### **SUPPLEMENTARY INFORMATION:**

#### **Background**

The *Continued Dumping and Subsidy Offset Act of 2000* (CDSOA) was enacted on October 28, 2000, as part of the *Agriculture, Rural Development, Food and Drug Administration, and Related Agencies*

*Appropriations Act*, 2001 (the “Act”). The provisions of the CDSOA are contained in title X (sections 1001–1003) of the Appendix of the Act (H.R. 5426).

The CDSOA amended title VII of the *Tariff Act of 1930* by adding a new section 754 (codified at 19 U.S.C. 1675c) in order to provide that assessed duties received pursuant to a countervailing duty order, an antidumping duty order, or a finding under the *Antidumping Act of 1921* will be distributed to affected domestic producers for certain qualifying expenditures that these producers incur after the issuance of such an order or finding. The term “affected domestic producer” means any manufacturer, producer, farmer, rancher or worker representative (including associations of such persons) who:

(A) Was a petitioner or interested party in support of a petition with respect to which an antidumping duty order, a finding under the *Antidumping Act of 1921*, or a countervailing duty order has been entered;

(B) Remains in operation continuing to produce the product covered by the countervailing duty order, the antidumping duty order, or the finding under the *Antidumping Act of 1921*; and

(C) Has not been acquired by another company or business that is related to a company that opposed the antidumping or countervailing duty investigation that led to the order or finding (*e.g.*, opposed the petition or otherwise presented evidence in opposition to the petition). The distribution that these parties may receive is known as the continued dumping and subsidy offset.

Section 7601(a) of the *Deficit Reduction Act of 2005* repealed 19 U.S.C. 1675c. According to section 7701 of the *Deficit Reduction Act*, the repeal takes effect as if enacted on October 1, 2005. However, section 7601(b) provides that all duties collected on an entry filed before October 1, 2007, must be distributed as if 19 U.S.C. 1675c had not been repealed by section 7601(a). The funds available for distribution were also affected by section 822 of the *Claims Resolution Act of 2010* and section 504 of the *Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010*.

Historically, the antidumping and countervailing duties assessed and received by CBP on CDSOA-subject entries, along with the interest assessed and received on those duties pursuant to 19 U.S.C. 1677g, were transferred to the CDSOA Special Account for distribution. 66 FR 48546, Sept. 21, 2001; *see also* 19 CFR 159.64(e). Other types of interest, including delinquency interest that accrued pursuant to 19 U.S.C. 1505(d), equitable interest under common law, and interest under 19 U.S.C. 580, were not subject to distribution. *Id.*

Section 605 of the *Trade Facilitation and Trade Enforcement Act of 2015* (TFTEA) (Pub. L. 114–125, February 24, 2016; codified as 19 U.S.C. 4401), provided new authority for CBP to deposit into the CDSOA Special Account for distribution delinquency interest that accrued pursuant to 19 U.S.C. 1505(d), equitable interest under common law, and interest under 19 U.S.C. 580 for all surety payments received on or after October 1, 2014, on CDSOA subject entries.

On February 12, 2018, President Trump ordered the sequester of non-exempt budgetary resources for Fiscal Year 2019 pursuant to section 251A of the *Balanced Budget and Emergency Deficit Control Act of 1985*, as amended (83 FR 6789, February 15, 2018). To implement this sequester during Fiscal Year 2019, the calculation of the Office of Management and Budget (OMB) requires a reduction of 6.2 percent of the assessed duties and interest received in the CDSOA Special Account (account number 015–12–5688). OMB has concluded that any amounts sequestered in the CDSOA Special Account during Fiscal Year 2019 will become available in the subsequent fiscal year. See 2 U.S.C. 906(k)(6). As a result, CBP intends to include the funds that are temporarily reduced via sequester during Fiscal Year 2019 in the continued dumping and subsidy offset for Fiscal Year 2019, which will be distributed not later than 60 days after the first day of Fiscal Year 2020 in accordance with 19 U.S.C. 1675c(c). In other words, the continued dumping and subsidy offset that affected domestic producers receive for Fiscal Year 2019 will include the funds that were temporarily sequestered during Fiscal Year 2019.

Because of the statutory constraints in the assessments of anti-dumping and countervailing duties, as well as the additional time involved when the Government must initiate litigation to collect delinquent antidumping and countervailing duties, the CDSOA distribution process will be continued for an undetermined period. Consequently, the full impact of the CDSOA repeal on amounts available for distribution may be delayed for several years. It should also be noted that amounts distributed may be subject to recovery as a result of reliquidations, court actions, administrative errors, and other reasons.

### **List of Orders or Findings and Affected Domestic Producers**

It is the responsibility of the U.S. International Trade Commission (USITC) to ascertain and timely forward to CBP a list of the affected domestic producers that are potentially eligible to receive an offset in connection with an order or finding. In this regard, it is noted that the USITC has supplied CBP with the list of individual anti-dumping and countervailing duty cases, and the affected domestic

producers associated with each case who are potentially eligible to receive an offset. This list appears at the end of this document.

A significant amount of litigation has challenged various provisions of the CDSOA, including the definition of the term “affected domestic producer.” In two decisions the U.S. Court of Appeals for the Federal Circuit (Federal Circuit) upheld the constitutionality of the support requirement contained in the CDSOA. Specifically, in *SKF USA Inc. v. United States Customs & Border Prot.*, 556 F.3d 1337 (Fed. Cir. 2009), the Federal Circuit held that the CDSOA’s support requirement did not violate either the First or Fifth Amendment. The Supreme Court of the United States denied plaintiff’s petition for certiorari, *SKF USA, Inc. v. United States Customs & Border Prot.*, 560 U.S. 903 (2010). Similarly, in *PS Chez Sidney, L.L.C. v. United States*, 409 Fed. Appx. 327 (Fed. Cir. 2010), the Federal Circuit summarily reversed the U.S. Court of International Trade’s judgment that the support requirement was unconstitutional, allowing only plaintiff’s non-constitutional claims to go forward. See *PS Chez Sidney, L.L.C. v. United States*, 684 F.3d 1374 (Fed. Cir. 2012). Furthermore, in two cases interpreting the CDSOA’s language, the Federal Circuit concluded that a producer who never indicates support for a dumping petition by letter or through questionnaire response, despite the act of otherwise filling out a questionnaire, cannot be an affected domestic producer. *Ashley Furniture Indus., Inc. et al. v. United States*, 734 F.3d 1306 (Fed. Cir. 2013), cert. denied, 135 S. Ct. 72 (2014); *Giorgio Foods, Inc. v. United States et al.*, 785 F.3d 595 (Fed. Cir. 2015).

Domestic producers who are not on the USITC list but believe they nonetheless are eligible for a CDSOA distribution under one or more antidumping and/or countervailing duty cases are required, as are all potential claimants that expressly appear on the list, to properly file their certification(s) within 60 days after this notice is published. Such domestic producers must allege all other bases for eligibility in their certification(s). CBP will evaluate the merits of such claims in accordance with the relevant statutes, regulations, and decisions. Certifications that are not timely filed within the requisite 60 days and/or that fail to sufficiently establish a basis for eligibility will be summarily denied. Additionally, CBP may not make a final decision regarding a claimant’s eligibility to receive funds until certain legal issues which may affect that claimant’s eligibility are resolved. In these instances, CBP may withhold an amount of funds corresponding to the claimant’s alleged *pro rata* share of funds from distribution pending the resolution of those legal issues.

It should also be noted that the Federal Circuit ruled in *Canadian Lumber Trade Alliance v. United States*, 517 F.3d 1319 (Fed. Cir.

2008), *cert. denied sub nom. United States Steel v. Canadian Lumber Trade Alliance*, 129 S. Ct. 344 (2008), that CBP was not authorized to distribute such antidumping and countervailing duties to the extent they were derived from goods from countries that are parties to the North American Free Trade Agreement (NAFTA). Due to this decision, CBP does not list cases related to NAFTA on the Preliminary Amounts Available report, and no distributions will be issued on these cases.

### **Regulations Implementing the CDSOA**

It is noted that CBP published Treasury Decision (T.D.) 01–68 (Distribution of Continued Dumping and Subsidy Offset to Affected Domestic Producers) in the **Federal Register** (66 FR 48546) on September 21, 2001, which was effective as of that date, in order to implement the CDSOA. The final rule added a new subpart F to part 159 of title 19, Code of Federal Regulations (19 CFR part 159, subpart F (sections 159.61–159.64)). More specific guidance regarding the filing of certifications is provided in this notice in order to aid affected domestic producers and other domestic producers alleging eligibility (“claimants” or “domestic producers”).

### **Notice of Intent To Distribute Offset**

This document announces that CBP intends to distribute to affected domestic producers the assessed antidumping or countervailing duties, section 1677g interest, and interest provided for in 19 U.S.C. 4401 that are available for distribution in Fiscal Year 2019 in connection with those antidumping duty orders or findings or countervailing duty orders that are listed in this document. All distributions will be issued by paper check to the address provided by the claimants. Section 159.62(a) of title 19, Code of Federal Regulations (19 CFR 159.62(a)) provides that CBP will publish such a notice of intention to distribute at least 90 calendar days before the end of a fiscal year. Failure to publish the notice at least 90 calendar days before the end of the fiscal year will not affect an affected domestic producer’s obligation to file a timely certification within 60 days after the notice is published. *See Dixon Ticonderoga v. United States*, 468 F.3d 1353, 1354 (Fed. Cir. 2006).

### **Certifications; Submission and Content**

To obtain a distribution of the offset under a given order or finding (including any distribution under 19 U.S.C. 4401), an affected domestic producer (and anyone alleging eligibility to receive a distribution) must submit a certification for each order or finding under which a distribution is sought, to CBP, indicating its desire to receive a

distribution. To be eligible to obtain a distribution, certifications must be received by CBP no later than 60 calendar days after the date of publication of this notice of intent to distribute in the **Federal Register**. All certifications not received by the 60th day will not be eligible to receive a distribution.

As required by 19 CFR 159.62(b), this notice provides the case name and number of the order or finding concerned, as well as the specific instructions for filing a certification under section 159.63 to claim a distribution. Section 159.62(b) also provides that the dollar amounts subject to distribution that are contained in the Special Account for each listed order or finding are to appear in this notice. However, these dollar amounts were not available in time for inclusion in this publication. The preliminary amounts will be posted on the CBP website (<http://www.cbp.gov>). However, the final amounts available for disbursement may be higher or lower than the preliminary amounts.

CBP will provide general information to claimants regarding the preparation of certification(s). However, it remains the sole responsibility of the domestic producer to ensure that the certification is correct, complete, and accurate so as to demonstrate the eligibility of the domestic producer for the distribution requested. Failure to ensure that the certification is correct, complete, and accurate as provided in this notice will result in the domestic producer not receiving a distribution and/or a demand for the return of funds.

Specifically, to obtain a distribution of the offset under a given order or finding (including any distribution under 19 U.S.C. 4401), each potential claimant must timely submit a certification containing the required information detailed below as to the eligibility of the domestic producer (or anyone alleging eligibility) to receive the requested distribution and the total amount of the distribution that the domestic producer is claiming. Certifications should be submitted to U.S. Customs and Border Protection, Revenue Division, Attention: CD-SOA Team, 6650 Telecom Drive, Suite 100, Indianapolis, IN 46278. The certification must enumerate the qualifying expenditures incurred by the domestic producer since the issuance of an order or finding and it must demonstrate that the domestic producer is eligible to receive a distribution as an affected domestic producer or allege another basis for eligibility. Any false statements made in connection with certifications submitted to CBP may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

A successor to a company that was an affected domestic producer at the time of acquisition should consult 19 CFR 159.61(b)(1)(i). Any company that files a certification claiming to be the successor

company to an affected domestic producer will be deemed to have consented to joint and several liability for the return of any overpayments arising under section 159.64(b)(3) that were previously paid to the predecessor. CBP may require the successor company to provide documents to support its eligibility to receive a distribution as set out in section 159.63(d). Additionally, any individual or company who purchases any portion of the operating assets of an affected domestic producer, a successor to an affected domestic producer, or an entity that otherwise previously received distributions may be jointly and severally liable for the return of any overpayments arising under section 159.64(b)(3) that were previously paid to the entity from which the operating assets were purchased or its predecessor, regardless of whether the purchasing individual or company is deemed a successor company for purposes of receiving distributions.

A member company (or its successor) of an association that appears on the list of affected domestic producers in this notice, where the member company itself does not appear on this list, should consult 19 CFR 159.61(b)(1)(ii). Specifically, for a certification under 19 CFR 159.61(b)(1)(ii), the claimant must name the association of which it is a member, specifically establish that it was a member of the association at the time the association filed the petition with the USITC, and establish that the claimant is a current member of the association.

In order to promote accurate filings and more efficiently process the distributions, we offer the following guidance:

- If claimants are members of an association but the association does not file on their behalf, the association will need to provide its members with a statement that contains notarized company-specific information including dates of membership and an original signature from an authorized representative of the association.
- An association filing a certification on behalf of a member must also provide a power of attorney or other evidence of legal authorization from each of the domestic producers it is representing.
- Any association filing a certification on behalf of a member is responsible for verifying the legal sufficiency and accuracy of the member's financial records, which support the claim, and is responsible for that certification. As such, an association filing a certification on behalf of a member is jointly and severally liable with the member for repayment of any claim found to have been paid or overpaid in error.

The association may file a certification in its own right to claim an offset for that order or finding, but its qualifying expenditures would be limited to those expenditures that the association itself has incurred after the date of the order or finding in connection with the particular case.

As provided in 19 CFR 159.63(a), certifications to obtain a distribution of an offset (including any distribution under 19 U.S.C. 4401) must be received by CBP no later than 60 calendar days after the date of publication of the notice of intent in the **Federal Register**. All certifications received after the 60-day deadline will be summarily denied, making claimants ineligible for the distribution regardless of whether or not they appeared on the USITC list.

A list of all certifications received will be published on the CBP website (<http://www.cbp.gov>) shortly after the receipt deadline. This publication will not confirm acceptance or validity of the certification, but merely receipt of the certification. Due to the high volume of certifications, CBP is unable to respond to individual telephone or written inquiries regarding the status of a certification appearing on the list.

While there is no required format for a certification, CBP has developed a standard certification form to aid claimants in filing certifications. The certification form is available at <https://www.pay.gov> under the Public Form Name "Continued Dumping and Subsidy Offset Act of 2000 Certification" (CBP Form Number 7401) or by directing a web browser to <https://www.pay.gov/public/form/start/8776895/>. The certification form can be submitted electronically through <https://www.pay.gov> or by mail. All certifications not submitted electronically must include original signatures.

Regardless of the format for a certification, per 19 CFR 159.63(b), the certification must contain the following information:

- (1) The date of this **Federal Register** notice;
- (2) The Department of Commerce antidumping or countervailing duty case number (for example, A-331-802);
- (3) The case name (product/country);
- (4) The name of the domestic producer and any name qualifier, if applicable (for example, any other name under which the domestic producer does business or is also known);
- (5) The mailing address of the domestic producer (if a post office box, the physical street address must also appear) including, if applicable, a specific room number or department;

- (6) The Internal Revenue Service (IRS) number (with suffix) of the domestic producer, employer identification number, or social security number, as applicable;
- (7) The specific business organization of the domestic producer (corporation, partnership, sole proprietorship);
- (8) The name(s) of any individual(s) designated by the domestic producer as the contact person(s) concerning the certification, together with the phone number(s), mailing address, and, if available, facsimile transmission number(s) and electronic mail (email) address(es) for the person(s). Correspondence from CBP may be directed to the designated contact(s) by either mail or phone or both;
- (9) The total dollar amount claimed;
- (10) The dollar amount claimed by category, as described in the section below entitled “Amount Claimed for Distribution”;
- (11) A statement of eligibility, as described in the section below entitled “Eligibility to Receive Distribution”; and
- (12) For certifications not submitted electronically through <https://www.pay.gov>, an original signature by an individual legally authorized to bind the producer.

### **Qualifying Expenditures That May Be Claimed for Distribution**

Qualifying expenditures that may be offset under the CDSOA encompass those expenditures incurred by the domestic producer after issuance of an antidumping duty order or finding or a countervailing duty order (including expenditures incurred on the date of the order’s issuance), and prior to its termination, provided that such expenditures fall within certain categories. *See* 19 CFR 159.61(c). The CDSOA repeal language parallels the termination of an order or finding. Therefore, for duty orders or findings that have not been previously revoked, expenses must be incurred before October 1, 2007, to be eligible for offset. For duty orders or findings that have been revoked, expenses must be incurred before the effective date of the revocation to be eligible for offset. For example, assume for case A-331-802 Certain Frozen Warm-Water Shrimp and Prawns from Ecuador, that the order date is February 1, 2005, and that the revocation effective date is August 15, 2007. In this case, eligible expenditures would have to be incurred on or after February 1, 2005, up to

and including August 14, 2007; expenditures incurred on or after August 15, 2007 cannot be included as eligible qualifying expenditures for A-331-802.

For the convenience and ease of the domestic producers, CBP is providing guidance on what the agency takes into consideration when making a calculation for each of the following categories:

- (1) Manufacturing facilities (Any facility used for the transformation of raw material into a finished product that is the subject of the related order or finding);
- (2) Equipment (Goods that are used in a business environment to aid in the manufacturing of a product that is the subject of the related order or finding);
- (3) Research and development (Seeking knowledge and determining the best techniques for production of the product that is the subject of the related order or finding);
- (4) Personnel training (Teaching of specific useful skills to personnel, that will improve performance in the production process of the product that is the subject of the related order or finding);
- (5) Acquisition of technology (Acquisition of applied scientific knowledge and materials to achieve an objective in the production process of the product that is the subject of the related order or finding);
- (6) Health care benefits for employees paid for by the employer (Health care benefits paid to employees who are producing the specific product that is the subject of the related order or finding);
- (7) Pension benefits for employees paid for by the employer (Pension benefits paid to employees who are producing the specific product that is the subject of the related order or finding);
- (8) Environmental equipment, training, or technology (Equipment, training, or technology used in the production of the product that is the subject of the related order or finding, that will assist in preventing potentially harmful factors from affecting the environment);

- (9) Acquisition of raw materials and other inputs (Purchase of unprocessed materials or other inputs needed for the production of the product that is the subject of the related order or finding); and
- (10) Working capital or other funds needed to maintain production (Assets of a business that can be applied to its production of the product that is the subject of the related order or finding).

### **Amount Claimed for Distribution**

In calculating the amount of the distribution being claimed as an offset, the certification must indicate:

- (1) The total amount of any qualifying expenditures previously certified by the domestic producer, and the amount certified by category;
- (2) The total amount of those expenditures which have been the subject of any prior distribution for the order or finding being certified under 19 U.S.C. 1675c; and
- (3) The net amount for new and remaining qualifying expenditures being claimed in the current certification (the total amount previously certified as noted in item “(1)” above minus the total amount that was the subject of any prior distribution as noted in item “(2)” above). In accordance with 19 CFR 159.63(b)(2)(i)–(iii), CBP will deduct the amount of any prior distribution from the producer’s claimed amount for that case. Total amounts disbursed by CBP under the CDSOA for some prior Fiscal Years are available on the CBP website.

Additionally, under 19 CFR 159.61(c), these qualifying expenditures must be related to the production of the same product that is the subject of the order or finding, with the exception of expenses incurred by associations which must be related to a specific case. Any false statements made to CBP concerning the amount of distribution being claimed as an offset may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

### **Eligibility To Receive Distribution**

As noted, the certification must contain a statement that the domestic producer desires to receive a distribution and is eligible to receive the distribution as an affected domestic producer or on another legal basis. Also, the domestic producer must affirm that the net amount certified for distribution does not encompass any qualifying

expenditures for which distribution has previously been made (19 CFR 159.63(b)(3)(i)). Any false statements made in connection with certifications submitted to CBP may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

Furthermore, under 19 CFR 159.63(b)(3)(ii), where a domestic producer files a separate certification for more than one order or finding using the same qualifying expenditures as the basis for distribution in each case, each certification must list all the other orders or findings where the producer is claiming the same qualifying expenditures.

Moreover, as required by 19 U.S.C. 1675c(b)(1) and 19 CFR 159.63(b)(3)(iii), the certification must include information as to whether the domestic producer remains in operation at the time the certifications are filed and continues to produce the product covered by the particular order or finding under which the distribution is sought. If a domestic producer is no longer in operation, or no longer produces the product covered by the order or finding, the producer will not be considered an affected domestic producer entitled to receive a distribution.

In addition, as required by 19 U.S.C. 1675c(b)(5) and 19 CFR 159.63(b)(3)(iii), the domestic producer must state whether it has been acquired by a company that opposed the investigation or was acquired by a business related to a company that opposed the investigation. If a domestic producer has been so acquired, the producer will not be considered an affected domestic producer entitled to receive a distribution. However, CBP may not make a final decision regarding a claimant's eligibility to receive funds until certain legal issues which may affect that claimant's eligibility are resolved. In these instances, CBP may withhold an amount of funds corresponding to the claimant's alleged *pro rata* share of funds from distribution pending the resolution of those legal issues.

The certification must be executed and dated by a party legally authorized to bind the domestic producer and it must state that the information contained in the certification is true and accurate to the best of the certifier's knowledge and belief under penalty of law, and that the domestic producer has records to support the qualifying expenditures being claimed (see section below entitled "Verification of Certification"). Moreover as provided in 19 CFR 159.64(b)(3), all overpayments to affected domestic producers are recoverable by CBP, and CBP reserves the right to use all available collection tools to recover overpayments, including but not limited to garnishments, court orders, administrative offset, enrollment in the Treasury Offset

Program, and/or offset of tax refund payments. Overpayments may occur for a variety of reasons, including but not limited to: Reliquidations, court actions, settlements, insufficient verification of a certification in response to an inquiry from CBP, and administrative errors. With diminished amounts available over time, the likelihood that these events will require the recovery of funds previously distributed will increase. As a result, domestic producers who receive distributions under the CDSOA may wish to set aside any funds received in case it is subsequently determined that an overpayment has occurred. CBP considers the submission of a certification and the negotiation of any distribution checks received as acknowledgements and acceptance of the claimant's obligation to return those funds upon demand.

### **Review and Correction of Certification**

A certification that is submitted in response to this notice of intent to distribute and received within 60 calendar days after the date of publication of the notice in the **Federal Register** may, at CBP's sole discretion, be subject to review before acceptance to ensure that all informational requirements are complied with and that any amounts set forth in the certification for qualifying expenditures, including the amount claimed for distribution, appear to be correct. A certification that is found to be materially incorrect or incomplete will be returned to the domestic producer within 15 business days after the close of the 60 calendar-day filing period, as provided in 19 CFR 159.63(c). In making this determination, CBP will not speculate as to the reason for the error (*e.g.*, intentional, typographical, *etc.*). CBP must receive a corrected certification from the domestic producer and/or an association filing on behalf of an association member within 10 business days from the date of the original denial letter. Failure to receive a corrected certification within 10 business days will result in denial of the certification at issue. It is the sole responsibility of the domestic producer to ensure that the certification is correct, complete, and accurate so as to demonstrate the eligibility of the domestic producer to the distribution requested. Failure to ensure that the certification is correct, complete, and accurate will result in the domestic producer not receiving a distribution and/or a demand for the return of funds.

### **Verification of Certification**

Certifications are subject to CBP's verification. The burden remains on each claimant to fully substantiate all elements of its certification. As such, claimants may be required to provide copies of additional records for further review by CBP. Therefore, parties are required to maintain, and be prepared to produce, records adequately supporting their claims for a period of five years after the filing of the certification

(19 CFR 159.63(d)). The records must demonstrate that each qualifying expenditure enumerated in the certification was actually incurred, and they must support how the qualifying expenditures are determined to be related to the production of the product covered by the order or finding. Although CBP will accept comments and information from the public and other domestic producers, CBP retains complete discretion regarding the initiation and conduct of investigations stemming from such information. In the event that a distribution is made to a domestic producer from whom CBP later seeks verification of the certification and sufficient supporting documentation is not provided as determined by CBP, then the amounts paid to the affected domestic producer are recoverable by CBP as an overpayment. CBP reserves the right to use all available collection tools to recover overpayments, including but not limited to garnishments, court orders, administrative offset, enrollment in the Treasury Offset Program, and/or offset of tax refund payments. CBP considers the submission of a certification and the negotiation of any distribution checks received as acknowledgements and acceptance of the claimant's obligation to return those funds upon demand. Additionally, the submission of false statements, documents, or records in connection with a certification or verification of a certification may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

### **Disclosure of Information in Certifications; Acceptance by Producer**

The name of the claimant, the total dollar amount claimed by the party on the certification, as well as the total dollar amount that CBP actually disburses to that affected domestic producer as an offset, will be available for disclosure to the public, as specified in 19 CFR 159.63(e). To this extent, the submission of the certification is construed as an understanding and acceptance on the part of the domestic producer that this information will be disclosed to the public and a waiver of any right to privacy or non-disclosure. Additionally, a statement in a certification that this information is proprietary and exempt from disclosure may result in CBP's rejection of the certification.

### **List of Orders or Findings and Related Domestic Producers**

The list of individual antidumping duty orders or findings and countervailing duty orders is set forth below together with the affected domestic producers associated with each order or finding who are potentially eligible to receive an offset. Those domestic producers

not on the list must allege another basis for eligibility in their certification. Appearance of a domestic producer on the list is not a guarantee of distribution.

**REVOCATION OF TWO RULING LETTERS AND  
REVOCATION OF TREATMENT RELATING TO THE  
TARIFF CLASSIFICATION OF FLOOR SINKS**

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security.

**ACTION:** Notice of revocation of two ruling letters and of revocation of treatment relating to the tariff classification of floor sinks.

**SUMMARY:** Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. § 1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) is revoking New York Ruling Letters (NY) N259783 and N244050, concerning the tariff classification of floor sinks under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP is revoking any treatment previously accorded by CBP to substantially identical transactions. Notice of the proposed action was published in the *Customs Bulletin*, Vol. 52, No. 28, on July 11, 2018. No comments were received in response to that notice.

**EFFECTIVE DATE:** This action is effective for merchandise entered or withdrawn from warehouse for consumption on or after August 19, 2019.

**FOR FURTHER INFORMATION CONTACT:** Claudia Garver, Chemicals, Petroleum, Metals and Miscellaneous Classification Branch, Regulations and Rulings, Office of Trade, at (202) 325–0024.

## **SUPPLEMENTARY INFORMATION: BACKGROUND**

Current customs law includes two key concepts: informed compliance and shared responsibility. Accordingly, the law imposes an obligation on CBP to provide the public with information concerning the trade community's responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to 19 U.S.C. § 1625(c)(1), a notice was published in the *Customs Bulletin*, Vol. 52, No. 28, on July 11, 2018, proposing to revoke two ruling letters pertaining to the tariff classification of floor sinks. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should have advised CBP during the comment period.

Similarly, pursuant to 19 U.S.C. § 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should have advised CBP during the comment period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of this notice.

In NY N259783, dated December 15, 2014, and NY N244050, dated August 6, 2013, CBP classified cast iron, porcelain enameled floor sinks in heading 7326, HTSUS, specifically in subheading 7326.90.85, HTSUS, which provided for "Other articles of iron or steel: Other: Other: Other." CBP has reviewed NY N259783 and NY N244050 and has determined the ruling letters to be in error. It is now CBP's position that the subject floor sinks are properly classified in heading 7324, HTSUS, specifically in subheading 7324.90.00, HTSUS, which provides for "Sanitary ware and parts thereof, of iron and steel: Other, including parts."

Pursuant to 19 U.S.C. § 1625(c)(1), CBP is revoking NY N259783 and NY N244050 and revoking or modifying any other ruling not specifically identified to reflect the analysis contained in Headquarters Ruling Letter ("HQ") H265069, set forth as an attachment to this

notice. Additionally, pursuant to 19 U.S.C. § 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions.

In accordance with 19 U.S.C. § 1625(c), this ruling will become effective 60 days after publication in the *Customs Bulletin*.

RE: Revocation of NY N259783 and NY N244050; Classification of floor sinks

DEAR Ms. LIANG:

This is in response to your letter of May 14, 2015 on behalf of Crestline Trading, Inc. requesting reconsideration of New York Ruling Letter (NY) N259783, issued by U.S. Customs and Border Protection (CBP) on December 15, 2014. We have reviewed NY N259783, which involved classification of floor sinks under the Harmonized Tariff Schedule of the United States (HTSUS), and determined that it is incorrect. For the reasons set forth below, we are revoking that ruling.

We have also reviewed NY N244050, dated August 6, 2013, which similarly involves classification of floor sinks, and determined that it is incorrect. We are accordingly revoking NY N244050.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, notice proposing to revoke NY N259783 and NY N244050 was published on July 11, 2018, in Volume 52, Number 28 of the Customs Bulletin. No comments were received in response to this notice.

**FACTS:**

The subject floor sinks consist of cast iron basins whose top rims and interior surfaces are coated with porcelain enamel, and whose bases contain apertures covered by aluminum strainers. Included with the floor sinks at issue in NY N244050 are grate covers of an unidentified composition. While NY N259783 does not indicate whether grates are similarly included with the floor sinks at issue there, your May 14, 2015 letter (hereinafter “reconsideration request”) states that porcelain top grates are “optional.” Your reconsideration request also states that the cast iron accounts for the “vast majority” of the weight of the floor sinks at issue in NY N259783.

Your reconsideration request provides the following depictions, among others, of the floor sinks at issue in NY N259783:

The floor sinks at issue in both rulings are designed for installment directly in floors for the purpose of collecting liquids directed toward them, separating denser material for separate removal, and channeling the collected liquid to the connected drain pipes for disposal. According to your reconsideration request, and consistent with the descriptions contained in NY N259783, the floor sinks at issue in that ruling are installed in kitchens, supermarkets, grocery stores, and other “commercial spaces” so as “to drain condensed water from large freezers or refrigerators, to drain waste water from floor wash-downs, to drain waste water from food preparation areas, and/or to separate food residuals, fats or other large particles from waste water.” Your reconsideration request further states that the floor drains are installed in hospitals and clinics. According to NY N244050, the floor sinks at issue in that ruling are similarly used in a wide range of environments, including kitchens, restrooms, supermarkets, and laundromats.

In both NY N259783 and NY N244050, the subject floor sinks were classified in heading 7326, HTSUS. They were specifically classified in subheading 7326.90.85 of the 2013 and 2014 HTSUS, which provided for “Other articles of iron or steel: Other: Other: Other.” We note that subheading 7326.90.85, HTSUS, was superseded by subheading 7326.90.86, HTSUS, as part of the 2017 revisions to the HTSUS, but that the provisions are substantively identical.

#### **ISSUE:**

Whether the subject floor sinks are classified in heading 7324, HTSUS, as sanitary ware of iron, or in heading 7326, HTSUS, as “other” articles of iron.

#### **LAW AND ANALYSIS:**

Merchandise imported into the United States is classified under the HTSUS. Tariff classification is governed by the principles set forth in the General Rules of Interpretation (GRIs) and, in the absence of special language or context which requires otherwise, by the Additional U.S. Rules of Interpretation. The GRIs and the Additional U.S. Rules of Interpretation are part of the HTSUS and are to be considered statutory provisions of law for all purposes.

GRI 1 requires that classification be determined first according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the heading and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

The Harmonized Commodity Description and Coding System Explanatory Notes (“ENs”) constitute the official interpretation of the Harmonized System at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of these headings. *See* T.D. 89–80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

The 2018 HTSUS provisions under consideration are as follows:

<b>7324</b>	Sanitary ware and parts thereof, of iron or steel:
7324.90.00	Other, including parts
<b>7326</b>	Other articles of iron or steel:
7326.90	Other:
	Other:
7326.90.86	Other

As a preliminary matter, the subject floor sinks can only be classified in heading 7326, HTSUS, if they are not more specifically classifiable in heading 7324, HTSUS. *See* EN 73.26 (“This heading covers all iron or steel articles ...other than articles included in the preceding headings of this Chapter.”). Accordingly, we initially consider whether the subject articles fall within the scope of heading 7324.

Heading 7324, HTSUS, applies, *inter alia*, to sanitary ware of iron. EN 73.24 states, in pertinent part, as follows:

This heading comprises a wide range of iron or steel articles, **not more specifically covered** by other headings of the Nomenclature, used for sanitary purposes.

These articles may be cast, or of iron or steel sheet, plate, hoop, strip, wire, wire grill, wire cloth, etc., and may be manufactured by any process (moulding, forging, punching, stamping, etc.). They may be fitted with lids, handles or other parts or accessories of other materials **provided** that they retain the character of iron or steel articles.

The heading includes, baths, bidets, hip-baths, foot-baths, sinks, wash basins, toilet sets; soap dishes and sponge baskets; douche cans, sanitary pails, urinals, bedpans, chamber-pots, water closet pans and flushing cisterns whether or not equipped with their mechanisms, spittoons, toilet paper holders.

Per its plain language, and as explicated in EN 73.24, heading 7324 applies to articles which are describable both as “sanitary ware” and as “of iron or steel.” With respect to the former criterion, the term “sanitary” is left undefined in the HTSUS. The term must therefore be construed in accordance with its common meaning, which may be ascertained by reference to “standard lexicographic and scientific authorities” and to the pertinent ENs. *See GRK Can., Ltd. v. United States*, 761 F.3d 1354, 1357 (Fed. Cir. 2014). According to the Oxford English Dictionary, “sanitary” adjectivally refers to “conditions affecting health, esp. with references to cleanliness and precautions against infection and other deleterious diseases.” Definition Sanitary, Oxford English Dictionary, <http://www.oed.com/view/Entry/170705?redirectedFrom=sanitary> (last visited April 13, 2018); *see also* Headquarters Ruling Letters (HQ) H201156 and HQ H201157, both dated December 16, 2014 (citing MacMillan Dictionary definition of “sanitary” as “relating to people’s health, especially to the system of supply water and dealing with human waste”). Consistent with this, EN 73.24 lists, as exemplars of “sanitary ware,” various articles used to remove waste that could potentially serve as vectors for disease. *See LeMans Corp. v. United States*, 660 F.3d 1311, 1320–21 (Fed. Cir. 2011) (holding that use of EN examples to define the scope

of a tariff term is permissible). Among these listed exemplars are sinks and wash basins, both of which are used to funnel waste – human, food, or otherwise – from relatively wide receptacles to narrower drainage systems for disposal. *See id.*; *see also* HQ H201156 and H201157, *supra* (finding that inclusion of “sinks” among EN 73.24 exemplars is consistent with definition of “sanitary ware” in Merriam-Webster’s Collegiate Dictionary). In consideration of the above, we are of the view that “sanitary ware” applies to basins, wherever positioned, that similarly collect and facilitate the drainage of organic or inorganic waste for the purpose of preventing the incubation and spread of disease.<sup>1</sup>

The subject floor sinks satisfy this description, insofar as they are designed to assist in the disposal of waste water from areas like bathrooms, food preparation and storage areas, and medical facilities, among others. Like traditional sinks and wash basins, the floor sinks collect broad swaths of waste water directed toward them and funnel this water toward underlying drainage pipes for disposal. In so doing, the floor sinks additionally separate and aggregate denser waste material for subsequent manual removal. In this manner, the floor sinks help mitigate pathological health risks in areas that are particularly effective disease incubators. It is immaterial that they are installed in floors, rather than atop them as upright units, given that their functionality is akin to that of traditional sink bowls or basins. Therefore, the subject floor sinks satisfy the definition of “sanitary ware” for purposes of heading 7324, HTSUS. We note that this determination finds support in prior CBP rulings. *See* NY R03830, dated May 19, 2006; NY L86937, dated September 2, 2005; and NY 883008, dated February 26, 1993 (all classifying substantially similar floor drains as “sanitary ware” of heading 7324).

As to whether the floor sinks are “of iron or steel,” per the second criterion listed above, EN 73.24 states that sanitary ware of the heading may incorporate components or include accessories made up of “other materials” so long as it “retains the character” of iron or steel. The extent to which incorporation of a non-steel, non-iron material deprives a sanitary ware of its iron or steel character is left unaddressed by the EN, the HTSUS, and CBP precedent alike. However, we have previously determined that steel or iron articles coated with “other materials” are *prima facie* classifiable in heading 7324, HTSUS. *See* HQ 958421, dated March 18, 1996. This is also consistent with various decisions involving heading 7323, HTSUS, which similarly pertains to composite goods – albeit “kitchen articles” – which “retain the character” of iron or steel. *See* EN 73.23 (“These articles...may be fitted with lids, handles or other parts or accessories of other materials provided that they retain the character of iron or steel articles.”). Per the latter rulings, articles with iron or steel bodies retain the character of those metals even when coated with and/or comprised in minor, non-structural part of other substances. *See* HQ 966953, dated March 25, 2004 (classifying “microradiant cooker consist[ing] of a thermal ceramic [steel] tripod-pedestal and a Teflon-coated steel pan and lid” in heading 3923); *see also* HQ 963777, dated April 2, 2001 (determining that chrome-plated strainers with plastic handles “retain the character of iron or steel articles” for purposes of heading 3923). However,

---

<sup>1</sup> In HQ 962658, dated July 18, 2000, which pertained to the classification of steel waste baskets, we stated as follows: “The ENs imply that sanitary ware of heading 7324 only include articles associated with cleaning or caring for the body and its hygienic functions.” In view of the above analysis, we do not consider this statement to be an accurate interpretation of “sanitary ware” for purposes of heading 7324.

when accompanied by separate, non-metal items which are in and of themselves distinct articles of commerce, those goods can no longer be classified solely as articles “of iron or steel.” See HQ 966953, *supra* (classifying oven mitts included with steel pedestal and pan and lid in heading 6304, HTSUS); see also HQ 961935, dated September 25, 1998 (determining that combination of steel or iron spice rack and twelve glass jars could not be classified in heading 7323 because the jars were distinct articles of commerce that imparted the set’s essential character). In view of this, it is our position that sanitary ware retains the character of iron or steel where any “other materials” included are clearly subordinate to the constituent iron or steel in terms of relative size and structural importance, and where those materials lack any independent commercial significance.

In the instant case, the structures of the basins comprising the floor sinks’ bodies are wholly iron. While the basins are coated with porcelain along their rims and interior surfaces, the entirety of their exteriors and bottommost surfaces consist solely of uncoated iron. As such, it cannot be said that the porcelain content forms, or even lends to, the structure of the floor sinks. Nor can the aluminum strainers covering the floor sinks’ base aperture be considered structurally important, as they are merely placed upon the pre-existing structure for purposes of assisting in the filtering of larger waste residue for separate removal. As to your contention that the iron content in the basins vastly exceeds that of porcelain and aluminum, this remains unverified in the absence of supporting evidence. However, a simple inspection of the depictions included in your ruling request, as well as others found in various online retail channels, indicates that the iron content does in fact predominate by surface area and mass. Lastly, even if grates of porcelain or other materials are included with the basins at entry, the grates cannot be considered distinct articles of commerce insofar as their unique form and dimensions narrow their use to that of accessories for the floor sinks. As such, they do not render the character of floor sinks something other than articles of iron. We therefore conclude that the subject merchandise, as sanitary ware of iron, is classified in heading 7324, HTSUS.

#### **HOLDING:**

By application of GRI 1, the subject floor sinks are classified in heading 7324, HTSUS, specifically in subheading 7324.90.00, HTSUS, which provides for: “Sanitary ware and parts thereof, of iron or steel: Other, including parts.” The 2018 column one general rate of duty is free.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the internet at [www.usitc.gov/tata/hts/](http://www.usitc.gov/tata/hts/).

#### **EFFECT ON OTHER RULINGS:**

New York Ruling Letters N259783, dated December 15, 2014, and NY N244050, dated August 6, 2013, are hereby REVOKED in accordance with the above analysis.

In accordance with 19 U.S.C. § 1625(c), this ruling will become effective 60 days after its publication in the Customs Bulletin.

In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to 19 U.S.C. § 1625(c)(1), a notice was published in the *Customs Bulletin*, Vol. 52, No. 46, on November 14, 2018, proposing to revoke one ruling letter pertaining to the tariff classification of a plastic hard drive storage case known as a Hudzee case. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should have advised CBP during the comment period. During the comment period, we became aware of New York Ruling Letter ("NY") N301247, dated November 7, 2018, incorrectly limiting the scope of heading 3923, HTSUS, to items used in the conveyance or packing of bulk goods and commercial goods, and we include its modification here.

Similarly, pursuant to 19 U.S.C. § 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should have advised CBP during the comment period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of this notice.

In NY N287024, dated July 6, 2017, CBP classified a plastic hard drive storage case, known as a Hudzee case, in heading 3924, HTSUS, specifically in subheading 3924.90.56, HTSUS, which provides for "Tableware, kitchenware, other household articles and hygienic or toilet articles, of plastics: Other: Other." CBP has reviewed NY

N287024 and has determined the ruling letter to be in error. It is now CBP's position that the Hudzee case is properly classified, in heading 3926, HTSUS, specifically in subheading 3926.90.99, HTSUS, which provides for "Other articles of plastics and articles of other materials of headings 3901 to 3914: Other: Other."

In NY N301247, dated November 7, 2018, CBP properly classified a plastic "ClickShare Tray," which stored buttons when they were not in use in heading 3926, HTSUS, specifically under subheading 3926.90.99, HTSUS. CBP correctly determined that the tray was not classifiable in heading 3923, HTSUS, but on the wrong grounds. We hereby clarify that heading 3923 is a use provision and covers goods of plastic used to carry or transport other goods of any kind, not just bulk and commercial items. Since the tray did not carry or transport the buttons, it could not be classified in heading 3923, HTSUS. It did not matter whether the buttons were personal or non-personal items.

Pursuant to 19 U.S.C. § 1625(c)(1), CBP is revoking NY N287024, modifying NY N301247 with respect to the scope of heading 3923, HTSUS, and revoking or modifying any other ruling not specifically identified to reflect the analysis contained in Headquarters Ruling Letter ("HQ") H296920, set forth as an attachment to this notice. Additionally, pursuant to 19 U.S.C. § 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions.

In accordance with 19 U.S.C. § 1625(c), this ruling will become effective 60 days after publication in the *Customs Bulletin*.

RE: Revocation of NY N287024 and modification of NY N301247; Tariff classification of a plastic hard drive storage case and a plastic “ClickShare Tray”

DEAR MR. YI:

This is to inform you that U.S. Customs and Border Protection (“CBP”) has reconsidered New York Ruling Letter (“NY”) N287024, dated July 6, 2017 (issued to Untwist Systems, LLC), regarding the classification, under the Harmonized Tariff Schedule of the United States (“HTSUS”), of a plastic hard drive storage case (Hudzee case). In NY N287024, CBP classified the plastic hard drive storage case under heading 3924, HTSUS, specifically under subheading 3924.90.56, HTSUS, which provides for “Tableware, kitchenware, other household articles and hygienic or toilet articles, of plastics: Other: Other.” We have determined that this ruling is in error and that the correct tariff classification should be under heading 3926, HTSUS, specifically under subheading 3926.90.99, HTSUS, which provides for “Other articles of plastics and articles of other materials of headings 3901 to 3914: Other: Other.” We have also determined that the language on the scope of heading 3923, HTSUS, in NY N301247, dated November 7, 2018, needs to be corrected. Accordingly, for the reasons set forth below, we hereby revoke NY N287024 and modify NY N301247 with respect to the scope of heading 3923, HTSUS.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. § 1625(c)(1)), as amended by section 623 of Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), a notice was published in the *Customs Bulletin*, Volume 52, Number 46, on November 14, 2018, proposing to revoke NY N287024 and to revoke any treatment accorded to substantially identical transactions. No comments were received in response to this notice. At that time, it came to our attention that similar to NY N287024, NY N301247 incorrectly limits the scope of heading 3923, HTSUS.

**FACTS:**

The Hudzee case at issue in NY N287024 is an antistatic enclosure designed to protect a computer internal hard drive. It is made of red polypropylene plastic material with an interior padding of foam laminated with a top layer of Mylar that compresses and conforms to protect each specific internal hard drive. The case has a secure safety latch, a reversible paper insert label to record the contents of each case, and a clear label window.

The “ClickShare Tray” at issue in NY N301247 stores buttons when they are not in use. It is designed to be placed on a meeting table and holds up to four buttons at one time. The tray is made of 59.5 percent plastic.

**ISSUE:**

- 1) What is the scope of heading 3923, HTSUS?
- 2) Whether the plastic hard drive storage case in NY N287024 is classifiable under heading 3924 as other household article of plastics or under heading 3926 as other article of plastics.

**LAW AND ANALYSIS:**

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (“GRIs”). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order. Pursuant to GRI 6, classification at the subheading level uses the same rules, *mutatis mutandis*, as classification at the heading level.

The HTSUS provisions under consideration<sup>1</sup> in this case are as follows:

3924 Tableware, kitchenware, other household articles and hygienic or toilet articles, of plastics:

3926 Other articles of plastics and articles of other materials of headings 3901 to 3914:

The Harmonized Commodity Description and Coding System Explanatory Notes (“ENs”) constitute the official interpretation of the Harmonized System at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of the headings. It is CBP’s practice to consult, whenever possible, the terms of the ENs when interpreting the HTSUS. *See* T.D. 89–80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

It is undisputed that the Hudzee case is not classifiable in heading 3923, HTSUS, because it is not used for packing and conveyance of other personal or non-personal items. *See S.C. Johnson & Son, Inc. v. United States*, 335 F. Supp. 3d 1294 (CIT 2018) (ruling that heading 3923, HTSUS, is a use provision and covers goods of plastic used to carry or transport other goods of any kind).

During the comment period, we became aware of the recently issued NY N301247, incorrectly limiting the scope of heading 3923, HTSUS, to items used in the conveyance or packing of bulk goods and commercial goods. In NY N301247, CBP correctly classified, among other items, a plastic “ClickShare Tray” storing buttons for possession of the consumer designed to transmit data from a personal computer to a “ClickShare Base Unit” in heading 3926, HTSUS, under subheading 3926.90.99. CBP ruled that heading 3923, HTSUS, was not applicable because this heading covered items such as dispos-

<sup>1</sup> The Hudzee case is not listed *eo nomine* in heading 4202, HTSUS, and is not similar to the exemplars listed therein. EN 42.02 excludes articles “which, although they may have the character of containers, are not similar to those enumerated in the heading.” The four characteristics that unite the exemplars of heading 4202, HTSUS, are organizing, storing, protecting, and carrying. The Hudzee case is not a container of heading 4202, HTSUS, because even though it is used to protect and store an internal hard drive when not in use, it does not organize or carry it. *See Otter Prods., LLC v. United States*, 70 F. Supp. 3d 1281 (CIT 2015), *aff’d*, 834 F.3d 1369 (Fed. Cir. 2016).

able packaging that were “used in the conveyance or packing of bulk goods and commercial goods in the stream of commerce, not personal effects or other items for possession of the consumer.” We reiterate that it did not matter whether the buttons in NY N301247 were personal or non-personal items because consistent with the court’s ruling in *S.C. Johnson & Son, supra*, heading 3923, HTSUS, encompasses plastic goods used to carry or transport other goods of any kind. The plastic tray in NY N301247 could not be classified in heading 3923 because it did not carry or transport the buttons.

Therefore, at issue in NY N287024 are headings 3924 and 3926, HTSUS, and we will address them in turn. Heading 3924, HTSUS, covers “tableware, kitchenware, other household articles and hygienic or toilet articles, of plastics.” EN 39.24 provides that heading 3924 covers the following articles of plastics:

- (A) Tableware such as tea or coffee services, plates, soup tureens, salad bowls, dishes and trays of all kinds, coffee-pots, teapots, sugar bowls, beer mugs, cups, sauce-boats, fruit bowls, cruets, salt cellars, mustard pots, egg-cups, teapot stands, table mats, knife rests, serviette rings, knives, forks and spoons.
- (B) Kitchenware such as basins, jelly moulds, kitchen jugs, storage jars, bins and boxes (tea caddies, bread bins, etc.), funnels, ladles, kitchen-type capacity measures and rolling-pins.
- (C) Other household articles such as ash trays, hot water bottles, matchbox holders, dustbins, buckets, watering cans, food storage containers, curtains, drapes, table covers and fitted furniture dust-covers (slipovers).
- (D) Hygienic and toilet articles (whether for domestic or non-domestic use) such as toilet sets (ewers, bowls, etc.), sanitary pails, bed pans, urinals, chamber-pots, spittoons, douche cans, eye baths; teats for baby bottles (nursing nipples) and finger-stalls; soap dishes, towel rails, tooth-brush holders, toilet paper holders, towel hooks and similar articles for bathrooms, toilets or kitchens, not intended for permanent installation in or on walls. However, such articles intended for permanent installation in or on walls or other parts of buildings (e.g., by screws, nails, bolts or adhesives) are **excluded (heading 39.25)**.

Heading 3924, HTSUS, is organized into categories (e.g., tableware and kitchenware) followed by the general phrase “other household articles.” “[W]hen a list of items is followed by a general word or phrase, the rule of *ejusdem generis* is used to determine the scope of the general word or phrase.” *Aves. in Leather, Inc. v. United States*, 178 F.3d 1241, 1244 (Fed. Cir. 1999). “In classification cases, *ejusdem generis* requires that, for any imported merchandise to fall within the scope of the general term or phrase, the merchandise must possess the same essential characteristics or purposes that unite the listed examples preceding the general term or phrase ... Thus, under an *ejusdem generis* analysis, a court must consider the common characteristics or unifying purpose of the listed exemplars in a heading as well as consider the specific primary purpose of the imported merchandise. Classification of imported merchandise under *ejusdem generis* is appropriate only if the imported merchandise shares the characteristics or purpose and does not have a more specific primary purpose that is inconsistent with the listed exemplars.” *Id.*

The essential characteristics or purposes of the exemplars of EN 39.24 are that they are of plastic, are used in the household, and are reusable. See HQ W968181, dated October 3, 2006. The Hudzee case at issue is not tableware, kitchenware, or a hygienic and toilet article. We need to determine whether the Hudzee case can be classified, *ejusdem generis*, in heading 3924, HTSUS, under “other household articles.” The primary location of the article alone does not determine its primary function and does not make it classifiable as a household article of heading 3924, HTSUS. EN 39.24 reflects that household articles are utilitarian and decorative in character or function as a receptacle, and are closely associated with household functions and activities such as dustbins and buckets for cleaning, watering cans for watering plants or a garden, and food storage containers to store food products for and in a household.

Unlike the exemplars provided as household articles of heading 3924, HTSUS, the sole purpose of the Hudzee case is to protect and store an internal hard drive that is not in use. The Hudzee case is not strictly used in the household, nor is it even primarily used in the household. It is readily used in the office and is not consistent with the narrow uses contemplated by household articles of heading 3924, HTSUS. The fact that the Hudzee case can be used in the home occasionally in itself is not sufficient to warrant its classification as a household article of heading 3924, HTSUS. In sum, the Hudzee case is not *ejusdem generis* with the “other household article of plastics” exemplars of EN 39.24(C) because even though it is of plastic and is reusable, it is not primarily used in the household. As such, the Hudzee case is not classifiable in heading 3924, HTSUS.

We next turn to heading 3926, HTSUS, which is the residual provision for plastics and covers articles of plastics not elsewhere specified or included. EN 39.26 states, in relevant part:

This heading covers articles, not elsewhere specified or included, of plastics (as defined in Note 1 to the Chapter) or of other materials of headings 39.01 to 39.14.

Heading 3926, HTSUS, is a general heading or basket provision, as evidenced by the word “other.” See *Item Co. v. United States*, 98 F.3d 1294, 1296 (Fed. Cir. 1996). Classification of imported merchandise in a basket provision is only appropriate if there is no tariff provision that covers the merchandise more specifically. See *EM Indus., Inc. v. United States*, 22 CIT 156, 165, 999 F. Supp. 1473, 1480 (1998). Heading 3926, HTSUS, covers many articles of plastics, many of which are used within a home. EN 39.26 provides a long list of exemplars (e.g., fittings for furniture, statuettes and other ornamental articles, fittings of general use, etc.) classified therein, many of which are commonly, if not principally, found in the home. Since the Hudzee case is not included in heading 3924, it falls by default into heading 3926, HTSUS.

CBP has previously classified universal media disk covers that are similar to the Hudzee case in heading 3926, HTSUS. Just like the Hudzee case, they were designed to protect and store other articles (e.g., games and movies) from dust, dirt, and fingerprints. See NY N045112, dated December 18, 2008 (classifying universal media disk covers in subheading 3926.90.99, HTSUS); HQ H137840, dated December 16, 2010 (classifying a reusable universal media disk cover in subheading 3926.90.99, HTSUS).

Accordingly, the Hudzee case is classifiable in heading 3926, HTSUS, specifically in subheading 3926.90.99, HTSUS as “Other articles of plastics

and articles of other materials of headings 3901 to 3914: Other: Other.” The plastic tray in NY N301247 remains in subheading 3926.90.99, HTSUS, because heading 3923, HTSUS, is not applicable as the tray did not carry or transport the buttons.

**HOLDING:**

By application of GRIs 1 and 6, the subject Hudzee case is classified in heading 3926, HTSUS, specifically under subheading 3926.90.99, HTSUS, as “Other articles of plastics and articles of other materials of headings 3901 to 3914: Other: Other” for the reasons explained above. The current column one, duty rate is 5.3% *ad valorem*.

Heading 3923, HTSUS, encompasses plastic goods used to carry or transport other goods of any kind. Since the tray in NY N301247 did not carry or transport the buttons, it remains classifiable in heading 3926, HTSUS, under subheading 3926.90.99, HTSUS.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided at <https://hts.usitc.gov/current>.

**EFFECT ON OTHER RULINGS:**

NY N287024, dated July 6, 2017, is hereby revoked.

NY N301247, dated November 7, 2018, is hereby modified with respect to the scope of heading 3923, HTSUS.

In accordance with 19 U.S.C. § 1625(c), this ruling will become effective 60 days after its publication in the *Customs Bulletin*.

**NOTICE OF ISSUANCE OF FINAL DETERMINATION  
CONCERNING ELECTROENCEPHALOGRAPH (EEG)  
CUTANEOUS ELECTRODES**

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security.

**ACTION:** Notice of final determination.

**SUMMARY:** This document provides notice that U.S. Customs and Border Protection (“CBP”) has issued a final determination concerning the country of origin of Rhythmlink International L.L.C.’s, Electroencephalogram (EEG) Cutaneous Electrodes. Based upon the facts presented, CBP has concluded in the final determination that the last substantial transformation of the Electroencephalogram (EEG) Cutaneous Electrode Product occurs in the United States.

**DATES:** The final determination was issued on May 24, 2019. A copy of the final determination is attached. Any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of this final determination within July 1, 2019.

**FOR FURTHER INFORMATION CONTACT:** Robert Dinerstein, Valuation and Special Programs Branch, Regulations and Rulings, Office of International Trade (202–325–0132).

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that on May 24, 2019, pursuant to subpart B of part 177, Customs and Border Protection (CBP) Regulations (19 CFR part 177, subpart B), CBP issued a final determination concerning the country of origin of the Electroencephalogram (EEG) Cutaneous Electrodes which may be offered to the United States Government under an undesignated government procurement contract. This final determination, in HQ H300745, was issued at the request of Rhythmlink International, L.L.C. under procedures set forth at 19 CFR part 177, subpart B, which implements Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2511–18). In the final determination, CBP concluded that the assembly and attachment of a lead wire to the U.S. origin Electroencephalogram (EEG) Cutaneous Electrodes by crimping or gluing in China is not

a substantial transformation. Therefore, the last substantial transformation of the Rhythmlink Electroencephalogram (EEG) Cutaneous Electrode product occurs in the United States.

Section 177.29, CBP Regulations (19 CFR 177.29), provides that notice of final determinations shall be published in the **Federal Register** within 60 days of the date the final determination is issued. Section 177.30, CBP Regulations (19 CFR 177.30), provides that any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of a final determination within 30 days of publication of such determination in the **Federal Register**.

Dated: May 24, 2019.

RE: U.S. Government Procurement; Title III, Trade Agreements Act of 1979 (19 U.S.C. § 2511); Subpart B, Part 177, CBP Regulations; Electroencephalogram (EEG) Cutaneous Electrodes; Substantial Transformation

DEAR MR. ROBINSON:

This is in response to your letter, dated September 10, 2018, requesting a final determination on behalf of Rhythmlink International, LLC. (Rhythmlink) pursuant to subpart B of Part 177 of the U.S. Customs and Border Protection (CBP) Regulations (19 C.F.R. Part 177).

This final determination concerns the country of origin of various self-adhesive cutaneous electrode products. As a U.S. importer, Rhythmlink is a party-at-interest within the meaning of 19 C.F.R. § 177.22(d)(1) and is entitled to request this final determination. Samples of three versions of the product have been submitted for our review.

**FACTS:**

Rhythmlink is headquartered in Columbia, North Carolina and manufactures and distributes medical devices. It seeks a country of origin determination for the purposes of United States government procurement for a line of Electroencephalogram (EEG) Electrode products.

An EEG is a test that detects electrical activity in the brain using electrodes attached to the scalp. Doctors use an EEG test to help diagnose certain neurological conditions, such as epilepsy and sleep disorders. The EEG electrode allows for a physical connection between a patient and medical diagnostic equipment. To use the EEG electrodes, the patient's scalp is cleaned, and the cutaneous electrodes are attached to the patient's skin using a small amount of an adhesive conductive gel or paste, either to record physiological signals (e.g., the electroencephalogram) or to apply electrical stimulation. To accomplish its function, the EEG electrode uses a glass-filled ABS plastic mold with a silver-chloride coating. It is designed and manufactured to specifications as a U.S. Food and Drug Administration (FDA) medical regulated "cutaneous electrode", mainly for the recording of its electrical conductor function. Rhythmlink's EEG electrodes are disposable.

The product comes in varying lengths/styles and the end user can customize the color of the connecting wire. The electrodes' function is common to all lengths and is unchanged by the color of the connecting wire. There are three EEG electrode products that have common construction and function: the Disposable Slim Cup, the Disposable Deep Cup, and Disposable Webb.

Rhythmlink conducts all engineering and design of the EEG electrodes in the United States. The actual production and manufacture of the cutaneous electrodes is outsourced to a third party subcontractor located in the United States. The single-source manufacturer supplies the finished EEG electrodes to Rhythmlink, marked "Country of Origin: USA." The manufacturer must

further certify that, “This uniform silver coating applied to precision molded products enhances the mechanical and electrical performance of the finished electrode products so they can meet or exceed applicable AAMI Standards.”

The fully assembled, packaged end product for medical use consists of five elements: the cutaneous electrode, the lead wire, a miniscule amount of crimp or glue, a heat shrink tube, and packaging. The subcontractor-supplied cutaneous electrodes are shipped from the United States to China where a lead wire is attached. You state that the lead wire acts as an electrical conductor that transfers low voltage electrical signals from the electrode to medical diagnostic equipment. The lead wire used in the product is a commercially available 26-gauge twisted copper wire comprising 19 strands of 38-gauge copper wire with medical grade PVC covering (in a total of 25 color options). The Korean supplier of this wire, cuts the wire, crimps a socket pin, and attaches a connector to one end of the wire and then ships the wire to China. Neither the wire nor the connectors are proprietary and are common electrical materials.

In China, to support certain optional user preferences, the EEG electrodes are either attached to the lead wire of Korean origin, using a crimp produced in the United States or China. Crimp is a mix of tin, copper and nickel and represents only a tiny portion of the product’s cost. Alternatively, the process will utilize a German conductive adhesive glue, which is a mix of silver and epoxy and also represents a very small percentage of the product’s cost. The lead wire is crimped or glued to the electrode. The crimping process takes roughly five seconds (six operators can professionally crimp 6,000 products in a day). The alternative gluing process takes roughly 20 seconds (six operators can professionally glue 1,500 products in a day). Next, a heat shrink from either the United States or Japan is used to cover the joint. The heat shrink tube is an off-the-shelf product from a third party contractor from the United States or Japan that is available in almost 40 different diameters. The product is ultrasonically cleaned and dried (spin and convention drying), a heat shrink cover is added, and the product is inserted into a plastic pouch and cardboard packaging. After the EEG electrodes are shipped back to the United States, the products are subjected to randomized testing and sampling for quality control purposes.

**ISSUE:**

Where does the last substantial transformation of the adhesive cutaneous EEG product occur for purposes of U.S. Government procurement?

**LAW AND ANALYSIS:**

CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain “Buy American” restrictions in U.S. law or practice for products offered for sale to the U.S. Government, pursuant to subpart B of Part 177, 19 C.F.R. § 177.21 *et seq.*, which implements Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. § 2511 *et seq.*) (TAA).

Under the rule of origin set forth under 19 U.S.C. § 2518(4)(B):

An article is a product of a country or instrumentality only if (i) it is wholly the growth, product, or manufacture of that country or instrumentality, or (ii) in the case of an article which consists in whole or in part of

materials from another country or instrumentality, it has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

*See also* 19 C.F.R. § 177.22(a).

In rendering advisory rulings and final determinations for purposes of U.S. Government procurement, CBP applies the provisions of subpart B of Part 177 consistent with Federal Acquisition Regulations. *See* 19 C.F.R. § 177.21. In this regard, CBP recognizes that the Federal Acquisition Regulations restrict the U.S. Government's purchase of products to U.S.-made or designated country end products for acquisitions subject to the TAA. *See* 48 C.F.R. § 25.403(c)(1). The Federal Acquisition Regulations define "U.S.-made end product" as:

. . . an article that is mined, produced, or manufactured in the United States or that is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

In reaching its country of origin determinations, the Court of International Trade has examined the essential character of an article to determine whether its identity has been substantially transformed through assembly or processing. For example, in *Uniroyal, Inc. v. United States*, 3 CIT 220, 225, 542 F. Supp. 1026, 1030 (1982), *aff'd*, 702 F.2d 1022 (Fed. Cir. 1983), the court held that imported shoe uppers added to an outer sole in the United States were the "very essence of the finished shoe" and thus the character of the product remained unchanged and did not undergo a substantial transformation. *See also National Hand Tool Corp. v. United States*, 16 CIT 308 (1992), *aff'd*, 989 F.2d 1201 (Fed. Cir. 1993). Similarly, in *National Juice Products Association v. United States*, 10 CIT 48, 61, 628 F. Supp. 978, 991 (1986), the court held that imported orange juice concentrate "imparts the essential character" to the completed orange juice and thus was not substantially transformed into a product of the United States.

For products used in medical-related applications, we have held that no substantial transformation occurs when the critical components which impart the essential character of the product subsequently undergo simple assembly and processing. In HQ H296072, dated July 13, 2018, CBP considered the processing of a subdermal needle electrode. The processing was quite similar to the processing that the electrodes undergo in this case, and included attaching a lead wire to the electrode, adding a heat shrink and protective cover, and packaging. In HQ H296072, the subdermal needle electrodes of U.S. origin were attached by soldering in China. CBP held that the stimulating probes of the subdermal needle electrodes were not substantially transformed by the Chinese processing.

HQ H300744, dated February 20, 2019, concerned the country of origin of various stimulating probes for purposes of U.S. government procurement. The probes were produced in the United States by cutting U.S. origin raw stainless steel rods to specified lengths. After cutting, the rods were ground to a precise diameter on a precision lathe. In China, the steel probes were attached to a lead wire of Korean origin using Chinese solder, and the probes were covered with a heat shrink from China, Japan, or the United States. The probes were attached to a hand grip consisting of a U.S.-origin handle insert and a Korean origin plastic handle. CBP held that the stimulating probes

were not substantially transformed by the processing that occurred in China. Although a handle was added to the stimulating probes, CBP noted that the handles were not necessary to the functioning of the probes, but rather only added to their ease of use.

In this case, the product's main function is provided by the EEG cutaneous electrode, which allows for a physical connection between a patient and the medical diagnostic equipment when the electrode is applied directly to a patient's skin to record physiological signals. Attaching the lead wire to the EEG electrode allows the EEG to be used, but the EEG electrode does not lose its individual identity by the simple assembly in China. Consequently, the U.S. cutaneous EEG electrodes, rather than the Korean-origin lead wire, determine the essence of the finished product.

As in HQ H296072 and HQ H300744, the processing in China which involves the attaching of the lead wire by simple assembly through crimping or gluing is a minor operation that leaves the identity of the U.S. made self-adhesive cutaneous EEG electrodes intact. Both the crimping and gluing require only a low level of skill and technology. The crimping process takes roughly five seconds to perform, while the alternative gluing process takes roughly 20 seconds to complete. The remaining processing of the Product, consisting of cleaning and drying (spin and convention drying), adding the heat shrink cover, and inserting the Product into the plastic pouch and cardboard packaging are likewise simple, minor, and low-skill operations. Therefore, we find that the name, character, and use of the cutaneous electrode remain unchanged after the lead wire and other components are attached in China. As such, the U.S. origin cutaneous EEG electrodes which are processed in China by attaching a lead wire and being covered with a heat shrink, are not substantially transformed. Accordingly, for purposes of government procurement, we find that the last substantial transformation of the product is in the United States.

#### **HOLDING:**

Based on the information provided, the last substantial transformation of the self-adhesive cutaneous EEG electrode product occurs in the United States.

**Abstract:** The C-TPAT Program is designed to safeguard the world's trade industry from terrorists and smugglers by prescreening its participants. The C-TPAT Program applies to United States importers, customs brokers, consolidators, port and terminal operators, carriers, and foreign manufacturers.

Respondents apply to participate in the Trusted Trader Program and C-TPAT using an on-line application at: <https://ctpat.cbp.dhs.gov/trade-web/index>. The C-TPAT Program application requests an applicant's contact and business information, including the number of company employees, the number of years in business, and a list of company officers. This collection of information is authorized by the SAFE Port Act (Pub. L. 109-347).

The Trusted Trader Program involves a unification of supply chain security aspects of the C-TPAT Program and the internal controls of the Importer Self-Assessment (ISA) Program to integrate supply chain security and trade compliance. The Trusted Trader Program strengthens security by leveraging the C-TPAT supply chain requirements and validation, identifying low-risk trade entities for supply chain security and trade compliance, and increasing the overall efficiency of trade by segmenting risk and processing by account. The Trusted Trader Program applies to importer participants who have satisfied C-TPAT supply chain security and trade compliance requirements.

After an importer obtains Trusted Trader Program membership, the importer will be required to submit an Annual Notification Letter to CBP confirming that they are continuing to meet the requirements of the Trusted Trader Program. This letter should include: Personnel changes that impact the Trusted Trader Program; organizational and procedural changes; a summary of risk assessment and self-testing results; a summary of post-entry amendments and/or disclosures made to CBP; and any importer activity changes within the last 12-month period.
