AI VIRTUAL CONFERENCE SERIES

AI: Opportunities and Implications for Human Capital

Wednesday, October 04, 2023

11:00 am – 2:05 pm ET

Description:

Artificial intelligence (AI) is rapidly transforming the world of work, and human capital (HC) professionals are at the forefront of this change. AI is already being used to automate many HC tasks, such as recruiting and onboarding, and it's poised to have a major impact on other HR functions including learning & development, performance management, compensation, and benefits. It's also being used to improve and automate tasks across businesses – fundamentally changing how work is done.

This conference will bring together leading experts from AI, Human Capital, business, and government to discuss the implications of AI for Human Capital. We'll discuss how:

- AI is changing the workforce and workplace
- AI is changing the role of Human Capital professionals
- AI can be used to improve Human Capital Management processes
- Human Capital functions can help establish appropriate corporate governance for AI

This conference is a must-attend for any HC professional who wants to stay ahead of the curve in the use of AI in HC. Register today and learn how you can use AI to transform your HC function.

Register today to learn how you can use AI to transform the workforce and workplace.

11:00 – 11:30 am

How AI Will Transform the Workforce

Artificial intelligence (AI) is rapidly changing the way work gets done – raising a host of questions about the future workforce. Learn about the potential impact of AI on the workforce and how organizations can prepare for the future.

Robin Erickson, PhD, Vice President, Human Capital,

The Conference Board

11:35 - 12:05 pm

Workforce Implications of AI

Massella Dukuly, Head of Workplace Strategy, **Charter**

12:10 – 1:00 pm

AI in Human Capital: Use Cases, Opportunities & Challenges

Artificial intelligence (AI) is transforming the work and impact of human capital (HC) teams by automating tasks, improving decision-making, and enhancing employee experience. Learn about the best use cases and opportunities, and unique challenges of AI in Human Capital and how to identify the ways AI can be used to benefit your organization.
