

ALPHABETICAL INDEX

EXPLANATORY NOTE

(See also the GENERAL INTRODUCTION)

The Alphabetical Index consists of two types of main headings arranged in one alphabetical listing:

(1) names of countries, intergovernmental organizations, specialized agencies, national institutions or other parties to instruments and (2) subject-headings of the instruments.

Under the main country heading (or organization) the instruments are listed alphabetically by country or organization and then by full title.

Instruments with more than two parties are listed alphabetically by full title under the heading "Multilateral". Treaty actions and subsequent agreements are no longer included in the Alphabetical index. They can be found in the Chronological Index.

When using the alphabetical part of the Index it should also be noted that related subject-headings are linked together by *See also* cross-references intended to link similar subject-headings available in the present Index.

In addition, it should also be kept in mind that certain multilateral agreements of a universal character, such as international conventions signed and registered under the auspices of the United Nations specialised agencies and large regional organizations, appear under the subject-headings for those agencies and organizations.
