

ACKNOWLEDGEMENTS

The symposium was sponsored by IAU Commission 15 (Physical Study of Comets, Minor Planets and Meteorites) and cosponsored by Commissions 7 (Celestial Mechanics), 20 (Positions and Motions of Minor Planets, Comets and Satellites), 21 (Light of the Night Sky), 22 (Meteors and Interplanetary Dust).

We thank the President of the Italian Republic for having given his High Patronage to the symposium.

We are most indebted to several organizations and agencies for financial and other support and/or sponsorship. These are the Regione Piemonte, the Provincia di Novara, the European Space Agency, the Alenia Spazio S.p.A., the Consiglio Nazionale delle Ricerche (C.N.R.) and the Gruppo Nazionale di Astronomia of the C.N.R., the International Science Foundation, and the Banca Popolare di Novara. We also wish to express our thanks to the Azienda Promozione Turistica del Lago Maggiore, to the Camera di Commercio di Novara and Martini & Rossi IVLAS S.p.A.

We especially thank Pam Jones and the members of the Program Services Department of the Lunar and Planetary Institute (LPI) for their skilled help in organizing the meeting and to the people of Publications Services Department of LPI for the production of the abstract volume.

It is also a pleasure to thank the Local Organizing Committee as well as many individuals who worked hard to make this meeting a success. In particular Patrizia Santoro, Mara Marini, Giuseppe Minichino of the Osservatorio Astronomico di Torino and Maddalena Armando, Jeannine Casarini, Carla and Paola Mandelli, Barbara Zappalà, for their work at the reception desk and for conducting tours in the Lago Maggiore area, and E. Cozzi, S. Foglia and E. Radice for technical support.

Finally, we appreciated very much the work of the staff of the hotels Villa Carlotta and Milano in Belgirate.
