Addendum 1

ITB #23-69-211386

2024 Electric Flash Butt Rail Welding Services

Addendum number 1 has been issued for questions/ clarification.

The Closing Date for this ITB has not changed.

Bids will be received until December 28, 2023 @ 3:00 PM Alaska time.

Questions:

1. Is there a list of available lodging along the route for the crews to stay at?
We don't have a readymade list of lodging available along the railbelt though we could provide a list of cities/towns that we usually stay in to help them narrow down. Fairbanks, Healy, Talkeetna, Wasilla, Anchorage, Girdwood, Seward are the primary locations.
2. Can you provide location and scope data on the alt cut and slide, would ARRC provide any equipment for that project? The cut and slide would occur on long tangents between Anchorage and Seward, potentially over multiple seasons. ARRC would provide all labor and equipment necessary outside of welding and grinding.
3. Does the job require prevailing wage or union requirements? This is considered personal property and as so does not have any prevailing wage rate requirements or union requirements.

All other terms and conditions remain unchanged.

If there are any questions regarding this addendum please let me know.

Thank you,

Greg C Goemer
