Managed Shared Hosting consists of space across 8 separate, physical servers between multiple data facilities:

- Primary shared web application server
- Primary shared database server
- Primary content delivery server (images, resources etc)
- Overnight off site web application, content and email backup server
- Live off site replication database server (live mirror)
- Overnight off site secondary replication server with 1 month rolling daily snapshot backup
- Secondary replicated content delivery server (images, resources etc)
- Overnight off site content backup (mirrored)

Bandwidth upgrades available between packages. Shared hosting is billed annually in advance.

SLA: All managed packages are covered by our Service Level Agreement available here:
https://www.2dmedia.co.uk/2Dmedia_SLA.pdf

All prices are subject to VAT at the current rate.
