer privacy.

#### **Market Regulation**

Regulatory and industry guidance on market-related issues, including antifraud, product filing requirements, producer licensing and market analysis.

#### **NAIC Activities**

NAIC member directories, in-depth reporting of state regulatory activities and official historical records of NAIC national meetings and other activities.

#### **Special Studies**

Studies, reports, handbooks and regulatory research conducted by NAIC members on a variety of insurance related topics.

#### **Statistical Reports**

Valuable and in-demand insurance industry-wide statistical data for various lines of business, including auto, home, health and life insurance.

#### **Supplementary Products**

Guidance manuals, handbooks, surveys and research on a wide variety of issues.

#### **Capital Markets & Investment Analysis**

Information regarding portfolio values and procedures for complying with NAIC reporting requirements.

#### **White Papers**

Relevant studies, guidance and NAIC policy positions on a variety of insurance topics.

## INTRODUCTION

This *Statistical Compilation of Annual Statement Information for Property/Casualty Insurance Companies in 2019* has been created to fill a need for industrywide totals from the NAIC annual statement databases. These data, by being readily available as a reference, will satisfy a wide range of needs and uses.

### Report Format

This report contains three major sections:

#### Annual Statement Financial Data

- The first section consists of countrywide financial data presented in the NAIC annual statement format for Assets, Liabilities, Underwriting and Investment Exhibits, Analysis of Assets, Schedule D, Schedule H, Schedule P, and the Insurance Expense Exhibit (IEE).

#### State, Territory, and Aggregate Other Alien Insurance Data

- The second section consists primarily of 2019 direct premium and loss data by state and by line of insurance. This includes Schedule T (Exhibit of Premiums Written), Schedule T Part 2 (Interstate Compact Products Exhibit of Premiums Written), Supplement “A” to Schedule T (Exhibit of Medical Malpractice Premiums Written), and Exhibit of Premiums and Losses (Statutory Page 14) - countrywide and by state.

#### Selected Data Elements from Company and Combined Statements

- The third section consists of selected 2019 data elements from both individual company and combined annual statements. The annual statement sources for each of these data are listed in the technical notes. An index is included to facilitate locating companies that are included in combined statements.

Comments on this report are encouraged so that the report will continue to evolve and meet the needs of NAIC members and other users. These data are maintained in NAIC databases and are available for additional application development.

### Aggregation, Combination, and Calculation of Data

This report utilizes the term “aggregated” to describe data developed by summing the annual statements of individual companies. The term “combined” is used to describe data developed by summing combined annual statements with those individual companies not included in any combined annual statement. Combined annual statements for property/casualty insurance companies have been used, where available, to more accurately reflect industry financial data.

The term “combined” data is most significant with respect to developing asset, liability and surplus data. Aggregated assets calculated from the individual company totals are significantly higher than combined assets calculated using combined statements. The differences can be attributed to the fact that combined statements report data net of affiliated company investments and transactions, while individual company statements do not.

With respect to direct and net insurance premium, loss, and expense data, differences between aggregated and combined data do exist, but those differences are less significant. Data related to reinsurance assumed and ceded, however, will show significant differences. Many intercompany transactions are eliminated in combined statements.

The Technical Notes will show that all information, with the exception of calculated percentages, is directly aggregated from the annual statement filings. This has been done in order to provide a more accurate representation of industry data. As a result, figures that are compared from one statement page to

another might not match due to individual company rounding and the cumulative effects of minor variances.

The Insurance Experience Exhibit (IEE), Exhibit of Premiums and Losses, and Schedule T pages are aggregated data as reported on individual company, rather than combined, annual statements.

The scope of this project does not include any extraordinary review or detailed analysis of data for the purpose of combining insurance company data. Combination of data is accomplished entirely through the use of combined annual statements.

### **Crosschecks and Balances**

This *Statistical Compilation* presents data in the NAIC annual statement format. The data are developed from the annual statements of 2,594 individual companies, as well as 272 combined annual statements. (Of the 2,594 individual companies, 1,304 are not included in any combined statement.) The level of precision that is possible with an individual company statement is not possible with industry combined and aggregated data.

The most important difference is that a significant number of companies are added to and deleted from the NAIC annual statement database each year. Therefore, the ending surplus as regards policyholders for the prior year cannot and should not equal the beginning surplus as regards policyholders for the current year.

Also, while every effort has been made to ensure that all significant errors and omissions in annual statements have been identified and resolved, certain anomalous data could exist. Most anomalies have been identified and resolved. However, in some instances, explanations are provided by insurance companies, which result in maintaining the anomalous figures.

To minimize anomalous results, certain statements might be excluded from this *Statistical Compilation*. The section displaying selected data elements for individual companies provides a complete listing of companies included in this *Statistical Compilation*. No company in the NAIC database was excluded if its exclusion would have resulted in a significant impact on the industry totals.

### **Qualifications**

The accuracy of the reports included in this publication depends on the accuracy of the information contained in the annual statements filed by insurers. The NAIC system cannot always identify a misstatement in accordance with statutory requirements or errors in identifying securities. Even though the data elements used to prepare the reports are extracted from annual statements filed with the NAIC, the NAIC cannot guarantee their accuracy.

While the NAIC exercises a great deal of care in capturing data from annual statements and producing various reports, as with any statistical project of a significant magnitude, errors can occur. Consequently, the NAIC makes no representations or warranties with respect to the accuracy of the data and statistics in this report.

Please send any questions regarding this report to [researchrequest@naic.org](mailto:researchrequest@naic.org). Links to this report and other NAIC reports can be found on the NAIC website at: [NAIC Publications](#).

# **Selected Data Elements From Company and Combined Statements**

## **HOW TO LOCATE COMPANIES AND GROUPS**

The groups of companies filing combined annual statements are listed first in this section. The groups are in alphabetical order by group name. All companies included in the combined annual statement are listed with the group.

The individual companies not included in any combined annual statement are listed in alphabetical order immediately following the groups.

If the group name for an individual company is not known, refer to the index following this section.

**2019 STATISTICAL COMPILATION - PROPERTY/CASUALTY INSURERS  
TECHNICAL NOTES**

**Annual Statement Financial Data**

All pages except for the Insurance Expense Exhibits (Supp4, Supp5, Supp6, Supp7, Supp8) are aggregated from Combined Annual Statement filings. The Insurance Expense Exhibits are aggregated from Individual Annual Statement filings.

**State and Countrywide Insurance Data**

**Page 94 (Schedule T)**

All data are aggregated from Individual Company filings.

**Page 19 (State pages)**

All data are aggregated from Individual Company filings.

**Selected Data Elements from Company and Combined Statements**

**Percentage Columns**

Percentages are calculated using whole dollars.

<u>Data Element</u>	<u>Property/Casualty Annual Statement Source</u>
• Total Net Admitted Assets	• Page 2, Line 28, Column 3
• Surplus as Regards Policyholders	• Page 4, Line 39, Column 1
• Net Losses Unpaid	• Page 3, Line 1, Column 1
• Net Loss Adjustment Expense Unpaid	• Page 3, Line 3, Column 1
• Unearned Premium Reserve	• Page 3, Line 9, Column 1
• Direct Premium Written	• Page 8, Line 35, Column 1
• Net Premium Written	• Page 6, Line 35, Column 1
• Net Premiums Earned	• Page 4, Line 1, Column 1
• Net Losses Incurred	• Page 4, Line 2, Column 1
• Net Loss Expenses Incurred	• Page 4, Line 3, Column 1
• Net Loss and Loss Expenses Incurred as % of Net Premiums Earned <sup>1</sup>	• (Net Losses Inc. + Net Loss Exp Inc.) 100 / Net Premiums Earned
• Net Underwriting Expenses	• Page 4, Line 4, Column 1
• Net Underwriting Expenses as % of Net Premiums Written <sup>1</sup>	• Net Underwriting Expenses 100 / Net Premiums Written
• Net Underwriting Gain (Loss)	• Page 4, Line 8, Column 1
• Net Investment Gain (Loss)	• Page 4, Line 11, Column 1
• Federal and Foreign Taxes Incurred	• Page 4, Line 19, Column 1
• Net Income	• Page 4, Line 20, Column 1

<sup>1</sup>Percentages are displayed as “N/A” when premiums are zero or negative. The amounts reported in this section are rounded to the nearest thousand. There may be companies that have reported less than \$1,000 of premiums, and these premiums will appear in this report as zero premiums. However, the percentages will still calculate based on the true amount of premiums.

## **Totals**

Data on the total lines are calculated in whole dollars before rounding. Corresponding results in the annual statement section may differ. In the annual statement section results may be calculated from other lines in the annual statement as contrasted with summing the data element directly.

Of the 2,594 companies included, 1,290 of those companies are included in one of the 272 combined statements. The combined totals shown at the end of this section represent a sum of the 272 combined statements plus the totals of the 1,304 companies not included in any combined statement. The aggregate totals represent a sum of the 2,594 companies.
