Note: Pursuant to Step 13 of the above referenced CAISO Tariff, Scheduling Coordinators for Load Serving Entities or Market Participants should notify the ISO of their request to assign any remaining Unassigned Import Capability as indicated in the table above, no later than **08/09/2024**.

**Requests that are received prior to 9:00 a.m. PDT on 08/09/2024 will be denied. The CAISO will accept only two (2) requests per calendar week from any Scheduling Coordinator on behalf of a single Load Serving Entity, Participating Generator, or System Resource. If a request includes more than two intertie allocation requests the ISO will only process the first two interties in the request; the remaining intertie requests will be denied.**

All transfers and requests for assignment must be submitted in CIRA (under Plans > Manage Import Allocation > Remaining Import Capability > Remaining Import Capability Steps).

Training for the new automation process was conducted on May 2, 2024. The presentation and video recording can be found on the ISO's Training center under Releases, initiatives, and readiness notes.

More information on the import allocation process is available on the [Resource Adequacy webpage](#).

More information on submitting requests through CIRA is available in Section 3.12 in the [CIRA user guide](#).
