Introduction

Executive Summary

In 2022, the U.S. Bankruptcy Court for the Central District of California engaged local students and stakeholders through community outreach, expanded resources for self-represented litigants, and fortified IT security practices and policies.

Highlights of the year include:

Honorable Theodor C. Albert Appointed Chief Bankruptcy Judge

On January 1, Honorable Theodor C. Albert assumed the post of Chief Bankruptcy Judge for the Central District of California, succeeding Judge Maureen A. Tighe. Judge Albert is the ninth judge to hold this position.

Ninth Circuit Court of Appeals Appoints Magdalena Reyes Bordeaux as New Bankruptcy Judge

The U.S. Court of Appeals for the Ninth Circuit appointed Magdalena Reyes Bordeaux as the next bankruptcy judge. Judge Reyes Bordeaux maintains chambers in Riverside.

Ninth Circuit Court of Appeals Appoints Ronald Alonzo Clifford III as New Bankruptcy Judge

The U.S. Court of Appeals for the Ninth Circuit appointed Ronald Alonzo Clifford III as the next bankruptcy judge. Judge Clifford maintains chambers in Santa Barbara.

Diversity, Equity, and Inclusion (DEI) Statement

The Court adopted its first-ever Diversity, Equity, and Inclusion (DEI) statement. This DEI statement demonstrates the Court's commitment to building an inclusive, varied workplace that welcomes people of all backgrounds. The Court's approved DEI statement is included in the Court's *Personnel Handbook* and posted on its website.

Online Payments Now Available for Pro Hac Vice

Effective January 4, the Court began accepting electronic payment for *pro hac vice* fees from non-resident lawyers involved in bankruptcy cases or adversary proceedings. This new payment method makes it easier, more convenient, and more efficient for non-resident lawyers to pay the *pro hac vice* fees.

NCBC 2022: Las Vegas

Over 300 Clerk's Office staff members from bankruptcy courts throughout the federal judiciary attended the 2022 National Conference of Bankruptcy Clerks in Las Vegas from June 6 to 9, marking the first annual conference since 2019 due to COVID-19 cancellations.

Hybrid Courtrooms Available Districtwide

New technology has been installed in every courtroom that allows video appearances. A document camera has also been added to display paper-based documents or exhibits. User manuals have been updated, and staff have been trained to use the new technology, allowing for increased flexibility in conducting hearings.

Courtroom of the Future

The Edward R. Roybal Federal Building and U.S. Courthouse in Los Angeles underwent 18 months of technological upgrades, including new audio-visual systems, conduits, power, and data network infrastructure. These upgrades enhance the courtroom's capabilities for evidence presentation, video conferencing, streaming, and high-quality audio, benefiting all users.

On June 3, the Court's Executive Committee approved the continuation of the Courtroom of the Future (CoTF) project in the four courtrooms of the Riverside Division. The Court expects to complete all four courtrooms by the end of 2023.

The Central Guide Replaced the Court Manual

The Court released *The Central Guide*, a new digital tool that replaced the *Court Manual* and can be accessed through the Court's website under "Rules and Procedures." *The Central Guide* is a one-stop digital database with four sections that contain hundreds of links to content that no longer needs to be in the *Court Manual* because it is already published on the Court's website in other locations.

CoE for Operations Improvement Facilitates New Refresher Training Series

The CoE for Operations Improvement developed refresher courses that enable staff to assist other departments as the needs of the Court evolve.

Update of Operations Corrective Actions Guidelines

The Operations Improvement Center of Excellence (CoE) carefully reviewed the guidelines used by Operations staff during the Quality Control (QC) process. The CoE experts made comprehensive and effective modifications, including referencing the new *Central Guide* as a reliable source of information and using consistent language for clarity. The CoE also condensed the guidelines to make them more efficient.

Expanded Court Website Zip Code Search

The CoE for NextGen electronic Self-Representation (eSR) updated the Court's zip code search feature. With the recent update, users can enter a zip code for a location such as Oakland and will be directed to the U.S. Bankruptcy Court, Northern District of California.

CoE for Court Technologies Simplified Access to Tentative Rulings/Posted Calendar

QR codes were added inside and outside courtrooms to help visitors access court rulings and calendars faster on their personal devices. They are available in English and Spanish and can be scanned with Android and iOS smartphones. This new feature is especially helpful for those who need to access a judge's calendar in the District.

New Audio Recording Request, Processing, and Delivery

The CoE for Court Technologies introduced an online system for handling requests and payments related to court proceeding recordings. This new system offers requestors the choice of receiving either a CD or an audio file, and will decrease paper dependency.

The students played various roles, including representing the state and Jack, delivering opening statements, cross-examining witnesses, and presenting closing arguments. Ultimately, the jury was divided, with eight students voting to convict and seven to acquit. Despite the pandemic, approximately 50 students from El Dorado High School in Placentia, California, attended a virtual Law Day event hosted by the Court on March 4. The event featured judges, lawyers, and other experts who shared practical advice about high school life. District Judge Maame Ewusi-Mensah Frimpong reassured students that it is acceptable not to have everything figured out in high school. At the same time, Assistant U.S. Attorney Elisa Fernandez encouraged them to seek guidance from their elders. First Amendment lawyer Kelli Sager talked about the history and evolution of students' freedom of speech rights, sharing inspiring stories of high school students who protested the Vietnam War, published articles in school papers, displayed banners at public events, and even posted on Snapchat.

Virtual FED Day

Bankruptcy Judge Sandra R. Klein and Magistrate Judges Pedro V. Castillo and Karen L. Stevenson hosted 70 students from Santa Ana High School for Federal Exploration (FED) Day via Zoom. and present witnesses, and effective assistance of counsel. Then, Magistrate Judge Stevenson focused on the Nineteenth Amendment, which guarantees women the right to vote. Finally, Bankruptcy Judge Klein discussed the Equal Protection Clause of the Fourteenth Amendment, explaining how it is as relevant today as it was when it was ratified in 1868. It was evident from the questions the students posed that they were interested and engaged in the discussion.

The students also heard from Drug Enforcement Administration (DEA) Special Agent Khanh D. Vo, who was born in Vietnam and escaped with his family when he was four. Special Agent Vo interspersed his remarks with personal stories encouraging students to work hard, stay in school and away from drugs, and pursue their dreams.

CARE Presentations Throughout the Central District

Judge Martin R. Barash, Judge Robert N. Kwan, and Senior Court Analyst Jennifer Kohout volunteered with CARE to educate students about credit in the Central District. The American Bar Association's Standing Committee on Pro Bono and Public Service hosted National Celebrate Pro Bono Week from October 23-29. This annual event involves publishing an updated Honor Roll of volunteers who have provided their services over the past 12 months. Over 79.7 percent of all chapter 11 petitions were business cases.

In February 2020, the Small Business Reorganization Act of 2019 added a new subchapter V of chapter 11 to the Bankruptcy Code. Since the Court began receiving subchapter V filings, there have been 307 cases filed, amended, or converted, with 161 subchapter V filings either withdrawn, closed, or converted to another chapter. Furthermore, chapter 13 petitions accounted for 17.6 percent of all nonbusiness filings and 6.3 percent of all business filings in 2022.

The number of bankruptcy filings terminated in the Central District decreased by 25.9 percent in 2022, reaching a total of 19,816. Additionally, the number of cases pending decreased by 14.8 percent to 14,501 as of December 2022.

Furthermore, the Central District of California led the nation in business filings and came in second for non-business filings. The Central District's bankruptcy filings accounted for 4.5 percent of the nation's total filings.

CASES OF INTEREST

Girardi 2:20-bk-21020-BR

In re Thomas Vincent Girardi and In re Girardi Keese chapter 7 involuntary cases were filed against attorney Thomas Girardi and his law firm, Girardi Keese, in December 2020. Girardi rose to national fame for his role in the case portrayed in the film “Erin Brockovich” and was a nationally prominent personal injury lawyer until he admitted stealing millions from clients in a plane crash suit. The Northern District of Illinois District Court ordered a trustee appointed in 2020 and all assets of Girardi and his firm were frozen. Girardi was investigated by the California State Bar regarding his ability to practice law and financial misdeeds and was disbarred in 2022. The cases continued to receive heavy press coverage due to Girardi’s fame and because his ex-wife is a cast member on the “Real Housewives of Beverly Hills” reality TV show. In 2022, the press frequently reported on the trustee’s efforts to recover property that was given to Girardi’s ex-wife, and Girardi’s other friends and associates.

City of San Bernardino Case Closes after a Decade

Over ten years after the City of San Bernardino filed for bankruptcy, the case was finally closed with both the discharge order and an order closing the case being filed on September 8, 2022. The City of San Bernardino’s website reported that when the city filed for bankruptcy, it was the third largest municipal bankruptcy in the nation’s history, with more than \$1 billion in debts listed in case documents. The City of San Bernardino was the third California city to file for bankruptcy in 2012. Two judges presided over the bankruptcy case due to its lengthy duration. Hon. Meredith A. Jury (ret.) was the first judge to preside over the city’s bankruptcy, followed by Hon. Scott C. Clarkson, who took over on June 29, 2018, upon Judge Jury’s retirement. Judge Clarkson continued to preside over the city’s bankruptcy until its conclusion.

In re The Hacienda Company, LLC

The Hacienda Company (“Debtor”) filed a Subchapter V petition in September 2022. Debtor’s initial status report stated that it intended to propose a plan of reorganization that provides for the sale of its primary asset – shares in a publicly traded Canadian company whose sole business is cannabis growth and sales. The U.S. Trustee moved to dismiss the case under 11 U.S.C. § 1112(b) on the grounds that Debtor itself

was effectively engaged in the sale of cannabis products, or a conspiracy to do so, in violation of The Controlled Substances Act, 21 U.S.C. § 801 et seq. In denying the motion to dismiss, the Court concluded that, although Debtor’s ownership of a roughly nine percent interest in a Canadian company operating a marijuana business was “uncomfortably close” to illegal activity, that did not require dismissal of the bankruptcy case because (1) many debtors have connections to past or even ongoing illegality; (2) dismissing such cases might harm the victims of illegal activity, such as the debtor’s farm workers who had obtained a wage and hour settlement; and (3) instead of the blunt tool of dismissal, it would be better to defer to prosecutors, private attorneys’ general, claim holders, and others to pursue more nuanced remedies. A second motion to dismiss is pending.

Arian Mowlavi 22-10296-ES

On February 21, 2022, Dr. Arian Mowlavi filed a chapter 11 bankruptcy petition in the U.S. Bankruptcy Court, Central District of California. The bankruptcy petition listed 1,000-5,000 estimated creditors and liabilities estimated between \$10,000,000-\$50 million. The case was assigned to Judge Erithe A. Smith but was reassigned to Judge Scott C. Clarkson in September 2022 when Judge Smith retired from the bench. The bankruptcy filing followed a lawsuit involving a social media personality who alleged that she and others were harmed from botched procedures by the doctor and his office.

In re Crestlloyd LLC 2:21-bk-18205-DS

On October 26, 2021, Crestlloyd, LLC filed a chapter 11 bankruptcy in the Central District of California and the case was assigned to Judge Deborah J. Saltzman. On the bankruptcy petition, assets and liabilities were each listed in the \$100,000,001-\$500 million range. In 2022, the Debtor moved to sell its real property (944 Airole Way, Los Angeles, CA 90077), referred to in the press as “The One”, a massive Bel Air mansion and purportedly the largest of its kind. The One sold at auction for \$126 million but the sale price was well below the \$500 million that was the price marketed during the property’s construction.

KEY STUDIES, ACTIVITIES, AND ACCOMPLISHMENTS

The Court Welcomes Chief Judge Albert

On January 20, judges, chambers, and Clerk's Office staff gathered to welcome Judge Theodor C. Albert as the new Chief Judge. The meeting began with an introduction by Executive Officer/Clerk of Court Kathleen J. Campbell. Chief Judge Albert then shared his professional journey that led him to the bankruptcy bench. Over 100 guests attended the meeting, and Chief Judge Albert reminded them of their duty as public servants. He highlighted his collaborative approach to leadership and decision-making while stressing the significance of making critical decisions.

Internal Controls and Audit Complete

The Clerk's Office completed its internal audit schedule for FY 2022. The internal review program strives to assess and evaluate the Court's operations and internal controls in an independent and objective manner, helping the Court accomplish one of its goals: maintaining public accountability. Internal audits are required by the framework prescribed by the Administrative Office of the U.S. Courts and complement national cyclical audits, ensuring continuous monitoring of financial controls.

Strategic Planning Council

The Clerk's Office established the Strategic Planning Council (SPC) and six working groups known as the Centers of Excellence (CoE) to monitor and track the goals outlined in the Court's *2020-2024 Strategic Plan*. The SPC comprises the Chief Judge, Executive Officer/Clerk of Court, chief deputies, managers, supervisors, law clerks, and other staff members across the Central District. The CoEs are comprised of interested managers and staff who assist the Court in achieving its mission, vision, and strategic goals. CoEs were created for NextGen Migration, NextGen electronic Self-Representation (eSR), Operations Improvement, Website Enhancement, Court Technologies, and Employee Engagement. Each CoE is responsible for creating proposals to plan and execute desired initiatives and process improvements. These proposals are presented to the Strategic Planning Council for approval and adoption.

In 2022, the SPC and CoEs completed more than 30 projects and initiatives under the *Court's 2020 – 2024 Strategic Plan*.

CoE for Operations Improvement Facilitates New Refresher Training Series

The CoE for Operations Improvement's Staff Training subcommittee created refresher training courses for Operations staff. These courses aimed to prepare them for a potential case surge or assist other departments with their workload. The first session, "Chapter 7 Individual Case Opening Refresher," occurred on February 3, 2022. Additionally, the CoE completed its second Operations Refresher Training Series training session. The "Chapter 7 Individual Incomplete Petition" refresher training is available in video format through the Learning Management System (LMS) and is mandatory for most Operations staff. The CoE intends to host similar refresher trainings and demonstrations for all chapters.

Update of Operations Corrective Actions Guidelines

The CoE for Operations Improvement carefully reviewed the guidelines used by Operations staff during the Quality Control (QC) process. The CoE experts made comprehensive and effective modifications, including referencing the new Central Guide as a reliable source of information and using consistent language for clarity. The CoE also condensed the guidelines to make them more efficient. In November, all staff received a T-15 training video to ensure they were fully informed and equipped to carry out their duties to the highest standards.

Update of CM/ECF Attorney Resources

In October, the Operations Improvement Center of Excellence (CoE) made some significant changes to improve the experience of attorneys who use their resources. Specifically, they updated two important documents: "CM/ECF Frequently Used Docket Event Codes" and "Common Errors & Helpful Tips." The CoE carefully reviewed and revised the wording of both documents to ensure consistency. They also added a reference to the new Central Guide for further guidance. These updated resources are now available on the CM/ECF Resources page of the public website. To ensure users were aware of these changes, a notification was sent through GovDelivery.

Expanded Court Website Zip Code Search

During an assessment of the Court's website by the CoE for NextGen electronic Self-Representation (eSR), Case Management Administrator Andrea Gomez suggested an improvement to help visitors find the correct court for filing a bankruptcy petition. Ms. Gomez proposed adding a zip code search feature, like the one found on the California Eastern Bankruptcy Court's Court Locator page. Previously, entering a California zip code outside the Central District would result in a "no results" message. With the recent update, users can enter a zip code for a location such as Oakland and will be directed to the U.S. Bankruptcy Court, Northern District of California. Web Developer Kimberly Rubal made the necessary changes after consulting with CM/ECF analysts and updated the Court's website accordingly.

CoE for Court Technologies Simplified Access to Tentative Rulings/Posted Calendar

The CoE for Court Technologies implemented a helpful solution in April by creating and displaying QR codes. This makes it easier and faster for visitors to access court rulings and calendars on their personal devices. The QR codes, which are available in English and Spanish, are placed both inside and outside each courtroom. They can be accessed using Android and iOS smartphones and take users to Tentative Rulings/Posted Calendars. This feature is beneficial for anyone who needs to access a judge's calendar in the District.

New Audio Recording Request, Processing, and Delivery

The Center of Excellence (CoE) for Court Technologies has initiated a plan to introduce an online system for handling requests and payments related to court proceedings recordings. This new system will offer requestors the choice of receiving either a CD or an audio file, unlike the current system that only provides a CD. The CoE for Court Technologies has identified Box.com as a potential vendor for processing online order forms, issuing receipts, and using Pay.gov for credit card payments. This initiative aligns with the Court's strategic objective of decreasing paper dependency.

Language Line Renewal

The Attorney Admission Fund renewed its telephone interpreter service for the fourth consecutive year. This helpful service is provided by the Court to those who represent themselves and have limited English proficiency. It supports over 240 languages and is free if a judge deems it necessary. The service is designed for brief hearings that usually last between 10 to 20 minutes. It is an excellent resource for individuals who need assistance in navigating the legal system and protecting their rights.

Foreign Delegates Visit the Central District

Five Republic of Korea Supreme Court delegates visited the Court on October 3. The delegates were employees of the IT Center and were interested in CM/ECF and general case management processes. Chief Deputy of Administration John C. Hermann and Project Coordinator Maria Alcala provided a comprehensive overview of the Court and gave them a tour of Intake and the Visiting Judges' Courtroom. The delegates asked questions and received satisfactory answers.

Court Prohibits Broadcasting, Televising, Recording, and Photographing Proceedings

On September 8, Chief Judge Theodor C. Albert issued General Order 22-01, which prohibits broadcasting, televising, recording, and photographing bankruptcy court proceedings, including hearings conducted by remote transmission. This order was implemented to follow the Judicial Conference's policy of not allowing federal court proceedings to be disseminated publicly. The order reconciles the use of videoconferencing and telephone conferencing during the COVID-19 pandemic with the Judicial Conference's policy as it was not addressed in the Local Bankruptcy Rule (LBR 5073-1).

The Central Guide Replaced the Court Manual

The Court released *The Central Guide*, a new digital tool that replaced the *Court Manual* and can be accessed through the Court's website under "Rules and Procedures." *The Central Guide* is a one-stop digital database with four sections that contain hundreds of links to content that no longer needs to be in the *Court Manual* because it is already

published on the Court's website in other locations. Content that was located exclusively in the *Court Manual* is now in *The Central Guide's* "TCG Supplements." Public Notice 21-024 contains a chart of where to find *Court Manual* content in *The Central Guide*. Chief Judge Theodor C. Albert, Executive Officer/Clerk Kathleen J. Campbell, and Chief Deputy of Operations Benjamin Varela regularly promote *The Central Guide* when participating in public meetings and events.

Throughout 2021 and 2022, Law Clerk Jeffrey Cozad and Management Analysts Mark Francisco and Jan Zari hosted virtual information sessions for the Office of the U.S. Trustee, Clerk's Office, law clerks, trustees, attorneys, and legal support staff. More than 250 people attended these interactive sessions, which were held monthly through June 2022 and every other month through December 2022.

Section 1-00 of *The Central Guide* describes in detail how *The Central Guide* is organized to better achieve the goals of the *Court Manual*. Perhaps of utmost usefulness, users can now look up a specific provision of a Local Bankruptcy Rule (LBR) or Federal Rule of Bankruptcy Procedure (FRBP) and access forms and instructions that match that LBR or FRBP provision, including pertinent information found at www.uscourts.gov and www.courts.ca.gov, and on the websites of the U.S. Trustee, U.S. District Court for the Central District of California, Bankruptcy Appellate Panel, and Ninth Circuit Court of Appeals. Detailed discussions were held with the creators of *The Central Guide* and personnel from these courts and the Office of the U.S. Trustee to ensure content related to their court or agency is accurate and reliable.

To ensure consistency and longevity, the section numbers and their corresponding titles in *The Central Guide* will remain the same for years to come. A significant effort was made to include every possible topic, so that court personnel and the public can confidently search for information using the same section numbers and titles. *The Central Guide* is updated regularly to reflect changes in court protocols or the addition of new rules-related topics. A team led by Law Clerk Jeffrey Cozad and comprising of Law Clerk Deborah Chang, Management Analyst Mark Francisco, Senior Legal Analyst Jennifer Kohout, and Communications Specialist Laura Piedra, along with the Court's Rules and Case Management Committees, collaborated regularly to make the necessary edits. Many attorneys provided suggestions for specific forms and links commonly used in the practice of bankruptcy law, which were included in *The Central Guide*.

The Central Guide was a team effort, resulting in a high-quality, user-friendly resource.

District Profile Published

The Court released an updated District Profile brochure on November 9. This brochure offers a variety of helpful information, such as statistics on filings, details about the U.S. Trustee's Language Assistance Program, and data from the Help Desks. The District Profile provides a brief overview of the Central District, with information on population, median income, and unemployment rates for each of the seven counties in the Court's area. It also includes data on the district's race and ethnicity demographics, median household income, and unemployment and poverty rates, as well as information on the Court's outreach services. The brochure also covers self-represented litigants' requests for language assistance, their use of electronic Self-Representation (eSR) software, and their reliance on bankruptcy petition preparers.

Operations Expands Call Center Support to Include Districtwide Staff

The Call Center has undergone a major expansion to improve customer service and operational efficiency. Staff from the Riverside Division received specialized training and technical support to provide comprehensive assistance to callers. They are now available to help callers with their inquiries and concerns. However, the Los Angeles Division will continue to oversee and manage Call Center operations, including staff scheduling and ensuring smooth operations.

Clerk’s Office Continues to Offer Shared Administrative Services

The Court’s shared administrative services agreements were continued in 2022, along with a few additional projects for the year. Typically, the program concludes at the NCBC conference with a workshop; however, because of the pandemic, the NCBC hosted a virtual workshop. The weeklong program consisted of two-hour morning sessions via Zoom with approximately 40-50 participants. The Zoom breakout rooms were a success as they allowed participants to have smaller group discussions away from the main room.

Law Clerk/Extern Training Program

In 2022, the Court held three Law Clerk/Extern training sessions. As a result of the COVID-19 pandemic, two of the three training sessions were held virtually via Zoom. More than 100 participants attended, including participants from

the U.S. District Court. The training program is designed to provide bankruptcy knowledge and other relevant information to chambers staff and future members of the bar.

Extern Educational Training Program

For decades, law student externs have been welcomed by the bankruptcy judges of the Central District of California. They are given the opportunity to assist in chambers, observe court proceedings, and gain valuable insight into the administration of the bankruptcy system. This externship program serves as an important tool for introducing aspiring lawyers to bankruptcy law as a potential career path. It also helps to educate and develop the next generation of bankruptcy attorneys, as well as promote diversity within the bankruptcy bar and bench. However, prior to starting their externship, many externs have limited knowledge of bankruptcy law, whether through law school or other means. To address this, the Court created a curriculum aimed at familiarizing externs with the terminology, ideas, and core principles of bankruptcy law.

Throughout the year, bankruptcy judges of the Central District provided law clerks and externs with a wide range of educational opportunities and introduced externs to teachers and practitioners, who are leaders in the field. During these weeklong programs, students were instructed by Judges Martin R. Barash, Sheri Bluebond, Scott C. Clarkson, Deborah J. Saltzman, and Scott H. Yun. The program covered the basics of consumer bankruptcy law, business restructuring, adversary proceedings, motion practice, and California non-judicial real property foreclosure. Additionally, the program provided instruction on legal research and writing in bankruptcy, ethics for externs, the resources available at the Ninth Circuit Library, and guidance from career law clerks on how to excel and make the most of their externship experience.

Authorized judiciary network users can access recorded programs and related materials via the "CACB Chambers Education Portal."

Mark Francisco

The COVID-19 pandemic affected the schedule and timeline for several key program components for the FCLDP class of 2020 and 2021. Issue 4: Flexible and Responsive Infrastructure

FINANCIAL

FY 2022 Judiciary Appropriations

The Court began the fiscal year operating under a Continuing Resolution (CR) and received a partial year/interim allotment on October 1, 2021. Based on FY 2022 full-formula court requirements and expected available financing, a 14.0 percent across-the-board reduction from full-formula requirements was applied equally to all discretionary formulas and programs. CRs are intended to fund government operations in the absence of enacted, full-year appropriations, allowing operations to continue at a specified rate for a specific period. Court units are required to exercise restraint in obligating discretionary funds during the CR period until a full-year appropriations bill is enacted and final allotments are distributed. Final allotments were issued on April 20, 2022, lowering the across-the-board reduction to full formula discretionary requirements by one percentage point, from 14.0 percent to 13.0 percent. Budget reductions, coupled with the Court's decline in filings in recent years, once again resulted in a salary shortfall for FY 2022. To mitigate the shortfall, the Court worked with the Administrative Office of the U.S. Courts and other courts to obtain supplemental funding through participation in buyouts and early retirement, shared administrative services, and other national initiatives and projects.

TECHNOLOGY AND INNOVATION

Courtroom of the Future

As part of the Roybal Realignment initiative, the Los Angeles Division courtrooms in the Edward R. Roybal Federal Building and U.S. Courthouse received significant technology upgrades, thanks to a collaboration between the Administrative Office of the U.S. Courts and the Court. The Roybal Realignment initiative involved an 18-month project that began in early 2021 and ended in August 2022. The project included various improvements, such as the installation of fixed infrastructure for new audio-visual (AV) systems, conduits, power, and the court's data network. Dedicated Systems Incorporated installed the AV package, which was designed by Spectrum engineers to enhance the courtroom's capabilities. These upgrades enable evidence presentation, video conferencing, streaming, and high-quality audio, making it easy to share documents, produce pristine court hearing recordings, and create an unparalleled court environment that benefits all users.

On June 3, the Court's Executive Committee approved the continuation of the Courtroom of the Future (CoTF) project in the four courtrooms of the Riverside Division. This modernization effort will include the installation of similar technologies to those in the Los Angeles Division, including audio, video, and electronic exhibit display systems to promote hybrid use. The Court expects to complete all four courtrooms by the end of 2023.

Roybal Training Room Audio-Visual Upgrade

The 9th-floor training room of the Edward R. Roybal Federal Building and U.S. Courthouse was equipped with audio-visual technologies to enhance its functionality. These upgrades are perfect for use by court staff and members of the public. The newly installed technologies include advanced presentation systems, audio, and video. The room also boasts high-definition videoconferencing capabilities that significantly improve the two-way streaming of content (slides/presentations) and video to remote locations, providing flexibility in room configuration and speaker preferences.

Roybal Conference Rooms Receive Audio-Visual Upgrades

The Edward R. Roybal Federal Building and U.S. Courthouse's Orange Grove conference room now features a modern audio-visual package featuring high-definition

videoconferencing equipment. The room is equipped with a touch-sensitive control panel that makes management a breeze, a 4K video switcher for multi-screen viewing, wireless content sharing, and upgraded network cabling. The essential video components have been replaced to ensure excellent performance and dependable service.

Similarly, the Sunset conference room's audio-visual equipment has been upgraded with new high-definition components. This advanced system not only improves the room's capabilities but also makes it more user-friendly. The table has wired inputs for sharing content, and a ceiling microphone array provides clear audio reception during phone and video conferences. To improve accessibility, several individual panels were replaced with a new 10" touch-sensitive control panel.

In addition, meeting room 1352 has been upgraded to include a new high-definition videoconferencing system, enhancing the clarity of presentations and enabling better visibility of speakers during collaborative meetings. These upgrades were made to ensure that the meeting room provides top-notch audio-visual experiences for all users.

Northern Division Courtroom Audio-Visual Upgrade

Courtroom 202 in the Northern Division received several upgrades and now features state-of-the-art touchscreen controls and high-definition videoconferencing capabilities. The judge, DECRO, and lectern stations now boast new control capabilities, and more monitors have been added to the counsel tables, lecterns, and witness positions. The lecterns now offer content input capability, making it easier to present digital files from mobile devices like laptops.

Hybrid Courtrooms are Now Available Districtwide

New technology has been installed in every courtroom that allows video appearances. This technology includes new cameras and equipment that make it possible for both in-person and remote participants to appear simultaneously during a ZoomGov hearing. A document camera was also added to the lectern to display paper-based impeachment documents or demonstrative exhibits. This camera allows any paper-based document or exhibit displayed under it to be seen on new monitors within the courtroom and in the ZoomGov hearing. All user manuals in each courtroom

have been updated to reflect how to set up the document camera controls and Zoom hearing and staff members have been trained on how to use the new technology. These new "hybrid" technologies offer increased flexibility for the judge to conduct hearings and provide appearance options for participants, allowing the Court to adapt to an ever-changing environment.

Online Payments Now Available for *Pro Hac Vice*

Effective January 4, the Court began offering an electronic payment method for submitting *pro hac vice* fees to the District Court. This new payment method is an excellent improvement for lawyers who are not residents and need to participate in bankruptcy cases or adversary proceedings. The online payment process uses a secure and easy-to-use application called [Pay.gov](https://pay.gov), run by the U.S. Department of Treasury. [Pay.gov](https://pay.gov) accepts all major credit cards, such as Visa, MasterCard, American Express (AMEX), and Discover, giving lawyers multiple payment options. Overall, this innovative payment system will make it easier, more convenient, and more efficient for all parties to pay the *pro hac vice* fees.

Spanish Version of eSR Video Updated with the Help of Spanish Interpreter Volunteer

The Court made significant enhancements to its electronic Self-Representation (eSR) video in Spanish to better support self-represented parties. These improvements include information about NextGen, a critical component of the court's operations. Importantly, a new section on chapter 13 has been included in the eSR video, which is expected to be extremely helpful for individuals who are navigating court proceedings without a lawyer.

Additionally, Ana Cuellar, a Spanish interpreter volunteer returned for a second term through spring 2022. Her efforts in providing Spanish language updates for eSR and other court materials are commendable and invaluable. Ms. Cuellar's presence has been a significant source of support for self-represented parties who often face language barriers while navigating complex legal procedures.

ZoomGov Videoconferencing

Zoom for Government (ZoomGov) continued to be used throughout 2022 for remote and hybrid hearings. The total ZoomGov use in 2022 resulted in 2,445 meetings,

2,039,187 meeting minutes, and 35,123 participants. Additionally, the Zoom Webinar license, which supports up to 1,000 participants at a time, was used for eight training events and had a total of 219 participants in 2022.

Staff Attend ATCoP 2022

From May 4 to 6, Information Technology and Training Manager Padraic Keohane, Senior Court Analyst Dr. Estella Chavarin, and Management Analyst Jan Zari attended the Automation Trainer's Community of Practice (ATCoP) National Conference 2022 in San Antonio, Texas. The ATCoP conference aims to share and learn ways to incorporate modern technology with the daily work of the Court. This year's conference offered various sessions on enhancing training delivery, including tips for using Microsoft Teams, making technology-enhanced education more engaging, and improving public speaking skills. Additionally, there were breakout sessions on Document Management in SharePoint Online, Increasing Teams Proficiency, and Automated Testing of the CM/ECF Environment. The conference provided valuable insight into how courts can use available technology to boost efficiency in the workplace.

Mr. Keohane conducted a pre-conference course on "Making Training Videos with a Phone and PowerPoint." The course taught attendees how to use a smartphone to record videos and use PowerPoint to edit them. Students learned how to trim and splice segments together, add special effects, and use shapes to highlight parts of the screen. Over 30 students attended this two-and-a-half-hour session, which was also recorded.

On the final day of the conference, Mr. Keohane, Dr. Chavarin, and Mr. Zari participated in the conference's showcase sessions, which featured various local court-inspired projects. They gave a presentation on the Court's Keep in Touch Everyone (KITE) Initiative, which was developed to help facilitate communication and employee engagement during the COVID-19 pandemic. The presentation highlighted how technology was used to foster training and stay connected while working remotely, with a focus on the KITE webpage and Learning & Development and Interactive Learning Monday SharePoint pages.

Following the presentation, several courts expressed interest in setting up their own versions. The Administrative Office of the U.S. Courts also listed the site in the Judiciary Lookbook.

2022 IT Security Self-Assessment Program Scorecard

The Court submitted its 2022 Judiciary IT Security Self-Assessment Program Scorecard (Scorecard). The Scorecard provides a high-level view of the Court's current security profile and identifies IT security weaknesses for improvement and resources to support risk mitigation efforts. The Court scored in the highest tier of compliance on the Scorecard. The Scorecard is updated yearly to remove items with high national compliance and add new items that continue to improve security for the Judiciary.

IT Security Refresher

All court employees completed a mandatory annual IT security refresher training as part of the IT Security Self-Assessment Program Scorecard requirements. The training covered how to identify confidential information and threats, avoid dangers, backup data, implement password protections, and tips on how to practice general Internet safety. Additionally, IT department staff completed additional IT security training as required per the scorecard.

New CPUs and Scanners

New scanning workstations (CPUs and scanners) were installed at intake window locations to replace older devices. The new workstations enable the Court to increase imaging speed and reliability and expand streamlining and automation efforts. The new devices support the Court's Strategic Plan priority to implement a flexible and responsive infrastructure.

Update to Windows 10 Version 21H2

All court devices were updated to the latest version of Windows 10, version 21H2. This update enhanced security and enables future updates from Microsoft. The previous version, 20H2, reached its end of life and was no longer able to be patched or updated. The upgrade was applied to the different devices, and the installer was scheduled overnight to minimize any potential service disruptions.

New Image Designed and Tested by IT Help Desk Staff

Automation Systems Specialist Robert Argleben redesigned the image used to set up court devices. The previous image required the maintenance and updating of multiple versions of the Court's Windows image to work on different devices. However, the new image requires a single update to the Court's Windows image, which saves time, labor, and money. To ensure that the latest image works with new devices, such as CPUs and laptops that have been purchased by the Court, Automation Systems Specialist Yuri Bello successfully tested the image.

CourtSpeak

To prepare for the launch of CourtSpeak, the Information Technology team upgraded the server to the latest version. CourtSpeak collaborates with FTR to access recorded hearings, convert them to MP3 format, and docket them to CM/ECF for public access via PACER. The newest version of CourtSpeak, CourtSpeak Web, is optimized to process FTR files more efficiently than previous versions. Testing of the previous recording was successful, and implementation began in late 2022. Compared to the older version of CourtSpeak, updates are automatically provided by the CourtSpeak team, eliminating the need for local IT staff to track and install updates, saving time, money, and other resources.

Attorney Wi-Fi Upgraded in the Santa Ana Division

The Santa Ana Division's attorney Wi-Fi system was upgraded to enhance speed, coverage, and reliability. The improvements involved coordination of resources from multiple departments and the installation of new routers, implementation of stricter security controls, and migration to faster fiber Internet service. This upgrade improves the ability for attorneys and bar members to access the Internet with faster bandwidth and supports modern mobile device features such as Wi-Fi calling.

FACILITIES, SECURITY, AND EMERGENCY PREPAREDNESS

Santa Ana Division Staff Stations Reconfigured

From March 17-18, the Court reconfigured staff workstations on the 2nd floor in the Santa Ana Division to enhance the furniture's ergonomic and functional capabilities. While the existing panels remained in place, all work surfaces, overhead, and storage cabinets were replaced with new components, including adjustable height desks and additional storage options. In addition, this effort allowed the Court to create several collaborative and flexible workspaces for staff that were not available before the remodel.

Los Angeles Division Staff Coordinate Archiving Efforts

Operations staff from the Los Angeles Division coordinated the archiving efforts of all documents, records, and case files to be sent to the National Archives and Records Administration (NARA) before the end of the year. This project is especially important to court operations because NARA will no longer accept paper or boxes after December 31. More than 500 boxes of records were archived this year.

Floor Warden Refresher Training

The Emergency Preparedness Team traveled to all divisions to provide in-person floor warden refresher training to all chambers and Clerk's Office staff. Because most of the Court's staff continues to telework, including

designated floor wardens, it is crucial to ensure everyone is prepared to respond to potential incidents. The refresher included information on evacuations, shelter-in-place, and incident reporting/situational awareness.

Emergency Preparedness Training

The Emergency Preparedness team conducted a refresher Emergency Preparedness training for all court staff via Zoom on February 24-25, 2022. The program included information on evacuations, shelter-in-place, and incident reporting/situational awareness. There was a total of 124 participants, including 11 judges.

Active Shooter Training

From April 7-8, 2022, Inspector Matthew Vidmar from the Federal Protective Service (FPS) provided Active Shooter Training. A total of 118 participants, including six judges, attended the Zoom presentation.

Court Updates Reconstitution Plan and Issues New Guidance Regarding Face Coverings

On May 17, the Court released its updated Reconstitution Plan, which included updated guidance on wearing face coverings in court facilities.

The new guidance on face coverings explained that all individuals seeking entry to or occupying the Court must abide by the Centers for Disease Control and Prevention (CDC)'s most recent guidance regarding face coverings. As determined by the CDC, local COVID-19 Community Levels for each county govern the requirements for wearing face coverings in the Court.

Based on CDC recommendations, face coverings became optional in all divisions located in a county with a "Low" or "Medium" Community Level and mandatory for all divisions situated in a county with a "High" Community Level. According to General Order 21-05, the presiding judge determines the protocols in effect in the assigned courtroom or chambers, which may include the requirement to wear face coverings.

Pandemic Information Sharing

The Space Planning Department continued to support and contribute to the reconstitution of the Court through efforts to identify safety items and health concerns, proposing their use and installing them as appropriate to provide social distancing and employee safety throughout court facilities.

Emergency Preparedness team members Anthony Gonzalez and Alexandra Corey continued to monitor the Centers for Disease Control and Prevention, World Health Organization, General Services Administration, and the JNet websites for updated guidance, information, and tips regarding the COVID-19 pandemic. The Emergency Preparedness team updated the Court's Intranet site and notified all staff via email as new information became available.

Information was frequently updated and posted on the Court's external and internal websites and submitted to the Administrative Office of the U.S. Courts for publication.

2.3 Informed Judging

STRATEGIES:	ACCOMPLISHMENTS:
<p>2.3.4 Make certain that court proceedings are recorded accurately and completely, and that high-quality transcripts and audio recordings are readily accessible</p>	<p><u>Court Recorders</u> The Court’s court recorders ensure that all hearings are properly recorded into digital files by listening to the actual recording of a court hearing and monitoring the digital recording application while the hearing is underway. Transcript quality is ensured as parties requesting court transcripts can only do so from transcription agencies that meet the Court’s quality standards and are listed on the Court’s website. Clerk’s Office staff who perform the court recording functions have been trained to record a hearing from anywhere (e.g., a court recorder stationed in the Los Angeles Division can record a proceeding in the Riverside Division).</p> <p><u>FTR Gold Improvements</u> The Court regularly upgrades its recording software, FTR Gold. The For-The-Record (FTR) recording software received patches and operating system updates for security and continued performance and stability. New external encoders were deployed to enable audio adjustments for improved recording of the record.</p>

<p>2.4.2 Develop clear procedures for remote telephonic and video appearances that are dependable and effective</p>	<p><u>National Video Teleconference Service</u> The National Video Teleconferencing Service (NVTCS) was established to offer courts the ability to do point-to-point, multi-point, and audio conferences. The Court’s Courtroom Technology staff continued to use the NVTCS’s bridging service to conduct internal videoconferences in Los Angeles and Santa Ana Divisions. The Court plans to expand the usage of NVTCS as funding permits.</p> <p><u>ZoomGov User Guides</u> Created user guides and facilitated training to use ZoomGov videoconferencing for court hearings and general meetings.</p> <p><u>Videoconferences and Telephonic Hearings Across Divisions</u> See 2.1.5</p>

<p>2.4.4 Consider commuting challenges and their impact on litigants when implementing court procedures</p>	<p><u>Remote Access to Court Hearings</u> Following the pandemic, the Court held hearings remotely by telephone or by video. Efficiencies gained by holding some court hearings remotely have been enjoyed by self-represented litigants and attorneys, saving all parties the travel time and expense associated with traveling to court. The Court is taking into account the positive feedback on holding remote hearings for some matters, for future business even after the pandemic concludes.</p> <p>In reaction to the closure of Court buildings, the Court shared information with SRLs and attorneys regarding suspended or discounted rates offered by the telephonic hearing provider, Court Call.</p> <p><u>Videoconferences and Telephonic Hearings Across Divisions</u> See 2.1.5</p>

STRATEGIES:	ACCOMPLISHMENTS:
<p>2.5.1 Maximize system performance to allow timely access to process and review court documents</p>	<p><u>Case Management Assist (CMA)</u> The Court continued to maximize efficiency through use of Case Management Assist (CMA). Developed by the U.S. Bankruptcy Court for the Western District of Oklahoma, CMA is a quality review program designed to enhance daily operations and case management. Additionally, CMA provides superior internal reports that enable supervisors, managers, and the Executive team to measure the productivity and accuracy of court staff and external users. The Executive team continued to evaluate CMA's full capability and reconfigured the distribution of work in CMA to increase productivity.</p> <p><u>CIAO! "Click-Once" Upgrade</u> The CIAO! application was upgraded with "click-once" technology to improve application performance when working remotely.</p> <p><u>Network Upgrades</u> The Network Management department replaced the Los Angeles network core switches and the closet switches in Northern and Santa Ana Divisions. The new switches have speed and capacities many times that of the replaced equipment. In addition, the Network Management department replaced all patching cable at these divisions to improve the network infrastructure. The system allows members of the public to schedule appointments with Intake staff through an online portal. A link to the appointment scheduling software is accessible on the Court’s website. The Intake Appointment Scheduling System allows customers to schedule a date and time to engage in transactions with Intake staff. Members of the public who use the system will avoid waiting in lines, thus, enabling the Court to continue socially distancing and potentially reducing the transmission of COVID-19.</p> <p><u>Electronic Drop Box</u> In 2022, the Court continued to use the Electronic Drop Box (eDB). Originally developed by the New Mexico Bankruptcy Court, eDB enables self-represented litigants to electronically submit documents that do not require a fee.</p> <p><u>ADI Enhancements</u> The Court amended Chapter 11 and 13 Plan Confirmation docketing events to automate the manual docketing process of noticing the confirmation of a plan. The modified event will prompt the user to confirm a BNC notice to be generated when docketing the confirmation of chapter 11 and 13 plans. Databases Merge</u> In preparation for NextGen, the CIAO! databases were centralized from five servers onto one CIAO! server. The project began in the fall of 2019 with preliminary test merges and data verification by the CIAO! support team and designated Operations staff. Since merging nearly 20 years of data takes up to 30+ hours and requires verification, each merge was scheduled over a weekend. All five CIAO! databases are centralized onto one server.</p> <p><u>New Appearance Report in CIAO!</u> Implemented new Appearance Report in CIAO! to assist with the logging of parties appearing for remote hearings.</p> <p><u>CIAO! “Click-Once” Upgrade</u> See 2.5.1</p>

Clerks can also docket and upload the CD request forms that are received through the mail and in-person. Previously, the form could not be filed online by ECF account holders or docketed by the Clerk's Office staff. It was mailed or hand-delivered with the fee to an intake clerk to be received stamped and cashiered. In both the old and new methods, the requesting party is contacted when the CD is ready to be mailed or picked up.</p> <p><u>Online Intake Appointment System</u> See 1.1.2</p> <p><u>Electronic Drop Box</u> See 2.5.2</p> <p><u>Intake Physical Drop Boxes</u> See 2.6.1</p>
