

# EARLY 2024 RENEWAL REMINDER

The Department of Pesticide Regulation (DPR) will mail out renewal packets in August to license and certificate holders with surnames or business names starting with the letters **A - L**.

## Avoid Renewal Delays

Submitting earlier allows additional time to address application problems that could delay renewal of your license or certificate.

## Submit By October

Mail your application before the end of October so that your license or certificate can be renewed before it expires. You can register with the county as soon as your license or certificate is renewed.

## Renew QP and PCB Early

The qualified person (QP) must be renewed before the pest control business' (PCB) license can be renewed. Submitting both renewals together can reduce renewal times and prevent application problems.

Scan the QR code to visit our website where you can download a license or certificate renewal application. If you have renewal questions, email [LicenseMail@cdpr.ca.gov](mailto:LicenseMail@cdpr.ca.gov) and include your full name (First, MI, Last) and license number(s).
