

# CONSULTANCY —

## Create value through solution driven consultancy from our experts

bluesign®

ACADEMY

### Why is this service relevant for chemical companies, textile companies and brands?

Bluesign® ACADEMY has extensive expertise covering technical, safety and sustainability aspects. We address suppliers through the entire textile supply chain from chemical suppliers over textile manufacturers to brands. In a rapidly changing industry with ever emerging new regulatory and sustainability requirements, high quality coaching can make the difference. All services can be customized to a specific level of knowledge and degree of detail. Feel free to get in touch ... also for topics that you may not find in this flyer.
