Section 3 - Description of Control Measures

Carrier must clearly indicate how the provisions of AS 04.09.750 (c)(1) and (2) will be met

Accepting ID: AS 04.09.750(c)(1)	FedEx policy requires alcohol shippers to identify that a package contains alcohol and to select the FedEx Adult Signature Required (ASR) signature service option, which is automatically selected when a customer uses the FedEx alcohol service code. When ASR is selected, FedEx technology directs delivery personnel to review a Government-issued photo ID or other ID customarily accepted by local authorities. The technology prompts delivery personnel to scan the ID to verify that the recipient is 21 or older and record the first initial of the first name and the last name. If the recipient refuses to have their ID scanned, delivery personnel completes a hand ID check, including visually confirming the date of birth on the ID. Delivery personnel cannot close out the delivery without confirming that this done.	Obtaining signature: AS 04.09.750(c)(2)	When the Adult Signature Required signature service option is selected, FedEx technology prompts delivery personnel to obtain the signature of the recipient. Delivery personnel cannot close out the delivery without obtaining the signature.
