

## About Me

Danielle Sydnor is the **Founder and CEO** of We Win Strategies Group. **WWSG** is a firm dedicated to working with a diverse array of stakeholders to create **win-win** outcomes for individuals, organizations, and communities. We center our work at the **intersections** of **race** and **economics** while standing on the core belief that, in order for communities to thrive, all people must have access to the resources required to build **liberated self-sufficiency**. We provide strategy consulting, broker connections, lead workshops, develop curriculum, lead projects, and serve as speaker, facilitator, and moderator.
