Addendum 2

ITB #24-42-212084

Fiber Optic Cable Installation: Hurricane Siding

Addendum number 2 has been issued for Questions.

The Closing Date for this ITB has not changed.
Bids will be received until June 13, 2024 @ 3:00 PM Alaska time.

Questions:

1. The job specification states that fiber splicing and terminating materials will be provided by ARRC, however, these materials are not listed in the ARRC-provided materials. Please provide details on the fiber splicing and terminating materials to be provided by ARRC. **ARRC will forward splicing & terminating material lists. These items were not identified when the initial Bid packages went out.**
2. In Appendix C Scope of Work, under Key Deliverables, Milestones and Schedule, ARRC states "To avoid delaying a Train, some construction and splicing efforts must be scheduled to take place after normal work hours." Can ARRC explain how much this might affect the construction or should we assume that all construction must be completed after normal work hours? **Approximately 80% of the Hurricane Build should be workable under normal work hours. Once construction starts, we will check train schedules and provide windows of opportunity for construction between Trains Runs. Due to the proximity to the tracks (far enough away), most of the work will not be affected by train movement.**
3. Is ARRC supplying the 24ct fiber going to the shelters as it was not listed on the ARRC supplied material list? If not, is the contractor required to use pre-terminated cables or can raw 24ct fiber be used? **ARRC will provide pre-terminated cable on the Shelter side and Raw fiber on the vault side to facilitate the installation.**
4. Will ARRC have resources available to move a bore mud tank to the locations where the bores will be? Some of the locations are hard to access due to wet swampy conditions. **Yes**
5. Will ARRC be providing any clearing required for this project or do they not foresee any significant clearing needed? **We do not foresee significant clearing requirements for this Builds area.**
6. For the future work from Bear Valley to Portage, does ARRC want a separate estimate for this portion in case they have the budget available to complete the entirety of the project this year? **Yes, please see the revised Cost Schedule attached here in replacing the prior one in its entirety.**

Please acknowledge receipt of this and all addendums in your firm's Supply Bid Form and use the updated Schedule of Values when submitting your bid.

All other terms and conditions remain unchanged.

If there are any questions regarding this addendum please let me know.

Thank you,

Greg C Goemer

Sr. Contract Administrator
Alaska Railroad Corporation

APPENDIX I

Cost Schedule

COST SCHEDULE: A Bidder's Failure to provide the information requested in this Appendix may be cause for rejection of the bid on the basis on non-responsiveness. Cost shall be bid in accordance to all specifications in Appendix C, and any Technical Specifications incorporated herein.

AWARD CRITERIA: A contract award resulting from this solicitation may be made to the low, responsive, responsible bidder who meets the requirements as set forth in the plans and specifications and compliance thereof. An award may be made in the aggregate of Base Bid and or any combination of Base Bid and Add Alternates, whichever is deemed by the Contract Administrator to be in the best interest of the ARRC. The successful bidder shall hold unit prices of all additives firm for a period of thirty (30) days from the date of bid opening. Award is contingent on the availability of ARRC funds.
